Jacqui Smith: Based on the best available information, the approximated total of grants awarded to sexual assault referral centres for each of the last five years is set out in table 1:

Table 1

	Source	*Total (£)*
2004-05	Home Office SARC Funding	310,000
2005-06	Home Office SARC Funding	709,000
2006-07	Home Office SARC Funding	620,000
2007-08	Home Office SARC Funding	805,000
2008-09	Home Office SARC Funding	663,000

The information provided is not available broken down by constituency level or by rural or urban areas and to do so would incur disproportionate costs.

The Government have provided funding to rape crisis centres in a variety of ways over the past five years including core funding to the national umbrella organisation, Rape Crisis England and Wales and its predecessor bodies as well as funding for Independent Sexual Violence Advisers—a number of which are based in rape crisis centres.

Based on the best available evidence, the approximated total of central Government grants to rape crisis centres awarded from the Victims' Fund, Home Office funding for Independent Sexual Violence Advisors (ISVAs) and the Special Fund to Rape Crisis Centres, for each of the last five years is set out in table 2:

Table 2

	Source	*Total (£)*
2004-05	Victim's Fund	199,270
2005-06	Victim's Fund	543,607
2006-07	Victim's Fund and Home Office (ISVA) funding	631,038
2007-08	Victim's Fund and Home Office (ISVA) funding	862,315
2008-09	Victim's Fund, Home Office (ISVA) funding and special fund	1,744,089

This information is not available broken down by constituency level or by rural or urban areas and to do so would incur disproportionate costs.

UK Border Agency: Travel Requirements

Damian Green: To ask the Secretary of State for the Home Department how many *(a)* emergency travel documents and *(b)* European Union letters the UK Border Agency (i) applied for and (ii) received in 2008. [267454]

Mr. Woolas: It is not possible to provide an accurate figure for the number of Emergency Travel Documents (ETDs) applied for and received by the UK Border Agency in 2008 without incurring disproportionate cost; this is due to discrepancies in the data currently held which would require the detailed examination of individual records to rectify.

Agreements have been reached with a number of countries who allow their nationals to be removed from the UK on European Union (EU) letters. There is not a requirement to apply for an EU letter as the UK Border Agency is granted authority from the host Government to issue these documents independently.

There is no central record of the numbers of EU letters issued by the UK Border Agency and as such this information could only be retrieved by the detailed examination of individual case records at disproportionate cost.

HOUSE OF COMMONS COMMISSION

Departmental Pay

Mr. Hogg: To ask the hon. Member for North Devon, representing the House of Commons Commission how many staff in the House of Commons service received a basic salary of more than that of an hon. Member in financial year 2008-09; what the job title and Department was of each of those members of staff; and how much the basic salary of each was. [269336]

Nick Harvey: The basic salary payable to Members is £63,291 per annum as at 31 March 2009. As at that date, 83 staff were paid an annual salary above this figure. A list of the posts in the Senior Commons Structure and at pay band A1, which have pay maxima higher than Members' current salary, will be placed in the Library. Details of the staff pay bands and staff pay arrangements are available on the parliamentary intranet. The salaries of Members of the Management Board are set out in the House of Commons: Administration annual accounts.

INNOVATION, UNIVERSITIES AND SKILLS

Apprentices

Mr. Hayes: To ask the Secretary of State for Innovation, Universities and Skills what percentage of apprenticeship starts *(a)* at each level and *(b)* by each age group in each year from 2005-06 to 2008-09 were in programme-led apprenticeships. [264029]

Mr. Simon: Tables 1 and 2 show the percentage of apprenticeship starts that were programme led apprenticeships by *(a)* age and *(b)* level in each year from 2005/06 to 2007/08, the latest year for which we have fully audited data. We expect these programme-led apprentices to have a strong link to the workplace. The following figures do not include programme-led apprenticeships in colleges on wholly further education based courses.

Table 1: Programme led apprenticeship starts by level, 2005/06 to 2007/08

Level	*2005/06*	*2006/07*	*Percentage 2007/08*
Level 2-Apprenticeships	11.0	8.6	8.0
Level 3-Advanced Apprenticeships	5.1	5.5	3.7
Other	1.4	0.8	0.5
Total	9.1	7.5	6.5

Table 2: Programme led apprenticeship starts by age, 2005/06 to 2007/08

Age	*2005/06*	*2006/07*	*Percentage 2007/08*
Under 19	11.9	9.7	9.2
19-24	5.6	4.7	5.1
25+	1.6	[1]—	0.2
Total	9.1	7.5	6.5

[1] Indicates nil or negligible

Notes:

1. Figures are based on the number of programme-led apprenticeships in work-based learning.

2. The denominator used in the calculations includes all apprenticeship starts plus a very small number of starts on NVQ only programmes.

Source:

WBL ILR

The Government are committed to rebuilding apprenticeships. Since 1997 we have witnessed a renaissance in apprenticeships from a low point of 65,000 to a record 225,000 apprenticeship starts in 2007/08. Completion rates are also at a record high with 64 per cent. successfully completing an apprenticeship—up from 37 per cent. in 2004/05.

London Metropolitan University

Jeremy Corbyn: To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has made of London Metropolitan University's contribution to widening participation in higher education. [268617]

Mr. Lammy: The performance of individual institutions towards widening participation is shown by performance indicators published annually by the Higher Education Statistical Agency (HESA). These performance indicators show how a university performs against its benchmarks. Benchmarks show what a university with similar circumstances could be expected to achieve.

The performance of London Metropolitan University is shown in the following table. The table shows that the London Metropolitan University is exceeding the benchmarks for young people participating from both state schools and colleges and from lower socio-economic backgrounds. It performs below the benchmark for participation from low participation neighbourhoods.

Table 1: Performance indicators for London Metropolitan university concerned with widening participation

Academic year	*% from state schools or colleges*	*Benchmark (%)*	*% from NS-SEC classes 4,5,6 & 7*	*Benchmark (%)*	*% from low participation neighbourhoods*	*Benchmark (%)*	*% from low participation neighbourhoods (POLAR 2)*[1]	*Benchmark (%)*
2002/03	96.8	92.3	43.7	36.5	12.9	15.9	n/a	n/a
2003/04	96.4	94.1	43.0	36.8	13.5	17.9	n/a	n/a
2004/05	97.3	93.9	40.1	35.3	15.8	17.8	n/a	n/a
2005/06	97.5	94.1	40.9	35.7	16.6	17.9	7.5	10.8
2006/07	97.3	93.3	42.9	35.9	n/a	n/a	7.3	10.8

[1] There was a change in methodology in 2006/07 for the low participation neighbourhood indicator which has produced a break in the time series as figures using different methods cannot be compared. Figures for the 2005/06 year have been re-calculated to show some time series comparison.

"Performance Indicators in Higher Education", published by HESA.

Students: Loans

Grant Shapps: To ask the Secretary of State for Innovation, Universities and Skills how much the Student Loans Company has repaid following overpayments by people with student loans; and if he will make a statement. [269119]

Mr. Lammy: The Statistical First Release Student Loans for Higher Education in England, Financial Year 2007-08 (Provisional) includes the amounts the Student Loans Company has refunded to borrowers from 2005-06. Consistent data are not available for earlier years. This document is published by the Student Loans Company and is available on the SLC website at:

www.slc.co.uk/pdf/slcsfr022008.pdf

For income contingent loans, because there is a time lag between student loan deductions being made and the Student Loan Company (SLC) receiving information from Her Majesty's Revenue and Customs (HMRC), it is possible for people to overpay before the SLC becomes aware that their repayments should stop. Because of this, borrowers are advised to monitor their own repayments so they know when they are likely to come to the end of repaying their loan. If they do not, they could overpay.

The SLC is exploring number of measures to help customers avoid overpayment, including giving them the option to make final repayments outside the tax system, via direct debit, to ensure they do not overpay. The SLC has also introduced new guidance and tools, including an on-line calculator, to help customers work out their loan balance, and therefore when they are likely to repay their loan in full. This facility is also available by telephone.

In the main, MS loans are repaid by direct debit (or standing order), which continue to deduct repayments so long as there is a balance outstanding on the customer's account. SLC administers these loans directly, issuing customers an annual statement. This reduces the likelihood of overpayments being made, although it is still possible for them to occur in some circumstances.

Grant Shapps: To ask the Secretary of State for Innovation, Universities and Skills how many graduates he estimates will complete the repayment of their student loans in the next *(a)* three months, *(b)* six months and *(c)* 12 months. [269121]

Mr. Lammy: The information requested is not available.

The Statistical First Release Student Loans for Higher Education in England, Financial Year 2007-08 (Provisional) includes figures of borrowers who have fully repaid loans in the last three years. This document is published by the Student Loans Company and available on the SLC website at:

www.slc.co.uk/pdf/slcsfr022008.pdf

Train to Gain Programme

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills what proportion of people who started training under Train to Gain did not complete their course in the last period for which figures are available. [261831]

Mr. Simon: The percentage of people successfully completing a Train to Gain qualification is measured using the Train to Gain success rate. This can be used to infer the percentage of people who do not complete their qualification, which will include those learners that did not finish their course.

In 2006/07, the Train to Gain success rate was 70.6 per cent.

INTERNATIONAL DEVELOPMENT

Cameroon: Environment Protection

Jo Swinson: To ask the Secretary of State for International Development how much aid the Government has given to the Cameroon Parliamentary Caucus for Environmental Protection in each of the last five years; what assessment he has made of the effectiveness of the Caucus against its objectives; and if he will make a statement. [270008]

Mr. Ivan Lewis: The UK Government have made no financial or other contributions directly to the Cameroon Parliamentary Caucus for Environmental Protection. A Department for International Development (DFID) funded project—the Forest Governance Facility (FGF)—co-hosted two meetings with the Caucus between March 2007 and summer 2008 on issues relating to (1) environmental policy and legislation in Cameroon and (2) wetlands management and conservation. The FGF also provided some assistance in kind to the Caucus secretariat including print cartridges, reams of paper and the printing of one edition of their newsletter. This did not exceed a value of £200.

There has been no further work or follow up with the Caucus.

Departmental Finance

Jo Swinson: To ask the Secretary of State for International Development what assessment he has made of the merits of requiring each project funded by his Department to publish data on its *(a)* budgeted and *(b)* actual expenditure online; and if he will make a statement. [270009]

Mr. Michael Foster: The Department for International Development (DFID) makes information about project funding available through two portals, the AiDA Development Gateway and the OECD Development Assistance Committee's Creditor Reporting Systems (CRS). These can be accessed through the following links:

AiDA

http://aida.developmentgateway.org/index.do

CRS

www.oecd.org/dac/stats/idsonline

More detailed information including budgeted and actual expenditure is due to be made available through a database on the DFID website later this year. The exact timing is currently being finalised.

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for International Development what guidance his Department issues on whether members of staff may claim for travel in first class carriages on trains if there are no seats in standard class. [268544]

Mr. Ivan Lewis: Employees of the Department for International Development (DFID) must travel by the most efficient and economical means when travelling on official business. Staff are required to travel in standard class carriages for rail journeys within the UK, unless they are expected to work during the trip, when first class travel is allowed. Where no standard class seats are available, staff are permitted to travel first class where this provides the most economical means of meeting the business need.

JUSTICE

Criminal Justice Act 1996: Convictions

James Brokenshire: To ask the Secretary of State for Justice how many people were *(a)* prosecuted and *(b)* convicted for an offence under sections 139 and 139A of the Criminal Justice Act 1996 in 2007; and on how many occasions the maximum sentence of imprisonment was imposed. [263178]

Maria Eagle: Information showing the number of persons proceeded against at magistrates courts, found guilty, sentenced, and sentenced to immediate custody at all courts for offences under sections 139 and 139A of the Criminal Justice Act 1988 (as amended by the Offensive Weapons Act 1996) and under section 1 of the Prevention of Crime Act 1953 in England and Wales in 2007 are shown in the table.

The statutory maximum penalty is reserved generally for the worst of cases for which it is prescribed and therefore rarely imposed. This is true across all types of offences.

If it was found that the courts were sentencing at, or near, the maximum for any offence with any degree of frequency this would cause us to look at the maximum penalty to see if it were set high enough to cater for the cases coming before the courts. It is likely that the courts would draw our attention to any such cases and indicate that they did not consider that their powers were sufficient.

More offenders are being sent to jail for the number of offences resulting in immediate custody rose from 1,125 in the last quarter of 2007 to 1,386 in the same period of 2008. On average there was a 40 per cent. increase in the number of prisoners serving a sentence for possession of an offensive weapon between the same periods.

Fewer cautions being issued: the number fell 31 per cent. over the same period (1,706 in the last quarter of 2008 compared to 2,455 in the same period of 2007).

Number of persons proceeded against at magistrates courts, found guilty, sentenced, sentenced to immediate custody and given the maximum custodial sentence at all courts for offences under sections 139 and 139A of the Criminal Justice Act 1988 and section 1 of the 1953 Prevention of Crime Act, England and Wales, 2007[1,2]

Offence	*Statute*	*Proceeded against*	*Found guilty*	*Total sentenced*	*Number sentenced to immediate custody*	*Given the maximum determinate custodial sentence*
Possession of offensive weapons without lawful authority or reasonable excuse.	Prevention of Crime Act 1953 Sec. 1(1) as amended by Offensive Weapons Act 1996 S.2(1).	7,702	5,636	5,585	852	0

Number of persons proceeded against at magistrates courts, found guilty, sentenced, sentenced to immediate custody and given the maximum custodial sentence at all courts for offences under sections 139 and 139A of the Criminal Justice Act 1988 and section 1 of the 1953 Prevention of Crime Act, England and Wales, 2007[1,2]

Offence	*Statute*	*Proceeded against*	*Found guilty*	*Total sentenced*	*Number sentenced to immediate custody*	*Given the maximum determinate custodial sentence*
Having an article with blade or point in public place.	Criminal Justice Act 1988 S.139 as amended by Offensive Weapons Act 1996 S3.	7,356	6,123	6,121	1,060	[3]2
Having an article with blade or point on school premises.	Criminal Justice Act 1988 S.139A (1)(5)(a) as added by Offensive Weapons Act 1996 S.4(1).	48	46	45	5	0
Possession of offensive weapons without lawful authority or reasonable excuse on school premises.	Criminal Justice Act 1988 S.139A (2)(5)(b) as added by Offensive Weapons Act 1996 S.4(1).	33	27	26	1	0

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The maximum determinate sentence for possessing an article with a blade or point in a public place or at school was changed from two to four years by the Violent Crime Reduction Act 2006 for offences committed on or after 12 February 2007. Data held on the Ministry Courts Proceeding Database do not identify the date the offence was committed so it cannot be determined which maximum sentence offenders would have been eligible for. The maximum used here is two years. No offenders received a four year custodial sentence.

Evidence and Analysis Unit—Office for Criminal Justice Reform.

Departmental Buildings

Mr. Hunt: To ask the Secretary of State for Justice what *(a)* grade II, *(b)* grade II* and *(c)* grade I listed buildings have been owned by his Department in each of the last three years. [266859]

Mr. Malik: Information relating to grade listed buildings within the Ministry of Justice (MOJ) estate is as follows:

MOJ HQ

MOJ HQ has only one listed building, Gwydyr House, which is Grade II* listed. The ownership of Gwydyr House pre-dates April 2006.

Her Majesty's Prison Service (HMPS)

HMPS have provided a document detailing all listed buildings and monuments they own and their location. The information includes specific details of exactly which part of each building or monument is listed. There are examples of buildings that have several separate listings and are graded differently. This information has been placed in the House Libraries.

Her Majesty's Courts Service (HMCS)

HMCS have provided a schedule of Ancient Monuments and schedules of Grade I listed buildings, Grade II listed buildings and Grade II* listed buildings. All information provided is of buildings where ownership pre-dates April 2006. This information has been placed in the House Libraries.

Tribunal Service

The Tribunal Service has two listed buildings; 52 Melville Street, Edinburgh which is graded B (the Scottish equivalent to Grade II) and 14 East Parade, Sheffield which is also Grade II listed. Both buildings pre-date April 2006 in terms of ownership.

National Offender Management Service (non-custodial)

NOMS do not hold this information centrally and to obtain would require undertaking an investigation which would incur a disproportionate cost.

Dr. Pugh: To ask the Secretary of State for Justice what buildings are owned or operated by his Department under a private finance initiative (PFI) arrangement; and which companies are involved with each such PFI arrangement. [267407]

Mr. Straw: The following buildings are owned or operated under PFI arrangements by the specified operators:

	PFI Operators
Prison	
HMP Parc	Securicor + Costain/Skanska
HMP Altcourse	Group 4 + Carillion
HMP Lowdham Grange	Premier Custodial Group + Skanska
HMP Ashfield	Premier Custodial Group + Skanska
HMP Forest Bank	Kaylx + Interserve
HMP Rye Hill/Onley	Group 4 + Carillion
HMP Dovegate	Premier Custodial Group + Skanska
HMP Bronzefield	Kaylx + Interserve
HMP Peterborough	Kaylx + Interserve
Court	
Hereford, Kidderminster, Worcester and Redditch Magistrates Court	Babcock and Brown Properties Ltd
Hull, Beverly and Bridlington Magistrates Courts	Mowlems Plc and Innisfree
Derby and Chesterfield Magistrates Courts	Babcock and Brown Properties Ltd
Manchester Magistrates Court	Group 4 now GSL, Carillion and Societe Generale
Exeter Combined Courts	HSBC Ltd, Alfred McAlpine Ltd and Sodexho Ltd
Ipswich and Cambridge Crown Courts	Mowlems Plc
Sheffield Family Hearing Centre	Palecastle Ltd
Avon and Somerset PFI—North Somerset (Worle) Magistrates Courthouse	Amey, Equion and Bank of Scotland
Bristol Magistrates Court	Amey, Equion and Bank of Scotland
Probate Records Storage Facility	Iron Mountain

Home Detention Curfews: Greater London

Dr. Murrison: To ask the Secretary of State for Justice how many prisoners were released from each prison in London under home detention curfew orders in each of the last 12 months; and if he will make a statement. [268758]

Mr. Hanson: The following table shows the number of prisoners released under the Home Detention Curfew scheme from prison establishments in London in each month in 2007, which is the latest year for which the data are available.

	Belmarsh	*Brixton*	*Feltham*	*Holloway*	*Latchmere House*	*Pentonville*	*Wormwood Scrubs*	*Wandsworth*
All 2007	70	30	*	110	*	60	160	40
January 2007	10	*	0	10	0	10	10	*
February 2007	*	*	0	10	0	10	10	*
March 2007	10	0	*	20	0	*	20	*
April 2007	10	*	0	10	0	10	10	*
May 2007	10	*	0	10	0	10	10	*
June 2007	10	*	0	10	0	*	20	10
July 2007	10	10	0	*	0	10	10	*
August 2007	*	*	0	10	0	10	10	*
September 2007	10	*	0	10	0	*	10	*
October 2007	*	0	0	10	*	10	10	*
November 2007	10	*	*	10	*	10	20	*
December 2007	*	*	*	10	0	*	20	10

Note:
Figures rounded to the nearest 10; '*' indicates number of releases is fewer than 5 (but not 0).

The Home Detention Curfew scheme enables suitable prisoners primarily serving between three months and less than four years to be released subject to an electronically monitored curfew up to 135 days earlier than the half way point of their sentence. The scheme has been very successful in providing prisoners with a smoother and more effective re-integration into the community enabling prisoners to be released from prison early, while still subject to restrictions placed on their liberty. HDC helps prisoners resume employment or training at an earlier stage and so support themselves and their families.

The decision to grant release on HDC rests with the Governor and eligible prisoners must pass a risk assessment, which includes an assessment of home circumstances carried out by the probation service, before release can be granted.

Prisoners subject to the notification requirements of the Sexual Offences Act 2003 and those serving extended sentences for public protection are statutorily excluded from release on HDC. Offenders serving sentences for certain serious violent offences, including prisoners serving sentences for terrorism legislation offences and prisoners with any history of sexual offending are presumed unsuitable unless there are exceptional circumstances.

No prisoners are released on HDC unless they have served at least one quarter of their sentence subject to a minimum of 30 days in custody. These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing, and have therefore been rounded to the nearest 10.

National Offender Management Service: Recruitment

Dr. Murrison: To ask the Secretary of State for Justice by what method of competition the Director General of the National Offender Management Service was recruited; and if he will make a statement. [268762]

Mr. Hanson: The director general of NOMS Phil Wheatley was recruited to this position by a managed appointment.

Swaleside Prison

Dr. Murrison: To ask the Secretary of State for Justice how many *(a)* members of HM Prison Service Board and *(b)* Prison Service area managers have been employed at HM Prison Swaleside in the last 12 months. [268755]

Mr. Hanson: No members of NOMS board or PS area managers have been employed at HMP Swaleside in the last 12 months.

LEADER OF THE HOUSE

Members: Allowances

Mr. Gordon Prentice: To ask the Leader of the House how many hon. Members have been required to reimburse the Members' Vote following a determination that a parliamentary report funded from the Communications Allowance fell outside the rules which apply to that allowance in the last 12 months for which figures are available. [268665]

Chris Bryant: In the 2008-09 financial year the Department was asked by Members to review some 1,250 individual publications about half of which were parliamentary reports. Some 50 per cent. of documents reviewed were approved without amendment. One Member was asked to repay costs relating to a parliamentary report as a result of a case considered by the Standards and Privileges Committee and a further five Members were asked to repay costs as a result of decisions by the Department of Resources, either following a complaint or a review of a claim.

NORTHERN IRELAND

Prison Officers: Safety

6. **Mr. Hollobone:** To ask the Secretary of State for Northern Ireland what steps the Government is taking to ensure the safety of prison officers in the Northern Ireland Prison Service. [269409]

Paul Goggins: The safety of prison officers is of the utmost importance to Government. A range of measures are in place to ensure that staff are properly protected.

Dissident Republicans

7. **Mr. Harper:** To ask the Secretary of State for Northern Ireland what assessment he has made of recent activities by dissident Republicans in Northern Ireland; and if he will make a statement. [269410]

Mr. Woodward: Following the recent attacks by criminals calling themselves dissident Republicans, the House will wish to know that three individuals have been charged with the murder of Constable Stephen Carroll and one charged with the murders of Snappers Patrick Azimkar and Mark Quinsey.

Police Reserve

8. **Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what his plans are for the future of the full-time police reserve in Northern Ireland. [269411]

Paul Goggins: The future of the full-time reserve is an operational matter for the Chief Constable of the PSNI. He will take decisions on the basis of operational need and his assessment of the security situation.

Police Officers: Safety and Security

10. **Christopher Fraser:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Chief Constable of the Police Service of Northern Ireland on the safety and security of police officers in that service. [269413]

12. **Mr. Scott:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Chief Constable of the Police Service of Northern Ireland on the safety and security of police officers in that service. [269415]

13. **Miss Kirkbride:** To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Chief Constable of the Police Service of Northern Ireland on the safety and security of police officers in that service. [269416]

Mr. Woodward: The safety of police officers is a matter of regular discussion between the Chief Constable and me. We will continue to take all proportionate measures to protect both the public and those who protect the public.

Dissident Political Organisations

14. **Ann Winterton:** To ask the Secretary of State for Northern Ireland what recent estimate he has made of the number of people belonging to dissident political organisations in Northern Ireland. [269417]

Mr. Woodward: I refer the hon. Member to the answer I gave earlier to the hon. Member for Clwyd, West (Mr. Jones).

Decommissioning Weapons

Mr. Benyon: To ask the Secretary of State for Northern Ireland what recent progress has been made in respect of decommissioning weapons held by Loyalist paramilitary groups; and if he will make a statement. [269414]

Paul Goggins: The Independent International commission on decommissioning has confirmed that they are making meaningful progress and will report again in August. Parliament has made it clear that Loyalist paramilitary organisations have this one last opportunity to decommission their weapons.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Northern Ireland what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268125]

Paul Goggins: Capital DEL (departmental expenditure limits) for 2008-09, 2009-10 and 2010-11 were set at the 2007 Comprehensive Spending Review. The latest Capital DEL tables, including figures for the Northern Ireland Office, are published on page 214 of the pre-Budget report in November 2008:

http://www.hm-treasury.gov.uk

The Government have not set departments' Capital DEL budgets for years beyond 2010-11. Capital DEL budgets for 2011-12 and beyond are a matter for the next spending review. The Government do, however, publish projections for PSNI (Public Sector Net Investment) over the forecast period at Budgets and pre-Budget reports.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Northern Ireland what his Department's policy is on the practice of holding departmental away days outside the Department's buildings. [268537]

Paul Goggins: The Northern Ireland Office policy on departmental away days encourages use of Government buildings as the venue for events.

Grant Shapps: To ask the Secretary of State for Northern Ireland how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisation provided such training. [268548]

Mr. Woodward: The Northern Ireland Office has not delivered or incurred expenditure on media training for ministers in the last three years.

Organised Crime

Bob Spink: To ask the Secretary of State for Northern Ireland what recent assessment he has made of the relationship between paramilitary activity and organised crime in Northern Ireland. [269405]

Mr. Woodward: As the 20th report from the Independent Monitoring Commission has made clear, criminals with links to a variety of paramilitary organisations continue to be involved in organised crime in Northern Ireland.

SCOTLAND

China

Mr. MacNeil: To ask the Secretary of State for Scotland pursuant to the Answer of 27 March 2009, *Official Report*, column 735W, on China, what the cost was of civil servant and special adviser support during his visit to China. [269831]

Ann McKechin: The travel and accommodation costs recorded are £12,793.36.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Scotland how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270508]

Ann McKechin: No staff working in the Scotland Office are suspended.

TRANSPORT

European Rail Traffic Management System

Norman Baker: To ask the Secretary of State for Transport what progress there has been on the introduction of the European Rail Traffic Management System, with particular reference to the UK. [269054]

Paul Clark: The first deployment of the European Rail Traffic Management System in the UK is under way on the Cambrian lines in Wales. Level 2 of the European Rail Traffic Management system will be installed on the infrastructure from Sutton Bridge Junction to Aberystwyth and Pwllheli and the existing line side signalling will be decommissioned.

The Arriva Train Wales fleet of 24 Class 158 vehicles will be fitted with European Rail Traffic Management on-board equipment, as well as three class 97 locomotives which will act as pilot locomotives for non-fitted vehicles.

The first part of the route, from Pwllheli to Harlech, is expected to enter into passenger service in the third quarter of 2009. The remainder of the route is expected to enter service in the final quarter of 2009.

This first deployment on the Cambrian lines enables the UK to develop the rules and processes needed for the successful roll-out of the European Rail Traffic Management System across the UK.

The national roll-out of the system is described in the UK 'ERTMS National Implementation Plan' published on the Department for Transport website at:

http://www.dft.gov.uk/adobepdf/165234/349552/ukertmsplan.pdf

Norman Baker: To ask the Secretary of State for Transport what studies have been carried out on the introduction of the European Rail Traffic Management System, with particular reference to the UK; and what the results of those studies were. [269055]

Paul Clark: In 2007 the Department for Transport commissioned a study into the suitability of the European Rail Traffic Management System for use in high density networks such as Thameslink. The study also evaluated whether the system could be successful integrated with an Automatic Train Operation overlay. The study contract was awarded to Parsons in October 2007.

The study concluded the following:

That the European Rail Traffic Management System is capable of delivering high density rail service operations; and

There is nothing within the European Union specifications for the European Rail Traffic Management System that prevent it from being integrated with Automatic Train Operation.

Norman Baker: To ask the Secretary of State for Transport when he expects the European Rail Traffic Management System could be introduced across the rail network, with particular reference to the UK. [269056]

Paul Clark: The Department for Transport has notified its European Rail Traffic Management System deployment plan to the European Commission. It was notified in 2007 and is published on the Department for Transport website at

www.dft.gsi.gov.uk

It describes the national roll-out plan for the European Rail Traffic Management System, of which the first deployment is on the Cambrian lines, due to enter service in the third quarter of 2009. The overall deployment will be evaluated in the context of the lessons learnt from the first deployment on Cambrian.

The plan is being deployed in a number of member states. At the end of 2008, approximately 2600 km of lines within the European Union were in commercial European Rail Traffic Management System service within nine countries, including Switzerland.

High Speed Trains

Stephen Hammond: To ask the Secretary of State for Transport with reference to the letter which he placed in the Library from the Permanent Secretary of his Department to a director of High Speed Two Limited of 14 January 2009, if he will place in the Library a copy of the programme of anticipated expenditure and breakdown of the costs of High Speed Two Limited. [269006]

Paul Clark: A breakdown of High Speed Two's proposed expenditure budget (up to the end of the financial year 2009-10) is set out in the following table.

	Total (including VAT) (£)
Staff costs	2,654,458
Board costs	209,226
Facility costs	175,393
Travel and Subsistence	38,500
Admin costs	44,799
Project costs and consultancy costs	3,944,500
Total	7,066,876

Lighting

Mrs. Spelman: To ask the Secretary of State for Transport pursuant to the answer of 2 February 2009, *Official Report*, column 958W, on lighting, what guidance *(a)* his Department and *(b)* its agencies has issued to local authorities on night-time street lighting and efficiency savings. [270132]

Paul Clark: It is for each local highway authority to decide what level of service they wish their street lighting network to deliver; and decisions on reducing the hours of operation will need to take into account the reasons for which the lighting was provided in the first place. Any reduction in energy use would have to be balanced against any potential adverse effects.

Where local authorities are considering reducing operating hours, the Government encourage them to consider the issues in "Invest to Save", produced by the UK Lighting Board and the Institution of Lighting Engineers (available from www.ile.org.uk). The Government also supports the Carbon Trust's Local Authorities Carbon Management Programme, which provides councils with technical and change management support and guidance to help them realise carbon emissions savings from street lighting.

Motor Vehicles: Taxation

Sandra Gidley: To ask the Secretary of State for Transport how many verified reports of untaxed motor vehicles the Driver and Vehicle Licensing Agency (DVLA) has received in the last 12 months; and how many of these have been *(a)* acted upon by the DVLA and *(b)* referred to the relevant police authority. [269791]

Jim Fitzpatrick: Within the period April 2008-March 2009, the agency received 472,858 untaxed vehicle reports. This resulted in the issue of 227,719 out-of-court settlements and 150,583 court summonses. The agency does not refer verified reports to police authorities.

The agency receives untaxed vehicle reports from various sources including the police, local authorities, ANPR and wheel-clamping units. Following investigation, where appropriate, enforcement action is taken.

Reasons for non-pursuit of cases include:

lack of a confirmed keeper;

lack of a target address;

cases closed where doubt as to liability exists; and

closures on compassionate grounds.

Motorway Service Areas

Mr. Lancaster: To ask the Secretary of State for Transport what discussions his Department had with private contractors operating motorway service stations when preparing its tiredness kills campaign. [270232]

Jim Fitzpatrick: The Department for Transport's partnership marketing agency approached motorway service area operators to promote materials for the Department's Driver Tiredness campaign which ran between March and May 2008. There have been no other discussions with regard to the Driver Tiredness campaign.

Network Rail: Incentives

Norman Baker: To ask the Secretary of State for Transport if he will publish the documents held by his Department setting out the incentive structure for Network Rail. [269058]

Paul Clark: Decisions on the bonuses payable to Network Rail staff are a matter for the company's independent Remuneration Committee, not for the Government. The details of the company's annual Management Incentive Plan are published in its annual report and accounts, which can be found on the Network Rail website at

www.networkrail.co.uk

Bonuses are determined against key performance indicator targets set by the independent Office of Rail Regulation in accordance with condition 16 of Network Rail's network licence.

On 1 April the Office of Rail Regulation introduced changes to Network Rail's network licence to strengthen the company's accountability. These require Network Rail's Remuneration Committee to be more transparent in its executive bonus decision making process; and to publish an annual account of how the bonus awards have been calculated. The formal licence modification notice can be found on the Office of Rail Regulation's website at

www.rail-reg.gov.uk.

Network Rail: Pay

Mr. Gordon Prentice: To ask the Secretary of State for Transport whether he is consulted on the *(a)* salary and *(b)* bonuses of board members of Network Rail; and if he will make a statement. [268874]

Paul Clark: Decisions on the remuneration and incentivisation of Network Rail's executive directors are a matter for the company's independent Remuneration Committee. Bonuses are determined against key performance indicator targets set by the independent Office of Regulation in accordance with condition 16 of Network Rail's network licence. The terms of Network Rail's Management Incentive Policy can be modified only with the consent of the Office of Rail Regulation.

As part of the Office of Rail Regulation's Periodic Review 2008 Final Determinations, changes were introduced on 1 April to Network Rail's network licence to strengthen the company's accountability. These require Network

Rail's Remuneration Committee to be more transparent in its executive bonus decision-making process; to publish an annual account of how the bonus awards have been calculated; and to explain how it has taken into account input from the Office of Rail Regulation.

Parking: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Transport what the policy is of *(a)* his Department and *(b)* its agencies on whether their staff who have a parking space in an area with workplace parking charges should have the cost of the charge met by their employer. [270266]

Paul Clark: There are no areas with a workplace parking levy. The Department for Transport is currently considering whether to confirm Nottingham City council's workplace parking levy order.

Parking: Public Consultation

Mrs. Spelman: To ask the Secretary of State for Transport if he will place in the Library a copy of each response to his Department's consultation on Workplace Parking Levy—Completing the Legal Framework. [270105]

Paul Clark: An announcement will be made in due course.

Public Transport: Rural Areas

Mrs. Villiers: To ask the Secretary of State for Transport what estimate his Department has made of the cost of the Taxiplus pilot scheme as proposed in paragraph 8.10 of the Commission for Integrated Transport's study, A New Approach to Rural Public Transport. [270048]

Paul Clark: The Department for Transport is considering the recommendations made by the Commission for Integrated Transport in its report A New Approach to Rural Public Transport. We have not made any detailed cost estimate of the recommendation for a Taxiplus pilot scheme.

Railways

Mr. David Anderson: To ask the Secretary of State for Transport (1) if he will take steps to ensure that Network Rail does not defer essential renewal work; [268666]

(2) if he will take steps to ensure there is no reduction in the frequency of signal maintenance on railway lines; [268667]

(3) if he will take steps to ensure that there is no reduction in the frequency of rail track inspections. [268668]

Paul Clark: These are operational matters for Network Rail as it aims to deliver the value for money needed to meet the output and efficiency targets for maintenance and renewal of the national network over the next five years of Control Period 4, set by the Office of Rail Regulation. Details of these targets can be found in "Periodic review 2008—Determination of Network Rail's outputs and funding for 2009-14". As the industry economic and safety regulator, the Office of Rail Regulation will independently monitor the work.

Network Rail has announced that it will be investing almost £4 billion on an intensive track renewals programme to further improve the network between 2009-14. Total outputs will remain as previously planned, though phasing adjustments in the early part of the five-year period will result in less track renewal work in 2009-10 to allow time for new, more efficient working practices to take effect. Network Rail has made clear that only non-critical work will be deferred.

Network Rail's decision relates solely to track renewals. The company has assured the Department for Transport that maintenance and track inspections will not be affected.

Jeremy Corbyn: To ask the Secretary of State for Transport what estimate he has made of the likely change in the number of rail passengers in the 12 months from April 2009. [269755]

Paul Clark: The Department for Transport does not make forecasts of year-on-year changes in rail passenger numbers. The Government's High Level Output Specification for the railways for the period 2009-14 is set out in the White Paper "Delivering a Sustainable Railway", published in July 2007. This forecasts rail passenger numbers for 2008-09 and specifies the additional numbers to be accommodated on the network by the end of the 2013-14.

Railways: South East

Stephen Hammond: To ask the Secretary of State for Transport whether any bidders for the South Central rail franchise run existing rail franchises to which his Department has assigned red light status as part of its routine review of the operational and financial performance of train operating companies. [269009]

Paul Clark: The Department for Transport assesses the financial profile of all the bidders as part of the evaluation of all franchise tenders.

The Department does not comment on the financial performance of the companies operating existing franchises as that information is commercially sensitive.

Railways: Standards

Norman Baker: To ask the Secretary of State for Transport if he will publish statistics showing the number of delay minutes on the railways in each year since 1997, broken down by cause of delay. [269057]

Paul Clark: The Department for Transport does not hold information specifically about delay minutes on the railways broken down by cause of delay.

Data on rail performance, including on delay minutes, are published by the Office of Rail Regulation. For recent annual assessments of Network Rail and whole-industry performance, the hon. Member may wish to consult the Office of Rail Regulation's website at:

www.rail-reg.gov.uk/server/show/nav.2050

Historically published information can also be viewed at:

http://www.rail-reg.gov.uk/server/show/nav.1240

Roads: Birmingham

Mr. Godsiff: To ask the Secretary of State for Transport what funding his Department has provided for highway maintenance and improvement in Birmingham, Sparkbrook and Small Heath constituency in the last three years for which figures are available. [270034]

Paul Clark: Birmingham city council is the local highway authority for the area covered by the Birmingham, Sparkbrook and Small Heath constituency. The funding support allocated to the authority by my Department for highway maintenance and improvements for 2008-09, 2009-10 and 2010-11 is shown in the following table.

£000

	2008-09	*2009-10*	*2010-11*
Capital highways maintenance	6,571	7,229	8,313
Strengthening of structures on the primary route network	2,690	725	715
Resource funding for maintenance of de-trunked roads	1,288	1,321	1,354

Birmingham city council are a partner in the joint West Midlands local transport plan (LTP). This LTP was allocated a road safety grant for the period 2008-09 to 2010-11. The details of the allocation are:

£

	2008-09	*2009-10*	*2010-11*
Road Safety capital grant	844,889	808,829	835,991
Road Safety resource grant	3,797,355	3,635,286	3,755,563

It is for Birmingham city council to decide how their funding is spent in line with the authority's priorities.

In addition, central funding support for services, including routine highways, is provided by Communities and local Government through the revenue support grant. This funding is not ring fenced.

Roads: Sight Impaired

Mr. Clifton-Brown: To ask the Secretary of State for Transport if he will introduce a moratorium on all shared surface streets incorporating roads and pavements until after the publication of his Department's research into the effect of shared surface street design on partially sighted people. [270295]

Paul Clark: We have no plans for a moratorium on shared surface street schemes. The Department for Transport is aware of and appreciates the concerns of some disabled people regarding shared surfaces, but there is no conclusive evidence that such schemes are inherently less safe than conventionally kerbed streets. There is a considerable amount of anecdotal evidence that shared space schemes (which often include shared surfaces) enhance the public realm, and can deliver accessibility benefits without compromising safety.

The Department intends to make evidence-based policy in this area, and to understand how shared space could be made to work for all road users, including visually impaired people. It is for this reason that the Department is conducting a comprehensive two-year research project into shared space, aimed at informing future policy and guidance.

Roads: Snow and Ice

Mr. Harper: To ask the Secretary of State for Transport (1) how much salt was *(a)* ordered and *(b)* received by the Highways Agency from Salt Union in each week between 1 January and 16 February 2009; [267114]

(2) if he will place in the Library a copy of *(a)* his Department's and *(b)* the Highways Agency's correspondence on delivery plans and priorities with Salt Union which took place between 26 January and 9 February 2009; [267115]

(3) what assistance with salt supplies the Highways Agency provided to Gloucestershire County Council between 26 January and 9 February 2009; [267117]

(4) pursuant to the answer of 27 February 2009, *Official Report*, column 1102W, on roads: snow and ice, if he will place in the Library a copy of the advice issued daily to salt suppliers on each day between 26 January and 9 February 2009. [267165]

Paul Clark *[holding answer 26 March 2009]*: The Highways Agency's contracted service providers are responsible for delivery of the winter service on the strategic road network, including the purchase of road salt. The Highways Agency does not purchase salt directly and does not hold information on orders placed or salt received by its service providers.

The central Government led advisory salt prioritisation process was based upon information provided by trunk road and local highway authorities on salt stocks, estimates of future usage derived from Met Office forecasts, and an assessment of the available market supply. The process involved officials from the Cabinet Office Civil Contingencies Secretariat, the Department for Communities and Local Government, the Highways Agency, the Local Government Association and the Department for Transport.

During the weekend of the 7 and 8 February 2009, one of the primary salt suppliers could not make deliveries due to drivers hours restrictions. The Highways Agency provided haulage to deliver 4,457 tonnes of salt to 55 local authorities in England, including 784 tonnes to Gloucestershire county council.

Agreement was sought from the salt suppliers for the Department for Transport to provide the correspondence between them and the Department, covering delivery plans and priorities. We were requested not to provide any information which could identify named customers, as that information was considered to be commercial confidential. The following summary of advice provided on priorities for deliveries between 26 January and 9 February by Government to the salt suppliers therefore includes aggregated data only.

Date of advice	*Delivery date*	*Number of local highways authorities suppliers advised as a priority for delivery*[1]	*Number of national highways authorities suppliers advised as a priority for delivery*[2]	*Total tonnage*
6 February	7 February	31	—	3,232
6 February	7 February	—	0	0
7 February	8 February	22	—	1,377
7 February	8 February	—	9	2,737
8 February	9 February	26	—	1,775
8 February	9 February	—	9	2,325
9 February	10 February	38	—	3,925
9 February	10 February	—	3	1,075

[1] Includes English and Welsh authorities.
[2] Highway agencies advised deliveries are recorded as a separate location for each delivery. Scotland's deliveries, were for the 9 February only and are recorded as a single entry for all locations.

The Department for Transport has invited the UK Roads Liaison Group to review the lessons learnt from the recent salt supply difficulties, including whether prioritisation arrangements could be improved, should it operate in the future. Gloucestershire county council are to be represented on the steering group for the review.

Speed Limits: Cameras

Mrs. Spelman: To ask the Secretary of State for Transport what requirements there are upon local authorities to install signs alerting motorists to the presence of speed cameras. [268845]

Jim Fitzpatrick: Department for Transport circular 01/2007 provides guidance to local authorities on the deployment, visibility and signing of speed and red light cameras. This came into effect on 1 April 2007 and recommends the use of camera warning signs where permitted and practicable. The signing is contained in the Traffic Signs Regulations and General Directions (TSRGD) and its use is not mandatory. However, in order for a speed limit to be enforced all speed limit signing must be lawful and correct and in accordance with TSRGD. The guidance was placed in the Library of the House and is also available on the Department's website.

Tower Bridge

Mrs. Villiers: To ask the Secretary of State for Transport if he will review the *(a)* legislative and *(b)* administrative requirements for Tower Bridge to be raised on demand for the passage of vessels. [268996]

Jim Fitzpatrick: Under the 1885 Corporation of London (Tower Bridge) Act the Corporation is responsible for the administration and operation of Tower Bridge. The Act states that priority must be given to vessels and it is for the Corporation to decide whether to review these requirements.

Bridge operators are aware of the impact bridge lifts have upon local traffic and work to minimise disruption. Certain strict criteria must be met before vessels are allowed to pass through the bridge.

Transport Innovation Fund

Mrs. Spelman: To ask the Secretary of State for Transport which local authorities have submitted bids for Transport Innovation Fund funding; and for what projects each is bidding. [270127]

Paul Clark: So far Transport Innovation Fund Proposals have been submitted by the Association of Greater Manchester Authorities but, following a local referendum, they have decided not to proceed with them. We continue to work with a number of other authorities as they consider their congestion problems and the role that demand management, including road pricing, alongside better public transport could play in tackling them and, if appropriate, develop proposals.

Wind Power: Planning Permission

Dr. Whitehead: To ask the Secretary of State for Transport how many objections to proposals for the development of on-shore wind farms were lodged by the Highways Agency in each year since 2004. [269220]

Paul Clark: Since 2004 the Highways Agency has objected on road safety grounds to four proposals for the development of on-shore wind farms: one in 2005 and three in 2007.

TREASURY

Banks: Ireland

Bob Spink: To ask the Chancellor of the Exchequer what information his Department holds on the number of British nationals who had money deposited with *(a)* Bank of Ireland and *(b)* Anglo Irish Bank in each of the last three years; and if he will make a statement; [270209]

(2) what advice he has given to British nationals with money deposited with *(a)* the Bank of Ireland and *(b)* the Anglo Irish Bank in the event of a default; and if he will make a statement. [270229]

Ian Pearson: As a matter of course, HM Treasury does not comment on individual financial institutions.

WORK AND PENSIONS

Asbestos

Paul Rowen: To ask the Secretary of State for Work and Pensions how many prosecutions the Health and Safety Executive has brought against local authorities in respect of incidents involving asbestos in each of the last three years. [268413]

Jonathan Shaw: The number of prosecutions brought by the Health and Safety Executive against individual local authorities in respect of incidents involving asbestos in each of its last three work years for which figures are available is shown in the following table.

	Number of prosecutions
2005-06	2
2006-07	0
2007-08	4

For the six authorities prosecuted, more than one charge was brought in every case. That is a total of 14 separate charges resulting in a conviction with one finding of not guilty.

Carer's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions (1) what estimate his Department has made of the cost to the public purse of an annual increase in the earnings limit for carer's allowance of *(a)* £5, *(b)* £7.50, *(c)* £10, *(d)* £12.50, *(e)* £15, *(f)* £17.50, *(g)* £20, *(h)* £22.50 and *(i)* £25 in each of the next six years; [266724]

Steve Webb: To ask the Secretary of State for Work and Pensions if he will estimate the cost to the public purse of increasing the earnings limit in carer's allowance by *(a)* £10 per week, *(b)* £20 per week and *(c)* £50 per week; and if he will estimate the number of people who would become entitled to the benefit in each case. [260121]

Jonathan Shaw: Robust evidence on the possible behavioural effects from adjusting the earnings limit for carer's allowance is not available and we are therefore not able to estimate accurately the costs for extending the earnings limit for the specified amounts.

We recognise the importance of supporting carers who want to combine work with caring. However, we also need to maintain a balance between the income of carers on benefits who can combine paid work with caring, and those who cannot.

Children: Maintenance

Mr. Vara: To ask the Secretary of State for Work and Pensions (1) how much the Child Support Agency spent on paternity tests in each of the last five years; [265860]

(2) how many requests for DNA paternity tests were lodged with the Child Support Agency by non-resident fathers in each of the last five years; and how many such requests were granted; [265868]

(3) on what grounds the Child Maintenance and Enforcement Commission may decline to carry out a paternity test on the request of a presumed non-resident father. [265870]

Kitty Ussher: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system including the Child Support Agency. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Questions about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how much the Child Support Agency spent on paternity tests in each of the last five years, [265860] and

How many requests for DNA paternity tests were lodged with the Child Support Agency by non-resident fathers in each of the last five years; and how many such requests were granted, [265868] and

On what grounds the Child Support Agency may decline to carry out a paternity test on the request of a presumed non-resident father. [265870]

The Child Support Agency is able to presume paternity without the need for a DNA test where certain conditions are met, for example where the non-resident parent was married to the parent with care at the time of conception or is named on the birth certificate. These conditions in full are set out in Section 26 of the Child Support Act 1991. Where the parent with care casts doubt as to our presumption of paternity, or where the non-resident parent has provided evidence to show that he may not be the father, the Child Support Agency does have the discretion to ask a DNA testing company, approved by the Ministry of Justice, to undertake a DNA test. This is subject to both parents agreeing to such a test being carried out.

Where the non-resident parent is unable to produce evidence to support his challenge to the Commission's presumption of paternity, the Child Support Agency may decline a request to be referred to a DNA testing company, however the non-resident parent retains the right to seek to rebut such a presumption through the courts. The Child Support Agency will however also accept the results of any DNA test obtained privately by the parents, provided that the Agency is satisfied that the test was properly carried out by a company approved by the Ministry of Justice.

The Child Support Agency does not hold any information on the number of non-resident parents who request a DNA test and the number subsequently referred by the Child Support Agency to an approved DNA testing company. Such information as is available on the amount spent by the Child Support Agency in relation to DNA tests and the number of DNA tests undertaken on behalf of the Child Support Agency are set out in the attached table.

I hope you find this answer helpful.

Child Support Agency—DNA testing

	CSA spend on DNA tests[1] (£ million)	*Number of DNA tests taken[2]*
2003-04	0.67	2,444
2004-05	0.55	2,888
2005-06	0.54	2,454
2006-07	0.39	3,602
2007-08	0.45	3,474

[1] Includes refunds for DNA tests privately funded. The Agency is unable to separately identify receipts collected from non-resident parents for Agency funded tests where paternity was proven. In normal circumstances, a full refund would be made if an alleged non-resident parent paid for a test privately and was proven not to be the father.

[2] Includes information on the number of DNA test undertaken on behalf of the Child Support Agency. Does not include those tests taken independently on behalf of either parent.

Citibank

Mr. Hoban: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 16 March 2009, *Official Report*, column 861W, on departmental bank services, what the *(a)* purpose and *(b)* monetary value is of the contract between his Department and Citibank. [268308]

Jonathan Shaw: The Department's contract with Citibank is for the payment of pensions and benefits to customers living overseas.

The value of the contract is commercially confidential.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Work and Pensions what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269567]

Jonathan Shaw: The Department does not own its IT equipment, it is provided under contractual arrangements with the Department's IT suppliers.

The Department has made great inroads in reducing its carbon footprint through active management of its IT services, since the end of 2005 when it re-aligned its contracts with BT and EDS. This work is continuing.

In the summer of 2008 the Department announced its strategy to re-compete its existing contracts over a five year period. A key element of this future contracting strategy is to contractually commit the IT providers to reduce the carbon footprint of the services they deliver to the Department.

Jenny Willott: To ask the Secretary of State for Work and Pensions what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269589]

Jonathan Shaw: Under the Department's contractual arrangements with its IT suppliers the Department pays only for the IT services it uses, providing the maximum value for money for the taxpayer.

The Department's IT suppliers provide the required capacity based on quarterly forecasts of the projected use of the Department's computer systems.

In this way the Department's IT suppliers are encouraged to ensure that the equipment they provide and its capacity is sufficient for the Department's consumption needs but that any excess capacity is minimised as it remains the responsibility of the IT supplier.

The information is not available in the format required and to provide it would be at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Work and Pensions how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269617]

Jonathan Shaw: A total of 15,260 printers have been installed within the Department for Work and Pensions in the last five financial years. The breakdown per year is as follows:

	Number
2004-05	4,260
2005-06	2,157
2006-07	1,256
2007-08	5,975
2008-09	[1]1,628

[1] Including 16 multi-function devices.

All printers and multi-function devices installed during this period have either automatic or manual two-sided print capability, apart from a total of 5,089 printers which are installed within customer facing Jobpoint Kiosks (typically in customer areas of Jobcentre Plus offices). They were installed as follows:

2007-08—4,752

2008-09—337

Jenny Willott: To ask the Secretary of State for Work and Pensions how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269641]

Jonathan Shaw: The Department does not own its IT equipment, it is provided under contractual arrangements with the Department's IT suppliers.

All the 122,558 personal computers and monitors deployed as part of the Department's most recent desktop refresh meet the Class Leader Specification Requirements.

All 8,903 laptop computers deployed as part of that refresh meet at least the Minimum Specification Requirements.

In the summer of 2008 the Department announced its strategy to re-compete its existing contracts over a five year period. As part of this future contracting strategy the Department is mandating compliance with the Quick Wins Criteria for any appropriate equipment deployed as part of a managed service.

Departmental Mobile Phones and Computers

Mr. Hoban: To ask the Secretary of State for Work and Pensions (1) how many *(a)* BlackBerrys and *(b)* other mobile telephones have been provided to (i) Ministers, (ii) special advisers and (iii) civil servants in his Department in each year since 2005; [268289]

(2) how much has been spent on *(a)* the purchase of and *(b)* bills for (i) BlackBerrys and (ii) other mobile telephones for (A) Ministers, (B) special advisers and (C) civil servants in his Department in each year since 2005; [268242]

(3) how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268275]

Jonathan Shaw: The Department does not purchase BlackBerrys, mobile telephones or laptops. They are provided under contractual arrangements with one of the Department's IT suppliers. The average number in use and cost of providing the service since 2007-08 is as follows:

	2007-08	*2008-09*
Number of BlackBerrys	537	1,040
Cost of providing BlackBerrys (£)	647,082	1,005,575
Number of mobile phones	19,487	17,353

	2007-08	2008-09
Cost of providing mobile phones (£)	1,455,348	1,443,752
Number of laptops	7,642	7,296
Cost of providing laptops (£)	5,315,048	5,142,381

There are currently four BlackBerrys allocated to Ministers and four allocated to special advisers. There is one mobile telephone allocated to a Minister and one allocated to a special adviser. There are five laptops allocated to Ministers and four allocated to special advisers. When Ministers or special advisers leave the Department all IT and telephony is returned and then reallocated to other users in the Department. Records are therefore only available for current users.

Numbers prior to 2007-08 for the Department as a whole are not held centrally and could be provided only at disproportionate cost.

Directgov

Alun Michael: To ask the Secretary of State for Work and Pensions what the *(a)* mission statement and *(b)* objectives of directgov are. [268965]

Jonathan Shaw: Directgov's vision is to be the citizen-focused digital channel for Government offering a high quality experience for customers by delivering information and services that meet most of their needs within the site in a consistent and accessible style. It will be driven by citizen needs and will be easy and interesting to use.

Directgov will be at the heart of the relationship between Government and citizen in the digital space. Directgov has the following strategic aims, split into what Directgov will be in future for the citizen, and for the Departments.

Directgov will give the citizen:

Easy and effective digital access to all the public services and information they need, when and where they need it;

Trusted delivery of tailored services to give citizens a simple and convenient interaction with Government;

New ways of communicating, utilising strategic partnerships, community groups and social media to provide better interaction with Government.

Directgov will give the Departments:

Trusted digital delivery channels that encourage people to interact with Government online;

The ability to connect services and information across Government into logical customer journeys to provide better citizen experience;

Advice and guidance on the most cost-effective and appropriate ways to deliver services through digital channels in the context of the wider channel strategy for Departments.

For the online channel, the two priorities for the CSR07 period are maintenance of an increasing breadth of day-to-day service delivery; and the completion of web convergence as websites with citizen-facing content are rationalised and content moved to Directgov and businesslink.gov.uk

For mobile and television, the challenges lie in matching the right service, target audience and channel together, and in building enabling capabilities that can be made available for service providers to use.

Directgov is in the process of building on its current strategy for CSR10 and beyond.

Alun Michael: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of directgov as a vehicle for digital inclusion. [268966]

Jonathan Shaw: Directgov is currently engaged in a number of digital inclusion activities that through feedback and evaluation will help inform its longer term strategy in this area.

Directgov are working with intermediaries who can offer mediated access to those that are currently digitally excluded, starting with the nine major regional UK online centres across the UK. UK online centre staff will encourage customers to use Directgov, and will guide new users through the process. Once they have completed their initial use of Directgov, users will be invited to complete an online survey. This will allow Directgov to collect information on new users' experiences with Directgov so that we can continue to improve the customer experience.

Research has shown that Directgov's TV service on Sky and Virgin increases reach to the socially excluded citizen. Viewers of Directgov's interactive television are older (69 per cent. over 35; 47 per cent. over 45), not working (57 per cent.) and with nearly half (45 per cent.) rarely (i.e. less than once a week) or never using the internet.

The recent launch on Freeview and on analogue TV via Teletext enables citizens who do not subscribe to a TV provider to access Directgov content via Freeview Teletext, which means that Directgov is now available to virtually all TV viewers.

Directgov is reaching new audiences on web and non-web enabled kiosks, laptops and PCs in a diverse range of locations, including health centres, Age Concern and an Army community centre as part of the Starthere project with NHS Choices. All user journeys are tracked and there is also a questionnaire that asks about the user experience and people's background. The final report will be available in June 2009.

Directgov is also working closely with CLG on the Digital Inclusion Action Plan and the Digital Britain Report to ensure that it is involved in the strategic direction of these programmes. These proposals are likely to include closer working with partnership organisations, such as CAB and children's centres.

Employment

Mr. Ancram: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the likely effects of the recession on levels of employment in *(a)* rural and *(b)* urban areas. [265295]

Mr. McNulty: The Department does not forecast levels of employment or unemployment. We have not yet assessed the impact of the recession on employment rates at local authority district level. Although employment data are available by local authority districts, these data come from the Annual Population Survey (APS) and will be susceptible to sample fluctuation. We use the APS for sub-regional analysis because it has a larger sample size and is more robust at a sub-regional level than the quarterly Labour Force Survey (LFS).

In addition, the latest APS data available at present cover October 2007 to September 2008, so it does not provide an up-to-date assessment of the impact of the recession. As a short term indicator we think that the best measure to use is the claimant count.

Analysis of claimant count data between February 2008 and February 2009 by local authority district shows that local authority districts that can be classified as rural have experienced larger percentage increases in the claimant count, but in absolute terms these areas tend to have a lower proportion of their working age population claiming Jobseeker's Allowance (JSA), and on average the percentage point increase in the proportion of working age residents claiming JSA is similar across rural and urban areas.

We will continue to monitor the impact of the recession across the country and for different types of area.

The percentage increase in claimant count, average claimant count rate, and the percentage point increase in claimant count rate for local authority districts in England aggregated according to DEFRA's classification is shown in the table.

Local authority classification	*Average claimant count Rate (Feb 08)*	*Average claimant count rate (Feb 09)*	*Percentage point increase in average claimant count rate (Feb 08-09)*	*Percentage increase in claimant count (February 08-09)*
Major Urban	2.5	4.0	1.5	54
Large Urban	2.1	3.8	1.7	71
Other Urban	2.2	4.1	1.9	85
Significant Rural	1.6	3.2	1.6	98
Rural - 50	1.5	3.1	1.6	109
Rural - 80	1.3	2.7	1.4	106

Employment Schemes

Mrs. May: To ask the Secretary of State for Work and Pensions what form sanctions will take in the progression to work pathfinders for participants who fail to engage with support without good cause. [255136]

Jonathan Shaw: Within the progression to work pathfinders we plan to test the key principles of the model of escalating sanctions set out in "Realising Potential: A Vision for Personalised Conditionality and Support", an independent review published by Professor Gregg in December 2008. In the White Paper "Raising Expectations And Increasing Support: Reforming Welfare For The Future" (Cm7506), published in December 2008, we set out our intention to test an escalating sanctions model and are currently working up the detail of how this model will operate.

Steve Webb: To ask the Secretary of State for Work and Pensions how many payments have been made in each region to date under the employers' golden hello scheme announced by his Department on 12 January 2009. [269015]

Mr. McNulty: We announced on 12 January that a new six month offer would be launched in April 2009. That offer has been in place since 6 April 2009. Information on payments will be available at the appropriate time.

Housing Benefit

Jeremy Corbyn: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of housing benefit payments to tenants of private rented accommodation since the introduction of the latest allowance; and if he will make a statement. [269738]

Kitty Ussher *[holding answer 20 April 2009]*: The Local Housing Allowance was rolled out nationally in April 2008 for customers in the deregulated private rented sector who make a new claim for housing benefit and for existing customers who move address. National implementation followed extensive and independent evaluation of the introduction of Local Housing Allowance in nine pathfinder authorities from 2003-04 as well as testing of operational readiness in a further nine pilot areas in 2005.

We are closely monitoring how the scheme is working in practice and have committed to completing a full review over a two year period from the commencement of its roll-out in April 2008.

Industrial Accidents

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what recent steps his Department has taken to improve support for victims of workplace accidents following convictions under the Health and Safety at Work etc. Act 1974. [268418]

Jonathan Shaw: HSE has a well-established approach to supporting the bereaved and the victims of accidents at work. This is set out in HSE's policy, which is available on its web pages. In addition, HSE produces printed packs for bereaved families and information leaflets for the bereaved and victims of accidents and occupational ill health. These include explanations of HSE's role, the investigation and criminal prosecution process, access to information collected by HSE for use in compensation claims and other organisations that can help and support relatives through their grief. These are updated as appropriate; the packs for the bereaved in both Scotland and in England and Wales have been recently updated. HSE also contributes to support through the work-related death protocol, which involves HSE, local authorities, ACPO, British Transport police, ORR and CPS.

Jobcentre Plus

Paul Rowen: To ask the Secretary of State for Work and Pensions what account the business plan of Jobcentre Plus for 2009-10 has taken of the measures proposed in the Welfare Reform Bill. [268411]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your question asking what account the business plan of Jobcentre Plus for 2009-10 has taken of the measures proposed in the Welfare Reform Bill. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The Department regularly reviews the capacity and capability of Jobcentre Plus to deliver effectively the full range of services it is responsible for. During the economic downturn Jobcentre Plus has a critical role to play in supporting people getting back into work and I believe it is well placed to do so.

In 2009-2010 Jobcentre Plus will deliver further Government welfare reforms to help people find and stay in work, working in partnership with other organisations and developing our services for customers. As any new measures are introduced by the Government, Jobcentre Plus will ensure it has the capacity to deliver these. We take account of such new requirements when we assess our workforce, estates and IT capacity as part of our regular planning.

Our plans for the year ahead will be set out in more detail in the Jobcentre Plus Business Plan 2009/2010 which is due to be published in May.

Jobcentre Plus: Recruitment

Bob Spink: To ask the Secretary of State for Work and Pensions what *(a)* qualifications and *(b)* experience will be required of applicants for Jobcentre Plus drug co-ordinator posts; and if he will make a statement. [268767]

Mr. McNulty: All Drug Co-ordinators are required to have an understanding of the wider drug strategy, partnership working and Jobcentre Plus aims, objectives and priorities to ensure the correct skills and experience are brought to this role.

All Jobcentre Plus co-ordinators will receive specific drug awareness training, delivered by the 'Training Exchange' a company that specialises in drug awareness and substance misuse training.

Drug Co-ordinators are expected to have knowledge of:

local and regional partnerships and their roles and responsibilities in relation to drug treatment services

Jobcentre Plus programmes, services and processes, which will ensure that Jobcentre Plus advisers within their district are aware of the help and support Jobcentre Plus can offer customers, and

how the wider drugs strategy fits within the wider welfare to work agenda.

Jobseeker's Allowance

Jenny Willott: To ask the Secretary of State for Work and Pensions how many jobseeker's allowance claimants there were per Jobcentre Plus *(a)* staff member and *(b)* personal adviser in each of the last 12 months, broken down by region; and if he will make a statement. [246905]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Ruth Owen:

The Secretary of State has asked me to reply to your question asking how many Jobseeker's Allowance claimants there were per (a) staff Jobcentre Plus member and (b) personal adviser in each of the last 12 months, broken down by region. This is something that falls within the responsibilities delegated to Mel Groves as Acting Chief Executive of Jobcentre Plus. Mel Groves is currently on Annual Leave and I am replying in his absence.

Jobcentre Plus has a key role in helping both individuals and employers in the current economic situation. Our priority is to ensure people receive the benefits they are entitled to and the support and training necessary to get back to work as soon as possible, and help employers fill their vacancies with suitably qualified people.

Working with a range of partners, we promote work as the best form of welfare, helping unemployed and economically inactive people of working age move closer to the labour market and compete effectively for work, while providing appropriate help and support for those without work.

In addition to Jobseeker's Allowance, Jobcentre Plus staff deal with a wide range of benefits including Income Support, Employment and Support Allowance and Bereavement Benefits. I enclose a copy of the available information and a copy has been placed in the House of Commons Library.

Ratio of jobseeker's allowance claimants to total Jobcentre Plus staff

Motability

Mr. Todd: To ask the Secretary of State for Work and Pensions what the average cost of vehicle adaptations provided by the Motability scheme was in the last 12 months for which figures are available. [268192]

Jonathan Shaw: Motability is an independent charitable company and is responsible for the administration of the Motability scheme. As Motability provides many vehicle adaptations free of charge and the cost of others are met by a combination of the customers' own contribution and financial assistance from the scheme, it is not practical for Motability to produce a single average cost figure of vehicle adaptations.

Further information about Motability can be obtained directly from the scheme at the following address:

Declan O'Mahony
Director and Chief Executive
Motability
Warwick House
Roydon Road
Harlow
Essex
CM19 5PX

New Deal for Lone Parents

Paul Rowen: To ask the Secretary of State for Work and Pensions (1) how many individuals in each region have been on the New Deal for Lone Parents *(a)* in each year since its inception and *(b)* in each of the last eight quarters; [268860]

(2) how many 18 to 24 year olds in each region have been on the New Deal for Lone Parents *(a)* in each year since its inception and *(b)* in each of the last eight quarters. [268861]

Mr. McNulty *[holding answer 20 April 2009]:* The information requested has been placed in the Library.

New Deal Schemes

Paul Rowen: To ask the Secretary of State for Work and Pensions how many individuals have been on the *(a)* new deal 25 plus, *(b)* new deal 50 plus, *(c)* new deal for partners, *(d)* new deal for disabled people and *(e)* new deal for musicians programmes in each region (i) in each year since their inception and (ii) in each of the last eight quarters. [268844]

Mr. McNulty: The available information has been placed in the Library.

New Deal for Musicians is an integral part of New Deal for Young People and New Deal 25 plus, and is not recorded separately.

New Deal Schemes: Young People

Paul Rowen: To ask the Secretary of State for Work and Pensions how many individuals in each region were on the new deal for young people *(a)* in each year since its inception and *(b)* in each of the last eight quarters. [268843]

Mr. McNulty: The information requested has been placed in the Library.

Social Security Benefits: Disabled

Mr. Clappison: To ask the Secretary of State for Work and Pensions pursuant to the answer of 5 March 2009, *Official Report*, column 1793W, on incapacity benefit, how many claimants of both incapacity benefit and employment support allowance there were aged *(a)* under 30 years and *(b)* under 40 years categorised by the condition limiting their capability for work in the most recent year for which figure are available; and if he will set out on the same basis figures for those who have been in receipt of both benefits for five years or more. [263644]

Jonathan Shaw: DWP will be publishing National Statistics on Employment and Support Allowance in summer 2009. The available information has been placed in the Library.

Social Security Benefits: Fraud

Lynne Featherstone: To ask the Secretary of State for Work and Pensions (1) what recent meetings with *(a)* representatives of companies selling and *(b)* independent experts on voice risk analysis technology (i) Ministers and (ii) officials in his Department have had in the last three years; and if he will make a statement; [265846]

(2) what research his Department has *(a)* undertaken, *(b)* commissioned and *(c)* evaluated on the effects of the use of voice risk analysis technology in benefit claim procedures on rates of error and fraud in such procedures; [265847]

(3) how many people have been prosecuted for benefit fraud as a result of information originally obtained using voice risk analysis technology since such technology was introduced; and if he will make a statement; [265848]

(4) how many people have had the payment of a benefit terminated as a result of investigations triggered by indications of risk from voice risk analysis technology since the introduction of such technology; and if he will make a statement; [265849]

(5) how many investigations of benefits claims have been instigated as a result of voice risk analysis technology providing an indication of risk since the introduction of such technology; and if he will make a statement; [265850]

(6) in how many telephone conversations between benefits staff and claimants voice risk analysis technology has been deployed since the pilot introduction of such technology. [265851]

Jonathan Shaw: In the last six months, there have been twice monthly telephone conversations between officials and the company selling the software to help ensure that the operation of the pilots runs smoothly. These are supplemented by face to face visits between officials and the company selling the software, and attendance at workshops as and when required.

Previous Ministers attended presentations and events with representatives of the company selling the software on three occasions.

There have been no meetings with independent experts in the field of voice risk analysis at this time.

The Department's assessment of its voice risk analysis trials during 2007-08 in Jobcentre Plus and local authorities, and details of its evaluation methodology, has been made available. I refer the hon. Member to the written ministerial statement of 11 March 2009, *Official Report*, columns 19-20WS.

The Department has not commissioned external research bodies at this time. Departmental statisticians are conducting the research and they are required to offer independent advice to support the policy formulation.

At this stage, the Department has not estimated the impact of the rates of fraud and error detected or prevented via voice risk analysis on the national stock of fraud and error. Such estimates will be calculated should the voice risk analysis process prove effective at discriminating between high and low risk customers.

The information from voice risk analysis calls was not used to prosecute customers for benefit fraud or terminate customer's benefits. In the pilots, voice risk analysis technology was used to trigger subsequent reviews of both high and low risk cases. As a result of these reviews, information could come to light that could lead to a prosecution or benefit termination but that decision would not rely on the results from the voice risk analysis call but on the information provided in the subsequent review.

During the pilots, there were no prosecutions from any of the reviews exercises.

The proportion of case changes are available across the pilots and have been previously reported. I refer the hon. Member to the written ministerial statement of 11 March 2009, *Official Report*, columns 19-20WS. However, the proportion of these case changes that were terminations is not reliably available across the first phase of pilots.

There have been no benefit claim investigations instigated as a result of voice risk analysis. The information from voice risk analysis calls has not been used of itself to determine investigations of customers benefit. Voice risk analysis technology has been used to trigger subsequent reviews of both high and low risk cases and there were a total of 787 reviews in Jobcentre Plus and a further 1,998 reviews in local authorities.

There were 1,676 telephone conversations between benefit staff and customers in Jobcentre Plus, of which a sample of 787 were reviewed and included in the final evaluation. From the first phase of local authority trials there were 6,816 telephone conversation between staff and customers, of which 1,998 were reviewed and included in the final evaluation.

State Retirement Pensions

Mr. Waterson: To ask the Secretary of State for Work and Pensions what his estimate is of the number of individuals who will reach state pension age in *(a)* 2010, *(b)* 2015 and *(c)* 2020 with no additional pension provision beyond the state pension. [267274]

Ms Rosie Winterton: The Government are committed to encouraging people to save for the future in private pension arrangements. The introduction of auto-enrolment and Personal Accounts in 2012 will reinforce this commitment, encouraging individuals to contribute to their own future pension income. As a result, the number of individuals reaching state pension age with no private pension income is estimated to decline over the next 10 years.

The number of individuals reaching state pension age (SPA) in 2010, 2015 and 2020 with no additional pension provision beyond that of the state (i.e. no private pension provision) is shown in the following table.

Year SPA is reached	*Number of individuals with no private pension income*	*Individuals with no private pension income as a percentage of all those reaching SPA (percentage)*
2010	200,000	25
2015	150,000	22
2020	100,000	17

Notes:

1. Figures are for Great Britain and are rounded to the nearest 50,000.

2. There is considerable uncertainty over future estimates of private pension provision; the number of individuals choosing to save in a private pension may alter over time according to the macro-economic environment and individual circumstances and preferences. Therefore, the estimates should only be seen as indicative.

Source:

DWP modelling

Jenny Willott: To ask the Secretary of State for Work and Pensions what recent estimate he has made of the number and proportion of people of working age in each age group without any form of pension saving outside the basic state pension in each of the last 10 years; and if he will make a statement. [269472]

Ms Rosie Winterton: The information is not available in the format requested. Such information as is available is presented in the following tables.

The introduction of auto-enrolment and personal accounts in 2012 is intended to increase private pension coverage by making it easier and more attractive for those workers not currently saving privately to do so. We estimate that between six to nine million people will be newly saving or saving more from the reforms.

Proportion of working age population contributing to a private pension by age, Great Britain

Percentage

	20-29	*30-39*	*40-49*	*50 to SPA*	*Total*
1999-2000	32	53	55	42	46
2000-01	30	52	55	42	45
2001-02	30	52	56	42	45
2002-03	28	51	55	43	45
2003-04	27	50	54	42	44
2004-05	25	48	53	43	43
2005-06	24	47	51	43	42

Number of working age population contributing to a private pension by age, Great Britain

Million

	20-29	*30-39*	*40-49*	*50 to SPA*	*Total*
1999-2000	2.3	4.7	4.1	3.5	14.5
2000-01	2.2	4.6	4.1	3.5	14.5

2003-04	1.9	4.4	4.3	3.7	14.3
2004-05	1.8	4.1	4.2	3.8	13.9
2005-06	1.7	4.0	4.2	3.8	13.7

Notes:

1. All figures are estimates and are taken from the Family Resources Survey (FRS). 2005-06 is the latest year for which these data are available.

2. Private pension refers to either an occupational, personal or stakeholder pension scheme.

3. Working age is 20 to state pension age (SPA); 20-59 for women and 20-64 for men.

4. FRS survey data are taken at a point in time. People who do not have private pension provision in a given year can save later on in life or may have had private pensions in the past.

Family Resources Survey, Great Britain, 1999-2000 to 2005-06.

Welfare Reform Bill

John McDonnell: To ask the Secretary of State for Work and Pensions what estimate he has made of the likely annual costs to *(a)* his Department and *(b)* other Government departments and agencies of the information sharing provisions in Schedule 3 of the Welfare Reform Bill. [261068]

Jonathan Shaw: The details of the administrative and IT costs of data sharing are still under discussion with the Home Office and Ministry of Justice.

Written Answers to Questions

Thursday 23 April 2009

JUSTICE

Antisocial Behaviour: Fixed Penalties

Paul Holmes: To ask the Secretary of State for Justice how many penalty notices for disorder (PNDs) have been registered as fines; and how many PNDs have been paid *(a)* within and *(b)* outside the 21-day suspended enforcement period. [264710]

Mr. Straw: The number of penalty notices for disorder (PNDs) issued to persons aged 16 and over in each police force area in England and Wales, paid within and outside the 21 day Suspended Enforcement Period (SEP) and registered as fines for non-payment, by type of offence from 2004 to 2007 (latest available) are shown in tables 1 to 9 and have been placed in the Libraries of the House. 21 days is the minimum period before which forces can register a fine against the recipient for not responding to a notice, so forces can accept payments after the SEP for administrative purposes. It is not possible to separately identify the payment rate of fines arising from unpaid PNDs, but the latest enforcement rate for all fines, including those from unpaid PNDs, is 85.2 per cent. for the period April to December 2008.

PNDs were implemented in all 43 forces in England and Wales in 2004.

PND data for 2008 will be available in the autumn of 2009.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Justice how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department and its predecessor in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269613]

Maria Eagle: Multi-functional devices (MFDs) and printers with double-sided print capability offer potential cost savings to the Ministry of Justice (MOJ) and its agencies. There are also significant environmental and efficiency benefits to be gained through the reduction in volumes of paper used.

To deliver these benefits and reduce overall people to printer ratios, a programme to rollout MFD printers across the organisation is under way. So far, MFD printers with double-sided printing capability have been installed throughout our main headquarter sites and key regional offices.

In addition, a print optimisation project to rationalise the printer estate has been initiated. The intention is to reduce overall numbers of printers, enhance printing efficiency and sustainability. This includes replacing existing printers with double-sided printing devices and standardisation of print models.

As at March 2009, the following information has been provided from available central records for MOJ Headquarters, Her Majesty's Courts Service (HMCS), Tribunals Service and associated offices:

Printers

HO and Associated Offices:

Approximately 1,300 printers (390 with double-sided printing capability)

HMCS (including Tribunals Service):

Approximately 13,200 printers (3,960 with double-sided printing capability)

Multifunctional devices (MFDs)—all with double-sided printing capability

99 at 10 London sites and five other regional sites.

Detailed information for years prior to the formation of the Ministry of Justice in 2007 is not available centrally and could be provided only at disproportionate cost.

National Offender Management Service (NOMS, including HMPS)

2004: 16,567 printers (8,598 with double-sided printing capability)

2005: 17,185 printers (9,290 with double-sided printing capability)

2006: 13,875 printers (9,976 with double-sided printing capability)

2007: 10,397 printers (9,081 with double-sided printing capability)

2008: 10,762 printers (9,651 with double-sided printing capability)

This information is based on the potential of the printer to deliver double-sided printing.

EU Justice and Home Affairs

James Brokenshire: To ask the Secretary of State for Justice what discussions he had with his EU counterparts at the Justice and Home Affairs Council on 26 and 27 February 2009 on the implementation of the European e-justice action plan; and if he will make a statement. [269672]

Mr. Wills: My noble Friend, Lord Bach, attended the Justice and Home Affairs Council on 26 and 27 February 2009.

The Czech presidency gave member states a brief update on the state of play of the European e-Justice action plan. There was no substantive discussion. However the presidency did ask the Commission about the financing of e-Justice projects, particularly videoconferencing. The Commission reminded member states that there was already money available to fund e-Justice projects and undertook to present more details at the next Council.

The United Kingdom is actively involved in the development of the e-Justice portal which is the main project to be delivered through the action plan. Current plans show that the first version of the portal will be available in December 2009.

Fines: Surcharges

Mr. Burrowes: To ask the Secretary of State for Justice how much was collected in victim surcharges in each court service region in 2008-09; and how such receipts have been distributed. [269505]

Maria Eagle: The victims surcharge has been levied on fines at a rate of £15 since April 2007. The table shows the victims surcharge receipts for April 2008 to January 2009 aligned as closely as possible to court service regions. Data covering receipts for February and March 2009 are not yet available.

Victims surcharge receipts 1 April 2008 to 31 January 2009

Region	£
London	913,[illegible]96
Midlands	1,243,967
North East	1,013,180
North West	1,002,823
South East	1,307,438
South West	718,931
Wales	429,462
Total	6,629,597

The Ministry of Justice included the receipts collected from the victims surcharge as an appropriation in aid. in its estimates for 2008-09. The funding contributed to direct services for victims and witnesses; the roll-out of independent domestic violence advisers; witness care units; enhanced services under Victim Support Plus; and the Victims Fund which provides grants to organisations supporting victims of sexual crimes, hate crime and homicide.

Non-domestic Rates: Empty Property

Mr. Grieve: To ask the Secretary of State for Justice what the cost in empty property business rates for the vacant properties recorded on the e-PIMS database as owned by HM Court Service was in each of the last five years. [262342]

Mr. Straw: The estimated cost for empty property business rates for vacant properties recorded on the e-PIMS database owned by HM Courts Service (HMCS) in each of the last five years was:

Financial year	*Empty rates charge (£)*
2004-05[1]	23,860
2005-06	55,420
2006-07	55,030
2007-08	278,150

[1] Information for Crown and County Court.

Following the formation of HMCS on 1 April 2005, responsibility for rates payments for magistrates courts transferred from individual magistrates courts committees to HMCS. The charges recorded for the financial year 2005-06 therefore comprises vacant magistrates court properties, as well as vacant Crown and County court properties, awaiting either sale or sub-letting.

The significant increase in costs from 2007-08 is predominantly due to the vacation of the former Bristol magistrates court building, following the completion of a new PFI magistrates court in Bristol. This one property incurs empty rates charges of c. £233,000 per annum. The vacant property is currently being marketed for sale.

Prisons: Mobile Phones

Dr. Murrison: To ask the Secretary of State for Justice how many illicit mobile telephones were found at each prison in each of the last 12 months; and if he will make a statement. [268757]

Mr. Hanson: Prisons are asked to send mobile phones and SIM cards they find to a central unit for analysis. The numbers analysed are set out in the tables for each prison for each of the last 12 months.

The figures include items discovered within the prison perimeter and on entry to establishments. However, we believe that these figures may understate the actual number of finds, because they do not include items retained by the police for evidential purposes, and because in some instances prisons have not sent the items for analysis. NOMS is putting in place new procedures to ensure that we have a more comprehensive picture in future. While the numbers of phones detected indicates the scale of the challenge in tackling illicit mobile phones, it is also a reflection of prisons' increasing success in finding them and better reporting. NOMS is developing new procedures to ensure that we have a comprehensive picture of mobile phones found in prisons.

NOMS is implementing a strategy to minimise the number of phones entering prisons, and to find or disrupt those that do enter. As part of the strategy, prisons are being provided with technologies to strengthen local security and searching strategies, in line with the recommendations in the Blakey report "Disrupting the Supply of Illicit Drugs into Prisons", published in July 2008. This includes the roll out of "BOSS" chairs to all prisons, and the deployment of other detection and disruption technologies, including mobile phone signal blockers.

We have also strengthened the law, through the Offender Management Act 2007 (implemented in April 2008), which makes it a criminal offence with a punishment of up to two years' imprisonment to bring an unauthorised mobile phone or component part into a prison.

M = Mobile phones

S = SIM cards

Note:

These figures have been drawn from administrative data systems, based on the number of mobile phones and SIM cards submitted by individual prisons and analysed by a central unit. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system. The data are not subject to audit.

Young Offender Institutions

Mr. Grieve: To ask the Secretary of State for Justice how many 15 year old offenders were detained on the secure estate at a location more than 50 miles from their home address at any time in each of the last five years. [266175]

Mr. Straw: The Youth Justice Board (YJB) places young offenders according to various factors including distance from home, age, gender and suitability of establishments to deliver the offender's sentence plan. On 20 February 2009 the average distance from home for a 15-year-old was 45.2 miles. The data collection system cannot discount double counting where young offenders during that period have been remanded, sentenced or moved to other establishments within the estate. Therefore, the following table provides a snap shot of the number of young offenders held in custody more than 50 miles from home on 30 June 2004-08.

As at 30 June each year	Number of 15-year-olds accommodated more than 50 miles away from home
2004	154
2005	206
2006	170
2007	179
2008	173

OLYMPICS

Inspire Mark: Sutton

Tom Brake: To ask the Minister for the Olympics which businesses in the London Borough of Sutton have applied for permission to use the Inspire Mark; and which have been *(a)* granted and *(b)* refused permission. [268704]

Tessa Jowell: The London Organising Committee of the Olympic Games and Paralympic Games (LOCOG) created the Inspire programme to support non-commercial projects specifically inspired by the 2012 Games. The Inspire Mark, the badge of the Inspire programme, is the first of its kind and will be a legacy for future Olympic and Paralympic Games. As at 1 April 2009, a total of 112 projects have been considered by LOCOG. To date 90 per cent. have been approved with the rest having received feedback so that they can resubmit in due course.

So far, no projects solely within Sutton have applied to use the Mark, but Sutton's Olympic and Paralympic Forum are looking at ways to build awareness of the benefits available from the Games. National Inspire Programme projects are however being delivered in the constituency, such as Young Ambassadors in Sutton School Sport Partnerships, Make Your Mark in three Sutton schools, and free swimming for the over 60s in the borough, as well as the Get Set Education programme.

Olympic Games 2012: Ceremonies

Hugh Robertson: To ask the Minister for the Olympics by which port of entry the Olympic torch will enter the UK in 2012. [268799]

Tessa Jowell *[holding answer 20 April 2009]:* The Olympic Torch Relay and the Paralympic Torch Relay are matters for the London Organising Committee of the Olympic and Paralympic Games (LOCOG). The International Olympic Committee recently announced that future Olympic Torch Relays are likely to be domestic rather than international.

The Olympic Flame will be lit in Olympia, Greece, a few months before the 2012 Opening Ceremony, from where it travels to Athens. The route from Athens to the UK has not yet been decided. LOCOG has always said that the primary focus for the Olympic and Paralympic Torch Relays is to excite the UK in the lead up to the Games, and they are committed to making sure the Torch reaches all the nations and regions of the UK. The route will be announced in 2011.

Olympic Games 2012: Facilities

Hugh Robertson: To ask the Minister for the Olympics which national Olympic committees have signed agreements for pre-London 2012 Olympic Games training camps in the UK; and what the location of the camp is for each such nation. [268798]

Tessa Jowell *[holding answer 20 April 2009]:* 18 National Olympic Committees (NOC) and one National Paralympic Committee (NPC) have signed agreements for Pre Games Training Camps (PGTC) in the UK. They include agreements between the Kenyan Olympic Committee and Bristol, the National Olympic Committee of Thailand and Manchester, 15 of the Pacific Island National Olympic Committees and the North West and the Australian Olympic Swim Team with Manchester. Also the Australian Paralympic Committee have signed up to utilise such facilities as the Wales National Pool in Swansea, the National Whitewater Centre in Bala and the National Velodrome in Swansea.

Three years out from the Games the London Organising Committee for the Olympic Games and Paralympic Games (LOCOG), the nine English regions and the devolved administrations in Northern Ireland, Scotland and Wales are undertaking promotional activity to attract PGTCs ahead of 2012. LOCOG will be developing the London 2012 website to indicate when NOCs and NPCs have agreed to utilise a PGTC for their athlete preparations.

Olympic Games 2012: Mass Media

Hugh Robertson: To ask the Minister for the Olympics what plans there are to accommodate non-accredited international media for the London 2012 Olympic Games; and if she will make a statement. [268800]

Tessa Jowell *[holding answer 20 April 2009]:* Visit London has recently completed an initial scoping exercise to determine the necessary size, scope and cost of a non-accredited media centre in London. They have also begun working with their tourism partners on an audit of potential studio spaces, attractions and stand-up points with iconic views for broadcasters outside of the Olympic Park. Pre-registration for the media centre is likely to be announced in 2010, once funding and a detailed budget have been agreed.

CULTURE, MEDIA AND SPORT

Listed Buildings

Mr. Burns: To ask the Secretary of State for Culture, Media and Sport what funding his Department and its agencies provided for the upkeep of *(a)* Grade I, *(b)* Grade II and *(c)* Grade III listed buildings in (i) West Chelmsford constituency, (ii) Essex and (iii) England in the last five years. [269216]

Andy Burnham *[holding answer 20 April 2009]:* Government funding for listed buildings is channelled through English Heritage.

Funding is also provided by the Heritage Lottery Fund.

These organisations operate a range of grant schemes for the repair, not the upkeep or maintenance, of listed buildings. Grade III is not in use as an official classification although some local authorities use it to denote local interest.

Television: Sponsorship

Mr. Maude: To ask the Secretary of State for Culture, Media and Sport what *(a)* guidance has been issued and *(b)* rules are applied by Ofcom on the sponsorship of television programmes by (i) Government bodies and (ii) charities. [269914]

Andy Burnham: The rules that apply to programmes sponsored by Government bodies and charities are derived from the requirements of European legislation, the Television Without Frontiers (TWF) Directive, and from the Communications Act 2003. Based on this legislative framework, section 9 of the Ofcom broadcasting code sets out the rules on programme sponsorship with which broadcasters must comply. Ofcom also produces broadcast code guidance to help broadcasters interpret and apply the broadcasting code.

Tourism

Mr. Kidney: To ask the Secretary of State for Culture, Media and Sport what estimates he has provided to businesses involved in *(a)* tourism, *(b)* hospitality, *(c)* leisure and *(d)* sport on likely (i) UK and (ii) overseas visitor numbers in 2009. [262696]

Barbara Follett: VisitBritain have advised that they do not publish forecasts on UK visitor numbers. However, VisitBritain, in conjunction with VisitLondon, have conducted research on the possible impact of the economic downturn. This research is due to be published shortly.

VisitBritain do publish forecasts on overseas visitor numbers annually. The number of overseas visitors to the UK is estimated at 31.7 million down from 31.9 million in 2008. This information can be found at the following web address:

http://www.tourismtrade.org.uk/MarketIntelligenceResearch/TourismForecasts/default.asp

PRIME MINISTER

Ministers

Mr. Gordon Prentice: To ask the Prime Minister if he will make it his policy to lay proposed revisions of the Ministerial Code before Parliament for its approval. [270445]

The Prime Minister: The Government's position remains as set out in "Government memorandum in response to the third report from the Public Administration Select Committee (Session 2000-2001) on the Ministerial Code". This view was subsequently shared by the Joint Committee on the Draft Constitutional Renewal Bill in its report: "Draft Constitutional Renewal Bill Volume I: Report" (Session 2007-08). Copies of the memorandum and the report are available in the Library of the House.

WALES

Departmental Assets

Bob Spink: To ask the Secretary of State for Wales when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269853]

Mr. Paul Murphy: The Wales Office has only one property which is our London office, Gwydyr House. We have no plans to dispose of this.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Wales how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270509]

Mr. Paul Murphy: None.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Wales what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269590]

Mr. Paul Murphy: The Wales Office obtains its IT services through the Ministry of Justice, data on server utilisation specifically for the Wales Office are not held separately and could be calculated only at disproportionate cost.

Housing

Mrs. Gillan: To ask the Secretary of State for Wales whether he plans to withdraw and lay before Parliament in an amended form the draft National Assembly for Wales (Legislative Competence) (Housing) Order 2009. [270449]

Mr. Paul Murphy: Discussions between Whitehall and the Welsh Assembly Government are ongoing.

TREASURY

Bank Services: Loans

Mr. Meacher: To ask the Chancellor of the Exchequer what information UK Financial Investments holds on the level of lending to the non-financial private sector by *(a)* HSBC, *(b)* Royal Bank of Scotland, *(c)* Lloyds TSB, *(d)* HBOS, *(e)* Northern Rock and *(f)* Bradford and Bingley in (i) 2006, (ii) 2007 and (iii) 2008; what the change in the average level of such lending by each institution has been since its receipt of public funds; and what proportion of each institution's lending in 2007 that figure represents. [267171]

Ian Pearson *[holding answer 27 March 2009]*: Annual accounts for HSBC, Barclays, RBS, Lloyds TSB, HBOS, Northern Rock, and Bradford and Bingley are respectively published at:

HMSC:

http://www.hsbcpb.com/aboutus/annual-reports.html

On 19 January, the Government announced measures designed to reinforce the stability of the financial system, to increase confidence and capacity to lend, and in turn to support the recovery of the economy. Further information is available at:

http://www.hm-treasury.gov.uk/press_05_09.htm

These build on measures announced on 8 October last year.

The Government are negotiating quantified lending agreements with the banks participating in the Asset Protection Scheme and extended Credit Guarantee Scheme as announced in January this year. The Government will report to Parliament annually on the delivery of these agreements.

UK Financial Investments Ltd. (UKFI) will focus on its commercial remit to protect and create value for the taxpayer as shareholder, and secure compliance with other conditions attached to the Government's recapitalisation.

Banks: Finance

Dr. Cable: To ask the Chancellor of the Exchequer (1) what percentage of Asset Protection Scheme assets are held in foreign currency denominations; and if he will make a statement; [268084]

(2) what his most recent estimate is of the monetary value of assets held in the Asset Protection Scheme by currency; and if he will make a statement. [268085]

Ian Pearson: The Asset Protection Scheme (APS) will cover assets in sterling, euro, and US dollars, and other currencies subject to Treasury's approval.

Further detailed information about the assets in the scheme will be provided after the final contracts are signed.

Banks: Ireland

Bob Spink: To ask the Chancellor of the Exchequer what information his Department holds on the average size of deposit held by British nationals with money deposited in *(a)* the Bank of Ireland and *(b)* the Anglo Irish Bank in each of the last three years. [270271]

Ian Pearson: As a matter of course, HM Treasury does not comment on individual financial institutions.

Members: Correspondence

Bob Spink: To ask the Chancellor of the Exchequer when he plans to reply to the letter from the hon. Member for Castle Point of 23 October 2008 sent on behalf of Mr. Malcolm Phillips, a constituent, on private medical insurance. [268388]

Ian Pearson: We have no record of having received the letter. Copies have been requested and received from the hon. Member's office and a reply will be provided as soon as possible.

John Barrett: To ask the Chancellor of the Exchequer when he will reply to the correspondence of 24 February 2009 from the hon. Member for Edinburgh West on business owners of motor dealerships. [270040]

Mr. Timms: I replied to the hon. Member on 14 April 2009.

Mr. Burns: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 2 February 2009 from the hon. Member for West Chelmsford (PO REF: 2/02352/2009) concerning his constituent Dr. Paul Carslake of Writtle, Chelmsford. [270360]

Ian Pearson: Due to the large volume of correspondence received on these issues there has been a delay in sending some responses. The Financial Services Secretary hopes to be in a position to reply to the hon. Member shortly.

Mr. Salmond: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 18 November 2008 from the right hon. Member for Banff and Buchan regarding his constituent, Mr Copeland. [270493]

Ian Pearson: A reply was sent to the right hon. Member on 27 November—a copy has been provided.

Ann Winterton: To ask the Chancellor of the Exchequer when he plans to reply to the letter from the hon. Member for Congleton of 8 October 2008, Ref 5/03545/2008, on depositor guarantees written on behalf of a constituent. [270502]

Ian Pearson: A reply has been sent to the hon. Member by the Financial Services Secretary.

Smuggling: Tobacco and Alcoholic Drinks

Mrs. Gillan: To ask the Chancellor of the Exchequer what estimate he has made of the changes which have resulted in the volume of *(a)* tobacco products and *(b)* alcohol entering the UK by mail since the repeal of the Excise Duties (Small Non-Commercial Assignments) Relief Regulations 1986. [270703]

Angela Eagle: Since July 2007, UK excise duty has been due on all alcohol and tobacco products sent by mail from abroad. This includes gifts from one individual to another and goods that are ordered online.

It is not possible to provide an estimate of the changes in volumes of alcohol and tobacco products, seized on entry to the UK by mail since the regulations were repealed. HMRC seizes a large quantity of alcohol and particularly tobacco products arriving in the UK by mail illegally each year. However, it is not possible to distinguish between those goods which would have qualified for the relief under the regulations and those that would not.

TRANSPORT

Departmental Information and Communications Technology

Jenny Willott: To ask the Secretary of State for Transport what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269546]

Mr. Hoon: This information can be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Transport what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269569]

Mr. Hoon: The Department for Transport and its Agencies are committed to reducing the levels of carbon dioxide emissions from ICT purchases. On purchasing the following steps are now taken:

Routinely buying servers and PCs which incorporate power saving features,

Reducing the number of servers by using virtualisation technologies,

Reducing the number of printers by needs testing and using multi-functional devices as a preference,

Reducing the number of PCs and starting the deployment of low-power, thin client devices.

Including sustainability requirements in all future ICT specifications and contracts so that items with better Energy Star (or similar) ratings can be preferred.

After purchase of the ICT equipment power saving measures include:-

Shutting down PCs at weekends, with a view to extending this to every evening

Using power saving modes and duplexing on printers.

Jenny Willott: To ask the Secretary of State for Transport what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269594]

Mr. Hoon: The average server storage utilisation figures for the Department for Transport (Central) were as follows:-

April	*Percentage*
2005	51.0
2006	40.0
2007	47.7
2008	47.5
2009	53.75

Figures for the Agencies are either unavailable or can be provided only at disproportionate cost.

Jenny Willott: To ask the Secretary of State for Transport how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269615]

Mr. Hoon: The following table gives the figures for the Department for Transport and its agencies.

	2005		*2006*		*2007*		*2008*		
	Printers	*MFDs*	*Printers*	*MFDs*	*Printers*	*MFDs*	*Printers*	*MFDs*	*Comments*
DFT (c)	n/a	n/a	n/a	n/a	609	48	539	47	All have duplex function. Figures for first two years not available.
DVLA	1,100	—	1,100	—	1,100	—	1,100	—	1,100 is average figure in use at any time. Further figures not available but estimate approx 90 per cent. have duplex function.
HA	n/a	39	n/a	77	n/a	103	307	172	Printer numbers not available before 2008. All have duplex function.
DSA	570	570	570	570	570	570	570	570	Cannot split between printers and MFDs. 570 is average figure in use at any time. Currently hoping to reduce printers by about 125. All new devices have duplex function.
MCA	n/a	0	n/a	0	412	874	472	764	Printer figures not available for first two years. Duplex figures were 210 and 275 respectively for printers and 698 and 758 for MFDs.

	2005		2006		2007		2008		
	Printers	*MFDs*	*Printers*	*MFDs*	*Printers*	*MFDs*	*Printers*	*MFDs*	*Comments*
VOSA	1,299	—	1,452	—	1,899	—	1,570	—	Records do not extend beyond these figures, although most printers have duplex function.
VCA	n/a	n/a	n/a	n/a	n/a	n/a	27	0	Eight have two-sided function. Figures not available for earlier years.
GCDA	44	2	46	2	49	3	49	3	Currently two printers and two MFDs have duplex function.

Jenny Willott: To ask the Secretary of State for Transport how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269639]

Mr. Hoon: This information is not currently held and could be ascertained only at disproportionate cost.

Departmental Manpower

Mr. Leech: To ask the Secretary of State for Transport pursuant to the answer of 24 March 2009, *Official Report*, column 197W, on departmental conditions of employment; how many civil servants in his Department have worked on the flexible benefits project; at what grades such staff were employed; and what the cost to date of employing the civil servants working on the flexible benefits project is. [270042]

Mr. Hoon: The Department does not maintain records of the time spent by individual civil servants on this project as it is in addition to their other duties. Any significant resources have been provided by contractors within the overall budget allocation for this project.

Driving Tests: Wisbech

Mr. Moss: To ask the Secretary of State for Transport what the marginal cost of operating the Driving Test Centre in Wisbech in addition to the centre in Kings Lynn was in the most recent 12-month period for which figures are available. [270045]

Jim Fitzpatrick: The cost of rent, rates and other expenditure for Wisbech Driving Test Centre was £11,386 for the financial year 2008-09.

This figure reflects the costs for the building. It does not include the salaries of driving examiners or the costs of other activities.

Mr. Moss: To ask the Secretary of State for Transport what recent progress has been made in the 12-month monitoring exercise at the driving test centre in Wisbech, Cambridgeshire. [270047]

Jim Fitzpatrick: The King's Lynn Multi-Purpose Test Centre opened on 30 June 2008. As the test centre has not yet been open for 12 months, there are insufficient data for the monitoring exercise to be completed.

The Driving Standards Agency remains committed to monitoring the provision of driving tests in the area and will complete the review as soon as possible.

Driving: Licensing

Mr. Maude: To ask the Secretary of State for Transport what estimate he has made of the revenue accruing to the Driving and Vehicle Licensing Agency from renewing expired 10-year photo card driving licences in *(a)* 2008 and *(b)* 2009 to date. [269915]

Jim Fitzpatrick: The income received from 10-year photo card driving licences in 2008 and 2009 to date is as follows:

	£ million
April to December 2008	2.5
January to March 2009	2.9

Mr. Frank Field: To ask the Secretary of State for Transport how many provisional driving licences have been issued to non-EU residents in each year since 1997. [270455]

Jim Fitzpatrick: Provisional driving licences are not issued to non-EU residents. The driving licence application form requires applicants to declare that they are resident in Great Britain.

Public Transport: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Transport what steps his Department is taking to ensure that public transport is accessible to people with disabilities in *(a)* Tamworth constituency and *(b)* Staffordshire. [270087]

Paul Clark: The Department for Transport allocates integrated transport block and highways maintenance funding to local transport authorities for general capital investment in transport. This funding is not ring-fenced and local authorities have discretion to spend their allocations in line with their priorities. The total allocation provided to Staffordshire (which covers Tamworth) in 2008-09 is £21.522 million.

The "Access for All" programme is part of the "Railways for All" strategy, and was launched by the Department in 2006 to address the issues faced by disabled passengers using railway stations in Great Britain.

The Department has awarded just under £300,000 of Access for All Small Schemes funding towards accessibility improvements worth almost £615,000 at seven stations in Staffordshire. These are Blythe Bridge, Cannock, Hednesford, Kidsgrove, Landywood, Rugeley Town, and Tutbury and Hatton.

To ensure that disabled people are able to use public transport, by law all new trains, buses and coaches used on scheduled services now have to be physically accessible, including to wheelchair users. We have set deadlines for all trains to be accessible by 2020 and all buses used on local or scheduled services will be required to meet accessibility standards by 2017.

Railways: Crimes of Violence

Mrs. Moon: To ask the Secretary of State for Transport what recent assessment he has made of the effectiveness of guidelines and regulations for the protection of rail staff from assault; and if he will make a statement. [270453]

Paul Clark: Any form of physical assault is a serious criminal offence. The British Transport police therefore treat assaults on rail staff as a priority and successive governments have ensured that the penalties available to the courts are severe.

In addition, individual train operators have policies of their own both for preventing assaults on their staff and for dealing with the consequences in cases where assaults take place nevertheless.

Mrs. Moon: To ask the Secretary of State for Transport how many instances of *(a)* abuse of and *(b)* assault on rail staff have been recorded in each year since 2000. [270454]

Paul Clark: This information is not held by the Department for Transport, but by the British Transport police who can be contacted at: British Transport police, 25 Camden Road, London NW1 9LN, e-mail:

parliament@btp.pnn.police.uk

Roads: Repairs and Maintenance

Mrs. Spelman: To ask the Secretary of State for Transport pursuant to the answer to Lord Fearn of 12 March 2009, *Official Report, House of Lords*, column WA279, on roads: repair, what the published criteria referred to are. [270070]

Paul Clark: The Department for Transport has provided emergency funding to local authorities to repair their highways on three occasions since 2001. Following the summer 2007 floods we published criteria on this funding. The criteria are available on the Department for Transport website at:

www.dft.gov.uk/pgr/regional/ltp/guidance/fltp/floodfunding guidance.pdf

Speed Limits: Cameras

Bob Spink: To ask the Secretary of State for Transport on what date average speed cameras came into full service on the A130 Canvey Way in Castle Point; and if he will make a statement. [269872]

Jim Fitzpatrick: This information is not held by the Department. Since 1 April 2007 the deployment of safety cameras has been the responsibility of individual local partnerships. The operation of the average speed cameras on the A130 will therefore be a matter for the Essex Road Safety Partnership.

NORTHERN IRELAND

Departmental ICT

Jenny Willott: To ask the Secretary of State for Northern Ireland how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269596]

Paul Goggins: The following table provides details of the printers and multi-function devices in use by the Northern Ireland Office and its Agencies during each of the last five years.

	2005	*2006*	*2007*	*2008*	*2009*
Printers	720	720	730	730	750
MFDs	0	3	3	3	3

Approximately 120 of the printers currently in use have the function to print two-sided. As a matter of policy all new and replacement printer purchases have this function.

USA

Mr. Paterson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 17 December 2008, *Official Report*, column 777W, on the USA, what discussions he has had with the new US administration on the United States Special Envoy to Northern Ireland. [257267]

Mr. Woodward: I held discussions with the new US Administration on their plans to appoint a Special Envoy to Northern Ireland during meetings on 16 and 17 March 2009.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan: Courts

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the level of access to legal redress through the courts in Afghanistan. [269919]

Bill Rammell: The formal justice system in Afghanistan is weak, often corrupt and typically inaccessible to women, children and rural communities. Furthermore, there is a shortage of trained judges and legal representation. For the majority of Afghans, justice and dispute resolution is dispensed through informal, traditional systems. We estimate that over 80 per cent. of justice/dispute resolution is dispensed through informal systems and in Helmand we believe this to be even higher. Aspects of these systems have been used for hundreds of years and tend to have a high level of acceptance and legitimacy among the public. This includes Taliban courts in Taliban controlled areas.

The UK is supporting the strengthening of the justice sector in Afghanistan: at the national level we are building the capacity of the Criminal Justice Task Force and the Central Narcotics Tribunal to tackle narcotics related crimes. Through the Department for International Development, we have supported the World Bank's Justice Sector Reform Project focused on improving the formal justice system. In Helmand, we have prioritised support for informal justice systems by promoting and strengthening traditional dispute resolution mechanisms as a viable alternative to those provided by the Taliban. This includes legal education, promoting access to justice for women and children and improving linkages with the formal justice system.

Afghanistan: Drugs

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the quantity of heroin that will be produced in Afghanistan in 2009; and how much has been so produced in each year since 2000. [269810]

Bill Rammell: Estimates of the production of heroin/morphine in Afghanistan by the UN Office of Drugs and Crime (UNODC) since 2000 are set out in the following table.

Estimate of heroin/morphine derivatives available for export

	Metric tons
2000	328
2001	19
2002	340
2003	360
2004	430
2005	420
2006	555
2007	666
2008	630

Source:
UNODC.

The UNODC figures are derived from their estimates that 60 per cent. of opium is converted into heroin in Afghanistan and 40 per cent. is exported. From 2000 to 2004, UNODC used a 10:1 ratio for the conversion of opium into heroin. This was revised to 7:1 in 2005 to reflect the higher morphine content of Afghan opium. The figures for opium production are adjusted to take into account the impact of seizures and local consumption.

Estimates of the potential opium and heroin production in Afghanistan for 2009 will be made after the harvesting of opium is complete in July. The UNODC will publish estimates of opium production in its annual Afghan Opium Survey which is likely to be available in Executive summary form in August.

Binyam Mohamed

Mr. Holloway: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to paragraph 9 (ix) of the High Court judgement in the case of R (Binyam Mohamed) *v.* Secretary of State for Foreign and Commonwealth Affairs of 21 August 2008, on what other occasions officers of the UK security services have made observations on the treatment of persons detained by or on behalf of the United States in Afghanistan; and if he will make a statement. [259031]

David Miliband: It is the long-standing policy of the Government not to comment on operational intelligence matters.

However, the Intelligence and Security Committee's 2005 report into the "Handling of Detainees by UK Intelligence Personnel in Afghanistan, Guantanamo Bay and Iraq" takes note of instances of UK intelligence and security service officers raising the treatment of persons detained by or on behalf of the US in Afghanistan, between 10 January 2002 and the cessation of UK interviews in July 2002.

My right hon. Friend the Prime Minister also announced a series of measures in his written ministerial statement of 18 March 2009, *Official Report,* column 55WS, including asking the Intelligence and Security Committee to consider any new developments and relevant information since this 2005 report and the subsequent 2007 report on rendition.

Hezbollah

Andrew Gwynne: To ask the Secretary of State for Foreign and Commonwealth Affairs which units of Hezbollah his Department has identified as reporting to the Jihad Council. [270062]

Bill Rammell: Our assessment of Hezbollah draws on intelligence material. As such we are unable to comment any further on the detail of our assessment.

Andrew Gwynne: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 March 2009, *Official Report,* column 390W, on Hezbollah, if he will place in the Library a copy of his Department's assessment of Hezbollah's involvement in terrorism. [270063]

Bill Rammell: The Department's assessment of Hezbollah's involvement in terrorism draws on sensitive intelligence material. It is therefore not possible to place a copy of it in the Library.

Iran: Jews

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights situation of the Jewish community in Iran; and if he will make a statement. [270495]

Bill Rammell: While we have general concerns about freedom of religion and belief in Iran, we understand that the Jewish community has relatively good relations with the wider Muslim community in Iran. The Iranian Jewish community does face some institutional discrimination, but we do not believe that its members face systematic persecution. We continue to monitor the situation closely and officials regularly meet representatives of the Jewish community in Tehran and London to review the situation.

Iran: Religious Freedom

Ms Katy Clark: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the extent of freedom of religion and belief in Iran; and if he will make a statement. [269999]

Bill Rammell: Together with our EU partners we continue to have serious concerns about the situation of all religious minorities in Iran. These groups suffer state-sponsored and systematic forms of intimidation and persecution. They face gross human rights violations such as arbitrary detention without charge and without access to lawyers, confiscation of property and denial of education. Such detentions are becoming increasingly common in Iran, and are cause for serious concern.

Iraq: Human Rights

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with the Iraqi government on reported human rights abuses in Kurdish controlled areas of northern Iraq. [270253]

Bill Rammell: My right hon. Friend the Prime Minister's Special Envoy on Human Rights in Iraq, Ann Clwyd MP, regularly raises human rights issues with the Government of Iraq and the Kurdish Regional Government (KRG).

During her most recent visits to Baghdad (1-2 March 2009) and the Kurdistan Region (20-25 March) she discussed with Iraqi and KRG Ministers and officials a range of issues including detention without charge; violence and discrimination against women; prison conditions and freedom of expression.

Our Office in Erbil also has regular contacts with KRG Ministries and human rights defenders on these issues. The Foreign and Commonwealth Office in London has hosted two forums on human rights in Iraq since December 2008, involving Iraqi and KRG Ministers and non-governmental activists from the UK and Iraq.

Japan: Burma

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he has taken to encourage the Government of Japan to adopt a stronger position in regard to the political and human rights situation in Burma. [270424]

Bill Rammell: We regularly discuss the political and human rights situation with Japan at senior official level in Tokyo, London and in New York, where Japan attends meetings of the UN Secretary General's Group of Friends of Burma. I also raised Burma during my visit to Japan in March 2009. We hope there will be a further opportunity to discuss Burma at the G8 summit in July 2009.

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he *(a)* has had and *(b)* plans to have with the Government of Japan on the political and human rights situation in Burma. [270425]

Bill Rammell: We regularly discuss the political and human rights situation with Japan at ministerial and at senior official level in Tokyo, London and in New York, where Japan attends meetings of the UN Secretary General's Group of Friends of Burma. I also raised Burma during my visit to Japan in March 2009. We hope there will be a further opportunity to discuss Burma at the G8 summit in July.

We encourage Japan, as an important donor, to bring its influence to bear on the Burmese regime to respond to the demands of the UN Security Council, to implement peaceful political change and to respect human rights.

John Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has discussed the political and human rights situation in Burma with his Japanese counterpart; and what plans he has for future discussions. [270223]

Bill Rammell: We regularly discuss the political and human rights situation with Japan at ministerial and at senior official level in Tokyo, London and in New York, where Japan attends meetings of the UN Secretary-General's Group of Friends of Burma. I also raised Burma during my visit to Japan in March 2009. We hope there will be a further opportunity to discuss Burma at the G8 summit in July.

We encourage Japan, as an important donor, to bring its influence to bear on the Burmese regime to respond to the demands of the UN Security Council, to implement peaceful political change and to respect human rights.

Members: Correspondence

Pete Wishart: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to reply to the letter of 18 February 2009 from the hon. Member for Perth and North Perthshire on the Prime Minister's special representative on conflict resolution mechanisms. [267534]

Gillian Merron *[holding answer 31 March 2009]:* A reply was sent on 20 April 2009.

Middle East: Armed Conflict

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he *(a)* has taken and *(b)* plans to take at the United Nations in respect of the reported Qassam rocket attack on Eshkol by Palestinians in Northern Gaza on 15 April 2009; and if he will make a statement. [270494]

Bill Rammell: We unreservedly condemn rocket attacks targeting innocent civilians. The UK led the way at the UN to achieve Security Council Resolution 1860 which clearly condemns all violence directed against civilians and all acts of terrorism. It also spelt out that a lasting solution to the Israeli-Palestinian conflict can only be achieved by peaceful means. We continue to work to make progress towards such a solution.

Parliamentary Questions: Government Responses

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to answer question number 260384 tabled by the right hon. Member for Richmond, Yorks on 2 March 2009 on Mr. Binyam Mohamed. [270655]

David Miliband: This question was answered on 20 April 2009, *Official Report*, column 494W.

Syria: Prisoners

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department has taken to assist and support Maryam Kallis, who is being detained without charge in Syria. [270257]

Bill Rammell: Following repeated requests at official and ministerial level we were given consular access to Mrs. Maryam Kallis on 8 April 2009 and have since delivered essential supplies to her on two occasions. We have requested further consular access from the Syrian authorities. We have also requested a full explanation of the reason for her detention.

Consular officials have been in close contact with the family of Maryam Kallis to keep them informed of progress and any developments in this case.

Thailand: Aviation

Mr. Morley: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Thailand on the timetable for an inquiry into the air crash in Phuket in September 2007 in which British citizens were involved. [270376]

Bill Rammell: Consular staff in Bangkok last spoke with the Director of Aviation Safety Standards from the Civil Aviation Department for Thailand before Easter. The investigation into the cause of the One Two Go airline crash at Phuket airport on 16 September 2007 is still going on. The International Civil Aviation Organisation (ICAO) have passed the official technical investigation report to the Thai Government. The Thai technical sub-committee is reviewing the report and it is due to be finalised and endorsed by the Thai Minister for Transport in mid May 2009. However, this time frame could slip, depending on decisions by the technical sub-committee. Once the report is finalised it will need to be translated into several languages, including English, and then checked by the ICAO. The Thai authorities have 30 days to produce the translation and the ICAO have a further 60 days to check and verify the technical details of the translation. This would mean that the verified English translation of the report will be released by mid August 2009 at the earliest.

Our embassy in Bangkok is monitoring the progress of the investigation and we will alert the right hon. Member and the families concerned as soon as the report is made public.

Tibet: Human Rights

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Chinese authorities to seek to halt the death sentences recently imposed upon certain Tibetan individuals; if he will make an assessment of whether the judicial process which resulted in these death sentences was in accordance with international standards; and if he will make a statement. [270681]

Gillian Merron: We have consistently appealed to the Chinese Government to ensure fair trials in accordance with international standards for those individuals arrested in connection with the disturbances in Tibet in March 2008. We continue to make clear our abolitionist stance on the death penalty and to urge the Chinese authorities to reduce its scope and application.

Zimbabwe: Sanctions

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the Government's policy that former Zanu-PF Minister Florence Chitauro should be included in the list of those subject to an EU assets ban and travel freeze; and if he will make a statement. [246292]

Bill Rammell: We do not comment on or discuss individual cases of those who may or may not be candidates for addition to the EU targeted measures. Such decisions are taken in conjunction with EU colleagues. Comment ahead of time would alert potential candidates and prompt asset flight, but we do intend to discuss and encourage EU partners to consider further additions to the EU targeted measures list in response to the increase in human rights abuses, particularly abductions, that we have seen.

DEFENCE

Afghanistan: Peacekeeping Operations

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence how many UK military personnel have been engaged in operations in Afghanistan since 2001; and how many are expected to be involved over the next five years. [269920]

Mr. Hutton: As at 1 March 2009, 65,520 members of the UK armed forces have been identified as having deployed to Afghanistan. This figure does not include personnel deployed to Afghanistan between the periods 1 January 2003 and 14 October 2005 for which data are not available and could be provided only at disproportionate cost.

We do not comment on future troop deployments but our force levels are kept under regular review by chiefs and Ministers as part of routine defence business.

Annual Survey of Leave

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library the latest Annual Survey of Leave. [257691]

Mr. Kevan Jones: The 2007-08 DASA Survey of Leave did not occur. Since 2007, insufficient data have been readily available to collate statistics on the amount of leave taken by armed forces personnel.

The 2007-08 survey was planned as part of the MOD's programme of evidence to inform the AFPRB's 2009 report. This year, however, information on leave for the armed forces was constrained by JPA weaknesses, both in data entry and the ability to interrogate the system. As a result no DASA survey could be concluded. AFPRB noted this in their 2009 report.

MOD is addressing this data gap for future years by issuing clear instructions to ensure that personnel, through single service chains of command, are fully aware of the importance of keeping leave records.

The 2006-07 copy of the Survey of Leave remains available in the Library of the House.

Armoured Fighting Vehicles

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what account his Department takes of life cycle costs in the procurement of armoured vehicles; and if he will make a statement. [269812]

Mr. Quentin Davies: Predicted whole life costs for a project are taken into account during the approvals system which is part of the investment appraisal, and the MOD's standard equipment procurement procedure, undertaken when a decision is made between investment options. For procurements made under the Urgent Operational Requirements (UOR) procedures, the delivery speed of life-saving equipment is the absolute priority and the capability may be so specific that we would not expect to retain it beyond the operation. In these cases, while support costs are considered for UORs, predicted whole life costs are generally not calculated as a pre-cursor to the procurement.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence how many armoured vehicles he expects his Department to procure in the next 10 years; what estimate he has made of the cost of such procurements of each type; and which companies have been contracted to provide such vehicles to date. [269813]

Mr. Quentin Davies: Over the next 10 years we expect to procure the following armoured and partially armoured (protected) vehicles:

Vehicle	*Company*	*Estimated number to be delivered*	*Current estimated cost (£ million)*
Terrier AET	BAES(LS)	60	[1]339
Mastiff	US Department of Defense (then integrated by NPA Aerospace)	280 (157 delivered)	270
Ridgback	US Department of Defense (then integrated by NPA Aerospace)	155 (20 delivered)	185
Wolfhound	Integrated Survivability Technologies	95	125
Husky	Navistar Defence	260	180
Coyote	Babcock Marine/Supacat	70	65
Warthog	Singapore Technology Kinetics	110	185

[1] Includes Indirect Resource DEL

We also expect to procure a number of Future Rapid Effect System vehicles. These vehicles have not yet reached their Main Gate investment decision point when the quantities and cost will be set and the companies to deliver the vehicles will be selected.

Defence: Internet

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what his Department's budget for cyber defence was in each of the last three years. [269922]

Mr. Bob Ainsworth: The responsibility for managing and operating our systems is delegated to different bodies within the Department, which are required to protect the networks in accordance with policy and known threats. The budget information for these responsibilities is not held centrally and could be provided only at disproportionate cost.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence with which countries the Government has signed bilateral agreements [illegible] warfare and terrorism in the last three years. [269923]

Mr. Bob Ainsworth: The MOD has not signed any bilateral agreements that cover cyber warfare and terrorism in the last three years. The Department does routinely co-operate at various levels with a number of different countries both bilaterally and multilaterally on matters involving information assurance and computer network defence which would encompass responses to cyber warfare and terrorism.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what recent discussions he has had with his NATO counterparts on cyber security. [270025]

Mr. Bob Ainsworth: The communiqué adopted by heads of state and governments at the NATO 60th Anniversary Summit at Strasbourg/Kehl on 3-4 April highlighted that NATO has recently agreed its policy on cyber defence, established a cyber defence management authority and improved its computer incident response capability.

The UK MOD is represented at various NATO cyber defence symposiums and workshops throughout the year. These meetings include the annual NATO Information Assurance Symposium and NATO cyber defence workshops. My right hon. Friend, the Secretary of State for Defence (Mr. Hutton) and his ministerial counterparts are briefed on these matters as required.

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what mechanisms are in place to co-ordinate the work of the different Government Departments that deal with cyber warfare. [270095]

Mr. Bob Ainsworth: There are a number of existing mechanisms for co-ordinating the Government's approach to conflict issues, and many of these mechanisms are appropriate for dealing with related activities in the cyber domain. The UK's overall approach to cyber security is currently the focus of a cross-departmental project led by the Cabinet Office, in which the MOD is closely involved.

Departmental Assets

Bob Spink: To ask the Secretary of State for Defence when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269867]

Mr. Kevan Jones: The Department keeps its estate under constant review to ensure it is the right size to meet present and planned future defence requirements. The Defence Estate Development Plan, last published in 2008, set out how the estate will be developed to meet the future needs of defence, and the priorities for investment and rationalisation arising from it. Once identified as being surplus to defence needs, land and property is disposed as quickly as possible in line with Treasury guidance.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Defence what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269582]

Mr. Bob Ainsworth: There are many systems throughout the MOD that use servers. Information relating to average server capacity utilisation for each area of the Department over the last five years is not held centrally and could be provided only at disproportionate cost.

However, the following information is available for two of the largest systems (Defence Information Infrastructure Convergence (DII(C)) and Defence Information Infrastructure Future (DII(F)).

The average server capacity utilisation for DII(C) across the financial years 2007-08 and 2008-09 was 65 and 55 per cent. respectively. This does not include system administration and back-up, which would take utilisation to over 80 per cent. in both years.

The server capacity utilisation for DII(F) across the period August 2008 to March 2009 ranged between 50 and 80 per cent., depending on which server function was being used. This does not include system administration and back-up, which again would take utilisation to over 80 per cent.

Jenny Willott: To ask the Secretary of State for Defence how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [illegible]

Mr. Bob Ainsworth: Information on the total number of printers and multi-function devices with printing functions in use in each area of the Department in each of the last five years is not held centrally and could be provided only at disproportionate cost.

A central record is, however, held of those printers currently available for use on two of the Department's largest IT systems, the Defence Information and Infrastructure Convergence (DII(C)) and the Defence Information and Infrastructure Future (DII(F)) programmes. The number of printers available on these systems is provided in the following table.

IT system	*Number of printers*
DII(C)	4,302
DII(F)	15,760

Some DII(C) printers are over five years old and do not support two-sided printing. DII(C) is, however, being replaced progressively by DII(F) and all printers procured for use on DII(F) have a two-sided print capability.

Jenny Willott: To ask the Secretary of State for Defence how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269631]

Mr. Quentin Davies: The Department currently has no mechanism for measuring compliance with the Government's Buy Sustainable-Quick Win standard but we are currently considering how to address this. Options include the introduction of regular audits and improved management information. One of the Department's largest IT programmes, Defence Information Infrastructure Future (DII(F)), will incorporate the standard into the next phase of the contract which is due to be let this year.

Future Large Aircraft

Mr. Gray: To ask the Secretary of State for Defence what estimate he has made of the cost to the public purse of the delays to the A400M announced by Airbus Military. [268970]

Mr. Quentin Davies: The A400M is proving to be a challenging programme, and significant delay has been announced. The implications of these delays are being studied by the Nations and by OCCAR, and a strategy to engage with Airbus Military is under discussion between the partner nations.

As the full extent of these delays is not yet known, it is not possible to estimate what the cost might be.

Mediterranean Region: Navy

Fiona Mactaggart: To ask the Secretary of State for Defence what British warships have deployed in the Mediterranean in 2009; and what the mission of each has been. [270082]

Mr. Bob Ainsworth: In 2009 the following warships have deployed to the Mediterranean: HMS Bulwark, HMS Ocean, HMS Somerset, HMS Argyll and HMS Talent; HMS Westminster and HMS Edinburgh have been involved in gunnery training, while HMS St. Albans and HMS Brocklesby have been part of the Standing NATO Maritime Groups.

Military Aircraft

Dr. Fox: To ask the Secretary of State for Defence how many Royal Air Force aircraft of each type are *(a)* in service, *(b)* in the forward air fleet and *(c)* fit for purpose.[1] [269167]

Mr. Quentin Davies: The numbers of aircraft of each type which are in service, in the forward fleet and fit for purpose are provided in the following table. The figures shown are the average for February 2009 and have been rounded to the nearest aircraft.

---

[1] *[Official Report, 3 June 2009, Vol. 493, c. 4MC.]*

"In service" has been taken to mean the effective fleet, which covers all aircraft barring those which are redundant, declared as surplus or awaiting disposal.

The number of aircraft in the forward fleet comprises aircraft which are serviceable and those which are short term unserviceable. Short term unserviceable aircraft are undergoing minor works, forward maintenance or any other unforeseen rectification work that can arise on a day-to-day basis. Serviceable aircraft available to the front-line commands for operational and training purposes are termed fit for purpose.

Aircraft type	*In service fleet*	*Forward fleet*	*Fit for purpose*
BAe 146	2	1	1
BAe 125	6	4	4
C-17(1)	6	5	4
Dominie	9	7	5
Harrier	74	49	44
Hawk T1	132	90	50
Hercules C130K	15	11	6
Hercules C130J	24	19	12
Nimrod MR2	14	10	4
Nimrod R1	3	1	1
Sea King	25	17	10
Sentinel	5	3	2
Sentry	7	5	4
Tornado F3	69	33	20
Tornado GR4	136	84	66
Tristar	8	6	4
Tucano	93	55	40
Typhoon	53	35	20
VC10	16	13	8
Vigilant	64	63	44
Viking	65	65	60

Monuments

Bob Spink: To ask the Secretary of State for Defence if he will make it his policy that no organisation be deterred from showing a cross or military emblems on war memorials on the grounds that to do so may offend ethnic minority groups; and if he will make a statement. [270377]

Mr. Kevan Jones: The Ministry of Defence officially commemorates the final resting place of all those who die in service and the UK Government contribute close to £40 million each year towards the work of the Commonwealth War Graves Commission (CWGC) to mark and maintain the graves, and the official memorials for those who have no known grave, of some 1.7 million Commonwealth Service personnel who died during the two World Wars. CWGC memorials, by design, carry no religious or military emblems.

The Department, however, does not have the responsibility for war memorials. This responsibility rests with the owner of the memorial, which is normally a local authority, a private individual or organisation.

West Africa: Military Aid

Mr. Keith Simpson: To ask the Secretary of State for Defence (1) what the cost of the British Military Advisory Team in West Africa has been in each of the last five years; [270547]

(2) how many UK *(a)* military and *(b)* civilian personnel are serving in the British Military Advisory Team in West Africa; [270378]

(3) what the reasons are for discontinuing the British Military Advisory Team in West Africa. [270546]

Mr. Bob Ainsworth: The British Military Advisory and Training Team (West Africa) based in Ghana currently comprises eight personnel, seven military and one civilian, with a focus of effort supporting two institutions, the Kofi Annan International Peacekeeping Training Centre and the Ghana Armed Forces Command and Staff College. The team will be withdrawn by September 2009.

The cost of the team and its activities is provided in the following table.

Financial year	*Expenditure (£000)*
2004-05	4.599
2005-06	3.850
2006-07	4.525
2007-08	3.317
2008-09	[1]3.054

[1] Allocation—final spend to be confirmed.

The demand of international peacekeeping and stabilisation operations continues to increase. While the UK supports these efforts, in the case of the United Nations paying a significant share (7.8 per cent.) of the rising costs, the increased costs have forced the UK Government to review its funding of discretionary activity, in conflict prevention, management and resolution, and post-conflict stabilisation. The finite funding available has been prioritised and effort focused on those countries or regions where the risk and impact of conflict is greatest. Ghana has shown with its successful elections and transfer of power that it has developed a stability lacked by many others in Africa.

It has always been our Government's long-term goal to enable the Staff College and Peacekeeping Training Centre in Ghana to become self-supporting with a commensurate reduction in the UK's direct assistance. Prioritisation of effort has required this process to be accelerated.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Civil Proceedings

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many legal proceedings his Department has lost in each of the last five years; and what the cost to the public purse was in each case. [264559]

Huw Irranca-Davies: The Department lost two cases in 2008; and the cost to the public purse resulting from the legal proceedings was £49,012 in first, and £42,841 in the second.

The resources needed to obtain the information in relation to each of the four years 2004 to 2007 would be disproportionate and over the £750 threshold.

Climate Change

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Brentwood and Ongar of 6 March 2009, *Official Report*, column 1875W, on climate change, for what reasons statutory clarification on the legal status of the section 46 notice was needed. [269864]

Jane Kennedy: The amendment to the relevant section of the Environmental Protection Act introduced in the Climate Change Act 2008 provides a single, clear point of reference in legislation for local authorities on this point.

Departmental Buildings

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken by his Department to improve the thermal efficiency of its buildings in the last 12 months. [266766]

Huw Irranca-Davies: The Secretary of State for Environment, Food and Rural Affairs can confirm that DEFRA has recently commissioned a series of thermal efficiency surveys on 10 key properties on its estate. The surveys took place during February and March 2009.

The findings of the surveys will inform a programme of works to improve the thermal efficiency of these buildings. Further thermal efficiency surveys are planned for winter 2009.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 12 November 2008, *Official Report*, columns 1226-7W, on departmental ICT, what the *(a)* expected completion date and *(b)* expected cost was at the outset of each project. [242152]

Huw Irranca-Davies: The following table details current major Information Technology projects in DEFRA and its largest executive agencies—the Rural Payments Agency and Animal Health.

The projects detailed are those that cost more than £1 million over the life of the project. The costs, as listed, exclude day-to-day running costs after the completion of the project.

Projects costing less than £1 million and those within smaller executive agencies have been excluded, as data collection for these would incur a disproportionate cost to the Department to compile.

Project	*Initial completion date*	*Initial estimated costs (£)*
Animal Health Business Reform Programme	November 2010	98,000,000
CAP Health Check Implementation Programme	November 2009	25,300,000
Customer land database (CLAD)	March 2009	1,060,000
Enabling technology	March 2009	4,223,000
INSPIRE/UK Location Strategy Implementation Programme	December 2012	12,000,000
Renew IT	April 2006	7,400,000
Rural Payments Agency managed document service	March 2009	2,300,000
Rural Payments Agency rural land register upgrade	March 2012	21,000,000
Rural Payments Agency single payment system upgrade (including CAP health check)	November 2009	23,700,000
Rural Payments Agency storage servers upgrade	March 2010	3,400,000
Spatial information repository (SPIRE)	March 2007	13,000,000
Web rationalisation	March 2011	1,440,000
Whole farm approach	March 2010	65,000,000

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) which waste collection authorities have installed microchips in household bins; [269888]

(2) what guidance his Department has issued to waste collection authorities on the use of electronic systems to monitor household waste flows. [269979]

Jane Kennedy: DEFRA does not collect information on which waste collection authorities have installed microchips in household bins to date and has not issued any advice or guidance on the use of electronic systems to monitor household waste flows. Decisions on collection systems—including the use of microchip or other technology—are rightly for local authorities.

Environmental Transformation Fund

Colin Challen: To ask the Secretary of State for Environment, Food and Rural Affairs which projects for which his Department is responsible are receiving funding from the Environmental Transformation Fund; how much each has received from the Fund since its inception; and what new projects are planned. [259158]

Huw Irranca-Davies: I refer my hon. Friend to the answer given to his question tabled to the Department of Energy and Climate Change on 20 March 2009, *Official Report*, column 1396W. The UK element of the Environmental Transformation Fund, which was formerly jointly led by the Department for Environment, Food and Rural Affairs and by the Department for Business, Enterprise and Regulatory Reform, has been led by the Department of Energy and Climate Change since its creation in autumn 2008.

Farmers: Income

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of farm businesses with an income of less than £10,000 in each year since 1997. [270447]

Jane Kennedy: The following table shows the percentage of farms with a Farm Business Income[1] (FBI) of less than £10,000 since 2003-04. This is the preferred measure of income but is not available prior to 2003-04.

[1] Farm Business Income represents the financial return to all unpaid labour (farmers and spouses, non-principal partners and directors and their spouses and family workers) and on all their capital invested in the farm business, including land and buildings.

	Percentage of farms with less than £10,000 FBI
1997-98	n/a
1998-99	n/a
1999-2000	n/a
2000-01	n/a
2001-02	n/a
2002-03	n/a
2003-04	39
2004-05	36
2005-06	35
2006-07	34
2007-08	27

Source:
Farm Business Survey, England[2]
[2] The Farm Business Survey sample covers businesses with a Standard Labour Requirement (SLR) of at least 0.5, i.e. a size considered sufficient to occupy a farmer for at least half their time.

Farms

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of farms have been recorded as being smaller than 27 acres in each of the last 10 years. [268574]

Jane Kennedy: The following table shows the number of registered holdings over the last 10 years with less than 11 hectares (27 acres equal 10.92 hectares) and the percentage of total registered holdings in England that these equate to.

	<11ha	*>=11ha*	*Total number of holdings*	*Percentage of holdings for which data is available <11ha*
1999	48,951	98,269	147,220	33
2000	77,415	90,440	167,855	46
2001	86,843	91,091	177,934	49
2002	85,991	88,626	187,871	49
2003	92,145	89,284	190,687	51
2004	95,022	89,601	192,824	51
2005	97,973	91,002	195,908	52
2006	95,840	92,718	200,381	51
2007	99,640	91,510	208,166	52
2008	104,528	91,566	210,520	53

Notes:
1. Data prior to 2000 are for main holdings only. Figures from 2000 onwards include main and minor holdings.
2. A register improvement exercise in 2001 and the introduction of the Single Payment Scheme in 2005 has lead to an increase in the number of registered holdings.
Source:
June Agricultural Survey.

Flood Control: EU Grants and Loans

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how much EU funding was allocated for the implementation of flood prevention measures in England in each of the last 10 years. [270448]

Huw Irranca-Davies: The Environment Agency estimates that it has been awarded £10.7 million of EU funding in England for the implementation of flood prevention measures such as biodiversity enhancements, better public access and enhanced consultation and planning procedures that complement their flood defence activities.

In many cases EU funding for these activities is made available to local authorities rather than the Environment Agency.

	£ million
1999-2000	0.15
2000-01	0.15
2001-02	0.03
2002-03	0.68
2003-04	0.86
2004-05	1.54
2005-06	0.72
2006-07	0.49
2007-08	3.21
2008-09	2.83

Food: EU External Trade

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the monetary value of EU export refunds for each commodity in each of the last 10 years. [264784]

Jane Kennedy *[holding answer 23 March 2009]*: The amount of export refunds for each commodity over the last 10 years can be found in the following table:

	Eggs	*Poultry*	*Pigmeat*	*Beef and veal*	£ *Milk and milk products*
1999	99,160.26	445,373.99	3,258,513.76	4,797.75	72,721,235.52
2000	123,955.68	101,417.48	1,178,089.62	0	69,177,582.92
2001	133,368.50	41,519.52	61,846.70	0	31,736,406.71
2002	197,464.81	102,494.74	27,816.51	0	58,713,415.64
2003	71,312.67	64,310.18	121,223.10	0	84,946,032.67
2004	121,797.04	43,647.21	160,639.06	0	66,924,534.65
2005	148,953.35	44,860.57	141,624.13	46.48	46,310,869.15
2006	93,582.82	3,3024.66	99,605.43	0	19,400,665.96
2007	95,832.13	13,579.42	82,875.47	0	6,332,908.51
2008	155,581.47	13,141.77	198,356.16	0	0
Total	1,241,008.73	903,369.54	5,330,589.94	4,844.23	456,263,651.73

Green Belt: Property Development

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what approvals Natural England has given for development on green belt land in the last 12 months. [269978]

Huw Irranca-Davies: Natural England has no executive powers in the planning process so it is not in a position to grant approvals (or otherwise) for development on green belt land. Such decisions are the responsibility of the local authority of the area in which the green belt lies.

Morocco: Fishery Agreements

Ms Katy Clark: To ask the Secretary of State for Environment, Food and Rural Affairs if he will make it his policy in European Union negotiations to seek the exclusion of waters south of 27°40" from any future fisheries agreement with Morocco. [270181]

Huw Irranca-Davies: As with previous fisheries agreements, the EU-Morocco Fisheries Agreement applies to:

> "the Moroccan fisheries zone under the sovereignty or jurisdiction of the Kingdom of Morocco".

The fisheries agreement does not in any way prejudice the issue of the status of Western Sahara. The UK continues to believe that progress towards a negotiated solution to the dispute in Western Sahara providing for the self-determination of the people of Western Sahara is best achieved under the auspices of the United Nations. To this end, and in accordance with UN Security Council Resolution (1813) of 30 April 2008, the UK fully supports the efforts of the UN Secretary-General and his staff, and the negotiation process currently under way.

National Parks and Broads Authority: Elections

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to make his response to the outcomes of the consultation on direct elections for the National Parks and Broads Authority. [270359]

Huw Irranca-Davies: I will give my formal response before the summer recess. I anticipate that my response will focus on alternative ways for ensuring that all the national park and broads authorities are as responsive as the best of these authorities, rather than on legislating for direct elections.

Power Stations: EU Law

Greg Clark: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Tunbridge Wells of 2 March 2009, *Official Report*, column 1330W, on power stations: EC law, what recent discussions the Environment Agency has had with plant operators on the application of derogations from the EU large combustion plant directive. [269205]

Jane Kennedy: The Environment Agency has had no recent discussions with plant operators specifically on derogations from the EU large combustion plant directive and no plant operators have indicated that they will be applying for such derogations. All previously granted derogations have now ceased.

Public Opinion

Mike Penning: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies have spent on *(a)* opinion polling, *(b)* focus groups and *(c)* other forms of market research in each year since 1997; what surveys were commissioned; and what the purpose was of each. [261264]

Andrew Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on *(a)* opinion polling, *(b)* focus groups and *(c)* other forms of market research in each year since 1997; what surveys were commissioned; and what the purpose of each was. [263608]

Huw Irranca-Davies: DEFRA was formed in 2001. The following table shows how much DEFRA and its agencies have spent on *(a)* opinion polling, *(b)* focus groups and *(c)* other forms of market research in each years since 2001.

Title	*Date commissioned*	*Agency cost (£)*
2001-02		
State Veterinary Service Rename—Vets and Farmers	11 July 2001	6,180.00
State Veterinary Service Rename—Staff	11 July 2001	13,500.00

Waste and Resources Action Programme

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Waste and Resources Action Programme has a statutory basis. [270197]

Jane Kennedy: The Waste and Resources Action Programme (WRAP) is not set up under statutory authority. It is a company limited by guarantee, established under the Companies Act 1985 with rules prohibiting it from distributing a profit. Grant is paid to it by DEFRA under section 153(1) of the Environmental Protection Act 1990, as varied by the Financial Assistance for Environmental Purposes (No. 2) Order 2000 Statutory Instrument No. 2211.

Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what steps his Department has taken to promote anaerobic digestion as a means of managing the disposal of household waste. [269977]

Jane Kennedy: Anaerobic digestion is our preferred option for treating food waste—it has significant environmental benefits over other options for treating food waste, with the energy generated also offsetting fossil fuel power generation, and counting towards our renewable energy targets. Anaerobic digestion may be particularly cost-effective for food waste if separately collected.

Anaerobic digestion is a key component of the Government's Renewable Energy Strategy, to be published in June. It will significantly help the UK to meet its binding targets in respect of renewable energy generation, reductions in carbon emissions and diversion of biodegradable municipal waste.

We now need to drive forward the development of practical ways to achieve a major increase in the use of anaerobic digestion. A new Anaerobic Digestion Task Group has been set up, drawn from a broad range of stakeholders to develop an Implementation Plan, which will set out the practical measures that Government and stakeholders can individually and collectively take to increase use of anaerobic digestion.

Government financial support already available to encourage greater uptake of anaerobic digestion includes:

Electricity from anaerobic digestion being now eligible for two ROCs (Renewable Obligation Certificates) per megawatt hour.

Providing around £10 million over the next three years for the anaerobic digestion demonstration programme.

We wish to see a much greater uptake of anaerobic digestion by local authorities, businesses and farmers, but it is local authorities, rather than DEFRA, who are responsible for deciding how waste is managed, as part of their local waste management strategies.

Waste Disposal: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 27 January 2009, *Official Report*, columns 334-35W, on waste disposal: fees and charges, whether joint waste authorities will be able to bid to participate in pilots for charges for the collection of household waste. [270144]

Jane Kennedy: A Joint Waste Authority (JWA) would be able to put forward a proposal to pilot a waste incentive scheme in its area if it had responsibility for waste collection.

Waste Management

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs on what dates his Department's Waste Strategy Stakeholder Group has met since it was established. [269980]

Jane Kennedy: Since its establishment, the Waste Strategy's Stakeholder Group has met on six occasions:

20 July 2007

30 November 2007
25 February 2008
22 May 2008
2 September 2008
3 February 2009.

Whales: Conservation

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps the Government has taken on the establishment of a permanent South Atlantic Sanctuary; what steps it plans to take at the June 2009 meeting of the International Whaling Commission in Madeira; and if he will make a statement. [270054]

Huw Irranca-Davies: The UK has consistently supported proposals for the creation of a south Atlantic whale sanctuary and will do so again if such a proposal is made at the next annual meeting of the International Whaling Commission in Madeira in June 2009.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with his counterparts in countries which do not engage in whaling on coastal whaling; and if he will make a statement. [270055]

Huw Irranca-Davies: The UK has not held any recent discussions with our counterparts in countries which do not engage in whaling on coastal whaling. However, the UK participated in the intersessional meeting of the International Whaling Commission (IWC) and Small Working Group in Rome in March, where the issue of coastal whaling was discussed, and UK officials have also had discussions with EU counterparts. We have stressed throughout that we could not agree to the setting of catch limits for coastal whaling unless these were fully supported by the IWC's Scientific Committee and such catch limits formed part of a package, the adoption of which we considered to be beneficial to long-term whale conservation.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy on coastal whaling is; and if he will make a statement. [270056]

Huw Irranca-Davies: The UK continues to have concerns about potential proposals by Japan to introduce a new type of 'small type coastal whaling' into the schedule of the International Convention for the Regulation of Whaling (ICRW). Unlike Aboriginal Subsistence Whaling, which the UK supports, coastal whaling is essentially commercial, with distribution throughout Japan.

We are also concerned that if one country is allowed to carry out coastal whaling, then other countries would argue that they should be allowed similar provisions, ultimately outside direct control of the International Whaling Commission (IWC). We have voiced these concerns in the context of recent discussions on reform of the IWC and shared them fully with our European partners.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with his EU counterparts on voting on the international moratorium on commercial whaling; and if he will make a statement. [270057]

Huw Irranca-Davies: The UK has not held any recent discussions with our EU counterparts on the international moratorium on commercial whaling. However, the UK Commissioner to the International Whaling Commission (IWC) met EU counterparts on 31 March 2009 to discuss the forthcoming annual meeting of the IWC in Madeira (IWC61).

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has made to the government of Iceland on its quotas for *(a)* minke and *(b)* fin whales in 2009; and if he will make a statement. [270058]

Huw Irranca-Davies: On 13 February 2009, the UK took part in a diplomatic protest (démarche) to Iceland in response to their previous Government's decision to issue a new commercial whaling quota for 150 fin and 100 minke whales.

In a letter delivered to the Minister of Fisheries, the UK, together with the USA, France, Germany, Sweden and Finland, expressed our Government's extreme disappointment in the decision to issue a quota, and commended the intention of the new government to re-evaluate this decision.

The UK will continue to impress upon Iceland the fact that its whaling operations are a source of conflict with the UK. We will consider further representation following the forthcoming election in Iceland.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with his Japanese counterpart on the international moratorium on commercial whaling; and if he will make a statement. [270059]

Huw Irranca-Davies: The UK has not held any recent discussions with Japan on the international moratorium on commercial whaling. However, the UK confirmed its continued support for the continuation of the moratorium, and its opposition to Japanese whaling, at the recent intersessional meeting of the International Whaling Commission in March 2009, at which Japan was represented.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health (1) how many early medical abortions were performed in England by the British Pregnancy Advisory Service at the request of the NHS on women who gave addresses in *(a)* Northern Ireland and *(b)* the Republic of Ireland in each of the last four years, broken down by (i) the age of the woman and (ii) the length of gestation of the pregnancy; [269838]

(2) how many women who gave addresses in *(a)* Northern Ireland and *(b)* the Republic of Ireland were referred by National Health Service GPs to the British Pregnancy Advisory Service for an abortion in each of the last four years for which figures are available, broken down by (i) age of the women and (ii) the length of gestation of the pregnancy in weeks. [269848]

Dawn Primarolo: None. Women travelling from Northern Ireland or the Republic of Ireland seeking an abortion at a British Pregnancy Advisory Service clinic in England, under the Abortion Act 1967, as amended, make their own arrangements and pay for their abortion privately.

Mr. Amess: To ask the Secretary of State for Health what assessment his Department has made of the reasons for the change in the rate of abortions performed in England on women with addresses in the Republic of Ireland between 2006 and 2007; and if he will make a statement. [269839]

Dawn Primarolo: No assessment has been made of the reasons behind the decrease in total abortions for non residents between 2006 and 2007.

Mr. Amess: To ask the Secretary of State for Health how many women aged *(a)* 18, *(b)* 17, *(c)* 16, *(d)* 15, *(e)* 14, *(f)* 13 and *(g)* 12 years old who gave addresses in (i) Northern Ireland and (ii) the Republic of Ireland who had an abortion in England in (A) 2006 and (B) 2007 had had (1) one, (2) two, (3) three, (4) four and (5) five or more previous abortions in England. [269840]

Dawn Primarolo: The information is shown in the following table. The information cannot be shown in the format requested for confidentiality reasons and has been provided in line with the Office for National Statistics' guidance on the disclosure of abortion statistics (2005).

Abortions and repeat abortions[1] in England and Wales to residents of Ireland aged under 19, 2006 and 2007

	2006	2007
Residents of Northern Ireland		
Age under 16	23	28
16	37	31
17	41	45
18	46	60
Total under age 19	147	164
Total repeat abortions	—	—
Residents of Northern Ireland		
Age under 15	12	14
15	27	43
16	74	59
17	120	88
18	172	139
Total under age 19	405	343
Total repeat abortions	13	15

'—' Suppressed value less than 10 (between 0 and 9) for reasons of confidentiality in line with Office for National Statistics Guidance on release of abortion statistics, 2005.

[1] Place of previous abortion is not collected.

Mr. Amess: To ask the Secretary of State for Health how many abortions were performed in England under the Abortion Act 1967 on women who gave addresses in *(a)* Northern Ireland and *(b)* the Republic of Ireland where the unborn child was suffering from cleft (i) palate and (ii) lip, broken down by (A) grounds for abortion, (B) the length of gestation in weeks and (C) the relevant health authority in each of the last 15 years. [269841]

Dawn Primarolo: There was no diagnosis code specifically for cleft lip and palate prior to 1995. In the 12 years between 1995 and 2007, there were fewer than 10 cases (between 0 and 9) where the principal medical condition for an abortion performed under section 1(1)(d) of the Abortion Act for residents of Ireland.[1] Less than 1 per cent. of abortions for non residents are performed under section 1(1)(d).

[1] Cases of less than 10 (between 0 and 9) are suppressed for reasons of confidentiality in line with the Office for National Statistics' guidance on disclosure of abortion statistics (2005).

Mr. Amess: To ask the Secretary of State for Health how many abortions were performed in England on women who gave addresses in *(a)* Northern Ireland and *(b)* the Republic of Ireland in the latest year for which figures are available, broken down by type of procedure. [269846]

Dawn Primarolo: The information is shown in the following table.

Abortions in England and Wales to residents of Ireland by method, 2007

	Northern Ireland	Irish Republic
Medical	69	154
Surgical	1,274	4,532
Total	1,343	4,686

Mr. Amess: To ask the Secretary of State for Health how many abortions have been performed on women who gave addresses in *(a)* Northern Ireland and *(b)* the Republic of Ireland under the provisions of the Abortion Act 1967 in the last 30 years; and how many and what percentage of these abortions were performed in an emergency to save the life of the mother. [269847]

Dawn Primarolo: In the 30 years between 1977 and 2007, there were 47,552 abortions performed in England and Wales on residents of Northern Ireland and 140,556 performed on residents of the Irish Republic. Less than 10 (between 0 and 9) of these were performed under section 1(4) of the Abortion Act, in an emergency to save the life of the mother.

Mr. Amess: To ask the Secretary of State for Health with reference to the answer to the then hon. Member for Ilford, North of 16 July 1996, *Official Report*, columns 494-96, on abortion, what the characteristics were of the statistically most likely candidate in *(a)* England and *(b)* each health authority for an abortion in (i) 2005 and (ii) 2006 in terms of (A) the marital status of the woman, (B) the age of the woman, (C) the gestation of the pregnancy, (D) the number of previous children borne by the woman, (E) the number of previous abortions undergone by the woman and (F) the legal grounds under which the abortion was performed. [270593]

Dawn Primarolo: The information is shown in the following tables.

Most common[1] conditions for women having abortions in 2006, by strategic health authority of residence

	Marital status	*Age*	*Gestation*	*Number of previous children*	*Number of previous abortions*	*Ground*
England	Single with partner	20	7	0	0	[2]—
East Midlands	Single with partner	21	8	0	0	[2]—
East of England	Single with partner	21	8	0	0	[2]—
London	Single with partner	24	7	0	0	[2]—
North East	Single with partner	21	8	0	0	[2]—
North West	Single no partner	19	8	0	0	[2]—
South Central	Single with partner	19	7	0	0	[2]—
South East Coast	Single with partner	19	7	0	0	[2]—
South West	Single with partner	19	8	0	0	[2]—
West Midlands	Single no partner	21	8	0	0	[2]—
Yorkshire and Humber	Single with partner	19	8	0	0	[2]—

Most common[1] conditions for women having abortions in 2005, by strategic health authority of residence

	Marital status	*Age*	*Gestation*	*Number of previous children*	*Number of previous abortions*	*Ground*
England	Single no partner	20	8	0	0	[2]—
East Midlands	Single with partner	20	8	0	0	[2]—
East	Single with partner	20	8	0	0	[2]—
London	Single no partner	24	7	0	0	[2]—
North East	Single with partner	19	8	0	0	[2]—
North West	Single no partner	20	8	0	0	[2]—
South East	Single no partner	20	7	0	0	[2]—
South West	Single no partner	20	8	0	0	[2]—
West Midlands	Single no partner	20	8	0	0	[2]—
Yorkshire and Humber	Single with partner	19	8	0	0	[2]—

[1] Statistical mode (highest frequency).

[2] That the pregnancy has not exceeded its 24th week and that the continuance of the pregnancy would involve risk, greater than if the pregnancy were terminated, of injury to the physical or mental health of the pregnant woman.

Accident and Emergency Departments

Derek Twigg: To ask the Secretary of State for Health what estimate he has made of the number of people attending accident and emergency departments in the last 12 months who could have been treated by their GP, broken down by primary care trust. [263630]

Mr. Bradshaw *[holding answer 25 March 2009]:* While no formal estimate has been made by the Department of the number of people attending accident and emergency departments who could have been treated by their general practitioner, Professor Sir George Alberti—former National Director for Emergency Access—has suggested this could be around 50 per cent. in some areas. This is an issue the Department expects to look at as part of its continuous programme to improve access to health services.

It is a matter for the local national health service, along with its strategic health authorities and other interested bodies to plan, develop and organise local services that are responsive to people's needs. What is important is that patients have access to the most appropriate care in a timely manner.

Cardiovascular System

Mr. Dhanda: To ask the Secretary of State for Health if he will consider the merits of issuing guidance on the administration of *(a)* treatment and *(b)* laser treatment for extreme vascular malformations in children. [270001]

Ann Keen: This Department has no plans to issue guidance on the administration of treatment, or laser treatment, for extreme vascular malformations in children. However, the National Institute for Health and Clinical Excellence published interventional procedure guidance on the use of intralesional photocoagulation of subcutaneous congenital vascular disorders in September 2004.

Mr. Keetch: To ask the Secretary of State for Health what estimate he has made of the number of people likely to be identified as at risk by the Vascular Risk Assessment programme; and what plans he has to provide *(a)* advice and *(b)* treatment for such people. [270044]

Ann Keen: The NHS Health Check programme is a universal and systematic programme for everyone between the ages of 40 and 74 that will assess people's risk of heart disease, stroke, kidney disease and diabetes. Everyone having an NHS health check will receive individually tailored lifestyle advice to help them manage and reduce that risk, and help them live well for longer.

The 'Putting prevention first: Vascular checks risk assessment and management—impact assessment', a copy of which has been placed in the Library, gives details of the likely scale of the different interventions required for the risk management element of the programme. See the impact assessment for a detailed breakdown of the benefits likely from the vascular programme, the likely impact on primary care and a costs and benefits analysis.

Dentistry

Mike Penning: To ask the Secretary of State for Health how many dental graduates there were in each year since the new contract for NHS dentistry was introduced in April 2006. [270029]

Ann Keen: Information for 'home fee' students at dental schools in England is provided in the following table:

Academic year	*Dental graduates*
2005-06	560
2006-07	593
2007-08	656
2008-09	[1]712
2009-10	851

[1] Forecast

Departmental Air Conditioning

Grant Shapps: To ask the Secretary of State for Health (1) how many of his Department's buildings are equipped with air conditioning systems with greater than 250kW of output; how many of these systems have been inspected under the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007; and if he will place in the Library a copy of each inspection report; [270697]

(2) how much has been spent by his Department on carrying out inspections of air conditioning systems within departmental buildings in accordance with the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007. [270698]

Mr. Bradshaw: The Department of Health and its executive agencies have three buildings with air conditioning systems with greater than 250kW of output and which are covered by the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007.

Skipton House, (80, London Road, London, SEI 6LH) and Wellington House (133-155 Waterloo Road, London SEI 8UG) are scheduled to be inspected in mid May 2009. The maintenance of the air conditioning system in Market Towers (1, Nine Elms Lane, London, SW8 5NQ) is the responsibility of the landlord's agents.

The cost of undertaking the inspections of the air conditioning systems in Skipton House and Wellington House, which is compliant with the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007, will be £10,000.

A copy of the results of the inspections will be placed in the Library, when they become available.

Food: Labelling

Mike Penning: To ask the Secretary of State for Health whether he expects the Community List foreseen by Article 13.2 of the Nutrition and Health Claims Regulation to be published by 31 January 2010. [270028]

Dawn Primarolo: The European Commission is responsible for co-ordinating the authorisation of the list of Article 13 health claims. It has acknowledged that the Community List of authorised claims will not be published by 31 January 2010 as the assessment exercise by the European Food Safety Authority may extend beyond this deadline. In which case, continued use of these claims would need to be permitted until the final list is adopted. The Food Standards Agency will continue to keep interested parties updated on developments on this process.

Health Services: Overseas Visitors

Lynne Featherstone: To ask the Secretary of State for Health when he plans to publish proposals for public consultation arising from his Department's joint review with the Home Department on NHS charging regulations for overseas visitors; and if he will make a statement. [270231]

Ann Keen: The review of access to the national health service by foreign nationals, which is currently being conducted jointly by the Department and the Home Department, has taken longer than expected due to the complex and inter-connecting issues under consideration.

However, the review is now being finalised and proposals will be published later in the year.

Health Services: Reciprocal Arrangements

Mr. Stephen O'Brien: To ask the Secretary of State for Health what research his Department has undertaken into the circumstances in which people gain access to health care outside the UK through the European Health Insurance Care card; and if he will make a statement. [270353]

Dawn Primarolo: The Department has commissioned a number of surveys and pieces of research on use of the European Health Insurance Card (EHIC). Most recently, this informed departmental press and media communications to make the British population aware that a new EHIC is only valid for five years. All British citizens should make sure they have a valid EHIC so they can access state-provided health care that becomes necessary while travelling in Europe. Travel insurance is also needed as the EHIC does not cover all eventualities (like repatriation).

Heart Diseases

Mr. Keetch: To ask the Secretary of State for Health when he expects the planned external review of the implementation of the National Service Framework for Coronary Heart Disease to be completed; and if he will make a statement. [270043]

Ann Keen: The Department is commissioning an external review of the implementation and delivery of the National Service Framework for Coronary Heart Disease. In addition to this, the Department will also undertake an analysis to look at how patient expectation and need, technology and working practices are likely to affect future demand and patterns of service provision. We will then feed our findings into the discussions of the National Quality Board, which has been set up to oversee the priorities for the service in the future.

A completion date has not yet been set.

Hospitals: Infectious Diseases

Bob Spink: To ask the Secretary of State for Health what assessment he has made of the effect on levels of healthcare-associated infections of the development of patient-centred technologies; and if he will make a statement. [269269]

Ann Keen: The Department has not undertaken any work on the effect of patient-provided products in preventing healthcare associated infections and is not aware of any evidence that these products offer advantages over materials supplied to patients by the national health service.

Hygiene: Dairy Farming

Mr. Letwin: To ask the Secretary of State for Health if he will allow exemptions from dairy hygiene inspection in cases where hygiene standards at a farm are guaranteed by farm assurance. [270073]

Dawn Primarolo: Milk production holdings are required by Regulation (EC) 854/2004 to undergo official controls to verify that hygiene requirements are being complied with. Regulation (EC) No. 882/2004 on official feed and food controls recognises the use of relevant private quality assurance programmes for the risk prioritisation of official controls. The Food Standards Agency is currently undertaking a project, in co-operation with stakeholders, to assess the feasibility and extent to which results of farm assurance audits could be taken into account when deciding the frequency of official controls on dairy farms in England and Wales.

Influenza: Vaccination

Mr. Jenkins: To ask the Secretary of State for Health how many pensioners have received free influenza inoculations in each year since the introduction of the policy. [270153]

Dawn Primarolo: The seasonal influenza programme is a targeted vaccination campaign. The Department has recommended since the 2000-01 season that all people aged 65 and over and those under 65 years who are in specific clinical at-risk groups receive the annual influenza vaccine. Seasonal influenza vaccine uptake data for England are published annually in NHS Immunisation Statistics, England, copies of which have already been placed in the Library for years up to 2007-08.

Vaccination uptake by those aged 65 years and over for 2008-09 was 74.1 per cent.

Methicillin-Resistant Staphylococcus Aureus

Mr. Hancock: To ask the Secretary of State for Health (1) whether personal anti-microbial products are supplied by the NHS to patients identified through screening to be carrying MRSA; [269985]

(2) what steps he expects NHS hospitals to take to decolonise patients found through screening to be carrying MRSA; and if he will make a statement; [269986]

(3) how many pre-operative patients he expects to be screened by the NHS for MRSA in the next 12 months; what estimate he has made of the cost per patient of such screening; and if he will make a statement. [269987]

Ann Keen: As soon as a patient is identified as an MRSA (methicillin-resistant Staphylococcus aureus) carrier, a decolonisation regimen should be started. This is normally the use of an antibacterial shampoo and body wash daily, and the application of an antibacterial nasal cream three times a day for five days supplied by the national health service.

It is for clinicians to decide on the most appropriate products for decolonisation and we do not collect information on the products used. However, the Department will be issuing guidance on products for decontamination later this year.

The current policy is to screen all elective patients, except for those in certain groups for whom the risk of MRSA infection is very low. We estimated that this would require around 6.3 million tests in 2009-10. Elective patients found to be positive for MRSA will receive decolonisation treatment. The total cost of screening those patients, and decolonising those with a positive screen, is estimated at £44 million, an average of £7.02 per patient.

Mid Staffordshire NHS Foundation Trust

Mr. Kidney: To ask the Secretary of State for Health if he will take steps to provide counselling services for *(a)* patients and *(b)* relatives of deceased patients of Mid Staffordshire NHS Foundation Trust who have been affected by the findings of the Healthcare Commission report on that Trust. [269770]

Mr. Bradshaw: The new leadership team of Mid Staffordshire NHS Foundation Trust established a helpline on 17 March 2009 in response to the Healthcare Commission report. This helpline (currently administered by the Patient Advisory and Liaison Service and hosted by South Staffordshire Primary Care Trust) is the main point of contact for relatives of patients who died after receiving emergency care at Mid Staffordshire NHS Foundation Trust to request a review of their clinical records by a panel of independent clinicians.

A separate counselling service has not been set up but the Trust has assured the Department that it will ensure that both patients and the relatives of the deceased needing counselling services will be appropriately referred. The availability of counselling services will also be signposted following the conclusion of each independent review of clinical records.

NHS: Telephone Services

Mr. Lansley: To ask the Secretary of State for Health how long Estates Return Information Collection data indicate each NHS trust took on average to answer a call made to its main telephone number in the most recent month for which figures are available. [269099]

Mr. Bradshaw: The information available relates to the average time to pick up new incoming calls to the national health service organisation's main telephone number across a representative period of not less than one month within the reporting year. The information for the latest period, 2007-08, has been placed in the Library.

The information is collected on a compulsory basis from NHS trusts, except foundation trusts who can provide the data on a non-compulsory basis if they wish. The information has been supplied by the NHS and has not been amended centrally. The accuracy and completeness of the information is the responsibility of the provider organisation.

Thyroid Gland: Diseases

Anne Milton: To ask the Secretary of State for Health what his Department's policy is on the treatment of people with hypothyroidism; what definition his Department uses of hypothyroidism; and if he will make a statement. [270094]

Ann Keen: The Department has not developed a policy for the treatment of people with hypothyroidism. The Clinical Knowledge Summaries website

http://cks.library.nhs.uk/search?&page=1&q=hypothyroidism&site=0

offers advice on the diagnosis and management of a range of conditions and symptoms, including hypothyroidism, that are commonly seen in primary care. The guidance is advisory and has been developed to assist health care professionals, together with patients, make decisions about the management of the patient's health.

Hypothyroidism describes the general effects of a severely under active thyroid gland, where not enough hormones are produced to keep the body functioning properly.

Tuberculosis

Mike Penning: To ask the Secretary of State for Health what the incidence of tuberculosis per 100,000 people was in each primary care trust area in the most recent period for which figures are available; and if he will make a statement. [270013]

Dawn Primarolo: Data for rates of tuberculosis (TB) by primary care trust (PCT) for 2005 are provided in the following table. Data for 2006 will be available by August 2009. Data for 2007 are not yet available.

The highest rates of TB are concentrated in London, Leicester, Birmingham and Manchester, reflecting the diverse demography of those populations.

Hertfordshire PCT, which includes Hemel Hempstead, is in the lowest band rate.

HOUSE OF COMMONS COMMISSION

Pensions

7. **Hugh Bayley:** To ask the hon. Member for North Devon, representing the House of Commons Commission what progress the House of Commons Commission has made in its examination of the merits of extending to hon. Members' staff the opportunity to join the pension scheme available to House staff. [270331]

Nick Harvey: The current legislative and employment framework would not permit the extension of the House of Commons staff pension scheme to the staff of hon. Members. Members' staff are employed by Members themselves and not by the House of Commons Commission.

Changes to the terms and conditions of employment of Members' staff are a matter for the Members Estimate Committee on advice from the Members' Allowances Committee.

Trade Unions

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 2 March 2009, *Official Report*, column 1212W, on trade unions: political levy, what the timetable is for the staff handbook to be amended to inform staff of their rights to opt out. [269024]

Nick Harvey: The next revision of the staff handbook is planned to be released in the autumn of 2009. Following the appropriate consultation process, an amendment to inform staff of their right to opt out of the political levies operated by those recognised trade unions which have a political fund will be included in the revised version.

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission with reference to the House of Commons Facilities Time Agreement, whether recognised trade unions in the House of Commons are permitted to use House of Commons facilities allocated to them for *(a)* political activity and *(b)* political campaigning. [270210]

Nick Harvey: The House of Commons facilities time agreement sets out the principles and practices which govern the facilities made available by the House of Commons service to employees who are accredited representatives or members of unions recognised by the House of Commons service. Facilities are provided to ensure effective negotiation, consultation and communication between management and unions. The facilities are not provided for political activity or political campaigning.

WORK AND PENSIONS

Departmental Advertising

Mr. Harper: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of his Department's employability advertising campaign; what indicators have been used to assess its effectiveness; how much has been spent on the campaign to date; and when he will publish an evaluation of the campaign. [270691]

Jonathan Shaw: The "Employ ability" communications campaign that ran between September 2007 and March 2009 aimed to challenge attitudes amongst SME employers towards recruiting and retaining disabled people and those with long term health conditions.

The campaign was delivered through the following activity:

Advertising and advertorials in trade and regional press

Billboard posters

Media liaison and PR

How to Employ ability workshops

Web pages on DWP website

E-marketing, direct mail and telemarketing

Engagement with employer and disability organisations

Evaluation of the campaign is currently being conducted. This will assess shifts in employers' attitudes and behaviour towards disabled people and people with long-term health conditions as well as awareness of information from the campaign and effectiveness of the channels used. A summary of the evaluation will be placed in the public domain by end July 2009.

The total amount spent on the campaign since September 2007 is £4,626,000.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Work and Pensions what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269548]

Jonathan Shaw: The information requested is not available in the format requested. The Department does not own its IT equipment, it is provided under contractual arrangements with the Department's IT suppliers. Under existing contractual arrangements there is no formal requirement to measure the carbon impact of the services provided to the Department.

An estimate of the power consumption associated with the use of personal computers in the Department is set out in the table.

	Business unit		
	Jobcentre Plus	*Pensions, Disability and Carers Service*	*Corporate*
Number of PCs deployed	80,656	16,728	8,266
Estimated annual energy consumption (KwH)	15,576,545	3,230,565	1,596,356
CO_2 equivalent (Kg)[1]	8,364,916	1,734,878	857,275
Approximate cost based upon April 2009 costs (£)	2,056,104	426,435	210,719

[1] Conversion factor as per:
http://www.defra.gov.uk/environment/business/reporting/pdf/ghg-cf-guidelines-annexes2008.pdf

In the summer of 2008 the Department announced its strategy to re-compete its existing contracts over a five year period. As part of this future contracting strategy it will be a contractual requirement for the Department's new providers to provide on going measurement of the environmental impact of the IT services they deliver to the Department.

Departmental Manpower

Justine Greening: To ask the Secretary of State for Work and Pensions how many *(a)* permanent, *(b)* agency and *(c)* temporary staff on contracts of (i) up to three months, (ii) between three and six months, (iii) between six and 12 months and (iv) 12 months or more there are in each directorate of his Department. [264245]

Jonathan Shaw: Information on contract lengths, in the detail asked for in the question, is not held centrally and could be provided only at disproportionate cost.

Information which is available, showing the position as at 28 February is shown in the following tables.

Table 1

Employees contract type and length	*Permanent—open ended contract*	*Fixed term appointments >12 months*	*Fixed term appointments <12 months*	*Temporary appointment 39 weeks*	*DWP total*
Jobcentre Plus	73,397	442	1,146	1,251	76,236
Pensions, Disability and Carers	16,525	123	116	88	16,852

Private Office	0	0	0	0	0
Work and Welfare Equality Group	5	8	13	7	33
Strategy, Information and Pensions	0	4	8	4	16
Grand total	100	133	110	58	401

Note:

Agency staff are administrative grade staff and professional specialist interim personnel, engaged through private sector suppliers, on short-term, temporary contracts.

Departmental Redundancy

Justine Greening: To ask the Secretary of State for Work and Pensions with reference to the answer of 26 November 2008, *Official Report*, columns 2024-5W, on redundancy, how many staff left his Department under staff exit schemes with a severance package worth *(a)* between £100,000 and £125,000, *(b)* between £125,001 and £150,000, *(c)* between £150,001 and £200,000, *(d)* between £200,001 and £250,000, *(e)* between £250,001 and £500,000, *(f)* between £500,001 and £1,000,000 and *(g)* over £1,000,000 in each year since 2005-06. [264243]

Jonathan Shaw: With reference to the answer of 26 November 2008 *Official Report* columns 2024-5W. The following table shows the number of staff who left the Department and its agencies on all types of staff exit schemes with a severance package worth, in total, more than £100,000, grouped by the value of the severance packages:

Cost of package	*Number of cases*
£100,000-£125,000	50
£125,001-£150,000	32
£150,001-£200,000	46
£200,001-£250,000	9
£250,001-£500,000	<5
£500,001-£1,000,000	0
Over £1,000,000	0

Where the figure is less than five information is suppressed on the grounds of confidentiality.

Staff exits were related to the achievement of an overall headcount reduction of 31,101 as part of the Department's Modernisation and Efficiency Programme during the 2004 spending review period.

Departmental Training

Grant Shapps: To ask the Secretary of State for Work and Pensions how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268558]

Mr. Hands: To ask the Secretary of State for Work and Pensions pursuant to the Answer of 4 February 2009, Official Report, column 1260W, which Minister attended each course; and how much each course cost. [265658]

Jonathan Shaw: Training is provided to Ministers as necessary in order to carry out their duties effectively under the ministerial code.

Housing Benefit

Mr. David Anderson: To ask the Secretary of State for Work and Pensions for what reasons those renting a property which they have previously owned are not normally eligible for housing benefit. [269993]

Kitty Ussher: The exclusion rules concerning previously owned properties are intended to ensure that individuals do not benefit from housing benefit in circumstances that have been contrived in order to take advantage of the system. Help is however provided to those who satisfy the local authority that they could not have continued to live in the property without selling it.

Jobcentre Plus: Redundancy

Justine Greening: To ask the Secretary of State for Work and Pensions with reference to the answer of 26 November 2008, *Official Report*, columns 2024-5W, on redundancy, how many of the staff leaving his Department and its agencies on staff exit schemes were employed by Jobcentre Plus in each year since 2005-06. [264261]

Jonathan Shaw: The following table shows the number of staff, included in the response of 26 November 2008, who were employed by Jobcentre Plus in each of the years 2005-06, 2006-07 and 2007-08.

	Number
2005-06	1,987
2006-07	1,862
2007-08	1,443

Natural Gas: Safety

Willie Rennie: To ask the Secretary of State for Work and Pensions how many gas technicians in Scotland *(a)* were registered under the CORGI scheme and *(b)* are registered under the new Gas Safety Register scheme. [269001]

Jonathan Shaw *[holding answer 20 April 2009]*: The information requested is as follows:

	Number
Gas engineers in Scotland registered with CORGI Gas Registration (at the close of the scheme on 31 March 2009)	3,321 businesses covering 10,333 individual operatives
Gas engineers in Scotland registered with the Gas Safe Register (as at 17 April 2009)	3,031 businesses covering 9,561 individual operatives

The Gas Safe Register came into effect on 1 April 2009 and continues to take registrations on a daily basis.

Nuclear Safety Advisory Committee

Greg Clark: To ask the Secretary of State for Work and Pensions what assessment he made of the performance of the Nuclear Safety Advisory Committee in advising the Health and Safety Executive. [269207]

Jonathan Shaw: No formal assessment of performance was made when the Committee reached the end of its term of office in October 2008. However, the advice contained in the Committee's final report for the period ending 31 October 2008 was reviewed by the Health and Safety Executive (HSE). The report is available on HSE's website.

Social Fund

Jenny Willott: To ask the Secretary of State for Work and Pensions how much was paid out in *(a)* crisis loans, *(b)* budgeting loans and *(c)* community care grants in (i) each Jobcentre Plus district and (ii) each region in each month since October 2008; and if he will make a statement. [269535]

Kitty Ussher: The available information has been placed in the Library.

SOLICITOR-GENERAL

Fraud: Convictions

Mr. Djanogly: To ask the Solicitor-General how many people have been convicted of fraud offences in each of the last 10 calendar years. [270712]

The Solicitor-General: Records held by the Crown Prosecution Service can provide an analysis of the outcome of proceedings in defendant cases where the principal offence with which the defendant was charged was either fraud or forgery. The following table shows, for the four year period since 2005-06 for which figures are available, the number of defendants in which the principal offence was fraud or forgery, together with the outcome of proceedings. Outcomes are divided into convictions, including guilty pleas as well as convictions after trial; and unsuccessful outcomes, comprising all other outcomes.

The broad category of fraud and forgery includes cases where the principal offence charged was contrary to the Fraud Act; bankruptcy offences; forgery and counterfeiting; and fraud and forgery associated with vehicle or driver records.

CPS proceedings for fraud and forgery

	Convictions		*Unsuccessful outcomes*		
	Number	*Percentage*	*Number*	*Percentage*	*Total*
2005-06	6,547	84.8	1,176	15.2	7,723
2006-07	6,404	86.2	1,024	13.8	7,428
2007-08	11,056	89.7	1,275	10.3	12,331
2008-09	12,919	90.0	1,434	10.0	14,353

The following table shows how many people have been convicted of fraud offences in each of the last 10 financial years[1], following prosecutions brought by the Serious Fraud Office (SFO):

[1] The statistics for the 2008-09 financial year have not been finalised, and therefore we cannot provide data for the number of people convicted in this year.

Financial year	*Number of convictions*
2007-08	17
2006-07	15
2005-06	13
2004-05	37
2003-04	20
2002-03	17
2001-02	10
2000-01	54
1999-2000	12
1998-99	27

Revenue and Customs Prosecutions Office (RCPO) was created as an independent Government Department on 18 April 2005, data before this cannot be provided.

RCPO have defined "fraud" offences as those relating to VAT, direct tax, tax credits and excise and the following table shows the figures for the last four financial years.

	Number of convictions
2005-06	455
2006-07	558
2007-08	409
2008-09	415

INTERNATIONAL DEVELOPMENT

Asylum: Overseas Aid

John Battle: To ask the Secretary of State for International Development what proportion of the Government's official development assistance has been spent on providing temporary assistance to refugees from developing countries in the last two years. [269085]

Mr. Michael Foster: Nearly all of the UK Government's support for refugees in developing countries is through the UN High Commissioner for Refugees (UNHCR), the lead UN agency for providing support to refugees. The assistance to UNHCR includes some support for internally displaced people as well as for refugees. Some funding is provided to other agencies. The most substantial of which is that given to the Thai Burma Border Consortium which provides support to refugees on the Burma/Thai border.

Funding	*2007*	*20*
UNHCR (£ million)	30.7	27
Thai Burma Border Consortium (£ million)	0.3	1
Total (£ million)	31.7	28
As a proportion of official development assistance (percentage)	0.57	0.

There may be some other small elements of fundin through other organisations which support refugees a part of grants not specifically focused on refugees.

Departmental Energy

Greg Clark: To ask the Secretary of State fo International Development what steps have been take by his Department to improve the thermal efficiency o its buildings in the last 12 months. [26676

Mr. Michael Foster: The Department for Internationa Development (DFID) has taken a number of measure to improve the thermal efficiency of our buildings ove the last year. These include:

Refined the plant run times to ensure that heating and coolin is only in operation when absolutely necessary;

Conducting a thermography survey of our headquarters buildin to identify any areas of heat loss through the external wall and also any possible issues due to imbalances in electrica equipment or incorrect operation/ventilation of equipment;

Reviewed and reduced the heating set point in some areas o our buildings;

Installed vents in IT server rooms to make use of free coolin where possible;

Reduced the hot water temperature in our headquarters building

The net impact of these and other measures are tha our consumption of gas in our UK buildings will hav reduced by 9 per cent. in 2008-09 compared to the prio year.

Greg Clark: To ask the Secretary of State fo International Development what recent progress hi Department has made towards the target of increasin its energy efficiency per square metre of its Estate by 1 per cent. by 2010, relative to 1999-2000 levels; and if h will make a statement. [26687

Mr. Michael Foster: Based on the latest figures fo 2008-09, the energy use of the Department for Internationa Development's (DFID) UK estate per square metre 10 per cent. higher than the 1999-2000 levels.

The increase in energy per square metre is to significant extent attributable to the fact that our sta per square metre has increased by 15 per cent. over th time, inevitably increasing the energy used through th number of computers and other electrical goods p square metre.

We now have more centralised IT systems in the U which serve our overseas offices, and have investe significantly in other technologies such as vide conferencing which have resulted in efficiency and carbo savings.

Sudan: Overseas Aid

Mr. Jim Cunningham: To ask the Secretary of State for International Development what humanitarian assistance the Government has provided to the population of Darfur in the last 12 months. [268951]

Mr. Ivan Lewis: I refer my hon. Friend to the answer given to the hon. Member for Buckingham (John Bercow) on 25 March 2009, *Official Report*, column 401W.

Information on the Department for International Development's funding to Sudan is available in the publication Statistics on International Development 2007/08. This is available in the Library of the House and online at:

http://www.dfid.gov.uk/pubs/files/sid2008/release.asp

LEADER OF THE HOUSE

Written Answers

8. **Michael Fabricant:** To ask the Leader of the House what guidance she has provided to Ministers on arrangements to ensure that answers to parliamentary questions for written answer are provided first to the hon. Member who tabled the question. [270332]

Chris Bryant: Good practice for all Government Departments is that the answers should be available to hon. Members prior to them being distributed elsewhere in the House, for example to the Library, *Hansard*, Table Office and Press Gallery.

9. **Mr. Dunne:** To ask the Leader of the House what recent assessment she has made of the adequacy of answers given by Ministers to parliamentary questions for written answer. [270333]

Chris Bryant: Ministers are fully aware of their responsibilities to this House in respect of written questions. The Leader of the House keeps the quality of Ministers' answers to written parliamentary questions under continuous review.

Mr. Lancaster: To ask the Leader of the House what recent representations she has received from hon. Members on the completeness of answers to parliamentary questions for written answer. [270328]

Chris Bryant: My right hon. and learned Friend and I receive regular representations on a variety of issues relating to the answer of written parliamentary questions.

Ministers are fully aware of their responsibilities to this House in respect of written questions. The Leader of the House keeps the quality of Ministers' answers to written parliamentary questions under continuous review.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Leader of the House how many officials in her Office are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for any such suspensions. [270504]

Chris Bryant: None.

HOME DEPARTMENT

Asylum

Rosie Cooper: To ask the Secretary of State for the Home Department when a decision will be made on the application by relatives of the constituents of the hon. Member for West Lancashire, Mr Katona, visa reference number VFS-ZA-01-011915-X and Amanda Katona, visa reference number VFS-ZA-01-011916-X, for a family reunion visa, made in Pretoria, South Africa. [247869]

Mr. Woolas *[holding answer 15 January 2009]:* The visa section in Pretoria have sought verification of key documents submitted in support of these visa applications, the results of which have now been received. The applications were resolved on 26 January 2009.

Martin Horwood: To ask the Secretary of State for the Home Department what procedures are in place to enable UK Border Agency caseworkers to examine new evidence in respect of individuals seeking asylum. [270190]

Mr. Woolas *[holding answer 22 April 2009]:* The procedure followed by UK Border Agency case owners in examining new evidence in respect of individuals seeking asylum depends on the stage the asylum claim has reached when the new evidence comes to light.

If the individual's asylum claim is outstanding, the new evidence will form part of the initial consideration.

If the individual has had an initial decision on their asylum claim, but they have an appeal outstanding, they may have a reconsideration of the original decision by the UKBA case owners, or the new evidence may be considered at appeal by an immigration judge, depending on the similarity of the new evidence to that which has previously been considered.

If the individual has come to the end of the asylum process and has exhausted their appeal rights, any new evidence put forward will be considered under paragraph 353 of the Immigration Rules.

Asylum: Bahrain

Mr. Purchase: To ask the Secretary of State for the Home Department what criteria apply to decisions on whether to grant asylum to a Bahraini national. [267845]

Mr. Woolas: Bahrain generates very few asylum claims here. In accordance with our international obligations, trained case owners will consider any claim that is made on its individual merits consistent with the established refugee and human rights criteria, referring to the latest available country of origin information. The UK Border Agency provides country specific guidance to case owners on common types of asylum claim from countries which generate significant numbers of such claims. Because there are no common types of Bahraini asylum claim, reflecting very low numbers of applications, no such country specific guidance is produced for Bahrain.

Borders: Personal Records

Damian Green: To ask the Secretary of State for the Home Department how many people were on the e-Borders watch list on 30 December 2008. [251688]

Mr. Woolas: The data held on the e-Borders watchlists are drawn from a variety of sources, including the police and other Government Departments. Checks are undertaken against this database for the purposes of border control, national security and the detection and prevention of crime.

It is longstanding policy not to discuss either the specific information held on the database or details relating to the volumes of data on it. To do so would be counterproductive and may provide sensitive information to those seeking to circumvent border controls.

Crime

Chris Grayling: To ask the Secretary of State for the Home Department pursuant to the answers of 9 March 2009, *Official Report*, column 79W, on police: crime, and 30 March 2009, *Official Report*, columns 943-44W, on crime, for what reasons her Department is able to provide information on only some categories of incidents recorded in 2007-08. [269241]

Jacqui Smith: Data in respect of certain incidents (including, for example, assistance to other agencies, bail or curfew checks etc.) are recorded under the heading of 'administration', as defined within the National Incident Category List (NICL). The data for categories within 'administration' are considered as information for local management purposes only and provide only a partial picture of these types of records. The collection of such data ceased during 2007-08. Data for incidents as defined within the other themes of NICL (including, for example, firearms incidents) continue to be collected.

Departmental ICT

Mr. Hoban: To ask the Secretary of State for the Home Department what IT projects *(a)* her Department and *(b)* each of its agencies is undertaking; and what the most recent estimate of (i) the cost and (ii) the completion date of each is. [242265]

Mr. Woolas: The information requested is in the following table.

Business owner	*Programme*	*Current expected completion*	*Current estimated cost*
IPS	National identity scheme—IPS element	2012	[1]£4.785 billion
UKBA	Identity Cards for Foreign Nationals (formerly BRP)	August 2010	£12.4 million
UK Border Agency	Immigration Casework (ICW)[2]	June 2015	£370 million
UK Border Agency	Points Based System (PBS)	March 2011	£33 million
UK Border Agency	e-Borders	1 March 2014	£749.32 million
Shared Services	SBS Programme	2011	£41 million
CRCSG/Independent Safeguarding Authority	Vetting and Barring Scheme	October 2009	[3]£84 million [4]246 million

[1] 10-year period October 2008 to October 2018

[2] These figures are estimates developed for the ICW OBC. They have not yet been baselined.

[3] Set up cost

[4] Operational costs over five years.

In addition to the above, the Home Office is also the lead Department for the cross-Government Interception Modernisation Programme, announced by the Prime Minister in February 2008.

Departmental Ministerial Policy Advisers

Mr. Ruffley: To ask the Secretary of State for the Home Department how much her Department spent on severance pay to special advisers in 2008-09. [269695]

Mr. Woolas: The Home Office has paid no severance pay to special advisers in 2008-09.

Departmental Vetting

Damian Green: To ask the Secretary of State for the Home Department what checks her Department and its agencies make of the immigration status of couriers working within her Department and its agencies; whether her Department requires couriers to notify the Department if they discover an illegal worker who has worked handling documents on behalf of her Department and its agencies; and how many illegal workers have been discovered working for such couriers in each of the last three years. [243123]

Mr. Woolas: Internal Government couriers are security cleared and, as part of that process, are subject to a nationality status check. Staff who work for contractors and who have a need to access Home Office official information and/or Home Office premises are security cleared to the appropriate standard. Checks conducted by contractors on other staff are subject to periodic audit and inspection under contractual terms. The Home Office and its agencies do require information on any potential breaches of security by contractors. In the last three years I am aware of one individual working in a self-employed capacity for a contractor who was discovered through internal checks to have been working without the required permission.

Deportation

Mr. Stewart Jackson: To ask the Secretary of State for the Home Department what mechanism she uses to evaluate the efficacy of her policy of removing individuals who have no legal right to remain in the United Kingdom after their applications for indefinite leave to remain in the United Kingdom have been disallowed; and if she will make a statement. [261901]

Mr. Woolas *[holding answer 10 March 2009]*: When an application for indefinite leave to remain (ILR) is refused, any subsequent appeals dismissed, and the applicant has no other grounds for leave, the UK Border Agency will seek to enforce compliance with the immigration decision. Those who refuse to leave voluntarily are classed as overstayers and are liable for enforced removal.

In 2008, we introduced case ownership for all in-country cases. Disallowed applications for ILR are owned by a case owner, based in the region where the applicant lives, who is responsible for pursuing the case to conclusion and giving priority to cases according to the harm they may potentially cause to the public. In addition to this, work is being undertaken on the development of electronic embarkation controls (e-Borders) to record departures, allowing us to monitor compliance and focus enforcement resource on those who do not comply.

Further information on the UK Border Agency's enforcement strategy is available to view at:

http://www.ukba.homeoffice.gov.uk/managingborders/enforcement/

The efficacy of this approach is assessed by measuring the number of voluntary departures and removals. In 2008, 66,275 people were removed or departed voluntarily from the UK (which will include overstayers)—a 5 per cent. increase on 2007. This includes a 10 per cent. increase in non-asylum cases from 49,660 in 2007 to 54,635 in 2008. These figures (not percentages) are rounded to the nearest five and are provisional.

The Home Office publishes statistics on the number of persons removed and departed voluntarily from the UK on a quarterly and annual basis. National Statistics on immigration and asylum are placed in the Library of the House and are available from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Detainees: Immigration

Chris Huhne: To ask the Secretary of State for the Home Department if she will review the UK's opt-out from the EU returns directive; and if she will adopt a maximum time limit for the detention of illegal immigrants. [264766]

Jacqui Smith: While the United Kingdom has not opted-in to this directive, we agree that a collective approach to removal would have advantages. However, we are not persuaded that this directive delivers the strong returns regime that is required for dealing with irregular migration. We prefer to formulate our own policy in line with retaining control over conditions of entry and stay; including the returns procedure. Our current practices on the return of illegal third country nationals are in line with the prescriptions of the directive.

Detention is a final option and is only used for the shortest period necessary. Every decision to detain is taken on a case by case basis and we do not have a maximum time limit.

Detention Centres: Prostitution

John McDonnell: To ask the Secretary of State for the Home Department how many individuals who had worked as a prostitute in the UK were subsequently detained in an immigration removal centre in each year since 2000. [258269]

Mr. Woolas: The information requested is not held centrally and could be obtained only by checking individual case files at disproportionate costs.

Firearms: Crime

Chris Grayling: To ask the Secretary of State for the Home Department what non-notifiable crimes involving firearms and imitation firearms would be recorded as a firearm incident as defined by the Incident Category List in 2007-08. [269231]

Jacqui Smith: The various non-notifiable offences that may be included within reports recorded as a firearms incident as defined in the National Incident Category List are given as follows.

Data collected under the National Standard for Incident Recording are normally used for management information only and are not subject to the detailed checks that apply for National Statistics publications.

Offences under Firearms Act 1968

Non-compliance with condition of firearm certificate[1]
Making false statement to obtain permit[1]
Trespassing with firearm on land[2]
Person under 17 purchasing or hiring firearm or ammunition[2]
Taking firearms or ammunition in pawn
Pawnbroker taking shotgun in pawn[3]
Failure of an individual to comply with any condition of an authority vested in him
Non-compliance to surrender an authority
Restricting removal of firearms
Making false statement to obtain permit[1]
Making false statement to obtain permit for removal of signalling apparatus
Trespassing with firearm in a building[2]
Person under 14 having firearm or ammunition in his possession[3]
Person under 15 having with him a shotgun without adult supervision[4]
Person under 17 having with him an air weapon or ammunition
Person under 17 making improper use of air weapon when under supervision
Person supervising permitting improper use of air weapon by person under 17
Selling or letting on hire a firearm or ammunition to person under 17[1]
Making a gift or lending any firearm or ammunition to person under 14[3]
Making gift of shotgun to person under 15[4]
Supplying air weapon to person under 17[5]
Supplying firearm to person drunk or insane[2]
Making false statement to obtain grant or renewal of firearm certificate[1]
Failure to surrender certificate on removal of dealer's name from register
Making false statement to secure registration of a place of business

Registered dealer failing to have place of business entered in register

Non-compliance with condition of registration

Non-compliance by dealer as to register of transactions-false entry

Failing to report a transaction authorised by a visitor's shotgun permit[4]

Failure to surrender firearm or ammunition on demand by constable[2]

Failure to comply with requirements of a constable to declare name and address[1]

Failure to give constable facilities for examination of firearms in transit[1]

Failure to surrender firearm certificate[1]

Offences under Firearms Act 1968 as amended by Firearms (Amendment) Act 1988

Making false statement to obtain permit to auction firearms etc.[1]

Failing to surrender firearm certificate or firearm or ammunition on revocation of certificate[1]

Firearms Act 1968 as added by Violent Crime Reduction Act 2006

Fire an air weapon beyond premises

Person under 18 purchasing or hiring firearm or ammunition[2]

Selling or letting on hire a firearm or ammunition to person under 18[5]

Person under 18 purchasing an imitation firearm; selling an imitation firearm to person under 18

Firearms Act 1968 as added by Firearms (Amendment) Act 1997

Obstructing constable or civilian in exercise of search powers

Firearms (Amendment) Act 1988

Transfers of shotguns[4]

Restriction on sale of ammunition for smooth-bore guns[4]

Auctioneer, carrier or warehouseman failing to keep firearms and ammunition safe or failing to report loss or theft[1]

Obstructing a constable entering or inspecting an approved rifle/pistol club

Making false statement to obtain a visitor's permit[1]

Failing to comply with conditions on a visitor's permit[1]

Firearms dealer failing to inform police of sale of firearms for export[1]

Making a false statement to obtain, or not complying with, museum licence

Failing to comply with condition of museum licence

Failing to surrender a revoked museum licence

Firearms (Amendment) Act 1997

Failure to transfer shotgun in person[4]

Failing to comply with instruction in shotgun certificate upon transfer to person other than registered dealer[4]

Failure to give notice in writing to the Chief Officer of Police of transfers involving shotguns[4]

Failure by certificate holder to give written notice to the Chief Officer of Police of deactivation, destruction or loss of shotgun[4]

Failure by certificate holder to notify in writing to the Chief Officer of Police of events taking place outside Great Britain involving shotguns (sold or otherwise disposed of, lost etc.)[4]

[1] Group I, Group II offence

[2] Group I, Group II, Group III offence

[3] Group I Offence

[4] Group II Offence

[5] Group III Offence

Foreign Workers

Mr. Soames: To ask the Secretary of State for the Home Department pursuant to the answer of 10 February 2009, *Official Report*, column 1829W, on foreign workers, what the definition of a temporary worker under Mode 4 of the general agreement in trade and services is. [267775]

Mr. Woolas *[holding answer 30 March 2009]:* The definition of a temporary worker under mode 4 of the general agreement on trade in services is in the public domain and can be found in the current EC services offer in the Doha development agenda (DDA) negotiations on the World Trade Organisation website:

www.wto.org

A hard copy of the EC services offer will be placed in the House Library.

Immigration Controls: Educational Institutions

Mr. Oaten: To ask the Secretary of State for the Home Department how many academic advisors the UK Border Agency employs to assess whether students have made sufficient academic progress under the requirements of Tier 4 of the immigration controls established in 2008. [261850]

Mr. Woolas *[holding answer 9 March 2009]:* The UK Border Agency does not assess whether students have made sufficient academic progress under the requirements of tier 4 of the points based system (PBS). The education provider, as a licensed sponsor, will be relied upon to make this assessment.

The phased implementation of tier 4 of the points based system commenced on 28 July 2008, when the UK Border Agency started accepting sponsor licence applications from educational institutions that wish to bring students from outside the European economic area to the UK for study. The Statement of Changes to the Immigration Rules (HC 314) laid before the House on 9 March 2009 marks the start of the second phase: from 31 March 2009, only UK Border Agency licensed institutions will be able to bring students to the UK, and student applicants will need to meet the tier 4 points test before being granted leave to enter or remain. No student has yet been assessed under tier 4 of the PBS.

UK Border Agency officers are not best-placed to make academic judgments about the ability for a student to carry out a course, that is why under tier 4 we are replacing the current subjective criteria with clear and objective tests. Under tier 4, the education provider, as a licensed sponsor, will be relied upon to make the assessment as to whether a student has made sufficient academic progress. The sponsor may only issue a visa letter to the student if it is satisfied that the student both intends and is able to follow the course of study concerned.

Immigration: Appeals

Damian Green: To ask the Secretary of State for the Home Department how many appeals under the points-based immigration system have resulted from errors in registering the date on which an application was submitted. [267450]

Mr. Woolas: Under the points-based system, where an application for leave to enter the UK is refused, the applicant does not have a right of appeal, although they may ask for us to review our decision. This is known as Administrative Review.

Where an application for leave to remain in the UK is refused a right of appeal is available.

Although the Case Information Database records the number of appeals that are the result of decisions made by migrants applying under the new points-based system, it does not record the grounds for each appeal. It is therefore not possible to generate a report which shows which of these were lodged due to an error in registering the date on which the application was submitted. This information could be obtained only by manually cross-checking a large number of individual case files, which could be completed only at disproportionate cost.

Immobilisation of Vehicles

Mrs. Betty Williams: To ask the Secretary of State for the Home Department when she plans to publish the feasibility study relating to wheel clamping on private land recently received by her from the Security Industry Authority; and if she will make a statement. [270279]

Mr. Alan Campbell: The Home Secretary announced on 3 April 2009 her intention to launch a formal consultation in late April on the options for how best to regulate the wheel clamping industry. The consultation document, which includes the results of the SIA's feasibility study, will be published, and copies will be placed in the House Libraries.

The Government's preferred option will be to introduce compulsory licensing by the Security Industry Authority of wheel clamping companies.

Investigatory Powers Tribunal

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department how many appeals the Investigatory Powers Tribunal has heard since its establishment; and how many of these were upheld. [270069]

Mr. Coaker: Information on the number of complaints made and upheld is given in the published annual reports of the Interception of Communications Commissioner and the Intelligence Services Commissioner. Figures for 2008 are not yet available but the relevant figures from the published reports from 2001-07 are summarised in the following table:

	Applications received	*Investigations concluded*
2 October to 31 December 2001	102	71
1 January to 31 December 2002	130	94
1 January to 31 December 2003	109	100
1 January to 31 December 2004	90	115
1 January to 31 December 2005	80	93
1 January to 31 December 2006	86	81
1 January to 31 December 2007	66	83

The reports show that since 2001 the Investigatory Powers Tribunal has made a determination—in 2005—in favour of two complainants who lodged a joint complaint. Copies of the Commissioners' reports are in the House Library.

Members: Correspondence

Ann Winterton: To ask the Secretary of State for the Home Department when she plans to respond to the letter from the hon. Member for Congleton to the Ministry of Defence transferred to her Department on 21 November 2008, Ref M21908/8, on retirement provisions for Gurkha soldiers, sent on behalf of a constituent Mr. K Chippendale. [270503]

Mr. Woolas: In September 2008, the High Court agreed that the 1997 cut-off date applied to retired Gurkhas was sound and not discriminatory. However, it did find that the policy guidance relating to the treatment of Gurkhas discharged before 1997 was not sufficiently clear and did not cover service-related factors. We are determined to get the revised guidance right to ensure that it is fair to all Gurkhas and this has involved consultation across Government.

The revised guidance for Gurkhas who retired before July 1997 and who wish to seek settlement in the UK will be published by 24 April. We want to give Members the fullest possible information and we therefore plan to write to them on or soon after that date with an explanation of our revised guidance.

Parliamentary Questions: Government Responses

Chris Huhne: To ask the Secretary of State for the Home Department when she plans to provide a substitution answer to Question 265753, on Operation Koala, tabled on 18 March 2009 for answer on 24 March. [268905]

Jacqui Smith *[holding answer 21 April 2009]:* I replied to the hon. Gentleman on 20 April 2009, *Official Report*, column 199W.

Penalty Notices

Paul Holmes: To ask the Secretary of State for the Home Department how many people in each police force area have been issued with penalty notices for disorder in each of the last three years, broken down by type of offence; and how many fines imposed by such penalty notices remain unpaid. [265890]

Mr. Straw: I have been asked to reply.

The number of penalty notices for disorder (PNDs) issued to persons aged 16 and over in each police force area in England and Wales, paid within and outside the 21 day Suspended Enforcement Period (SEP) and registered as fines for non-payment, by type of offence from 2004 to 2007 (latest available) are shown in tables 1 to 9 and have been placed in the Libraries of the House. 21 days is the minimum period before which forces can register a fine against the recipient for not responding to a notice, so forces can accept payments after the SEP for administrative purposes. It is not possible to separately identify the payment rate of fines arising from unpaid PNDs, but the latest enforcement rate for all fines, including those from unpaid PNDs, is 85.2 per cent. for the period April to December 2008.

PNDs were implemented in all 43 forces in England and Wales in 2004.

PND data for 2008 will be available in the autumn of 2009.

Plain English

Mr. Ruffley: To ask the Secretary of State for the Home Department how much her Department paid to the Plain English Campaign for *(a)* corporate membership fees, *(b)* additional training for officials, *(c)* use of the Approved by Plain English Campaign mark on documents, *(d)* use of the Internet Crystal Mark on her Department's website and *(e)* other fees in 2008-09. [269784]

Mr. Woolas: The following table sets out payments made to the Plain English Campaign during 2008-09.

	£
Corporate membership	0
Additional training fees	1,556
Approved by Plain English Campaign mark on documents	0
Internet Crystal Mark on departmental website	0
Other fees	945

The Department has held life membership of the Plain English Campaign since 2006, reflecting its commitment to the use of plain English.

Police: Cameras

Chris Grayling: To ask the Secretary of State for the Home Department how many head-cameras are in use by police forces in England and Wales. [269235]

Jacqui Smith: This information is not collected by the Home Office in respect of police forces in England and Wales.

Police: Vetting

Chris Huhne: To ask the Secretary of State for the Home Department whether people applying to become *(a)* police officers, *(b)* police community support officers and *(c)* police civilian staff are required to have a Criminal Records Bureau check. [266171]

Jacqui Smith *[holding answer 25 March 2009]:* Before a person can be recruited into a police force, thorough checks are made to ascertain if anything is known to the detriment of the applicant, spouse, partner, close relatives or other associates which could heighten vulnerability or cause embarrassment to the police service.

Checks are conducted through the Police national computer, criminal history system, criminal information system, counter terrorism databases and local intelligence as well as military and police professional standards databases where necessary. There is no national requirement for Criminal Records Bureau checks. I am confident that the current comprehensive vetting requirements are sufficient to ensure that only suitable applicants are appointed.

UK Border Agency: Complaints

Mr. Burstow: To ask the Secretary of State for the Home Department what steps the Chief Inspector of the UK Border Agency has taken to monitor the way in which complaints of racism against the UK Border Agency are handled; and if she will make a statement. [260819]

Mr. Woolas: I have asked the independent chief inspector to respond in writing to the hon. Member.

Work Permits

Mr. Soames: To ask the Secretary of State for the Home Department how many work permits for intracompany transfers were issued in each month of 2008; and how many dependants were included in such permits. [256880]

Mr. Woolas *[holding answer 23 February 2009]:* The following table provides numbers of Intra Company Transfer work permits issued by month for the period 1 January 2008 to 31 December 2008. The number of dependants is not available as work permits were issued to companies who applied on behalf of individuals.

	Number
January 2008	4,315
February 2008	3,875
March 2008	3,680
April 2008	4,680
May 2008	4,455
June 2008	3,790
July 2008	4,850
August 2008	4,735
September 2008	4,550
October 2008	4,195
November 2008	3,505
December 2008	1,385
Total	48,010

Notes:

1. The figures quoted are not provided under National Statistics protocols and have been derived from local management information and are therefore provisional and subject to change. Figures are rounded to nearest five so the monthly figures may not quite add up to the total.
2. The figures do not equate to the number of individuals who were granted permits because they include those applications approved to extend or amend an existing permit or where the individual has moved to another job with a different employer. Not all those who were granted a permit took up the job and some may have been refused entry clearance or further leave to remain.

Mr. Soames: To ask the Secretary of State for the Home Department how many work permits were issued under the Shortage Occupation Scheme in 2008; and how many dependants were included in such permits. [256881]

Mr. Woolas *[holding answer 23 February 2009]:* The number of work permits issued under the shortage occupation application category in 2008 was 7,595[1]. The number of dependants is not available as work permits were issued to companies who applied on behalf of individuals.

[1] The figure quoted is not provided under National Statistics protocols and has been derived from local management information and is therefore provisional and subject to change. Figure is rounded to nearest 5.

The figures do not equate to the number of individuals who were granted permits because they include those applications approved to extend or amend an existing permit or where the individual has moved to another job with a different employer. Not all those who were granted a permit took up the job and some may have been refused entry clearance or further leave to remain.

Mr. Soames: To ask the Secretary of State for the Home Department how many permits were issued in each month of 2008 under the Highly Skilled Migrant Programme and Tier One of the points-based system; how many dependants were included in those permits; which the top 10 countries of origin were for such permit holders in 2008; and how many permits were issued to applicants from each such country. [256882]

Mr. Woolas *[holding answer 23 February 2009]:* The information requested on tier 1 of the points based system is not currently available. It will be published as part of the Migration Statistics in August 2009.

Information for the Highly Skilled Migrant programme (HSMP) is set out as follows. The table shows the number of permits (approvals) granted under the HSMP route by month, from January 2008 until December 2008 and includes information on both In Country and Out of Country grants for main applicants and dependants.

	HSMP	
	Main applicants	*Dependents*
January	4,505	1,710
February	4,210	1,545
March	3,415	1,045
April	3,025	975
May	1,395	630
June	1,525	370
July	1,455	270
August	1,105	285
September	2,170	180
October	1,580	260
November	80	265
December	50	225
Total	24,515	7,760

HSMP: Top 10 countries

The following table shows the top 10 countries of origin (nationalities) for which permits (approvals) have been granted under the HSMP route in 2008. It includes in country and out of country data for main applicants only.

Top 10 Countries	*Number of permits issued*
India	6,635
Pakistan	2,500
Australia	1,870
Nigeria	1,835
South Africa	1,030
New Zealand	1,010
United States of America	525
China	365
Sri Lanka	350
Russian Federation	210

Note:

The "out of country" portion of HSMP data is sourced from CRS system; the "in country" portion of HSMP data is sourced from Adept and CID system. Data has been extracted from the aforementioned systems on 25 February 2009.

Written Questions: Government Responses

Mr. Malins: To ask the Secretary of State for the Home Department when she plans to reply to Question 261890, tabled by the hon. Member for Woking on 4 March 2009, on criminal activities and convictions. [265188]

Mr. Alan Campbell *[holding answer 20 March 2009]:* I replied to the hon. Member on 20 April 2009, *Official Report*, columns 156-57W.

WOMEN AND EQUALITY

Departmental Carbon Emissions

Greg Clark: To ask the Minister for Women and Equality whether the Government Equalities Office has adopted the Carbon Trust's Carbon Management Programme. [266739]

Maria Eagle: The Government Equalities Office leases its main accommodation from Communities and Local Government—CLG has adopted the Carbon Trust's Carbon Management programme and its performance is reported at:

http://www.sdcommission.org.uk/sdig2008/departments.php?departments=department_clg&search_submit.x=12&search_submit.y=15

Departmental Energy

Greg Clark: To ask the Minister for Women and Equality what steps have been taken by the Government Equalities Office to improve the thermal efficiency of its buildings in the last 12 months. [266748]

Maria Eagle: The Government Equalities Office is based in Eland House in Victoria, the headquarters of Communities and Local Government (CLG). CLG is responsible for the thermal efficiency of Eland House.

I refer the hon. Member to the answer given to him by the Parliamentary Under-Secretary of State for Communities and Local Government on 31 March 2009, *Official Report*, columns 1043-44W.

Greg Clark: To ask the Minister for Women and Equality what recent progress her Office has made towards the Government's target of increasing its energy efficiency per square metre of the Government Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if she will make a statement. [266867]

Maria Eagle: The Government Equalities Office leases its main accommodation from Communities and Local Government (CLG).

I refer the hon. Member to the answer given to the hon. Member for Tunbridge Wells (Greg Clark) on 1 April 2009, *Official Report*, column 1233W, by my hon. Friend the Parliamentary Under-Secretary of State for Communities and Local Government (Mr. Khan).

Departmental Public Expenditure

Mr. Hoban: To ask the Minister for Women and Equality how much capital spending is planned to be brought forward by her Office to *(a)* 2008-09 and *(b)* 2009-10. [266337]

Maria Eagle: No capital expenditure has been brought forward by the Government Equalities Office for 2008-09 or for 2009-10.

Dr. Cable: To ask the Minister for Women and Equality what her latest estimate is of capital expenditure of the Government Equalities Office in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if she will make a statement. [268131]

Maria Eagle: The information is as follows:

(a) The Government Equalities Office expects to spend £2 million on capital expenditure in 2008-09.

(b) and *(c)* The Department has a capital budget of £7 million for 2009-10 and 2010-11.

(d) The Government have not set Departments' Capital DEL budgets for years beyond 2010-11. Capital budgets for 2011-12 and beyond are a matter for the next spending review.

ENERGY AND CLIMATE CHANGE

Household Energy Efficiency

17. **Laura Moffatt:** To ask the Secretary of State for Energy and Climate Change what steps he is taking to improve energy efficiency in domestic properties by 2020; and if he will make a statement. [270315]

Mr. Mike O'Brien: We have a comprehensive energy efficiency strategy for households which includes measures to improve the performance of energy using products and appliances, to raise the energy and carbon standards of new dwellings to zero carbon from 2016, to improve the energy efficiency of existing homes, and to provide information and advice to householders. We are currently consulting on policy options for the next decade through our Heat and Energy Saving Strategy.

Mr. Hoyle: To ask the Secretary of State for Energy and Climate Change what recent steps he has taken to meet his Department's 2020 target on household energy efficiency; and if he will make a statement. [270296]

Edward Miliband: The Department has set out ambitious plans to offer 7 million homes whole house energy refurbishment by 2020, building on insulation of over 5 million homes since 2002. This morning, we are also announcing an increase in the level of the Warm Front grant from £2,700 to £3,500, alongside value for money improvements, a signal that we on this side are determined not just to improve energy efficiency but to provide most help to the poorest people in our society.

Nuclear Power

8. **Mr. Russell Brown:** To ask the Secretary of State for Energy and Climate Change what recent representations he has received on Government policy on nuclear power; and if he will make a statement. [270305]

Mr. Mike O'Brien: Ministers and officials regularly engage with a wide range of stakeholders including industry, environmental groups and the unions. Nuclear has a role to play in the energy mix and the Government are committed to working with industry to enable new nuclear power stations to be built.

Marine Renewables Deployment Fund

11. **Mr. Crabb:** To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the performance of the marine renewables deployment fund; and if he will make a statement. [270309]

Mr. Mike O'Brien: The Renewables Advisory Board's recent review of the MRDF endorsed the scheme, stating it was appropriately designed and acted as a positive signal to the sector.

Global Warming

12. **Sir Nicholas Winterton:** To ask the Secretary of State for Energy and Climate Change what recent scientific evidence his Department has evaluated on global warming. [270310]

Mr. Mike O'Brien: The Intergovernmental Panel on Climate Change last reported in 2007. Since then my Department has evaluated evidence from numerous peer-reviewed papers, conference proceedings and research by the Met Office Hadley Centre. It is clear that some climate change impacts associated with human activities are happening even more quickly than previously expected, for example in the Arctic, and that, while natural temperate variations caused some temporary cooling in 2007 and 2008, the overall trend remains upward.

Fuel-poor Households

13. **Mr. Swire:** To ask the Secretary of State for Energy and Climate Change what estimate he has made of the change in the number of fuel-poor households between 2006 and 2009. [270311]

Mr. Mike O'Brien: The latest official fuel poverty numbers show there were around 2.4 million fuel poor households in England and 3.5 million in the UK in 2006.

Official projections made last year for England estimated that fuel poverty could rise to around 3.1 million households in 2007 and 3.6 million in 2008.

Projections for 2009 will be published later this year, when more information on energy prices is available, together with the actual data for 2007.

Low-carbon Strategy

14. **Jim Sheridan:** To ask the Secretary of State for Energy and Climate Change what recent representations he has received on the Government's low-carbon industrial strategy; and if he will make a statement. [270312]

Mr. Mike O'Brien: We have had many constructive discussions and representations from industry and others—some of which were directly through our low carbon industrial strategy summit of 6 March 2009. Others were via the interactive website, launched on the same day as the summit, which has had over 5,000 unique visitors; as well as other discussions. We welcome these discussions and representations which will inform our further policy development.

Copenhagen Conference

15. **Jo Swinson:** To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of prospects for progress towards a global climate change agreement at the forthcoming Copenhagen conference. [270313]

Mr. Mike O'Brien: The UK remains committed to reaching a global climate change agreement at the UN Climate Change Conference in Copenhagen this December. The recent UN Climate Change talks in Bonn made progress towards this and negotiations remain on track.

Carbon Budgets

16. **Linda Gilroy:** To ask the Secretary of State for Energy and Climate Change what mechanisms are used to set the UK's carbon budgets. [270314]

Mr. Mike O'Brien: The Committee on Climate Change is required to advise the Government on the emissions reduction pathway to 2050 and the appropriate level of the carbon budgets to be set in legislation. In addition to the Committee's advice, Government are required to take into account any representations made by the devolved Administrations and further matters specified under the Climate Change Act 2008 in setting carbon budgets.

Kingsnorth Power Station

Mrs. Lait: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Ruislip-Northwood (Mr. Hurd) of 5 March 2009, *Official Report*, column 1805W, on Kingsnorth power station, what the timetable is for the planned new consultation on a new framework for coal-fired power stations; and if he will make a statement. [270306]

Mr. Mike O'Brien: We are planning to publish a consultation on a new framework for clean coal in the summer. I refer the hon. Member to the oral statement made earlier today by my right hon. Friend the Secretary of State for Energy and Climate Change.

Wholesale Gas Prices

Miss Anne McIntosh: To ask the Secretary of State for Energy and Climate Change what recent representations he has received on trends in wholesale gas prices; and if he will make a statement. [270307]

Mr. Mike O'Brien: I have had regular discussions with the industry and users on gas prices, including through the Business Energy Forum and bilateral meetings with companies. Wholesale gas prices, especially forward prices, peaked last summer in line with high oil prices, and have since fallen considerably.

Carbon Emissions

Lindsay Roy: To ask the Secretary of State for Energy and Climate Change what steps he is taking to encourage people to reduce the levels of carbon dioxide emissions attributable to them. [270308]

Mr. Mike O'Brien: ACT ON CO_2 is a major Government-led campaign which aims to engage citizens on climate change issues. It addresses the confusion and powerlessness which can impede people from taking action. It also encourages sustained behaviour change to help reduce carbon emissions and meet UK Government emissions targets. Marketing communication activity cannot change behaviour on its own; but together with policy and delivery body interventions, the campaign aims to secure the necessary behaviour changes.

Climate Change: International Cooperation

Mrs. Cryer: To ask the Secretary of State for Energy and Climate Change what recent assessment he has made of the likelihood of reaching an international agreement on climate change in the current economic conditions. [270297]

Edward Miliband: The global economic downturn does not justify postponing action on climate change: the case for strong and early action remains robust. At the London Summit world leaders underlined their commitment to reach agreement at the UN climate change talks in Copenhagen this December. A global challenge demands a global solution and leaders recognised the importance of a low carbon recovery.

Heating: Carbon Emissions

Lembit Öpik: To ask the Secretary of State for Energy and Climate Change which circulator pumps sold in the UK have an A rated energy label. [268149]

Jane Kennedy: I have been asked to reply.

In general, to achieve an 'A' rating on the voluntary energy label developed by industry, circulators should offer full variable speed capability. We estimate that currently approximately 7 per cent. of circulators sold in the UK achieve an A rating.

DUCHY OF LANCASTER

Departmental Consultants

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what expenditure the Cabinet Office incurred on management consultancy in the last year for which figures are available. [269952]

Kevin Brennan: The most recent year for which audited figures are available on consultancy is 2007-08. Details are contained in the Cabinet Office annual report and accounts 2007-08, a copy of which is available in the Library of the House.

Redundancy: West Sussex

Mr. Soames: To ask the Chancellor of the Duchy of Lancaster (1) how many people have been made redundant in *(a)* Mid Sussex and *(b)* West Sussex in the last six months; [270700]

(2) how many people under the age of 19 years were identified as unemployed in *(a)* Mid Sussex and *(b)* West Sussex in each of the last five years; [270701]

(3) how many people identified as unemployed in *(a)* Mid Sussex and *(b)* West Sussex had been out of work for 12 months or more in each of the last five months. [270702]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how many people have been made redundant in (a) Mid Sussex and (b) West Sussex in the last six months; how many people under the age of 19 years were identified as unemployed in (a) Mid Sussex and (b) West Sussex in each of the last five years; and how many people identified as unemployed in (a) Mid Sussex and (b) West Sussex had been out of work for 12 months or more in each of the last five months. (270700, 270701 & 270702)

The Office for National Statistics (ONS) compiles labour market statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. However, this source does not support analysis of redundancies at these geographic levels and no alternate source is available.

It is also not possible to produce analysis of unemployed by small age groups, or for specific durations, for small geographic areas from this source. As an alternative, analysis of the count of claimants of Jobseeker's Allowance (JSA) for small geographic areas has been provided.

Table 1 shows the number of persons under the age of 19 claiming JSA, resident in Mid Sussex and West Sussex.

Table 2 shows the number of persons claiming JSA for more than 12 months resident in Mid Sussex and West Sussex has been provided as estimates for 12 months or more are not available.

As these estimates are for a subset of the population in small geographical areas, they are based on small sample sizes, and are therefore subject to large margins of uncertainty.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available from the NOMIS website at

http://www.nomisweb.co.uk

Table 1. Number of persons aged under 19 claiming jobseeker's allowance resident in Mid Sussex and West Sussex

As at February each year	*Mid Sussex*	*West Sussex*
2005	73	485
2006	66	646
2007	69	691
2008	57	622
2009	114	1,271

Source:
Jobcentre Plus administrative system

Table 2. Number of persons claiming jobseeker's allowance for more than 12 months resident in Mid Sussex and West Sussex

	Mid Sussex	*West Sussex*
October 2008	47	536
November 2008	48	599
December 2008	49	625
January 2009	54	667
February 2009	55	732

Source:
Jobcentre Plus administrative system

Unemployment

Adam Price: To ask the Chancellor of the Duchy of Lancaster what the unemployment rate in *(a)* Wales and *(b)* the UK was at the beginning of the economic downturn; and what such rates were at the latest date for which figures are available. [265513]

Kevin Brennan: The information requested falls within the responsibility of the UK statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what the unemployment rate in (a) Wales and (b) the UK was at the beginning of the economic downturn; and what such rates were at the latest date for which figures are available. [265513]

The Pre-Budget Report issued by H.M. Treasury in November 2008 concluded that growth in the UK economy remained above trend during 2007 and then began to head back towards trend in the first half of 2008. Gross Domestic Product (GDP) contracted in the third and fourth quarters of 2008. Unemployment rates for the three-month period November 2008 to January 2009, the latest available, are provided in the enclosed table, along with those for November 2007 to January 2008.

This information is updated monthly as part of the Labour Market Statistics First Release and can be found on the National Statistics website at the following address.

http://www.statistics.gov.uk/OnlineProducts/LMS_FR_HS.asp

The estimates are derived from the Labour Force Survey. As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. Please see the information on sampling variability provided as part of the attached table.

Unemployment rate for people aged 16 and over, November to January, 2008 and 2009—United Kingdom, seasonally adjusted

Percentage

Period	*Wales*	*Sampling variability*[1]	*UK*	*Sampling variability*[1]
November 2007 to January 2008	5.0	+/- 0.8	5.2	+/- 0.2
November 2008 to January 2009	7.6	+/- 1.1	6.5	+/- 0.2

[1] The sampling variability ranges represent 95 per cent. confidence intervals. It is expected that in 95 per cent. of samples the range would contain the true value.

Note:
It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc).

Labour Force Survey

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Business: Government Assistance

Adam Price: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform if he will bring foward proposals for a scheme based on the same principles as the ProAct scheme for assistance to businesses established by the Welsh Assembly Government. [265508]

Mr. McFadden: We believe that the future success of British industry will be based on a highly skilled workforce. Where production is being reduced we are helping business train their workforces to ensure they emerge from the downturn in the best possible shape to compete in the future.

Training is a devolved responsibility. Each country in the UK makes provision to support business in their own way. The ProAct scheme introduced by the Welsh Assembly Government is a support package aimed at upskilling staff during the economic downturn and helping business prepare for the upturn. The scheme includes a salary replacement element for employees of companies benefiting from the scheme.

In England we have the Train to Gain scheme delivered by the Department for Innovation, Universities and Skills. One element of Train to Gain enables small and medium sized enterprises in England with fewer than 50 employees to access compensation for wages where employees are released for training. This contribution is £5 per hour or un-capped actual hourly wage (employer choice) up to a maximum of 70 hours over a period of time.

Alongside these training measures we are supporting businesses through a number of other measures that have been announced and launched in recent months. These include measures aimed at ensuring credit is available to businesses.

Company Liquidations

Mr. Sheerman: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform if he will make an assessment of the effect on customers and other creditors of companies filing for bankruptcy of the procedures under which insolvency practitioners are paid from an insolvent company's assets before others are refunded. [270122]

Mr. McFadden: The way in which insolvency practitioners are paid is set out in the insolvency legislation and the level of costs and remuneration will vary on a case-by-case basis depending on the circumstances of a particular insolvency.

It is for those with an interest in the proceedings, namely the creditors, to decide on how an insolvency practitioner's remuneration is fixed and in reaching a decision they would be expected to consider such factors as the complexity of a case, the type and value of the assets dealt with and the effectiveness of the insolvency practitioner in

carrying out his duties.

Where the basis of remuneration is not set by the creditors, it is calculated either according to legislative scales or may be set by the court. There are also mechanisms allowing both insolvency practitioners and creditors recourse to the court where remuneration is considered either insufficient or excessive.

Dimethyl Fumarate

Bob Spink: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what his policy is on the control of imported goods containing Dimethyl Fumarate. [269869]

Mr. Thomas: On 26 March 2009 the Department issued a Direction of the Secretary of State under Regulation 35(2) of the General Product Safety Regulations 2005, to all local authorities. The Direction gives effect to the Article 13 Decision made under the General Product Safety Directive adopted by the European Commission on 17 March 2009.

The Article 13 Decision requires EU member states to prohibit the placing or making available on the market of all products containing Dimethyl Fumarate (DMF) and requires all products already placed or made available on the market to be recalled or withdrawn.

The Article 13 Decision becomes effective from 1 May 2009.

Members: Correspondence

Mr. Baron: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter of 2 March 2009 from the hon. Member for Billericay on his constituent Mr. R. Dinsdale. [270113]

Mr. McFadden *[holding answer 22 April 2009]:* I responded to the hon. Member on 20 April.

Rescue Services: Working Hours

Mr. Carmichael: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assessment his Department has made of the effects of the ending of the UK's Working Time Directive opt-out on the services supplied by volunteer coastguards. [270112]

Mr. McFadden *[holding answer 22 April 2009]:* The UK Government recognise that losing the individual's right to opt-out of the 48-hour working week as set by the Working Time Directive, would have a detrimental effect on many workers, across various sectors. We therefore remain firmly of the view that this right should remain and along with many other member states continue to fight for its retention as this dossier progresses through the European negotiation process.

My officials are in touch with their counterparts in the Department for Transport and the Maritime and Coastguard Agency to ensure that the specific concerns of volunteer coastguards are understood.

Trade Unions

Mr. Maude: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent guidance *(a)* the Certification Officer and *(b)* his Department has issued on whether office facilities provided by employers to trades unions may be used for political activity. [270288]

Mr. McFadden: Neither the Certification Officer nor the Department has produced guidance on this particular matter.

Mr. Maude: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what recent guidance *(a)* the Certification Officer and *(b)* his Department has issued on the proportion of fixed operating costs of a trades union with a political fund to be assigned to that fund. [270289]

Mr. McFadden: Neither the Certification Officer nor the Department has produced guidance on this particular matter.

INNOVATION, UNIVERSITIES AND SKILLS

Building Colleges for the Future Programme

Mr. Frank Field: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the written ministerial statement of 1 April 2009, *Official Report*, columns 70-72WS, on the Further Education Capital Programme, how much of the £2.3 billion has already been allocated. [270192]

Mr. Simon *[holding answer 22 April 2009]:* The total capital investment through the Learning and Skills Council (LSC) during the spending review period was £2.3 billion prior to the Budget announcement on the 22 April. This covers capital investment on post-16 education which now stands at £2.6 billion following the announcement of the additional £300 million during this spending review to support further education college capital projects.

Following the announcements made in the Budget of 22 April and based on the latest LSC forecast of expenditure over the current spending review period on projects that have already been approved, we estimate that around £500 million is left uncommitted for future college projects.

In line with the recommendations from Sir Andrew Foster, the LSC are currently consulting with the sector on a needs-based approach for prioritising future projects.

Technology Strategy Board

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* responsibilities and *(b)* powers the Technology Strategy Board has in respect of the research and development of alternative fuel technology for motor vehicles. [256948]

Mr. Lammy: The Technology Strategy Board has responsibilities for supporting research, development and knowledge transfer activities across the whole of the economy to stimulate innovation in those areas which offer the greatest scope for boosting UK growth and productivity. This includes the research and development of alternative fuel technology for motor vehicles through its work on low carbon vehicles.

The Technology Strategy Board has established the Low Carbon Vehicles Innovation Platform which brings together government, the research councils, regions and business to research, develop and demonstrate technologies for use in low carbon vehicles.

The £100 million Innovation Platform supports projects between businesses and academia. It has launched a number of project competitions including a demonstration competition to put more than 100 ultra low carbon vehicles on the roads in the UK.

In terms of powers, the Technology Strategy Board is an executive NDPB with its own budget and the ability to make its own decisions, based on independent assessment, through most of its funding mechanisms.

COMMUNITIES AND LOCAL GOVERNMENT

Community Relations: Finance

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government with reference to the answer of 11 March 2009, *Official Report*, column 477W, on community relations: finance, which projects received funding from the £8.5 million spent on Prevent-related projects in 2008-09; how much each received; and how much of the £5.1 million in funding allocated by the Community Leadership Fund will be spent in each year from 2008-09 to 2010-11. [270536]

Mr. Khan: Funding in 2008-09 has supported three broad areas of work as follows:

Supporting Faith Capacity and Leadership
Community Capacity and Leadership
Local Leadership and delivery

Specific projects supporting these areas of work and how much funding each received in 2008-09 is listed as follows:

Specific projects	*Money received in 2008-09 (£)*
Contextualising Islam in Britain	141,000
Islam and Citizenship Education (this is CLG's contribution. DCSF have also contributed jointly)	100,000
Radical Middle Way	358,500
Charity Commission's Faith and Social Cohesion Unit	600,000
Piloting of the minimum standards for Muslim chaplains engaged by public institutions	25,870
Faith Community Development Qualification for faith leaders	230,482
Prevent 08 National Conference	70,348
Improvement and Development Agency (for Local Authorities)	38,872
Creative Partnerships to promote positive alternative activities for young people	140,000.00

In addition, research and communications work also support the workstreams and projects listed above.

Community Leadership Fund

Of the £5.1 million Community Leadership Fund, the funding spent on Prevent projects in 2008-09 was £1,894,239.00. The following amounts have been allocated in 2009-10 to 2010-11:

	£
2009-10	1,569,485
2010-11	1,024,179.00

Approximately £700,000 for 2010-11 is yet to be allocated.

Prevent projects supported through the CLF in 2008-09 are shown in the table:

CLF grants paid in 2008-09 only

Organisation	*Project description*	*2008-09 grant (£)*
Business in the Community (BiTC)	Mosaic Muslim Media Network for Muslims working in the media sector to build the confidence of community groups and leaders to engage the media.	25,000
GW Theatre Company	GW Theatre will build their organisational infrastructure in order to deliver a national tour of their production 'One Extreme to the Other'. Aimed at young people aged 14-25 and adults too, "One Extreme to the Other" offers a powerful theatrical stimulus to debate about issues relating to extremism and is accompanied by a comprehensive multi-media follow-up package to inform further discussion and lead in good practice. They aim to deliver 110 performances over the next three years.	95,000
Khayaal Theatre Company	Khayaal Theatre Company plans to build its capacity for growth and sustainability in order to deliver between 200-250 performances of their two plays 'Hearts and Minds' and 'Sun and Wind' in schools across the country over the next three years. Both of these plays address the issues of radicalisation and extremism as they manifest themselves in families and communities.	129,541
Muslim Youth Helpline	Capacity building for MYH to recruit a Helpline Care Manager to develop the Helpline's support services and extend the reach of its support services to support vulnerable young people at risk of radicalisation in 'hard to reach' communities, such as the Somali and Eastern European Muslim communities.	30,650
Association of Muslim Chaplains in Education (AMCED)	AMCED will build its organisational capacity to effectively deliver new services to Muslim chaplains to promote community cohesion and prevent violent extremism. This will involve recruitment and training of new staff, development and launch of their website.	44,400 from CLG 30,000 from DIUS
Mosques and Imams National Advisory Board (MINAB)	Development of MINAB's operational plan, recruitment of members to the umbrella organisation in time for the first Annual General Meeting and piloting of minimum standards in four mosques.	116,000
Henna Foundation	Building the organisational capacity of the Henna Foundation to extend their work with Muslim families and women in England. Henna will also deliver various community engagement events across England to discuss the role of the family in preventing extremism.	55,000
Muslim Women's Network UK	Developing the infrastructure and sustainability of the Muslim Women's Network UK to provide support and advice to over 200 women's organisations.	20,000
Sufi Muslim Council	Building the organisational capacity of the Sufi Muslim Council in order to work with the Muslim community to prevent radicalisation and build resilience. SMC will expand its organisation to deliver activities across England and will organise cultural events in the community in order to promote discussion around violent extremism.	150,000
The Somali Messenger	The project will create a website to provide advice and guidance to the Somali community in the UK. It will focus on providing support for young Somali people and offering them advice around understanding wider UK society, accessing services, obtaining skills and training/employment. Another function of the website will be to promote moderate messages about Islam.	60,000
Ulfah Arts	Building the organisational capacity of Ulfah Arts to enable them to deliver arts based projects with young Muslims and Muslim women, which will help them to explore issues around faith and identity and challenge extremist interpretations of Islam.	37,050
Supporting youth		
Common Purpose	Common Purpose will deliver leadership training courses for younger members of the Muslim community: 'Your Turn'—a schools programme for year 9 pupils in London, Manchester, Birmingham and in West Yorkshire 'Frontrunner'—a programme for young leaders in higher education. A customized 'Frontrunner' programme for 40 young Muslim leaders who are not in full time education or who cannot make the dates of the three open programmes. 'Navigator'—a programme in every region of the UK for first career leaders—Navigator.	65,000
Local Leagues Ltd.	Programme of sports coaching and local competitions as preventative and diversionary activities for Muslim young people (aged 8-19 years) and engagement of undergraduates with policy makers and decision makers.	79,440

CLF grants paid in 2008-09 only

Organisation	*Project description*	*2008-09 grant (£)*
Karimia Institute	Develop the work of the Muslim Youth Development Partnership, funded by CLG in 07/08 to train and support 150 volunteer Muslim Youth Leaders over three years.	67,180
Bradford Police Club for Young People	Engagement of young people through workshops and informal classroom settings to examine the relationship between peace, violence, conflict and war with a particular emphasis on questions of applied ethics involving school teachers and youth community workers as trained Educators.	41,951
Muslim Youthwork Foundation	Scholarship programme for 10 individuals to undertake a National Youth Association accredited training course to qualify as Muslim youth and community workers.	41,300
UK Race and Europe Network	Pilot of a citizenship toolkit resource to support the work of young leaders, youth workers, teachers, Imams and parents which has been developed using CLG funding in 2007/08.	75,072
OneVoice Europe	Engagement of young Muslim and Jewish students in a youth leadership development training course to build and promote a consensus for a peaceful resolution to conflicts in the Middle East.	35,000
Changemakers Foundation	Continuation of 2007-08 CLG funded project to deliver a youth leadership programme to develop young leaders to become 'Changemakers' and develop and deliver projects in their own communities.	80,000
Nasiha	Youth Citizen Capacity Building Project to network young people in higher education to educate and support Key Stage 2 and 3 pupils in mosque schools.	80,000
Bold Creative	Roll out of the Tagmap TV project across 3 regions. Tagmap TV is an internet based resource tool that encourages debate and discussion amongst young people about issues relating to faith, citizenship and identity. The project will also train 100 young people to become 'Tagmap Champions'.	49,000
Business in the Community	Mosaic Muslim Mentoring Scheme—This programme aims to promote positive messages about being a British Muslim and support young people to raise their aspirations and enhance their sense of belonging in UK society. The scheme will provide role models who will mentor groups of young people.	30,000
Citizenship Foundation	The project will address issues around the alienation of Muslim youth by engaging them in Youth Engagement Groups. The groups will encourage processes of critical, democratic enquiry in order to address their grievances and help them to engage with the challenges of violent extremism.	20,000
Ethnic Minority Benevolent Association	ASPIRE Project—Using group/family sessions, educational and capacity building workshops, this project aims to develop the knowledge, skills and increase the capacity of young Muslim people so that they may understand violent extremism and prevent it from happening in their locality and the wider community.	40,000
The Prince's Trust	The project will provide leadership opportunities for Muslim young people, equipping them with skills to enable them to become positive role models within their communities, and thus promoting positive alternatives to extremist ideas and influences. The Prince's Trust Community Cash Awards scheme will provide opportunities for groups of 14-25 year olds to design and deliver their own community projects.	7,000
Supporting women		
Faith Matters	UK tour of Muslim women role models from the US. Women will be drawn from careers such as TV presenters, researchers, civil servants, business entrepreneurs, civil society organisational heads.	29,775
Faith Matters	The purpose of this project is to compile a directory of the 100 leading mosques that provide the best access to women. Each mosque will be awarded a rating out of five stars based on criteria developed through women's focus groups. The ultimate aim is to incentivise mosques to improve their engagement with and inclusion of women in all aspects of their work through greater access to recognition and resources from the public sector.	75,350
Henna Foundation	The 'Joining Hands Against Forced Marriage' project aims to support Muslim women at risk of being forced into marriage and to educate them that Islam actually forbids forced marriage. Henna will adapt the 'Joining Hands against Forced Marriage' Campaign to the British context. They will also organise awareness raising events to create a safe space for debate between young women, parents and other community members about forced marriage. The project also aims to train Muslim women in local communities in public speaking to empower them to use the toolkit on forced marriage.	28,000
Somali Family Support Group	The Tawjeeh Project will help build a network of Somali women and to develop their understanding of and their participation in wider UK society and how their faith relates to being part of wider society. The project will also provide participants with the interpersonal skills to challenge radical views within their family and the wider community and to support their children to turn away from violent extremism.	20,000

CLF grants paid in 2008-09 only

Organisation	*Project description*	*2008-09 grant (£)*
Three Faiths Forum	Young Muslim women (ages 13-18) from traditional Islamic girls' schools will use exploration of clothing and fashion to construct their own sense of Britishness and belonging, whilst remaining proud and strong in their faith. They will also develop ways to help their peers become resilient to distorted, limiting views on the expected role and behaviour-codes of women, by exposing them to Islamic Scholarship.	5,000
Local Government Yorkshire and Humber	The development of a regional Muslim women's network to increase and enhance the representation of Muslim women amongst decision making bodies in the region, through leadership training and mentoring. It is intended that this project model will be replicated in other regions.	29,300
Supporting faith leaders		
Luqman Institute	Extension of the pilot Imam training programme funded in 2007-08 to develop training materials and deliver courses to 20 senior imams over an 8 month period.	80,006
Demos	'Futures thinking' workshops for Muslim young people and Imams to explore the 'future' of their interaction in the mosque. The workshops will be delivered in partnership with MINAB.	65,624
Urban Nexus	Beacon Mosques project—Building the capacity of mosques in order to create 'beacon mosques', through the provision of training, building skills of imams, trainee imams, chairs and secretaries of the organisations to build their knowledge and capacity to build resilience to extremist ideologies.	7,800
League of British Muslims	Using regional Communication Development Programmes to build the capacity of Muslim faith and community leaders to relate to young people more effectively and to focus on issues that are relevant to them as young British Muslims.	10,000
Local forums against extremism and Islamophobia		
Northampton Race Equality Council	The project will establish a local forum across Northamptonshire with representation from the diversity of Muslim groups across the county.	14,800
Wokingham Borough Council	The project's main aim will be to promote a wider understanding of mainstream Muslim theology, understanding and respect. Wokingham Borough Council will establish a Women Against Violent Extremism Forum. The forum will be made up of women from all communities and faiths, to include Muslim women in particular. The purpose of the group will be to promote a safe environment for debate around the issues of violent extremism, Islamophobia, identity and community cohesion.	3,000

Corporate Improvement Boards

Mr. Keith Simpson: To ask the Secretary of State for Communities and Local Government which local authorities in England are in receipt of support from Corporate Improvement Boards; and how many such Boards include members employed by *(a)* the Audit Commission, *(b)* the regional government office, *(c)* the improvement and development agency and *(d)* the relevant regional improvement and efficiency partnership. [270548]

John Healey: 17 local authorities are in receipt of support from Corporate Improvement Boards—Norwich; Great Yarmouth; Uttlesford; Dacorum; Waveney; Thurrock; Haringey; Wellingborough; Stoke; Bromsgrove; Liverpool, Mid Devon, Tewksbury, Mendip, Forest of Dean, West Somerset and Cornwall Fire and Rescue Authority.

(a) 15 boards include representation from the Audit Commission;

(b) All boards include representation from the Government office for the region;

(c) 15 boards include representation from the Improvement and Development Agency;

(d) 14 boards include representation from the relevant Regional Improvement and Efficiency Partnership.

Council Housing: Rents

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether changes in levels of local authority rents in 2010-11 will be linked to retail price index (RPI) inflation if RPI inflation is negative. [269882]

Mr. Iain Wright: No decisions have yet been taken concerning the calculation of local authority guideline rents for 2010-11.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the Band D council tax fire precept was in the last year for which figures are available. [268925]

John Healey: Details of the Band D council tax fire precept for each fire authority in England for 2009-10 can be found in the statistical release "Levels of council tax set by local authorities England 2009-10" that was published on the Communities and Local Government website on 26 March 2009. It can be found at:

http://www.communities.gov.uk/publications/corporate/statistics/counciltax200910

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many homes were revalued for council tax purposes at the point of sale in each region in each year since 1997; and how many such homes were revalued to *(a)* a higher band, *(b)* a lower band and *(c)* the same council tax band. [270362]

John Healey: The Valuation Office Agency is only required to review council tax bands at the point of sale when a property has previously been improved.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what changes to a property would count as a material increase for the purposes of council tax re-banding. [270411]

John Healey: A "material increase" is defined in law as

> "any increase in the value of a dwelling which is caused (in whole or in part) by any building, engineering or other operation carried out in relation to the dwelling, whether or not constituting development for which planning permission is required."

However, any increase in value will not affect the council tax band unless there has been a subsequent "relevant transaction" which is defined as

> "a transfer on sale of the fee simple, a grant of a lease for a term of seven years or more, or a transfer on sale of such a lease."

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how much has been raised by each type of precepting authority in council tax revenue in England in each year since 1997. [270412]

John Healey: Details of the council tax requirement set by each type of precepting authority in England for the period 1997-98 to 2005-06 are given in the following table. Corresponding data for the period 2006-07 to 2009-10 are available in the statistical releases 'Levels of council tax set by local authorities in England' that can be found on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/ct.htm

Council tax set by precepting authorities 1997-98 to 2005-06

£000

Class of authority	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*	*2002-03*	*2003-04*	*2004-05*	*2005-06*
Combined fire authorities	—	—	—	—	—	—	—	415,455	434,671
Combined police authorities	172,954	173,653	191,565	211,208	227,355	276,053	373,335	422,894	447,419
Metropolitan fire authorities	81,492	86,790	95,595	101,807	107,926	117,755	137,823	147'861	155,951
Metropolitan police authorities	178,704	178,253	188,843	200,104	210,879	237,470	283,579	313,884	333,149
Shire police authorities	365,897	404,250	446,970	465,404	552,790	652,402	827,645	932,239	986,916
Shire county councils	4,566,702	4,267,182	4,666,977	5,425,945	5,831,319	6,427,485	7,355,064	7,505,589	7,950,454
The Metropolitan Police Authority	181,828	222,264	241,317	—	—	—	—	—	—
London fire brigade	65,994	68,992	74,803	—	—	—	—	—	—
Greater London authority	—	—	—	335,706	412,189	481.351	626,054	683,741	727,400
Total	5,613,571	5,401,384	5,906,070	6,740,174	7,342,458	8,192,516	9,603,500	10,421,663	11,035,960

The data are taken from the budget requirement forms that were submitted annually to Communities and Local Government, and its predecessor departments by all billing and precepting authorities in England.

Due to reorganisation and changes in local authority responsibilities, comparisons across years may not be valid.

Empty Dwelling Management Orders

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government with reference to the answer to the hon. Member for Brent, East of 5 November 2008, *Official Report,* column 547W, on empty property, if she will place in the Library a copy of the updated guidance to local authorities on Empty Dwelling Management Orders. [262154]

Mr. Iain Wright: The guidance on Empty Dwelling Management Orders was launched by the Empty Homes Agency on 10 March. It is not a published document so it will not be possible to place a copy in the Library. Rather it is interactive internet-based guidance which can be accessed at:

www.emptyhomes.com/usefulinformation/papers_publications/edmo_guide/edmo_foreword.html

There is also a link to the guidance from the Communities and Local Government website at:

www.communities.gov.uk/housing/rentingandletting/emptyhomes

Fires: Domestic Waste

Mr. Bone: To ask the Secretary of State for Communities and Local Government (1) how many refuse container fires were reported in each of the last five years in *(a)* England and *(b)* Northamptonshire; [270531]

(2) how many fires involving *(a)* plastic wheelie bins, *(b)* other plastic refuse containers, *(c)* metal refuse containers and *(d)* other forms of refuse container took place in the last five years; and if she will make a statement. [270535]

Mr. Khan: Information regarding the number of fires solely in refuse containers is not held centrally.

Information regarding all refuse fires, attended by Fire and Rescue Services in England, including those in refuse containers is available in the table.

Total refuse and refuse container fires[1], England, 2003-07[2]

Flood Control

Mr. Graham Stuart: To ask the Secretary of State for Communities and Local Government how many summaries of flood recovery progress have been published since June 2008; and if she will make a statement. [269966]

John Healey: Since June 2008 the Government have undertaken three data collection exercises in September 2008, November 2008 and March 2009 to monitor the progress being made in getting those people displaced by the 2007 summer floods back into their homes. Figures from these data collection exercises have been made public, with the most recent figures for March 2009 announced on 21 April 2009 in the following CLG press release

http://www.communities.gov.uk/news/corporate/1206194

In addition since June 2008 the Government have published eight press notices covering a range of topics related to the recovery from the 2007 summer floods.

Housing

Andrew Selous: To ask the Secretary of State for Communities and Local Government what guidance her Department issues on the land area allocated to a two- or three-bedroom house in a local authority high density housing scheme. [270528]

Mr. Iain Wright: The Government have no specific existing policy or guidance on the land area for particular local authority housing schemes. However, the Government's planning policy statement 3: Housing (PPS3) is clear on the need to achieve high quality new housing, including promoting designs and layouts which make efficient use of land, encouraging innovative approaches to help deliver high quality outcomes.

The HCA is continuing to currently operate under the regimes set in place by the Housing Corporation and English Partnerships establishing space standards for new homes funded by the public sector. Current published space standards are based on floor area and not on land area:

The Housing Corporation's design and quality strategy and standards sets out space and quality standards requirements for all housing projects which receive social housing grant. In addition, the urban design compendium provides guidance and best practice examples of urban design and includes guidance on achieving a range of densities against a range of mixed uses.

The HCA is currently reviewing the benchmarks for high quality urban design, construction and environmental sustainability, including any space standards for new homes funded by the public sector.

Housing Market

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2009, *Official Report*, column 973W, on the housing market, how much her Department has spent on commissioning Heriot-Watt university to produce a new analytical model; and how much she expects the contract to be worth in total. [270598]

Mr. Iain Wright: To date, the Department has paid Heriot-Watt university £112,444. The final contract value is expected to be £163,256.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2009, *Official Report*, column 973W, on the housing market, when she expects the research to have been completed by Heriot-Watt university; and when it will be presented to her Department. [270599]

Mr. Iain Wright: We expect the housing need analytical model commissioned from Heriot-Watt university to be in use within Communities and Local Government, by autumn 2009.

Housing: Carbon Emissions

Mr. Walker: To ask the Secretary of State for Communities and Local Government what research her Department has undertaken on market demand for *(a)* code level 6 and *(b)* zero-carbon homes; and if she will make a statement. [267906]

Mr. Iain Wright: In July 2007, following public consultation, my Department confirmed that all new homes will be zero carbon from 2016. A further consultation to define the detailed definition of zero-carbon homes closed on 18 March 2009. The zero-carbon policy will be underpinned by regulations so that, subject to appropriate transitional arrangements, all new homes will be built to the zero-carbon standard from 2016. My Department has not conducted research on the demand for zero-carbon homes that would be expected in the absence of regulation.

There has however been research carried out by the Sponge Network, the Energy Saving Trust, Savills and Nationwide that suggest that consumers want to live in sustainable homes that are warm in winter and have low energy bills.

The Code for Sustainable Homes, which became operational in April 2007, is a sustainable building standard to help industry, Government and others understand how to build sustainable, energy efficient, low and zero-carbon homes. We anticipate that as the numbers grow, and as more people understand what sustainable homes can achieve in terms of cost savings and reduced impact upon the environment, this will help to stimulate demand.

Housing: Construction

Bob Spink: To ask the Secretary of State for Communities and Local Government how many new homes have been commissioned in *(a)* Essex and *(b)* Castle Point in each of the last five years. [268430]

Mr. Iain Wright: During the period 2003 to 2008 there have been 27,500 housing completions, with 3,130 of these available as affordable homes in Essex. In the same period there were 721 housing completions in Castle Point of which 47 were affordable homes.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many new build *(a)* starts and *(b)* completions there were in each region in the first quarter of 2009. [270637]

Mr. Iain Wright: CLG publish house building starts and completions on a quarterly basis. The latest house building figures covering house building starts and completions up to the end of December 2008 were published on 19 February 2009.

The next quarterly release will be published on 21 May 2009, and will cover house building starts and completions up to the end of March 2009.

Housing: Energy

James Duddridge: To ask the Secretary of State for Communities and Local Government if she will estimate how long it will take for 90 per cent. of homes to reach efficiency level B or above in respect of energy. [270298]

Mr. Iain Wright: The Department has not developed estimates for how long it will take for 90 per cent. of properties to reach EPC Band B. The EPC system is still very new, and there are insufficient numbers of properties transacted to estimate in a responsible manner a meaningful trajectory for properties to achieve this over time.

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 March 2009, *Official Report*, column 476W, on Home Ownership Incentive Schemes, how much of the funding brought forward from *(a)* 2009-10 and *(b)* 2010-11 is for use for (i) Decent Homes, (ii) the Community Infrastructure Fund, (iii) the National Affordable Housing Programme, (iv) support Department for Work and Pensions reforms of Support for Mortgage Interest and (v) other housing and regeneration programmes. [270695]

Mr. Khan: Communities and Local Government has brought forward £25 million of capital expenditure from 2009-10 and £1,475 million from 2010-11 as a result of initiatives announced in the September Housing Package and pre-Budget Report. The following table sets out how these monies have been applied.

Application of brought forward funding

			£ million
	2008-09	*2009-10*	*2010-11*
Decent Homes (including ALMOs and Gap Transfer)	130	120	0
Community Infrastructure Fund	20	0	0
National Affordable Housing programme (including social rent, HomeBuy Direct and Mortgage Rescue)	200	800	55
Support for DWP programme of Support for Mortgage Interest	0	40	55
Other housing and regeneration programmes	0	80	0
Totals	350	1040	110

The pre-Budget report also offered flexibility to the regional development agencies who have brought forward £100 million of capital expenditure from 2010-11 to 2009-10. In addition, Communities and Local Government has already allocated £162 million to local authorities from a total pot of up to £175 million brought forward from 2010-11 to 2009-10 to accelerate major repairs to council housing stock.

These figures do not include changes that may follow from the Budget 2009.

Land: Public Sector

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many hectares of land are on the register of surplus public sector land. [270239]

Mr. Iain Wright: The Register of Surplus Public Sector Land is managed by the Homes and Communities Agency and is updated on a quarterly basis. Over 700 sites covering about 5,000 hectares of land were listed in the most recent quarterly report published in March 2009. This report is available on the Homes and Communities Agency website at:

http://www.homesandcommunities.co.uk/Surplus_public_sector_land

Local Government

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which of the proposals made in the 2006 Local Government White Paper have not been implemented; and for which such proposals no timetable for implementation has been set. [268881]

John Healey: Details of the main proposals within the 2006 Local Government White Paper to be implemented and the relevant timescales are set out in the third and final Local Government White Paper implementation plan, published on 19 March 2009. It is available at:

http://www.communities.gov.uk/publications/localgovernment/implementationplanprogress3

However, the proposed arrangements in the White Paper for appointing parish councillors are undergoing further consultation with sector representatives before a final decision around implementation can be taken.

Local Government Finance

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what the general fund revenue account outturn for *(a)* education, *(b)* highways and transport, *(c)* social care, *(d)* housing (excluding Housing Revenue Account), *(e)* cultural, environmental and planning, *(f)* the police, *(g)* fire and rescue services, *(i)* the courts service, *(j)* central services and *(k)* other local authority services was in each year between 1997-98 and 2004-05. [270413]

John Healey: Details of revenue expenditure for England for years 1997-98 to 2001-02 can be found in the "Local Government Financial Statistics No. 15 (2004)" publication. It can be found at:

http://www.local.communities.gov.uk/finance/stats/lgfs/2004/index.htm

Details of revenue expenditure for England for years 2002-03 to 2004-05 can be found in the "Local Government Financial Statistics No. 18 (2008)" publication. It can be found at:

http://www.local.communities.gov.uk/finance/stats/lgfs/2008/index.htm

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what *(a)* specific and *(b)* special grants were made by her Department to local government in each year between 1997-98 and 2008-09; and what the total amount of such grants was in each year. [270414]

Mr. Khan: This information could be provided only at disproportionate cost.

Ministers of Religion

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government with reference to page 89 of the report, The United Kingdom's Strategy for Countering International Terrorism, published in March 2009 and the development of a set of standards and a recruitment framework for all chaplains engaged in public service, what criteria will be used to select chaplains; who will select the chaplains; and what role the Mosques and Imams National Advisory Board will play in the development of the set of standards and recruitment framework. [270451]

Mr. Khan: Following a tendering process in August 2008, Faith Matters were awarded the contract to pilot a draft framework of standards and recruitment process for public institutions to use when engaging Muslim chaplains, developed by The Experience Corps. Pilots will be undertaken in a number of public institutions, including prisons, hospitals and police forces.

Pilot sites will be selected by Faith Matters, based on public institutions which will be looking to engage a Muslim chaplain within the next couple of months, and willing to follow, or be assessed against, the recruitment process and use the framework of standards to assess candidates' suitability for the post.

As the framework of standards and recruitment process documents have already been developed by The Experience Corps, the Mosques and Imams National Advisory Board (MINAB) have not played a role in developing these.

Faith Matters' evaluation of the pilots will incorporate the views of relevant officials within participating institutions, as well as wider stakeholder consultation with imams, other faith leaders, chaplains, and officials from other Government Departments and relevant associated agencies. Individuals who take part in MINAB may feed into the evaluation of the pilots as part of the wider stakeholder consultation.

Mortgages

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what forecasts her Department has made of the number of households which will have negative equity in the next 12 months. [270263]

Mr. Iain Wright: Communities and Local Government (CLG) do not make forecasts for the housing market and so have not made any forecasts of the number of households which will have negative equity in the next 12 months. However, CLG do closely monitor the housing market and take action to support both the market and homeowners where necessary.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what figures her Department holds on how many residential buy-to-let mortgages there are. [270264]

Mr. Iain Wright: Communities and Local Government do not hold any information on the number of residential buy-to-let mortgages. However data on the number of residential buy-to-let mortgages are published by the Council of Mortgage Lenders at:

http://www.cml.org.uk/cml/media/press/2116

Non-Domestic Rates: Fire Services

Mr. Harper: To ask the Secretary of State for Communities and Local Government how much money was raised by charging business rates on fire stations in *(a)* Gloucestershire and *(b)* England in each of the last five years. [270692]

John Healey: This information is not held centrally.

Queen Elizabeth II Conference Centre

Grant Shapps: To ask the Secretary of State for Communities and Local Government what bookings the Queen Elizabeth II Conference Centre has arranged at *(a)* commercial and *(b)* discounted rates for Whitehall-based Government departments in the last 12 months. [270567]

Mr. Iain Wright: During the last 12 months the Queen Elizabeth II Conference Centre arranged 29 bookings from central Government Departments. The policy of the Centre is not to offer discounted rates. All these events were charged at the standard list price.

Regional Spatial Strategies

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to paragraph 6.5 of her Department's document entitled Local Democracy, Economic Development and Construction Bill: policy document on regional strategies, if she will place in the Library a copy of the minutes of each meeting of the SNR Transition Steering Group to date; and what the membership of the Steering Group is. [268690]

John Healey: The discussions had at SNR Transition Steering Groups were held in confidence and in part relate to advice to Ministers. Summaries of Steering Group discussions and outcomes of meetings I will place in the Library of the House in the near future.

The current membership of the Steering Group consists of officials from:

Department for Business Enterprise and Regulatory Reform
Department for Communities and Local Government
Regional Development Agencies Network
English Regions Network
Government Office Network
Local Government Association

DEFRA, Treasury and DfT receive agendas and notes of meetings, and attend when issues of interest are to be discussed.

Rents

Mike Wood: To ask the Secretary of State for Communities and Local Government if she will introduce legislation to limit private sector rent increases in respect of small businesses. [270202]

Mr. Iain Wright: Rents of business premises are set in the market by agreement between the parties. The Government do not plan to limit increases. However, when business tenancies expire, the Landlord and Tenant Act 1954 gives the tenant the right to a new tenancy and restricts the rent to the market value. The new rent will be fixed by the courts if the parties cannot agree. This protection is not available in cases where the tenant agrees to 'contract out' of the protection of the Act before the grant of the original lease.

More generally, the Government are keen to promote more flexible leasing arrangements in the commercial sector, along with greater awareness among small businesses about the implications of lease terms. It is important that, subject to market conditions, tenants should be able to negotiate terms reflecting their business needs. The Government remain committed to lease reform and, dependent upon the impact of the 'Code for Leasing Business Premises in England and Wales 2007', has not ruled out legislation as an option in the longer term.

Temporary Accommodation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the average cost of housing a homeless household in temporary accommodation in terms of *(a)* accommodation costs for households in social rented housing and *(b)* housing benefit for households in private rented housing was in the latest period for which information is available. [270244]

Mr. Iain Wright: This information is not collected centrally.

Tenant Services Authority

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 23 March 2009, *Official Report*, column 79W, on the Tenant Services Authority, what the cost under each budget heading was of each regional National Conversation event for tenants. [268917]

Mr. Iain Wright: The TSA held 11 tenants events in various parts of the country; the location and cost of each are set out in detail in the following table. Where venues were charged a 'delegate rate' this included refreshments. In those circumstances, we are unable to disaggregate these costs.

The TSA organised five landlord events and 11 tenant events. In order to reduce costs, the TSA used the services of a venue funding agency called Crème Conferences who renegotiated the total venue costs and saved the TSA a total of £44,214.76.

£

Venue	*Location*	*Room hire*	*Day delegate rate*	*Catering*	*Extras*	*Refund*	*Total cost including VAT*
Leeds Town Hall	Leeds	2,546.48	—	4,272.25	—	—	6,818.73
City of Manchester Stadium	Manchester	2,477.16	—	4,436.98	—	—	6,884.14
Aston Villa FC	Birmingham	1,695.65	—	5,871.73	—	—	7,567.25
Ramside Hall	Durham	—	8,390.00		—	[1]414.75	7,975.25
Anthena Conference	Leicester	2,500	—	5,267.00	—	—	7,767.00
Corn Exchange	Cambridge	3,847.90	—	4,149.20	—	—	6,559.60
Copthorne Hotel	Gatwick	—	5,880.00	—	—	—	5,880.00
Twickenham Stadium	Twickenham	2,250.00	—	4,929.60	[2]20	[3]1,311.00	6,968.54
Emirates Stadium	London	—	13,315.60	—	—	—	13,315.60
Duke of Cornwall Hotel	Plymouth	560.00	—	2,850.00	[4]19.90	—	3,429.90
Ashton Gate Stadium	Bristol	1,300.00	—	3,172.50	—		4,472.50
Total		—	—	—	—	—	77,638.64

[1] Refund in Durham for room not appropriately prepared.

[2] Extras in Twickenham for extension leads.

[3] Refund in Twickenham for a catering change.

[4] Extras in Plymouth for broadband service and refreshments (tea and coffee) for TSA personnel.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 23 March 2009, *Official Report*, column 79W, on the Tenant Services Authority, how much was spent on each National Conversation event for landlords *(a)* in total, *(b)* on venue hire and *(c)* on food and drink. [268918]

Mr. Iain Wright: I refer the hon. Member to the answer I gave him today (PQ 268917).

The TSA held five landlord events in Birmingham, Exeter, Durham, Manchester and London. Where venues were charged a 'delegate rate' this included refreshments. In those circumstances, we are unable to disaggregate these costs.

The TSA organised five landlord events and 11 tenant events. In order to reduce costs, the TSA used the services of a venue funding agency called Crème Conferences who renegotiated the total venue costs and saved the TSA a total of £44,214.76.

£

Venue	*Location*	*Room hire*	*Day delegate rate*	*Catering*	*Refund*	*Total cost including VAT*
Aston Villa Stadium	Birmingham	1,695.65	—	3,951.37	—	6,494.10
Corn Exchange	Exeter	600.00	—	1,274.89	—	1,874.89
Ramside Hall	Durham		5,700.00	—	[1]1,000.00	4,700.00
City of Manchester Stadium	Manchester	2,348.93	—	4,154.38	—	6,503.31
Emirates Stadium	London	—	10,625.00	—	—	10,625.00
Total	—	—	—	—	—	30,197.30

[1] Refund in Durham for a catering change.

Travelling People: Caravan Sites

Andrew Selous: To ask the Secretary of State for Communities and Local Government what guidance her Department issues on the land area to be allocated to a Traveller's pitch on a local authority site. [270527]

Mr. Iain Wright: Communities and Local Government does not specify the land area to be allocated to a Traveller's pitch on a local authority site. However, "Designing Gypsy and Traveller Sites: Good Practice Guide" provides guidance on what an average family pitch should be capable of accommodating. The site design guidance, which is aimed at socially rented sites, makes clear that there is no one size fits all measurement for a pitch and this will depend on the size of families and their needs. The guide is available on our website at:

> http://www.communities.gov.uk/publications/housing/designinggypsysites

Zero Carbon Hub

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment she has made of the performance of the Zero-Carbon Hub against its objectives to date. [270118]

Mr. Iain Wright: The Department receives regular reports from the Zero Carbon Hub on progress against its objectives and is satisfied with the progress being made.

CHILDREN, SCHOOLS AND FAMILIES

Autism

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families who the members of the Autism Research Co-ordination Group are; and on what dates the group has met since its formation. [270111]

Sarah McCarthy-Fry *[holding answer 22 April 2009]*: The following people are currently members of the Autism Research Co-ordination Group:

Dr. Gillian Baird (Guy's Hospital/ Royal College of Paediatrics and Child Health)

Amanda Batten (National Autistic Society)

Tom Berney (Royal College of Psychiatrists)

Maggie Bowen (Autism Cymru)

Gillian Boyd (Department of Education, Northern Ireland)

Professor Tony Charman (Institute of Education)

Ann Le Couteur (Newcastle University/ Royal College of Psychiatrists)

Sasha Daly (TreeHouse Trust)

Kate Evans (Royal College of Speech and Language Therapists)

Nigel Fulton (Department of Children, Schools and Families, Chair)

Nigel Gee (Department of Children, Schools and Families)

Hilary Gilfoy (Autism Speaks)

Eleanor Layfield (Social Care Institute for Excellence)

Jenny Longmore (Autism Speaks)

Gavin Malloch (Medical Research Council)

Helen Marwick (Strathclyde University)

Fiona McCaffery (Autism Northern Ireland)

John McDonald (Autism-in-Scotland)

Robin McKendrick (Schools Directorate, Scottish Government)

Richard Mills (Research Autism/National Autistic Society)

Mary Mulvey (Department of Health)

Professor Michael Rutter (Institute of Psychiatry)

David Tutton (Department for Children, Education, Lifelong Learning and Skills, Welsh Assembly Government)

Rachel Tyrell (Economic and Social Research Council)

John Williams (Wellcome Trust)

Two meetings were held when the Group was being established on 26 April and 30 September 2004, following publication of the report "Mapping autism research: Identifying UK priorities for the future" (Charman and Clare, March 2004). Subsequent meetings have been held on 10 March, 13 July and 28 October 2005, 8 March and 26 September 2006, 14 March 2007 and 8 December 2008.

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families on what dates minutes of meetings of the Autism Research Co-ordination Group have been published. [270375]

Sarah McCarthy-Fry: The minutes of Autism Research Co-ordination Group meetings are not yet published, but we will be making them available on

www.teachernet.gov.uk/sen

from the 1 May 2009. The First Report of the Autism Research Coordination Group is available from the DCSF website

http://www.dcsf.gov.uk/rsgateway/DB/RRP/u014963/index.shtml.

Children: Autism

Mrs. Gillan: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the costs incurred in ensuring the needs of children with autism are taken into account in the preparation of a children and young people's plan; and by what methodology he plans such needs to be taken into account. [270361]

Sarah McCarthy-Fry: The Children and Young People Plan (CYPP) is a local plan which should meet the specific, assessed, needs of all children and young people in the area including children with autism. Children's planning stems from the principle that every child matters and only by developing services to address the particular needs of all children and young people as individuals will services for vulnerable children improve. The needs assessment is an essential part of good planning by the Children's Trust and we have not made an assessment of the costs involved for different groups of children.

The needs assessment for the CYPP should result in a comprehensive profile of all children, young people and families in the area. It will be undertaken in partnership with all those involved in the planning process including the third sector, draw on analysis carried out by partners, in particular the statutory Joint Strategic Needs Assessment (JSNA), and in direct consultation with children and young people. Data should be analysed on a number of different levels—regional, community, and neighbourhood and at the level of a single agency or service.

Data should include published or unpublished research papers, major surveys such as epidemiological surveys, participation data and as appropriate, draw on aggregated and anonymised data collected through one-to-one interviews, focus groups and individual assessments.

Subject to Parliamentary approval of the Apprenticeships, Skills, Children and Learning Bill, we are planning to fully consult, in the autumn, with stakeholders and partners on further guidance on Children's Trust Boards and the development of the CYPP, including the needs assessment.

Children: Databases

Tim Loughton: To ask the Secretary of State for Children, Schools and Families whether *(a)* the Security Service and *(b)* the Secret Intelligence Service will be allowed access to data on ContactPoint. [269911]

Beverley Hughes: Members of the Security Service or Secret Intelligence Service will not have access to ContactPoint. If they required access to data held on ContactPoint, the Security Service or Secret Intelligence Service would have to make a clear and exceptional case for disclosure, on a case by case basis, directly to the Secretary of State or local authority. The Secretary of State or local authority would then consider each case on its merits and whether it met the prescribed circumstances when deciding whether to disclose the data.

Regulations permit the Secretary of State or a local authority to disclose data held on ContactPoint in very limited, prescribed circumstances, including where disclosure is required:

by court order or by law; or

for the purposes of:

the prevention or detection of crime or

the prosecution of offenders

an investigation under s47 of the Children Act 1989

a local safeguarding children board in exercising its functions under 5(1)(e) of the local safeguarding children board regulations 2006

ContactPoint holds only basic information. It will not hold details of arrest or criminal activity; it will not provide a record of whether or not a child or a member of their family is an offender; and it will not hold subjective observations or case information.

Children: Internet

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families when he expects the child internet safety website, as referred to in the Byron Review Action Plan, to be launched. [270788]

Beverley Hughes: The Public Awareness working group of the UK Council for Child Internet Safety will meet on 24 April 2009 and will be responsible for the development and promotion of a "one-stop shop" for child internet safety. We are consulting with stakeholders on a future date for the launch of the website.

Qualifications and Curriculum Authority

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what *(a)* meetings and *(b)* discussions took place between Ministers and Mr. Ken Boston of the Qualifications and Curriculum Authority between 1 November 2008 and 16 December 2008; and if he will make a statement. [246134]

Sarah McCarthy-Fry: No meetings between DCSF Ministers and Dr. Ken Boston took place between the dates referred to.

Schools: Asbestos

Paul Rowen: To ask the Secretary of State for Children, Schools and Families whether asbestos is routinely removed from those schools buildings where it has been identified under the Building Schools for the Future programme. [270010]

Jim Knight *[holding answer 22 April 2009]:* Major refurbishments carried out under the Building Schools for the Future programme normally include removal of all asbestos in areas in which it would be disturbed by the work undertaken. Asbestos is also removed when buildings are demolished. Asbestos-containing materials (ACMs) that are likely to deteriorate are identified by an asbestos survey for each refurbishment and are normally then removed. Where minor refurbishment work takes place, an asbestos survey is done and, depending on the condition of the ACMs, they are either removed or managed in place.

Asbestos does not pose a serious risk if it is managed properly in accordance with the Control of Asbestos Regulations. The Health and Safety Executive (HSE) does not recommend the routine removal of asbestos. Its advice remains that, providing that ACMs are maintained in good condition, they can be left where they are and managed until a building reaches the end of its life and asbestos can be removed without risk of exposing building users to risks arising from significant disturbance.

The risks created by removal need to be borne in mind; unless the removal is carried out perfectly, the process may leave contamination. If the asbestos is in good condition and is not likely to be damaged or disturbed, it is usually safer to leave it in place and manage it until the building has reached the end of its useful life.

Teachers: Pensions

Mr. Andrew Turner: To ask the Secretary of State for Children, Schools and Families how many and what proportion of former teachers have had their pension payments *(a)* reduced and *(b)* increased in the last 12 months; and for what reasons in each case. [270108]

Jim Knight *[holding answer 22 April 2009]:* In April each year the pensions of some 500,000 former teachers and their dependants are increased in line with inflation (i.e. pensions increase), consequently all teacher pensioners received increases in their pensions of 5 per cent. this financial year.

The teachers' pension scheme is a statutory scheme and pensions are reduced where there has been an overpayment, i.e. where the pension in payment exceeds the statutory entitlement. There are a number of reasons why overpayments can arise, for example, from this April some 20,000 former teachers had their pensions adjusted because an element of their pension known as the guaranteed minimum pension had previously been overpaid. However, it should be noted that only around a half of those pensioners had a reduction in the level of their pension payments as the adjustment was timed to coincide with the annual pensions increase uplift.

Details of each and every adjustment to former teachers' pensions are not collated centrally, and the records of over half a million former teachers who are in receipt of a teacher's pension would need to be individually investigated in order to do so. This could be done only at disproportionate cost.

Written Answers to Questions

Friday 24 April 2009

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Public Holidays

Bob Russell: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether he has any plans to introduce an additional bank holiday; and if he will make a statement. [271056]

Mr. McFadden: The pattern of bank holidays is well established and accepted but we keep suggestions of additional holidays under consideration.

CHILDREN, SCHOOLS AND FAMILIES

Children: Abuse

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what *(a)* statutory and *(b)* other obligations there are upon him to investigate allegations of child abuse in children's homes. [271031]

Beverley Hughes: Although Secretary of State for Children, Schools and Families has a general duty to promote the well-being of children, there is no statutory duty on him to investigate allegations of abuse in children's homes. However any allegations of abuse brought to the Department's attention would immediately be passed to the LA or the police to investigate, depending on the information provided.

All children's homes must have child protection policies in place which mean that allegations of abuse are notified to the local authority and the police who have a duty to investigate.

Children: Databases

Annette Brooke: To ask the Secretary of State for Children, Schools and Families how many parents have refused to allow the details of their children to be kept on the ContactPoint database. [268423]

Beverley Hughes: The inclusion on to ContactPoint of all children and young people in England is a requirement of the Children Act 2004 Information Database (England) Regulations 2007, which define and limit strictly what information can be held on ContactPoint. Consequently, there is no option for parents to refuse to have their children's details put on ContactPoint.

Parents may make requests to the relevant local authority for their child's record to be shielded if they consider there are circumstances that would put the child or their parent or carer at increased risk of harm, if their whereabouts became known. The process of shielding hides from view all details that could reveal their whereabouts. Decisions as to whether or not shielding is appropriate will be taken by the local authority, on a case-by-case basis, informed by the level of threat posed.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269572]

Sarah McCarthy-Fry: The Department for Children, Schools and Families is working towards meeting the Greening Government ICT Strategy objectives and is taking a wider range of actions, which can be found on the Department's Sustainable Development webpages at:

http://www.dcsf.gov.uk/aboutus/sd/index.shtml

Sustainable use and especially lowering the levels of carbon dioxide emissions are key drivers for the procurement, deployment and upgrading of ICT. This includes asking ICT suppliers to evidence their compliance with current or impending standards to reduce energy consumption and carbon emissions such as the Government's Buy Sustainable-Quick Win standard and the European Union Energy Star Standard.

The Department has a well-advanced programme of replacing stand-alone printers, photocopiers, scanners and fax machines with multi-function devices to reduce energy consumption and consumables. On completion there are potential electricity cost savings of over £7,000 and a potential reduction of around 18,000 kilograms of carbon emissions in a full year across the Department's London and Sheffield sites.

Other actions include a range of active device power management solutions that are either in place or being put in place; and using more videoconferencing and remote working technologies to reduce travel related carbon emissions.

The Department is currently developing plans for rationalising and making more efficient use of its data centres and other infrastructure with the potential for significant reductions in energy consumption and carbon emissions.

Gifted Children: Suffolk

Mr. Spring: To ask the Secretary of State for Children, Schools and Families how many and what percentage of gifted and talented pupils attending schools in Suffolk did not obtain five GCSEs at grades A* to C, including English and mathematics in the most recent year for which figures are available. [256961]

Sarah McCarthy-Fry: In 2008, 103 (12 per cent.) of gifted and talented pupils attending maintained schools in Suffolk did not obtain five GCSEs at grades A* to C including English and mathematics. Pupils identified as gifted and talented are defined as

> "Children and young people with one or more abilities developed to a level significantly ahead of their year group (or with the potential to develop those abilities)".

This includes students identified for their talent in, for example, creative arts or sports rather than their ability to excel academically.

Offences Against Children: Haringey

Tim Loughton: To ask the Secretary of State for Children, Schools and Families when he expects the executive summary of the second Serious Case Review of the death of Baby P to be published. [271030]

Beverley Hughes: Haringey Local Safeguarding Children Board will publish the executive summary of the second Baby P serious case review as soon as possible.

Pupils: Disadvantaged

Chris Ruane: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 24 February 2004, what percentage of children were entitled to free school meals in each school in each principal seaside town on the latest date for which figures are available, listed in descending order; and if he will make a statement. [263126]

Sarah McCarthy-Fry: The requested information has been placed in the House Libraries.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the proportion of children who attained five or more GCSEs at A* to C grade at schools where *(a)* more than 50 per cent., *(b)* between 35 and 50 per cent., *(c)* between 21 and 35 per cent., *(d)* between 13 and 21 per cent., *(e)* between nine and 13 per cent., *(f)* between five and nine per cent. and *(g)* fewer than five per cent. of children were receiving free school meals in each year since 1996; and if he will make a statement. [263689]

Sarah McCarthy-Fry: The information requested can be provided only at a disproportionate cost.

Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families (1) how many and what percentage of independent special schools judged as *(a)* outstanding, *(b)* good, *(c)* adequate and *(d)* inadequate at their last Ofsted inspection are in each decile of area deprivation; [269795]

(2) how many and what percentage of maintained and non-maintained special schools judged as *(a)* outstanding, *(b)* good, *(c)* adequate and *(d)* inadequate at their last Ofsted inspection are in each decile of area deprivation; [269796]

(3) how many and what percentage of special schools assessed as inadequate by Ofsted at their most recent inspection are in each decile of area deprivation; [269667]

(4) how many and what percentage of independent special schools in the *(a)* top and *(b)* bottom decile of area deprivation as determined by the income deprivation affecting children index were judged to be (i) outstanding, (ii) good, (iii) adequate and (iv) inadequate in their most recent Ofsted inspection. [269668]

Sarah McCarthy-Fry: These are matters for Ofsted. HM Chief Inspector, Christine Gilbert, has written to the hon. Member and copies of her replies have been placed in the House Libraries.

Letter from Christine Gilbert, dated 16 April 2009:

Parliamentary Question Number 269667: To ask the Secretary of State for Children, Schools and Families, how many and what percentage of special schools assessed as inadequate by Ofsted at their most recent inspection are in each decile of area deprivation.

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Inspections of maintained and non-maintained special schools are carried out under the inspection framework defined by section 5 of the Education Act 2005, and include a judgement on overall effectiveness. Inspections of non-association independent special schools are carried out under the inspection framework defined by section 162a of the Education Act 2002, as amended by schedule 8 of the Education Act 2005. Under this framework, there is no summary judgement for overall effectiveness and these schools are not categorised as outstanding, good, satisfactory or inadequate. Consequently, Ofsted does not hold the information on these schools that you requested.

Table A shows the numbers and percentages of maintained special schools and non-maintained special schools found to be inadequate at their most recent Ofsted inspection. These have been allocated to ten bands according to the income deprivation affecting children index (IDACI) 2007 produced by the Department for Communities and Local Government, where 1 indicates the most deprived 10%, and 10 indicates the least deprived 10%.

As of 2 March 2009, 984 maintained special schools and 73 non-maintained schools were open in England. 958 of the maintained special schools and 70 of the non-maintained special schools have been inspected by Ofsted up to 31 December 2008, the latest inspection data available. Of these, 14 maintained special schools and 2 non-maintained special schools were found to be inadequate at their most recent inspection. The IDACI was then used to allocate these schools into ten bands, based on their postcodes.

Table A: Special schools with inadequate overall effectiveness at their most recent inspection, by area deprivation

Type of special school	*Bands of deprivation (based on IDACI[1])*	*Number of schools*	*Percentage of schools*
Maintained special schools	1 (most deprived 10%)	3	21
	2	1	7

[1] Income deprivation affecting children index 2007 (Department for Communities and Local Government)

Note:

Percentages are rounded and do not always add exactly to 100

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Letter from Christine Gilbert, dated 16 April 2009:

Parliamentary Question Number 269668: To ask the Secretary of State for Children, Schools and Families, how many and what percentage of independent special schools in the (a) top and (b) bottom decile of area deprivation as determined by the income deprivation affecting children index were judged to be (i) outstanding, (ii) good, (iii) adequate and (iv) inadequate in their most recent Ofsted inspection.

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Inspections of non-association independent schools are carried out under the inspection framework known as Section 162a. Under this framework, there is no summary judgement for overall effectiveness, and independent schools, including special schools, are not categorised as outstanding, good, satisfactory or inadequate. Consequently, Ofsted does not hold the information for which you asked. It should also be noted that many of the pupils in independent special schools do not live in the area in which the school is situated and may well come from a wide area. This would affect any association with local area deprivation.

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Letter from Christine Gilbert, dated 16 April 2009:

Parliamentary Question Number 269795: To ask the Secretary of State for Children, Schools and Families, how many and what percentage of independent special schools judged as (a) outstanding, (b) good, (c) adequate and (d) inadequate at their last Ofsted inspection are in each decile of area deprivation.

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Inspections of non-association independent schools are carried out under the inspection framework known as Section 162a. Under this framework, there is no summary judgement for overall effectiveness, and independent schools, including special schools, are not categorised as outstanding, good, satisfactory or inadequate. Consequently, Ofsted does not hold the information for which you asked. It should also be noted that many of the pupils in independent special schools do not live in the area in which the school is situated and may well come from a wide area. This would affect any association with local area deprivation.

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Letter from Christine Gilbert, dated 16 April 2009:

Parliamentary Question Number 269796: To ask the Secretary of State for Children, Schools and Families, how many and what percentage of maintained and non-maintained special schools judged as (a) outstanding, (b) good, (c) adequate and (d) inadequate at their last Ofsted inspection are in each decile of area deprivation.

Your recent parliamentary question has been passed to me, as Her Majesty's Chief Inspector, for a response.

Table A shows the number of maintained special schools and non-maintained special schools inspected by Ofsted under the current inspection framework (commonly known as section 5), as well as their inspection outcomes. These have been allocated to ten bands according to the income deprivation affecting children index (IDACI) 2007 produced by the Department for Communities and Local Government, where 1 indicates the most deprived 10%, and 10 indicates the least deprived 10%. Table B shows the same figures expressed as percentages.

As of 2 March 2009, 984 maintained special schools and 73 non-maintained special schools were open in England. 958 of the maintained special schools and 70 of the non-maintained special schools have been inspected by Ofsted up to 31 December 2008, the latest inspection data available. The IDACI was used to allocate these schools into ten bands, based on their postcodes. The IDACI band of deprivation is not yet available for the postcode of one maintained special school and, therefore, this school, which was rated outstanding, has been excluded from the analysis. The information used to allocate postcodes to IDACI band of deprivation has been updated since my response to Parliamentary Question 264609. As a result, the number of good schools in the 10% most deprived areas has increased from 56 to 57.

Within the total number of inspected schools given above, two maintained special schools and one non-maintained special school were last inspected under the previous inspection framework (commonly known as section 10), in use before September 2005. The inspection outcomes and deprivation bands for these overall effectiveness judgement was made using a seven point scale: excellent, very good, good, satisfactory, unsatisfactory, poor and very poor. It is not possible to operate a simple read-across approach from a seven- to a four-point scale. Ofsted's criteria for making inspection judgements about schools are clearly set out in our inspection guidance. Inspectors do not make reference to, or comparisons with, the previous inspection framework.

A copy of this reply has been sent to Rt Hon Jim Knight MP, Minister of State for Schools and Learners, and will be placed in the library of both Houses.

Figures prior to 2004 have not been provided as these are not available on a comparable basis.

These figures are for pupils in maintained mainstream schools which include: Academies, Community schools, Voluntary Aided schools, Voluntary Controlled schools, Foundation schools and City Technology schools.

Special Educational Needs: Truancy

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what proportion of unauthorised absences were recorded in respect of pupils with *(a)* statemented and *(b)* non-statemented special educational needs in each of the last 10 years. [266445]

Sarah McCarthy-Fry: The available information is shown in the tables.

Data on pupil characteristics linked to absence was collected in the School Census for the first time in 2005/06, but was collected from secondary schools only. In 2006/07 data were also collected from primary and special schools.

Proportion of sessions of unauthorised absence by status of special educational need of pupil[1] 2005/06 to 2007/08

Note:
Figures have been rounded to the nearest 10
Source:
Absence in Schools Survey and School Census (4)

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effect on school truancy rates of his Department's initiatives to reduce truancy; and if he will make a statement. [269298]

Sarah McCarthy-Fry: The Department does not maintain records of truancy. The Department's efforts are focused on improving attendance and reducing absence, and this policy is clearly working, as the following figures show.

Overall absence in 2007/08 was 6.29 per cent. for maintained primary and secondary schools, special schools, city technology colleges and academies—the lowest on record, having fallen for eight of the last 10 years. On average 70,000 more pupils were in school each day in 2007/08 than would be the case if absence rates were still at the level of a decade ago.

Persistent absence, where a pupil misses 20 per cent. or more of schooling, is the best indicator of problem absence. The proportion of persistent absentees in primary, secondary and special schools fell to 3.6 per cent. in 2007/08 compared to 4.1 per cent. in 2006/07.

Persistent absence in secondary schools accounted for 27.7 per cent. of all overall absence. All schools and local authorities now have to target 'persistent absentees' and in 2007/08 persistent absence fell by 17 per cent. in the 452 schools with the highest numbers of persistent absentees.

COMMUNITIES AND LOCAL GOVERNMENT

Beaches: Facilities

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what changes have been made to the rating *(a)* system and *(b)* charges for beach huts in Bournemouth in 2009-10 compared with the previous year; and if she will make a statement. [270268]

John Healey: There has been no change to the rating system. However, the liable party for rates on some beach huts in Bournemouth has changed. Where this is the case, and individual tenants are now liable for rates on their beach huts rather than the council, the VOA has assessed the rateable value of each beach hut separately.

Council Tax

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the average council tax band of a *(a)* social rented, *(b)* private rented and *(c)* privately-owned dwelling is according to data held by (i) her Department, (ii) the Homes and Communities Agency, (iii) the National Register of Social Housing and (iv) the Valuation Office Agency. [270291]

John Healey: For both social and private renters the most common Council Tax band (the mode) is Band A; for owner occupiers the most common band is Band D. The median dwelling value for both social and private renters is within Band B; the median dwelling value for owner occupiers is within Band C. This information is derived from the 2006-07 Survey of English Housing.

Neither the Homes and Communities Agency, the National Register of Social Housing or the Valuation Office Agency hold the data requested.

Council Tax: Valuation

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many homes were valued in each council tax band in each region of England in each year from 1993 to 1997. [270824]

John Healey: Details of the number of homes in each council tax band in each region of England in each year from 1993 to 1997 are available in issues of Local Government Financial Statistics England, copies of which are available in the Library of the House.

Fire Services: Injuries

Mike Penning: To ask the Secretary of State for Communities and Local Government how many injuries were sustained by firefighters in the course of their duties in each fire authority area in each of the last three years. [270031]

Mr. Khan: The number of injuries sustained by firefighters in the course of their duties in each fire authority area in each of the last three years is shown in the table.

Total injuries sustained by firefighters during operational activities, training for operational incidents and routine activities

[1] Prior to 2007-08 Devon and Somerset existed as separate Fire and Rescue Services.
[2] Data for 2005-06 for County Durham and Darlington not provided.

Government Office for the North-West

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the cost to the Government Office for the North West is of *(a)* moving to new offices and *(b)* renting those offices in the first 12 months after moving. [270248]

Mr. Khan: The Government office for the north-west's lease on its current accommodation in City Tower, Piccadilly Plaza expired on 14 December 2008. The lease has been extended until the Government office moves to an existing civil estate building that is being refurbished.

The estimated cost of the move of the Government office for the north-west from its current accommodation to Piccadilly Gate, Store Street, Manchester in spring 2010 is £1.9 million, which includes removals, security, IT services, new furniture and disposal of old furniture.

In 2008-09 the City Tower rent was £1,212,000. The cost of the annual rental for Piccadilly Gate has not yet been agreed, but is likely to be approximately £750,000.

Home Information Packs

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what assessment she has made of the likely effect on the retail price of an average home information pack for a *(a)* leasehold and *(b)* freehold property of the April 2009 changes to rules on such packs. [268750]

Margaret Beckett: The Home Information Pack (Amendment) (No.3) Regulations were accompanied by a regulatory impact assessment

www.opsi.gov.uk/si/si2008/em/uksiem_20083107_en.pdf

setting out our assessment of the effect of the new rules which came into force on 6 April 2009.

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much the Homes and Communities Agency and its predecessor bodies spent on publicity in each of the last three years; [266194]

(2) how much *(a)* the Tenants Service Authority and *(b)* Homes and Communities Agency and its predecessor bodies spent on public relations in each of the last three years. [266196]

Margaret Beckett: Final audited information for the HCA and the TSA for the year ending 31 March 2009 will be available after the end of the financial year.

The predecessor bodies of the HCA were English Partnerships, the investment arm of the Housing Corporation, and the Academy for Sustainable Communities. A range of programmes previously delivered by Communities and Local Government (CLG) also transferred to the Agency. The remainder of the Housing Corporation transferred to the Tenants Service Authority.

The following table shows the amount spent on publicity and public relations by English Partnerships and the Housing Corporation in the last three years:

£000

	2005-06		2006-07		2007-08	
	Publicity	*Public relations*	*Publicity*	*Public relations*	*Publicity*	*Public relations*
Housing Corporation[1]	95	[2]0	104	[2]50	98	[2]12
English Partnerships	1,899	627	2,223	650	2,464	982

[1] The Housing Corporation does not have specific budget codes for PR and Publicity, we have instead determined these costs as: expenditure against PR companies, Publicity, and Events. HC expenditure against Web Hosting and Publications cannot be disaggregated between internal and external communications costs, and is therefore excluded from the above figures.
[2] While these have been identified as PR companies, it is probable that some of these costs may account for 'public affairs consultancy'.

The publicity and public relations costs for the Academy for Sustainable Communities could be disaggregated only at disproportionate [illegible] The spend related to CLG programmes that trans[illegible]to the Homes and Communities Agency cannot be disaggregated.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what office space is *(a)* owned and *(b)* rented by (i) the Homes and Communities Agency and (ii) the Tenants Service Authority; and what recent estimate has been made of the monetary value of these holdings. [266197]

Margaret Beckett: The following table provides details of the buildings owned by the HCA and their open market values at 31 March 2008, which represents the last audited position.

	£000
St. George's House, Gateshead	2,500
Arpley House, Warrington	5,800

I refer the hon. Member to the answer I gave on 12 March 2009, *Official Report*, column 740W-42W, to the hon. Member for Peterborough (Mr. Jackson) that listed the HCA's regional offices. In addition, two corporate centres are located in London (at Buckingham Palace Road and Maple House) and the HCA Academy is located in Leeds (at Foundry Street).

HCA is currently undertaking a review of its accommodation. The agreed future structure will reflect business need and will unlock as many efficiency savings as possible.

The Tenant Services Authority does not own any office space. The TSA rents office space on the 6th floor of Maple House in London, and the 4th floor of Piccadilly Gardens in Manchester.

No valuation is made against rented accommodation.

Housing: Construction

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which Government Office regions of the Homes and Communities Agency have not met their targets for new homes *(a)* started and *(b)* completed for the beginning of 2008-09. [268832]

Margaret Beckett: The Homes and Communities Agency (HCA) came into being on December 1, 2008. National targets for housing starts and completions were inherited from both the Housing Corporation (National Affordable Housing Programme—NAHP) and from English Partnerships (Property and Regeneration Programme—P and R). The Department for Communities and Local Government does not publish regional targets for these programmes. The HCA's recent press release provides preliminary national outturn figures for both the NAHP and P and R programmes.

A full table of figures for both NAHP and P&R is available at:

http://www.homesandcommunities.co.uk/page.aspx?pointerid=48d52e4ad7bf43e6842528bb5dcd3b6e

Housing: Low Incomes

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average amount of a mortgage taken out by a buyer purchasing property under HomeBuy schemes in each region was in the latest period for which figures are available. [268815]

Margaret Beckett: The following table shows the average monetary value of a mortgage taken out by a buyer purchasing a property under HomeBuy schemes in England in 2007-08, by region.

Region	*Average mortgage value (£)*
North East	62,980
North West	55,260
Yorkshire and Humberside	57,780
East Midlands	52,590
West Midlands	61,610
Eastern	84,360
London	89,970
South East	79,780
South West	71,650
England	76,890

Source:
CORE (Continuous Recording) returns from Registered Social Landlords to the Homes and Communities Agency (HCA).

The size of the mortgage and the deposit can vary according to the size of the equity share of the property.

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average sum provided as a deposit by buyers purchasing a property under HomeBuy schemes in each region was in the latest period for which information is available. [268817]

Margaret Beckett: The following table shows the average sum provided as a deposit by buyers purchasing a property under HomeBuy schemes in England in 2007-08, by region.

Region	*Average deposit (£)*
North East	9,820
North West	13,090
Yorkshire and Humberside	13,640
East Midlands	10,990
West Midlands	9,620
Eastern	7,720
London	7,360
South East	9,190
South West	11,240
England	9,180

Source:
CORE (Continuous Recording) returns from Registered Social Landlords to the Homes and Communities Agency (HCA)

The size of the mortgage and the deposit can vary according to the size of the equity share of the property.

Sarah Teather: To ask the Secretary of State for Communities and Local Government what the average (*a*) service charge and (*b*) ground rent paid on properties bought through HomeBuy schemes in each region is. [268818]

Margaret Beckett: The following table shows the average monthly service charge and monthly ground rent paid on properties purchased under HomeBuy schemes in England in 2007-08, by region.

£ (per month)

Region	*Average service charge*	*Average ground rent*
North East	36	122
North West	40	141
Yorkshire and Humberside	27	132
East Midlands	35	165
West Midlands	42	163
Eastern	33	191
London	80	286
South East	48	207
South West	33	153
England	51	209

Source:
CORE (Continuous Recording) returns from Registered Social Landlords to the Homes and Communities Agency (HCA)

Housing: Standards

Simon Hughes: To ask the Secretary of State for Communities and Local Government if she will estimate how long it will take for 50 per cent. of homes to be at Standard Assessment Procedure 81 efficiency level or above. [270822]

Mr. Iain Wright: I refer the hon. Member to the answer I gave to the hon. Member for Rochford and Southend, East (James Duddridge) on 23 April 2009, *Official Report*, column 886W.

Housing: Valuation

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government what the average change in property value was in each region of England between 1991 and March 2009. [270825]

Margaret Beckett: The average change in property value in each region of England between 1991 and February 2009 are presented as follows:

Region	*Change in house price, 1991—February 2009 (percentage)*
North East	196.2
North West[1]	—
Yorkshire and the Humber	165.4

Region	*Change in house price, 1991—February 2009 (percentage)*
East Midlands	169.6
West Midlands	169.3
East	177.8
London	200.8
South East	176.3
South West	193.7
England	178.5

[1] Data not available on a Government office region prior to 1999 Q1, as it had previously been split between North West (excluding Merseyside) and Merseyside.

Source:

CLG house price index, March 2009 data will be available on 12 May.

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government upon what percentage of house sales the Valuation Office Agency receives information in order to update valuation lists. [270826]

John Healey: In 2008-09 the Valuation Office Agency had information that triggered a review of the council tax band on approximately 6 per cent. of dwellings for which it was aware of a sale.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what the potential maximum reward grant is which each local authority with national indicator 191 targets could receive in 2009-10 if it meets all its targets; [270071]

(2) pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 13 March 2009, *Official Report*, column 767W, on local government finance, what effect failure by a local authority to meet its local national indicator 191 will have on the level of reward grant available to such an authority in 2009-10. [270072]

John Healey: 39 local areas have included a designated target against NI 191 (residual household waste per household) in their Local Area Agreement. Reward for performance against these targets will be payable in 2011-12, from an overall reward fund of £340 million. Entitlement to reward will be based on average performance across all Local Area Agreement targets in an area over the full three-year LAA period. It is not possible, at this stage, to determine the reward grant payable against individual targets in particular years.

My Department has published guidance on the operation of the reward scheme and this is available at:

http://www.communities.gov.uk/publications/localgovernment/laarewardguidance2009

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 11 March 2009, *Official Report*, columns 504-5W, on sustainable development, whether local spending reports will be extended to *(a)* the Highways Agency, *(b)* the Homes and Communities Agency, *(c)* the regional development agencies, *(d)* the Environment Agency and *(e)* learning and skills councils. [270178]

John Healey: On 22 April 2009 we made arrangements for the production of the first Local Spending Report under section 6 of the Sustainable Communities Act 2007. The arrangements set out full details of the information that will be included in the first report which will be published on 29 April 2009. They will build on the proposals we made in the first phase of a consultation which closed on 3 April 2009.

Local Government: Bank Services

Mr. Cameron: To ask the Secretary of State for Communities and Local Government what assessment *(a)* her Department and *(b)* the Audit Commission have made of the medium-term effects on local authorities of the potential losses caused by the collapse of Icelandic banks. [269680]

John Healey: These investments are not lost but at risk. The medium-term consequences and impact will depend on the extent to which money is recovered. The Government continue to work closely with the banks and Icelandic authorities to ensure the fair treatment of UK creditors.

Mr. Cameron: To ask the Secretary of State for Communities and Local Government what capitalisation directions to local authorities have been issued by her Department for pension contributions and redundancy costs; and for what value in each case. [269682]

John Healey: Information on the local authorities that have been issued capitalisation directions for *(a)* pension contributions and *(b)* redundancy costs in financial year 2008-09 were published on the Department's website on 30 January. Capitalisation directions issued for 2006-07 and 2007-08 are also listed on the Department's website at:

http://www.local.communities.gov.uk/finance/capital/capdirsum.htm

Mr. Cameron: To ask the Secretary of State for Communities and Local Government for what reasons *(a)* equal pay, *(b)* back pay, *(c)* pension contributions and *(d)* redundancy costs (i) can be treated as capital for the purposes of capitalisation directions and (ii) cannot be treated as capital for singular losses caused by the collapse of Icelandic banks. [269683]

John Healey: Capitalisation has macroeconomic implications, and therefore applications from local authorities for capitalisation—including for expenditure in relation to redundancy, pension costs and equal pay back pay—are assessed against strict criteria. Capitalisation is only likely to be permitted where a very strong case can be made, and, as set out in the guidance for 2009-10, the Department considers that there will normally be no case for the capitalisation of potential losses of investments in Icelandic banks or loss of interest in respect of those investments.

The guidance is available at:

http://www.local.communities.gov.uk/finance/capital/capdirsum.htm

Mr. Cameron: To ask the Secretary of State for Communities and Local Government what her Department's policy is on the capitalisation of investment losses incurred by local authorities in Icelandic banks when the regulations deferring the impact of impairment cease to have effect in 2010; and if she will make a statement. [269684]

John Healey: This money is not lost, but at risk. The regulations allow local authorities to postpone the possible budgetary impact from the potential loss of the investments until 2010-11. This should allow them to be clearer what sums, if any, are still at risk. As set out in our guidance for 2009-10, the Department considers that there will normally be no case for the capitalisation of potential losses of investments or loss of interest in respect of those investments.

Local Government: Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what records her Department holds of the number of people employed by individual local authorities in the past; and what records her Department holds of the number of people who are members of the Local Government Pension Scheme who are employed by local authorities. [270260]

John Healey: The Department does not hold records of the number of people employed by individual local authorities. The Office for National Statistics collects employment statistics for the public sector including local authorities in England and Wales as part of the Quarterly Public Sector Employment Survey.

Details of the total number of people that are members of the Local Government Pension Scheme can be found on the Communities and Local Government website at:

http://www.local.communities.gov.uk/finance/stats/pensions.htm

Data about the number of members of the scheme that are not employed by local authorities are not held centrally.

Local Government: Petitions

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what procedures will apply to petitions received by local authorities relating to ongoing *(a)* planning, *(b)* licensing and *(c)* gambling applications. [270250]

Mr. Khan: Local authorities currently have their own procedures for dealing with petitions. The Local Democracy, Economic Development and Construction Bill places a duty on principal local authorities to respond to petitions.

The Government aim to keep the scope of the duty as broad as possible, but acknowledged in the Communities in Control: Real People, Real Power White Paper (Cm 7427) that there are some issues, such as planning, which already have extensive statutory public involvement procedures and should be excluded from the duty to respond to petitions. The Government are considering whether the Licensing and Gambling regimes, which also have public involvement specifically built into their processes, should be excluded from these proposals. All exclusions to the duty to respond to petitions would be subject to public consultation.

Local Government: Standards

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the value-for-money scores were of each local authority in each year that the Audit Commission has produced the figures under the Comprehensive Performance Assessment regime. [270121]

Mr. Khan: This is an operational matter for the Audit Commission and I have asked the chief executive of the Audit Commission to write to the hon. Member direct.

Letter from Steve Bundred dated 24 April 2009:

Your Parliamentary question on what the value-for-money scores were of each local authority in each year that the Audit Commission has produced the figures under the Comprehensive Performance Assessment regime has been passed to me to reply.

The Audit Commission has carried out Use of Resources assessments, to support its Comprehensive Performance Assessments (CPA), from 2005 to 2008. These assessments have been based on auditors' work and have evaluated how well councils managed and used their resources. The Use of Resources assessment required auditors to reach scored judgements, on a scale of 1 to 4, for five themes:

financial reporting;

financial management;

financial standing;

internal control; and

value for money.

Use of Resources scores under CPA are available on the Commission's website and show the overall scores, as well as scores for each of the themes that comprise the assessment.

In the week commencing 20 April, we will publish our report, Summing up: a review of financial management in local government 2005 - 2008, summarising the results of Use of Resources work under CPA.

A copy of this letter will be placed in Hansard.

Mortgages

Grant Shapps: To ask the Secretary of State for Communities and Local Government what recent discussions she has had with representatives of *(a)* HSBC, *(b)* Nationwide, *(c)* Santander and *(d)* Barclays on their mortgage forbearance schemes. [271002]

Margaret Beckett: As part of the programme of work to develop both 'Homeowners Mortgage Support' and the 'Mortgage Rescue Scheme', CLG has held ongoing discussions with a wide range of lenders on their mortgage forbearance schemes, including the four lenders named above.

Mortgages: Government Assistance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) pursuant to the answer to the hon. Member for Peterborough of 12 March 2009, *Official Report*, columns 746-7W, on mortgages: Government assistance, how many households deemed to have met the eligibility criteria have received financial assistance to date; [270179]

(2) how many households have been assisted by each of the local authorities which has fast-tracked the mortgage rescue scheme. [270241]

Margaret Beckett: As part of the monitoring arrangements for the Government Mortgage Rescue Scheme, headline data will be published on a monthly basis on the Department's website starting this month. We will be publishing headline data for January, February and March 2009 on 30 April 2009, as pre-announced on the UK National Statistics Publication Hub, after which local authority breakdowns can be made available. The date of this publication has been delayed from 21 April 2009 owing to unforeseen issues with data quality and validation.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what the costs to her Department have been of establishing the Homeowner Mortgage Support Scheme; and what estimate she has made of the total cost to her Department of establishing the scheme; [270974]

(2) what recent estimate she has made of the likely cost of the Homeowner Mortgage Support Scheme for each year to 2016-17; [270989]

(3) how much she expects the Homeowner Mortgage Support Scheme to cost in each of the next eight years. [271004]

Margaret Beckett: The impact assessment for Homeowners Mortgage Support (HMS) was published on Tuesday 21 April and is available at:

http://www.communities.gov.uk/publications/housing/mortgagesupportimpactassessment

The impact assessment sets out the estimated costs and benefits of HMS. We estimate that the total set-up cost for Government of HMS will be £2 million (present value); the majority of which has already been incurred as a result of establishing HMS for launch. The table sets out the profile of the overall costs to Government in each of the next eight years:

Profile of HMS costs to Government (not discounted)

£ million

Financial year	*Govt guarantee cost profile*	*Total admin ongoing cost excluding VAT*	*Total Govt set-up cost*	*Total cost*
2008-09 and 2009-10	0.08	1.7	2	3.8
2010-11	0.9	1.4	0	2.3
2011-12	2.5	0.6	0	3.1
2012-13	6.6	0.7	0	7.3
2013-14	9.6	0.8	0	10.4
2014-15	9.5	0.8	0	10.3
2015-16	8.5	0.7	0	9.2
2016-17	3.3	0.6	0	3.9

Grant Shapps: To ask the Secretary of State for Communities and Local Government what percentage of the mortgage market is represented by the mortgage lenders *(a)* taking part in the Government's Homeowner Mortgage Support scheme and *(b)* expected to join the scheme shortly; and what data she uses to calculate such market share. [271003]

Margaret Beckett: Lenders covering more than 80 per cent. of the mortgage market will be providing enhanced support to their customers through 'Homeowners Mortgage Support' by offering the scheme or comparable arrangements.

This includes around 50 per cent. market share who will be taking part in the Government's guarantee backed scheme, of which lenders accounting for 45 per cent. of market share opened the scheme on 21 April. A further 30 per cent. will be offering comparable arrangements to their customers.

The data used to calculate market share are sourced from the 'CML year book and directory of lenders and associated services, 2008-2009'.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what assistance will be provided to homeowners in negative equity by each of the mortgage lenders participating in the Homeowner Mortgage Support Scheme; and if she will make a statement. [271006]

Margaret Beckett: 'Homeowners Mortgage Support' (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income. Households in negative equity are eligible for support through this scheme.

Non-Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) for how many years non-domestic revaluation transitional relief operated in the *(a)* 1995-2000, *(b)* 2000-2005 and *(c)* 2005-2010 rating cycle; [270119]

(2) what estimate has been made of the effect of the end of revaluation transitional relief on levels of business rates in 2009-10. [270263]

John Healey: The 2005 transitional relief scheme was introduced as part of the 2005 business rate revaluation. The impact of different options on all businesses was set out in a Regulatory Impact Assessment with the consultation document "National Non Domestic Rates Transitional Arrangements" published in August 2004.

For 1995-2000 and 2000-05 the period of transitional relief offered was five years. For 2005-10, following consultation, the period of transitional relief was four years, in order that every property should be liable for their full rates bill or receive their full rates reduction from the 2005 revaluation in the final year before the 2010 revaluation.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough (Mr. Jackson) of 13 March 2009, *Official Report*, column 768W, on non-domestic rates, in which local authority areas the automated valuation techniques have been used. [270182]

John Healey: Automated techniques have been used, not for the purpose of valuation, but to inform the analysis of rents of industrial property in a limited number of local authority areas. Those areas are as follows:

South East—Crawley, Chichester, Worthing, Adur, Brighton and Hove, Hastings and Eastbourne

Newcastle—Gateshead, South Tyneside, Sunderland and the Teesside conurbation

East Midlands—Northampton, Leicester and Blaby, Derby, Lincoln and Nottingham

Leeds—Bradford, Wakefield, Calderdale and Kirklees.

Final valuations for all the properties concerned will be produced by Valuation Office Agency staff.

Non-Domestic Rates: Empty Property

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many and what proportion of entries on the rating list which were deemed empty were below the empty property business rate threshold in *(a)* 2008-09 and *(b)* 2009-10. [270243]

John Healey: This information is not available.

Non-Domestic Rates: Small Businesses

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the maximum monetary value of small business rate relief to a firm *(a)* in London and *(b)* outside London was in 2008-09. [270237]

John Healey: The maximum cash value of small business rate relief to a firm both inside and outside of London (excluding the City of London) in 2008-09 was £1,145. In the same period, the maximum cash value of small business rate relief to a firm within the City of London was £1,165.

Property Development: Planning Permission

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many planning permissions were granted to home owners for improvements to their residential property in 2008-09. [270827]

Margaret Beckett: The number of planning permissions granted to home owners for improvements to their residential property in 2008-09 is tabled as follows:

Period	*Number granted*
April-December 2008	167,000

Source:
Communities and Local Government General Development Control Returns PSF.

The figure for January to March 2009 will be published on 26 June 2009.

Property Development: Surrey

Anne Milton: To ask the Secretary of State for Communities and Local Government (1) what meetings *(a)* Ministers in her Department and *(b)* her Department's officials have had with representatives of Dunsfold Park Limited regarding the redevelopment of the former Dunsfold Aerodrome site in Surrey in the last three years; [270051]

(2) on what dates meetings between representatives of Dunsfold Park Limited and the Government Office for the South East have taken place since July 2005; [270052]

(3) with reference to the answer to the hon. Member for Welwyn Hatfield of 4 February 2008, *Official Report*, column 853W, on property development: Dunsfold Park, which aspects of national planning policy apply to such a development. [270205]

Margaret Beckett: Since July 2005 officials from the Government Office for the South East have attended a preview to a public exhibition on 4 February 2006 and a presentation of the proposed development on 11 September 2006.

Officials from the Government Office for the South East and from CLG have met with representatives of Dunsfold Park Ltd. on 17 April 2007 and 4 September 2007. No Ministers from CLG have met with representatives of Dunsfold Park Ltd.

The proposed development encompasses a wide range of community and land use issues. The major national policy areas are:

Planning Policy Statement 1 "Delivering Sustainable Development"

Planning Policy Statement 3 "Housing"

Planning Policy Statement 9 "Biodiversity and Geological Conservation"

Planning Policy Guidance 13 "Transport"

The application has been subject to an appeal and the public inquiry finished on 3 April 2009. The inspector will also consider any other relevant policy areas.

Anne Milton: To ask the Secretary of State for Communities and Local Government (1) for what reasons her Department rejected the proposed Dunsfold Park, Surrey eco-town development; and what methodology her Department used to assess the proposal; [270053]

(2) with reference to the answer to the hon. Member for Welwyn Hatfield of 4 February 2008, *Official Report*, column 853W, on property development: Dunsfold Park, if she will place in the Library a copy of each non-confidential written representation *(a)* her Department and *(b)* the Government Office for the South East received in relation to the proposed Dunsfold Park eco-town. [270206]

Margaret Beckett: Dunsfold Park is included in the initial eco-towns assessment summaries, which are available on my Department's website:

http://www.communities.gov.uk/documents/housing/pdf/ecotownsassessmentsummaries.pdf

These assessment summaries were the outcome of the scrutiny of all proposals received, including Dunsfold Park, following the launch of the Eco-towns Prospectus (July 2007), and considered proposals in relation to the eco-towns criteria set out in the prospectus. Where proposals met the criteria they then were looked at across Government and its agencies in terms of transport and environment issues, and the opportunities that the locations put forward. Dunsfold Park was not judged to perform sufficiently strongly against the eco-towns criteria to be shortlisted.

As the Dunsfold Park proposal was not shortlisted for consultation in 'Eco-towns—Living a greener future' (April 2008) no further representations were received by my Department or the Government Office South East in relation to the eco-town proposal. Representations received prior to this from Dunsfold Park Ltd. and its advisers, and any of the promoters of proposals not shortlisted, are not being released by my Department, because this could potentially prejudice any future applications they make in relation to their proposals.

Social Rented Housing: Carbon Emissions

Sir Nicholas Winterton: To ask the Secretary of State for Communities and Local Government if she will establish a target beyond 2010 for the reduction of carbon dioxide emissions from social housing by 80 per cent; and if she will make a statement. [269513]

Margaret Beckett: The Heat and Energy Saving Strategy, launched on 12 February this year, sets out the Government's ambitions for reducing greenhouse gas emissions from the housing stock, including social housing. In order to reduce total greenhouse gas emissions by 80 per cent. by 2050, emissions from the heat, power and lighting used in homes and buildings will need to approach zero. The Government intend to show leadership by ensuring that social housing meets, and where possible exceeds, the aims it is setting for all housing on energy efficiency, building, for example, on the achievements of the Decent Homes programme. The Government are undertaking further work on how this can be achieved as part of the consultation process, which closes on 8 May.

Sir Nicholas Winterton: To ask the Secretary of State for Communities and Local Government what consideration she has given to international comparisons of initiatives for energy efficiency in social housing; and if she will make a statement. [269519]

Margaret Beckett: The Government are always ready to learn from relevant international experience in this, as in other, fields. The Department has been gathering information about retrofit approaches in other countries, to assess what measures and incentives have been successful in stimulating retrofit activity. This work has covered housing generally rather than social housing specifically.

However, due to the diversity of our building stock in comparison with other countries, and the differences in climate and attitudes to homes and housing, international comparisons, while very useful, do not provide a blueprint solution to reducing carbon emissions. It is essential that we also support innovation in technologies and delivery within the UK.

CULTURE, MEDIA AND SPORT

Advisory Council on Libraries

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport what expenditure his Department incurred on the Advisory Council on Libraries in the most recent year for which figures are available. [270006]

Barbara Follett *[holding answer 22 April 2009]*: Expenditure incurred by the Department for Culture, Media and Sport on the Advisory Council on Libraries in 2008-09 was approximately £2,535.

Dance

Mr. Vaizey: To ask the Secretary of State for Culture, Media and Sport how many meetings of the dance programme board there have been to date; who attended each such meeting; and which organisations were represented at each such meeting. [270007]

Barbara Follett *[holding answer 22 April 2009]*: The Dance Programme Board has met on three occasions. The organisations set out in the following tables were represented by officials from those organisations, and where appropriate the names of senior officials who attended are given.

15 September 2008

Organisation	*Official*
The Place	Chris Thomson
Arts Council England	Janet Archer
Youth Sport Trust	Suzanne Gough
Youth Dance England	Linda Jasper

Music

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much of the funding allocated for new rehearsal spaces for musicians referred to in his Department's press release of 17 December 2007 has been spent to date; and if he will make a statement. [270340]

Barbara Follett: Discussions have been held with local authorities and other partners with the aim of setting up 10 pilot community music rehearsal spaces in England over the two financial years 2008-09 and 2009-10. Of the £500,000 allocated for the scheme, expenditure has so far totalled £72,434. We are aiming to have all 10 spaces established by March 2010.

Regional Cultural Consortiums

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 23 February 2009, *Official Report*, column 434W, on regional cultural consortia, what the estimated costs are of ending the consortia, including redundancy payments. [270134]

Barbara Follett: The total grant in aid allocated to the Regional Cultural Consortiums (RCCs) in 2008-09 was £1,994,408. The additional cost to the Department of closing the RCCs was £399,745. From these two amounts the total amount paid in redundancy to RCC staff was £765,505. The Department also has a budget of between £45,000 and £55,000, plus expenses and VAT, for professional liquidation advice in respect of the RCC closure. Although the RCCs are now closed for business their formal liquidation will not take place until the summer of 2009 and so liquidation costs have not yet been finalised.

DEFENCE

Armed Forces: Death

Lembit Öpik: To ask the Secretary of State for Defence what type of inquiry his Department undertakes when a member of the armed forces dies in suspicious circumstances; and if he will make a statement. [270782]

Mr. Bob Ainsworth: Jurisdiction over the investigation of the death of a member of the armed forces will vary depending on where the death occurs. In the United Kingdom the armed forces are subject to the law in the same way as other citizens. Therefore primacy for any investigation lies with the local civil police force. Jurisdiction over the investigation of the death of a member of the armed forces overseas will vary depending on the nature of the incident: foreign civil police and/or service police will sometimes investigate if the death occurs overseas, arrangements will vary from country to country. Where a death occurs on a warship or auxiliary at sea, investigations will fall to the service police and/or (within UK territorial waters) Ministry of Defence police until such time as it can reasonably be established that no criminal act by a person within the services' jurisdiction has taken place. In operational theatres, the service police will usually investigate the cause of death for all unnatural deaths under the lead of the Provost Marshal (Army). A service inquiry will be convened for deaths where it is considered that anything of consequence may be learned which is not apparent from the incident or which has not been or is unlikely to be identified by any other report into the matter.

Armed Forces: Pay

Angus Robertson: To ask the Secretary of State for Defence what steps the Government is taking in respect of the recommendations of the Armed Forces Pay Review Board. [270476]

Mr. Hutton: On 31 March 2009 I announced the Government's full acceptance of the recommendations contained in the 2009 report of the Armed Forces' Pay Review Body (AFPRB). The AFPRB recommended an increase of 2.8 per cent. in basic pay for all service personnel, including the reserves, in addition to increases in the rates of some allowances and charges. These changes were effective from 1 April 2009. The AFPRB also recommended the introduction of new pay spines for Royal Navy divers and service nurses from 1 August 2009.

Copies of the AFPRB report are held in the House of Commons Library.

Army: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for Defence which Army regiments regularly recruit for full-time personnel from the West Midlands. [270385]

Mr. Bob Ainsworth: Recruitment within the West Midlands Region (Herefordshire, Shropshire, Warwickshire, Worcestershire, Staffordshire and the county of West Midlands) is undertaken by the following regiments.

The Household Cavalry Regiment
The Queen's Dragoon Guards
The Queen's Royal Hussars
The Queen's Royal Lancers
26 Regiment Royal Artillery
The Corps of Royal Engineers
The Royal Corps of Signals
The Grenadier Guards
The Irish Guards
The Welsh Guards

1 Royal Regiment of Fusiliers
2 and 3 Mercian Regiment
The Royal Irish Regiment
The Parachute Regiment
The Rifles
The Army Air Corps
The Royal Logistics Corps
Army Medical Services
The Corps of Royal Electrical and Mechanical Engineers
The Adjutant General's Corps
The Intelligence Corps, and
The Corps of Army Music

Ex-servicemen: Identity Cards

Dr. Murrison: To ask the Secretary of State for Defence (1) what timetable he has set for the introduction of the veterans' identity card; what functions will be associated with the card; to what benefits cardholders will be entitled; and if he will make a statement; [270951]

(2) what estimate he has made of the annual cost of the proposed veterans' identity card to *(a)* the public purse, *(b)* bearers of the card and *(c)* others; and how many cards he expects to be issued. [270954]

Mr. Kevan Jones: In response to the recommendation for a veterans ID card we have determined the associated issues, options and approximate costs of its introduction and are currently considering these in tandem with the potential functionality and associated benefits of the card. Since no decision has been taken in relation to the introduction of a veterans ID card, no timetable for this has been set. I will inform the House once a decision on these issues has been made.

Iraq: Peacekeeping Operations

Dr. Murrison: To ask the Secretary of State for Defence what the monetary value is of the equipment to be left in Iraq by the armed forces on completion of Operation Telic. [270949]

Mr. Hutton: After the withdrawal of UK forces from Basra, we will retain in Iraq the military equipment needed to support the training and assistance that UK service personnel will continue to provide to the Iraqi security forces as part of the normal bilateral relationship. We are continuing to discuss the precise scope of that activity with the Government of Iraq. As UK combat forces drawdown, any proposal to gift equipment to Iraq would follow established procedures.

Military Exercises

Nick Harvey: To ask the Secretary of State for Defence what overseas military exercises *(a)* the armed forces have undertaken in each year since 2003 and *(b)* have been cancelled in each year since 2003; and what the reason for cancellation was in each such case. [269726]

Mr. Bob Ainsworth: The armed forces conduct a wide variety of overseas military exercises each year. All overseas exercises are conducted in order to generate, or maintain military capability in line with the tasks outlined in Defence Strategic Guidance. On occasion, exercises are cancelled for reasons that include: effectiveness of delivery; value for money constraints; international policy dimensions and circumstances; operational constraints; and focus on current operations. Table two on page 54 of the MOD Annual Report and Accounts 2007-08 (volume 1) summarises the military exercises cancelled each year since 2004-05. Copies of this report are available in the Library of the House.

Further data in response to this question has been collated from the Defence Exercise Programme and from the Front Line Command (FLC) archives depicting both the overseas collective training exercises that were undertaken and those cancelled since 2003. I have placed a copy of this information in the Library of the House.

Security Guards: Contracts

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence which private security companies are employed by his Department in volatile countries; what the *(a)* duration and *(b)* monetary value is of each contract; and what local arrangements are in place to manage each contract. [266901]

Mr. Hutton: The Ministry of Defence does not currently contract with any private security companies in either Iraq or Afghanistan.

Territorial Army: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for Defence how many Territorial Army personnel were recruited from the West Midlands in the last 12 months. [270386]

Mr. Bob Ainsworth: Information on the number of personnel from the West Midlands who have joined the Territorial Army in last 12 months could be provided only at disproportionate cost.

However, 15 officers and 501 soldiers were recruited into Territorial Army units based in the West Midlands region (Herefordshire, Shropshire, Warwickshire, Worcestershire, Staffordshire and the county of West Midlands) between 1 April 2008 and 31 March 2009.

DUCHY OF LANCASTER

Futurebuilders England: Catz Club

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster if he will place in the Library a copy of *(a)* Futurebuilders' review of Catz Club's investment portfolio dated January 2008, *(b)* Futurebuilders' review of Catz Club for the November 2008 board meeting and *(c)* the accompanying Events Timeline and Catz Club Detailed Overview produced for that board meeting. [270138]

Kevin Brennan: I have placed extracts from the documents requested by the right hon. Member in the Library. The documents have been redacted to remove the names of individuals.

ENERGY AND CLIMATE CHANGE

Solar Power

Mr. Evans: To ask the Secretary of State for Energy and Climate Change how many applications have been received for grants for solar photovoltaic technology under the Low Carbon Buildings Programme *(a)* phase one and *(b)* phase two from organisations in (i) Ribble Valley constituency, (ii) Lancashire and (iii) the UK since the start of the scheme. [269832]

Mr. Mike O'Brien: Applications received for grants for solar photovoltaic technology under the Low Carbon Buildings Programme *(a)* phase one and *(b)* phase two from organisations in (i) Ribble Valley constituency, (ii) Lancashire and (iii) the UK since the start of the scheme are as shown as follows:

Applications under Low Carbon Buildings Programme Phase 1

	Number of applications	*Grant amount (£)*
Householder stream		
Ribble Valley	3	22,076.50
Lancashire	11	50,020.50
All UK	1,876	7,462,585.94

	Number of applications	*Grant requested (£)*
Communities		
Ribble Valley	0	0.00
Lancashire	0	0.00
All UK	32	556,616.13
Stream 2A—projects up to £100,000		
Ribble Valley	[1]—	[1]—
Lancashire	5	29,799.00
All UK	119	1,997,444.33
Stream 2B—projects up to £1,000,000		
Ribble Valley	0	0.00
Lancashire	0	0.00
All UK	17	1,736,041.00

[1] Not known

Applications under Low Carbon Buildings Programme Phase 2

(i) There have been no applications received for grants for solar photovoltaic technology from the Ribble Valley constituency.

(ii) Within Lancashire applications have been received for grants for solar photovoltaic technology from 80 projects (this includes 21 projects being withdrawn, most of these have re-applied and been accepted; 17 of these are currently being assessed). Further details regarding applications from Lancashire have been placed in the Libraries of the House.

(iii) There have been applications for grants for solar photovoltaic technology from 1,502 organisations within the United Kingdom.

Mr. Evans: To ask the Secretary of State for Energy and Climate Change how many grants have been made for solar photovoltaic technology through the Low Carbon Buildings Programme *(a)* phase one and *(b)* phase two in (i) Ribble Valley constituency, (ii) Lancashire and (iii) the UK in each year since the start of the scheme. [269833]

Mr. Mike O'Brien: The following number of grants have been made for solar photovoltaic technology through the Low Carbon Buildings Programme *(a)* phase one and *(b)* phase two in (i) Ribble Valley constituency, (ii) Lancashire and (iii) the UK in each year since the start of the scheme.

Grants made under Low Carbon Buildings Programme Phase 1

	Number of applications	*Grant paid (£)*
Householders		
Ribble Valley	2	16,577.00
Lancashire	8	38,421.00
All UK	1,342	5,721,553.47
Communities		
Ribble Valley	0	0.00
Lancashire	0	0.00
All UK	220	281,678.70
Ribble Valley		0.00
Lancashire	0	0.00
All UK	23	373,821.79

Stream 2B projects up to £1 million

	Number of applications	*Grant Requested (£)*
Ribble Valley	0	-0.00
Lancashire	0	0.00
All UK	0	0.00

Low Carbon Buildings Programme Phase 2

(i) No grants have been made within the Ribble Valley constituency

(ii) 42 projects within Lancashire have received grants under Phase 2. Further details regarding applications from Lancashire have been placed in the Libraries of the House.

(iii) 1,093 projects within the United Kingdom have received grants.

FOREIGN AND COMMONWEALTH OFFICE

Community Relations: Finance

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to page 92 of the report, The United Kingdom's Strategy for Countering International Terrorism, published in March 2009, how much was spent on the programme of foreign policy outreach to domestic Muslim communities in 2008-09; how much is expected to be spent in *(a)* 2009-10 and *(b)* 2010-11; which communities he visited in 2008-09; which communities he plans to visit in (i) 2009-10 and (ii) 2010-11; how those communities were selected; which topics will be discussed; how the success of the programme will be evaluated; and if he will make a statement. [270452]

Bill Rammell: We have a programme of outreach to Muslim communities around the UK by Ministers and senior officials to engage on foreign policy issues and challenge extremists' distortions of British foreign policy. Engaging with communities also helps tackle misconceptions about UK foreign policy and undermines the extremist narrative. Violent extremists use misconceptions about foreign policy as a way to radicalise vulnerable young people in the UK.

The cost of foreign policy outreach events to British Muslim communities undertaken by Ministers and Foreign and Commonwealth Office officials during FY 2008-09 was £85,000. During the past year my right hon. Friend the Foreign Secretary personally visited the following areas:

28 May—Tower Hamlets
25 July—Birmingham
8 September—Birmingham
21 November—Bradford
22 January—Manchester
16 April—Glasgow

We expect that outreach activity during FY 2009-10 will incur roughly similar costs to the previous year. Funding for FY 2010-11 is yet to be allocated. Visits are evaluated through feedback from participants and local authorities as well as by monitoring wider dissemination of information about the events through press coverage and blogs. Locations for visits over the coming year are yet to be decided but we intend to include areas with substantial Muslim and diaspora communities. The topics likely to be covered at these events will be foreign policy issues of concern to Muslim communities.

Cyprus: Property

Mr. Lancaster: To ask the Secretary of State for Foreign and Commonwealth Affairs how many representations he has received from British citizens on legal difficulties incurred when buying property in Cyprus in the last two years; and what recent discussions he has had with the government of Cyprus on the matter. [270450]

Caroline Flint *[holding answer 23 April 2009]:* The Government are aware of the concern of a number of British citizens regarding legal difficulties incurred when buying property in Cyprus. Our high commissioner in Cyprus recently raised this issue with the Republic of Cyprus Ministry of the Interior. We recognise that this has the potential to affect a large number of British citizens who have purchased property in Cyprus, and will continue to take a close interest in the measures by which the Cypriot government attempt to resolve this problem.

Japan: Burma

Mr. Andrew Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the government of Japan on the forthcoming elections in Burma planned for 2010, with particular reference to the government of Japan's provision of technical training to election officials. [270423]

Bill Rammell: We have been in contact with our Japanese colleagues regarding the 2010 elections in Burma. We have raised our concerns that the elections look set to be neither free nor fair. The Japanese authorities recognise these concerns, but argue that the elections themselves represent progress and that the international community should be working within its framework if possible.

We are not aware of any plans by the Japanese government to train election officials.

HEALTH

Burns: Greater Manchester

Derek Twigg: To ask the Secretary of State for Health how many serious burn case patients from outside Greater Manchester were treated at the burn unit in Manchester in each year since 2003. [269308]

Dawn Primarolo *[holding answer 20 April 2009]:* Information on the number of severe/complex burn cases from outside Greater Manchester that were treated at the burn unit in Manchester in each year since 2003 is given in the following table.

The number of severe/complex burn cases from outside Greater Manchester that were treated in Manchester in each year since 200

	2003	*2004*	*2005*	*2006*	*2007*	*2008*	*Total*
Paediatrics treated cases with residence from outside Greater Manchester	4	3	4	4	7	9	31
Adults treated cases with residence from outside Greater Manchester	1	2	0	9	4	4	20
Uncoded data[1]	1						1
Total	6	5	4	13	11	13	52

[1] It was not clear whether the case was paediatric or adult.

Source:

The National Burn Injury Database (data do not include readmissions)

Contraceptives: Finance

Anne Milton: To ask the Secretary of State for Health pursuant to the answer of 3 March 2009, *Official Report*, columns 1457-8W, on contraceptives: finance, by what means primary care trusts were informed of the additional £12.8 million contraception funding. [269990]

Dawn Primarolo: The 2008-09 primary care trust (PCT) revenue allocations were announced on 13 December 2007, and these overall allocations included £12.8 million new funding for contraceptive services. In addition a statement published on 27 June 2008 in The Week (the NHS Chief Executive's Bulletin for senior National Health Service managers), which accompanied the release of the 2007 abortion data, reminded PCTs that they had received this additional funding as part of their allocations for 2008-09.

Dental Services

Clare Short: To ask the Secretary of State for Health (1) which organisations and individuals were consulted on the content of the dental services statement of financial entitlement before its publication on 1 April 2009; and which of these consultations took place in accordance with section 103(4) of the National Health Service Act 2006; [270397]

(2) with reference to section 103(4) of the National Health Service Act 2006, which bodies appear to him to be representative of persons to whose remuneration a directive made under section 103(1) of that Act would relate. [270444]

Ann Keen: Section 103(4) of The National Health Service Act 2006 provides that the Secretary of State, before making any direction as to payments to be made under a general dental services contract, must consult any body that appears to be representative of those whose remuneration is affected by the direction and may consult other persons as he considers appropriate.

In accordance with this legislation, the British Dental Association, the Dental Key Stakeholder Group, Dental Practitioners' Association, British Orthodontic Society and Conference of Local Dental Committees were consulted on the Statement of Financial Entitlements 2009.

Epilepsy: Waiting Lists

Mr. Sanders: To ask the Secretary of State for Health what targets his Department has set for maximum waiting times between referral of patients with suspected epilepsy to an epilepsy specialist and the appointment with the specialist; and how many appointments met this target in the latest period for which figures are available. [270919]

Ann Keen: The Department has not set specific waiting time targets for referral of patients with suspected epilepsy.

Eyesight: Testing

Mr. Jenkins: To ask the Secretary of State for Health how many pensioners have received free eye tests since the introduction of the policy. [270154]

Ann Keen: From 1 April 1999, eligibility for an NHS sight test was extended to everyone aged 60 or over.

The following tables show the number of NHS sight tests, by patient eligibility, in England between 1996-97 and 2007-08.

Patients aged 60 and over may qualify for an NHS sight test on more than one criterion (i.e. age, low income or having glaucoma or diabetes). However, they would only be recorded against one criterion on the form. Patients are more likely to be recorded according to their clinical need rather than their age. For example, a patient aged over 60 with glaucoma is likely to be recorded in the glaucoma category only. For these reasons the count by eligibility is therefore approximate. Patients may also have had more than one sight test over the 10-year period.

In 2007-08, over 11 million NHS sight tests were provided in total, an increase of 58 per cent. compared to the total of seven million sight tests in 1998-99, the last year before eligibility was extended to everyone aged 60 and over.

NHS sight tests, by patient eligibility, in England, as at the specified financial years

	1996-97	*1997-98*	*1998-99*	*1999-2000*	*2000-01*	*2001-02*
Aged 60 and over	0	0	0	3,301,412	3,753,315	4,012,946
Children 0-15	2,353,696	2,385,520	2,458,944	2,425,666	2,404,037	2,374,943
Students 16-18	515,321	507,983	477,013	468,221	454,319	487,882

Notes:

1. The figures for income support and tax credits have been revised for 2005-06 to reflect incorrect coding.
2. From 1 April 1999, eligibility for an NHS sight test was extended to everyone aged 60 or over.
3. Patients may qualify for an NHS sight test on more than one criterion. However, they would only be recorded against one criterion on the form. Patients are more likely to be recorded according to their clinical need rather than their age. For example, a patient aged over 60 with glaucoma is likely to be recorded in the glaucoma category only. The count by eligibility is therefore approximate.
4. Information for family credit is included within 'Adults receiving tax credits' for 1997-98 to 2002-03 and within 'Adults receiving income support' for later years.
5. Totals may not equal the sum of component parts due to rounding.

The NHS Information Centre for health and social care

Health Services: Greater London

Mr. Evennett: To ask the Secretary of State for Health when he expects to make a decision on whether to accept the recommendations of the Independent Review Panel's report on A Picture of Health for South East London; and if he will make a statement. [270372]

Ann Keen: My right hon. Friend the Secretary of State for Health is currently considering the recommendations made to him by the Independent Reconfiguration Panel. He will make a decision on A Picture of Health for South East London in due course.

NHS: Disclosure of Information

Mr. Burstow: To ask the Secretary of State for Health what guidance his Department has issued to NHS organisations on the implementation of staff whistleblowing policies; who is responsible for evaluating the effectiveness of such policies; and if he will make a statement. [271055]

Dawn Primarolo: The Department has issued a 'whistleblowing in the NHS policy pack' which has been developed to provide support to organisations in developing and reviewing whistleblowing policies and procedures. NHS Employers have subsequently issued updated guidance on whistleblowing policy within the national health service and this can be found on their website. The implementation and evaluation of whistleblowing policies is a matter for local employing organisations.

Prescription Drugs: Internet

Harry Cohen: To ask the Secretary of State for Health what steps his Department has taken to restrict the trade in pharmaceutical products from abroad purchased over the internet which could present risks to the health of individuals. [270682]

Dawn Primarolo: The Medicines and Healthcare products Regulatory Agency (MHRA) actively monitors the availability of medicines being offered on-line using specialist equipment and resources focused on identifying websites operating within the United Kingdom. Robust action is taken when illegal activity is detected.

Several initiatives are underway to communicate risks posed by on-line supply of medicines to consumers and potential customers, both by MHRA acting as regulator, or in conjunction with relevant organisations such as the Royal Pharmaceutical Society. These include national advertising campaigns with Industry and patient groups to raise awareness and specific articles targeting magazines focussing on slimming and men's health issues. Internet auction sites are also used as a means of communicating perceived risk.

Information on buying medicines on line is also available through the MHRA website at:

www.mhra.gov.uk/Safetyinformation/
Generalsafetyinformationandadvice/
Adviceandinformationforconsumers/
BuyingmedicinesovertheInternet/CON019610

Sickle Cell Diseases: Greater London

Sarah Teather: To ask the Secretary of State for Health how many people were diagnosed with sickle cell disease in each London health trust area in each of the last five years. [269264]

Ann Keen: This information is not collected by the Department. A National Haemoglobinopathy Registry sponsored by the Department was launched in March to provide basic details on the distribution, causes of death, diagnosis and numbers with red cell disorders such as sickle cell disease and thalassaemia in the United Kingdom. These data are currently anonymised. Any disclosure will be subject to agreement by patients and individual trusts.

Sleeping Pills

Norman Lamb: To ask the Secretary of State for Health (1) how many prescriptions for sleeping tablets were dispensed to people aged *(a)* under 18, *(b)* between 18 and 25, *(c)* between 50 and 64 and *(d)* over 64 years in each of the last five years; [270345]

(2) how many prescriptions for sleeping tablets were dispensed in each of the last five years. [270346]

Dawn Primarolo: Information on the age of patients is not collected when prescription items are dispensed. The number of prescription items to treat insomnia, as listed in paragraph 4.1.1 of the British National Formulary as 'Hypnotics', written in the United Kingdom and dispensed in the community in England, by calendar year, is given as follows.

	Number of items (thousand)
2004	10,474.6
2005	10,016.5
2006	9,868.1

	Number of items (thousand)
2007	9,998.4
2008	10,031.2

Source:
Prescription Cost Analysis

Vaccination: Side Effects

Mr. Walker: To ask the Secretary of State for Health how many adverse reaction reports for routine vaccinations there have been in each year since 1985. [270911]

Dawn Primarolo: The table lists the numbers of reports of suspected adverse drug reactions (ADRs) to routine vaccines submitted to the Medicines and Healthcare products Regulatory Agency (MHRA) via the Yellow Card Scheme between 1 January 1985 and 31 December 2008. It should be noted that during this time many millions of children and adults have been immunised with these vaccines.

It is very important to note that the report of a suspected ADR via the Yellow Card Scheme and inclusion in this list does not necessarily mean that the adverse reaction was caused by the vaccine. Yellow Card reports are suspicions that a vaccine or medicine may have caused an adverse reaction and are not proof of a causal association.

Data from the Yellow Card Scheme are continually reviewed to identify new safely issues with medicines and vaccines, and where issues are identified appropriate action is taken to protect public health.

Year of receipt	*Number of reports*
1985	398
1986	558
1987	394
1988	659
1989	1,419
1990	907
1991	811
1992	1,204
1993	2,100
1994	1,889
1995	1,339
1996	1,125
1997	1,014

2008	2,293

HOME DEPARTMENT

Asylum: Housing

Damian Green: To ask the Secretary of State for the Home Department how many houses rented under the National Asylum Support Service scheme did not have anyone living in them on 1 January 2009. [263209]

Mr. Woolas: There were no unoccupied houses for which the UK Border Agency was making payment for on 1 January 2009.

Asylum: Parents

Fiona Mactaggart: To ask the Secretary of State for the Home Department what arrangements are made to provide childcare for women with children seeking asylum at the time of their first interview with the authorities. [270207]

Mr. Woolas: Each UKBA Region has its own arrangements in place to ensure that every effort is made to ensure that children are not present when parents are interviewed about their reasons for seeking asylum. Arrangements can include rescheduling the asylum interview date to accommodate childcare arrangements, or provide childcare provision at or near UKBA premises where this is safe and sensible.

Where suitable alternative arrangements have proved impossible the asylum interview will go ahead with the child present. In these cases, the case owner will offer sufficient breaks and will fully note any disruptions on the interview record.

British Nationality

Ms Buck: To ask the Secretary of State for the Home Department how many people have been registered as British citizens in each English local authority area since 2005. [261862]

Mr. Woolas: The available information is shown in Annex A.

The data show the number of registrations as a British citizen. This is broken down by the local authority which was responsible for performing the Citizenship Ceremony for those applicants over 18, who were successful in their application for British citizenship.

We are unable to provide a similar analysis for applicants under 18 years of age and these applications are shown as "Unknown". This total relates to all areas of the UK and not just England. These are applications from minors who apply direct to the Home Office, not in conjunction with a parental application. Minors are not required to attend Citizenship Ceremonies and consequently the information is not collated by local authority and could be obtained only by the detailed examination of individual case records at disproportionate cost.

The information has been provided from local management information and is not a National Statistic. As such, it should be treated as provisional and therefore subject to change.

Local Management Information

Crimes of Violence: Licensed Premises

Mr. Bone: To ask the Secretary of State for the Home Department (1) how many assaults on licensees were reported to the police in each of the last five years; [270530]

(2) how many cases of assaults on licensees were taken to court in each of the last five years; and how many custodial sentences were imposed following convictions in such cases; [270532]

(3) how many assaults on licensees resulted in a caution for the attacker in each of the last five years. [270534]

Mr. Alan Campbell *[holding answer 23 April 2009]*: The Home Office does not collect data centrally on the number of assaults on licensees.

Information held on the Ministry of Justice Court Proceedings Database does not include the employment status of persons assaulted as the database purely focuses on the persons proceeded against at court and not the victims of any offences. Only in certain rare instances can some of the victim details be gleaned from the wording of the statute involved.

This does not apply for assaults and neither is there a separate statute offence for assaults on licensees.

The issue of assaults on licensees has been raised with the Home Office by National Pubwatch. The Home Office is looking into this matter and a meeting has been arranged with the Chair of National Pubwatch to discuss the matter further.

Cybercrime

James Brokenshire: To ask the Secretary of State for the Home Department how many people were employed in the e-crime department of the Serious and Organised Crime Agency in April 2006; and how many people are now so employed. [269673]

Mr. Alan Campbell: In April 2006 50 staff, employed previously by the National High Tech Crime Unit, were absorbed into the Serious Organised Crime Agency. At that point the work of the High Tech Crime Unit was divided between SOCA's e-crime department and the Child Exploitation and On-line Protection Centre (CEOP).

In April 2009, 38 staff were directly employed in the SOCA e-crime department, with other staff employed by CEOP working on offences of alleged child abuse where technology may be a factor.

Departmental ICT

Jenny Willott: To ask the Secretary of State for the Home Department what steps her Department has taken to address the effect on levels of carbon dioxide emissions from her Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if she will make a statement. [269570]

Mr. Woolas: As already reported to the Cabinet Office in the CIO Green ICT roadmap, for Home Office core and UKBA we are currently analysing, planning and implementing (where appropriate) the actions laid out in the strategy. Our main ICT suppliers are required to provide low power consumption devices. We have initiated projects to configure our workstations to automatically power down after hours, to virtualise a significant proportion of our server estate and to implement thin client technology. We have reduced the amount of ICT devices and we are extending "smart working" which will also contribute to reduce the amount of ICT equipment on the estate.

Foreign Workers

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has she made of the effects on the economy of migrant labour; and if she will make a statement. [269155]

Mr. Woolas: We know that migration has made a huge contribution to the economy and the Treasury estimated that in 2006, new migrants added around £6 billion to the economy. Even during the recession migration continues to play an important role in the UK but there needs to be a balance and we are giving greater support to domestic workers so that we can all come through the recession stronger.

Members: Correspondence

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when she plans to reply to the letter from the hon. Member for the Isle of Wight of 5 December 2008 on protection of the personal details of a constituent, in respect of which the hon. Member has written to her on 9 January, 24 February and 27 March 2009. [268224]

Mr. Woolas: Inquiries from my officials have established that the letter referred to in the Question is about settlement in the UK for former Gurkhas who retired before July 1997.

In September 2008, the High Court agreed that the 1997 cut-off date applied to retired Gurkhas was sound and not discriminatory. However, it did find that the policy guidance relating to the treatment of Gurkhas discharged before 1997 was not sufficiently clear and did not cover service-related factors. We are determined to get the revised guidance right to ensure that it is fair to all Gurkhas and this has involved consultation across Government.

The revised guidance for Gurkhas who retired before July 1997 and who wish to seek settlement in the UK will be published by 24 April. We want to give Members the fullest possible information and we therefore plan to write to them on or soon after that date with an explanation of our revised guidance.

Racial Hatred

Mr. Amess: To ask the Secretary of State for the Home Department pursuant to the answer of 2 April 2009, *Official Report*, column 1315W, on Anti-Semitism: publications, how much racially inflammatory material that could be perceived as potential incitement to the committing of hate-related crime has been reported to the police for evaluation and assessment in the last six months; and if she will make a statement. [270162]

Mr. Alan Campbell: This information is not available. Data on such activity are collected by police forces at the point of report but are not collated.

Repatriation

Damian Green: To ask the Secretary of State for the Home Department how much her Department spent on the Voluntary Assisted Return and Reintegration Programme in 2007. [269222]

Mr. Woolas: This information is currently not available as the cost of the 2007 Voluntary Assisted Return and Reintegration Programme (VARRP) is subject to audit.

The UK Border Agency audit of this data will be completed within the next month.

Telecommunications: Databases

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 4 March 2009, *Official Report*, column 1642W, on telecommunications: databases, from which budgets the Interception Modernisation Programme will be funded. [269931]

Mr. Coaker: The Interception Modernisation Programme is a cross-Government programme, funded by the Home Office.

Vandalism: Arrests

Mr. Burns: To ask the Secretary of State for the Home Department how many arrests there have been for offences relating to acts of vandalism in *(a)* West Chelmsford constituency, *(b)* Essex and *(c)* England in each year since 2000. [269096]

Mr. Alan Campbell: Available information on arrests for criminal damage offences (which include vandalism) in Essex police force area and England are provided in the table.

The data on arrests held by the Home Office are reported at police force area level only therefore information on arrests in West Chelmsford is not available.

Number of persons of all ages arrested for criminal damage, 2000-01 to 2006-07

	Police force area	
	Essex	England
2000-01	3,433	124,002
2001-02	3,347	122,934
2002-03	3,254	114,141
2003-04	3,801	134,378
2004-05	3,750	147,346
2005-06	3,479	156,549
2006-07	3,609	155,831

HOUSE OF COMMONS COMMISSION

Members: E-mail

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 2 March 2009, *Official Report*, columns 1211-2W, on hon. Members: email, if the Commission will make the House's remote access software compatible with Pretty Good Privacy software in order to enable hon. Members to communicate with constituents securely. [269925]

Nick Harvey: PICT's encryption services do not cover Members' emails once they have left the parliamentary network. Members' ability to install their own email encryption software was covered in the answer referred to above.

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 2 March 2009, *Official Report*, columns 1211-2W, on hon. Members: email, for what technical reasons the remote access software is incompatible with the Pretty Good Privacy cryptography application. [269926]

Nick Harvey: PICT was advised by Pretty Good Privacy Corporation that their product was not compatible with the versions of VPN software in use by Parliament.

Mr. Maude: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 2 March 2009, *Official Report*, columns 1211-2W, on hon. Members: email, what the encryption software identified during the PICT assessment that may be installed on PICT-owned personal computers at no cost to hon. Members is; and what the technical encryption standard of such software is. [269927]

Nick Harvey: Following industry practice and as a policy PICT does not disclose information about the security products in use within Parliament.

INNOVATION, UNIVERSITIES AND SKILLS

Adult Education

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* men and *(b)* women there were on adult learner places funded by the Learning and Skills Council in each year since 2004-05. [269825]

Mr. Simon: The table shows the number of male and female adult learners that were participating in further education and skills funded by the Learning and Skills Council, between 2004/05 and 2007/08.

Male and female adult participation (aged 19+) in LSC-funded further education and skills

	Full year (final)			Full year (provisional)
	2004/05	2005/06	2006/07	2007/08
Male	1,664,100	1,427,300	1,192,900	1,288,700
Female	2,855,700	2,428,000	1,984,400	1,989,600
Total learners	4,519,800	3,855,300	3,177,300	3,278,400

Notes:

1. Volumes are rounded to the nearest hundred, and may not sum to totals.
2. Age is based on age at the start of the academic year.
3. Learner volumes are used as a measure for comparative purposes. Full-year numbers are a count of the number of learners that participated at any point during the year. Learners are included only once for each programme they are involved in. For example, if a learner is undertaking two A-levels at an FE college, they will be counted only once. If a learner undertakes an apprenticeship and a Train to Gain qualification in the same year, then they will be counted twice in this table.

Source:

Further Education, Work Based Learning, Adult Community Learning, University for Industry, Train to Gain ILR

Over the past few years the Government have prioritised investment in adult skills towards those courses that best provide individuals with the skills to enter into sustained employment and progress into further learning. This strategy has paid dividends with record levels of adults participating in Skills for Life (Numeracy and Literacy), Full Level 2 and Full Level 3 qualifications.

Adult Education: Finance

Stephen Williams: To ask the Secretary of State for Innovation, Universities and Skills what plans his Department has for the funding of the foundation learning tier for learners aged *(a)* 16 to 19, *(b)* 19 to 25 and *(c)* over 25 years with learning difficulties or disabilities. [270235]

Mr. Simon: As part of the 14 to 19 education and adult skills reforms, we are developing the Foundation Learning Tier (FLT) to create a more coherent set of entry level and level 1 qualifications for both young people and adults. By 2010/11 we expect the majority of foundation learning to be offered through the FLT in all settings. There will be a focus on employability throughout the FLT, supporting independent living where possible, which is vital for those with LDD.

Planned investment for adults aged 19 or over (including those aged 25 or over) undertaking FLT activity is estimated at around £230 million each year for 2008-09 and 2009-10 (Grant Letter to Learning and Skills Council (LSC), November 2008). The exact amount spent on adults through the FLT will depend on demand; however the funding is not separated out within this age group.

Funding for 16 to 18-year-olds is allocated in line with the expected route of learning, for example schools, further education colleges, work-based learning and specialist colleges for those with LDD. This provides support for all 16-18 year olds across a range of levels including accessing learning within the FLT, although there is no separate budget identified for this activity within the Grant Letter to the LSC.

Apprentices: Management

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people in each *(a)* age group and *(b)* region and of each (i) sex and (ii) ethnic group (A) started and (B) completed apprenticeships in management in each of the last five years. [268145]

Mr. Simon: Tables 1, 2, 3 and 4 show the number of apprenticeship and advanced apprenticeship starts and achievements in management related frameworks (Business Administration and Management) in the last five years, broken down by age, gender, ethnicity and region, respectively. Copies of these tables have been provided and the relevant data will be placed in the Library.

The Government are committed to rebuilding apprenticeships. Since 1997 we have witnessed a renaissance in apprenticeships from a low point of 65,000 to a record 225,000 apprenticeship starts in 2007-08. Completion rates are also at a record high with 64 per cent. successfully completing an apprenticeship—up from 37 per cent. in 2004-05.

Apprentices: Staffordshire

Mr. Jenkins: To ask the Secretary of State for Innovation, Universities and Skills how many people resident in *(a)* Tamworth constituency and *(b)* Staffordshire were on (i) apprenticeships and (ii) advanced apprenticeships in each of the last five years. [270080]

Mr. Simon: Table 1 shows apprenticeship and advanced apprenticeship starts in Tamworth parliamentary constituency and Staffordshire local authority in each of the last five years.

Table 1: Apprenticeship starts in Tamworth and Staffordshire, 2003-04 to 2007-08

	2003-04	2004-05	2005-06	2006-07	2007-08
Tamworth parliamentary constituency					
Apprenticeship	310	370	320	270	290
Advanced apprenticeship	80	120	100	130	170
Total	390	490	420	400	450
Staffordshire local authority					
Apprenticeship	2,800	2,900	2,700	2,400	2,900
Advanced apprenticeship	1,000	1,100	1,200	1,200	1,600
Total	3,800	4,000	3,800	3,600	4,500

Table 1: Apprenticeship starts in Tamworth and Staffordshire, 2003-04 to 2007-08

	2003-04	2004-05	2005-06	2006-07	2007-08
All apprenticeships					
Apprenticeship	136,600	135,100	122,800	127,400	151,800
Advanced apprenticeship	57,000	53,900	52,100	57,000	73,000
Total	193,600	189,000	175,000	184,400	224,800

Notes:
1. Parliamentary constituency figures have been rounded to the nearest 10. All other figures are rounded to the nearest 100.
2. Parliamentary constituency and local authority are based on the home postcode of the learner.
3. From 2006-07, there are a small number of higher level apprenticeships included in the advanced apprenticeship total.
4. Figures may not sum to totals due to rounding.

Source:
Work Based Learning ILR.

The Government are committed to rebuilding apprenticeships. Since 1997 we have witnessed a renaissance in apprenticeships from a low point of 65,000 to a record 225,000 apprenticeship starts in 2007-08. Completion rates are also at a record high with 64 per cent. successfully completing an apprenticeship—up from 37 per cent. in 2004-05.

Apprenticeships, Skills, Children and Learning Bill

Mr. Gibb: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the costs to his Department incurred as a result of the Public Bill Committee on the Apprenticeship, Skills, Children and Learning Bill sitting beyond 6.30 pm on 26 March 2009. [270391]

Mr. Simon: The total estimated cost to the Department was £203.15 which was required to cover additional travel expenses.

Building Colleges for the Future Programme

Mr. Graham Stuart: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the likely effects on educational provision of the freezing of the further education capital programme; and if he will make a statement. [269958]

Mr. Simon: Sir Andrew Foster published his review of the capital programme in further education on 1 April and we have accepted all of his recommendations in full, one of which is the necessity to move to a needs-based approach. The Learning and Skills Council (LSC) is currently consulting with the sector on a needs-based criterion which will be used in prioritising future schemes. Announcements will be made once this work is completed.

Geoffrey Russell, the acting LSC chief executive, has appointed an external team of property advisers to ensure that the information held by the LSC on individual projects is accurate, comprehensive and a sound basis for taking future decisions.

Building Colleges for the Future Programme: Birmingham

Mr. Godsiff: To ask the Secretary of State for Innovation, Universities and Skills which building projects in the Birmingham area have been affected by the funding difficulties which have arisen under the Building Colleges for the Future programme; and how much funding has been committed to such projects which have been halted. [270220]

Mr. Simon: Capital funding for Further Education colleges is administered by the Learning and Skills Council (LSC). As the information requested pertains to records held by the council, I have asked Geoffrey Russell, the acting LSC chief executive, to write to the hon. Member with the further information requested. A copy of his letter will be placed in the House Libraries.

Further Education

Mr. Graham Stuart: To ask the Secretary of State for Innovation, Universities and Skills when he expects the panel of college principals, as recommended by the Foster Review of the role of further education colleges, to be established; and if he will make a statement. [269962]

Mr. Simon: The panel of college principals is being established with the support of the Association of Colleges and they will convene for the first time on 29 April.

The panel will consider the criteria to be used for the prioritisation of projects, as well as the process for applying these criteria.

Higher Education: Birmingham

Mr. Godsiff: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of *(a)* males and *(b)* females of between 18 and 21 years were in (i) education, (ii) employment and (iii) training in the Birmingham area in each of the last three years. [270033]

Mr. Simon: The following table shows the number of people in Birmingham in education, employment and training from 2005 to 2007 for 16 to 24-year[1]-olds. These estimates are taken from the Annual Population Survey, for which 2008 data are not yet available. We are unable to break down these estimates into a smaller age band, or by gender as the sample sizes for such are too small to give reliable estimates.

[1] Age used is academic age, the respondent's age at the preceding 31 August.

16 to 24-year-olds in education, employment and training in Birmingham

	Number			Percentage		
	2005	2006	2007	2005	2006	2007
In employment	66,000	70,000	66,000	47	46	44
In education[1]	60,000	72,000	66,000	43	47	44
In training	12,000	14,000	17,000	9	9	11

16 to 24-year-olds in education, employment and training in Birmingham

	Number			Percentage		
	2005	*2006*	*2007*	*2005*	*2006*	*2007*
Not in employment, education or training	30,000	30,000	30,000	22	19	20
Total 16 to 24-year-olds	139,000	153,000	150,000	—	—	—

[1] Education is defined as being enrolled on an education course and either attending or waiting for term to (re)start. Training is all other learning that is not classified as education.

There is an overlap between these groups, as some people will for example be in employment and training. The following table gives further categories which have no overlap.

16 to 24-year-olds in education, employment and training (no overlaps)

	Number			Percentage		
	2005	*2006*	*2007*	*2005*	*2006*	*2007*
In employment	66,000	70,000	66,000	47	46	44
Not in employment, but in education	40,000	51,000	49,000	29	33	32
Not in employment or education, but in training	3,000	3,000	5,000	2	2	3
Not in employment, education or training	30,000	30,000	30,000	22	19	20
Total[1] 16 to 24-year-olds	139,000	153,000	150,000	100	100	100

[1] Please note numbers may not sum to totals exactly due to rounding.

Learning and Skills Council

Mr. Graham Stuart: To ask the Secretary of State for Innovation, Universities and Skills who attended the Learning and Skills Council's management board meetings of *(a)* 13 May 2008 and *(b)* 12 June 2008; and if he will make a statement. [269955]

Mr. Simon: The LSC Management Board is part of the LSC's own internal management structure. I have therefore asked Geoff Russell, the acting chief executive of the LSC, to write to the hon. Member with the information he has requested and a copy will be placed in the House Libraries.

Mr. Graham Stuart: To ask the Secretary of State for Innovation, Universities and Skills what financial provision the Learning and Skills Council will make for Mark Haysom upon his leaving the post of chief executive of the council; and if he will make a statement. [269959]

Mr. Simon: On 23 March 2009, the date that Mr. Haysom tendered his resignation, a statement was available on the DIUS website on this and it also announced the appointment of Geoffrey Russell as acting chief executive of the Learning and Skills Council.

The terms of Mr. Haysom's resignation are a matter for the Learning and Skills Council, and I have asked Geoff Russell to write to the hon. Member with the appropriate information.

Students: Loans

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the effect of the negative inflation figure for the retail prices index in March 2009 on people with outstanding student loans who took them out *(a)* prior to and *(b)* since 1998. [271029]

Mr. Lammy: The retail price index (RPI) for March is -0.4 per cent. I am considering any implications this might have for the repayment of student loans, particularly for the rate of interest to be applied, and will make an announcement in due course. Interest rates are normally adjusted annually, each September.

For borrowers repaying income contingent loans, which have been available since 1998, the rate of interest makes no difference to the level of their monthly repayments. Borrowers repay 9 per cent. of their earnings over the income threshold of £15,000.

JUSTICE

Antisocial Behaviour: Fixed Penalties

Mr. Wallace: To ask the Secretary of State for Justice how many people in the Lancashire police authority area have been issued with penalty notices for disorder in each of the last three years, broken down by type of offence; and how many fines associated with notices remain unpaid. [265839]

Mr. Straw: The number of Penalty Notices for Disorder (PNDs) issued to persons aged 16 and over in the Lancashire police force area, by type of offence and those which were not paid from 2004 to 2007 (latest available) can be found in tables 1 to 3.

Under the PND scheme, recipients have 21 days in which to pay the penalty or request a court hearing. 21 days is the minimum period before forces can register a fine for not responding to a notice. If no action is taken, a fine of one and half times the penalty amount is registered by the courts. Fines for non-payment of PNDs are treated by the courts in the same way as any other unpaid fine. It is not possible to separately identify the payment rate of fines arising from unpaid PNDs, but the latest enforcement rate for all fines, including those from unpaid PNDs, is 85.2 per cent. for the period April-December 2008.

PNDs were implemented in all 43 forces in England and Wales in 2004.

PND data for 2008 will be available in the autumn of 2009.

Bail Accommodation and Support Service

Mr. Vara: To ask the Secretary of State for Justice pursuant to the answer of 30 March 2009, *Official Report*, column 982W, on bail accommodation and support services, (1) how many of the 836 service users who had their residency terminated went to court; what the outcome of the hearing was in each case where legal proceedings have been concluded; and if he will make a statement; [270065]

(2) how many service users were placed in ClearSprings' properties between the introduction of the scheme and 24 March 2009; and if he will make a statement. [270066]

Mr. Hanson: The number reported in my answer of 30 March was 832, not 836. Of the 832, 514 were defendants on bail and 318 were offenders on Home Detention Curfew.

Breaches leading to termination may occur as a result of failure to comply with the curfew conditions, failure to comply with other bail conditions, failure to comply with the rules applied by ClearSprings for living in houses, failure to attend contact sessions, misbehaviour, or offending and arrest by the police.

Those who breach bail conditions are returned to court by the police but it is then for the court to decide whether the individual must be remanded in custody or can be re-bailed to a non-ClearSprings address, perhaps with other conditions. It is only possible to establish the outcomes from court records and this could be done for the 514 defendants only at disproportionate cost.

Those who breach on Home Detention Curfew are reported to NOMS Public Protection Unit who decide whether the individual must be recalled to prison.

From 18 June 2007 up to 24 March 2009, 1,506 defendants and 1,180 offenders were received into ClearSprings' properties.

Cities

Mrs. Spelman: To ask the Secretary of State for Justice when the next round of applications by local authorities for city status is planned to take place. [270259]

Mr. Wills: There are no current plans to make further grants of city status in the near future. It is for Her Majesty the Queen to decide when a grant of city status should be made.

Constituencies

Mr. Maude: To ask the Secretary of State for Justice pursuant to the answer to the hon. Member for Meriden (Mrs. Spelman) of 23 February 2009, *Official Report*, columns 341-2W, on constituencies, if he will make it his policy for the independent review of legislation in relation to parliamentary boundary reviews to commence in the 2005 Parliament. [270169]

Mr. Wills: It remains our intention that the current legislation in relation to the conduct of parliamentary boundary reviews will be the subject of an independent review. The arrangements for the conduct and timing of the review are still under consideration.

Debt Collection

Mrs. Spelman: To ask the Secretary of State for Justice what recent guidance HM Courts Service has issued to bailiffs on *(a)* accepting payment by (i) cheque and (ii) credit card and *(b)* the seizure of goods in circumstances where debtors cannot make immediate payment. [269971]

Bridget Prentice: No specific guidance has been issued to bailiffs. However, in January 2009 HM Courts Service issued guidance to county courts in the South East region on taking payments by credit and debit card. Guidance has only been issued in the South East region as other regions do not yet have the ability to take payments by credit or debit card in the county courts. No guidance has been issued on accepting payment by cheque.

A copy of HMCS's County Court Guide—Implementing credit/debit card payment facilities in the county courts has been placed in the Libraries of the House.

The only recent guidance to bailiffs on seizure of goods is contained in the Domestic Violence Crime and Victims Act 2004 guidance. A copy of the redacted guidance was laid in the Libraries of the House in January 2009.

Mrs. Spelman: To ask the Secretary of State for Justice what records are held by which public bodies of the *(a)* dates and *(b)* reasons that powers of forced entry are utilised by bailiffs. [269972]

Bridget Prentice: Her Majesty's Revenue and Customs hold infrequent requests, dating back 20 years, from local offices for authority to make an application to the magistrates court to force entry. There have been no instances where Her Majesty's Revenue and Customs have used the power. Since the introduction of the Domestic Violence, Crime and Victims Act 2004 records held by Her Majesty's Court Service show that the power to force entry has been used by magistrates court civilian enforcement officers 386 times. The power to force entry has been used by private bailiffs contracted to Her Majesty's Court Service on two occasions. Her Majesty's Court Service does not hold the information requested centrally and it would require extensive manual intervention to retrieve from individual court records. It would take disproportionate time and cost to gather this information.

Mrs. Spelman: To ask the Secretary of State for Justice when the National Standards for Enforcement Agents were last revised. [269973]

Bridget Prentice: The National Standards for Enforcement Agents were revised in May 2002.

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer to Lord Lucas of 29 January 2009, *Official Report, House of Lords*, column WA69, on bailiffs, if he will place in the Library a copy of the instructions provided to in-house civilian enforcement and private bailiff companies. [270075]

Bridget Prentice: The instructions referred to in the answer provided are contained in the document entitled Her Majesty's Court Service (Domestic Violence, Crime and Victims Act 2004) Guidance to Civilian Enforcement Officers and Approved Enforcement Agents. A redacted copy of this guidance was placed in the Library of the House in January 2009.

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer to Lord Lucas of 9 March 2009, *Official Report, House of Lords*, column WA194, on bailiffs, on how many of the 386 occasions forced entry powers were used by bailiffs in each local authority area; and what type of fine or penalty was being collected in each case. [270076]

Bridget Prentice: Her Majesty's Courts Service does not hold the information requested centrally and it would require extensive manual intervention to retrieve from individual court records. It would take disproportionate time and cost to gather this information.

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer of 27 February 2009, *Official Report*, column 1155W, on debt collection, what sections were redacted on health and safety grounds from his Department's guidance on the use of bailiffs' powers of forced entry under the Domestic Violence, Crime and Victims Act 2004. [270141]

Bridget Prentice: The redacted sections refer to the process of executing warrants and forcing entry. The Government consider that releasing the redacted parts of the guidance to civilian enforcement officers would not be in the public interest and may compromise the health and safety of HMCS staff, to whom it owes a duty of care. A copy of the redacted guidance was laid in the Library of the House in January 2009.

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the answer of 27 February 2009, *Official Report*, column 1155W, on debt collection, what guidance HM Courts Service has issued on the use of bailiffs' powers of peaceful entry. [270142]

Bridget Prentice: Only one set of guidance has been published by my Department, and its predecessor, on the use of civilian enforcement officers' and approved enforcement agents' powers of entry under the Domestic Violence, Crime and Victims Act 2004, a redacted copy of which was laid in the Library of the House in January 2009.

Mrs. Spelman: To ask the Secretary of State for Justice pursuant to the written ministerial statement of 17 March 2009, *Official Report*, columns 46-47WS, on bailiff and enforcement law, if he will bring forward proposals to repeal the primary legislation which allows for the extension of bailiffs' powers of entry and the use of force by enforcement agents. [270189]

Bridget Prentice: There are no proposals to repeal the primary legislation that allows for the extension of bailiffs' powers of entry and the use of force by enforcement agents.

Firearms: Sentencing

Chris Grayling: To ask the Secretary of State for Justice how many people aged *(a)* 21 years or more and *(b)* under 21 years have been convicted of possession of a firearm in each of the last five years; and what types of sentences have been imposed in such cases. [269257]

Mr. Straw: Information on the number of persons aged 21 and over and aged 10 to 20 years who have been found guilty and the sentence breakdown for possession of a gun in England and Wales 2003 to 2007 is contained in the following tables.

These data are on the principal offence basis. The figures given in the table on court proceedings relate to persons for whom these offences were the principal offence for which they were dealt with. When a defendant has been found guilty of two or more offences, the offence selected is the one for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

Court proceedings data for 2008 will be available in the autumn of 2009.

Table 1: Number of persons found guilty at all courts for offences relating to possession of a gun in England and Wales, by age group, 2003 to 2007[1, 2, 3, 4, 5]

	Age group	
	10 to 20	*21 and over*
2003	391	787
2004	505	1,088
2005	628	1,407
2006	594	1,357
2007	695	1,427

[1] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes the following statutes and offence descriptions:
Firearms Act, 1968 Sec 16 (Group I) as amended by the Criminal Justice Act 1972 S28(2).
Possession of firearm with intent to endanger life.
Firearms Act, 1968 Sec 16 (Group II) as amended by the Criminal Justice Act 1972 S28(2).
Possession of firearm with intent to endanger life.
Firearms Act, 1968 Sec 16 (Group III) as amended by the Criminal Justice Act 1972 S28(2).
Possession of firearm with intent to endanger life.
Firearms Act, 1968 Sec 17(2) (Group I) as amended by the Criminal Justice Act 1972 S28(3).
Possessing firearms or imitation fire arm at time of committing or being arrested for an offence specified in schedule 1 of the Act.
Firearms Act, 1968 Sec 17(2) (Group II) as amended by the Criminal Justice Act 1972 S28(3).

Possessing firearm or imitation firearm at time of committing or being arrested for an offence specified in schedule 1 of the Act.

Firearms Act, 1968 Sec 17(2) (Group III) as amended by the Criminal Justice Act 1972 S28(3).

Possessing firearm or imitation firearm at time of committing or being arrested for an offence specified in schedule 1 of the Act.

Firearms Act, 1968 Sec 18(1) (Group I) as amended by the Criminal Justice Act 1972 S28(3).

Possessing firearm or imitation firearm with intent to commit an indictable offence or resist arrest.

Firearms Act, 1968 Sec 18(1) (Group II) as amended by the Criminal Justice Act 1972 S28(3).

Possessing firearm or imitation firearm with intent to commit an indictable offence or resist arrest.

Firearms Act, 1968 Sec 18(1) (Group III) as amended by the Criminal Justice Act 1972 S28(3).

Possessing firearm or imitation firearm with intent to commit an indictable offence or resist arrest.

Firearms Act 1968 Sec 16A (as amended by Firearms (Amendment) Act 1994) Group I.

Possession of a firearm or imitation firearm with intent to cause fear of violence.

Firearms Act 1968 Sec 16A (as amended by Firearms (Amendment) Act 1994) (Group II).

Possession of a firearm or imitation firearm with intent to cause fear of violence.

Firearms Act 1968 Sec 16A (as amended by Firearms (Amendment) Act 1994) (Group III).

Possession of a firearm or imitation firearm with intent to cause fear of violence.

Firearms Act 1968 (Group I) Sec 1(1),as amended by Criminal Justice and Public Order Act 1994, Sec.157, Sch.8 part III.

Possessing etc firearm or ammunition without firearm certificate.

Firearms Act 1968, Sec 2(1) (Group II) as amended by Criminal Justice and Public Order Act 1994, Sec.157 Sch.8 part III.

Possessing etc shot gun without certificate.

Firearms Act, 1968 Sec 5(1) (Group I) as amended by Criminal Justice Act 2003 S.288.

Possessing or distributing prohibited weapons or ammunition.

Firearms Act, 1968 Sec 19 (Group I) as amended by the Anti-Social Behaviour Act 2003 S.37 (1)(a and c) and (2)

Carrying loaded firearm in public place etc.

Firearms Act, 1968 Sec 19 (Group II) as amended by the Anti-Social Behaviour Act 2003 S.37 (1) (a and c) and (2)

Carrying loaded firearm in public place etc.

Firearms Act, 1968 Sec 21(4) (Group I) as amended by Criminal Justice and Public Order Act 1994, Sec.157 Sch.8 part III.

Possession of firearms by persons previously convicted of crime.

Firearms Act, 1968 Sec 21(4) (Group II) as amended by Criminal Justice and Public Order Act 1994, Sec.157 Sch.8 part III.

Possession of firearms by persons previously convicted of crime.

Firearms Act, 1968 Sec 21(4) (Group III) as amended by Criminal Justice and Public Order Act 1994, Sec.157 Sch.8 part III.

Possession of firearms by persons previously convicted of crime.

Firearms Act 1968 Sec 5(1A)(a) (Group I) as amended by Criminal Justice Act 2003 Sec.288.

Possessing or distributing firearm disguised as other object.

Firearms Act 1968 Sec 5(1A) (b),(c),(d)(e),(f) or (g) as amended by Criminal Justice Act 2003 Sec.288.

Possessing or distributing other prohibited weapons.

Firearms Act, 1968 Sec 19 (Group III).

Carrying loaded firearm in public place etc.

Firearms Act, 1968 Sec 20(1) (Group III).

Trespassing with firearm in a building.

Firearms Act, 1968 Sec 20(2) (Group I).

Trespassing with firearm on land.

Firearms Act, 1968 Sec 20(2) (Group II).

Trespassing with firearm on land.

Firearms Act, 1968 Sec 20(2) (Group III).

Trespassing with firearm on land.

Firearms Act, 1968 Sec 22(1) (Group I).

Person under 17 purchasing or hiring firearm or ammunition.

Firearms Act, 1968 Sec 22(1) (Group II).

Person under 17 purchasing or hiring firearm or ammunition.

Firearms Act, 1968 Sec 22(1) (Group III).

Person under 17 purchasing or hiring firearm or ammunition.

Firearms Act, 1968 Sec 22(2) (Group I).

Person under 14 having firearm or ammunition in his possession.

Firearms Act, 1968 Sec 22(3) (Group II).

Person under 15 having with him a shot gun without adult supervision.

Firearms Act, 1968 Sec 22(4) (Group III).

Person under 14 having with him an air weapon or ammunition.

Firearms Act, 1968 Sec 22(5) (Group III).

Person under 17 having with him an air weapon in a public place.

[4] Some offences will cover those where a firearm or an imitation firearm were possessed. It is not possible to separately identify those that were a firearm from those that were imitation firearms as they are grouped together.

[5] The sentenced column may exceed those found guilty, as it may be the case that a defendant found guilty and committed for sentence at the crown court may be sentenced in the following year.

York	2,280
Total sales	645,405

[1] Information relates to single residential properties sold for their full market value.

Grant Shapps: To ask the Secretary of State for Justice how many properties registered with the Land Registry changed ownership in each of the last three months. [270642]

Mr. Wills: Land Registry is able to provide information on the total number of registered properties sold in the last three months for which data are available. As these figures are extracted using price paid data, no information is available for any properties which have not been sold. The only way to identify other changes of ownership would be to extract data regarding every application over the time period asked for. This could be provided only at disproportionate cost.

	Total sales[1]
2009	
January	25,762
February	24,556
March	13,131

[1] As at 31 March 2009.

Land Registry: Complaints

Mrs. Spelman: To ask the Secretary of State for Justice whether the remit of the Office of the Independent Complaints Reviewer extends to the investigation of complaints relating to errors made by local Land Registry offices. [269970]

Mr. Wills: Complaints concerning a land registration decision made by a Land Registrar are not available for review by the Independent Complaints Reviewer. Such decisions can only be reviewed judicially. Complaints about the way in which decisions were made may be investigated. The Independent Complaints Reviewer can also investigate matters not involving a land registration decision, but usually only when complaints have been through Land Registry's internal complaints procedure.

Political Parties: Finance

Mr. Maude: To ask the Secretary of State for Justice if he will publish revised impact assessments following Government amendments made to the Political Parties and Elections Bill. [270196]

Mr. Wills: Revised impact assessments for the Political Parties and Elections Bill were published alongside introduction to the House of Lords on the 3 March 2009. The latest versions of the impact assessments can be found on the Ministry of Justice website

http://www.justice.gov.uk/publications/political-parties-elections-bill.htm

in the Vote Office, or in the Lords Printed Paper Office.

Mr. Maude: To ask the Secretary of State for Justice when he plans to bring Clause 13 of the Political Parties and Elections Bill into effect. [270214]

Mr. Wills: Clause 13 of the Political Parties and Elections Bill increases the thresholds for recording and reporting donations in the Political Parties, Elections and Referendums Act 2000. It will come into force on a day appointed by order made by statutory instrument. We are considering, in discussion with the Electoral Commission, what the most appropriate timing for commencement might be.

Politics and Government

Mr. Maude: To ask the Secretary of State for Justice which proposals contained in The Governance of Britain, Cm 7170, have yet to be *(a)* commenced and *(b)* fully implemented. [270287]

Mr. Wills: The 'Governance of Britain' Green Paper, published in July 2007 set out a route map for further constitutional reform, to better strengthen the relationship between government, Parliament and the citizen, and to take steps towards a new constitutional settlement that built on the reforms that had been carried out since 1997.

In July 2008 my right hon. Friend the Secretary of State for Justice and Lord Chancellor, made a written ministerial statement that set out the progress that had been made in meeting the objectives of the Governance of Britain programme in the 12 months since publication. The accompanying report, 'Governance of Britain: One year on', set out progress on the key commitments in the Green Paper and was published on the Ministry of Justice website:

http://www.justice.gov.uk/publications/governance-britain-one-year-on.htm

An update to the 'Governance of Britain: One year on' report has been placed in the Libraries of the House.

Prisoners: Religion

David T.C. Davies: To ask the Secretary of State for Justice how many of those detained in *(a)* young offender institutions and *(b)* prisons changed their declaration of religious faith to Muslim in each year since 2003. [269318]

Mr. Hanson: Information on how many prisoners had changed their declared religion to Muslim is not held centrally.

The Prison Service Order on Religion (4550) sets out the process for change of religious affiliation by prisoners, which is managed locally by establishments. A copy of the Prison Service Order is in the Libraries of the House.

Information on population in prison establishments by religion is published annually in Offender Management Caseload Statistics (most recently for 2007), copies of which can be found in the Libraries of the House, and also on the Ministry of Justice website at:

http://www.justice.gov.uk/publications/prisonandprobation.htm

Privacy: Impact Assessments

Mr. Maude: To ask the Secretary of State for Justice what requirements there are on Government Departments to *(a)* notify and *(b)* consult the Information Commissioner in respect of privacy impact assessments. [270139]

Mr. Wills: The report of the Cabinet Secretary's Review of Data Handling Procedures, published in June 2008, mandated that all Government Departments carry out privacy impact assessments when introducing new policies or processes involving the use of personal data. While Government Departments are not required to consult the Information Commissioner in respect of the privacy impact assessments, many choose to do so.

Repossession Orders

Mr. Godsiff: To ask the Secretary of State for Justice how many court orders have been issued for the repossession of homes in Birmingham, Sparkbrook and Small Heath constituency in the last two years for which data is available. [270033]

Bridget Prentice: Figures for Birmingham, Sparkbrook and Small Heath constituency are not available. However, the following table shows the number of mortgage and landlord possession orders made in the Birmingham county court, for 2007 and 2008.

The civil procedure rules state that all claims for the repossession of land must be commenced in the district in which the land is situated. However, geographical boundaries of county courts may not necessarily be consistent with other administrative or constituency boundaries. Repossession orders made at Birmingham county court may therefore relate to properties in other constituencies besides Birmingham, Sparkbrook and Small Heath.

These figures do not indicate how many homes have actually been repossessed. Repossessions can occur without a court order being made while not all court orders result in repossession.

Number of mortgage[1] and landlord[2, 3] possession orders made[4, 5] in Birmingham county court, 2007-08[6]

	Mortgage possession	Landlord possession
2007	3,181	4,074
2008	4,280	4,038
2007-08	20,822	42,136

[1] Includes all types of mortgage lenders.

[2] Includes all types of landlord whether social or private.

[3] Landlord actions include those made under both standard and accelerated procedures. Landlord actions via the accelerated procedure enables the orders to be made solely on the basis of written evidence for shorthold tenancies, when the fixed period of tenancy has come to an end.

[4] The court, following a judicial hearing, may grant an order for possession immediately. This entitles the claimant to apply for a warrant to have the defendant evicted. However, even where a warrant for possession is issued, the parties can still negotiate a compromise to prevent eviction.

[5] Includes outright and suspended orders, the latter being where the court grants the claimant possession but suspends the operation of the order. Provided the defendant complies with the terms of suspension, which usually require the defendant to pay the current mortgage or rent instalments plus some of the accrued arrears, the possession order cannot be enforced.

[6] Figures for the latest year are provisional.

Ministry of Justice

Young Offenders: Reoffenders

Mr. Ruffley: To ask the Secretary of State for Justice pursuant to the answer of 26 February 2009, *Official Report*, column 998W, on young offenders: reoffenders, what the final figures are for the number of *(a)* persistent young offenders and *(b)* offences committed by persistent young offenders in each police force area in 2008. [269783]

Mr. Hanson: Overall statistics on persistent young offenders (PYOs) for England and Wales and each police force area are available from 1997 to 2008.

These figures are designed to measure the speed and efficiency of the youth justice system, through monitoring the pledge to halve the average time from arrest to sentence for dealing with PYOs in England and Wales from 142 days in 1996 to 71 days. They are not designed to measure overall trends in youth crime, and will give a misleading picture of the true trend if used for this purpose.

The table shows the number of PYOs, and the number of offences committed by them after designation, for each police force area in 2008. These figures are now finalised and replace the provisional ones provided before.

On 10 December 2008, my right hon. Friend the Secretary of State for Justice and Lord Chancellor announced in a written ministerial statement that 2008 is the last year for which PYO statistics will be published and compiled, instead, from this year, Local Criminal Justice Boards are being asked to focus on a single priority group of young offenders deemed to pose the highest risk of re-offending and causing serious harm to others, the Deter group.

Number of persistent young offenders (PYOs) and offences committed by PYOs, by police force area, 2008

Police force area	*Number of persistent young offenders*	*Number of offences committed by persistent young offenders*
Avon and Somerset	394	762

LEADER OF THE HOUSE

European Parliament: Allowances

Mr. Gordon Prentice: To ask the Leader of the House whether she made an assessment of the system of daily allowance payments used by the European Parliament before deciding to propose a system of per diem payments for hon. Members. [270834]

Chris Bryant: A range of systems in operation in other Parliaments and Assemblies have been considered.

NORTHERN IRELAND

Bloody Sunday Tribunal of Inquiry: Legal Costs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland pursuant to the answer of 30 March 2009, *Official Report*, columns 851-52W, on the Bloody Sunday Tribunal Inquiry, for what reasons the legal costs for February 2009 differ in comparison with the other months listed. [271028]

Mr. Woodward: I am advised that the legal costs for the Bloody Sunday Inquiry in the month of February 2009 were higher than in previous months due to the payment of various outstanding legal fees.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Northern Ireland what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269543]

Paul Goggins: Currently such information is not available. However, the Northern Ireland Office is undertaking work, in line with its Green ICT Strategy, to establish its baseline for the energy consumed, its cost and emissions by ICT equipment. Initially, attention has been focused on server rooms, and monitoring equipment is being installed to measure energy consumption from which other information can be derived. As the Northern Ireland Office does not have separate electrical circuits for ICT equipment in offices, the measurement of energy consumption will be based on using a 'ready reckoner' across the Department and the information extrapolated. The Northern Ireland Office has no historical information on the energy consumed, its cost or CO_2 emissions in each of the last five years.

Jenny Willott: To ask the Secretary of State for Northern Ireland what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269565]

Paul Goggins: The Northern Ireland Office has a Green ICT Strategy in place, derived from the Cabinet Office 'Greening Government ICT' strategy. The Northern Ireland Office Board is committed to implementing the strategy's 51 recommendations, where practicable. To date, 29 recommendations have already been addressed or are under active consideration, including a commitment that new ICT equipment will comply with at least one of the green energy standards. This is now incorporated into all centralised procurement framework agreements.

Jenny Willott: To ask the Secretary of State for Northern Ireland what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269593]

Paul Goggins: Figures are only available for the financial year 2008-09 in which the average server utilisation in the Northern Ireland Office was 12 per cent. This is the sort of level to be expected from the current system and it is a limitation of the design/technology available when it was implemented in 2004. The equipment is still in use since the Northern Ireland Office has sought to extend the lifecycle as recommended in the Cabinet Office Greening ICT strategy. However, the Department has also been testing new replacement technologies known collectively as 'virtualisation', and future refreshes of our internal network will implement this new technology to achieve the recommended 50 per cent. server utilisation.

Jenny Willott: To ask the Secretary of State for Northern Ireland how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269636]

Paul Goggins: The following table provides details of the IT products purchased by the Northern Ireland Office in the financial year 2008-09 and indicates the proportion compliant with the Government's Buy Sustainable-Quick Win standard. These figures relate to the core Department only.

IT products	*Number purchased*	*Proportion compliant with standard (percentage)*
Personal Computers	70	90
Printers	14	90
Laptops	20	100
Servers	18	[1]—

[1] The current vendor has not yet been assessed against the standard.

Revenue and Customs: Londonderry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many pension credit applications submitted to HM Revenue and Customs in Londonderry are logged as lost or misplaced. [270061]

Paul Goggins: My Department does not hold this information, which is the responsibility of the Social Security Agency of the Department of Social Development in Northern Ireland.

Weapons

Mr. Bone: To ask the Secretary of State for Northern Ireland what recent discussions he has had with the Independent International Commission on Decommissioning on the decommissioning of paramilitary weapons; and if he will make a statement. [269714]

Paul Goggins: We are in regular contact with the Independent International Commission on Decommissioning (IICD). The IICD is confident that they are making meaningful progress toward the decommissioning of loyalist weapons and will report again in August.

OLYMPICS

Olympic Games 2012: Construction

Tom Brake: To ask the Minister for the Olympics how many people have undertaken training to NVQ skills level *(a)* one and *(b)* two as part of the construction project on the Olympic Park. [259331]

Tessa Jowell: Through the London Development Agency's Local Employment and Training Framework (LETF), delivered by the five Olympic host boroughs in partnership with the Olympic Delivery Authority, 3,446 local residents have been given Olympic-related skills training. This has included direct construction training such as plant, civils, rail and steelwork, as well as preliminary construction-related training such as site security. Training provision is based on specific forecasted demand for the skills requirements of the Olympic Park and Village and other local construction projects such as the Stratford City development and the East London Line Extension project.

The LDA uses three main training categories; Skills Basic, Skills Other and Skills Level 2. Skills Basic is equivalent to literacy, numeracy or ESOL at Entry Level 3 and above; Skills Level 2 is broadly equivalent to NVQ Level 2; Skills Other is formed of training between Skills Basic and Level 2, and this qualification has been specifically designed for use by the five host boroughs to deliver a range of short entry level courses based on the expressed requirements of employers.

For the year 2008-09, by the end of quarter 3 there had been 1,458 Skills Other trainees and 147 Skills Level 2 trainees. Of these, 665 trainees, all of who were previously unemployed, had already moved into new jobs. Activity has continued into January, February and March, and the next LETF update to cover the full year will be available on 1 May 2009. The numbers receiving training during 2007-08 were 1,749 Skills Other and 65 Level 2, and for 2006-07 (commencing late autumn) the numbers receiving training were 764 Skills Other, but no Level 2s.

PRIME MINISTER

Ministers' Interests

Mr. Maude: To ask the Prime Minister pursuant to the written ministerial statement of 12 March 2009, *Official Report*, column 28WS, on list of Ministers' interests, if he will place in the Library a copy of the Cabinet Secretary's guidance on blind trusts. [270213]

Norman Baker: To ask the Prime Minister (1) if he will direct all Ministers who hold assets in blind trusts to name *(a)* the executors of those trusts and *(b)* the monetary value of the assets transferred to the trust at the time of their appointment; [270876]

(2) if he will make it his policy that blind trusts operated on behalf of Ministers shall be managed by the Public Trustee. [270998]

The Prime Minister: The Ministerial Code sets out the processes for handling Ministers' financial interests.

Queen Elizabeth II: Anniversaries

Bob Russell: To ask the Prime Minister what plans he has for the commemoration of the 60th anniversary of the accession to the throne of Her Majesty the Queen; and if he will make a statement. [271058]

The Prime Minister: The Government are in discussions with the Royal Household as to how to mark the Diamond Jubilee of Her Majesty the Queen in 2012.

PUBLIC ACCOUNTS COMMISSION

Government Departments: Accountancy

Mr. Maude: To ask the Chairman of the Public Accounts Commission with reference to paragraph 5.5 of the Ministerial Code, on how many occasions since May 1997 departmental accounting officers have written to the Comptroller and Auditor General following a written instruction from a Minister to take an action which the Accounting Officer considered would breach the requirements of propriety or regularity. [269928]

Mr. Alan Williams: Paragraph 5.5 of the Ministerial Code refers to ministerial directions, which may arise in respect of Accounting Officers' concerns about propriety, regularity or value for money. The Comptroller and Auditor General has confirmed that there have been nine directions in relation to propriety and regularity notified to him since May 1997, as set out in the following table:

	Department	*Subject of direction*
1998	Northern Ireland Court Service	Concerns an individual's personnel records
1998	MOD	Sale of cadet property in Moffat
1998	DSS	Benefits Integrity Project
1999	DSS	Benefits Integrity Project
1999	DSS	Benefits Integrity Project
2000	MOD	Use of public funds to provide financial assistance to meet cost of air flight to Croatia for member of public to attend trial of those accused of murder of his son, a British serviceman
2001	Department of Trade and Industry (DTI)	Regional Selective Assistance (RSA)
2006	MOD	Armed Forces Memorial
2009	BERR	Icelandic Water Trawlermen Scheme

SCOTLAND

Departmental Energy

Greg Clark: To ask the Secretary of State for Scotland what recent progress his Department has made towards the target of increasing its energy efficiency per square metre of its Estate by 15 per cent. by 2010, relative to 1999-2000 levels; and if he will make a statement. [266872]

Ann McKechin: The Scotland Office is part of the Ministry of Justice. The Ministry of Justice's energy use is included in the Sustainable Development in Government (SDiG) returns which are published by the Sustainable Development Commission.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Scotland what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269544]

Ann McKechin: The Scotland Office has not made separate estimates of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of the Department in each of the last five years. The Scotland Office shares an information and communications technology system (SCOTS) with the Scottish Government which is responsible for the development, administration, and maintenance of the system including the provision of hardware. The Scottish Government are complying with the same standards as those set out in the Greening Government ICT Strategy.

Jenny Willott: To ask the Secretary of State for Scotland what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269566]

Ann McKechin: The Scotland Office shares an information and communications technology system (SCOTS) with the Scottish Government which is responsible for the development, administration, and maintenance of the system including the provision of hardware. The Scottish Government are complying with the same standards as those set out in the Greening Government ICT Strategy.

Jenny Willott: To ask the Secretary of State for Scotland what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269592]

Ann McKechin: The Scotland Office shares an information and communications technology system (SCOTS) with the Scottish Executive which is responsible for the development, administration, and maintenance of the system including the provision of hardware. As part of the SCOTS Technology Refresh Project the MS Exchange/Outlook mailbox servers are being consolidated into a new central Data Centre at the end of April 2009. For 2008 the overall average server capacity utilisation was 77 per cent.

Jenny Willott: To ask the Secretary of State for Scotland how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269600]

Ann McKechin: The Scotland Office shares an information and communications technology system (SCOTS) with the Scottish Executive which is responsible for the development, administration, and maintenance of the system including the provision of hardware. The Scottish Executive is complying with the same standards as those set out in the Greening Government ICT Strategy.

The Office has a total of 55 printers, of which 25 (45 per cent.) are enabled for double sided printing. As and when printers in the Office reach the end of their life or they become economically unviable to repair they will be replaced by duplex printers. The Office does not have any multi-function devices.

Jenny Willott: To ask the Secretary of State for Scotland how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269637]

Ann McKechin: The Scotland Office shares an information and communications technology system (SCOTS) with the Scottish Executive which is responsible for the development, administration, and maintenance of the system including the provision of hardware. The Scottish Executive is complying with the same standards as those set out in the Greening Government ICT Strategy.

All "Office Machinery" items that are supplied—PC, Monitor, Laptop, Laser Printers and MFDs all meet the best practice Government Buy Sustainable-Quick Win standard.

SOLICITOR-GENERAL

Corruption

Mr. Djanogly: To ask the Solicitor-General which authorities have powers to bring prosecutions for offences related to bribery. [270056]

The Solicitor-General: There is a common law offence of bribery which can be prosecuted by any of the relevant prosecuting authorities. In practice, prosecutions for bribery in England and Wales are brought by one or other of these prosecuting authorities under the Public Bodies Corrupt Practices Act 1889 or the Prevention of Corruption Act 1906 with the consent of the Attorney-General.

The Crown Prosecution Service is responsible for prosecuting offences investigated by the police in England and Wales. The Serious Fraud Office is responsible for investigating and prosecuting cases relating to serious or complex fraud in England, Wales and Northern Ireland, which includes offences of domestic and overseas bribery.

However, under the law of England and Wales there remains a general power to bring a private prosecution for any offence, subject to any specific statutory provision to the contrary. This means that it would in theory be possible for another authority to bring a prosecution for bribery, if the offence related to the authority's discharge of its public functions and the necessary consent of the Attorney-General had been obtained.

TRANSPORT

British Airways

Mr. Amess: To ask the Secretary of State for Transport how many former senior officials from his Department have been employed by British Airways upon leaving the Department in each of the last 10 years; and if he will make a statement. [269841]

Mr. Hoon: The Department does not maintain a central record of where senior officials go to work when they leave the Department. All senior officials leaving the Department are reminded of their obligation under the Business Appointment Rules to seek permission before accepting an outside appointment within two years of leaving Crown Service.

Driving: Licensing

Mr. Maude: To ask the Secretary of State for Transport how many photo card driving licences issued since 1998, where the driver is still alive and eligible to drive, have not been renewed upon expiration. [269916]

Jim Fitzpatrick: The requirement to renew a photograph on a driving licence became operational in July 2008. As of 2 April 2009, the Driver and Vehicle Licensing Agency have issued reminders to 295,441 drivers' whose photographs have now expired, of whom 66,258 have not, as yet, renewed them.

Dunsfold Aerodrome

Anne Milton: To ask the Secretary of State for Transport what *(a)* controls and *(b)* restrictions apply to flights from the Dunsfold Aerodrome site in Surrey. [270050]

Jim Fitzpatrick: Controls and restrictions on the operation of Dunsfold airfield are matters for the local planning authority and the airfield operator.

Heathrow Airport

Mr. Amess: To ask the Secretary of State for Transport what guidance his Department *(a)* has issued during the last two years and *(b)* plans to issue within the next year on security at Heathrow Airport; and if he will make a statement. [269843]

Jim Fitzpatrick: Security guidance is issued to the aviation industry in the UK as a whole, and is revised and updated as necessary to reflect the changing nature of the threat.

Mr. Amess: To ask the Secretary of State for Transport what recent reports he has received on the effectiveness of the operation of Heathrow Terminal 5; what recent discussions he has had with British Airways on the issue; and if he will make a statement. [269844]

Jim Fitzpatrick: My right hon. Friend has not had any recent discussions with British Airways on this issue.

BAA provides information on performance at Heathrow against service quality targets set by the Civil Aviation Authority. The most recent report for Terminal 5 stated that in March 2009 BAA met or exceeded the majority of its targets, reducing the length of waiting at security search such that queue times were less than five minutes for over 96 per cent. of the time.

Mr. Gray: To ask the Secretary of State for Transport (1) whether consideration was given to civilian use of RAF Northolt as an alternative to a third runway at Heathrow airport; [270393]

(2) what recent discussions he has had with the Secretary of State for Defence on the expansion of Heathrow airport. [270394]

Jim Fitzpatrick: The 2003 "Future of Air Transport" White Paper considered options for using RAF Northolt as a satellite runway of Heathrow, but rejected this in favour of other development options, including adding a third runway at Heathrow. The proposals in the "Adding Capacity at Heathrow Airport" consultation document (November 2007), which explicitly acknowledged the potential implications for RAF Northolt, were drawn up in consultation with the Ministry of Defence, and my right hon. Friend the Secretary of State for Defence was similarly consulted prior to the Heathrow decisions announced to Parliament on 15 January.

Motor Vehicles: Registration

Margaret Moran: To ask the Secretary of State for Transport what estimate he has made of the number of vehicles from EU accession states on the road in the UK which have no tax or motor insurance; what steps he is taking to ensure that such vehicles are on the road legally; and if he will make a statement. [271490]

Jim Fitzpatrick: Foreign registered vehicles temporarily brought into the UK by overseas residents are usually exempt from UK registration and licensing under the Motor Vehicles (International Circulation) Order 1975. The exemptions state that a vehicle which is properly registered and taxed in its home country may be used by a visitor for up to six months in any 12 without being subject to domestic registration and licensing. Data relating to the total number of vehicles entering the UK from EU accession states are not collected.

Roads: Accidents

Annette Brooke: To ask the Secretary of State for Transport what discussions his Department has had with representatives of *(a)* Dorset county council and *(b)* each other county council on progress towards meeting road accident reduction targets for 2010 in respect of (i) adults and (ii) children killed and seriously injured. [271033]

Jim Fitzpatrick: In-depth local discussions take place between local authorities, including Dorset county council, and regional Government office officials as part of their ongoing bilateral discussions on Local Area Agreements and progress against authorities' Local Transport Plans (LTP).

As part of the Department for Transport's process for reviewing Local Transport Plan progress, all LTP areas recently produced Local Transport Plan Progress Reports at the end of 2008, covering the period 2006-08. Local authorities met with their Government office to discuss their progress and identify future challenges. Progress reviews focus on what has been achieved across the key themes, such as road safety, which is one of the four LTP shared priorities. Letters relating to progress, including for the two LTPs that Dorset county council are involved in, are published on the Department's website:

http://www.dft.gov.uk/pgr/reqional/ltp/ltp2/

The Department has a number of projects and activities that seek to support local highway authorities and their partners to address local road safety issues to assist in meeting casualty reduction targets for 2010. As part of these, discussions have taken place with Dorset county council and a very large number of other local authorities.

Speed Limits: Cameras

Bob Spink: To ask the Secretary of State for Transport if he will investigate the effects of the signage of average speed check cameras on the A127 between Basildon and Southend on *(a)* the number of speeding offences on the road, *(b)* the number of cars using the road and *(c)* road user awareness of the cameras. [271234]

Jim Fitzpatrick: The Department has no plans to investigate the effects of the signage of average speed cameras on the A127 as signing is entirely the responsibility of the local traffic authority. Evidence shows that average speed cameras have major casualty reduction benefits. The Department will work to promote good evaluation of the latest generation of these cameras and share the results with road safety stakeholders.

TREASURY

Bank Notes

Michael Fabricant: To ask the Chancellor of the Exchequer if he will replace the £1 coin with a £1 note; and what assessment he has made of the effectiveness of using a long-life plastic money note. [270081]

Ian Pearson: The Bank of England has no plans to reintroduce the £1 note.

In 1984, when the £1 paper note was replaced with a coin, the average life of £1 notes was nine months. While there is evidence that polymer notes last longer than paper notes, the cost of production would be greater and there would likely be switching costs incurred across the economy.

Bank Services

Danny Alexander: To ask the Chancellor of the Exchequer if he will take steps to enforce compliance by banks and building societies with regulations to treat customers fairly in respect of differential interest rates for new and existing individual savings account holders. [270000]

Ian Pearson: The matters raised in this question are the responsibility of the Financial Services Authority (FSA), whose day to day operations are independent from Government control and influence. I have asked the FSA to write to the hon. Member.

Civil Servants: Pensions

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 3 March 2009, *Official Report*, columns 1447-8W, on civil servants: pensions, how many individuals have pension funds invested in *(a)* Standard Life and *(b)* Scottish Widows with-profit funds according to records held by the Financial Services Authority. [269941]

Ian Pearson: The matter raised in this question is the responsibility of the Financial Services Authority, whose day-to-day operations are independent from Government control and influence. I have asked the FSA to write to the hon. Member.

Departmental Assets

Bob Spink: To ask the Chancellor of the Exchequer when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269854]

Ian Pearson: The Treasury Group published its Asset Management strategy for the Comprehensive Spending Review period in December 2007. It keeps its property holdings under continuous review in order to respond to changing departmental accommodation requirements. As a result, a small area of some of 574 square metres of surplus space in the Leeds office is currently being marketed actively. In addition, HM Treasury is currently undertaking a feasibility study into further efficiencies in building use in central London.

Departmental Consultants

Dr. Cable: To ask the Chancellor of the Exchequer how many consultants were employed by his Department and its agencies in 2008-09; how much was spent on them; and if he will make a statement. [270022]

Angela Eagle: Details of spending on consultants for the Treasury, Debt Management Office and the Office of Government Commerce for 2008-09 will be shown in the Treasury's Annual Report and Accounts 2008-09, due for publication in the summer, following the audit by the Comptroller and Auditor General. The Treasury does not hold a central record of the number of consultants employed and the information could be provided only at disproportionate cost.

Departmental Secondment

Dr. Cable: To ask the Chancellor of the Exchequer how many members of staff from his Department and its agencies were seconded to *(a)* other Government Departments and *(b)* external organisations in 2008-09; and if he will make a statement. [270021]

Angela Eagle: The following table shows the number of members of staff from HM Treasury and its agencies who undertook a secondment between 1 April 2008 and 31 March 2009 in other Government Departments and external organisations.

	Number of staff	
	Secondees to other Departments	*Secondees to external organisations*
HM Treasury	5	15
Office of Government Commerce	2	2
UK Debt Management Office	0	0

Departmental Sick Leave

Dr. Cable: To ask the Chancellor of the Exchequer how many staff days were lost as a result of sick leave from his Department in each of the last five financial years; and if he will make a statement. [270019]

Ian Pearson: Sickness absence data for all central Government Departments since 2003 to 2007 have been published annually by the Cabinet Office at:

http://beta.civilservice.gov.uk/about/who/statistics/sickness.aspx

This represents a four year period with the fourth year being for the financial year 1 April 2006 to 31 March 2007.

From 1 April 2007 arrangements changed and it became the responsibility of Departments to produce sickness data and the Cabinet Office has published a combined departmental quarterly report. This is available on:

http://www.cabinetoffice.gov.uk/reports/absence.aspx

In respect of the fifth financial year in question, 2007-08, 5,507 sickness days in respect of HMT were included within the Cabinet Office figures for the four quarters within the financial year, representing an average of 4.7 days sickness absence for each employee.

Economic and Monetary Union

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1183W, on economic and monetary union, who the designated Euro-Minister is in each Department; and on what date each acquired the Euro brief. [269934]

Ian Pearson: The designated Euro Minister for each Department and the year they were appointed is stated in the following table:

Department	*Minister*
HM Treasury	Ian Pearson (2008)
Ministry of Defence (MOD)	Bob Ainsworth (2007)
Department for Business, Enterprise and Regulation Reform (BERR)	Gareth Thomas (2008)
Northern Ireland Office	Paul Goggins (2007)
National Assembly for Wales	Rhodri Morgan (2001)

Department	*Minister*
Department for Environment, Food and Rural Affairs (DEFRA)	Jane Kennedy(2008)
Department for Work and Pension (DWP)	Jonathan Shaw (2008)
Department for Children, Schools and Families	Sarah McCarthy-Fry (2008)
Department of Health (DOH)	Dawn Primarolo (2007)
Scotland Office	Ann McKechin (2008)
Cabinet Office	Tom Watson (2008)
Department for Transport (DFT)	Geoff Hoon (2008)
Home Office	Phil Woolas (2008)
Department for Communities and Local Government (DCLG)	John Healey (2008)
Foreign and Commonwealth Office (FCO)	Caroline Flint (2008)
Ministry of Justice	Lord Bach (2008)
Wales Office	Wayne David (2008)

Financial Services: Fraud

Mr. Maude: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the guidance issued by the Financial Services Authority on anti-money laundering and politically exposed persons. [269940]

Ian Pearson: The Financial Services Authority (FSA) does not issue detailed anti-money laundering guidance.

The Joint Money Laundering Steering Group (JMLSG), a consortium of financial services industry bodies, produces guidance for financial sector businesses in the UK. Their latest guidance was approved by the Chancellor of the Exchequer in December 2007. The JMLSG guidance includes material on terrorist financing and money laundering, including the risks presented by politically exposed persons, and recommends best practice in managing those risks.

This guidance is available from their website at:

www.jmlsg.org.uk

When undertaking their statutory duty to supervise financial sector firms compliance with the Money Laundering Regulations 2007, the FSA will have regard to whether firms have taken the JMLSG guidance into account.

Government Departments: Aviation

Mr. Maude: To ask the Chancellor of the Exchequer what estimate has been made of the expenditure on air travel procured under the OGC Buying Solutions Government Air Programme in each of the next three years. [269933]

Angela Eagle: The estimate for Government Air Programme spend over each of the next three years is £69.6 million per annum.

Government Departments: Consultants

Mr. Maude: To ask the Chancellor of the Exchequer how much the Office of Government Commerce has recorded as being spent on consultants by central Government in the most recent year for which figures are available. [269942]

Ian Pearson: Consultancy spend by the 16 largest spending central Government Departments for 2007-08, the most recent year available, has been published by the Office of Government Commerce. Details can be found using the following link:

http://www.ogc.gov.uk/professional_services_consultancy_value_programme.asp

Inheritance Tax

Nadine Dorries: To ask the Chancellor of the Exchequer how many people in *(a)* Mid Bedfordshire constituency and *(b)* the UK have contacted the Debt Management and Banking Department of HM Revenue and Customs in response to demands for inheritance tax since 1997. [270276]

Mr. Timms: The information requested is not centrally collated and could be provided only at disproportionate cost.

Members: Correspondence

Sir Michael Spicer: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 23 February 2009, *Official Report*, columns 321-2W, on Members: correspondence, when he plans to reply to the letter of 29 December 2008 from the hon. Member for West Worcestershire on licensing of banks for Financial Services Authority compensation scheme regulations (PO reference: 1/65525/2009); [270852]

(2) pursuant to the answer of 9 February 2009, *Official Report*, column 1625W, on Members: correspondence, when he plans to reply to the letter from the hon. Member for West Worcestershire of 6 November 2008 on charities, (PO reference: 1/62894/2008). [270908]

Ian Pearson: Replies have been sent to the hon. Member.

Parliamentary Questions: Costs

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1187W, on parliamentary questions, what the disproportionate cost threshold has been in each year since 1997. [269935]

Ian Pearson: At 1 January 1997 the disproportionate cost threshold (DCT) stood at £450, it has since increased as follows:

	£
21 July 1997	500
15 May 2000	550
11 April 2002	600
15 November 2006	700
3 December 2008	750

PAYE

Mr. Maude: To ask the Chancellor of the Exchequer if he will place in the Library a copy of the most recent notification sent by HM Revenue and Customs to the Information Commissioner on pay as you earn coding notices being issued to the wrong people. [269939]

Mr. Timms: Details of data related incidents reported by HM Revenue and Customs to the Information Commissioner will be included in the Departmental Resource Accounts in July 2009.

Mr. Maude: To ask the Chancellor of the Exchequer what estimate he has made of the number of pay as you earn coding notices issued to the wrong individual as a result of errors in HM Revenue and Customs' print and post processes in the last 12 months. [269943]

Mr. Timms: HM Revenue and Customs issued approximately 22 million coding notices to individuals and their agents in the tax year 2008-09. Over the last 12 months it estimates that approximately 1,400 notices were issued incorrectly through print and post errors.

Public Bodies: Annual Reports

Mr. Maude: To ask the Chancellor of the Exchequer if he will make it his policy for the Cabinet Office to publish details of annual public expenditure on the part of executive agencies, non-departmental public bodies and other central government bodies. [269951]

Ian Pearson: Executive agencies, executive non-departmental public bodies, and, where relevant, other central Government bodies individually publish details of their expenditure in their annual financial accounts. The accounts of executive agencies are also consolidated into their parent Department's resource accounts, also published annually and laid in the House. Whole of Government Accounts, that will consolidate the accounts of all bodies classified to the public sector, will be produced and published for the first time for financial year 2009-10.

Public Sector: Hospitality

Mr. Maude: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1187W, on public sector: hospitality, how many bookings for stays at five star or above hotels were made through the Expotel contract by his Department in the last year for which figures are available. [269937]

Angela Eagle: Total cost for HM Treasury in the period 20 April 2008 to 19 April 2009.

	Number of trips	*Number of nights stayed*	*Total cost (£)*
Customer			
H M Treasury	3	6	500.00

Tax Avoidance

Mr. Meacher: To ask the Chancellor of the Exchequer if he will bring forward legislative proposals to *(a)* make the design and promotion of schemes intended primarily as a vehicle for tax avoidance illegal and *(b)* establish penalties for those involved in the design and promotion of such schemes. [270774]

Ian Pearson: Tax evasion is unlawful. It is unlawful for any person to assist in or induce the preparation or delivery of any information, return or accounts or other documents he knows will be, or are likely to be, used for any purpose of tax and which he knows to be incorrect.

Tax Collection

Dr. Cable: To ask the Chancellor of the Exchequer how many statements HM Revenue and Customs (HMRC) sent out in the tax year 2008-09 for an amount of tax owed by either HMRC or a taxpayer rolled over to the next tax year of between *(a)* £0.01 and £5.00, *(b)* £5.01 and £10.00, *(c)* £10.01 and £15.00, *(d)* £15.01 and £20.00 and *(e)* £20.01 and £25.00; and if he will make a statement. [270282]

Ian Pearson: HM Revenue and Customs does not have this information.

Tax Evasion

Mr. Meacher: To ask the Chancellor of the Exchequer if he will bring forward legislative proposals for a general anti-tax evasion provision. [270773]

Ian Pearson: Tax evasion is unlawful and those evading taxes are already subject to penalties of up to 100 per cent. of the tax evaded.

Taxation: Motor Vehicles

Mr. Gauke: To ask the Chancellor of the Exchequer what assessment he has made of the financial implications for car dealerships in 2009-10 of changes to the taxation treatment of demonstrator motor vehicles introduced with effect from 6 April 2009. [270828]

Angela Eagle: This change was implemented, following consultation with the motor industry, in such a way that it should not cost the industry any extra overall.

Taxation: Transport

Gordon Banks: To ask the Chancellor of the Exchequer what the total revenue from transport-related taxes, including from value added tax in respect of a transport-related commodity or action, was in the last 12 months for which figures are available. [271051]

Angela Eagle: Figures on fuel duty, vehicle excise duty and air passenger duty are published in Table C6 of Budget 2009, available at:

www.hm-treasury.gov.uk

Figures on company car tax and income tax and national insurance contributions on the assessed benefit of company fuel (fuel benefit charge) are available at:

www.hmrc.gov.uk/stats

The figures exclude VAT as HM Revenue and Customs does not collect data on VAT from individual goods and services.

UK Financial Investments

Dr. Cable: To ask the Chancellor of the Exchequer whether UK Financial Investments will publish an annual report and accounts for 2008-09; and if he will make a statement. [270020]

Ian Pearson: As the Framework Document between UK Financial Investments (UKFI) and the Treasury sets out, UKFI's annual report and audited accounts will be laid before Parliament.

The Framework Document is available at UKFI's website:

http://www.ukfi.gov.uk/

William Dyer Electrical: Taxation

Janet Anderson: To ask the Chancellor of the Exchequer if he will direct HM Revenue and Customs urgently to refund the sum of £67,000 due to William Dyer Electrical Ltd. of Haslingden, Rossendale. [270953]

Ian Pearson: HMRC are not in a position to provide such information about individual businesses; to do so would breach taxpayer confidentiality.

Written Answers to Questions

Monday 27 April 2009

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine Tuberculosis

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 25 March 2009, *Official Report*, columns 377-9W, on bovine tuberculosis, in how many *(a)* counties and *(b)* parishes in England bovine tuberculosis had not been confirmed in the preceding four years in (i) 1997 and (ii) 2008. [269321]

Jane Kennedy: Total numbers are as follows:

(a)(i) Counties[1] in England where bovine tuberculosis had not been confirmed 1994-97: 14.

(a)(ii)Counties[1] in England where bovine tuberculosis had not been confirmed 2005-08: six.

(b)(i) Number of parishes in England without a confirmed bovine TB incident 1994-97: 10,199.

(b)(ii) Number of parishes in England without a confirmed bovine TB incident 2005-08: 8,670.

[1] Counties as recorded on the Animal Health Vetnet system.

Source:

Data for these answers have been drawn from the Animal Health Vetnet system, the TB in Cattle System and the Veterinary Laboratories Agency's TB Culture System.

Departmental Computers

Mr. Hoban: To ask the Secretary of State for Environment, Food and Rural Affairs how many laptop computers have been provided to *(a)* Ministers, *(b)* special advisers and *(c)* civil servants in his Department in each year since 2005; and at what cost. [268279]

Huw Irranca-Davies: DEFRA outsourced IT provision to IBM in 2004, where the Department pays a service charge for provision and maintenance of desktop systems based on a usage model, i.e. we are charged for the number of laptops used on the estate each month as staff numbers change. DEFRA monitors the consumption of services rather the stock holding of laptops. Service consumption is managed in accordance with a device policy that limits users to a single laptop by default. Exceptions to the single device policy will include kit available for hot desks, training rooms, special needs/power users.

We are unable to provide a breakdown of past usage as this would require a manual trawl of historical data that would incur disproportionate cost. We have provided the usage figures for March 2009 for the core-Department for information:

(a) Ministers: two;

(b) Special advisers: two

(c) Civil servants: 3,301[1]

DEFRA cannot provide information on the costs associated with IBM's laptop services, as this would put the Department in breach of its confidentiality undertakings to IBM.

[1] On the assumption that civil servants equates to end users—i.e. both civil servants and contractors working within the Department.

Departmental Personnel

Mr. Maude: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 29 September 2008, *Official Report*, column 2413W, on departmental personnel, how many staff without posts there are in *(a)* his Department and *(b)* its agencies; how many of the staff without posts were classified as such upon return from maternity leave; and how many of the staff without posts have been classified as such for at least (i) six and (ii) 12 months. [250040]

Huw Irranca-Davies: The number of people in the Department and our agencies without posts has reduced significantly since our answer of 29 September 2008 from 89 to six. Five of these staff are in core DEFRA and one is in the Animal Health Agency.

With regard to these six that remain without posts:

(a) None of the people were classified as being without posts as a result of returning from maternity leave.

(b) (i) None have been classified as such less than 12 months; (ii) six have been classified as such for at least 12 months.

All of these individuals are actively undertaking job search opportunities, have been offered outplacement support and, where possible, have been undertaking short-term assignments.

We are, in the near future, expecting this total of six without posts to reduce further still. This is due either as a result of the individuals being successful in finding a new role within the civil service or, where this proves not possible, moving towards redundancy.

Departmental Public Expenditure

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 March 2009, *Official Report*, columns 826-7W, on economic situation, what expenditure under what budgetary heading *(a)* his Department incurred in relation to its internal conference for members of the senior Civil Service held in October 2008 and *(b)* follow up workshops expenditure. [268172]

Huw Irranca-Davies: The cost of the senior civil service conference in October 2008 was £16,064.76. £6,687.11 was spent on venue hire and catering and £9,377.65 was spent on facilitation of the event.

There were no costs incurred for the following workshops.

Domestic Waste: Fixed Penalties

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs when information on the number of fixed penalty notices issued for household waste receptacle offences in 2007-08 will be published. [270129]

Jane Kennedy: Figures for fixed penalty notices (FPNs) for waste receptacle offences in 2007-08 are not yet available.

We expect to publish figures on FPNs issued for these and other environmental crimes for the years 2007-08 and 2008-09 on the DEFRA website in June 2009.

Domestic Waste: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department's research project WR0105 "Project REDUCE monitoring and evaluation—developing tools to measure waste prevention" has been completed; and what funding the EU INTERREG programme provided for the project. [269891]

Jane Kennedy: Output from the project (WR0105) "Project REDUCE Monitoring and Evaluation: Developing Tools to Measure Waste Prevention" has been incorporated into the review study referred to in the response to the hon. Member for Peterborough (Mr. Jackson) on 14 October 2008, *Official Report*, column 1050W, on Domestic Waste: Waste Disposal, and will be published at the same time, later in 2009.

No funding from the EU Interreg programme was provided for the project.

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities are participating in the research project, "Understanding waste growth at local authority level" WR0121; and what budget his Department has set for the programme. [269974]

Jane Kennedy: The local authorities providing case study information for "Understanding waste growth at local authority level" (WR0121) are:

Ribble Valley Borough Council,
East Riding of Yorkshire Council,
Hambleton District Council,
Broadland District Council,
Hart District Council,
London Borough of Islington,
South Norfolk District Council,
Hyndburn Borough Council,
Mole Valley District Council,
Milton Keynes Council,
Basildon District Council,
Gateshead Metropolitan Borough Council,
Wakefield Council,
Sandwell MBC,
London Borough of Sutton,
Birmingham City Council,
Tonbridge and Mailing Borough Council,
Somerset County Council,
Stirling Council,
Cardiff City Council,
Powys County Council,
Derby City Council,
Rother District Council,
Rhondda Cynon Taf,
Flintshire County Council,
Belfast City Council,
Down District Council; and
West Dunbartonshire Council.

The budget for this project is £90,585 in total (£85,585 from DEFRA and £5,000 from the Welsh Assembly Government).

Fisheries: Western Sahara

Joan Walley: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department has issued to the fishing fleet on the status of *(a)* Western Sahara and *(b)* waters off Western Sahara; and if he will make a statement. [268190]

Huw Irranca-Davies: DEFRA has not issued any information to the UK fishing fleet operating in Morocco about the status of Western Sahara or waters off Western Sahara. UK vessels that fish in these waters do so under the provisions of the EU/Morocco Fisheries Partnership Agreement, and are advised to ensure compliance at all times.

Fruit

Mr. Soames: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the *(a)* quantity and *(b)* monetary value of soft fruit produced in England in each of the last 10 years. [270644]

Jane Kennedy: Data are available for England and Wales combined rather than just for England, but since the majority of the soft fruit is grown in England these figures will largely reflect soft fruit grown in England. The estimates for quantity and value are presented in the following table. Figures for 2008 are provisional. Quantity information is in thousand tonnes and the value of production is in £ million.

Production of soft fruit in England and Wales, 1998 to 2008

	Soft fruit value (£ million)	Volume (Thousand tonnes)
1998	109.6	48.7
1999	122.5	56.6
2000	112.8	51.0
2001	101.2	50.5
2002	121.2	54.9
2003	137.7	63.8
2004	133.3	69.4
2005	180.1	83.3
2006	184.6	88.7
2007	228.8	102.8
2008 (provisional)	282.9	115.2

Incinerators

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what his Department's policy on the incineration of household waste in municipal incinerators is. [269887]

Jane Kennedy: The Government believe that household waste should, where possible, be minimised and then reused, recycled or composted. Waste remaining after these processes is termed residual waste; the Government are committed to maximising energy recovered from residual waste.

Recovering energy from residual waste avoids the methane emissions arising from sending it to landfill. It also generates energy, which can offset power sourced from fossil fuel.

DEFRA has not generally expressed a preference for one technology over another, with the exception of anaerobic digestion, for treating food waste. Any given technology is more beneficial if both heat and electricity can be recovered. The technology choice needs to reflect local circumstances, which will vary, but we expect greenhouse gas emissions to be a key consideration for those developing waste to energy plants.

Noise: Airports

Sir John Stanley: To ask the Secretary of State for Environment, Food and Rural Affairs when he expects the final guidance to airport operators on preparing noise action plans in accordance with the European environmental noise directive to be published. [270363]

Huw Irranca-Davies: *[holding answer 23 April 2009]:* DEFRA consulted on Guidance for Airport Operators on noise action plans in September 2008. The consultation period finished at the end of November and the responses received were evaluated. After making some amendments the final version of the guidance was published in March and copies have been placed in the Library of the House.

Parish Councils

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which parish councils have been awarded quality parish status to date. [269889]

Huw Irranca-Davies: Currently there are 681 Quality Parish Councils. A regularly updated list of all Quality Parish Councils can be found on:

www.nalc.gov.uk

Radioactive Waste: Waste Management

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what expressions of interest his Department has received from local authorities to host nuclear waste disposal sites further to the consultation on managing radioactive waste safety. [270471]

Mr. Mike O'Brien: I have been asked to reply.

Geological disposal involves placing higher activity radioactive waste in an engineered underground containment facility designed so that natural barriers and man-made barriers work together to minimise the escape of radioactivity over the long timescales required to allow the radioactivity to decay.

Coupled with the "Managing Radioactive Waste Safely" White Paper published on 12 June 2008, was an invite to communities to 'express an interest' in entering without commitment discussions on the possibility of hosting a geological disposal facility at some point in the future.

Since then expressions of interest have been made by Copeland borough council (July 2008), Cumbria county council (December 2008) and Allerdale borough council (February 2009).

The option to express an interest will be left open for the foreseeable future and we hope that this is the beginning of a number of approaches to Government.

Rural Areas: Roads

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the research report "Potential impacts of national road user charging in rural areas: a scoping study", commissioned by his Department. [269890]

Huw Irranca-Davies: The report, "Potential Impacts of National Road user Charging in Rural Areas: a Scoping Study to Identify Required Research" was commissioned by DEFRA's Rural Evidence Research Centre and was published in September 2006, copies will be placed in the Library of the House.

TRANSPORT

Bus Services: Public Consultation

Annette Brooke: To ask the Secretary of State for Transport what advice his Department provides to local authorities on taking account of the views of local residents in the provision of bus services. [271212]

Paul Clark: Local authorities plan their policies on the provision of bus services in the context of their local transport plans. Guidance from the Department for Transport advises widespread consultation on these plans. In addition, S108 of the Transport Act 2000, as amended by S9 of the Local Transport Act 2008, places certain statutory requirements on local transport authorities, including the obligation to consult organisations appearing to the authority to be representative of the interests of users of transport services and facilities in their area.

Driving Tests

Mr. Frank Field: To ask the Secretary of State for Transport how many individuals have taken the driving theory test in each year since its introduction; in how many cases a voiceover has been used for those whose first language is not English; and how many requests have been submitted for the driving theory test to be taken in a foreign language. [270418]

Jim Fitzpatrick: The number of individuals taking the theory test for all categories since 2004-05 was:

	Number of individuals taking theory test
2008-09 (up to February 2009)	1,008,255
2007-08	1,201,883
2006-07	1,109,366
2005-06	1,095,642
2004-05	885,298

The following number of theory tests have had voiceovers in either English or non-English languages. English voiceovers have been included because some candidates may understand spoken English, but not written English.

	Total number of voiceovers	*Number of English voiceovers*	*Number of non-English voiceovers*
2008-09 (up to February 2009)	172,560	95,271	77,289
2007-08	211,553	108,716	102,837
2006-07	175,524	82,721	92,803
2005-06	156,390	72,658	83,732
2004-05	147,756	68,049	79,707

Candidates can independently obtain the services of a Driving Standards Agency (DSA)-approved translator. The following theory tests were conducted using either a non-English voiceover, or a DSA-approved translator.

	Number of theory tests taken with translators	*Total number of theory tests with translators or with non-English voiceovers*
2008-09 (up to February 2009)	1,263	78,552
2007-08	996	103,833
2006-07	914	93,717
2005-06	995	84,727
2004-05	805	80,512

Driving Tests: Greater London

Mr. Evennett: To ask the Secretary of State for Transport what the average waiting time was for a driving test in *(a)* the London Borough of Bexley and *(b)* Greater London in the latest period for which figures are available. [270923]

Jim Fitzpatrick: The average waiting times at practical driving test centres in *(a)* the London borough of Bexley and *(b)* Greater London on 20 April (the latest period for which figures are available) were as follows:

	Waiting time (Weeks)			
	Car	*Bike (Module 1)*	*Bike (Module 2)*	*Vocational*
(a) London borough of Bexley	6.3	5	2	—
(b) Greater London	9	8	2	1

The waiting times by test centres are updated and published on the Driving Standards Agency's website every Monday at:

www.dsa.gov.uk

Driving Tests: Greater Manchester

Mr. Crausby: To ask the Secretary of State for Transport what the average waiting time was between applying for and taking a driving test in Greater Manchester on the latest date for which figures are available. [270659]

Jim Fitzpatrick: Based on the latest available figures, the average waiting times for practical driving tests in Greater Manchester are:

	Average waiting time (weeks)
Car	4.9
Bike (Module 1)	2
Bike (Module 2)	2
Lorry and Bus	1

The most recent practical test waiting times by test centre are published on the Driving Standards Agency's website:

www.dsa.gov.uk

They are updated every Monday.

Driving: Licensing

Mr. Crausby: To ask the Secretary of State for Transport what percentage of licence renewal application forms have been lost by the Driver and Vehicle Licensing Agency prior to processing in each of the last five years; and what percentage of lost forms were subsequently traced in each year. [270661]

Jim Fitzpatrick: The Driver and Vehicle Licensing Agency (DVLA) does not hold the information in the requested format.

However, a measure of process accuracy and loss is available from complaints statistics. In the financial year 2008 to 2009, DVLA issued 8.6 million driving licences. In the same period it received 1,584 driving licence related complaints (including medically related complaints). The Driver and Vehicle Agency does not hold a record of the numbers of driving licence applications lost before being processed at the Agency, nor those which are subsequently traced within the Agency.

Motorway Service Areas

Mr. Lancaster: To ask the Secretary of State for Transport what guidance his Department has provided to private contractors who operate motorway service stations on their parking charges. [270233]

Paul Clark: Department for Transport Circular 1/2008, published on 2 April 2008, sets out the Department's policy on service areas and other roadside facilities on motorways and all purpose trunk roads in England.

Under the circular, signed service areas on motorways and all purpose trunk roads in England are required to provide free parking for up to two hours for all vehicle types. The circular allows service area operators to charge for parking after the initial two hour period.

A copy of circular 01/2008 is available on the Department's website and can be accessed using the following web link:

http://www.dft.gov.uk/pqr/roads/network/policy

Parking

Mr. Amess: To ask the Secretary of State for Transport what guidance his Department has issued since January 2008 to local authorities on the width and length of parking bays; what representations he has received on the issue since January 2008; and if he will make a statement. [270553]

Paul Clark: No guidance has been issued since January 2008. The width and length of parking bay markings is prescribed in regulations and detailed guidance on their use is contained in the Traffic Signs Manual, Chapter 5 - Road Markings (2003). This document is on the Department for Transport's website at the following address:

www.dft.gov.uk/pgr/roads/tss/tsmanual/trafficsignsmanual chapter5.pdf

We have received no formal proposals for changes to regulations or guidance. However, from time to time we do receive applications from local highways authorities for authorisation of narrow and/or shorter bays where exceptional site conditions prevent the use of prescribed markings.

Railways

Norman Baker: To ask the Secretary of State for Transport what his policy is on negotiation on the terms of premium payment obligations with train operating companies which indicate they may default on them. [270999]

Paul Clark *[holding answer 24 April 2009]:* It is the policy of the Department for Transport not to renegotiate existing franchise agreements. We expect our suppliers to deliver their franchise obligations.

Railways: Alcoholic Drinks

Mrs. Moon: To ask the Secretary of State for Transport if he will make an assessment of the merits of prohibiting the consumption of alcohol on the rail network. [271125]

Paul Clark: Train companies can already prohibit alcohol on trains using their powers under the railway byelaws. This in turn prevents alcohol being consumed on trains. The byelaws also permit train companies and the police to remove disorderly passengers from trains and stations as well as prosecute for antisocial behaviour.

Railways: Concessions

Jeremy Corbyn: To ask the Secretary of State for Transport if he will hold discussions with representatives of the train operating companies to consider the provision of free travel for the unemployed in order to attend job interviews. [269754]

Paul Clark: Discu[illegible] this subject have already taken place, along w[illegible]cal stimulus ideas. At present no firm proposals have been developed.

Roads

Mrs. Spelman: To ask the Secretary of State for Transport what guidance is issued to local highways authorities on reduction of guardrail street clutter on road crossings. [270104]

Paul Clark: This month the Department for Transport published Local Transport Note 2/09 Pedestrian Guardrailing, which provides guidance for local highway authorities on the provision and removal of pedestrian guardrail at locations such as road crossings. In March last year the Department published Local Transport Note 1/08 Traffic Management and Streetscape, which provides more general guidance on how local highway authorities can minimise street clutter when designing traffic management schemes. Both publications are available via the Department's website.

Roads: Accidents

Mr. Leech: To ask the Secretary of State for Transport how many accidents on shared surface roads have been recorded in each local authority area in each of the last five years. [269995]

Jim Fitzpatrick: The information requested is not available. The shared surface roads where the kerb is either low or at same level as the road surface cannot be distinguished separately in the reported personal injury road accident dataset.

HOUSE OF COMMONS COMMISSION

Parliament Square: Demonstrations

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission what discussions the House of Commons Commission has had with the Commissioner of Police for the Metropolis about the demonstration which took place in Parliament Square on 20 April 2009; and if he will make a statement. [270799]

Nick Harvey: The House of Commons Commission has not had contact with the Commissioner of Police of the Metropolis; as Mr. Speaker has said in the House the Serjeant at Arms is his contact with the Commissioner on all such matters.

Temperature

Mr. Andrew Turner: To ask the hon. Member for North Devon, representing the House of Commons Commission what the average temperature in *(a)* Norman Shaw North, *(b)* Norman Shaw South, *(c)* Portcullis House and *(d)* those parts of the Palace of Westminster for which the House of Commons Commission is responsible was in each of the last 12 months. [271297]

Nick Harvey: The Commission is unable to provide these figures as the building management system, controlling heating, power, lighting and ventilation on the Parliamentary Estate, retains temperature records for only three days.

CHURCH COMMISSIONERS

Departmental Land

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many applications for succession of tenancy under the Agricultural Holdings Act 1986 on land owned by the Church Commissioners have been made in the last five years; and how many of them were opposed by the Church Commissioners. [271420]

Sir Stuart Bell: The Commissioners do not record the number of applications made for succession of tenancy under the 1986 Act. However, I can tell the hon. Gentleman that one such application was opposed by the Commissioners in the last five years.

Farms

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many rent review notices were served by the Church Commissioners on their agricultural tenants in *(a)* 2007, *(b)* 2008 and *(c)* 2009 to date; how many of those rent reviews for which notices were served in each period have not been settled; and if he will make a statement. [271325]

Sir Stuart Bell: The specific information requested in the first part of the hon. Gentleman's question is not readily available within the time scale required. I can tell him that 174 notices were extant at the end of 2008 but I should add the caveat that rent review notices have to be served at least 12 months before the review date, so these notices will cover a wide period.

By way of a statement, the Church Commissioners' agents continue to negotiate with tenants and their agents for those reviews that are still outstanding.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what the average length of term offered on new farm business tenancies on the Church Commissioner's rural estate was in the latest period for which information is available. [271326]

Sir Stuart Bell: During 2008, the average length of term offered on new farm business tenancies for the Commissioners' rural estate was four years.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what area of land is let by the Church Commissioners to farm tenants under *(a)* the Agricultural Holdings Act 1986 and *(b)* the Agricultural Tenancies Act 1995. [271327]

Sir Stuart Bell: 31,080 hectares are let to farm tenants under the Agricultural Holdings Act 1986 and 9,055 hectares under the Agricultural Tenancies Act 1995.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many agricultural tenants the Church Commissioners have in England regulated under the *(a)* Agricultural Holdings Act 1986 and *(b)* Agricultural Tenancies Act 1995. [271328]

Sir Stuart Bell: The Commissioners have 230 agricultural tenants in England regulated under the Agricultural Holdings Act 1986 and 122 under the Agricultural Tenancies Act 1995.

Mr. Gibb: To ask the hon. Member for Middlesbrough, representing the Church Commissioners how many hectares of agricultural land are owned by the Church Commissioners in England. [271329]

Sir Stuart Bell: Approximately 40,315 hectares of agricultural land in England are owned by the Church

OLYMPICS

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Minister for the Olympics how many officials for which she is responsible are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270510]

Tessa Jowell: No member of staff in my private office is suspended.

Staff working in the Government Olympic Executive report to me through the Permanent Secretary of the Department for Culture, Media and Sport and will therefore be included in the answer by the Secretary of State for Culture, Media and Sport.

Departmental Energy

Greg Clark: To ask the Minister for the Olympics what recent progress her Office has made towards the Government's target of increasing its energy efficiency per square metre of the Government Estate by 15 per cent. by 2010, relative to 1999-2000; and if she will make a statement. [266870]

Tessa Jowell: I refer to the answer given by my hon. Friend the Parliamentary Secretary at the Cabinet Office (Kevin Brennan) on 26 March 2009, *Official Report*, column 711W.

Departmental Furniture

Grant Shapps: To ask the Minister for the Olympics how much was spent by her Office on furniture in each of the last five years. [266201]

Tessa Jowell: Details of any Cabinet Office payments in 2008-09 will be available only when the Department's resource accounts are fully audited and laid before Parliament. This is expected to be before the summer recess.

In September 2008 the Minister for the Olympics moved to a new office at 2-4 Cockspur Street which needed to be fully furnished. The Department for Culture, Media and Sport subsequently spent £14,656 on furniture for this office.

LEADER OF THE HOUSE

Members: Allowances

Mr. Dai Davies: To ask the Leader of the House what account she took of submissions made to the Members' Estimate Committee in preparing the proposals to alter hon. Members' allowances announced on 21 April 2009. [271308]

Chris Bryant: A range of information and views have

CULTURE, MEDIA AND SPORT

Community Pubs Inquiry Report

Mr. Winnick: To ask the Secretary of State for Culture, Media and Sport what progress has been made in finalising the Government's response to the Community Pubs Inquiry Report; and when it will be published. [270909]

Mr. Sutcliffe: I am currently finalising the Government's response to the Community Pubs Inquiry Report and shall publish it shortly.

Culture: Olympic Games 2012

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the component parts of tier *(a)* two and *(b)* three of the Cultural Olympiad are; what the cost of each part is estimated to be; and what the source of funding of each part is. [270085]

Barbara Follett: The Cultural Olympiad is a four-year developing programme of cultural activity, comprising ceremonies (formerly tier one); major projects (formerly tier two); and Inspire Mark projects (formerly tier three).

Around 10 national major projects will take place across the country. Each major project is at a different stage of development. The London Organising Committee of the Olympic Games and Paralympics Games (LOCOG) are working with their partners to develop the detailed plan for each of these projects, which includes a consideration of costs and options for funding. So far, LOCOG seed funding together with a range of partners including DCMS NDPBs, cultural organisations, and the Legacy Trust, plan to spend at least £40 million.

Inspire Mark projects within the Cultural Olympiad will focus on local and regional cultural activity. The content, cost and funding for these projects is determined by the organisations choosing to take advantage of this opportunity. Already, 50 projects within the Cultural Olympiad have been awarded the Inspire Mark.

Departmental Billing

John Mason: To ask the Secretary of State for Culture, Media and Sport what percentage of invoices his Department has paid within 10 days of receipt in each of the last five months. [270537]

Mr. Sutcliffe: The Department's performance of payment of invoices within 10 days of receipt in each of last five months is set out in the table.

	Percentage of invoices paid within 10 working days
2008	
November	43
December	77
2009	
January	80
February	87
March	88

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Culture, Media and Sport how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270515]

Mr. Sutcliffe: We currently have no officials on suspension in the Department.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Culture, Media and Sport what his Department's policy is on holding departmental away days at locations other than departmental premises. [268466]

Mr. Sutcliffe: My Department does not have an away day policy and there are no central rules governing the holding of departmental away days.

The Department encourages teams to undertake staff away days and staff team building exercises as part of its commitment to the development of its staff and to improving performance.

All expenditure on away days is made in accordance with published departmental guidance on financial procedures and Treasury guidance on Managing Public Money and Regularity, Propriety and Value for Money.

Departmental Visits Abroad

David Simpson: To ask the Secretary of State for Culture, Media and Sport how much expenditure was incurred in respect of overseas visits which *(a)* he, *(b)* other Ministers in his Department and *(c)* his Department's senior officials undertook in 2008. [262146]

Mr. Sutcliffe: Since 1999, the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the financial year 2007-08 was published on 22 July 2008, *Official Report*, column 102WS, and for the first time, included details of overseas visits undertaken by all Ministers. All travel by Ministers is undertaken in accordance with the Ministerial Code.

Department for Culture, Media and Sport do not keep information on the cost of overseas travel specifically by senior officials within the Department.

Film: Licensing

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Brentwood and Ongar of 29 January 2009, *Official Report*, columns 687-8W, on film: licensing, whether local residents within a local authority area may submit for review the classification of a film shown in cinemas within the area on grounds that it contravenes the licence. [270130]

Mr. Sutcliffe: The exhibition of a film is regulated entertainment under Schedule 1 of the Licensing Act 2003. If a premises licence or club premises certificate authorises the exhibition of a film, sections 20 or 74 of the Act make it mandatory for a condition to be included in the premises licence or certificate requiring the admission of children to films to be restricted in accordance with recommendations given either by the British Board of Film Classification or by the licensing authority itself.

The Licensing Authority can choose to adopt its own classification, although the Guidance issued under the Licensing Act recommends that licensing authorities should not duplicate the effort underpinning the BBFC's classification.

A licence or certificate could be revoked or withdrawn on an application for review by an interested party (which could include a local resident), if the licence or certificate owner breached the mandatory condition outlined above, or otherwise acted in a way which contravened the licensing objectives.

Local residents would not, however, have a basis for challenging the classification of a film by the BBFC or the local authority under the Licensing Act 2003. The classification decision is a matter which falls outside the regulation of the premises licence or club premises certificate under the Licensing Act 2003. To challenge a classification of a film given by the BBFC or the local authority, local residents would have to pursue alternative avenues e.g. seek a judicial review.

Libraries: Closures

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport in respect of which local authorities he has used his powers under the Public Libraries and Museums Act 1964 to intervene in relation to a proposed library closure since May 1997; on what dates each such intervention was made; and what the outcome of such intervention was in each case. [illegible]

Barbara Follett: Before my right hon. friend the Secretary of State announced an inquiry into library closures in the Wirral in April 2009, the Secretary of State for Culture, Media and Sport had not used his powers under the Public Libraries and Museums Act 1964 to intervene in relation to a proposed library closure since the early 1990s when closures in Derbyshire were investigated.

Sports: Young People

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what recent estimate he has made of the number and proportion of young people who cease participating in sport upon leaving school. [illegible]

Mr. Sutcliffe: The available information is set out in the reply I gave to the hon. Member on this subject on 27 January 2009, *Official Report*, column 363W.

During the ages of 16 to 19, the period when young people leave school, sport participation[1] drops by seven percentage points, (or the equivalent of 42,000 participants) from a participation rate of 37.4 per cent. at age 16, to a participation rate of 30.4 per cent. at age 19.

[1] Participation is defined as the percentage of the adult population participating in at least 30 minutes of sport, to at least moderate intensity, at least three times a week.

Age	*Percentage*	*Number of participants*
17	34.60	230,829
18	31.14	208,625
19	30.40	209,368

Source:
Sport England's Active People Survey 2 (October 2007 to October 2008).

Tourism

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport what meetings *(a)* Ministers and *(b)* officials in his Department have had with boards of regional development agencies on tourism in England in the last 12 months. [271320]

Mr. Sutcliffe: Ministers and officials in my Department have not had meetings with boards of regional development agencies in the last 12 months. They have, however, met chairs together with other Government Departments and met individual board members from time to time to discuss key policy areas such as tourism development, culture and regeneration, and the creative industries.

NORTHERN IRELAND

Courts

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many live summonses have not been served in Northern Ireland because the individual to be summonsed could not be traced in each year from 2004-05 to 2008-09. [illegible]

The Solicitor-General: I have been asked to reply.

The PPS does not collect data in a way that allows the question to be answered directly. The PPS commenced operation in June 2005 and was fully rolled out throughout all of Northern Ireland by October 2007. Since 2005 to the end of the financial year 2008-09 the PPS issued over 100,000 summonses. Of that number approximately 3,000 remain unserved because police have been unable to locate the individual. These remain as "live" summonses and attempts to serve continue. Over 80 per cent. of summons, whether served by post or by way of personal service, are successfully served at the first attempt.

Decisions in respect of prosecution remain under review and where a summons cannot be served in spite of repeated attempts by police (generally a minimum of four) and police are unable to locate the individual, the case can be referred back to a PPS prosecutor for a formal review.

In circumstances where a significant period of time has elapsed since the issue of the initial summons and/or the offences are minor in nature, the Prosecutor may consider that the Test for Prosecution is no longer met. Over the period 1 January 2006 to 30 September 2008, a total of 61 no prosecution decisions have been recorded by the PPS as a result of such reviews.

Departmental Assets

Bob Spink: To ask the Secretary of State for Northern Ireland when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [illegible]

Paul Goggins: As part of the 2007 comprehensive spending review, the Department prepared an Asset Management Strategy, available at:

http://www.nio.gov.uk/nio_asset_management_strategy_-_feb08_-_published.pdf

covering the financial years 2008-09 to 2010-11. This includes plans to dispose of assets and land and property holdings worth £27 million. These plans are regularly reviewed to identify surplus assets.

Departmental Billing

John Mason: To ask the Secretary of State for Northern Ireland what percentage of invoices his Department has paid within 10 days of receipt in each of the last five months. [270538]

Paul Goggins: The Northern Ireland Office, excluding its agencies and executive NDPBs, paid the following percentages of invoices within 10 days of receipt in each of the last five months:

November 2008: 59 per cent.

December 2008: 83 per cent.

January 2009: 79 per cent.

February 2009: 83 per cent.

March 2009: 82 per cent.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Northern Ireland what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269678]

Paul Goggins: All Northern Ireland Office staff have been issued with guidance on shutdown procedures for personal computers when they are not in use. From figures that are held it has been estimated that over 70 per cent. are turned off overnight, at weekends and during holiday periods.

Electoral Register

Mr. Maude: To ask the Secretary of State for Northern Ireland what the timetable was for the introduction of individual electoral registration in Northern Ireland. [269917]

Paul Goggins: In March 2001, the Government published a White Paper on Combating Electoral Fraud in Northern Ireland which discussed the introduction of individual registration. The Electoral Fraud (Northern Ireland) Act 2002 Received Royal assent on 1 May 2002 and contained provisions that would introduce individual registration to Northern Ireland. These provisions were commenced on 1 September 2002. See Article 3 of the Electoral Fraud (Northern Ireland) Order 2002

http://www.opsi.gov.uk/si/si2002/20021648.htm

Mr. Maude: To ask the Secretary of State for Northern Ireland how many electoral identity cards have been *(a)* issued and *(b)* reported as lost or stolen in each year since they were introduced in Northern Ireland. [269918]

Paul Goggins: This is an operational matter for the Chief Electoral Officer for Northern Ireland. The right hon. Member may wish to write to him directly.

Mr. Maude: To ask the Secretary of State for Northern Ireland what proportion of *(a)* postal vote applications, *(b)* proxy vote applications and *(c)* postal vote ballot papers in Northern Ireland are checked with the personal identifiers held on the elector; and which of the three personal identifiers are used to verify (i) postal vote applications, (ii) proxy vote applications and (iii) postal vote ballot papers. [270140]

Paul Goggins: Sections 6 and 7 of the Representation of the People Act 1985 provide that all postal and proxy vote applications in Northern Ireland must include details of the three personal identifiers (national insurance number (or a statement that the applicant does not have one), date of birth and signature) and the registration officer must be satisfied that these details are consistent with information already provided to him by the applicant. In order to be deemed to be returned, postal vote ballot papers must be accompanied by a declaration of identity which includes the date of birth and signature of the elector which are consistent with information already provided by the applicant.

The Chief Electoral Officer for Northern Ireland acts as both returning officer and registration officer for Northern Ireland and queries relating to the checks that he undertakes to ensure that the legislative requirements outlined above are met should be made to him directly.

Police Service of Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to maintain public confidence in the efficiency of the Police Service of Northern Ireland. [270060]

Paul Goggins: The Government have established the Northern Ireland Policing Board (NIPB) with a statutory duty to ensure that the Police Service of Northern Ireland (PSNI) is effective and efficient. The NIPB holds at least eight meetings in public each year. The purpose of these meetings is to receive a report on policing from the Chief Constable and to hold him to account publicly for the performance of the police service. The efficiency of the Service's performance is naturally an element in that process of accountability.

Each year, the NIPB in consultation with the Chief Constable publishes a Continuous Improvement Plan with the intention of fulfilling the respective responsibilities of the Board and the Chief Constable to ensure that the resources entrusted to them are effectively, efficiently and economically used.

Prisoners Release

Mr. Walter: To ask the Secretary of State for Northern Ireland how many prisoners serving sentences for each category of offence have been released on licence under the Northern Ireland (Sentences) Act 1998; and how many such prisoners were classified as belonging to a *(a)* loyalist and *(b)* republican organisation. [269300]

Paul Goggins: 452 persons have been released on licence under the Northern Ireland (Sentences) Act 1998. Of these 242 were affiliated to republican organisations, 197 to loyalist organisations and 13 had no recorded affiliation. The numbers of those released by the main category of offence for which they were convicted are shown in the following table.

		Affiliation		
Offence	*Number*	*Republican*	*Loyalist*	*None*
Life Sentence Prisoners				
Murder	154	69	82	3
Explosives offences	5	5	0	0
Total	159	74	82	3
Fixed Sentence Prisoners				
Attempted murder	67	41	24	2
Conspiracy to murder	68	42	24	2
Manslaughter	7	1	5	1
Threats to kill	5	0	5	0
Directing terrorism	1	0	1	0
Explosives offences	50	45	5	0
Firearms and ammunition offences	48	25	23	0
Robbery/burglary offences	24	3	16	5
Kidnapping offences	5	3	2	0
Blackmail	2	0	2	0
Hijacking	2	0	2	0
Grievous bodily harm	6	2	4	0
Conspiracy to commit arson	1	1	0	0
Assisting offenders	2	1	1	0
Belonging to a proscribed organisation	1	1	0	0
Conspiring with others to further criminal means	1	0	1	0
Possession of materials for the purpose of terrorism	3	3	0	0
Total	293	168	115	10

INTERNATIONAL DEVELOPMENT

Afghanistan: Drugs

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what steps his Department has taken to persuade farmers in Afghanistan to diversify crop production away from poppy production; what assessment he has made of the effectiveness of such initiatives; what estimate he has made of the costs incurred to date; and if he will make a statement. [269811]

Mr. Thomas: Progress is being made on promoting legal crop growing and on reducing poppy production in Afghanistan. The number of poppy free provinces has increased from three in 2006 to 13 in 2007 and 18 in 2008. Poppy cultivation fell in 2008 by 19 per cent. across Afghanistan, and the percentage of agricultural land devoted to poppy growing has fallen to just 2 per cent.

The UK Government support the Government of Afghanistan's National Drug Control Strategy (NDCS) by creating immediate and long-term opportunities for legal livelihoods.

The Department for International Development (DFID) and the World Bank jointly funded an assessment of the economic incentives of development initiatives designed to reduce opium production. This is available at:

http://web.worldbank.org/WBSITE/EXTERNAL/
COUNTRIES/SOUTHASIAEXT/0,,contentMDK:
21636749~pagePK:146736~piPK:146830~
theSitePK:223547,00.html

Our support to licit livelihoods takes account of the key findings of this study.

Between 2006-09 DFID spent over £62 million promoting legal livelihoods and has pledged £60 million in support of national agricultural and rural development programmes and £68 million for relevant work in Helmand province between 2009-10 and 2012-13. This support will be aligned with the NDCS, Afghanistan National Development Strategy (ANDS) and the key findings of the 'Economic Incentives' report.

Afghanistan: Life Expectancy

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what estimate he has made of the effect of the military conflict in Afghanistan on the life expectancy of children and adults in that country; and if he will make a statement. [270099]

Mr. Michael Foster: It is not possible to estimate the effect of the military conflict in Afghanistan on the life expectancy of children and adults.

Data for life expectancy and infant mortality in Afghanistan are produced by the United Nations (UN) and available online at:

http://hdrstats.undp.org/countries/data sheets/cty_ds_AFG.html

Afghanistan: Reconstruction

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what assessment he has made of the effectiveness of co-operation between EU member states on work on Afghanistan's development and reconstruction strategy; and if he will make a statement. [270102]

Mr. Michael Foster: The implementation of the Afghanistan National Development Strategy (ANDS) in June 2008 has improved co-operation between EU member states. International donors are now aligning their support behind a nationally-owned and implemented strategy for development and reconstruction.

EU member states meet regularly to review the European Commission's Country Strategy for Afghanistan (2007-13). The EU Code of Conduct on the Division of Labour in Development Policy guides discussions on how member states will support the Government of Afghanistan.

EU member states also support the overall co-ordinating role of the United Nations Assistance Mission in Afghanistan (UNAMA). The Government of Afghanistan and UNAMA recently secured EU member state and other donor support for new nationally-led strategies for private sector development and agriculture.

Afghanistan: Water

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what estimate he has made of the proportion of the Afghan population with access to clean water supplies *(a)* in 2000 and *(b)* at the latest date for which information is available. [270098]

Mr. Thomas: Historical data on Afghanistan are poor and it is not possible to provide an estimate of the proportion of the Afghan population with access to clean water supplies in 2000.

The Government of Afghanistan carried out a National Risk and Vulnerability Assessment (NRVA) in 2007. The preliminary estimates from this report found that 41 per cent. of the Afghan population have access to safe drinking water (urban and rural).

The full results from this report will be available on the Central Statistics Office, Afghanistan website:

http://www.cso.gov.af/

Africa: Overseas Aid

Mr. Sarwar: To ask the Secretary of State for International Development which countries will receive funding from the £100 million funding recently announced by the Government to improve transport links in east and southern Africa. [270252]

Mr. Thomas: Funding will be used to improve transport links and regional trade infrastructure along the north-south corridor in east and southern Africa. Countries linked by the north-south corridor are the Democratic Republic of Congo, Botswana, Malawi, Mozambique, Tanzania, South Africa, Zambia, and Zimbabwe.

Work to improve trade agreements and how these agreements are administrated will also be funded, and will benefit the member states of: the Common Market for Eastern and Southern Africa (COMESA); East African Community (EAC) and Southern African Development Community (SADC).

I also refer my hon. Friend to the written ministerial statement I made on 23 April 2009, *Official Report*, columns 25-26WS.

Asylum: Thailand

Mr. Andrew Mitchell: To ask the Secretary of State for International Development what reports he has received on the percentage of people in refugee camps on the Thailand-Burma border who are malnourished. [269181]

Mr. Michael Foster: The Thailand Burma Border Consortium (TBBC) carries out annual nutrition surveys of children aged between six months and five years who are living in the refugee camps on the Thailand Burma border. According to TBBC's 2008 survey, the rates were 2.7 per cent. for acute malnutrition and 36.2 per cent. for chronic malnutrition.

Burma: Overseas Aid

Mr. Andrew Mitchell: To ask the Secretary of State for International Development whether staff of his Department based in Burma have free access to visit all projects in Burma which his Department funds. [269182]

Mr. Michael Foster: Staff from the Department for International Development (DFID) are required to obtain permission from the Burmese authorities before visiting projects outside the city of Rangoon. Permission is usually granted routinely, and we have been able to monitor the progress of our projects effectively.

Mr. Andrew Mitchell: To ask the Secretary of State for International Development what reports he has received of additional restrictions on access to the delta region of Burma imposed on aid workers in the last six months. [269183]

Mr. Michael Foster: Access for aid workers to the Irrawaddy Delta region of Burma has remained good for the last six months.

Earlier this month, responsibility for issuing visas to certain aid agency staff working in the Delta was transferred from the Tripartite Core Group (comprising representatives of the Burma Government, the United Nations and the Association of South East Asian Nations) to the Burmese Foreign Affairs Policy Committee and line Ministries. It is too early yet to assess whether this move will have a significant impact on humanitarian access to the Delta. The European Union, and other international donors, have raised the procedural changes with the Burmese authorities and expressed their concern that humanitarian access should not be affected.

Mr. Andrew Mitchell: To ask the Secretary of State for International Development what assessment his Department has made of *(a)* levels of poverty in Burma and *(b)* how aid to that country should be targeted. [269184]

Mr. Michael Foster: Little reliable data are available on Burma, but it is clear that poverty levels are very high and getting worse. The most recent overview of poverty across most of the country was an assessment of household living conditions which the United Nations Development Programme (UNDP) published in June 2007. This assessment found that over a third of the population lived below the poverty line, and 10 per cent. were in extreme poverty. The assessment was not able to cover areas affected by conflict, where poverty levels are likely to be even higher. Since the UNDP assessment, Burma was struck by Cyclone Nargis in May 2008, and the global economic downturn has reduced the income of many households. In addition, many parts of Chin State have experienced severe food shortages as a result of rat infestations; and conflict continues in some other border areas.

In response to this deepening poverty, DFID will expand its aid to Burma by £10 million in each of the financial years 2009-10 and 2010-11. These increases are in addition to those agreed under the comprehensive spending review. We now plan to spend £25 million on Burma in 2009-10 and £28 million in 2010-11. About 60 per cent. of the increase will be allocated to cyclone-related assistance, and about 40 per cent. to DFID's regular programme of humanitarian aid across the whole country.

The additional cyclone-related assistance will be focused on health, basic education and the restoration of people's livelihoods in rural areas. Much of the increase for the regular programme will be used to help fill funding gaps faced by the Three Diseases Fund to combat HIV/AIDS, malaria and tuberculosis. We are at the same time increasing our support to refugees, IDPs and others living in conflict affected areas of Burma. We recently agreed additional funding of up to £280,000 in response to the food shortages in Chin State.

Our assistance will continue to be channelled through the United Nations and national and international non-governmental organisations, in line with the European Union Common Position on Burma.

Cameroon: Illegal Immigrants

Jo Swinson: To ask the Secretary of State for International Development what representations he has received on allegations of connections between the Cameroon Parliamentary Caucus for Environmental Protection and illegal immigration activities; and if he will make a statement. [270024]

Mr. Ivan Lewis: Officials from the Department for International Development (DFID) and the Foreign and Commonwealth Office (FCO) are aware of a number of reports relating to allegations of connections between the Cameroon Parliamentary Caucus for Environmental Protection and illegal immigration activities. We are very concerned to hear of these allegations. DFID has had no significant funding or other relations with the Caucus—other than some minor support in kind through a DFID funded project, the Forest Governance Facility between March 2007 and the summer of 2008. The FCO, through the British high commission in Yaounde, has provided no funds to the Caucus and has reviewed its portfolio to ensure that no UK funds are being misused by any individuals involved in the Caucus who may also be involved in the work of other related organisations.

Departmental Disciplinary Proceedings

David Simpson: To ask the Secretary of State for International Development how many staff in his Department *(a)* were disciplined and *(b)* had their employment terminated as a result of a poor sickness record in each of the last 12 months. [262237]

Mr. Thomas: Information on sick absence records in DFID can be located on the departmental website at:

www.dfid.gov.uk/aboutdfid/sick-absence-stats.asp

Less than five employees have been disciplined or had their employment terminated as a result of poor sickness records in the last 12-month period.

Departmental ICT

Jenny Willott: To ask the Secretary of State for International Development what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department in each of the last five years; and if he will make a statement. [269550]

Mr. Michael Foster: The Department for International Development (DFID) has a substantial IT infrastructure with a wide range of IT devices. We have taken steps recently to form baselines on total energy consumption across a large part of the IT estate in the United Kingdom. This is largely based around our data centre in Scotland and our key IT server rooms. We are at the early stages of this base lining process; to provide the actual breakdowns requested in this question would incur disproportionate costs.

Jenny Willott: To ask the Secretary of State for International Development what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269564]

Mr. Michael Foster: The Department for International Development already had measures in place to ensure that all ICT procurement complied with the latest guidelines on energy efficiency before the launch of the Greening Government strategy. The evaluation criteria used in all ICT procurement specifically covers green IT and energy efficiency.

Jenny Willott: To ask the Secretary of State for International Development what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269579]

Mr. Michael Foster: The Department for International Development has over 400 servers in use across the organisation. Around 200 of these are in the UK and the remainder are overseas. We have various monitoring tools across our infrastructure but we do not currently collect ongoing specific statistics on server capacity utilisation. To provide the information requested in this question would incur disproportionate cost.

Jenny Willott: To ask the Secretary of State for International Development what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off *(a)* overnight, *(b)* at weekends and *(c)* during holiday periods; and if he will make a statement. [269619]

Mr. Michael Foster: The Department for International Development's (DFID) policy is that all personal electrical equipment, including computers, printers and photocopiers, must be switched off when not in use. The latest weekly check on DFID's two offices in the United Kingdom reported that 77 per cent. of electrical equipment had been switched off. It would incur disproportionate cost to break this information down as requested and to isolate personal computers from other equipment.

Jenny Willott: To ask the Secretary of State for International Development how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269635]

Mr. Michael Foster: All products that the Department for International Development (DFID) has purchased that fall within the Office of Government Commerce's IT category were compliant with the Government's Buy-Sustainable-Quick Win standard.

Jenny Willott: To ask the Secretary of State for International Development how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269663]

Mr. Michael Foster: The number of printers and multi-function devices in use at the Department for International Development (DFID) in the United Kingdom over the last five years is as follows:

	Printers	*Multi-function devices*
2005	520	30
2006	520	30
2007	380	30
2008	380	30
2009	380	28

All printers and multi-functional devices have the capability to support double-sided printing. Collecting the data for DFID's overseas offices would incur disproportionate cost.

Departmental Public Expenditure

Mr. Moore: To ask the Secretary of State for International Development what funding his Department provided to the *(a)* International Inspiration project and *(b)* International Sport Development initiative in each of the last five years; how much of that funding was related to the London 2012 Olympics; and if he will make a statement. [268869]

Mr. Thomas: The Department for International Development is providing £7.4 million to the International Inspiration Programme (this programme was initially referred to as the International Sport Development Initiative. It became the International Inspiration Programme after its formal launch in January 2008).

DFID has so far transferred £2.65 million of this funding to the International Inspiration programme: £2 million in financial year 2007-08, and £0.65 million in financial year 2008-09.

International Inspiration is a sport for development programme that was initiated as a result of London winning the 2012 Olympic games. It is working to deliver the promise made in London's 2012 bid to engage young people across the world in sport.

Developing Countries: Agriculture

Andrew George: To ask the Secretary of State for International Development whether his Department plans to implement the findings of the International Assessment of Agricultural Knowledge, Science and Technology for Development. [269210]

Mr. Michael Foster: The International Assessment of Agricultural Science and Technology for Development (IAASTD) presents findings and a range of options for different stakeholders (governments, private sector, academics and civil society) to consider. These findings are neither prescriptive nor legally binding on any party. The Department for International Development (DFID) has looked at these findings to help determine its support to developing countries on agricultural knowledge, science and technology.

DFID has already taken action in line with IAASTD's findings. Last April the Secretary of State announced a doubling of DFID's investment in agricultural research to a total of £400 million over five years. This investment will include research on environmentally sustainable solutions, focus on the needs of farmers, address gender issues, look at the impact of markets on poor farmers, and support traditional and modern technologies.

Developing Countries: Coal Fired Power Stations

Simon Hughes: To ask the Secretary of State for International Development what estimate he has made of the amount of money from the UK Environmental Transformation Fund which will be used to fund the development of new coal-fired power stations in developing countries; and if he will make a statement. [270821]

Mr. Thomas: It is not possible to provide an estimate of how much of the UK's Environmental Transformation Fund (through which we contribute to the Climate Investment Funds) will be used to fund the development of new coal-fired power stations in developing countries. This is because the UK's funding cannot be separated from that of other donors contributing to the Climate Investment Funds. However, we do not expect the Clean Technology Fund (CTF) (the only one of the Climate Investment Funds which includes criteria for fossil fuel projects) to receive many bids for funding related to new coal plants. If any are received, the agreed CTF criteria stipulate that coal projects have to be highly efficient and must be ready for the future installation of carbon capture and storage technology. Furthermore, the CTF could only be used to fund the additional cost of making these efficiency and design improvements, rather than subsidising the cost of the whole plant.

International Assistance

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development in which countries where Millennium Development Goals have been deemed to have been achieved there has been a statistically significant increase in life expectancy. [270027]

Mr. Ivan Lewis: The Department for International Development (DFID) looks to United Nations Statistics Division (UNSD) to monitor the Millennium Development Goals and to UNICEF to monitor associated indicators such as life expectancy. According to UNSD, to date four countries have met all the Millennium Development Goals (excluding Goal 8) and they have all experienced an increase in life expectancy as shown in the following table.

	Life expectancy from birth (years)	
	1990	*2007*
Lithuania	71	73
Slovenia	73	78
Thailand	67	70
United Arab Emirates	73	79

Source:
UNICEF

The differences in life expectancy are statistically significant.

Iraq: Reconstruction

Mr. Ellwood: To ask the Secretary of State for International Development what his most recent assessment is of the effectiveness of programmes funded by his Department to assist the reconstruction and development of Iraq since 2003. [270829]

Mr. Thomas: The Department for International Development (DFID) has carried out recent assessments of each of our current programmes, in accordance with the monitoring and evaluation schedule set by DFID procedures. These annually mark the likelihood of the achievement of purpose for programmes larger than £1 million on a scale from 1 to 4:

1—Likely to be fully achieved;
2—Likely to be largely achieved;
3—Likely to be partially achieved;
4—Only likely to be achieved to a very limited extent;
X—Too early to judge.

Of our six large current programmes in Iraq, in their most recent assessments five were judged as 2—likely to largely achieve their purpose, and one as 1—likely to fully achieve its purpose.

Based on DFID's experience of delivering aid in Iraq and other insecure environments, we will soon publish a set of briefing papers to provide better guidance to our country offices in their delivery of aid in those environments. DFID is also currently designing a new long-term research programme on conflict, state fragility and social cohesion which will gather more information on effective ways of delivering aid in insecure environments including Iraq.

Malaria: Drugs

Mr. Sarwar: To ask the Secretary of State for International Development what steps his Department takes to ensure that funding for anti-malarial drug programmes is used for fixed-dose combinations. [270251]

Mr. Ivan Lewis: Decisions on the choice of anti-malarial medicines are made by countries themselves. The Department for International Development's (DFID) support for country health programmes or for malaria specifically is used to purchase the anti-malarial drugs selected by the country. Country decisions are influenced strongly by World Health Organisation (WHO) recommendations.

DFID works with international partners on such issues and particularly relies on WHO to set policy on treatment standards. The WHO is in the final stages of updating its policy and guidelines on fixed dose combination and co-blistered anti-malarials.

In addition DFID supports the Affordable Medicines Facility for Malaria which was launched on 17 April 2009. In that context there has been discussion on the desirability of supporting fixed dose combinations and ways to encourage a transition to fixed dose combinations, where relevant, in a manner that ensures the products and requisite training are available.

DFID continues to support research and development on new anti-malarials through the Medicines for Malaria Venture. One output of this is the new fixed dose combination dispersible formulation for children that was launched by Novartis in February 2009.

Sierra Leone: Overseas Aid

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what management and accounting mechanisms are in place to audit financial aid from his Department to Sierra Leone delivered through the *(a)* World Bank, *(b)* United Nations and *(c)* African Development Bank. [269989]

Mr. Ivan Lewis: The Department for International Development (DFID) has developed a number of formal documents which cover financial relationships with the multilateral agencies. These ensure consistent strict financial reporting arrangements are maintained. When necessary DFID undertakes independent audits of funds used in joint programmes.

Standardised reporting relationships, for both financial resources and measuring impact, are beneficial to DFID and our development partners. These agreements are regularly reviewed to ensure they are contemporary and reflect new legislation.

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development what proportion of financial aid provided for construction in Sierra Leone is directed to local contractors; and how many Sierra Leonean companies are contracted to carry out construction work funded by his Department. [270026]

Mr. Ivan Lewis: All of the aid that the Department for International Development (DFID) has provided for construction in Sierra Leone has been channelled through local contractors. We have awarded contracts to over 250 registered construction companies across the country.

Sri Lanka: International Assistance

Mr. Clifton-Brown: To ask the Secretary of State for International Development what his latest estimate is of the level of humanitarian aid entering Sri Lanka. [270284]

Mr. Ivan Lewis: Since 19 February the only humanitarian aid reaching the civilians caught in the conflict has been by sea by the International Committee of the Red Cross (ICRC). The last road convoy, led by the UN, reached the area held by the LTTE on 29 January. This is not enough. We have been pressing the Sri Lankan Government at the highest level to allow proper humanitarian access and protection. We have also pressed them and the LTTE to agree a ceasefire long enough to allow proper civilian evacuation, to which the response has been disappointing.

As the International Development and Foreign Secretaries said in their parliamentary statement of 2 April, the humanitarian situation is deplorable. As the conflict reaches a climax, civilians are now managing to flee in increasing numbers but we remain concerned for their welfare and protection and continue to press for them to be cared for properly.

We have provided £5 million in humanitarian aid funding through UN agencies and the ICRC, the only organisations able to carry out any relief and protection work in or around the conflict zone.

As indicated by the Prime Minister in the House on 22 April, my colleague Mike Foster is currently in Sri Lanka to see conditions for himself. He will make further representations to both sides to respect humanitarian law and allow proper relief and protection. The UK Government will allocate a further £2.5 million in humanitarian assistance in the coming weeks.

St. Helena: Public Expenditure

Mr. Hoyle: To ask the Secretary of State for International Development how much has been spent on St. Helena from the public purse in the last 20 years, expressed in current prices adjusted for inflation. [268959]

Mr. Ivan Lewis: The cost of bilateral support to the Government of St. Helena over the last 20 years, provided through DFID or its predecessor Department, is set out in the following table (current prices in £ million):

	£ million
	Expenditure
2007-08	17.6
2006-07	16.1
2005-06	14.3
2004-05	15.6
2003-04	11.7
2002-03	10.9
2001-02	11.9
2000-01	12.2
1999-2000	11.4
1998-99	10.9
1997-98	11.2
1996-97	10.4
1995-96	12.5
1994-95	11.4
1993-94	12.8
1992-93	13.2
1991-92	13.6
1990-91	18.5
1989-90	41.3
1988-89	38.2

These figures do not include assistance that DFID has provided since 2004 to non-governmental groups on St. Helena for environmental conservation projects. This amounted to approximately £400,000 over the five year period.

In addition to DFID/ODA assistance, the Foreign and Commonwealth Office has funded a small number of discrete projects through its Overseas Territories Programme Fund. The total for St. Helena over the last two financial years amounts to just over £400,000. Further information cannot be provided without disproportionate cost.

St. Helena has also benefited from other sources of public funding through financial assistance from the European Union (approximately £13 million in the last 12 years), the United Nations Development Programme (approximately £1.6 million in the last 12 years) and the World Health Organisation ($400,000 every two years).

The values of these further amounts are stated in cash prices.

St. Helena: Aviation

Andrew Rosindell: To ask the Secretary of State for International Development how much has been spent on the *(a)* St. Helena Access Project and *(b)* Atkins Feasibility Report for St. Helena Air Access. [269500]

Mr. Michael Foster: The Department for International Development (DFID) has spent approximately £8 million on the Access Project since the High Point Rendel Comparative Report on Air and Sea Access study in 2000-01. This includes the 2005 Atkins Feasibility Study at a cost of £1.65 million.

Terrorism: Finance

Mr. Paul Goodman: To ask the Secretary of State for International Development pursuant to the answer of 13 March 2009, *Official Report*, column 791 on terrorism: finance, which of the projects aimed at addressing the development-related causes of radicalisation are delivered by subcontractors; and what measures are in place to monitor the performance of such subcontractors. [270550]

Mr. Thomas: The Department for International Development (DFID) works with a wide range of partners to deliver our projects: private contractors, civil society organisations, international agencies and developing country governments. DFID's standard operating procedures require that all projects be monitored regularly to ensure the agreed scope of work is delivered to a satisfactory standard by the lead provider or contractor, and their subcontractors. Measuring the achievement of outputs/outcomes against performance indicators, and addressing any emerging problems in a timely way, are key aspects of DFID's approach to project management. Each individual project's value and risk assessment will determine the appropriate level of monitoring undertaken. Measures to manage the risks identified in project plans are also reviewed regularly, in line with the Department's guidance on risk management.

Zimbabwe: Politics and Government

Andrew Rosindell: To ask the Secretary of State for International Development what recent discussions he has had with the government of Zimbabwe on the humanitarian situation in that country. [269494]

Mr. Ivan Lewis: As yet there has been no direct UK contact at ministerial level with the new Government in Zimbabwe. However, officials from the Department for International Development (DFID) and colleagues from other Whitehall Departments are in regular contact with the new Government in Harare about the humanitarian situation and the terms under which a more direct aid relationship between the UK and Zimbabwe could be resumed. In the meantime we are continuing to provide significant levels of humanitarian support through the United Nations and non-governmental organisations.

DEFENCE

Aircraft Carriers: Rosyth

Lindsay Roy: To ask the Secretary of State for Defence how many jobs he estimates will be created in east central Scotland consequent upon the construction of the new aircraft carriers at Rosyth. [271247]

Mr. Quentin Davies: It is expected that the current core workforce for Rosyth Dockyard of around 1,200 will rise to around 1,400 at peak production of the carriers. In addition MacTaggart Scott and Co. Ltd., who employ 245 staff at the Loanhead site, Nr Edinburgh, were awarded the contract for the manufacture of aircraft lifts for the Queen Elizabeth class aircraft carriers. Further additional jobs may be created in second and third tier suppliers in the area.

Boscombe Down

Mr. Gray: To ask the Secretary of State for Defence whether he plans to upgrade the runway at Boscombe Down. [270369]

Mr. Bob Ainsworth: The main runway at MOD Boscombe Down is currently being resurfaced and the associated aeronautical ground lighting and signage are being replaced in order to maintain the existing capability of the airfield. There are no plans for the runway to be upgraded.

Colombia

John Cummings: To ask the Secretary of State for Defence on what dates *(a)* Ministers and *(b)* officials in his Department met representatives of the Colombian government to discuss defence matters in 2008. [270944]

Mr. Hutton: MOD Ministers had no official meetings with Colombian officials in 2008. Other members of the Ministry of Defence, however, routinely met representatives of the Colombian Government in the course of their duties. This information is not held centrally and could be provided only at disproportionate cost.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Defence what properties *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies have sold in each of the last five years; and how many have been sold for housing developments. [265108]

Mr. Kevan Jones: I will place a copy of the list of land and property sold by the Department and its agencies in each of the last five years, together with an indication of the expected planning use in the Library of the House. This replaces any previous lists. It should be noted that actual future use is a matter for the purchasers and local planning authorities to determine.

The MOD and the Department for Communities and Local Government are delivering affordable housing as part of wider government agenda. We have in the past sold a large number of strategic sites to DCLG, including Oakington barracks in Cambridge, Connaught barracks in Dover and Roussillon barracks in Chichester. This relationship continues with other sites at Aldershot, Daws Hill and Borden being currently discussed.

Departmental Hospitality

Dr. Fox: To ask the Secretary of State for Defence how much his Department spent on entertainment and hospitality in each financial year since 2001. [265405]

Mr. Kevan Jones: Official entertainment is typically offered where we host foreign Defence Ministers, armed forces representatives and civilian officials in the UK to use our influence to prevent conflict, pursue UK security policy interests and enhance professional contacts. Commanding officers may include entertainment in events for members of their unit to enhance and develop cohesiveness and team spirit. We may also include entertainment to further wider public understanding of defence, for example during an official parliamentary visit to a military unit or where we are launching a major defence initiative. Entertainment, which must be modest, usually takes the form of light refreshments, lunches, dinners or, more rarely, receptions.

We have reported the costs of entertainment in our annual report.

These figures include expenditure by the defence agencies, but not by the MOD's trading funds and Executive non-departmental public bodies, which lie outside the MOD's accounting boundary.

Copies of our annual report and accounts are available in the Library of the House and online under the MOD's Freedom of Information Publication Scheme at:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/AnnualReports/

Military Aircraft

Nick Harvey: To ask the Secretary of State for Defence what the average annual flying hours were for *(a)* C-130, *(b)* C-17 and *(c)* Tristar aircraft in each year since 2001. [271389]

Mr. Bob Ainsworth: I refer the hon. Member to the table contained in my answer of 10 July 2008, *Official Report*, column 1748W, to the hon. Member for Woodspring (Dr. Fox).

As stated in my previous answer there is no requirement for the Department to hold data on average flying hours therefore the data provided are for planned and actual flying hours only. Figures for financial year 2008-09 are provided in the following table.

	Planned	*Actual*
Tristar	11,561	8,966
Hercules C1/3/4/5	29,596	27,301
C17A	6,800	8,000

NATO: Location

Dr. Murrison: To ask the Secretary of State for Defence at what meetings *(a)* Ministers and *(b)* officials from his Department have with their (i) French and (ii) US counterparts discussed the relocation of NATO Allied Command Transformation from Norfolk, Virginia to continental Europe in the last 12 months. [271502]

Mr. Hutton: There have been no such discussions.

RAF Leuchars

Angus Robertson: To ask the Secretary of State for Defence what the timetable is for the introduction of the three Typhoon squadrons to RAF Leuchars. [270467]

Mr. Bob Ainsworth: 6 Squadron is planned to stand-up with Typhoon at RAF Leuchars on 1 October 2010. It is planned that two further squadrons, which have yet to be allocated nameplates, will stand-up at RAF Leuchars on 1 October 2011 and 1 October 2012 respectively.

RAF Lyneham

Mr. Gray: To ask the Secretary of State for Defence when he expects to announce his decision on the future of RAF Lyneham. [270371]

Mr. Bob Ainsworth: I expect to make an announcement shortly.

RAF Northolt

Mr. Gray: To ask the Secretary of State for Defence what plans he has for the future development of RAF Northolt. [270370]

Mr. Kevan Jones: RAF Northolt has been identified as a core defence site and as such its future is secure. Current plans for development continue under Project MoDEL through which the MOD is rationalising its estate in London. There are no current plans to develop the site further.

Rescue Services

Sir Menzies Campbell: To ask the Secretary of State for Defence what progress has been made towards bringing the Search and Rescue capability provided by his Department and the Maritime and Coastguard Agency together as a single service. [270912]

Mr. Bob Ainsworth: I refer the right hon. and learned Member to the answer given by my hon. Friend, the Minster for Defence Equipment and Support, (Mr. Davies) on 13 January 2009, *Official Report*, column 559W, to the hon. Member for North Devon (Nick Harvey).

Sir Menzies Campbell: To ask the Secretary of State for Defence what conditions bidders had to comply with in tendering for the contract to provide the Search and Rescue Service. [270913]

Mr. Bob Ainsworth: A Contract Notice inviting requests to participate in the competition for the provision of the harmonised UK search and rescue capability was issued in the Official Journal of the European Union on 12 May 2006. Respondents were subsequently invited to demonstrate their understanding of the requirement and their experience, competence and suitability in relation to it. A number of suitable parties were selected for participation in a competitive dialogue procedure in accordance with European Union procurement regulations; two consortia remain.

Somalia: Piracy

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the unclassified version of the Combined Maritime Forces Headquarters daily counterpiracy campaign update slide for each Monday of each month since February 2009. [270942]

Mr. Bob Ainsworth: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Territorial Army: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for Defence (1) which Territorial Army units are based in the West Midlands; [270387]

(2) how many Territorial Army units based in the West Midlands have taken part in military operations in *(a)* Afghanistan and *(b)* Iraq, either as units or by sending individual personnel; [270388]

(3) what percentage of Territorial Army personnel based in the West Midlands have previously served in the armed forces full-time. [270389]

Mr. Bob Ainsworth: The Territorial Army (TA) units based in the West Midlands are listed as follows:

The Royal Mercian and Lancastrian Yeomanry
210 Battery Royal Artillery

214 Battery Royal Artillery
125 Field Squadron Royal Engineers
301 Troop Independent Commando Squadron Royal Engineers
35 Signal Regiment
37 Signal Regiment
4 Mercian Regiment
6 Flight Army Air Corps
159 Supply Regiment Royal Logistic Corps
202 (Medical) Field Hospital
225 Field Squadron (Medical)
126 Workshop Company Royal Electrical and Mechanical Engineers
116 Provost Company Royal Military Police
29 Military Intelligence Company
Birmingham University Officer Training Corps
143 Brigade Regional Training Centre
West Midlands Reserve Forces and Cadets Association
HQ 12 Signal Group

Information on what percentage of TA personnel based in the West Midlands have previously served in the armed forces full-time is not held centrally and could be provided only at disproportionate cost.

Since 2003, 15 TA units within 143 (West Midlands) Brigade have supported operations in Iraq, and 13 in Afghanistan. Of these, five units have supported both theatres. Participation has been both as formed cohorts and through the provision of individual augmentees.

World War I: Battlefields

Mr. Gordon Prentice: To ask the Secretary of State for Defence if he will hold discussions with representatives of the Belgian government on the preservation of First World War battlefield sites; and if he will make a statement. [270866]

Mr. Kevan Jones: While there are no plans for discussions with representatives of the Belgian Government on the preservation of First World War battlefield sites, the Government do maintain a close interest in these sites. Although my Department's policy is to discourage their disturbance, we do however recognise that in parts of Europe land reclamation and construction activity will mean that battlefields may need to be disturbed. In such cases, on behalf of the UK, the Commonwealth War Graves Commission (CWGC) keeps in close contact with the Belgian authorities who are fully aware that the discovery of any remains of British or Commonwealth service personnel is to be immediately reported to the CWGC and the local police. They are also aware of the need to protect the remains together with any associated artefacts and personal effects for possible identification and re-burial.

HOME DEPARTMENT

Community Relations: Finance

Mr. Paul Goodman: To ask the Secretary of State for the Home Department pursuant to the answer of 21 January 2009, *Official Report*, column 1481W, on community relations: finance, how much of the work in prisons aimed at tackling vulnerability to radicalisation and being funded by the National Offender Management Service and partner agencies is being delivered by sub-contractors; and what mechanisms are in place to monitor the performance of such sub-contractors. [270581]

Mr. Straw: I have been asked to reply.

The Home Office funds one mentoring scheme which operates within prisons. Evaluation of this scheme is being undertaken by an independent third party under the supervision of the research team in the Office for Security and Counter Terrorism.

Departmental Assets

Bob Spink: To ask the Secretary of State for the Home Department when her Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269863]

Mr. Woolas: My Department's Estates and Sustainability Board approved a strategy for managing our estate in June 2008. The strategy enables us to maximise value for money through better use of the estate, and helps ensure that the estate evolves to most efficiently support departmental objectives.

Foreign Workers: EU Nationals

Mr. Davidson: To ask the Secretary of State for the Home Department when the worker registration scheme for nationals of Eastern European EU member states is due to expire; what options to extend it there are; whether the Government have taken a decision on an extension; and if she will make a statement. [265820]

Mr. Woolas: On 8 April I announced that the UK Government would retain the worker registration scheme for a further two years, subject to a review in 12 months' time. This decision was taken following receipt of advice from the independent Migration Advisory Committee. Their report can be found at:

http://www.ukba.homeoffice.gov.uk/aboutus/workingwithus/indbodies/mac/

A copy will be placed in the House Library. Retaining WRS will help protect our labour market at this difficult time. It will also mean that the UK can continue to collect A8 data to determine whether further steps may be needed over the next two years to prevent disruption of the UK labour market.

Identity Cards: Disclosure of Information

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 12 January 2009, *Official Report*, columns 508-9W, on disclosure of information: identity cards, what steps she plans to take following the latest Information Tribunal ruling requiring the disclosure of the Gateway Review documents. [270147]

Mr. Woolas: The Identity and Passport Service and the Office of Government Commerce have published two Gateway Reviews documents on the Identity Cards programme.

Electronic copies of the two reports are available on the Identity and Passport Service website at:

www.ips.gov.uk

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 18 February 2009 from the right hon. Member for Manchester, Gorton, on Mr Alam Khan. [271020]

Jacqui Smith: I wrote to my right hon. Friend on 25 March 2009.

Sir Gerald Kaufman: To ask the Secretary of State for the Home Department when she plans to reply to the letter of 25 February 2009 from the right hon. Member for Manchester, Gorton, on Shahin Vasi. [271025]

Jacqui Smith: I wrote to my right hon. Friend on 17 March 2009.

Overseas Students

Jim Cousins: To ask the Secretary of State for the Home Department what steps she takes to ensure that those in possession of overseas student visas continue to be enrolled students and work no more than 20 hours a week. [264452]

Mr. Woolas: Individuals granted leave to enter or remain in the UK must continue to meet the requirements under which that leave was granted and comply with any conditions attached to that grant of leave, including any restrictions on the amount and type of work they can do.

If a student fails to enrol on a course of study, or ceases attending, they may have their leave curtailed or a future application refused.

Educational establishments are encouraged to report non-enrolment or non-attendance to the UK Border Agency and a facility exists to provide this information on our website.

Under the new points-based system for migrants, educational establishments must be licensed by the UK Border Agency and, in order to retain their licence, comply with a number of duties. These include reporting to the UK Border Agency any overseas student who fails to enrol, or stops attending their approved course of study. Educational establishments who fail to comply with these duties will risk having their licence withdrawn and will not therefore be able to bring in overseas students under Tier 4.

Details of the new arrangements were published on our website:

www.ukba.homeoffice.gov.uk/sitecontent/applicationforms/pbs/tier4

on 9 March. A copy will be placed in the House Library.

Where a student is found to be in breach of these conditions there are a range of sanctions that the UK Border Agency can use, including fines, prosecution and removal. Those employers who knowingly allow overseas nationals to take employment without the appropriate immigration permission may be fined up to £10,000.

The Government are committed to tackling those people who abuse the immigration laws. To aid this we have focused over 1,000 additional immigration staff on enforcement duties including working with local employers and colleges to support compliance with sponsor obligations and the law.

Police: Bureaucracy

Mr. Sharma: To ask the Secretary of State for the Home Department what the remit is of the Police Independent Bureaucracy Champion; what work the Champion has taken since July 2008; and if she will make a statement. [269103]

Mr. Coaker: Jan Berry took up her role as the independent Reducing Bureaucracy Advocate on 1 October 2008 and she was asked to bring a fresh perspective to reducing unnecessary bureaucracy in policing. Her role is independent from the Home Office and she has been given a broad remit, specifically to drive forward the implementation of the bureaucracy reducing recommendations made by Sir Ronnie Flanagan; to challenge the Government and the police service to remove or reduce unnecessary bureaucracy; and to tackle risk aversion where it is preventing police officers from exercising their professional judgment.

Since her appointment, Jan Berry has established a Reducing Bureaucracy Practitioner Group, comprising frontline police officers and support staff, to analyse common procedures undertaken by frontline officers and staff with a view to reducing the bureaucracy involved in them. The group has already drawn up an initial list of processes for future analysis; including accident reporting, call handling, case building, custody, missing persons investigations and the use of force.

Jan Berry has met with a number of policing representatives, across all ranks, as well as colleagues from across the criminal justice system, to inform her consideration of the bureaucracy involved in policing. She has also held meetings with the Attorney-General, Director of Public Prosecutions (DPP) and the Chief Prosecuting Solicitor to seek agreement to work towards a complimentary and integrated IT system across the whole of the CJS. She is also working with the DPP and conducting research into custody processes with a view to making recommendations for change.

Throughout her work to date Jan Berry has emphasised her view that removing paper processes will not in itself remove unnecessary bureaucracy and that there is a need to provide police officers with experience to make good decisions and to rebuild trust and confidence.

Her interim report, 'Reducing Bureaucracy in Policing', was published on 16 February 2009 and is available in the House Library. Her full report is expected in summer 2009.

Repatriation: Zimbabwe

Andrew Rosindell: To ask the Secretary of State for the Home Department how many Zimbabwean citizens were repatriated to Zimbabwe from the UK in 2008. [269485]

Mr. Woolas: In 2008, 375 Zimbabwean nationals were removed or voluntarily departed from the UK to Zimbabwe.

National Statistics on removals and voluntary departures in 2008 from the UK, by country of nationality and destination are published in the supplementary Excel Table 1 of the "Control of Immigration: Quarterly Statistical Summary United Kingdom Q4 2008" bulletin. Copies of this publication are available from the Library of the House and the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/pdfs09/immiq408.pdf

supplementary tables:

http://www.homeoffice.gov.uk/rds/pdfs09/immiq408supp.xls)

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Terrorism: West Midlands

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what her most recent assessment is of the effectiveness of anti-terror policing in the West Midlands. [270384]

Mr. Coaker: One of the UK's four counter-terrorism units is situated in the West Midlands. These are strategically located national assets which enhance and support the work of police forces by providing coordination and specialist support to deliver our counter-terrorism strategy. The unit has a broad operational capability incorporating intelligence, investigation and surveillance functions. As well as day-to-day prevention and disruption activity to counter the threat posed by terrorism, the unit has been responsible for a number of arrests and prosecutions under the Terrorism Act.

FOREIGN AND COMMONWEALTH OFFICE

Afghanistan

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress made in achieving the goals of the Afghanistan Compact. [270096]

Bill Rammell: The goals of the Afghan Compact, agreed in London in 2006, are wide-ranging, addressing security; governance, rule of law and human rights; and economic and social development.

Progress against these goals was reviewed at the Paris Conference on Afghanistan on 12 June 2008. Some important examples of progress highlighted at the Conference, were:

Afghanistan's first parliamentary elections in 36 years were held in September 2005.

27 per cent. of the seats in the Lower House of Parliament are now held by women.

Between 2002-3 and 2005-6 the economy grew by 42 per cent.

Almost six million children, a third of which are girls, are now in school compared to one million in 2001.

82 per cent. of Afghans now have access to basic healthcare, compared to 9 percent in 2002.

More information on the Paris Conference can be found at:

http://www.fco.gov.uk/en/fco-in-action/uk-in-afghanistan/politics/afghanistan-politics-paris

For a more recent UK overview of progress in Afghanistan, also addressing many of the themes in the Compact, please see the link following to the recent Foreign and Commonwealth Office Memorandum of Evidence; submitted to the Foreign Affairs Committee as part of their Global Security Inquiry into Afghanistan:

http://www.publications.parliament.uk/pa/cm200809/cmselect/cmfaff/memo/afghanistan/ucgs0402.htm

Afghanistan: Peacekeeping Operations

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the Government have made to the US Administration's strategy review of Afghanistan. [270549]

Bill Rammell *[holding answer 22 April 2009]*: As a key ally of the US, the UK provided assistance to a US-led review of American defence and security policy in the Greater Middle East and Central Asian area, including the secondment of Ministry of Defence, Foreign and Commonwealth Office and Department for International Development officials to contribute to this work.

I also refer the hon. Member to the answer my hon. Friend the Parliamentary Under-Secretary of State (Gillian Merron) gave on 26 November 2008, *Official Report*, columns 1795-96W.

Beijing

Mr. Heathcoat-Amory: To ask the Secretary of State for Foreign and Commonwealth Affairs how many visits were made by Ministers to Beijing in the financial year 2007-08. [269670]

Bill Rammell: There were 14 visits made by Ministers to Beijing in the financial year 2007-08. The following Minsters visited Beijing during this period:

Mr. Liam Byrne MP, Minister-Home Office: 19-21 April 2007

Right hon. John Prescott MP, Deputy Prime Minister: 22-24 April 2007

Right hon. Margaret Beckett MP, Foreign Secretary: 18-19 May 2007

Right hon. Douglas Alexander MP, Secretary of State For Transport: 4-7 June 2007

Lord Malloch Brown, Minister, Foreign and Commonwealth Office: 27-29 August2007

Mr. Liam Byrne MP, Minister Home Office: 8-10 October 2007

Right hon. John Denham MP, Secretary of State For Innovation, Universities and Skill: 28-30 October 2007

Ms Tessa Jowell MP, Minister for the Olympics: 11-15 November 2007

Lord Jones, Minister for Trade Promotion: 19-23 November 2007 and 17-19 January 2008

Right hon. John Hutton MP, Secretary of State for Business, Enterprise and Regulatory Reform, BERR: 18-19 January 2008

Right hon. Gordon Brown MP, Prime Minister: 18-19 January 2008

Mr. Tom Harris MP, Minister, Department for Transport: 27 February - 2 March 2008

Right hon. David Miliband MP, Foreign Secretary: 24-29 February 2008

Burma: Arms Trade

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what information his Department holds on which countries are the main arms suppliers to the Government of Burma. [271107]

Bill Rammell: We understand that the Burmese Government looks to procure military equipment from its traditional allies in the region. However, we do not collate or hold information on Burmese arms supplies or their sources.

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Government of Japan on a global arms embargo against Burma. [271193]

Bill Rammell: The UK supports the imposition of a UN arms embargo but this would require the adoption of a Chapter VII resolution by the Security Council. The current composition of the UN Security Council makes a universal arms ban unlikely at the short term. We have had no recent discussions with Japan on the prospects for the imposition of a global arms embargo.

A strict EU arms embargo against Burma is already in place and we discourage all other arms producing countries from selling arms to Burma.

Burma: Politics and Government

John Battle: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the new constitution for Burma that will be enacted after elections in 2010. [271108]

Bill Rammell: We continue to have grave concerns about the Burmese authorities 'roadmap process', the new constitution and elections planned for 2010. The referendum of May 2008 was deeply flawed and the constitution that has emerged from it appears designed to perpetuate military domination of the state. The constitution was drawn up without any meaningful participation by the opposition or the main ethnic groups.

Departmental Public Expenditure

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 12 March 2009, *Official Report*, column 625W, on departmental public expenditure, what activities have been *(a)* delayed in 2008-09 and *(b)* identified for delay in 2009-10 at embassies in (i) Amman, (ii) Lagos, (iii) New Delhi and (iv) Brussels. [267824]

David Miliband *[holding answer 27 March 2009]*: The posts concerned received over £4 million of Overseas Price Movements (OPM) mechanism uplifts in 2008-09 in order to maintain the purchasing power of their budget and to ensure they could deliver their strategic objectives without delaying activity.

However, in some of these posts there were some delays to low priority capital expenditure, including accommodation improvements, as we did not provide OPM for capital expenditure.

Work on 2009-10 budget setting has recently concluded and posts are currently finalising their activity plans against their resource allocation.

Iran: Arms Trade

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps have been taken at *(a)* United Nations and *(b)* EU level in response to the finding by the UN Iran Sanctions Committee that the vessel MV Monchegorsk was transporting arms-related material from Iran to Syria. [270678]

David Miliband: We continue to have discussions with our UN and European partners to improve enforcement of sanctions against Iran. As Cypriot Foreign Minister Marcos Kyprianou has said, the Monchegorsk was in "clear" breach of UN sanctions banning Iran from exporting arms and related materiel. By retaining the cargo at a secure facility, Cyprus has dealt with the situation effectively and in line with UN and EU requirements.

We are continuing to support the Committee's ongoing efforts to ensure full implementation of the measures prescribed in Security Council resolutions 1737 (2006), 1747 (2007) and 1803 (2008). All states have an obligation to comply fully with mandatory measures imposed by the UN Security Council.

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the UN Sanctions Committee has received reports from *(a)* Iran and *(b)* Syria on the shipment of arms-related material from Iran to Syria in the vessel MV Monchegorsk. [270679]

David Miliband: On 9 March 2009, the Chairman of the UN Security Council's Iran Sanctions Committee requested reports from both Iran and Syria on this incident, which was in violation of a legally-binding chapter VII Security Council resolution.

Syria replied to the Chairman of the Iran Sanctions Committee on 17 March 2009.

Iran did not reply directly, but issued a press statement on 31 March 2009 claiming that the shipment was "within the framework of normal trade transactions".

The letter from Syria included no denial that sanctions had been breached. We are pressing through the Committee to ensure full implementation of the measures prescribed in UN Security Council resolutions 1737 (2006) 1747 (2007) and 1803 (2008) and gain a full explanation for the breach from the countries concerned. All states have an obligation to comply fully with mandatory measures imposed by the UN Security Council.

Iran: Nuclear Power

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his policy that suspension by Iran of its uranium enrichment programme should be a precondition for negotiations on its nuclear programme; and if he will make a statement. [270687]

David Miliband: The UK fully subscribes to the E3+3 group of countries' dual-track strategy, which makes clear that Iran must suspend its enrichment-related activities, as required by five UN Security Council Resolutions, before full negotiations can begin. Iran needs to demonstrate the exclusively peaceful nature of its nuclear programme. We and our E3+3 partners will continue to try and persuade Iran that negotiations and transparency present the best route to resolving this issue.

Latin America: Conflict Prevention

Mr. Moore: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 25 March 2009, *Official Report*, columns 17-19WS, on conflict resources 2009-10, what schemes are being funded under the Conflict Prevention Pool programme in Latin America; and what assessment he has made of the impact of the withdrawal of UK funding on these schemes. [267728]

Bill Rammell: The schemes funded by the Latin America Conflict Prevention Pool are listed in the following table:

Country	*Project*
Colombia	Regional Humanitarian Mine Action and Training Centre
	Strengthening the effective and transparent implementation of the Voluntary Principles on Security and Human Rights through the engagement of civil society organisations
	Strengthening economic reintegration policy for Internally-Displaced Persons through increased involvement of the private sector
	Implementation of Colombian Ministry of Defence (MOD)'s Human Rights policy - promotion of Security Forces' protection and prevention role in relation to forced displacement
	Supporting the Colombian MoD's Human Rights and International Humanitarian Law policy through implementation of Best Practices in Chain of Custody
	Strengthening investigations of Forced Disappearances through improved case-management and chain of custody protocols
	Institutional strengthening of the Ombudsman's Office for protecting Internally-Displaced Persons' housing, land and property rights
	Supporting implementation of the National Search Plan through capacity building of key State Institutions to address cases of enforced disappearances
	Colombian MoD Human Rights
Bolivia	Security Sector Reform
Venezuela	National Police Reform in Anzoategui State
	UN High Commissioner for Refugees Comprehensive Strategy for Conflict Prevention and Management on Venezuelan border
Belize/Guatemala	Organisation of American States (OAS) Office Capacity Building
	Audit of Donor Programmes in Belize and Guatemala
	Assistance to the OAS Office in the Adjacency Zone
	Research Piece: The Case for Resolution
	Information/Media Campaigns
	River Border workshop
	Sarstoon River support
	Technical assistance for referendum
	Legal 'Basket Fund'
	Belize - Prisoner Handling Training
Caribbean	Guyana Security Sector Reform
	Caribbean Prison Reform
	Caribbean Law Enforcement Adviser
	Joint Capacity Building in the JDF and JCF in Jamaica
	Caribbean Strategic Conflict and Security Assessment
	Regional Aviation Security Training

It is too early to provide a full assessment of the impact of Conflict Prevention Pool funding reductions in Latin America. Some of the above projects have been transferred to other funding streams, including strategic programme funds and bilateral programme budgets. We are also discussing with external stakeholders the possibility of joint funding for some of these schemes. The Department for International Development (DFID) also contributes significantly to multilateral work in the region. DFID's multilateral financial support is increasing by 15 per cent. over the next three years from £84 million to £97 million in 2010-11. DFID's new "Working in Partnership in Latin America" will also see the UK support the work of 12 international civil society partners increase to £13 million per year.

Morocco: Fisheries

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek suspension of the EU-Morocco Fisheries Agreement in the light of reports of EU vessels fishing in the waters off Western Sahara in an area covered by the declaration of an exclusive economic zone by the Sahrawi Arab Democratic Republic. [270938]

Bill Rammell: My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs has no plans to seek the suspension of the EU-Morocco Fisheries Agreement.

The EU-Morocco Fisheries Agreement was agreed in 2006 and sets out the terms for which UK and other European fishing vessels may fish in the waters off the coast of Western Sahara. The agreement does not prejudice the issue of the status of Western Sahara, which the UK regards as undetermined pending UN efforts to find a resolution. Nor does the agreement represent recognition of Morocco's sovereignty over the maritime waters off Western Sahara.

National Security

David Davis: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions he and his predecessors have authorised warrants under section 7 of the Intelligence and Security Act 1994 since 1997. [271251]

David Miliband: The issuing of authorisations under section 7 of the Intelligence and Security Act is scrutinized by the Intelligence Services Commissioner. In his most recent Report of the Intelligence Services Commissioner, he gave an account of his scrutiny function and noted that:

> "Consistent with the practice followed since annual reporting by the respective statutory Commissioners began, I do not propose to disclose publicly the numbers of warrants or authorisations issued to the security and intelligence agencies. That is because, it would, I believe, assist those unfriendly to the UK were they able to know the extent of the work of the Security Service, SIS (Secret Intelligence Service) and GCHQ (Government Communications Headquarters) in fulfilling their functions. The figures are, however of interest and I have included them in the confidential annex to this report."

North Korea: Sanctions

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on new UN sanctions on North Korea following its recent satellite launch and decision to withdraw co-operation with the International Atomic Energy Agency; and if he will make a statement. [270653]

David Miliband: The Government have joined international partners in condemning North Korea's satellite launch on 5 April 2009. The launch was in contravention of UN Security Council Resolution (UNSCR) 1718 (2006), and the subsequent decision to expel the International Atomic Energy Agency and US monitors working at Yongbyon was completely unjustified. The UN Security Council issued a strong presidential statement on 13 April 2009, and we following up with partners in the Sanctions Committee set up by UNSCR 1718. Sanctions are an important part of a wider framework of measures which, taken together, increase pressure on North Korea to cease its pursuit of weapons of mass destruction. In contacts with the North Korean government in London and Pyongyang, we continue to urge restraint and encourage them to re-engage with the six party talks process.

Sri Lanka: Politics and Government

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Sri Lankan government in respect of the political situation in that country; and if he will make a statement. [271057]

Bill Rammell *[holding answer 24 April 2009]*: We are in regular discussions with the Sri Lankan Government about the urgent humanitarian situation in northern Sri Lanka. My right hon. Friend the Prime Minister telephoned President Rajapakse on 21 April 2009 to press for a renewed and longer pause in fighting to allow civilians to leave and for humanitarian supplies to be delivered.

My right hon. Friend the Foreign Secretary spoke to Sri Lankan Foreign Minister Bogollagama on 23 April 2009. He remains actively engaged with his international counterparts, and the UN, in pressing for a renewed pause in righting. The Foreign Secretary also made a written ministerial statement on 22 April 2009, *Official Report*, column 17WS.

UN World Conference Against Racism

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what steps he *(a)* has taken and *(b)* plans to take at the United Nations in respect of statements about the state of Israel made by the President of Iran at the UN Durban 2 anti-racism conference; and if he will make a statement; [271442]

(2) what discussions *(a)* he *(b)* Ministers and *(c)* officials in his Department plan to have with governments of Arab states on the statements about the state of Israel made by the President of Iran at the UN Durban 2 anti-racism conference; and if he will make a statement. [271443]

Bill Rammell: The UK condemns the hate-filled rhetoric of President Ahmadinejad and deems it offensive, inflammatory and utterly unacceptable. My right hon. Friend the Foreign Secretary reiterated this in his press statement of 20 April 2009 in response to President Ahmadinejad's statement at the Durban Review Conference in Geneva that day. A copy of the statement may be found on the Foreign and Commonwealth Office website at:

www.fco.gov.uk/en/newsroom

We will continue to make our views clear at all levels in discussions with UN members and other states around the world.

Zimbabwe: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress towards *(a)* democratic reform and *(b)* human rights reform in Zimbabwe since the formation of the coalition government; and if he will make a statement. [270654]

David Miliband: We are encouraged by the new Government's stated commitment to reform, such as the drafting of a new constitution, greater media freedom, respect for the rule of law and opening up democratic space. It is important that those commitments are implemented as soon as possible. We have seen little progress towards respect for human rights on the ground. Although political detainees have been released, they have been subject to extremely strict bail conditions. Some continue to be harassed by government officials. Violent farm seizures have escalated since the formation of the transitional government, despite the appointment by Prime Minister Tsvangirai of a ministerial team to investigate the abuses. In some cases, members of the police have been fully involved in targeting the farmers and their labourers.

PRIME MINISTER

Warrants

David Davis: To ask the Prime Minister on how many occasions he and his predecessor have authorised warrants under section 7 of the Intelligence and Security Act 1994 since 1997. [271252]

The Prime Minister: Warrants issued under section 7 of the Intelligence Services Act 1994 (ISA) must be authorised by a Secretary of State rather than the Prime Minister.

ELECTORAL COMMISSION COMMITTEE

Electoral Register: Databases

Mrs. Spelman: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission plans to seek to keep the new CORE electoral registration database. [271287]

Sir Peter Viggers: The Electoral Commission informs me that it does not wish to assume the role of keeping the CORE electoral registration database. The Commission set out its reasons in a letter sent to Ministry of Justice officials dated 26 November 2008. A copy of the letter has been placed in the House of Commons Library.

Voting Methods

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance the Electoral Commission has issued on the use of personal identifiers to verify *(a)* postal vote applications, *(b)* proxy vote applications and *(c)* postal vote ballot papers in respect to the (i) selection of identifiers and (ii) proportion of papers to be checked. [269947]

Sir Peter Viggers: The Electoral Commission informs me that it issues detailed guidance to electoral registration officers and returning officers on the verification of personal identifiers included on postal and proxy vote applications and postal voting statements.

The guidance gives full information on the identifiers that may be used by an electoral registration officer to verify a postal or proxy vote application. The guidance also strongly recommends that returning officers should verify 100 per cent. of returned postal voting statements.

The Commission's most recent guidance, for electoral registration officers and local returning officers at the 2009 European parliamentary elections, can be found on the Commission's website:

www.electoralcommission.org.uk

Copies have been placed in the House of Commons Library.

JUSTICE

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Justice how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270514]

Mr. Wills: Suspension forms part of the MoJ's discipline policy. Staff may be suspended during a disciplinary process if initial fact finding shows that the employee's actions might amount to gross misconduct; may impact on the health and safety of the employee or other employees might be at risk; it is suspected that potential witnesses might be influenced by the employee; the working relationship with the employee has broken down; or it is suspected that there is a risk to MoJ's property. Under the Civil Service Management Code individuals under criminal investigation or disciplinary procedures may be suspended from duty to protect the public interest.

Suspension is not a disciplinary sanction nor is it considered an indication of guilt and, in most cases, employees will not be suspended during the disciplinary process. A suspended employee will normally continue to receive full pay and is expected to remain available during their normal working hours and to fully co-operate with a disciplinary investigation. In some circumstances, for example when an employee is remanded in custody, an employee may be suspended on no pay.

MoJ policies in this area are made available to all employees via our intranet.

The records for MoJ, excluding the National Offender Management Service (NOMS) show that, as at 21 April 2009, 17 employees were suspended. All of them were suspended on full pay in line with the MoJ policy and all of these were suspended for reasons that initial investigations indicated might fall into one or more of the categories set out above.

The length of time suspended from duty of the 17 employees referred to above varies from one to five months.

NOMS does not hold the detailed information centrally in a format that would enable us to answer this question without incurring disproportionate cost.

Electoral Register

Mr. Maude: To ask the Secretary of State for Justice what the timetable is for the introduction of individual electoral registration in Great Britain; in what ways the system will differ from that deployed in Northern Ireland; and whether he plans to pilot different systems prior to permanent adoption. [269892]

Mr. Wills: As I announced at Commons Report stage of the Political Parties and Elections Bill, the phased introduction of individual registration will involve the voluntary collection of personal identifiers (alongside the existing process of household registration) from the autumn 2010 annual canvass until the autumn 2015 canvass. From this point it would be compulsory to provide identifiers for new registrations. By 2017 the provision of identifiers would be compulsory for all entries on the register. The shift to compulsory provision of identifiers in 2015 would be subject to a parliamentary vote on a recommendation by the Electoral Commission as to whether two statutory tests relating to the state of preparation for the change and the robustness of the registration system had been met.

The Government will table amendments to the Bill ahead of Grand Committee in the House of Lords to put this into effect. The system proposed will be closely modelled on that introduced in Northern Ireland in 2002, although we will wish to learn the lessons of Northern Ireland when implementing in Great Britain.

The proposed phased introduction of individual registration is intended to ensure that we can deliver a register that is both accurate and comprehensive. It will also allow the opportunity to effectively plan the necessary infrastructure to deliver the system. In addition, clauses 22 and 23 of the Bill provide for the piloting of data matching schemes that will allow us to test, in a controlled way, new tools to help electoral registration officers improve the accuracy and comprehensiveness of their registers.

Legal Aid: Finance

Peter Bottomley: To ask the Secretary of State for Justice if he will publish the recent statement by the Legal Services Commission (LSC) on managing the remaining BACS payment runs for March; how legal aid providers are informed that they can contact their regional office for urgent payment; for what reasons the LSC made its statement; and when Ministers were informed *(a)* of the matter and *(b)* the LSC's decision on how to manage it. [268098]

Mr. Malik: The LSC received a query on 24 March 2009 from CrimeLine about payments over the end of the financial year. On 26 March, the LSC issued the following response to CrimeLine:

> "Following the introduction in January of the new, more frequent payment regime, the LSC has cleared additional payments totalling approximately £41 million from January to February. The change from monthly to more frequent payments was made to help our providers in the current economic climate. In addition, we have put additional effort in to process providers' claims faster than previously experienced. We now turn round all claims on average in five working days.
>
> We have to ensure that our total cash spend is within our funding limit. So we are carefully managing the remaining BACS payment runs for March. Providers will still be receiving weekly payments.
>
> Any outstanding payments from this period will be settled in early April. Payments meantime will not stop and providers will continue to receive money. We discussed the situation with the Law Society and the Legal Aid Practitioners' Group so they are aware of what we're doing.
>
> Payments in response to exceptional circumstances are still being made, as and when they're judged to be necessary. Where a provider has an exceptional situation that requires an urgent payment, they should contact their regional office and advise them of the urgency so that due consideration can be given."

The LSC did not consider it necessary to publish a more formal statement, given the discussions that had taken place with the Law Society and Legal Aid Practitioners' Group. While my Noble friend Lord Bach, the Minister for Legal Aid, was involved in the wider discussions on providers' cash flow problems, he was not aware of the specific issue relating to the Financial Year end.

The LSC allocates a designated Relationship Manager for each provider. Providers can contact with their Relationship Manager with any queries they have concerning their contracts or payments.

Legal Aid: Negligence

Mr. Baron: To ask the Secretary of State for Justice pursuant to the answer of 11 March 2009, *Official Report*, column 453W, on legal aid: negligence, when he expects the information requested to be available. [271493]

Mr. Malik: I wrote to the hon. Member on 20 April with the information sought. A copy of the letter has been placed in the Library of the House of Commons.

Offenders: Databases

Mrs. Laing: To ask the Secretary of State for Justice how many *(a)* records and *(b)* data fields there are in (i) the National Offender Management Information System (C-Nomis), (ii) the Offender Risk Assessment System (OASys), (iii) the Offender Management National Infrastructure (Omni) and (iv) the Libra Case Management System. [265740]

Mr. Hanson: There are currently 4,915 records in the C-NOMIS (now Prison-NOMIS) system using 16,639 data fields.

Prison-NOMIS (formerly C-NOMIS) will replace the Prison Service case management system, 139 instances of Local Inmate Database System (LIDS), with an enhanced centralised system that also incorporates a fully integrated Management Information System (MIS) and Operational Reporting solution. It will therefore improve the information available to decision makers, and will increase the speed of access to information for those monitoring performance across a range of activity. The improved quality of information is expected to lead to better operational effectiveness and offender management, e.g. better sentence planning; better sentence delivery and better targeting of interventions.

Prison OASys currently contains 178,165 and Probation e-OASys 2,738,379 offender assessments using 750 data fields. The Offender Assessment System (OASys) is critical to the offender management process in that it enables the recording of static and dynamic risk factors as well as the risk of serious harm that an offender may pose to others. The next release of OASys, due in July 2009, will provide additional functionality for practitioners enabling a more efficient approach to offender assessment. The new OASys release will facilitate a shorter offender assessment depending upon the risks the offender poses. This will enable efficiencies specifically when working with lower risk offenders. The two current OASys applications in prison and probation will be replaced during 2011 by a single application developed within the OASys R project which is a project within the NOMIS programme.

There are 478,596 active case records held on the Libra system. There are 568,043 fields. This is the number of fields that are defined in the database. Included in these figures are fields that are system generated and therefore do not require individual data input.

Libra replaced the ageing magistrates courts computer systems with a single, national infrastructure and case management application. This has enabled HMCS to implement standard national business processes, improving efficiency across England and Wales. The Libra system improves joined up justice by providing electronic links between the courts and criminal justice partners such as the police, CPS, OCJR, Prisons and Probation and the DVLA.

The OASys assessments and C-NOMIS can be shared between prison and probation.

Libra holds information in a more structured and standardised format than the legacy systems within the magistrates courts. Holding the information in a structured way enables it to be exchanged effectively between the systems of different criminal justice organisations, reducing the need for the information to be re-keyed and improving overall efficiency for both courts and criminal justice partners. This means that there are more data fields than previously, as many of these fields have defined purpose for the sharing of information. While more data fields are required, Libra re-uses these much more effectively than legacy systems and so increases efficiency both within HMCS and across the criminal justice system.

The OMNI Infrastructure is a hardware and software mechanism for delivering IT services to the national Probation Service. It is not, in itself, a case management system and thus has no records or data fields.

TREASURY

Banks: Iceland

Mrs. Spelman: To ask the Chancellor of the Exchequer on what date *(a)* his Department and *(b)* the Financial Services Authority informed local authorities of the risks in depositing funds in Icelandic banks. [270432]

Ian Pearson: I refer the hon. Member to the answer I gave the hon. Member for Brentwood and Ongar (Mr. Pickles) on 11 November 2008, *Official Report*, column 1083W.

The Department for Communities and Local Government's guidance on local government investments issued under section 15 of the Local Government Act 2003 is available on the Department's website at:

http://www.local.odpm.gov.uk/finance/capital/data/lginvest2.pdf

Banks: Iran

Mr. Hague: To ask the Chancellor of the Exchequer pursuant to the answer of 9 March 2009, *Official Report*, column 101W, on banks: Iran, if he will place in the Library a copy of the advisory notice issued to all businesses on transactions with Iran. [270552]

Ian Pearson: The advisory notice issued on 11 March 2009 is available on the HM Treasury website at:

www.hm-treasury.gov.uk/press_26_09.htm

I am arranging for a copy to be placed in the Library.

Mr. Hague: To ask the Chancellor of the Exchequer what the amount of assets frozen in the United Kingdom is under the EU and UN sanctions on Iran; and if he will make a statement. [270651]

Ian Pearson: All funds belonging to, owned, held or controlled by individuals or entities designated under EU and UN sanctions on Iran are required to be frozen in the UK. The Iran (Financial Sanctions) Order 2007 and the Iran (European Community Financial Sanctions) Regulations 2007 give legal effect to the EU and UN measures in the UK and include a requirement for all UK persons to report frozen funds they hold to HM Treasury.

There is a significant amount of funds frozen in the UK under the EU and UN sanctions against Iran, as these measures have frozen the assets of Bank Sepah Iran and Bank Melli Iran, including their London-based subsidiaries, Bank Sepah International plc and Melli Bank plc.

Given the number of entities involved it would not be appropriate to set out the total amount of funds frozen under UN and EU sanctions. To do so would breach considerations of commercial confidentiality.

Capital Gains Tax

Dr. Cable: To ask the Chancellor of the Exchequer pursuant to the answer of 21 May 2008, *Official Report*, column 304W, on capital gains tax, if he will estimate the revenue implications of taxing capital gains at the same marginal rates as income tax, with indexation from April 2009 for the fiscal years *(a)* 2009-10, *(b)* 2010-11 and *(c)* 2011-12; and if he will make a statement. [269032]

Mr. Timms *[holding answer 20 April 2009]:* I refer the hon. Member to the answer I gave him on 23 February 2009, *Official Report*, column 313W.

Council Tax: Valuation

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1184W, on inheritance tax: housing, what the differences are between a locality and a locality group in relation to the use made of them by the Valuation Office Agency. [270666]

Mr. Timms: Localities are geographic areas of dwellings, which are subject to the same or similar market forces. Locality groups comprise a set of one or more localities, which are subject to similar market forces.

The Valuation Office Agency's Council Tax Banding Support Tool makes use of locality and locality group. The tool uses modelling techniques to identify properties that are most closely comparable to a given subject (in terms of location and property attributes) and provides the bandings of those properties. It initially searches for comparables within a subject property's immediate locality and, only where insufficient suitable comparables are available within the locality, will the remainder of the locality group be searched.

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1184W, on inheritance tax: housing, if he will place in the Library a copy of the guidance the Valuation Office Agency uses on making use of localities and locality groups within the council tax banding support tool. [270667]

Mr. Timms: The guidance produced for the council tax banding support tool comprises technical instruction on the use of a VOA internal IT application. It is not appropriate to publish information which might assist unauthorised access to VOA systems or databases.

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 940W, on valuation: housing, how many locality groups in England were used by the Valuation Office Agency in *(a)* 2008, *(b)* 2007 and *(c)* 2006. [270669]

Mr. Timms: The number of locality groups identified by the Valuation Office Agency (VOA) is liable to change during the course of a year to reflect the housing market. The following are approximate numbers of locality groups in England:

	Number
(a) June 2008	4,088
(b) January 2007	4,349
(c) June 2006	4,350

Mrs. Spelman: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Bromley and Chislehurst of 6 November 2008, *Official Report*, column 682W, on housing: valuation, if he will rank each individual locality reference in each valuation area in the South West according to value significance. [270671]

Mr. Timms: A list of locality reference numbers, ranked in order of value significance by Valuation Area within the Valuation Office Agency's South West Group, has been placed in the Library. The list is based on data extracted on 22 February 2009.

The release of information that identifies the extent and location of each locality, relative to the list of numbers that ranks each individual locality, would prejudice commercial interests.

Debt Collection

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1181W, on debt collection: powers of entry, if he will place in the Library a copy of the HM Revenue and Customs guidance on exercising distraint in relation to powers of entry and seizing assets. [270668]

Mr. Timms: HMRC's internal guidance to staff in respect of distraint is set out in the Debt Management and Banking Manual which is available on HMRC's website at:

http://www.hmrc.gov.uk/manuals/dmbmanual/DMBM655010.htm

HMRC also publish information about distraint aimed specifically at HMRC customers, including a fact sheet: "Distraint—what it means for you".

This customer facing guidance is available at:

http://www.hmrc.gov.uk/payinghmrc/problems/dontpay/debts.htm

Equitable Life Assurance Society

Daniel Kawczynski: To ask the Chancellor of the Exchequer with reference to the Government's response to the report of the Parliamentary Ombudsman's inquiry into the potential regulation of the Equitable Life Assurance Society, Cm 7538, from which *(a)* firms, *(b)* organisations and *(c)* individuals the Government sought actuarial advice when preparing its response. [269151]

Ian Pearson: The Government procured actuarial advice from Oliver Wyman Ltd. when considering their response to the parliamentary ombudsman's inquiry into the prudential regulation of Equitable Life.

G20: Greater London

Mrs. May: To ask the Chancellor of the Exchequer how much his Department spent on *(a)* coaches for delegates and the media and *(b)* other transportation for the London summit on 2 April 2009. [270807]

Angela Eagle: Spending on transportation costs associated with the London summit on 2 April 2009 was the responsibility of the Foreign and Commonwealth Office.

Local Government Finance

Mrs. Spelman: To ask the Chancellor of the Exchequer how much each local authority deposited in the Debt Management Account Deposit Facility in the last six months. [270437]

Angela Eagle: We are not able to provide details of deposits held by each local authority on the grounds of commercial and market sensitivity.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he plans to reply to the letter to him of 18 February 2009 from the right hon. Member for Manchester, Gorton with regards to Mr. Christian Callaghan-Newsham. [268029]

Ian Pearson: A reply has been sent to the right hon. Member by the Financial Services Secretary.

Ocean View Properties

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1186W, on Ocean View Properties, what the timetable is for the Financial Services Authority inquiry into the firms connected with Ocean View Properties. [270657]

Ian Pearson: It is inappropriate to discuss the details of any investigation by the Financial Services Authority, including the possible duration of that investigation.

Overseas Aid

Gregory Barker: To ask the Chancellor of the Exchequer how much in contributions the UK paid to the *(a)* World Bank Group, *(b)* European Bank for Reconstruction and Development and *(c)* European Investment Bank in each of the last five years. [265224]

Mr. Thomas: I have been asked to reply.

The following table sets out the core contributions paid into the *(a)* World Bank Group, *(b)* European Bank for Reconstruction and Development in each of the last five years. DFID does not make core contributions to the European Investment Bank.

£000

	World Bank Group[1]	*European Bank for Reconstruction and Development*[1]
2003-04	150,000	16,519
2004-05	150,000	18,935
2005-06	364,909	19,260
2006-07	493,333	[2]10,532
2007-08	493,387	[2]9,586

[1] Includes technical co-operation.

[2] From 2006-07, contributions to the EBRD have been recorded as bilateral expenditure, following new OECD Development Assistance Committee classifications.

Multilateral expenditure includes core contributions to multilateral organisations and aid supporting internal capacity building and administration costs. It does not include aid where the sector, theme, recipient country/region or specific project the aid will be used to support is known.

Presbyterian Mutual Society

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer if he will make an assessment of the merits of providing assistance to investors in the Presbyterian Mutual Society in Northern Ireland. [268725]

Ian Pearson *[holding answer 20 April 2009]:* The Government sympathise with the difficult situation faced by members of the Presbyterian Mutual Society (PMS). Organisations such as PMS, which are registered as industrial and provident societies, are exempt from regulation by the Financial Services Authority (FSA) in accepting deposits. Under Industrial and Provident Society legislation, any one member's shareholding is limited to £20,000. Members' deposits are held in the form of withdrawable share capital and societies should make clear to members that their deposits are therefore risk capital. Being outside of FSA regulation, the society and its members do not contribute to, and are therefore not protected by, the Financial Services Compensation Scheme (FSCS).

Public Expenditure

Mr. Sanders: To ask the Chancellor of the Exchequer when he plans the next comprehensive spending review to take place. [270400]

Yvette Cooper: Departmental budgets have been set to financial year 2010-11. The Chancellor of the Exchequer will announce the timing of the spending review process to set budgets from financial year 2011-12 in the normal way in due course.

Regional Economic Council

Mrs. Spelman: To ask the Chancellor of the Exchequer who the elected local government representatives on the Regional Economic Council are. [270436]

Angela Eagle: Local authorities are represented at the Regional Economic Council through representatives nominated by the Local Government Association.

Local government representatives have been invited from all nine regions for these meetings as well as the leader of the Local Government Association, Margaret Eaton.

Revenue and Customs

John Mason: To ask the Chancellor of the Exchequer (1) how many complaints the Department has received from *(a)* hon. and right hon. Members and *(b)* members of the public as a result of processing delays relating to benefits and tax credits since March 2008; whether the Department has assessed the performance of its individual offices as a result of processing delays; whether it has taken action following such assessments; and whether the Department has assessed the effect of processing delays on individual benefit recipients; [270483]

(2) what the average time taken to *(a)* process and *(b)* issue claims for child benefit and tax credits was in each month since March 2008; and what targets the Department has for the processing and payment of child benefit; [270485]

(3) how many claims have been delayed as a result of child benefit and tax credit applications being lost in each month since March 2008; and what the average length of such delays has been. [270486]

Mr. Timms: Information on the number of complaints received in relation to child benefit and tax credits is published annually in the HM Revenue and Customs (HMRC) departmental report. Separate information on the number of complaints received in the Department as a result of processing delays is not available.

HMRC sets its tax credits processing targets annually.

For information about HMRC targets and performance outturn in relation to tax credits, I refer the hon. Member to the answer I gave the hon. Member for Northavon (Steve Webb) on 24 February 2009, *Official Report*, columns 534-36W. Outturn for 2008-09 will be available later in the year.

HMRC introduced new targets in 2008-09 that measured the time taken to pay new child benefit claims. HMRC paid 65 per cent. of new claims in nine working days against a target of 69 per cent. and paid new child benefit claims in an average of 28 calendar days against a target of 20 calendar days.

More complex claims, including those from customers arriving from abroad, often require HMRC to make more detailed inquiries, and so HMRC may be unable to process and pay them within the usual target times. HMRC is continuously working to identify how resources can be most effectively deployed to achieve its revised aims.

Information on the numbers of applications lost is not available.

Revenue and Customs: Borders Region

Mr. Moore: To ask the Chancellor of the Exchequer what plans he has for the future of the HM Revenue and Customs Offices in *(a)* Galashiels and *(b)* Hawick; and if he will make a statement. [271309]

Mr. Timms: As announced last December, HM Revenue and Customs (HMRC) plans to close its offices in Galashiels and Hawick so that it can operate more effectively by consolidating work elsewhere. HMRC's aim is to redeploy the staff who currently work in the Galashiels and Hawick offices.

Inquiry centre services will continue to be provided in both towns either from the existing buildings or alternative buildings nearby.

Revenue and Customs: Correspondence

Mr. Winnick: To ask the Chancellor of the Exchequer if he will arrange for a reply to be sent by the director at the tax credit office in Preston to the hon. Member for Walsall North's letters of 12 January and 26 March 2009 on a constituent, ref CSSG22 TM6 2009/01 001605 TIMP DJ. [271088]

Mr. Timms: HM Revenue and Customs have advised me that they called my hon. Friend's constituent on 24 April 2009 and will send my hon. Friend a full reply shortly. The Department apologises for the delay in doing so.

Revenue and Customs: Data Protection

Mr. Burns: To ask the Chancellor of the Exchequer what estimate he has made of the number of people whose personal data was lost by HM Revenue and Customs in 2007 who have subsequently been affected by identity theft. [269334]

Mr. Timms: HMRC are in regular contact with the banks, financial institutions and law enforcement agencies in order to ensure that any fraudulent activity relating to data loss is identified as soon as possible should it occur. There has been no evidence to suggest any fraudulent activity has occurred as a result of the personal data lost by HM Revenue and Customs in 2007.

Revenue and Customs: Scotland

Stewart Hosie: To ask the Chancellor of the Exchequer what plans HM Revenue and Customs (HMRC) has to transfer services from Scotland to other areas of the UK; what locations are being retained by HMRC in Scotland; and what functions these offices will fulfil. [270487]

Mr. Timms: As part of the reorganisation of its business and estate across the whole of the UK, HMRC is retaining offices in the following locations in Scotland: Aberdeen; Bathgate; Cumbernauld; Dundee; East Kilbride; Edinburgh; Glasgow; Glenrothes; Inverness; Irvine; Kirkcaldy; Lerwick; Livingston; Paisley; Ullapool.

HMRC's businesses will consolidate work in these locations in line with their business plans. All HMRC's major business streams, dealing with personal and business taxpayers and tax credit claimants, are represented in Scotland and will continue to be so. There are no plans to transfer work from Scotland to other areas of the UK. However, inquiry centre services, offering a face to face service to HMRC customers, will be retained in all locations where they are currently offered, in Scotland and elsewhere.

Tax Credit: Scotland

Mr. Davidson: To ask the Chancellor of the Exchequer how many *(a)* families and *(b)* individuals are in receipt of (1) working tax credit in (i) Scotland, (ii) Glasgow and (iii) Glasgow, South West constituency; [270801]

(2) child tax credit in (i) Scotland, (ii) Glasgow and (iii) Glasgow South West constituency. [270802]

Mr. Timms: Estimates of the number of families benefiting from child and working tax credits in each Government office region, local authority and parliamentary constituency are available in the latest HMRC provisional awards snapshot publication, "Child and Working Tax Credits Statistics Geographical analyses" for December 2008. The publication is available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm

HMRC do not produce these statistics separately for child tax credit and working tax credit.

Taxation: Housing

Grant Shapps: To ask the Chancellor of the Exchequer how much of the £400 million of funding to stimulate housing development referred to on page 105 of the Budget 2009 Red Book will be allocated to each objective referred to on that page. [271492]

Angela Eagle: Budget 2009 announced £400 million in funding to unlock currently stalled housing developments in England. The funding will be allocated via a competitive bidding process, which will be open to all developers. The precise amount of additional funding for each component will depend on the sites that come forward from developers. The Homes and Communities Agency will set out criteria for bids shortly.

Taxation: Pensions

Steve Webb: To ask the Chancellor of the Exchequer pursuant to the Budget Statement of 22 April 2009, what percentage of expenditure incurred in the provision of tax relief would be attributed to expenditure incurred in relation to the 1.5 per cent. of pension savers if his proposals are implemented; and if he will make a statement. [271299]

Ian Pearson: The effect of the measure announced at Budget 2009 is to reduce the proportion of tax relief going to those with incomes above £150,000 from just over 25 per cent. to around 15 per cent. Both estimates relate to tax relief in 2011-12.

Valuation Office

Mrs. Spelman: To ask the Chancellor of the Exchequer what changes the Valuation Office Agency has made to its methodology for valuing properties for the purposes of stamp duty land tax in the last 24 months; and whether further changes have been planned. [270429]

Mr. Timms: The Valuation Office Agency has not changed its methodology for valuing properties for the purposes of stamp duty land tax. It has, however, together with Her Majesty's Revenue and Customs, issued guidance on the valuation approach that should be adopted when it is necessary to apportion the price paid for certain businesses when they are sold as a going concern. If any further alterations to this guidance are considered appropriate, then further changes will be made.

Mrs. Spelman: To ask the Chancellor of the Exchequer how many staff are employed by the Valuation Office Agency. [270430]

Mr. Timms: The numbers of full-time equivalent staff employed by the Valuation Office Agency (VOA) is 4,096 at 21 April 2009. This figure includes staff from the former Rent Service whose functions transferred to the VOA on 1 April 2009.

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1191W, on the Valuation Office, on what dates the project board overseeing the *(a)* electronic capture of hard copy records and *(b)* installation of a geographical information system met in the last 12 months. [270497]

Mr. Timms: The project boards overseeing *(a)* the electronic capture of hard copy records and *(b)* the installation of a geographical information system have held regular meetings over the last 12 months.

The dates of the respective project board meetings were:

(a) electronic capture of hard copy records:

16 April 2008;

13 May 2008;

21 July 2008;

29 September 2008;

30 October 2008;

27 November 2008;

28 January 2009;

19 February 2009;

26 March 2009.

(b) installation of a geographical information system:

3 April 2008;

28 April 2008;

13 May 2008;

8 September 2008;

14 October 2008;

4 November 2008;

10 December 2008;

14 January 2009;

25 February 2009;

22 April 2009.

Valuation Office: Geographical Information Systems

Mrs. Spelman: To ask the Chancellor of the Exchequer when he expects the Valuation Office Agency's new geographic information system to become operational; and what his most recent estimate is of the *(a)* set-up and *(b)* annual running costs of the system. [270433]

Mr. Timms: The Valuation Office Agency's (VOA) Geographic Information System (GIS) is designed to provide more accurate valuations, improving the service the VOA provides.

The GIS is expected to be operational in January 2010, and is estimated to involve set-up costs of £2,460,000, and annual running costs of £840,000.

Valuation Office: Northern Ireland Land and Property Services

Mrs. Spelman: To ask the Chancellor of the Exchequer with reference to the answer to the hon. Member for Brentwood and Ongar of 6 May 2008, *Official Report*, column 829W, on Valuation Office: Northern Ireland Land and Property Services, what meetings have taken place since May 2008. [270427]

Mr. Timms: Two meetings of the Steering Committee on Harmonisation (Practice and Procedure) England, Wales, Scotland, Northern Ireland and the Republic of Ireland have taken place since the start of May 2008. These were the 47th meeting held in Dublin, Republic of Ireland, on 7-8 May 2008 and the 48th meeting in Glasgow on 12-13 November 2008.

Valuation Office: Video Recordings

Mrs. Spelman: To ask the Chancellor of the Exchequer what video films the Valuation Office Agency has produced under its e-learning programme. [270431]

Mr. Timms: The VOA e-learning programmes include a number of short, internally produced digital film clips or vignettes. The VOA does not maintain a single comprehensive record of all such filmed sequences and to collate this material could be done only at disproportionate cost.

Working Tax Credit

Steve Webb: To ask the Chancellor of the Exchequer if he will review the operation of the 30-hour threshold for working tax credit eligibility for childless households of working age. [269262]

Mr. Timms: Parents and people with a disability are eligible for working tax credit (WTC) if they work at least 16 hours per week, while other people, who face less of a barrier to work, are eligible from 30 hours. WTC, including the 30-hour rule, has helped improve work incentives for people on low incomes.

To provide extra help to people working shorter hours, the Chancellor announced in the Budget that from 31 July 2009, HM Revenue and Customs will provide a four-week run of entitlement to WTC for those who cease to be eligible as a result of working fewer than 30 hours.

SOLICITOR-GENERAL

Smuggling: Tobacco

David Taylor: To ask the Solicitor-General pursuant to the answer of 4 March 2009, *Official Report*, column 1626W, on the Revenue and Customs Prosecution Office, how many full-time equivalent staff in the Attorney-General's office were working on the prevention of tobacco smuggling in *(a)* 2007-08 and *(b)* 2008-09; and what expenditure was incurred in employing such staff in each year. [270365]

The Solicitor-General: The Revenue and Customs Prosecutions Office (RCPO) is an independent Government Department. It prosecutes cases in England and Wales investigated by HM Revenue and Customs (HMRC) and the Serious Organised Crime Agency (SOCA). Its independence as a prosecutor is a key constitutional safeguard.

Its prosecutors work closely with investigators from HMRC and SOCA who are responsible for gathering evidence. Before any prosecution is initiated, its prosecutors will advise them on:

the potential prosecution consequences of the investigation routes that might or have been followed;

evidential requirements;

charges;

appropriate disclosure of material to the defence.

As soon as criminal proceedings begin, RCPO takes over full responsibility for the conduct of the case. RCPO therefore employs no staff on the prevention of tobacco smuggling which is an inherent part of HMRC's functions.

David Taylor: To ask the Solicitor-General pursuant to the answer of 4 March 2009, *Official Report*, column 1626W, on Revenue and Customs Prosecution Office, what the estimated cost of legal action taken against those accused of tobacco smuggling offences was in *(a)* 2007-08 and *(b)* 2008-09. [270366]

The Solicitor-General: The information is as follows:

(a) In 2007-08 RCPO spent an estimated £2,838,268 to prosecute tobacco smuggling offences.

(b) In 2008-09 RCPO spent an estimated £2,152,722 to prosecute tobacco smuggling offences.

WORK AND PENSIONS

Crisis Loans

Mr. Rooney: To ask the Secretary of State for Work and Pensions (1) what consultations he has undertaken on his proposal to limit claimants to three Social Fund crisis loans a year; [268405]

(2) what criteria he plans to use to determine whether an application for a Social Fund crisis loan will be granted in circumstances where the applicant has received three such loans in the preceding 12 months; [268406]

(3) what information his Department gathers to monitor the level of fraudulent applications for Social Fund crisis loans. [268407]

Kitty Ussher *[holding answer 2 April 2009]*: Proposed changes to the existing Crisis Loans scheme have been shared with DWP Customer Representative Groups and the Independent Review Service. Jobcentre Plus is committed to consulting on any changes before they are implemented.

Under planned changes due to be piloted this year, an award for a Crisis Loan will generally not be granted where an applicant has received three such loans in a 12-month period. There will be circumstances in which a further award may be made when need has arisen as a consequence of a disaster.

The Department does not gather specific information about the level of fraudulent applications for Social Fund Crisis Loans. However, any referrals of suspected fraudulent activity would be dealt with by the Fraud Investigation Service in the same way as any other referrals.

Mr. Donohoe: To ask the Secretary of State for Work and Pensions what proportion of people given a crisis loan from the Social Fund repaid the loan in the latest period for which figures are available. [268700]

Kitty Ussher: The social fund loans scheme was introduced in 1988. Loans from the social fund are repayable over a period of 104 weeks, which can in exceptional circumstances be extended to 130 weeks. Where a customer has more than one loan the oldest is repaid first.

Figures up to 31 March 2008 show that £1.225 billion has been awarded in crisis loans since 1988. Of this £0.947 billion, 77 per cent., has so far been repaid.

Departmental Billing

John Mason: To ask the Secretary of State for Work and Pensions what percentage of invoices his Department has paid within 10 days of receipt in each of the last five months. [270540]

Jonathan Shaw: The percentage and number of invoices paid by the Department for Work and Pensions within 10 days of receipt in each of the last five months is shown as follows.

	Percentage of invoices paid within 10 days	*Number of invoices paid within 10 days*
November 2008	70	44,457
December 2008	64	45,505
January 2009	73	43,915
February 2009	86	58,281
March 2009	92	61,768

Departmental Lost Property

John Mason: To ask the Secretary of State for Work and Pensions what property has been lost or stolen from his Department in the last 12 months; and what the estimated cost was of replacement of such property. [263119]

Jonathan Shaw: In accordance with guidance from HM Treasury, the Department maintains records of property that it owns, and which has been lost or stolen. In the past 12 months, no items have been recorded as lost or stolen, and there is therefore no corresponding replacement cost. These records do not include assets which are leased to, but not owned by the Department, for example under contractual arrangements.

Paul Holmes: To ask the Secretary of State for Work and Pensions what the total cost of replacing lost or stolen property from his Department was in the last 12 months. [268039]

Jonathan Shaw: In accordance with guidance from HM Treasury, the Department maintains records of property that it owns, and which has been lost or stolen. In the past 12 months, no items have been recorded as lost or stolen, and there is therefore no corresponding replacement cost. These records do not include assets which are leased to, but not owned by the Department, for example under contractual arrangements.

Employment Schemes

Steve Webb: To ask the Secretary of State for Work and Pensions what meetings *(a)* he and *(b)* other Ministers in his Department have had with trade union and business leaders to discuss the recruitment subsidies announced on 12 January 2009. [269029]

Mr. McNulty: The Secretary of State and ministerial colleagues have ongoing discussions with business and trade union leaders about the full range of employment policies, and have discussed the recruitment subsidy on numerous occasions, including the first meeting of the National Employment Partnership on 11 February.

Incapacity Benefit

John Barrett: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of those in receipt of incapacity benefit who will continue to qualify for the benefit as a result of physical or mental disability following the implementation of the proposed changes to eligibility criteria. [270004]

Jonathan Shaw *[holding answer 22 April 2009]:* The White Paper, "Raising expectations and increasing support", stated that existing incapacity benefits recipients will be migrated to employment and support allowance from 2010. This will involve having the work capability assessment rather than the personal capability assessment which is a more accurate and up to date assessment of limited capability for work than its predecessor. It therefore provides a more appropriate means to ensure that individuals are receiving the correct benefit.

We are monitoring the early stages of implementation of employment and support allowance and this will inform our estimates of the likely impact of the work capability assessment on existing incapacity benefits recipients.

The White Paper also announced changes to the contribution conditions to modernise the link between work and access to contributory working age benefits including employment and support allowance. These changes apply to new claimants only.

Jobcentre Plus

Mrs. May: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the Jobcentre Plus National Workload Projection updates covering the period up to 2020-21 from each quarter of the last three years. [261023]

Mr. McNulty: The available information up to October 2008 has been placed in the Library.

Jobseeker's Allowance projections are based on the planning assumption produced by HM Treasury from the average of independent forecasters' forecasts, and published at each Budget and pre-Budget Report. They do not constitute a Government forecast. Beyond the planning horizon, the projections assume that the unemployment rate remains constant, in line with the long-term projections underpinning the Long-Term Public Finance Report.

Steve Webb: To ask the Secretary of State for Work and Pensions whether the distance travelled by jobseeker's allowance claimants to the Jobcentre Plus where they sign on is recorded by Jobcentre Plus. [269051]

Mr. McNulty: This information is not recorded.

However, where it is unreasonable to expect someone to attend their nearest Jobcentre Plus office to 'sign on', we have long-standing arrangements that allow them to maintain their claim by post. These arrangements apply if:

The customer lives more than one hour (door to door) by public transport from the nearest office; or

Attendance means being away from home in excess of four hours; or

The customer has a mental or physical disability that restricts mobility; and

in other exceptional circumstances for example, where the customer would have to use a form of transport they would not ordinarily be expected to use on a regular basis, ie an inter-city train, ferry or plane

Jobcentre Plus: Internet

Mr. Maude: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Ruislip-Northwood of 26 February 2009, *Official Report*, column 934W, on departmental internet, whether he plans to establish a virtual jobcentre using second life virtual world technology. [270292]

Jonathan Shaw: The DWP Second Life initiative is in its infancy and at this stage the establishment of a virtual jobcentre is not planned.

Jobcentre Plus: Resignations

Jenny Willott: To ask the Secretary of State for Work and Pensions how many Jobcentre Plus personal advisers in *(a)* each region, *(b)* each Jobcentre Plus district and *(c)* total have resigned in each of the last (i) five years and (ii) 12 months; and if he will make a statement. [269507]

Mr. McNulty: The information requested is not available.

Jobseeker's Allowance

Steve Webb: To ask the Secretary of State for Work and Pensions (1) what the average clearing time for *(a)* income support applications and *(b)* jobseeker's allowance applications was (i) at each benefit delivery centre and (ii) in the UK in each month of the last two years; [264518]

(2) how many outstanding jobseeker's allowance claims there were at each benefit delivery centre in each month of the last two years. [264657]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the Acting Chief Executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking: what the average clearing time for income support applications and jobseeker's allowance applications was at each benefit delivery centre and in the UK in each month of the last two years; and how many outstanding jobseeker's allowance claims there were at each benefit delivery centre in each month of the last two years. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

The Jobcentre Plus target for the Average Actual Clearance Time (AACT) for Income Support (IS) and Jobseekers Allowance (JSA) in the last two years is set out below. For IS the processing time commences when the customer has provided all the evidence required in order to process the claim. For JSA the time commences from the date the customer makes initial contact with Jobcentre Plus.

		Days
	IS	*JSA*
2007/08	11	12
2008/09	10	11.5

The information has been placed in the Library. This shows the actual achievement of the AACT for IS and JSA by Benefit Delivery Centre (BDC) and the volume of outstanding claims at each BDC for each month in the last two years.

Mrs. May: To ask the Secretary of State for Work and Pensions how many people are claiming jobseeker's allowance in each of the phase one Flexible New Deal contract areas, broken down by length of claim. [266124]

Mr. McNulty: The available information is in the following table.

Jobseeker's allowance claimants in each of the phase one Flexible New Deal contract areas, broken down by length of claim February 2009

Phase one Flexible New Deal contract areas	*0-26 weeks*	*Over 26 to 52 weeks*	*Over 52 weeks*
Cambridgeshire and Suffolk	16,905	3,395	1,790
Norfolk	10,210	2,325	1,355
Derbyshire	14,080	3,220	1,425
Leicestershire and Northamptonshire	22,070	4,915	2,495
Lincolnshire and Rutland	8,445	1,805	810
Nottinghamshire	13,575	3,740	2,360
Central London	8,950	3,345	2,465
Lambeth, Southwark and Wandsworth	11,230	4,020	3,025
Greater Manchester Central	14,385	4,075	1,900
Greater Manchester East and West	25,685	6,465	3,070
Tees Valley	11,460	3,485	2,800
Kent	19,430	4,055	1,855
Surrey and Sussex	24,040	4,770	2,835
Devon and Cornwall	19,140	3,270	1,465
Birmingham and Solihull	21,965	8,800	8,995
Black Country	21,555	7,000	3,525
Coventry and Warwickshire	11,890	2,760	1,410
Marches	15,420	2,500	1,140
Staffordshire	16,040	2,980	1,190
North and Mid Wales	9,690	2,095	1,610
South East Wales	11,315	2,590	1,135
South Wales Valleys	12,090	2,975	1,875
South West Wales	9,665	1,900	635
North and East Yorkshire and the Humber	23,925	6,045	2,840
South Yorkshire	20,800	5,425	2,810
Ayrshire, Dumfries, Galloway and Inverclyde	9,105	2,655	1,355
Edinburgh, Lothian and Borders	10,970	2,145	1,035
Lanarkshire and East Dunbartonshire	10,390	2,370	930

Notes:
1. Data are rounded to the nearest five.
2. Data are published at
https://www.nomisweb.co.uk/Default.asp
Source:
100 percent Count of unemployment-related benefits, Jobcentre Plus Computer Systems

National Insurance Contributions

Steve Webb: To ask the Secretary of State for Work and Pensions if he will estimate how many *(a)* UK and *(b)* non-UK residents would purchase an additional (i) six and (ii) nine years of national insurance contributions if purchasing those additional years were available only to those who already had (A) between 10 and 15 years, (B) between 15 and 20 years and (C) 20 years or more of qualifying national insurance contributions in each of the next 10 years. [257196]

Ms Rosie Winterton: Estimates for the number of potential gainers would depend upon the level of take-up.

New Deal Schemes

John McDonnell: To ask the Secretary of State for Work and Pensions what the budget for the Flexible New Deal is in each of the next three years. [262826]

Mr. McNulty: Budgets and annual profiles for flexible New Deal phase 1 are subject to ongoing commercial negotiation and review.

Mrs. May: To ask the Secretary of State for Work and Pensions (1) what his latest estimate is of the number of people expected to be referred to phase 1 of the Flexible New Deal; [266116]

(2) what proportion of jobseekers he expects phase one of the Flexible New Deal to cover. [266125]

Mr. McNulty: All jobseekers in phase 1 areas who have claimed Jobseeker's Allowance for 12 months will be referred to the Flexible New Deal. Customers in our priority groups will be referred to the Flexible New Deal after six months. Phase 1 of the Flexible New Deal will cover 28 out of a total of 48 Jobcentre Plus Districts.

The Department does not forecast levels of long-term unemployment or the future number of claimants of Jobseeker's Allowance. However, for planning purposes the Department does make use of the HM Treasury unemployment assumption, which is based on an average of a number of independent unemployment forecasts. These figures are planning assumptions only and do not reflect an official view of numbers of unemployed people or the duration of unemployment. An update to this assumption will be published in the Budget.

The Department has not issued revised estimates of the number of starts to the Flexible New Deal. The Department has however asked bidders for Flexible New Deal contracts to draw up plans that are capable of supporting a wide range of customer referral volumes reflecting a range of possible labour market scenarios over the next three to five years.

Mrs. May: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the latest version of the *(a)* provision specification and *(b)* supporting information for phase one of the flexible New Deal (fND) including (i) estimates of the number of starts to the fND, (ii) budgets and (iii) payment models. [266131]

Mr. McNulty: The provision specification and supporting information for Phase One of Flexible New Deal were published in the Invitation to Tender (ITT) in July 2008. A copy of the ITT and the letters issued in February inviting supplementary information from shortlisted suppliers has been placed in the Library.

The Department has not issued revised estimates of the number of starts to Flexible New Deal. The Department has however asked bidders for Flexible New Deal contracts to draw up plans that are capable of supporting a wide range of customer referral volumes reflecting a range of possible labour market scenarios over the next three to five years.

The budget for Flexible New Deal is being finalised following the Budget. However the Government are committed to ensuring that all who are out of work receive support that will offer them the best chance to get back into sustained employment, in line with the White Paper 'Raising expectations and increasing support: reforming welfare for the future'(Cm7506) published in December 2008.

The Department will retain a performance and payment regime based largely on outcomes, providing suppliers with the opportunity to develop innovative, individually tailored solutions. In the initial phase of the contract (first 18 months), we will consider alternative models based on a higher service fee element. After the initial phase of the contract we anticipate that the funding model will be based on 80 per cent. (outcome) and 20 per cent. (fee based) as originally announced. This is described in the material to be placed the Library.

Social Security Benefits

Paul Rowen: To ask the Secretary of State for Work and Pensions whether he has made an assessment of the effectiveness of the voluntary drug rehabilitation scheme for benefit claimants; and if he will make a statement. [268412]

Mr. McNulty: Progress2work, the Department's voluntary employment programme for recovering drug users was reviewed in 2008 by the Policy Studies Institute. The report 'Progress2work and Progress2work linkup: an exploratory study to assess evaluation possibilities', DWP research report 464, has been placed in the Library and is available on the DWP website:

www.dwp.gov.uk/asd/asd5/rports2007-2008/rrep464.pdf

Social Security Benefits: Greater London

Ms Buck: To ask the Secretary of State for Work and Pensions how many households were in receipt of *(a)* income support, *(b)* incapacity benefit and *(c)* employment support allowance in each London (i) borough and (ii) constituency at (A) 31 March 2005 and (B) 31 December 2008. [261865]

Mr. McNulty: Information about households in receipt of income support or incapacity benefit/severe disablement allowance is not available at borough or constituency level. DWP will be publishing National Statistics on employment and support allowance in summer 2009. The available information has been placed in the Library.

UN Convention on the Rights of Persons with Disabilities

Dr. Alasdair McDonnell: To ask the Secretary of State for Work and Pensions with reference to his oral evidence to the Joint Committee on Human Rights on 18 November 2008, HC397, Q65-71, what advice he received on the concurrence of the devolved administrations with the Government's proposed reservation to the UK's ratification of the UN Convention on the Rights of Persons with Disabilities; and what discussions he has had with the Northern Ireland Executive on the proposed reservation on education. [271494]

Jonathan Shaw: The devolved Administrations have been fully consulted throughout our work towards ratification of the UN convention on the rights of persons with disabilities. They advised that they were content. This process has included consultation with the Northern Ireland Executive on the proposed reservation in respect of education.

Winter Fuel Payments

Steve Webb: To ask the Secretary of State for Work and Pensions (1) how many families had cold weather payments paid manually during the most recent period of cold weather; [269444]

(2) for what reason families in receipt of both child tax credit and disability living allowance for their children experienced difficulties in receiving cold weather payments after the recent period of below-freezing temperatures; and how many families were so affected. [269447]

Kitty Ussher: The vast majority of customers who qualify for a cold weather payment are paid automatically following a spell of cold weather. Customers in receipt of a qualifying benefit who are eligible to receive a cold weather payment because they have a disabled child aged five or over in the family and receive support for that child via child tax credit are paid clerically. Families entitled to receive a payment in these circumstances are identified by scans of the relevant computer systems which means they will not receive payments as quickly as those customers who can be identified and paid automatically.

For the most recent period of cold weather, approximately 33,000 cold weather payments have been or will be issued clerically to these customers. The number of such customers (as opposed to the number of payments) is not available. For the same period we estimate that over 5 million payments have been issued automatically to eligible customers.

Information about the number of families who have had cold weather payments paid manually for other reasons is not available.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Business: Accountancy

Mr. Ian Taylor: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many fines Companies House has imposed on small and medium-sized companies for late submission of accounts in the last *(a)* six and *(b)* 12 months. [266810]

Ian Pearson: As provided for in section 242A of the Companies Act 1985 and section 453 of the Companies Act 2006, all accounts which are delivered late to the Registrar of Companies are subject to a late filing penalty. Over the past six months, 137,029 sets of accounts were delivered late. Over the past 12 months, 255,012 sets of accounts were delivered late. This reflects the fact that, of the 1,903,595 sets of accounts delivered to the Registrar over the last 12 months, 87 per cent. were delivered on time.

The Companies Act does not require a company to identify itself as "large", "medium" or "small". It is not therefore possible to say how many of these penalties were incurred by small or medium-sized companies.

Business: Government Assistance

Mr. Hoban: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how long he expects the *(a)* Enterprise Finance Guarantee and *(b)* Working Capital scheme to operate. [252242]

Ian Pearson: The Enterprise Finance Guarantee is available to viable businesses struggling to access finance, due to the economic downturn, from 14 January 2009 until 31 March 2010.

The Working Capital Scheme is not available directly to businesses. The scheme enables participating banks to increase the amount of working capital they can make available to businesses.

By guaranteeing portfolios of working capital facilities, this will release regulatory capital held by the banks against these portfolios. The banks have agreed they will make commitments to re-deploy this capital in order to increase all types of lending to small and medium-sized enterprises (SMEs) and mid-sized corporates above their current base line. The scheme runs until 31 March 2011.

Adam Afriyie: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many publicly-funded business support schemes there are in the Business Support Simplification Programme; what the cost of these schemes was in the last year for which figures are available; how many publicly-funded business support schemes he expects there to be once the programme is complete; what estimate he has made of their total cost; and what estimate he has made of the cost of the programme in *(a)* 2008-09 and *(b)* subsequent years. [258738]

Ian Pearson *[holding answer 25 February 2009]*: The Government announced Solutions for Business, their streamlined portfolio of business support products, in October 2008 with 30 schemes to be in place by March 2009, all other schemes will have closed, or been given notice to close by March 2010. Business Link will be the main access channel to this support.

Solutions for Business is flexible to changing economic circumstances and business need. The Government have committed to keep the streamlined portfolio at less than 100 products in total, covering all of the £2.5 billion spend on business support announced at the beginning of the programme.

The Impact Assessment published December 2007 estimated the cost of the programme to be £5 million, of which £1 million was estimated for 2008-09. These costs represent the time/opportunity costs of staff implementing the change programme. Costs in the future will change through transition, however, BERR does not account for other departmental and delivery partner costs.

Jim Cousins: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many loans were guaranteed under the small firms loan guarantee scheme *(a)* in the UK, *(b)* in each region and *(c)* in each county in each year from 2004-05 to 2007-08; and what the value of loans guaranteed in each area in each of those years was. [261644]

Ian Pearson: The information is as follows:

Number of SFLG loans

	2004-05	*2005-06*	*2006-07*	*2007-08*
North West	745	605	310	326
North East	236	229	125	110
Yorkshire and Humber	565	494	217	186
West Midlands	636	535	244	231
East Midlands	[1]1,162	415	168	176
East of England	[1]—	510	223	223
London &	[2]2,007	824	467	370
South East	[1]—	986	377	321
South West	748	578	212	212
Scotland	643	476	235	259
Wales	344	251	100	208
Northern Ireland	44	53	24	27
Total	7,130	5,956	2,702	2,649

Value of SFLG

				£million
	2004-05	*2005-06*	*2006-07*	*2007-08*
North West	54.415	45.220	24.161	27.170
North East	15.334	17.097	7.925	8.350
Yorkshire & Humber	37.364	35.875	17.047	15.170
West Midlands	39.714	36.195	18.833	16.777
East Midlands	[1]78.398	28.917	12.364	13.457
East of England	[1]—	33.598	15.848	16.776
London	[1]141.399	58.050	37.309	32.160
South East	[1]—	70.557	29.309	25.328
South West	46.313	40.107	17.047	17.047
Scotland	42.748	34.898	20.303	22.333
Wales	21.607	16.072	8.585	8.961
Northern Ireland	4.032	5.479	3.023	2.806
Total	481.324	422.065	211.754	206.335

[1] Represents a brace.

The number and value of loans for the above was extracted from the respective Industrial Development Act reports. The Small Firms Loan Guarantee (SFLG) Annual Report 2007-08 has updated figures for the totals of number and value of loans for 2006-07 and 2007-08. However, these data are not produced by county.

Since the Graham Review, lenders record a guaranteed loan on a web portal after the money has been drawn down by the business, however, occasionally later updating occurs which for 2006-07 and 2007-08 is better reflected in the SFLG Annual Report 2007-08 as it incorporates more recent extracts from the web portal and thus more fully updated totals for these years.

Direct year-on-year comparisons would not be appropriate because of changes to the operation and delivery of SFLG during this period, including as a result of the implementation of the Graham Review changes in 2005, which created distinct versions of the scheme.

Departmental ICT

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department and its predecessor in each of the last five years; and if he will make a statement. [269554]

Mr. McFadden: The information requested is as follows:

Energy Cost of the PCs Within BERR:

The PCs used in BERR for the last five years have had Blue Angel Certification for low energy consumption and comply with the WEEE (Waste Electrical and Electronic Equipment) Directive. (Built using recycled plastic, reduced-lead circuit boards and the manuals are printed on paper that hasn't been bleached with chloride). We are unable to provide further information as this would incur disproportionate cost.

Energy Consumption of PCs and Printers within BERR: Carbon Footprint

The production of these costs entailed the use of a number of assumptions on usage and staff working practices. To provide more accurate data would require metering at the individual desk level which is not practical.

	Electricity cost (£)	*Carbon footprint (metric tons)*
2009	121,457	[1]353.3
2008	73,018	297.6
2007	72,928	319.1
2006	76,306	367.9
2005	66,500	427.9

[1] Projected cost

Foreign Workers

Mr. Soames: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform whether he expects a resident labour market test to apply to the movement of workers under mode 4 of the General Agreement on Tariffs and Trade. [267774]

Mr. Thomas *[holding answer 30 March 2009]:* I refer the hon. Member to the answer given by my hon. Friend the Minister of State for Borders and Immigration on 30 March 2009, *Official Report*, column 953W.

Members: Correspondence

Sir Gerald Kaufman: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to reply to the letter of 12 February 2009 from the right hon. Member for Manchester, Gorton, with regard to Mr J Parris. [266368]

Mr. McFadden: I will reply to my right hon. Friend as soon as possible.

Minimum Wage

Mr. Hepburn: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when the Government plan next to uprate the national minimum wage. [270222]

Mr. McFadden: The independent Low Pay Commission will make its recommendations on the national minimum wage to Government by 1 May. The Government will respond to these recommendations shortly after, and will inform the House by Parliamentary Statement of any changes to the national minimum wage rates. Any changes to the rates will be brought into effect from 1 October 2009.

Olympic Games 2012: Fairtrade Initiative

Mike Wood: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what plans his Department has to ensure that fair trade principles and products are promoted at the London 2012 Olympic Games. [270204]

Mr. Thomas: The organisers of the 2012 Olympic and Paralympics games are committed to promoting safe and sustainable food during the games and to seeking opportunities to promote the use of local, seasonal, fairtrade and organic produce. This Department supports these aims and will continue to encourage London 2012 in achieving them.

Post Offices: Closures

Mr. Djanogly: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform pursuant to the answer of 19 March 2009, *Official Report*, column 1279W, on post offices: closures, when he expects the managing director of Post Office Ltd. to write to the hon. Member for Huntingdon. [270958]

Mr. McFadden *[holding answer 24 April 2009]:* I have asked Post Office Ltd. to reply to the hon. Member as soon as possible.

Small Businesses: Females

Justine Greening: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much funding has been distributed to businesses from his Department's Aspire Fund since 19 November 2008; how many companies have received such funding; and how many awards from the fund have been *(a)* below £100,000, *(b)* between £100,000 and £299,000, *(c)* between £300,000 and £499,000, *(d)* between £500,000 and £749,000, *(e)* between £750,000 and £999,000, *(f)* between £1 million and £1.49 million, *(g)* between £1.5 million and £2 million and (h) over £2 million. [259782]

Ian Pearson *[holding answer 27 February 2009]:* As at 25 March 2009, the Aspire Fund has received 52 enquiries from potential applicants and a number of these have been advised of the need to find a lead investor for Aspire to invest alongside and others have been referred to Business Link and their supporting providers for additional investment readiness support.

21 of the businesses enquiring about Aspire have provided business plans and have private investment identified. Of these, 10 have been rejected as not meeting Aspire Fund criteria and two have withdrawn having raised funding elsewhere. Nine proposals are under active consideration. The fund would expect to issue a funding offer shortly.

Telecommunications: Competition

Mr. Hunt: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he expects a report on the impact of the convergence of the UK communications market, as referred to in the Byron Review Action Plan, to be published. [270709]

Mr. McFadden *[holding answer 23 April 2009]:* In October 2008 the Convergence Think Tank was superseded by the Digital Britain project. This project, which draws on the work done by the Convergence Think Tank and other reviews, will develop an action plan to secure the UK's place at the forefront of innovation, investment and quality in the digital and communications industries. The interim Digital Britain report was published on 29 January 2009 and the final report is due in the summer this year.

USA

Mr. Prisk: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the cost was of *(a)* flights, *(b)* accommodation and *(c)* other expenses for the Secretary of State's visit to New York in February 2009. [270871]

Mr. McFadden: Since 1999, the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year, 2008-09, will be published later in the year and will include details in respect of all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

USA: Exports

Jeremy Corbyn: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform with reference to the answer of 8 July 2002, *Official Report*, columns 652-4W, on export licences, whether licences are still being granted for the export to the US of components for F-16 aircraft and Apache helicopters for possible onward export to Israel; and if he will make a statement. [269741]

Ian Pearson: I refer my hon. Friend to the answer I gave on 2 April 2009, *Official Report*, column 1434W.

INNOVATION, UNIVERSITIES AND SKILLS

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Innovation, Universities and Skills how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270521]

Mr. Simon: In the Department, as at 31 March 2009, no employees were suspended from duty.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department since its establishment; and if he will make a statement. [269551]

Mr. Simon: Because the buildings that the Department shares with other Departments do not have sub-metering on individual floors, we do not have accurate measures of the Department's energy consumption.

There have been no energy estimates split down by the category of IT device or by divisions of the Department.

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department has taken to address the effect on levels of carbon dioxide emissions from his Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if he will make a statement. [269563]

Mr. Simon: Since the publication of the Greening Government ICT Strategy, the Department has continued to follow an IT strategy of sharing as much of the IT infrastructure as possible with other Departments. ICT purchases have been for replacement items or items to extend the life of the current service.

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills what the average server capacity utilisation by each division of his Department was in each year since its creation; and if he will make a statement. [269588]

Mr. Simon: The Department procures IT services from an IT supplier on a whole department basis. There is no subdivision of the servers or services between the various divisions of the Department. Servers are monitored for operational management purposes. Average server utilisation is not routinely recorded.

Jenny Willott: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269634]

Mr. Simon: The Department procures IT products and services from a catalogue of standard items under an IT services contract that was set up in 2007, before the publication of the Quick Win standards. Since we have not changed our laptops, desktops, monitors, or printers since the start of the IT services contract, there has been no opportunity to use the Buy Sustainable-Quick Win standards.

Under the terms of the contract, the supplier will use all reasonable endeavours to improve the environmental impact of the services provided.

Departmental Public Expenditure

Grant Shapps: To ask the Secretary of State for Innovation, Universities and Skills what *(a)* capital and *(b)* resource funds his Department has brought forward from its (i) 2009-10 and (ii) 2010-11 budgets for use in (A) 2008-09 and (B) 2009-10; and what schemes this funding is being used to support. [265107]

Mr. Simon: All departmental funding brought forward from 2010-11 is capital expenditure. The total amount brought forward was £442 million: £167 million to 2008-09 and £275 million to 2009-10.

This investment will accelerate support for around 25 capital projects to improve further education infrastructure and around 50 projects to improve facilities at higher education institutions and will bring forward development of scientific research facilities and improvements to university research infrastructure.

Education: Safety

Kelvin Hopkins: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department takes to ensure compliance with health and safety requirements in respect of learners; and what such steps he plans to take in relation to the National Apprenticeship Service. [269778]

Mr. Simon: Under the Health and Safety at Work etc Act 1974, responsibility for the health and safety of learners rests with the employer, including providers, on whose premises the learning is taking place. To support this, the Learning and Skills Council is required under the Learning and Skills Act 2000 to ensure that the provision which it secures is of a quality adequate to meet the reasonable needs of learners. To fulfil this duty, the LSC seeks, among other things, to ensure that the training environment of employers is both healthy and safe, including where necessary through assessments of the suitability of training facilities, and by making it a condition of funding for providers to satisfy themselves as to the health and safety suitability of employers' premises.

The Department and the Department for Children, Schools and Families take the health and safety of all learners, including apprentices, very seriously. The Learning and Skills Council, and the Skills Funding Agency which will replace it, will continue to work with providers and employers to ensure that the health and safety of learners, including apprentices over the age of 19, is of paramount importance.

Individual local authorities are already responsible for safeguarding learners in their areas, and under the new arrangements, this will include apprentices up to the age of 19. The National Apprenticeship Service is currently part of the Learning and Skills Council, and under the new arrangements, it will be housed within the Skills Funding Agency which will have adequate resource and appropriate expertise to deliver this important function. It is therefore not necessary to put separate arrangements in place for the NAS.

English Language: GCSE

Michael Gove: To ask the Secretary of State for Innovation, Universities and Skills how many adult learners have been entered for GCSE English *(a)* language and *(b)* literature examinations in each year since 1990. [269003]

Mr. Simon: Table 1 shows the number of achievements by adult learners in LSC-funded further education provision of GCSE English language and GCSE English literature in each academic year since 2003/04, the earliest year for which we have comparable information.

Table 1: Achievements by adults (aged 19+) in LSC-funded further education provision of GCSE English language and GCSE English literature, 2003/04 to 2007/08

Academic year	*GCSE English language*	*GCSE English literature*	*Of which: achieving both*
2003/04	8,770	220	70
2004/05	8,760	160	70
2005/06	8,440	110	40
2006/07	8,270	140	80
2007/08	7,520	80	60

Notes:

1. Age is based on age as at 31 August (academic age).
2. This information does not include learners studying GCSE English language or GCSE English literature in schools or higher education institutions.
3. Learners achieving both GCSE English language and GCSE English literature are included in both of the columns for these GCSEs and also the column for learners achieving both.
4. Figures are rounded to the nearest 10.

Source:

FE ILR.

Awarding Body data on GCSE examination entries are analysed by the Department for Children, Schools and Families as part of the School and College Achievement and Attainment Tables publication. However, this work only covers qualifications entered for by 16 to 18-year-olds. Therefore, we do not have information readily available on adults being entered for GCSE English language and GCSE English literature examinations.

A GCSE may not necessarily be the most appropriate learning outcome for many learners and colleges have been encouraged to advise learners to study the most relevant qualification to them. Many learners who may previously have undertaken a GCSE in English now have their language needs picked up through embedded learning in other courses.

Over the past few years, the Government have prioritised investment in adult skills towards those courses that best provide individuals with the skills to enter into sustained employment and progress into further learning. This strategy has paid dividends with record levels of adults participating in Skills for Life (numeracy and literacy), full level 2 and full level 3 qualifications.

Higher Education: Birmingham

Mr. Godsiff: To ask the Secretary of State for Innovation, Universities and Skills what percentage of school leavers resident in *(a)* Birmingham Hall Green constituency and *(b)* Birmingham entered higher education in each of the last 10 years. [270036]

Mr. Lammy: The Government do not collect data on the number of school leavers who do not go on to higher education who are resident in a particular area, so it is not possible to calculate the percentage of school leavers for Hall Green constituency and Birmingham local authority who do go on to higher education.

The number of 18-year-old undergraduate entrants from Hall Green constituency and Birmingham local authority are shown as an alternative in the following table.

18-year-old undergraduate entrants[1] from Hall Green Constituency[2] and Birmingham local authority,[2] UK higher education institutions[3]

	18-year-old entrants	
Academic year	*Hall Green*	*Birmingham*
1998/99	190	2,035
1999/2000	190	2,220
2000/01	185	2,215
2001/02	215	2,345
2002/03	225	2,550
2003/04	245	2,570
2004/05	270	2,595
2005/06	250	2,785
2006/07	250	2,675
2007/08	260	2,700

[1] Covers entrants studying both full-time and part-time courses.

[2] Parliamentary constituency and local authority are defined by full and valid home postcodes, returned by the student to HESA.

[3] Excludes the open university due to inconsistencies in their coding of entrants across the time series.

Notes:

Figures are based on a snapshot as at 1 December and are rounded to the nearest five.

Higher Education Statistics Agency (HESA).

Petrol Alternatives

Sarah Teather: To ask the Secretary of State for Innovation, Universities and Skills how much his Department and its predecessors have spent on the *(a)* research and *(b)* development of alternative fuel technologies for motor vehicles in each of the last five years. [256949]

Mr. Lammy: The Research Councils and the Technology Strategy Board, funded through the Department's Science and Research, and Innovation Budgets respectively, support a portfolio of research into alternative fuel technologies for motor vehicles.

The Research Councils' expenditure on relevant research is as follows:

		£000
	Biofuel	*Hydrogen and other vectors*
2003-04	135	1,494
2004-05	92	1,477
2005-06	184	1,499
2006-07	326	1,208
2007-08	300	3,290

In addition, Research Councils funded the following relevant related research:

		£000
	Fuel cells	*Biomass*
2003-04	1,193	1,043
2004-05	917	1,134
2005-06	1,207	1,671
2006-07	2,300	2,135
2007-08	2,255	3,813

The Technology Strategy Board was established in July 2007 and at that stage inherited DTI's support for collaborative R and D projects.

Since April 2004, when the Collaborative R and D programme was established in DTI, 18 projects have been supported where the main focus is alternative fuel technologies for motor vehicles (specifically on biofuels, hybrid drive systems and fuel cells). The total cost of the projects (which did not start until early 2005) was £41 million with the public sector providing £19 million grant funding. Of this, the grant funding provided to date is approximately as follows:

	TSB alternative fuel technology projects (£000)
2004-05	500
2005-06	1,500
2006-07	2,500
2007-08	4,000
2008-09	5,500

The Technology Strategy Board also launched in September 2007 a £100 million Low Carbon Vehicles Innovation Platform bringing together funding from the Technology Strategy Board, Department for Transport, Engineering and Physical Science Research Council, and the Regional Development Agencies Advantage West Midlands and One North East. The Innovation Platform has recently launched competitions to support the development of low carbon vehicles, including a £10 million demonstration programme to put at least 100 ultra low carbon vehicles on the roads in the UK by the end of 2009.

Students: Finance

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many people expecting to start higher education in 2009 have registered for financial support with Student Finance England; and how many such students had registered by the same time last year. [270335]

Mr. Lammy: Figures obtained from the Student Loans Company show that by 21 April 2009, 125,000 applications had been registered from people expecting to start higher education in academic year 2009/10. At the equivalent point last year the figure was 75,000: however the registration process opened earlier this year on 9 February, compared with 8 March last year.

Students: Loans

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills how many and what proportion of former students owing money to the Student Loans Company are making use of the five-year repayment holiday. [270337]

Mr. Lammy: Certain graduates will be eligible for a repayment holiday from April 2012.

Graduates will be eligible to take a repayment holiday if they started a higher education course in 2008/09 or later, are taking out their first student loan and are due to enter repayment for the first time in April 2012 or later.

Jim Cousins: To ask the Secretary of State for Innovation, Universities and Skills how many graduates were repaying tuition fee loans at nine per cent. above the £15,000 earnings threshold in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [270914]

Mr. Lammy: Tuition fee loans were introduced in academic year 2006/07 for new students. Borrowers become liable to repay their loans from the April after they graduate or otherwise leave their course, if their annual income is above £15,000. Borrowers earning less than £15,000 are not required to make repayments. A student who took out a tuition fee loan in the first year they were available and who completes a typical three-year course will therefore become liable to begin repaying from April 2010, if their income is above the repayment threshold.

The Statistical First Release—Student Loans for Higher Education in England, Financial Year 2007-08 (Provisional) is available from the Student Loans Company website at:

www.slc.co.uk/pdf/slcsfr022008.pdf

This shows less than 100 students repaying fee loans at the end of 2006-07 and 200 at the end of 2007-08. Figures for 2008-09 will be published in July 2009.

Train to Gain Programme

Paul Rowen: To ask the Secretary of State for Innovation, Universities and Skills whether a portion of the additional funding for Train to Gain announced in the pre-Budget report will be used to fund university student grants. [247679]

Mr. Simon *[holding answer 15 January 2009]:* Train to Gain is the Government's flagship service to employers to improve the skills for their employees and the productivity of their business.

Train to Gain is a growing programme and we plan to invest £925 million through Train to Gain in 2009-10. By 2010-11, we will be investing over £1 billion through Train to Gain.

The pre-Budget report announced that small and medium sized enterprises will be the focus of the £350 million planned growth in Train to Gain funding over the next two years to help them get the training they need. The 2009-10 grant letter to the Learning and Skills Council sets out the budget for Train to Gain. There is no expectation that any Train to Gain funding will be diverted to fund university student grants.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health pursuant to the Answer of 26 March 2009, *Official Report*, columns 667-68W, on abortion, on what date and at what time the abortion statistics for 2008 will be published; when they will be uploaded to his Department's website; and if he will make a statement. [271440]

Dawn Primarolo: The Statistical Bulletin "Abortion Statistics, England and Wales: 2008" will be published on 21 May 2009 at 9.30 am on the Department's website

www.dh.gov.uk.

A copy will be placed in the Library.

Chlamydia: Screening

Anne Milton: To ask the Secretary of State for Health for what reasons reports are not made to the National Chlamydia Screening Programme of chlamydia tests carried out in genito-urinary medicine clinics. [270089]

Dawn Primarolo: Chlamydia screening data from genito-urinary medicine (GUM) clinics are part of a clinic aggregate return (KC60) and is not currently available by primary care trust (PCT) of the patients or age of patient.

The Department and the Health Protection Agency are implementing a new sexually transmitted infection data set for GUM, which will replace the KC60. This will provide data on numbers tested for chlamydia (under 25) in GUM services by PCT of residence. We expect full national roll-out later this year.

The National Chlamydia Screening Programme was set up to target asymptomatic individuals under the age of 25, who were not usually presenting for chlamydia testing. Information on the number of people screened is collected by PCT of residence and data are assigned to each individual PCT.

For the first year of the vital signs indicator (2007-08), relating to chlamydia, the emphasis was on counting and increasing all community testing. Once testing is sufficiently embedded within the community, we will then use all community data along with GUM tests to monitor progress towards reducing chlamydia prevalence in each PCT.

Coeliac Disease

Gordon Banks: To ask the Secretary of State for Health (1) how many people were diagnosed with coeliac disease at the latest date for which figures are available; [271335]

(2) what the average period between referral from a diagnosis with coeliac disease and assessment by a dietician was in the latest period for which figures are available; [271336]

(3) how many patients with coeliac disease had an annual review undertaken in the *(a)* secondary care and *(b)* primary care sectors in the last 12 months. [271495]

Ann Keen: The information requested is not collected.

Gordon Banks: To ask the Secretary of State for Health how much the NHS spent on prescriptions for gluten-free products in *(a)* 2006, *(b)* 2007 and *(c)* 2008. [271337]

Dawn Primarolo: The net ingredient cost (NIC) of gluten-free products prescription items written in the United Kingdom and dispensed in the community in England, by calendar year, as defined in the British National Formulary (BNF), is given as follows.

NIC of gluten-free prescriptions dispensed in England, 2006-08

	£000
2006	31,316.6
2007	32,008.2
2008	35,241.2

Source:
Prescription Cost Analysis

The BNF does not categorise gluten-free products in a specific section. The figures listed relate to all BNF items with 'G/F' (gluten-free) within their name. Gluten-free products are covered predominantly in section 9.4.1—"Foods for Special Diets" of the BNF but items are also included in other sections including prescriptions relating to enteral nutrition and laxatives.

Gordon Banks: To ask the Secretary of State for Health what assessment has been made of the effectiveness of locally enhanced service arrangements related to coeliac disease. [271496]

Ann Keen: No such assessment has been undertaken. As this is a locally commissioned service, individual primary care trusts are expected to monitor effectiveness.

Contraceptives: Finance

Anne Milton: To ask the Secretary of State for Health how much of the funding for contraception announced by his Department on 26 February 2009 has been allocated to each strategic health authority. [269991]

Dawn Primarolo: The following table shows the sums which will be allocated to strategic health authorities (SHAs) in 2009-10 to assist with improving access to contraceptive services, particularly for young people. The announcement on 26 February 2009 stated that £1 million would be allocated in respect of further education (FE) colleges.

The Department found, subsequent to the announcement, that SHAs had received a large number of bids and were keen to respond to these and to receive more than £1 million to expand contraceptive services in FE colleges. We therefore increased this allocation to £1.6 million.

			£
SHA	*Contraception*	*FE colleges*	*Total*
North East	780,000	150,000	930,000
North West	1,210,000	200,000	1,410,000
Yorkshire and Humberside	1,010,000	150,000	1,160,000
East Midlands	900,000	150,000	1,050,000
West Midlands	1,000,000	150,000	1,150,000
East of England	1,000,000	150,000	1,150,000
London	1,300,000	200,000	1,500,000
South East Coast	900,000	150,000	1,050,000
South Central	900,000	150,000	1,050,000
South West	1,000,000	150,000	1,150,000
Total	10,000,000	1,600,000	11,600,000

In addition to the funding announced on 26 February, each SHA will also receive an additional £250,000 to pump-prime the provision of information technology in community contraception services.

SHAs have been advised of these allocations.

Anne Milton: To ask the Secretary of State for Health whether he plans to repeat for 2009-10 the allocation of additional funding under general allocations to primary care trusts for contraception services made for 2008-09. [269992]

Dawn Primarolo: Primary care trust (PCT) allocations are being increased by 5.5 per cent. in both 2009-10 and 2010-11—a total cash increase of £8.6 billion. PCT allocations are not broken down into funding for individual policy streams such as contraception services. Rather it is for the national health service locally to decide how much resource to invest in order to meet national and local priorities as set out in the NHS Operating Framework, which mentions tackling teenage pregnancy as a key priority for local action.

Dental Services

Mr. Bone: To ask the Secretary of State for Health what percentage of dentistry was carried out by *(a)* NHS and *(b)* private dentists in (i) 1997 and (ii) the most recent period for which figures are available. [271180]

Ann Keen: The information requested is not held centrally.

Mr. Bone: To ask the Secretary of State for Health what recent assessment he has made of the level of dental health inequalities in England; and what steps he is taking to tackle such inequalities. [271181]

Ann Keen: Despite major improvements in oral health during the last 30 years, there remains a strong association between oral health and social disadvantage. The 2003 National Survey of Child Dental Health showed that the probability of five-year old children having decayed primary teeth was about 50 per cent. higher in the poorest social groups than the wealthiest group. Among 15-year-olds from managerial and professional backgrounds, 47 per cent. had obvious decay experience compared with 65 per cent. from routine and manual socio-economic backgrounds.

The fluoridation of water offers the best prospect of reducing these inequalities. The Water Act 2003 gives strategic health authorities (SHAs) the power to instruct water companies to fluoridate supplies. Last autumn, South Central strategic health authority consulted the public on fluoridating Southampton and parts of south west Hampshire and, on 26 February, decided to proceed with fluoridation. A number of other SHAs are now actively considering the possibility of new water fluoridation schemes.

Recognising that it may not be feasible to fluoridate all high need areas, the Government have developed the 'Brushing for Life' programme. 'Brushing for Life' involves health visitors giving families with young children in high need areas advice on preventing dental decay, and a free pack containing a tube of fluoridated toothpaste, a toothbrush and a leaflet on oral hygiene. In many areas, the programme is delivered in Sure Start Children's Centres. Some 18,000 packs were issued in 2008.

Mr. Bone: To ask the Secretary of State for Health if he will survey attitudes among the public and dentists to the new dental contract introduced in 2006. [271182]

Ann Keen: In December, the Department asked Professor Jimmy Steele to lead an independent review of national health service dentistry and his remit includes looking at current contractual arrangements, as well as specific issues raised in last summer's Health Select Committee report on dental services. Professor Steele is engaging widely with the public, the dental professions and the NHS, including on attitudes towards the dental contract. He is due to report his findings in the summer.

Dental Services: Surrey

Anne Milton: To ask the Secretary of State for Health if he will estimate the percentage of people in *(a)* Guildford constituency, *(b)* Waverley district and *(c)* Surrey who do not see a dentist regularly; and if he will make a statement. [270355]

Ann Keen: The information requested is not collected centrally. However, the number of patients seen by a national health service dentist in the previous 24-month period as a percentage of the population is available in Table D4 of Annex 3 of the report "NHS Dental Statistics for England, Quarter 2: 30 September 2008". Information is provided by primary care trust (PCT) and by strategic health authority and is available for each quarter from 31 March 2006 to 30 September 2008.

This report, published on 26 February 2009, has already been placed in the Library and is available on the website of the Information Centre for health and social care at:

www.ic.nhs.uk/pubs/dentalstats0809q2.

Patients not recorded as having seen an NHS dentist may have chosen to receive regular dental care from a private dentist.

The dental reforms implemented in 2006 gave primary care trusts (PCTs), for the first time, the responsibility for providing or commissioning dental services in their area. It is for PCTs to assess local needs, review current service provision and develop services to meet local needs. The Department has recently established an expanded national dental access programme to help managers and clinicians rapidly to expand services where needed and to provide support to those who need it.

Departmental Assets

Bob Spink: To ask the Secretary of State for Health when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269862]

Mr. Bradshaw: The Department is constantly reviewing its land and property holdings held in the name of the Secretary of State for Health to identify those which are surplus. It currently holds approximately 80 hectares of land and buildings which are surplus to requirements and is actively pursuing a disposal programme.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Health how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270520]

Mr. Bradshaw: Currently there are no civil servants suspended across the Department.

Depressive Illnesses

Mr. Jenkins: To ask the Secretary of State for Health what assessment has been made of the likely effects of proposed National Institute for Health and Clinical Excellence guidance on depression, with particular reference to the role of counselling for depression, on the treatment of people with depression. [270273]

Phil Hope: No assessment has been made. The National Institute for Health and Clinical Excellence (NICE) has yet to publish its updated clinical guideline on the treatment and management of depression in adults. It expects to publish this in September 2009.

Further information can be found on the NICE website:

www.nice.org.uk/Guidance/CG/WaveR/24

Epilepsy

Mr. Sanders: To ask the Secretary of State for Health what assessment his Department has made of the merits of appointing a national clinical director for epilepsy. [270888]

Ann Keen: We have no plans to appoint a national director for epilepsy. National directors oversee the implementation of specific National Service Frameworks or major clinical or service strategies. In line with devolving responsibility to local organisations, we believe that it is more appropriate for local health and social care communities and the third sector to take responsibility for driving forward the service changes and improvements envisaged by the National Service Framework for Long-term Conditions.

Epilepsy: Health Services

Mr. Sanders: To ask the Secretary of State for Health what procedures are in place to provide for accurate monitoring of the prevalence of epilepsy in *(a)* adults and *(b)* children on the part of primary care trusts. [270408]

Ann Keen: The national health service does not monitor the prevalence of specific medical conditions, including epilepsy.

Fertility: Medical Treatments

Lynda Waltho: To ask the Secretary of State for Health what counselling services are available on the NHS for couples seeking NHS-funded infertility treatment. [270648]

Dawn Primarolo: All clinics providing infertility treatment such as in vitro fertilisation are required in law to offer counselling about the treatment to be provided. If the treatment involves the use of donated gametes or embryos, patients must be given a suitable opportunity to receive counselling about the implications. The Human Fertilisation and Embryology Authority's code of practice for licensed clinics requires counselling to be provided only by licensed counsellors.

Food Poisoning

Mr. Gordon Prentice: To ask the Secretary of State for Health how many people diagnosed as having food poisoning have been admitted to hospital in England in each year since 2000. [270915]

Dawn Primarolo: The estimated number of hospital admissions in England and Wales due to foodborne disease in the years 2000-07 are shown in the following table. Separate figures for England only are not available.

Figures provided are for estimated cases of foodborne disease which are United Kingdom-acquired. Cases associated with foreign travel are excluded. Data for 2007 are the most recent that are currently available.

	Hospital admissions, England and Wales
2000	20,800
2001	[1]—
2002	[1]—
2003	17,200
2004	17,400
2005	17,300
2006	17,400
2007	18,900

[1] Estimates were not calculated for these years.

Note:

Estimates have been rounded to the nearest 100.

Source:

Health Protection Agency.

Food: Hygiene

Mr. Gordon Prentice: To ask the Secretary of State for Health if he will make it his policy to require local authorities to operate a national Scores on the Doors scheme for rating hygiene standards in food businesses. [270867]

Dawn Primarolo: The Food Standards Agency is establishing the national scheme in England, Wales and Northern Ireland for rating hygiene standards in food businesses.

It will not be mandatory for local authorities to adopt the national scheme. This would require new legislation and the Agency has no plans at the current time to introduce this.

The Agency is, however, conscious that local authority support for the scheme is critical to its success and is committed to working with them on developing a robust and effective support package (including guidance, training and information technology assistance). The Agency will also be working with the Local Government Association, the Local Authorities Co-ordinators for Regulatory Services, and with the Local Better Regulation Office, to encourage local authorities to recognise the benefits to consumers of having a single national scheme and to adopt the new scheme in their area.

Health Services: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Health what changes there have been to the provision of medical services for *(a)* pensioners, *(b)* young people, *(c)* families and *(d)* expectant mothers in Coventry in the last 12 months. [270902]

Ann Keen: This information is not held centrally. It was for primary care trusts to commission services in line with local needs and the priorities set out in "The Operating Framework for the NHS in England 2008-09." A copy of this document has already been placed in the Library.

Mr. Jim Cunningham: To ask the Secretary of State for Health what services are provided by his Department to partners of expectant mothers in Coventry. [270903]

Ann Keen: This information is not held centrally. It is for primary care trusts to commission services in line with local needs and the priorities set out in "The Operating Framework for the NHS in England 2009-10", which includes material on children and maternity. A copy of this document has already been placed in the Library.

Health Services: Standards

Mrs. Spelman: To ask the Secretary of State for Health what mechanisms local involvement networks are expected to use to co-ordinate their work with those responsible for discharging local authority health overview and scrutiny functions. [270439]

Ann Keen: The formal mechanism for local involvement networks (LINks) to interact with local authority overview and scrutiny committees (OSCs) is through the referral of relevant matters to the OSC. The OSC must acknowledge referrals from LINks that concern either health or social care matters within 20 working days and keep LINks informed about actions they might take, if any, with respect to those referrals.

It is good practice for LINks and OSCs to build and maintain good working relationships and less formal ways of working together over and above the use of formal referrals. Guidance on how LINks and OSCs might work together has been produced and is available on the NHS Centre for Involvement website at:

www.nhscentreforinvolvement.nhs.uk/index.cfm?Content=196.

Hospitals: Infections

Mike Penning: To ask the Secretary of State for Health how many patients were screened for healthcare-acquired infections in *(a)* Hemel Hempstead and *(b)* Hertfordshire in each of the last five years; and if he will make a statement. [270379]

Ann Keen: This information is not held centrally. However, from 1 April this year the national health service has been screening all relevant elective admissions for meticillin resistant Staphylococcus aureus (MRSA), and will be expanding this to include emergency admissions by 2011.

It is not appropriate to screen for all health care associated infections, and screening for health care associated infections other than MRSA is a matter for local determination according to clinical appropriateness and risk.

Hospitals: Infectious Diseases

Bob Spink: To ask the Secretary of State for Health what steps his Department is taking to assist companies working on patient-centred technologies for the prevention of healthcare-associated infections. [269270]

Ann Keen: The healthcare associated infection (HCAI) Technology Innovation Programme provides support to emerging and established technologies, including patient-centred technologies.

The Department has made product surgeries available to commercial and public sector organisations having an interest in HCAI technology. The surgeries provide innovators with the opportunity to discuss their product development programme and get advice on how best to get their technologies quickly through the system and into the national health service, focusing on the Rapid Review Panel (RRP).

The RRP was set up in 2004 and provides a prompt assessment of new and novel equipment, materials, and other products or protocols that may be of value to the NHS in improving hospital infection control and reducing hospital associated infections.

A number of technologies have a RRP recommendation 1. These include both hands-on patient care and general cleaning procedures. They range from technologies that help with the decontamination of large areas like wards and side rooms, to those which help prevent infection when taking blood or giving injections.

The programme is currently piloting a project to support companies who have achieved a RRP recommendation 2. The innovators are able to access expert NHS advice concerning what further evidence needs to be generated to potentially improve the products RRP recommendation and, where appropriate, we will look to see if we might help them get the necessary evidence to show how they help reduce infection.

Where practical, technologies with a RRP recommendation 1 are placed in the supply chain catalogue as soon as possible after gaining their recommendation to make them readily available to the NHS. Details are also added to the website:

www.clean-safe-care.nhs.uk

The technologies are also showcased in selected showcase hospitals so that NHS practitioners can visit the hospitals and see the products being used.

Liver Diseases: Health Services

Mr. Sanders: To ask the Secretary of State for Health if he will prepare and publish a national liver disease strategy. [270405]

Ann Keen: The Government are talking action on a number of fronts to tackle the main causes of liver disease—alcohol misuse, viral hepatitis and obesity.

Following on from High Quality Care For All, a copy of which has already been placed in he Library, the National Quality Board has been established to provide strategic oversight and leadership on quality across the national health service. As part of that role, the National Quality Board will provide advice to Ministers on clinical priorities, including the appropriateness of particular action for a particular clinical area or condition. This advice will be based on a systematic methodology which will allow decisions to be made about where work to improve quality is most needed. The work on liver disease will be considered within this context.

NHS: Death Rate

Mr. Lansley: To ask the Secretary of State for Health pursuant to the answer of 30 March 2009, *Official Report*, column 900W, on NHS: death rate, how many alerts the Healthcare Commission has received since July 2008; which NHS organisation was the subject of each alert; and what the reason was for the alert in each case. [269079]

Mr. Bradshaw: The Care Quality Commission (CQC), which took over from the Healthcare Commission on 1 April 2009, has informed us that since July 2008, the Healthcare Commission considered 94 alerts. The reasons for the alerts were because data received by the Healthcare Commission suggested that the rates of mortality in relation to a number of specific clinical areas were statistically higher than otherwise would have been expected. Statistical alerts relating to mortality rates do not necessarily equate to problems with clinical care. The alerts could be caused as a result of poor data quality, chance events, differences in the complexity of conditions treated or there could be evidence of poor quality care.

Details of the alerts by patient group are contained in the following table:

Alerts by patient group (cases since July 2008)

Patient group	*Number*
Acute and unspecified renal failure	3
Acute bronchitis	3
Acute cerebrovascular disease	8
Acute myocardial infarction	2
CABG (complex, combined and repeat)	2
Cardiac arrest and ventricular fibrillation	1
Chronic obstructive pulmonary disease and bronchiectasis	2
Chronic renal failure	1
Chronic ulcer of skin	1
Complication of device, implant or graft	1
Coronary atherosclerosis and other heart disease	9
Deficiency and other anaemia	1
Elective cases (various groups)	1
Excision of lung	2
Fluid and electrolyte disorders	2
Fracture of neck of femur (hip)	1
Head injury with brain injury	1
Heart valve disorders	4
Hip replacement	1
Intestinal obstruction without hernia	3
Intracranial injury	1
Large intestinal disorders, aged below 70 years and without complications and comorbidities	1
Large intestinal disorders, aged over 69 years or with complications or comorbidities	5
Lobar, atypical or viral pneumonia without complications and comorbidities	1
Minor skin procedures	1
Multiple injury, aged below 70 years	1
Non-infectious gastroenteritis	4
Non-transient stroke or cerebrovascular accident, aged over 69 years or with complications or comorbidities	1
Operations on jejunum	1
Other circulatory disease	1
Other liver diseases	1
Other non-viral infections	1
Other operations on heart	2
Other psychoses	1
Perinatal mortality	1
Peripheral and visceral atherosclerosis	1
Peritonitis and intestinal abscess	2
Pleurisy, pneumothorax, pulmonary collapse	2
Pulmonary heart disease	3
Septicaemia (except in labour)	8
Spondylosis, intervertebral disc disorders, other back problems	1
Therapeutic endoscopic procedures on upper GI tract	1
Urinary tract infections	4
All patient groups	94

One of the CQC's first pieces of work is to review this programme and it will be publishing the action taken on these alerts as soon as this review has been completed.

The CQC will undertake a rigorous review of each alert it receives, drawing together all relevant information, including, for example, patient reported experiences. Consideration will be given to possible data anomalies and variations which could be producing the alert, and advice will be taken from clinicians and other experts. Where necessary, information about the alert will be sought from the organisations concerned.

Orthopaedics: Finance

Mr. Andrew Smith: To ask the Secretary of State for Health (1) whether he plans further to revise the national tariff for specialist orthopaedic operations; [271059]

(2) what recent assessment he has made of effect of changes to the national tariff on the financial position of specialist orthopaedic centres. [271060]

Mr. Bradshaw: There are no plans to revise the 2009-10 national tariff for specialised orthopaedic treatments.

Analysis of the impact of the changes to the tariff, using historical activity data and national assumptions, was undertaken centrally at several stages of tariff development and calculation. With the release of the final tariff for 2009-10, organisations are able to undertake their own impact analysis using locally available up-to-date activity data.

Prescriptions: Fees and Charges

Mr. Andrew Smith: To ask the Secretary of State for Health what the timetable is for ending prescription charges for people with long-term medical conditions; and if he will make a statement. [271061]

Dawn Primarolo: The Prime Minister announced last September that the Government will abolish prescription charges for patients with long-term conditions over the next few years. Following this announcement, the Government asked Professor Ian Gilmore, President of the Royal College of Physicians, to undertake a review of prescription charges to consider how this pledge could best be implemented. The review is seeking the views of the public, clinicians and patient representative bodies on how exemption for people with long-term conditions should be phased in and is due to report to departmental Ministers in the summer.

Tranquillisers

Jim Dobbin: To ask the Secretary of State for Health pursuant to the answer of 10 March 2009, *Official Report*, columns 391-2W, on tranquillisers, what assessment he has made of the efficacy of his policy on the prescription of tranquillisers in limiting the number of medicines prescribed. [270354]

Dawn Primarolo: The Department has made no such assessment.

DUCHY OF LANCASTER

Charity Commission: Surveillance

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what use the Charity Commission has made of directed surveillance under the Regulation of Investigatory Powers Act 2000. [269901]

Kevin Brennan: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated April 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your written Parliamentary Question on the Commission's use of its powers in connection with Directed Surveillance under the Regulation of Investigatory Powers Act (RIPA).

It may be helpful to set out the position in relation to this legislation. The Charity Commission has limited powers under RIPA. Under an Order made in 2003, we have powers in connection with Communications Data (CD). We also have powers in connection with Directed Surveillance (DS) and the use of Covert Human Intelligence Source (CHIS). We can use these powers for the purposes of preventing or detecting crime or disorder.

In answer to your question, we have not made use of our powers in connection with DS nor have we used CHIS.

However, we have used our powers in connection with CD under section 21 (4) (c) of RIPA eight times since 2004. In all cases the information obtained was used to progress our investigations.

We only use these powers when absolutely necessary and in the most serious of cases. Their use is always authorised at a senior level within the Commission.

You may have seen an article in *The Times* of 17 April alleging that the Surveillance Commissioner had criticised the Charity Commission 'over misuse of RIPA'. I wrote to the Editor pointing out that this was incorrect. I am pleased to say that the newspaper published a correction on 21 April as follows:

"In a commentary on the reform of the Regulation of Investigatory Powers Act (News, April 17), it was suggested incorrectly that Ofcom and the Charity Commission were criticised by the Surveillance Commissioner for the misuse of Ripa powers. We are happy to make clear that no such criticism has been made of either organisation."

I hope this is helpful. A senior member of the Commission's Compliance team would be very happy to discuss this aspect of our work with you if that would be useful.

Civil Servants: Pay

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer to Lord Ouseley of 4 March 2009, *Official Report, House of Lords*, column WA157, on Civil Service: salaries, which public bodies pay a salary of more than *(a)* £100,000 and *(b)* £200,000 to one or more individual civil servants. [270211]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, pursuant to the answer to Lord Ouseley of 4 March 2009, Official Report, House of Lords, column WA157, on Civil Service: salaries, which public bodies pay a salary more than (a) £100,000 and (b) £200,000 to one or more individual civil servants. (270211).

The Office for National Statistics collects the annual salaries of civil servants from public bodies employing civil servants, as part of the Annual Civil Service Employment Survey (ACSES).

The requested data are attached at Annex A.

Annex A

Civil Service departments and agencies paying one or more individual civil servants more than £100,000

Advisory Conciliation and Arbitration Service
Animal Health
Army Base Repair Organisation
Attorney-General's Office
Border and Immigration Agency
Cabinet Office
Central Office of Information
Central Science Laboratory
Centre for Environment, Fisheries and Aquaculture Science
Charity Commission
Child Support Agency
Criminal Records Bureau
Crown Office and Procurator Fiscal Service
Crown Prosecution Service
Crown Prosecution Service Inspectorate
Debt Management Office
Department for Business, Enterprise and Regulatory Reform
Department for Children, Schools and Families
Department for Communities and Local Government
Department for Culture, Media and Sport
Department for Environment, Food and Rural Affairs
Department for Innovation, Universities and Skills
Department for International Development
Department for Transport
Department for Work and Pensions
Department of Health
Driver and Vehicle Licensing Agency
Driving Standards Agency
Export Credit Guarantee Department

Fire Service College
Food Standards Agency
Foreign and Commonwealth Office
Government Actuary's Department
Health and Safety Executive
Highways Agency
HM Courts Service
HM Land Registry
HM Revenue and Customs
HM Treasury
Home Office
Identity and Passport Service
Jobcentre Plus
Meat Hygiene Service
Medical and Healthcare products Regulatory Agency
Meteorological Office
Ministry of Defence
Ministry of Justice
National Archives
National Healthcare Purchasing and Supplies Agency
National Savings and Investments
National School for Government
Northern Ireland Office
Office for National Statistics
Office for Security and Counter-Terrorism
Office for Standards in Education
Office of Fair Trading
Office of Gas and Electricity Market
Office of Government Commerce
Office of Rail Regulation
Office of Water Services
OGC Buying.solutions
Ordnance Survey
Parliamentary Counsel Office
Pension Service
Planning Inspectorate
Postal Services Commission
Public Guardianship Office
Public Sector Prison Service
Revenue and Customs Prosecutions Office
Royal Mint
Rural Payments Agency
Scotland Office
Scottish Government
Security and Intelligence Services
Serious Fraud Office
Transport Scotland
Treasury Solicitor
Tribunals Service
UK Intellectual Property Office
Vehicle and Operator Services Agency
Welsh Assembly Government

Civil Service departments and agencies paying one or more individual civil servants more than £200,000

Border and Immigration Agency
Cabinet Office
Department for Culture, Media and Sport
Department for Work and Pensions
Department of Health
Export Credit Guarantee Department
Ministry of Defence
Office of Gas and Electricity Market
Parliamentary Counsel Office
Revenue and Customs Prosecutions Office

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer to Lord Ouseley of 4 March 2009, *Official Report, House of Lords*, column WA157, on Civil Service: salaries, how many individuals in *(a)* executive agencies and *(b)* non-departmental public bodies are paid more than (i) £100,000 and (ii) £200,000 per annum. [270212]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell:

As National Statistician I have been asked to reply to your recent Parliamentary Question, pursuant to the Answer to Lord Ouseley of 4 March 2009, Official Report, House of Lords, column WA157, on Civil Service: salaries, how many individuals in (a) executive agencies and (b) non-departmental public bodies are paid more than (i) £100,000 and (ii) £200,000 per annum. (270212).

The Office for National Statistics (ONS) collects the annual salaries of civil servants as part of the Annual Civil Service Employment Survey (ACSES).

The requested data are attached at Annex A.

Number of individual civil servants paid more than (a) £100,000 and (b) £200,000 by non-departmental public bodies (NDPB) and executive agencies, Permanent employees, 31 March 2008

		Headcount
	Greater than £100,000	*Greater than £200,000*
Non-departmental public bodies	10	0
Executive agencies	110	[1]—

[1] Less than five.
Note:
Numbers are rounded to the nearest 10.
Source:
(Unpublished) Annual Civil Service Employment Survey.

Death: Bacterial Diseases

Mr. Lansley: To ask the Chancellor of the Duchy of Lancaster how many times *(a)* acinetobacter, *(b)* pseudomonas and *(c)* burkholderia has been mentioned on death certificates in England in each year since 1997. [271188]

Ann Keen: I have been asked to reply.

These data are not collected.

Government Departments: Communication

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster how much *(a)* each Government department and *(b)* central Government has spent on communications in each (i) year since 2004 and (ii) month since January 2008; and if he will make a statement. [269761]

Mr. Byrne: This information is not collected centrally. Each Government Department, agency and NDPB is responsible for setting its own communications priorities and outputs, and each Secretary of State is responsible to Parliament.

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster what *(a)* each Government department and *(b)* central Government planned communications expenditure is over the next 12 months; and if he will make a statement. [269762]

Mr. Byrne: This information is not collected centrally. Each Government Department is responsible for setting its own communications priorities and outputs, and the Secretary of State is responsible to Parliament.

Jenny Willott: To ask the Chancellor of the Duchy of Lancaster how many civil servants were employed by *(a)* each Government department and *(b)* central Government on government communications in each (i) year since 2004 and (ii) month since January 2008; and if he will make a statement. [269765]

Mr. Byrne: The number of communications staff employed by each Government Department is not collected centrally, as we explained in our evidence to the House of Lords Communications Committee.

Government Departments: Consultants

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how much was spent on private sector management by Government departments in the last year for which figures are available. [270150]

Angela Eagle: I have been asked to reply.

Information on central Government private sector management consultancy spend is not held centrally. However, total spend on professional consultancy services by the 16 largest spending central Government Departments for 2007-08, the most recent year available, has been published by the Office of Government Commerce. Details can be found using the following link:

http://www.ogc.gov.uk/professional_services_consultancy_value_programme.asp

Government Departments: Contracts

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the Cabinet Office's policy is on contracts being signed by Government departments in the 12 months before the last possible date for a general election. [270198]

Angela Eagle: I have been asked to reply.

The Government will continue to let contracts in accordance with the normal procedures set out in the procurement policy and guidance available on the Office of Government Commerce website.

Local Government: Referendums

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster with reference to the answer to the hon. Member for Brentwood and Ongar of 30 October 2008, *Official Report*, column 1210W, on local government: referendums, whether guidance has been issued by the Cabinet Office to public authorities on the use of public funds by third party groups to campaign to influence a referendum or election. [271162]

John Healey: I have been asked to reply.

While there are statutory restrictions on election expenditure by or on behalf of a candidate at a local election, and on expenditure incurred by or on behalf of an individual or body in connection with the conduct or management of any campaign conducted with a view to promoting or procuring a particular outcome in a referendum held under part 2 of the Local Government Act 2000, we have not issued guidance to local authorities on the provision of public funding to groups which campaign in local referendums or elections.

The Code of Recommended Practice on Local Authority Publicity, which all local authorities must have regard to, makes clear that the principles set out in the publicity code, including those pertaining to elections, referendums and petitions should be taken into account by local authorities in decisions on assistance to others to issue publicity.

Pay

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the average percentage yearly change in earnings in *(a)* the Civil Service, *(b)* local government, *(c)* the public sector and *(d)* the private sector was in the most recent period for which figures are available. [269980]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average percentage yearly change in earnings in (a) the Civil Service, (b) local government, (c) the public sector and (d) the private sector was in the most recent period for which figures are available. (269980)

The only source that has information on all of the sectors you have requested is the Annual Survey of Hours and Earnings (ASHE) and this has been used to allow for a consistent comparison. Earnings estimates are provided for all employees on adult rates of pay whose pay for the survey period was not affected by absence. The ASHE, carried out in April each year, is based on a sample of all employees who are members of pay-as-you-earn (PAYE) schemes.

I attach a table showing the annual percentage change in median gross weekly earnings for full-time employees in (a) the Civil Service, (b) local government, (c) the public sector and (d) the private sector, for 2008, the most recent year for which figures are available.

Annual percentage change in median gross weekly pay—full-time employee jobs[1] in the United Kingdom for 2008

	Annual percentage change
Civil Service	4.4
Local Government	3.6
Public sector	4.3
Private sector	4.6

[1] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

Annual Survey of Hours and Earnings, Office for National Statistics

Population

Mr. Seames: To ask the Chancellor of the Duchy of Lancaster what the net international migration by non-British citizens was in respect of *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland in each year since 1991. [270699]

Kevin Brennan *[holding answer 23 April 2009]*: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to respond to your question concerning what the net international migration by non-British citizens was for (a) England, (b) Scotland, (c) Wales and (d) Northern Ireland in each year since 1991. (270699)

Official estimates of net international migration by non-British citizens for the constituent countries of the UK in each year since 1991 are given in Table 1 attached. The data are consistent with published figures.

Table 1: Net international migration to the countries of the UK by non-British citizens, 1991 to 2007—countries of the United Kingdom

Thousand

	England	*Wales*	*Scotland*	*Northern Ireland*
1991	39	1	-1	0
1992	13	1	0	0
1993	24	1	1	0
1994	42	3	0	0
1995	69	3	0	0
1996	80	2	2	-1
1997	75	7	3	0
1998	113	4	7	-1
1999	101	1	8	0
2000	105	0	16	4
2001	138	3	4	1
2002	143	6	-2	4
2003	175	0	9	0
2004	286	4	15	3
2005	233	6	8	4
2006	246	8	19	5
2007	267	8	16	6

International Passenger Survey

Public Sector: Job Creation

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what proportion of jobs created have been in the public sector in each year since 1997. [269899]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning what proportion of jobs have been in the public sector in each year since 1997. (269899).

Statistics on jobs in the public sector are not available. However we can provide the change in the number of employees (the closest available measure) for both the public and private sectors alongside total employment since 1997. These figures will therefore exclude any vacancies. The data are attached at Annex A.

Estimates of employment for the whole economy are sourced from the Labour Force Survey (published monthly), and for the public sector from the quarterly Public Sector Employment surveys. Private sector employment estimates are derived as the difference between Labour Force Survey and public sector employment totals. It is important to acknowledge, as with any sample survey, estimates from the Labour Force Survey are subject to a margin of uncertainty.

Annex A: Public and private sector employment

United Kingdom, thousand, seasonally adjusted

	Public sector[1, 2, 3, 6]		*Private sector*[4, 5]		*Total employment*[6, 7]
All in employment	*Thousand*	*Percentage*	*Thousand*	*Percentage*	*Thousand*
1997	5,180	19.5	21,310	80.5	26,490
1998	5,170	19.3	21,610	80.7	26,770
1999	5,190	19.1	21,930	80.9	27,120
2000	5,270	19.1	22,250	80.9	27,530
2001	5,360	19.4	22,340	80.6	27,700

[1] Estimates derived from public sector organisations.

[2] Estimates for Northern Ireland included in the UK total are sourced from the Quarterly Employment Survey and are based on jobs rather than employees.

[3] Estimates for December 2007 onwards are based partly on projections.

[4] Northern Rock plc was reclassified for statistical purposes from the private to the public sector on 9 October 2007.

[5] Estimated as the difference between LFS total employment and the data from public sector organisations.

[6] LFS data for September refers to August-October and December refers to November-January.

[7] Labour Force Survey employment, All aged 16 and over, seasonally adjusted.

Note:
Details of the sampling variability of national Labour Force Survey estimates are included each month in the Labour Market Statistics First Release, available on www.statistics.gov.uk

Public Sector: Manpower

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 23 February 2009, *Official Report*, column 409W, on public sector: manpower, whether the Civil Service employee headcount in 1997 included *(a)* self-employed workers, *(b)* contract workers and *(c)* agency temporary workers. [270149]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, pursuant to the Answer of 23 February 2009, Official Report, column 409W, on public sector: manpower, whether the Civil Service employee headcount in 1997 included (a) self-employed workers, (b) contract workers and (c) agency temporary workers. (270149)

I can confirm that the Civil Service employee headcount in 1997 excluded self-employed workers, contract workers and agency temporary workers.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 23 February 2009, *Official Report*, columns 409-12W, on public sector: manpower, whether the methodology that excludes casual and annualised hour contracts from the definition of public sector workers was used in the calculation of the Civil Service employee headcount in 1997. [270150]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent parliamentary question, pursuant to the answer of 23 February 2009, Official Report, columns 409-12W, on public sector: manpower, if the methodology that excludes casual and annualised hour contracts from the definition of public sector workers was used in the calculation of the civil service employee headcount in 1997.

I can confirm that the methodology that excludes casual and annualised hour contracts from the definition of public sector workers was used in the calculation of the civil service employee headcount in 1997.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 23 February 2009, *Official Report*, columns 404-9W, on public sector: manpower, for what reasons a list of the public sector bodies which were classified as central government for the purpose of the Civil Service employee headcount in 1997 is not available. [270151]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question, pursuant to the answer of 23 February 2009, Official Report, columns 404-9W, on public sector: manpower, for what reasons a list of the public sector bodies which were classified as central government but not for the purpose of the Civil Service employee headcount in 1997 is not available. (270151).

In 2005, Office for National Statistics (ONS) in collaboration with other departments and the devolved administrations, implemented major improvements to public sector employment estimates. Although records for earlier periods were passed to ONS, at the time of the aforementioned answer of 23 February 2009, information on public sector bodies which were classified as central government but not for the purpose of the Civil Service employee headcount in 1997 could not be found.

Further effort to find the information has brought it to light. The requested information is attached at Annex A.

Small Businesses: Staffordshire

Mr. Jenkins: To ask the Chancellor of the Duchy of Lancaster how many people have been employed in the small business sector in *(a)* Tamworth constituency and *(b)* Staffordshire in each year since 1997. [270274]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent parliamentary question concerning how many people have been employed in the small business sector in (a) Tamworth constituency and (b) Staffordshire in each year since 1997.

Table 1 shows the number of employees within the size-band 0-49 employees from 1998 to 2007. Figures for 1997 are not available.

Table 1: Number of employees in the employee size-band 0-49

Period	*Tamworth constituency*	*Staffordshire*
1998	19,100	151,800
1999	17,900	146,000
2000	18,900	155,500
2001	18,400	152,900
2002	19,400	158,600
2003	19,500	157,100
2004	19,500	158,100
2005	19,400	156,800
2006	19,400	157,300
2007	19,400	157,000

Note:
Estimates for 2005 and earlier periods are on a different basis to those from 2006 onwards. A preliminary assessment of changes in survey methodology suggests that the estimated total number of employees (for GB at the whole economy level) was reduced by around 1 per cent. Direct comparisons of employee estimates should therefore be treated with caution.
Source:
Annual Business Inquiry.

Taxation: Income

Mr. Willetts: To ask the Chancellor of the Duchy of Lancaster with reference to the answer of 11 June 2008, *Official Report*, columns 308-9W, on taxation: income, if he will publish an updated copy of table 14A of the Effects of Taxes and Benefits on Household Income, broken down by the age of the household's reference person in five year bands from the ages of 20 to 80 years rather than by household income deciles, for the latest year for which figures are available. [270208]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent question asking with reference to the Answer of 11 June 2008, Official Report, columns 308-9W, on taxation: income, if he will place in the Library an updated copy of table 14A of the Effects of Taxes and Benefits on Household Income, broken down by the age of the households reference person in five year bands from the ages of 20 to 80 years rather than by household income deciles, for the latest year for which figures are available. (270208)

The table requested is provided here for the year 2006/07, the latest period for which figures are available. This table will also be provided to the House of Commons Library.

Average incomes, taxes and benefits have been presented with households grouped in five year bands according to age of the household reference person (HRP). To ensure that all households are classified, an age group for households where the HRP is aged 80 or over has been included. Households where the HRP is under 20 (of which there are relatively few) are classified in the same group as those where the HRP is aged 20 to 24.

The information in this response is based on the Expenditure and Food Survey, which has a sample size of approximately 6,400 households. When breaking down this sample into age bands the sub-samples become quite small. The estimates for all of the age groups are based on sub-samples of around 370-710 households. With such small sample sizes, caution should be exercised when drawing any conclusions from these estimates. As an indication of sampling variability, the 95 per cent confidence interval for average gross household income for all households is approximately ±2.8 per cent. When disaggregating the information to smaller sub-groups, such as household age groups, the sampling variability will be greater due to a smaller sample size.

Average household incomes, taxes and benefits by age of household reference person, 2006-07

Office for National Statistics

v: Finance

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how much funding the Cabinet Office has provided for the charity v to date. [269910]

Kevin Brennan: v were allocated and spent £25.643 million in 2006-07, £47.175 million in 2007-08. Figures for 2008-09 will be available in the Cabinet Office Annual Report 2008-09 which will be published before summer recess.

Water Charges: Consumers

Tim Farron: To ask the Chancellor of the Duchy of Lancaster if he will estimate the number of households which spent more than 3 per cent. of their disposable income on water bills in each year since 1997. [270446]

Kevin Brennan *[holding answer 23 April 2009]:* The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell:

As National Statistician, I have been asked to reply to your recent question asking the Chancellor of the Duchy of Lancaster if he will estimate the number of households which spent more than three per cent of their disposable income on water bills in each year since 1997. (270446)

The table below shows the number of UK households that spent more than three per cent of their disposable income on water bills in each of the years from 2000/01 to 2006/07. These estimates are based on data collected through the Expenditure and Food Survey, and its predecessor the Family Expenditure Survey, which is a sample survey covering approximately 7,000 households in the UK. Comparable figures prior to 2000/01 are not available.

These estimates, as with any involving sample surveys, are subject to a margin of uncertainty.

Households with water bills greater than 3 per cent. of disposable income[1,2,3,4]
United Kingdom

	Number of households (million)
2000-01	3.1
2001-02	3.7
2002-03	2.5
2003-04	2.8
2004-05	2.4
2005-06	3.0
2006-07	3.2

Notes: [1]
Figures for 2000-01 are based on the Family Expenditure Survey (FES).
[2] Figures from 2001-02 and onwards are based on the Expenditure and Food Survey (EFS).
[3] Data taken from the FES include water and sewerage charges, whereas data from the EFS also contain water charges of a second home.
[4] Disposable income is all income from: wages, self-employment income, occupational pensions, investment income, imputed income from benefits in kind, and state benefits after the deduction of income tax, employees' national insurance contributions and council tax.

Office for National Statistics.

COMMUNITIES AND LOCAL GOVERNMENT

Community Infrastructure Levy

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government (1) what her Department's timetable is for *(a)* further consultation on the community infrastructure levy and *(b)* the full commencement of the levy; [270115]

(2) what assessment has been made of the effect of the community infrastructure levy on levels of development *(a)* during and *(b)* outside a period of recession; [270116]

(3) what recent discussions there have been between her Department and the Department for Business, Enterprise and Regulatory Reform on the community infrastructure levy. [270261]

Mr. Iain Wright: As the Government announced in the Budget, the community infrastructure levy (CIL) will be introduced on 6 April 2010. A full 12-week consultation will be held in advance of final regulations being made.

CIL is a voluntary instrument, so it will be for local authorities to decide whether the circumstances in their area make the introduction of CIL appropriate and at what level to set the charge. CIL charges will need to reflect local economic circumstances and be subject to consultation with both developers an[illegible]mmunities, and testing by an independent examiner s[illegible]ensure that charges do not put development at ris[illegible]

An initial impact assessment was published when the Planning Act received Royal Assent last November and will be updated as CIL regulations are consulted upon and made.

Communities and Local Government works closely with other Government Departments in developing CIL.

Community Relations

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 March 2009, *Official Report,* column 477W, on community relations: finance, what national projects aimed at preventing violent extremism are under way. [270461]

Mr. Khan: National projects aimed at preventing violent extremism fall into three broad areas of work as follows:

Supporting Faith Capacity and Leadership;

Community Capacity and Leadership;

Local Leadership and delivery;

Specific projects underway are listed as follows:

Specific projects

Contextualising Islam in Britain;

Islam and Citizenship Education (this is CLG's contribution. DCSF have also contributed jointly); Radical Middle Way;

Charity Commission's Faith and Social Cohesion Unit;

Piloting of the minimum standards for Muslim chaplains engaged by public institutions;

Faith Community Development Qualification for faith leaders;

Improvement and Development Agency (for Local Authorities);

Creative Partnerships to promote positive alternative activities for young people.

In addition, research and communications work also support the workstreams and projects listed above. The Community Leadership Fund also funds specific projects on preventing violent extremism.

For further detail I refer the hon. Member to the answer I gave him on 23 April 2009, *Official Report*, columns 872-78W.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 March 2009, *Official Report*, column 477W, on community relations: finance, how many national Prevent-related projects were delivered by subcontractors; and how the performance of those subcontractors was monitored. [270462]

Mr. Khan: One national Prevent-related project is part delivered through a sub-contracting arrangement. Three national Prevent-related projects have sub-contracted the evaluation of their delivery. It is the responsibility of the contractor to monitor the sub-contractor.

For information regarding the Community Leadership Fund I refer the hon. Member to the answer I have given him today to PQ 270568 and for information on the Young Muslims Advisory Group I refer him to the answer I have given him to PQ 270416.

John Bercow: To ask the Secretary of State for Communities and Local Government what recent progress has been made by the locally led and managed demonstration projects to test and capture learning on a mixed communities approach, referred to on page 37 of her Department's Annual Report 2008; and if she will make a statement. [271527]

Mr. Khan: CLG published the first phase of the evaluation of Mixed Communities demonstration projects report on 26 March 2009 and is planning to publish the final report in summer 2009. The report can be found at:

http://www.communities.gov.uk/publications/housing/evaluationmixedcommunities

Responsibility for support of the demonstration projects was transferred to the Homes and Communities Agency (HCA) on December 1 2008. Currently, the HCA is exploring how future support to the demonstration projects can be provided.

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 11 March 2009, *Official Report*, column 477, on community relations, if she will publish *(a)* a breakdown by project of the £8.5 million spent on Prevent-related projects in the financial year 2008-09 and *(b)* a breakdown by year of funding allocated by the Community Leadership Fund. [270588]

Mr. Khan: I refer the hon. Member to the answer I gave him on 23 April 2009, *Official Report*, columns 872-78W.

Community Relations: Islam

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 12 January 2009, *Official Report*, columns 234-6W, on community relations: Islam, how many of the organisations which receive funding from the Preventing Violent Extremism Community Leadership Fund are using subcontractors to deliver projects; and what mechanisms are in place to monitor the performance of such subcontractors. [270568]

Mr. Khan: 21 organisations receiving funding from the Preventing Violent Extremism Community Leadership Fund are using subcontractors to deliver elements of their projects. The grant recipients are responsible for monitoring the performance of subcontractors and have their own mechanisms in place for doing so. As part of their funding agreement with us, grant recipients are obliged to report on the progress of their projects on a six monthly basis.

Council Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2009, *Official Report*, columns 976-7W, on local government finance, when she expects her Department to conclude its consultation on changes to housing finance rules which would allow local authorities to keep the full income and capital returns on investments in new council housing; and how many responses have been received to date. [270596]

Mr. Iain Wright: The consultation on excluding new council housing from housing revenue account subsidy and pooling closed on 17 April 2009. We have received 98 written responses. These will be considered and taken into account before decisions are made on how to implement the proposals.

Departmental Air Conditioning

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much has been spent by her Department on carrying out inspections of air conditioning systems within departmental buildings in accordance with the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007. [270613]

Mr. Khan: Inspections of air conditioning systems, in accordance with the Energy Performance of Buildings Directive, have cost Communities and Local Government £3,744 since January 2009.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government how many officials in her Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270526]

Mr. Khan: CLG do not currently have any members of staff who are currently suspended.

Departmental Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government on how many occasions the approval of her Department has been sought for spending by one of its non-departmental public bodies in excess of £10 million in the last five years; how many such projects also required approval from the Treasury; and which projects were concerned. [270643]

Mr. Khan: Over the last five years, the approval of this Department has been sought for spending by its non-departmental public bodies in excess of £10 million on 116 occasions; 56 of these projects also required approval from the Treasury. A list of the projects is tabled as follows.

Empty Property

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many properties were vacant for a period of longer than six months in each region in each of the last three years; [270636]

(2) how many vacant dwellings there were in each region in each of the last three years. [270684]

John Healey: Details of the number of long-term empty dwellings and all empty dwellings in each region in England on specific dates in each of the last three years are shown in the tables.

The data are from snapshots taken in the autumn of each year and are as reported to Communities and Local Government by all billing authorities in England on their annual Council Taxbase (CTB) and CTB (Supplementary) returns.

Long-term empty properties by regions

	9 October 2006	*7 October 2007*	*6 October 2008*
North East	21,886	21,583	22,531
North West	71,811	73,047	73,888
Yorkshire and the Humber	36,336	40,084	43,352
East Midlands	27,763	27,542	28,910
West Midlands	35,910	34,833	35,495
East of England	25,039	24,704	26,255
London	40,142	36,534	37,150
South East	34,278	34,226	35,991
South West	25,276	21,732	24,285
Total England	318,441	314,285	327,857

Total empty properties by regions

	9 October 2006	*7 October 2007*	*6 October 2008*
North East	48,287	48,099	50,623
North West	136,783	141,186	137,849
Yorkshire and the Humber	90,947	101,091	102,241
East Midlands	65,495	70,084	76,956
West Midlands	79,208	80,401	79,848
East of England	68,485	69,107	75,198
London	86,701	84,627	85,924
South East	102,812	101,809	105,111
South West	69,441	66,915	70,272
Total England	748,159	763,319	784,022

Fire Services: Manpower

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government with reference to her Department's Fire and Rescue Service: Operational Statistics Bulletin for England, December 2008, for what reasons Merseyside Fire Authority has more retained firefighters than retained firefighter posts. [270246]

Mr. Khan: The figure published for the number of retained firefighter posts in Merseyside fire and rescue service was incorrect, and should have been 185 units of 24-hour cover at 31 March 2008. The relevant table in the Operational Statistics Bulletin will be republished on the Department's website with the figures corrected.

Fires: Domestic Waste

Mike Penning: To ask the Secretary of State for Communities and Local Government how many refuse container fires in *(a)* Hemel Hempstead and *(b)* Hertfordshire were recorded in each of the last five years. [271254]

Mr. Khan: Information concerning fires attended by fire and rescue services, in England, is available at fire and rescue authority level and above only. Information regarding the number of fires solely in refuse containers is not held centrally.

Information regarding all refuse fires, attended by Fire and Rescue Services in England, including those in refuse containers is available in the table.

Total refuse and refuse container fires[1], England, 2003-07[2]

First Time Buyers

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many people have applied for assistance under the first-time buyers initiative; how many applications have been granted; and what the average level of support provided has been. [270638]

Mr. Iain Wright: Since the start of the FTBI programme, 37,455 applications have been registered where the applicant has either specifically mentioned FTBI or included it as one of the HomeBuy products that they are considering. Therefore, the number does not exclusively comprise FTBI applications.

Of the total number of applications, around 30,275 have been approved as eligible for the HomeBuy products, including FTBI.

In terms of the average level of support provided, an average contribution of about £72,500 has been made in each purchase.

Homes and Communities Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what additional funding will be provided for the Homes and Communities Agency as a result of the 2009 Budget; what schemes this funding will be used to support; and in which region each such scheme will be. [271315]

Margaret Beckett: As a result of the Budget 2009 the HCA will receive an additional £635 million. This is broken down as follows:

£400 million to unlock currently stalled developments by providing development finance, and additional funding for social and affordable housing, including help for first time buyers.

£50 million to enable local authorities to deliver new social housing over the next two years.

Up to £80 million to support delivery of the Mortgage Rescue Scheme which is being extended to enable households in negative equity (up to a maximum of 120 per cent. loan to value) to access the scheme.

£84 million to provide cavity wall insulation in the social sector.

£21 million for investment in innovative low-carbon heating systems which support housing developments.

These programmes will be administered nationally and sites will be selected against criteria including value for money, deliverability and affordability. Nevertheless, the Government expect a good regional distribution of projects and have asked regional partners for their priorities.

Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what estimate has been made of the number of homes owned by housing associations in each of the last three years; [270624]

(2) what estimate has been made of the number of homes owned by registered social landlords in each of the last three years. [270626]

Mr. Iain Wright: I refer the hon. Member to the answer I gave him on 30 March 2009, *Official Report*, columns 980-82W.

Housing Associations

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate has been made of the market value of homes owned by housing associations in each of the last three years. [270625]

Mr. Iain Wright: An estimate of the monetary value of homes owned by registered social landlords (RSLs) in each of the last three years provided in the following table is derived from the financial accounts of RSLs. The value given is the aggregate of figures provided by individual RSLs to the TSA by all RSLs that own 1,000 or more homes, representing approximately 97 per cent. of all homes owned in the RSL sector. This is reported in the publication "Global accounts of housing associations" produced by the TSA. The estimate of value is provided taking into account the public grant subsidy received.

£ million

	As at 31 March each year		
	2008	*2007*	*2006*
Build cost/value	85,164	77,426	70,295
Public sector grants	34,357	31,815	28,891
Estimated value of homes in the sector	50,807	45,611	41,404

Housing: Care Leavers

Helen Southworth: To ask the Secretary of State for Communities and Local Government which local authorities make specific mention of the accommodation needs of care leavers in their *(a)* housing and *(b)* homelessness strategies. [271311]

Mr. Iain Wright: The Department does not collect this information centrally. However making sure that care leavers have access to an appropriate range of accommodation options is a priority for Government.

Local authorities are expected to assess and plan for the current and future housing needs for all local people, including vulnerable people such as care leavers. They have statutory responsibilities for providing care leavers with the support they need until they are 21, or longer if they remain in an approved programme of education or training. Where care leavers are under 18 but have moved on from foster care or a children's home, their responsible local authority has a duty to make sure that they are maintained in suitable accommodation.

To support and improve access to suitable accommodation for care leavers my Department has taken a number of recent steps. Last year we jointly published guidance with the Department for Children, Schools and Families (DCSF) on how agencies should work together to prevent youth homelessness with a focus on enabling care leavers to have access to the full range of supported accommodation for young people in their area. This combines with our ongoing work on PSA 16 which sets out the Government's aim that the most vulnerable adults are offered the chance to get back on a path to a more successful life by increasing the proportion of socially excluded adults in settled accommodation and in employment, education or training. Care leavers are one of the four groups the PSA specifically focuses on.

This work includes targeted intervention with local authorities across the country who have the lowest percentages of care leavers in suitable accommodation; DCSF staff based in regional Government offices and CLG jointly conduct these visits.

Our work on the National Youth Homelessness Scheme also monitors homelessness acceptances by care leavers on a quarterly basis and has an ongoing visit programme to local authorities to help them improve their approach to preventing and tackling youth homelessness in order to support young people, including care leavers, who need help with their transition to independence.

Housing: Construction

Andrew Mackinlay: To ask the Secretary of State for Communities and Local Government what the projected figure for housing completions in 2007-08 was in October 2007; how many such completions there were in 2007-08; and if she will make a statement. [270156]

Mr. Iain Wright: No projection was made by the Government for housing completions in 2007-08. In 2007-08, housing completions in England totalled 166,990.

Housing: Energy

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many energy efficient homes have been built in England in the last five years. [271331]

Mr. Iain Wright: All new homes built in the last five years have been required to meet the minimum energy efficiency standards of Part L of the Building Regulations. The Part L standard for new homes was raised by 20 per cent. in 2006. This requirement will progressively increase leading up to the Zero Carbon target from 2016.

There are a number of homes that have been built to higher standards than regulation requires at this time. These homes may have been built for a number of different reasons through various schemes, such as the Code for Sustainable Homes.

Affordable Housing

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government when the London and Quadrant Up2You portfolio completed the investment management system process under the National Affordable Housing Programme. [270123]

Mr. Iain Wright: The Homes and Communities Agency (HCA) have concluded discussions with L&Q regarding the proposals to unlock additional affordable housing across the Up2U package of development sites. The specific bids which pertain to each individual site have yet to be entered onto the investment management system. This will be completed later this financial year.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what the maximum household income is at which a household is eligible for intermediate level *(a)* affordable housing and *(b)* shared ownership schemes. [270249]

Mr. Iain Wright: There is no standard maximum household income at which a household becomes eligible for intermediate level affordable housing and/or shared ownership schemes. This will vary depending on the location and type of scheme. Purchasers' household income must not exceed £60,000 and they must be able to demonstrate that they cannot buy without assistance but can sustain home ownership.

Mr. David Anderson: To ask the Secretary of State for Communities and Local Government what regulations govern the provision of domestic properties via property purchase-and-rent-back schemes. [270158]

Ian Pearson: I have been asked to reply.

Sale and rent back agreements are not currently regulated. On 6 February 2009, the Government published a consultation document, proposing that companies offering sale and rent back agreements are brought within the scope of Financial Services Authority (FSA) regulation. The consultation will close on 1 May 2009. It is available at:

http://www.hm-treasury.gov.uk/consult_sale_rent.htm

The FSA has published a separate consultation alongside on the detail of its proposed new regime, available at:

http://www.fsa.gov.uk/pages/Library/Policy/CP/2009/09_06.shtml

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many people have applied for assistance via the OwnHome scheme; how many applications have been granted; and what the average level of support provided has been. [270619]

Mr. Iain Wright: 6,409 applications were made for the Own Home scheme to the end of March 2009, of which 4,758 were approved by the provider for the purchaser to seek a property. The average level of support in terms of Government funding was £28,400.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much the Homes and Communities Agency spent on acquiring unsold stock for affordable housing in March 2009. [270629]

Mr. Iain Wright: Provisional figures show that the Homes and Communities Agency allocated around £118 million in March 2009 on acquiring unsold stock for affordable housing. In total over £350 million was allocated on the purchase of unsold stock from developers to provide around 9,600 affordable homes.

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether she plans to review the level of maximum right to buy discounts in each region; and if she will make a statement. [270630]

Mr. Iain Wright: The Government have no plan to review the maximum limits on Right to Buy discounts.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what the maximum right to buy discount was in each region in each of the last 10 years; [270634]

(2) what the maximum right to buy discount was in 2008-09 prices in each region in each of the last 10 years. [270635]

Mr. Iain Wright: The answer is as follows:

	£
London:	
February 1999 to March 2003	38,000
March 2003 to date:	
All boroughs but two	16,000
Barking and Dagenham, Havering	38,000
South East:	
February 1999 to March 2003	38,000
March 2003 to date:	
All districts but the following nine	38,000
Chiltern, Epsom and Ewell, Hart, Oxford, Reading, Reigate and Banstead, Tonbridge and Mailing, Vale of White Horse, West Berkshire	16,000
Eastern:	
February 1999 to March 2003	34,000
March 2003 to date:	
All districts but Watford	34,000
Watford	16,000
February 1999 to date:	
South West	30,000
North West	26,000
West Midlands	26,000
Yorkshire and the Humber	24,000
East Midlands	24,000
North East	22,000

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many housing association tenants were eligible to take part in the preserved right to buy scheme in each region in each of the last three years. [270632]

Mr. Iain Wright: Assured tenants of housing associations who were formerly secure tenants of local authorities and have transferred to their present landlords with their homes under large scale voluntary transfers (LSVTs) have a preserved right to buy their homes. The number of dwellings transferred under LSVTs during each of the last three years is as follows:

	Dwellings transferred		
Region	*2006-07*	*2007-08*	*2008-09*
London	4,194	8,984	1,099
South East	7,470	9,860	0
East	6,852	21,338	0
South West	7,882	2,354	0
East Midlands	0	12,659	5,241
West Midlands	0	2,317	0
Yorkshire and Humber	12,256	1,667	0
North East	23,780	11,482	1,911
North West	13,319	22,933	33,704
Total	75,753	93,594	41,955

Grant Shapps: To ask the Secretary of State for Communities and Local Government what research her Department has undertaken into the effects of increasing the maximum right to buy discounts in each region. [270633]

Mr. Iain Wright: I refer the hon. Member to the answer given to the hon. Member for Brentwood and Ongar (Mr. Pickles) on 28 October 2008, *Official Report*, column 970W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many *(a)* local authorities and *(b)* registered social landlords offered cash incentive schemes to assist their tenants to purchase their homes in each of the last 10 years. [270634]

Mr. Iain Wright: The number of English local authorities giving cash incentive scheme grants in the last 10 years is as follows:

	Number
1997-98	208
1998-99	188
1999-2000	84
2000-01	72
2001-02	56
2002-03	52
2003-04	46
2004-05	42
2005-06	47
2006-07	44
2007-08	37

Source:

HSSA (2001-02—present), HIP Annual Plan (1997-98—2000-01) as reported by 354 local authorities.

The figures supplied count the number of local authorities giving cash incentive scheme grants and will not include any local authorities offering cash incentive scheme grants that were not taken up in that year.

In terms of registered social landlords, I refer the hon. Member to the answer I gave to my hon. Friend the Member for Regent's Park and Kensington, North (Ms Buck) on 10 March 2009, *Official Report*, column 322W.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been purchased under the right to acquire scheme in each year since the scheme began; and if she will make a statement. [270639]

Mr. Iain Wright: The following table shows the number of housing association homes purchased under the Right to Acquire scheme in each year since it commenced in 1997.

RTA sales figures by year

	Number of sales
1997-98	0
1998-99	0
1999-2000	4
2000-01	18
2001-02	38
2002-03	111
2003-04	236
2004-05	411
2005-06	471
2006-07	570
2007-08	344
2008-09 (provisional figure)	184
Total	2,387

Grant Shapps: To ask the Secretary of State for Communities and Local Government how much was *(a)* retained by her Department and *(b)* passed on to the Exchequer from the proceeds of the right to buy scheme in each year since 1980; and what use was made of those receipts in the most recent year for which figures are available. [270680]

Mr. Iain Wright: Prior to 1 April 2004, receipts arising from the disposal of dwellings under right to buy (RTB) were retained by the local authorities, although authorities with debt set aside 75 per cent. of that receipt to repay their housing debt.

The following table shows for each financial year since 2004-05 the total housing receipts paid by local authorities in England which were retained by the Department for Communities and Local Government (CLG) and those receipts which were passed to the Treasury. Most of these receipts arise from RTB sales, but data on this are not collected separately.

		£ million
	Receipts passed to the Exchequer Consolidated Fund	*Receipts retained by the Department for Communities and Local Government*
2004-05	1,639	54.9
2005-06	990	74.5
2006-07	735	104.3
2007-08	588	106.1
2008-09[1]	134.3	23.9

[1] Figures for 2008-09 are estimates.

Receipts surrendered to the Exchequer Consolidated Fund are not hypothecated to specific policy areas but, together with other resources, contribute towards the overall fiscal package within which departmental public expenditure programmes are agreed as part of the Spending Review process. Receipts retained by CLG are used to support its housing and planning capital programme expenditure.

In 2007-08 CLG supported £5.5 billion of housing capital expenditure.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how many new social homes she expects to be built using the £100 million funding for local authorities to deliver new social housing at higher energy efficiency standards, as referred to on page 105 of the Budget 2009 Red Book; [271375]

(2) whether funding from the £100 million fund to deliver new social housing at higher energy efficiency standards referred to on page 105 of the Budget 2009 Red Book will be available to housing associations; and if she will make a statement; [271376]

(3) how much is planned to be allocated to each local authority from the £100 million fund for new social housing at higher energy efficiency standards as referred to on page 105 of the Budget 2009 Red Book; [271377]

(4) what the higher energy efficiency standards will be for new social housing to be delivered with the £100 million of funding referred to on page 105 of the Budget 2009 Red Book. [271316]

Mr. Iain Wright: The £100 million of funding referred to on page 105 of the Budget 2009 Red Book could potentially deliver up to 900 new council homes. The funding is specifically for local authorities, not housing associations, and will be allocated against bids assessed by the Homes and Communities Agency. The higher energy efficiency standards will be those in the Code for Sustainable Homes, which are ahead of the current building regulation standards. Schemes at higher code levels will be favoured.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) on what date the first property was sold under Homebuy Direct; and how many properties have been sold under this scheme; [271497]

(2) what the average level of financial support from the public purse has been for a home purchased under the Homebuy Direct scheme; [271378]

(3) how many properties have been purchased through the Homebuy Direct scheme in each region; and what the average price of a property purchased through the scheme has been to date. [270582]

Margaret Beckett: The first HomeBuy Direct completions occurred during week commencing 20 April. Detailed sales data for the scheme are compiled and analysed on a monthly basis. These will be available early next month.

Local Government Finance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how much was allocated to each local authority *(a)* in cash terms and *(b)* per head of population in the most recent round of the Local Authority Business Growth Incentive Scheme funding allocations. [270128]

John Healey: Funding allocated under the Local Authority Business Growth Incentives Scheme reflected the business growth achieved by each local authority. A table setting out the information requested has been placed in the Library of the House. The table uses National Statistics mid-year population estimates for 2007, published 21 August 2008.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government whether her Department provides guidance to local authorities on provision of public funding to groups which campaign in local referendums or elections. [270249]

John Healey: While there are statutory restrictions on election expenditure by or on behalf of a candidate at a local election, and on expenditure incurred by or on behalf of an individual or body in connection with the conduct or management of any campaign conducted with a view to promoting or procuring a particular outcome in a referendum held under part 2 of the Local Government Act 2000, we have not issued guidance to local authorities on the provision of public funding to groups which campaign in local referendums or elections.

The Code of Recommended Practice on Local Authority Publicity, which all local authorities must have regard to, makes clear that the principles set out in the publicity code, including those pertaining to elections, referendums and petitions should be taken into account by local authorities in decisions on assistance to others to issue publicity.

Maps: EC Law

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what plans Ordnance Survey has to implement the EU INSPIRE Directive; and whether it plans to provide data under the Directive free of charge to the public. [270240]

Mr. Iain Wright: The INSPIRE (Infrastructure for Spatial Information in Europe) directive has the aim of improving the availability of spatial datasets (including geographical data) held by, or on behalf of, the public sector, for the purposes of Community environmental policies, and policies or activities which may have an effect on the environment.

The directive will be accompanied by a series of implementing rules (IR) which will frame the practical implementation and operation of the directive. Ordnance Survey continues to provide experts to support UK engagement with the development of the IRs. Until these are adopted and operational it is not possible to be definitive on what information will be required to be made available through INSPIRE-compliant information services.

Ordnance Survey's responsibilities as the national mapping agency of Great Britain are not changed by the INSPIRE directive. It will continue to be responsible for the official, definitive surveying and topographic mapping of Great Britain, as defined in its Public Task and Framework Document.

Since the INSPIRE directive makes provision for member states to allow public sector information holders to make charges for the use of their data, Ordnance Survey's new business strategy, announced in the Operational Efficiency Programme (OEP) alongside the Budget, is unaffected.

Mortgages

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many home owners in *(a)* Ribble Valley constituency, *(b)* Lancashire and *(c)* England took out mortgages in the last five years. [271332]

Mr. Iain Wright: Data on actual numbers of mortgage taken out are available from the Council of Mortgage Lenders (CML). However they are only available for the United Kingdom as a whole.

The Council of Mortgage Lenders latest press release on this is on their website at:

http://www.cml.org.uk/cml/media/press/2218

The CML data on mortgage lending are no longer freely available from their website. For detailed time series information members of the public can request to subscribe to CML to obtain access to a restricted website.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what changes to the eligibility criteria of the Mortgage Rescue Scheme have been introduced as a result of the 2009 Budget; and if she will make a statement; [271381]

(2) what changes to the eligibility criteria of the Mortgage Rescue Scheme have been introduced as a result of the Budget 2009; what estimate has been made of the number of households which will become eligible for the scheme as a result of those changes; whether she plans to publish a revised impact assessment for the scheme; and if she will make a statement. [271317]

Margaret Beckett: It was announced in the Budget 2009 that the eligibility criteria for the Mortgage Rescue Scheme will be amended to include eligible households in negative equity, provided that their loan to value ratio is less than 120 per cent. This reflects our commitment to keep the scheme under review to respond flexibly to changing housing market conditions. This is a demand-led scheme, but we estimate that it should help up to 6,000 of the most vulnerable households at risk of repossession remain in their home. This change means that households who borrowed responsibly but have fallen into negative equity because of falling house prices can still be considered for support under the scheme. This does not materially affect the Impact assessment published on 16 September 2008, so we have no plans to update this.

Non-Domestic Rates: Ports

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the answer to the hon. Member for Peterborough of 12 March 2009, *Official Report*, columns 750-1W, on non-domestic rates: ports, if she will publish the address and rateable value of each hereditament in each port *(a)* pre-review and *(b)* post-review. [270180]

John Healey: The 2005 non-domestic rating list is published on the website of the Valuation Office Agency and is available to inspect at:

http://www.voa.gov.uk/index.htm

A single rating list has been compiled for each billing authority area and the Valuation Office Agency do not hold separate lists of properties attributable to smaller locations such as ports. The information requested could be compiled only at disproportionate cost.

Planning Permission

Mr. Sanders: To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of planning applications for commercial purposes made in the last two years; and if she will encourage local authorities to reduce planning costs for small and medium-sized businesses. [270401]

Mr. Iain Wright: The number of planning applications for commercial developments granted or refused in 2007 and 2008 was 26,000 and 23,000 respectively.

In March 2009 the Government responded to the Killian Pretty Review and identified that an early priority will be work to reduce the need for planning permission for some small scale developments by businesses and public services. Specifically, by summer 2009, we propose to consult on draft proposals to streamline information requirements for applicants. Subject to the consideration of public consultation responses, new regulations will be introduced in April 2010.

In addition, the Government have accepted the Killian Pretty finding that the national planning policy framework should be overhauled and simplified. A key aim of the forthcoming review of national planning policy is to produce a framework that is focussed on the needs of the user. In the current economic climate, these needs are likely to include reduced planning costs for small and medium-sized businesses.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many planning applications were received by local planning authorities in each quarter of the last five years; and if she will make a statement. [270562]

Mr. Iain Wright: The numbers of planning applications received by local authorities in England in each quarter of the last five years are tabled as follows:

Period	*Number received (thousand)*
January to March 2004	177
April to June 2004	185
July to September 2004	175
October to December 2004	159
January to March 2005	170
April to June 2005	170
July to September 2005	161
October to December 2005	147
January to March 2006	165
April to June 2006	170
July to September 2006	157
October to December 2006	149
January to March 2007	168
April to June 2007	174
July to September 2007	166
October to December 2007	150
January to March 2008	158
April to June 2008	149
July to September 2008	135
October to December 2008	111

Source:
Communities and Local Government General Development Control Returns PS1/PS2.

Rented Housing

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many and what proportion of households in the *(a)* local authority and *(b)* registered social landlord sector have held a tenancy for more than (i) three and (ii) five years. [270622]

Mr. Iain Wright: Based on the 2007-08 Survey of English Housing it is estimated that:

(i) about 3 million social tenants (74 per cent. of the sector) had been in their current home for more than three years;

(ii) about 2.5 million social tenants (62 per cent. of the sector) had occupied their current home for at least five years.

Reliable separate estimates for local authority tenants and registered social landlord tenants are not available.

Rents

Mike Wood: To ask the Secretary of State for Communities and Local Government what assessment her Department has made of the effect on small businesses of recent private sector rent increases; and what assistance her Department provides to small businesses in respect of such increases. [270201]

Mr. Iain Wright: Commercial leases are a matter of private contract. Leases will set out any arrangements under which the rent may be varied during the course of the tenancy, in order to reflect current market values, and will commonly provide for the rent to be decided by an independent third party where the landlord and tenant cannot agree. When business tenancies protected by the Landlord and Tenant Act 1954 are renewed, the rent is restricted to the market value. The Department for Communities and Local Government does not provide direct assistance to small businesses in respect of rent increases, although Small Business Rate Relief is available to those businesses that meet the eligibility criteria.

Both landlords and tenants are affected by the current economic climate and a close working relationship will be of mutual benefit. As a result of Government concern about inflexible leasing practices, the property industry introduced a new voluntary 'Code for Leasing Business Premises' in March 2007. The Government look to the code and ancillary documents to promote more flexibility in the commercial property market, and especially to promote greater awareness among small business tenants. Government are monitoring the dissemination, use and impact of the code, and will evaluate the outcome to see if it has made a difference.

Repossession Orders

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many domestic properties in *(a)* Ribble Valley constituency, *(b)* Lancashire and *(c)* England have been repossessed in the last five years. [271334]

Mr. Iain Wright: There are two independent sources of data on actual numbers of mortgage possessions: The Council of Mortgage Lenders (CML) and the Financial Services Authority (FSA). However both are only available for the United Kingdom as a whole.

The Council of Mortgage Lenders latest press release on this is on their website at:

http://www.cml.org.uk/cml/media/press/2108

The CML data on repossessions are no longer freely available from their website. For detailed time series information members of the public can request to subscribe to CML to obtain access to a restricted website.

The Financial Services Authority data are available on their website at:

http://www.fsa.gov.uk/pages/Doing/Regulated/Returns/IRR/statistics/

The CML and FSA release slightly different figures. The CML data are for repossessions on first-charge mortgages only, including Buy-to-Let mortgages, as issued by their members. CML estimate that their lenders currently account for 98 per cent. of mortgage lending. The FSA data, as well as covering possessions on first-charge mortgages, cover possessions on second-charge loans by regulated firms (many second charge lenders are not regulated) but do not cover possessions as comprehensively on Buy-to-Let mortgages, as some of these are from unregulated firms. The overall effect of the differences is that the FSA's statistics on possessions are slightly higher.

Second Homes

Julia Goldsworthy: To ask the Secretary of State for Communities and Local Government how many second homes there were in each council tax band in each local authority area in England in each year from 1997 to 2008. [271249]

Mr. Iain Wright: I have today placed in the Library of the House tables containing details of the number of second homes in each council tax band in each local authority area in England since 2004. Information for previous years is not available.

Shared Ownership Schemes

Sarah Teather: To ask the Secretary of State for Communities and Local Government (1) how many properties bought through shared ownership schemes have been repossessed in the latest period for which figures are available; [270280]

(2) what assistance her Department provides to owners of a property bought through a shared ownership scheme who are at risk of repossession. [270281]

Mr. Iain Wright: Data on the number of shared ownership properties which have been repossessed are collected by individual housing associations and are not held centrally.

The Government are determined to do everything possible to ensure families facing possible repossession have the chance to remain in their homes, and that repossession is always the last resort. The £280 million Government Mortgage Rescue Scheme was rolled out across England at the beginning of this year. The scheme will help up to 6,000 of the most 'vulnerable' households (families with dependent children, or those containing elderly, ill or disabled people) who would be entitled to homelessness assistance, if repossessed.

Shared owners do not generally have the need for assistance from this programme because housing associations were able to reinvest capital grant held in their recycled capital grant funds for the priority purpose of helping shared owners at risk of repossession. This help includes the option of a lower level of home ownership or a rental option.

Tenancy Deposit Scheme

Mr. Clifton-Brown: To ask the Secretary of State for Communities and Local Government how many complaints have been received from *(a)* tenants and *(b)* landlords regarding the tenancy deposit scheme since it became operational. [271274]

Mr. Iain Wright: The three tenancy deposit scheme providers have received a total of 358 complaints since the scheme was launched in April 2007. We do not have a breakdown between complaints received from landlords and tenants. Communities and Local Government has no role in dealing with such complaints.

Young Muslims Advisory Group

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government what projects the Young Muslims Advisory Group *(a)* ran in 2008-09 and *(b)* is expected to run in (i) 2009-10 and (ii) 2010-11; what funding has been allocated to such projects in each of the three years; which such projects have been subcontracted to third parties; and how the performance of subcontractors will be monitored. [270416]

Mr. Khan: The Young Muslims Advisory Group was launched in October 2008 and will run for a two year period.

In 2008-09 the YMAG delivered a national youth conference in Leeds which over 320 young people of all faiths aged 15-25 from across England attended. The total cost of this event was £110,000.

In 2009-10 the group will be taking forward projects on research, communication and civic participation. Funding has not yet been allocated to these projects.

The promotion and branding of the YMAG was subcontracted to a creative agency. This organisation is a regular partner on Prevent work. Their work is monitored through regular meetings and evaluation reports.

ENERGY AND CLIMATE CHANGE

Buildings: Carbon Emissions

Simon Hughes: To ask the Secretary of State for Energy and Climate Change what guidance his Department has issued to businesses on reducing carbon dioxide emissions from commercial buildings; and if he will make a statement. [264647]

Joan Ruddock: The DECC-funded Carbon Trust provides information and advice to help businesses and public sector organisations improve their energy efficiency. Advice is delivered via the Carbon Trust website, dedicated advice line, and a range of further services for organisations of different sizes.

DECC initiatives such as the free CHP Focus website and helpline service, which offers free advice to organisations on combined heat and power applications, are also available to help businesses reduce their carbon emissions.

In addition to this Department's activities, energy performance certificates have been introduced by communities and local government (CLG) to help improve the energy efficiency of all buildings. Since October 2008 commercial and public buildings must have one whenever the building is sold, built or rented.

EPCs form part of a programme of work that will make a difference to the 50 per cent. of UK carbon emissions that arise from buildings. Other changes include requiring display energy certificates for larger public buildings from October 2008 and inspections for air conditioning systems from January 2009. The CLG website also has a number of publications giving industry guidance on the energy performance of buildings.

Departmental Billing

John Mason: To ask the Secretary of State for Energy and Climate Change what percentage of invoices his Department has paid within 10 days of receipt in each of the last five months. [270541]

Mr. Mike O'Brien: The percentage of invoices paid within 10 days of receipt for the last five months is as follows:

	Percentage paid within 10 days
2008	
November	73
December	88
2009	
January	98
February	99
March	97

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Energy and Climate Change how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270518]

Mr. Mike O'Brien: There are no DECC staff suspended on full pay at this time.

Energy: EU Law

Simon Hughes: To ask the Secretary of State for Energy and Climate Change when he received the reasoned opinion from the European Commission in respect of the transposition and implementation of the Energy Services Directive; and if he will make a statement. [270820]

Mr. Mike O'Brien *[holding answer 24 April 2009]*: The Government received a reasoned opinion on directive 2006/32/EU on energy end-use efficiency and energy services from the EU Commission dated 2 February 2009. The Government are fully committed to the energy efficiency aims of the directive and ensuring these are fully met in the United Kingdom. They have responded to the commission with a detailed explanation of the measures which are now in place to transpose and implement the directive's requirements and of some minor outstanding points, and will continue to work closely with the commission in this regard.

Energy: Subsidies

Gregory Barker: To ask the Secretary of State for Energy and Climate Change what progress has been made on the Johannesburg Summit agreement on phasing out energy subsidies which inhibit sustainable development; and if he will make a statement. [265218]

Joan Ruddock: This Government are committed to better understanding both the extent and distribution of subsidies to energy sources, and the impact of such subsidies on trade, development and climate change.

The Department for International Development has recently committed £300,000 over a four year period (starting 2008-09) to a major research project being undertaken by the International Institute for Sustainable Development. The project will clarify the scale of fossil fuel subsidies and their impacts on sustainable development, and propose measures to reduce, eliminate or redirect these where appropriate.

At the London Energy Meeting in December, where over 35 countries were represented (including the main consumers and producers of oil, and leading companies and international organisations), participants agreed on the importance of measures to promote stability in the oil market, and the importance of promoting energy efficient, and carbon-reducing technologies. Participants also noted that better-functioning markets would give more consistent price signals to enable producer and consumer countries to have greater confidence in making investment and purchasing decisions.

Insulation: Hampshire

Sandra Gidley: To ask the Secretary of State for Energy and Climate Change how much has been spent from the public purse on insulating the homes of pensioners in *(a)* Test Valley borough, *(b)* the ceremonial county of Hampshire and *(c)* the City of Southampton in each of the last five years. [261546]

Joan Ruddock: Funding to encourage take-up of energy efficiency measures in Great Britain is available primarily through two schemes: the Carbon Emissions Reduction Target (CERT) and Warm Front, but only Warm Front is funded from the public purse. The tables illustrate the investment made by Warm Front in insulation measures to improve the energy efficiency of householders over 60 in *(a)* Test Valley borough, *(b)* the ceremonial county of Hampshire and *(c)* the City of Southampton in each year since 2005.

CERT is operated and funded by the six major energy suppliers, which are required to meet targets by encouraging households to take-up energy efficiency measures, including insulation and high-efficiency lights and appliances. Ofgem, the scheme administrator, does not collect data on energy supplier spend. However, based on the costs of the measures promoted by energy suppliers, we estimate that the overall spend by energy suppliers on delivering their CERT obligations across Great Britain will exceed £3 billion over the period 2008-11.

Test Valley

	Over 60	*Under 60*	£ *Total*
2004-05	29,910.11	10,886.54	40,796.65
2005-06	25,421.34	11,034.44	36,455.78
2006-07	50,461.79	23,425.01	73,886.80
2007-08	14,337.19	6,059.82	20,397.01
2008-09	14,437.33	7,584.35	22,021.68

Ceremonial County of Hampshire

	Over 60	*Under 60*	£ *Total*
2004-05	653,684.31	544,569.40	1,198,253.71
2005-06	378,468.46	297,446.54	675,915.00
2006-07	404,556.32	213,609.24	618,165.56
2007-08	278,360.25	154,906.72	433,266.97
2008-09	295,344.54	174,809.20.	470,153.74

Southampton

	Over 60	*Under 60*	£ *Total*
2004-05	158,144.74	129,960.42	288,105.16
2005-06	67,293.48	54,848.91	122,142.39
2006-07	25,705.02	20,117.48	45,822.50
2007-08	44,191.51	29,759.13	73,950.64
2008-09	54,065.97	33,657.68	87,723.65

Insulation: Housing

Grant Shapps: To ask the Secretary of State for Energy and Climate Change what effect the planned changes to the carbon dioxide emissions reduction target announced on 12 February 2009 will have on achievement of the Government's target of insulating cavity walls. [270558]

Joan Ruddock: The central proposal in the CERT amendment consultation of February 2009 is for a 20 per cent. increase to the carbon saving obligation on energy suppliers, to set an enhanced ambition of 185 $MtCO_2$ by March 2011. As a market mechanism, it is at energy suppliers' discretion how they choose to meet this more ambitious target. Insulation remains one of the most cost effective measures at their disposal to promote. Of suppliers' savings towards their current targets in the first nine months of the scheme, 62 per cent. came from insulation.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change what target has been set for the number of *(a)* lofts and *(b)* cavity walls to be insulated in each of the next three years. [270559]

Joan Ruddock: My right hon. Friend the Prime Minister announced last year an ambition to insulate six million homes by 2011. Further to this, we proposed in the Heat and Energy Saving Strategy consultation to offer all homes the opportunity to have lofts and cavities insulated, where practicable, by 2015. However, we have not set annual targets for insulation or any other specific measure.

Grant Shapps: To ask the Secretary of State for Energy and Climate Change how many *(a)* lofts and *(b)* cavity walls have been insulated in each of the last three years. [270560]

Joan Ruddock: The latest available full-year figures cover the three-year period of the Energy Efficiency Commitment (April 2005-March 2008). These show annual professional installation figures in thousands, as follows:

	Loft insulation	*Cavity wall insulation*
2005-06	370,000	430,000
2006-07	390,000	460,000
2007-08	498,000	446,000

Additional lofts and cavities were insulated under the Warm Front Scheme and Decent Homes programme.

Nuclear Power Stations: Public Consultation

Mr. Weir: To ask the Secretary of State for Energy and Climate Change what steps his Department is taking to inform members of the public of its consultation process in respect of the 11 sites identified for potential new nuclear power stations in England and Wales. [270468]

Mr. Mike O'Brien: The Government will consult on the draft Nuclear National Policy Statement, which will contain the results of its assessment of the suitability of the 11 sites, later in the year. Detailed plans for this consultation are not yet in place.

However, the Department has created a leaflet detailing the steps at which the public can have their say in the siting process. Since January 2009, 28,500 hard copies have been sent out in English and 3,000 in Welsh and this leaflet is also available at:

www.nuclearpowersiting.gov.uk

In addition to this, the 11 nominations have been made available to the public on this website and members of the public will be able to comment on those nominations from 15 April to 14 May this year. This is in addition to the consultation on the draft list of sites which will take place later this year and was introduced in response to comments made during the Government's consultation on the SSA process last year.

The Government have taken various steps to inform people about the opportunity to comment on nominations. In particular, it was advertised in 46 local newspapers around sites. The titles were chosen with input from the relevant local authorities.

In addition, the Department's press notice and ministerial contact with national media meant that there was extensive regional and national press coverage of the opportunity to comment on the sites, and an email alert was sent to over 1,100 stakeholders who have registered with the Office for Nuclear Development as interested parties.

Mr. Weir: To ask the Secretary of State for Energy and Climate Change how much the Department will spend on publicising its consultation on the proposed sites for new nuclear power stations. [270470]

Mr. Mike O'Brien: The Government will consult on the draft Nuclear National Policy Statement, which will contain the results of its assessment of the suitability of the 11 sites, later in the year. Detailed plains for this consultation are not yet in place. However, the Department has created a leaflet outlining how the public can have their say in the siting process. Since January 2009, 28,500 hard copies have been sent out in English and 3,000 in Welsh, at a cost of £10,521 so far.

In addition to this, the 11 nominations have been made available to the public on a dedicated website and members of the public will be able to comment on those nominations from 15 April to 14 May this year. This is in addition to the consultation on the draft list of sites which will take place later this year and was introduced in response to comments made during the Government's consultation on the SSA process last year.

The Government have taken various steps to inform people about the opportunity to comment on nominations. In particular, it was advertised in 46 local newspapers around sites. The titles were chosen with input from the relevant local authorities. In addition, the Department's press notice and ministerial contact with national media meant that there was extensive regional and national press coverage of the opportunity to comment on the sites, and an email alert was sent to over 1,100 stakeholders who have registered with the Office for Nuclear Development as interested parties.

Renewable Energy

Chris Ruane: To ask the Secretary of State for Energy and Climate Change how many renewable energy plants there are in each region; and what the generating capacity of each plant is. [270348]

Mr. Mike O'Brien: The table shows the number of renewable energy plants in each English region, plus Scotland, Wales and Northern Ireland, and the total installed capacity for each region or nation.

The capacity of plants that have been credited under the Renewables Obligation scheme can be found on the Ofgem ROC Register at:

https://www.renewablesandchp.ofgem.gov.uk/Public/ReportViewer.aspx?ReportPath=/Renewables/Accreditation/AccreditedStationsExternalPublic&ReportVisibility=1&ReportCategory=1

Renewable energy plants in England, Scotland, Wales and NI as at November 2008

Region	*Number of schemes*	*Installed capacity*
England	908	2,555.7
Channel Islands	1	3.0
East Midlands	102	215.5
Eastern	122	483.1
North East	73	173.9
North West	141	557.3
London	21	117.0

West Midlands	72	224.4
Yorkshire and The Humber	92	225.6
Wales	122	572.9
Scotland	375	3,212.2
Northern Ireland	116	226.5
Total	1,521	6,567.3

Source:
AEA Technology

Renewable Energy: Finance

Chris Ruane: To ask the Secretary of State for Energy and Climate Change which 10 renewable energy projects have received the greatest amount of funding from Government sources in each of the last 30 years; and what the location of each such project is. [263056]

Mr. Mike O'Brien: The information requested is not held centrally and to provide an answer for 30 years would incur disproportionate cost.

The following table lists the 10 largest renewable energy projects funded by DECC, CLG, DfT, the Research Councils and the Technology Strategy Board, and their predecessors, since 2003-04. Grants are attributed to the year in which the project grant was first claimed, though most grants are paid out over several years.

£ million

Warm Front Scheme

Greg Clark: To ask the Secretary of State for Energy and Climate Change how many complaints regarding Warm Front installations his Department has received in each of the last 10 years. [257478]

Joan Ruddock: This Department, and its predecessor the Department for Environment, Food and Rural Affairs, has kept a record of all Warm Front correspondence cases since January 2007. The total number of cases received by the Department is approximately 1,750. However not all of these cases will necessarily be complaints. DECC has recently put in place mechanisms for recording and monitoring all complaints received.

John Mann: To ask the Secretary of State for Energy and Climate Change which 10 Warm Front contractors *(a)* received the most for work under the scheme and *(b)* installed the most (i) heating installations and (ii) radiators in each of the last eight years. [265988]

Joan Ruddock: The 10 Warm Front contractors who have received the most payment for work under the scheme during the most recent period for which data are available, (1 June 2005 to 28 February 2009), are detailed as follows. The tables list—alphabetically—the contractors who have *(a)* received the most payment for work under the scheme and *(b)* installed the most heating installations under Warm Front. It is likely that those installers who have installed the most heating installations will also have installed the most radiators during the same time period.

Contractors who have received the most payment for work under the Warm Front scheme:

Daniel Kawczynski: To ask the Secretary of State for Energy and Climate Change what the monetary value of Warm Front grants awarded in *(a)* Shropshire, *(b)* the West Midlands and *(c)* England was in 2008. [267759]

Joan Ruddock: The monetary value of Warm Front grants awarded in *(a)* Shropshire, *(b)* West Midlands and *(c)* England for the period 1 April 2008 to 28 February 2009 is detailed in the following table:

	£
Shropshire	1,987,752.45
West Midlands	50,102,032.31
England	321,004,578.77

Wind Power: Fisheries

Mr. Cox: To ask the Secretary of State for Energy and Climate Change if he will commission research into the effect of offshore wind farms on fish stocks. [270421]

Mr. Mike O'Brien: The likely effect of offshore wind farms on fish stocks and commercial fisheries is being considered at a strategic level as part of the Offshore Energy Strategic Environmental Assessment (SEA). The SEA Environmental Report published on 26 January 2009 for public consultation noted various potential effects on the marine environment including on fish stocks arising from reductions in fishing effort through the presence of wind turbines and other installations. These effects are similar to those found in marine protected areas and are an active area of research, which the Department is monitoring. The SEA consultation period closed on 22 April 2009 and the Government will publish their decision on the draft plan for up to 25 GW of new offshore wind, including any proposals for future research, later in the year. It should also be noted that site-specific studies of such impacts are currently a requirement of the FEPA licence awarded to developers for individual projects and will need to be included in any Environmental Impact Assessments for future wind farm projects.

WALES

Departmental Billing

John Mason: To ask the Secretary of State for Wales what percentage of invoices his Department has paid within 10 days of receipt in each of the last five months. [270539]

Mr. Paul Murphy: The percentage of invoices paid by my Department within 10 days for the last five months is:

	Percentage paid within 10 days

December	98
2009	
January	91
February	98
March	99

CHILDREN, SCHOOLS AND FAMILIES

Schools in Deprived Areas

10. **Phil Wilson:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of recent trends in academic results in schools in deprived areas. [270741]

Jim Knight: Over the past decade all groups of schools have improved their performance substantially—but schools serving the 10 per cent. most deprived areas of England have made gains twice as large as those in the 10 per cent. least deprived areas. Further details are set out in our recent document "Breaking the Link between deprivation and low attainment—Everyone's Business".

It is most encouraging that schools serving areas of social deprivation are making these disproportionate gains.

Standard Assessment Tests

11. **Mary Creagh:** To ask the Secretary of State for Children, Schools and Families what his most recent assessment is of the effectiveness of Key Stage 2 Standard Assessment Tests; and if he will make a statement. [270742]

Ed Balls: Over the last 10 years, testing and assessment have played a vital role in ensuring that more than 100,000 more pupils leave primary school secure in English and maths. As I said to this House in October, the Key Stage 2 tests provide an objective measure of pupils' performance, and a recent survey confirmed that they are greatly valued by parents.

The Expert Group on assessment that I established last October will shortly publish their advice on further improvements to the assessment system.

Apprenticeships: Keighley

12. **Mrs. Cryer:** To ask the Secretary of State for Children, Schools and Families how many 16 and 17-year-olds in Keighley constituency were undertaking an apprenticeship in 2008. [270743]

Sarah McCarthy-Fry: 80 people aged 16 to 17 completed an apprenticeship, in Keighley in 2007-08. The Apprenticeships, Skills, Children and Learning Bill aims to ensure an apprenticeship place is available for all suitably qualified young people by 2013 and is key to delivering our ambition for one in five young people to be in an apprenticeship in the next decade. We have announced an additional £140 million to provide 35,000 additional places this year, 21,000 of these in the public sector.

Diploma Courses

13. **Angela Watkinson:** To ask the Secretary of State for Children, Schools and Families how many pupils were enrolled on a 14-19 diploma course in the latest period for which figures are available; and if he will make a statement. [270744]

Sarah McCarthy-Fry: Our latest information shows that around 12,000 young people are currently working towards a Diploma qualification. Learners are based in over 140 consortia, in 100 local authorities.

Sure Start Children's Centres

15. **Mrs. Humble:** To ask the Secretary of State for Children, Schools and Families what plans he has to allocate funding for outreach workers in Sure Start Children's Centres. [270746]

Beverley Hughes: We provided local authorities with details of their sure start, Early Years and Childcare Grant allocations for the next three financial years (2008-11) in August 2007. This included resource to enable local authorities to fund another two additional full-time outreach posts in children's centres serving the most disadvantaged communities. Local authorities are responsible for allocating funding to individual children's centres in their area, according to local need.

Youth Services: North-East Derbyshire

16. **Natascha Engel:** To ask the Secretary of State for Children, Schools and Families what plans his Department has for the future provision of youth services and facilities in North-East Derbyshire. [270747]

Beverley Hughes: Local authorities receive funding for youth services from Government through the Revenue Support Grant. Next year Government funding through the Formula Grant will increase by 6.4 per cent. £1.878 million is also being allocated to Derbyshire next year through the Positive Activities for Young People programme and Youth Opportunity and Youth Capital Funds. Over £3 million has also been secured to improve youth facilities in Chesterfield through the myplace programme.

Physical Education

17. **Simon Hughes:** To ask the Secretary of State for Children, Schools and Families what steps his Department takes to support secondary schools in offering fitness, health and sporting activity to 14 to 16 year-olds during core school hours. [270748]

Sarah McCarthy-Fry: PE is a compulsory part of the National Curriculum for all pupils in secondary schools. We are supporting this through provision of a School Sport Co-ordinator in every secondary school to increase opportunities in PE and sport for their pupils. We are working closely with the Department of Health with our joint strategy 'Healthy lives, brighter futures' which we published in February.

School Meals

18. **Mr. David Anderson:** To ask the Secretary of State for Children, Schools and Families what steps he is taking to promote the take-up of school meals. [270749]

Sarah McCarthy-Fry: The School Food Trust's Million Meals campaign is at the forefront of its work and, in addition, it is taking forward targeted activities at local authority and school level. In 2009-10, it will be working with Government offices to develop regional strategies to increase take-up.

Children's Social Care

19. **Mr. Crabb:** To ask the Secretary of State for Children, Schools and Families what recent steps his Department has taken to improve standards of children's social care. [270750]

24. **Mr. Vara** To ask the Secretary of State for Children, Schools and Families what recent steps his Department has taken to improve standards of children's social care. [270755]

Beverley Hughes: We are committed to ensuring that every child has the opportunity to lead a happy, healthy life and that no child is left behind. Following unprecedented investment in the last eight years we have seen better educational attainment and more care leavers than ever before in employment or training.

Improving work force skills and capacity are key to the delivery of high quality social care. We have already announced the investment of £73 million pounds to improve the recruitment, retention and professional development of social workers. In children's homes, we are piloting a social pedagogic approach and have commissioned a training and development framework for staff. We are funding a national roll-out of the 'Fostering Changes' programme—a positive parenting programme for foster carers, and through the KEEP pilot projects, enabling elements of the multi-dimensional treatment foster care programme for children with complex needs to be available to foster carers more widely. Further to that, the Social Work Task Force has been established to examine social work practice and make recommendations to Government later this year for any long term reform needed in the system. We have also committed to providing a more detailed response and action plan shortly in response to Lord Laming's 'The Protection of Children in England: A Progress Report'.

Children with Special Educational Needs

21. **Mr. Leech:** To ask the Secretary of State for Children, Schools and Families what his policy is on the provision of schools for children with special educational needs. [270752]

Sarah McCarthy-Fry: The Government's policy on the provision of schools for children with special educational needs is set out in DCSF guidance 'Planning and Developing Special Educational Provision'. This encourages local authorities to develop a range of provision to meet the needs of children, which can include special schools, mainstream schools, designated units and resourced provision within mainstream schools, and co-located schools.

Encouraging Healthy Lifestyles: Primary School Children

22. **Alison Seabeck:** To ask the Secretary of State for Children, Schools and Families what progress his Department has made in encouraging healthy lifestyles among primary school children; and if he will make a statement. [270753]

Sarah McCarthy-Fry: Good progress has been made to encourage healthy lifestyles among primary school children.

98 per cent. of schools are participating in the Healthy Schools programme and schools are offering all five to 16-year-olds five hours of PE-sport per week. We have introduced food standards for all schools and the School Food Trust is working with schools so more children eat a healthy school lunch. Change 4 Life will also help children and their families become more healthy.

GCSEs

23. **Ann Winterton:** To ask the Secretary of State for Children, Schools and Families what steps he is taking to maintain academic standards of GCSE qualifications. [270754]

Jim Knight: In April 2008 we established Ofqual as an independent regulator to ensure that standards in qualifications are maintained. It will report directly to Parliament on standards in the qualifications system in England.

Ofqual has an established programme for reviewing standards in GCSEs and, if any issues are identified, will ensure that robust action is taken to address them. This should end the annual debate about standards, which undermines the achievements of millions of students.

Academy Programme

25. **Ms Buck:** To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the effect of the Academy programme on educational outcomes. [270756]

Jim Knight: Academies are having a positive affect on the educational outcomes of children. Improvement rates at GCSE (including English and maths) show academies outstripping the national average. Progress made by pupils on free school meals at academies has also been more than double the national rate of improvement.

In addition, the PwC evaluation said that

> "sponsors contribute significantly to school improvement"

and that

> "the quality of leadership is generally very good".

Building Schools for the Future: Sefton

Dr. Pugh: To ask the Secretary of State for Children, Schools and Families what the timetable is for assessment of Sefton local authority's bid for Building Schools for the Future funds; and if he will make a statement. [270734]

Beverley Hughes: Sefton has been listed as sixth in the provisional prioritisation of projects for local authorities that have not yet started in BSF. Partnerships for Schools the agency administering the process has invited Sefton to make a submission on its readiness to deliver and Sefton has indicated it will send this in by 8 May. PfS will then assess this alongside submissions from other authorities, and expects to complete this evaluation in the next few months.

Children Eligible for Free School Meals: Copeland

Mr. Jamie Reed: To ask the Secretary of State for Children, Schools and Families how many children in Copeland constituency eligible for free school meals achieved five or more A* to C grades at GCSE level in 2008. [270745]

Beverley Hughes: In 2008, in maintained schools located in the Copeland constituency 28 pupils eligible for free school meals achieved five or more GCSEs at grades A*-C or equivalent at the end of key stage 4. This is equivalent to 30.1 per cent. of the pupils in that cohort who are eligible for free school meals.

Home Access to Computers: Staffordshire

Mr. Kidney: To ask the Secretary of State for Children, Schools and Families how many children in Staffordshire have made use of his Department's home access to computers scheme. [270751]

Jim Knight: The Home Access Programme, announced by the Prime Minister in September 2008, is currently being piloted in two local authorities, Oldham and Suffolk, prior to national roll-out in late autumn. In addition, all local authorities were invited in October 2008 to provide expressions of interest for funding to support learners for which they have a direct parental or additional responsibility. Staffordshire indicated they intend to target 360 such learners by August 2009.

Children in Care

Helen Southworth: To ask the Secretary of State for Children, Schools and Families what accredited pre-tenancy training is available for young people leaving care; and what steps are being taken to make such training available to all young people leaving care. [271313]

Beverley Hughes: Local authorities are legally required to prepare a pathway plan setting out the support that will be provided to care leavers so that they can make a positive transition from their care placement to more independent accommodation. This plan will include details of any services that the individual young person might need so that they are able to successfully manage a future tenancy.

Responsible local authorities for looked after children must not expect them to leave their final care placement unless they are properly prepared and ready. The Children and Young Persons Act 2008 includes provision that prevents local authorities moving a looked after child from a regulated placement to other arrangements, such as an independent tenancy, unless they have decided to do so following a statutory review of the child's case. It will be the purpose of this review, which must be chaired by an Independent Reviewing Officer (IRO), to ensure that there is detailed scrutiny of the preparation of the young person's readiness to make this significant step in their lives—so that moves only take place when young people have gained the skills needed to manage in more independent accommodation.

Andrew Selous: To ask the Secretary of State for Children, Schools and Families what percentage of children in care have parents that are *(a)* married or *(b)* living as a couple. [271322]

Beverley Hughes: This information is not collected centrally by the Department.

Children in Care: Personal Records

Helen Southworth: To ask the Secretary of State for Children, Schools and Families what entitlement a young person who has left the care of a local authority has to access personal information held on them by that local authority; what guidance is issued by his Department to local authorities in responding to requests for such information; and what redress is available to a young person whose request does not receive a response within a reasonable time. [271314]

Beverley Hughes: Under the Data Protection Act 1998 adults who have been in local authority care as children are entitled to access the personal information held on them. Guidance on the Data Protection Act for social services was issued by the Department of Health in 2000. This highlights the need for local authorities to take a sensitive approach in sharing information with adults about their care history and for authorities to provide them with appropriate support during this process. The planned revision of the Children Act statutory guidance which we will be consulting on later this year provides us with the opportunity to update the existing guidance for local authorities, and to promote examples of good practice.

Children in Care: Warrington

Helen Southworth: To ask the Secretary of State for Children, Schools and Families which local authorities have placed children or young people in their care in Warrington in each of the last five years; and how many of these children or young people were placed in the care of each local authority. [271312]

Beverley Hughes: Information on the local authorities who have placed children or young people in their care in Warrington in each of the last three years and how many children were so placed in the care of each local authority has been placed in the House of Commons Library.

Information on the local authority in which a child has been placed has been collected only since 2006.

Children: Abuse

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families how many children have been removed from their parents following a single incident of child harm in each of the last five years; and if he will make a statement. [270215]

Beverley Hughes: This information is not collected centrally by the Department.

Children: Internet

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what assessment his Department has made of levels of workforce knowledge and skills in relation to e-safety following its consultation with the Children's Workforce Network. [271296]

Beverley Hughes: The report "Safer Children in a Digital World" of the Byron review into Children and New Technology, published in 2008, identified a need for people who work with children and young people to have greater skills and knowledge in order to promote e-safety. To enhance the levels of workforce knowledge and skills, the Children's Workforce Network has since recommended that promoting e-safety should be part of core skills and knowledge for everyone working with children and young people. We have asked the Children's Workforce Development Council to consider this recommendation as part of the review they are undertaking of the common core of skills and knowledge for the children and young people's workforce.

Communications Champion

Mr. Don Foster: To ask the Secretary of State for Children, Schools and Families whether he has appointed a Communications Champion as referred to in the Speech, Language and Communication Needs Action Plan. [270884]

Sarah McCarthy-Fry: We are working to fulfil the commitment made in "Better Communication"—the speech, language and communication needs action plan—to appoint an effective Communication Champion and form a Communication Council. This week we have openly invited tenders for an organisation to provide support to the Communication Champion and the Communication Council and host the Communication Champion. The deadline for tenders is midday on 15 June 2009 and we expect to complete this procurement exercise by mid-July. More information about this tender is available at:

http://www.dcsf.gov.uk/slcnaction

While this tendering exercise is going on, the Department for Children, Schools and Families and the Department of Health are making arrangements for an agency to run an open recruitment exercise for the Communication Champion. The recruitment exercise is expected to begin before the end of July once it is clear which organisation will host the champion. The champion will be appointed by the Department for Children, Schools and Families and Department of Health with the approval of Ministers at the end of this recruitment exercise.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270415]

Sarah McCarthy-Fry: In the Department, as at 31 March 2009, no employees were suspended from duty.

Departmental Freedom of Information

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many requests his Department received under the Freedom of Information Act 2000 in 2008; and how many of those were answered within 20 working days. [269841]

Sarah McCarthy-Fry: Quarterly and annual statistics on freedom of information requests received by a number of central Government monitored bodies (including all Departments of state) are published by the Ministry of Justice on their website:

http://www.justice.gov.uk/publications/freedomofinformationquarterly.htm

Statistics for the first three quarters of 2008 are available on the above website and the fourth quarter will be published in due course.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of his Department and its predecessor in each of the last five years; and if he will make a statement. [269553]

Sarah McCarthy-Fry: The Department for Children, Schools and Families (DCSF) does not maintain central records of the energy consumed by; energy cost of; or carbon emissions from its IT devices therefore the information as requested is not available.

However, DCSF is currently developing a system for monitoring the power usage of its IT devices.

Jenny Willott: To ask the Secretary of State for Children, Schools and Families what the average server capacity utilisation by each division of his Department and its predecessor was in each of the last five years; and if he will make a statement. [269585]

Sarah McCarthy-Fry: No records on average server capacity utilisation are held centrally within the Department for Children, Schools and Families (DCSF) therefore the information as requested is not available.

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department and its predecessor in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269669]

Sarah McCarthy-Fry: The Department for Children, Schools and Families (DCSF) does not maintain historic records of the number of printers and other devices with printing functionality in use throughout its estate and therefore the information is not accessible. However, to be helpful, the following information is available.

Records show that the number of devices in use throughout the DCSF estate on 5 March 2009 was:

Printers—146

Multi-function devices—165

Specialist printing devices including plotters—6

All of DCSF's multi-function devices have double sided printing capability. It is not known how many of the printers and specialist printing devices were capable of double sided printing.

To reduce the use of power and consumables, it is currently planned that by the end of June 2009, DCSF will have replaced almost all of its individual printers, scanners, photocopiers and fax machines with multi-function devices on all of its sites, all of which will be capable of and defaulted to double sided printing. It is anticipated that a small number of individual printing devices will remain in use primarily for reasonable adjustments purposes.

The Department does not hold records for its Arms Length Bodies.

Departmental Public Expenditure

Dr. Cable: To ask the Secretary of State for Children, Schools and Families what his latest estimate is of his Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12; and if he will make a statement. [268114]

Jim Knight: The estimates of capital expenditure for the Department's capital expenditure in *(a)* 2008-09, *(b)* 2009-10, *(c)* 2010-11 and *(d)* 2011-12 are as follows:

	£ million
2008-09	6,086
2009-10	7,174
2010-11	6,282
2011-12	n/a[1]

[1] As the Government works on three-year spending cycles (comprehensive spending reviews), the current cycle is due to finish on 31 March 2010, and as such, the Department at present does not have an estimate of anticipated capital expenditure for 2011-12.

Education Maintenance Allowance

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 10 February 2009, *Official Report*, column 1951W, on the education maintenance allowance, how many students have *(a)* received a notice of entitlement for the education maintenance allowance, *(b)* successfully enrolled for the allowance and *(c)* received at least one payment since September 2008. [270174]

Jim Knight: This is a matter for the Learning and Skills Council (LSC) which operates the education maintenance allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoffrey Russell, the LSC's acting chief executive, will write to the hon. Member with the information requested and a copy of his reply will be placed in the House Libraries.

Islam and Citizenship Education Project

Mr. Paul Goodman: To ask the Secretary of State for Children, Schools and Families how many area-based consultants are involved in delivering the Islam and Citizenship Education project; what funding they receive; how this is monitored; and if he will make a statement. [270417]

Sarah McCarthy-Fry: One area lead has been appointed to manage the piloting of the Islam and Citizenship Education (ICE) project in each of the six pilot areas (with two for the Bradford and Kirklees area). Each receives £5,500 for this work (divided into two for Bradford/Kirklees). They have each been contracted by the School Development Support Agency (SDSA), which manages the ICE project on behalf of the Department for Children, Schools and Families and the Department for Communities and Local Government. Their role is to recruit and support five madrassahs to pilot the programme of lessons. The SDSA monitors the area leads through regular contact and quarterly formal meetings.

GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families what percentage of pupils *(a)* eligible and *(b)* not eligible for free school meals have been entered for (i) higher and (ii) foundation tier GCSEs in (A) mathematics, (B) English, (C) science, (D) additional science and (E) history in each of the last five years. [268493]

Jim Knight: The information requested is not held centrally.

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many GCSE short courses are accounted for in his Department's league tables. [268495]

Jim Knight: In 2008, results from 982,502 GCSE shorts courses were included in the Achievement and Attainment Tables, covering 31 separate accredited subjects. GCSE short courses count at half the size of a full GCSE course in aggregated point scores.

Source:

Achievement and Attainment Tables' database.

Languages: GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of schools with a specialism in modern foreign languages offer more than one modern language GCSE. [259098]

Jim Knight: The Department does not hold information on the subjects offered by schools at key stage 4.

Of all schools with a specialism in languages, 349 (99.4 per cent.) entered pupils for assessment in at least two modern foreign languages at GCSE or equivalent in 2008. Schools with 10 or fewer pupils at the end of key stage 4 have not been included in this answer.

Source:

Achievement and Attainment Tables' database.

Literature: GCSE

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many boys in *(a)* maintained and *(b)* independent schools were entered for an English literature GCSE examination in (i) 1997, (ii) 2005 and (iii) 2008; and how many in each category achieved (A) grade A*, (B) at least grade C and (C) grade D or lower in each year. [257526]

Jim Knight: The answer is provided in the following table.

	2008		*2005*		*1997*	
GCSE English literature	*Maintained*	*Independent*	*Maintained*	*Independent*	*Maintained*	*Independent*
Number of entries	228,186	18,774	234,888	18,717	201,949	18,075
Grade A*	6,753	2,743	5,810	2,579	2,817	1,394
At least grade C	140,280	17,492	131,552	17,444	101,258	16,459
Grade D or lower	82,008	1,237	96,006	1,190	94,231	1,535

Source:
Achievement and Attainment Tables.

Data for 2008 and 2005 are based on pupils at the end of key stage 4.

Data for 1997 are based on 15-year-old pupils at the start of the school year.

Science: GCSE

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what percentage of *(a)* maintained, *(b)* specialist science, *(c)* grammar and *(d)* independent schools offered triple science GCSE courses in physics, chemistry and biology in each year since 1992. [241895]

Jim Knight: I refer the hon. Member to the answer given on 15 December 2008, *Official Report*, column 499W.

Science: General Certificate of Secondary Education

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many and what percentage of schools with a specialism in science offer single science GCSEs. [259096]

Jim Knight: The Department does not hold information on the subjects offered by schools at key stage 4.

Of all schools with a specialism in sciences, 310 (74.8 per cent.) entered at least one pupil in each of the physics, chemistry and biology at GCSE[1] in 2008.

[1] Only GCSEs have been counted.

Source:
Achievement and Attainment Tables' database.

Qualifications and Curriculum Authority

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what remuneration he expects Dr. Ken Boston to have received from the Qualifications and Curriculum Authority between the date of his suspension and 11 June 2009. [269648]

Sarah McCarthy-Fry: This is a matter for the Qualifications and Curriculum Authority (QCA). Andrew Hall, Acting Chief Executive of QCA, has written to the hon. Member and a copy of his reply has been placed in the House Libraries.

Letter from Andrew Hall, dated 23 April 2009:

The Secretary of State for Children, Schools and Families has asked the Qualifications and Curriculum Authority (QCA) to respond to your question concerning the remuneration Dr. Ken Boston will receive between the date of his suspension from the QCA and 11 June 2009.

I can confirm that the QCA expects to pay Dr. Ken Boston approximately £180,000 in that period, which brings his contract with the QCA to an end. This payment includes contractual entitlements only. No special severance payments will be made to Dr. Boston, except in so far as he will not be required to work out his full period of notice to 11 June 2009. Similarly, no performance bonus for this latest period nor any pension enhancement will be paid.

Outdoor education: Finance

Richard Younger-Ross: To ask the Secretary of State for Children, Schools and Families what support his Department has made available to *(a)* small and *(b)* independent organisations which provide learning experiences to develop their capacities and capabilities to meet the quality requirements of the Learning Outside the Classroom manifesto. [271321]

Sarah McCarthy-Fry: As part of its pledge of support for the Learning Outside the Classroom (LOtC) manifesto, the Department, working with representatives from across the full range of organisations providing learning outside the classroom, has developed the LOtC Quality Badge. It is awarded to providers of any size who have pledged to engage in an on-going process to sustain high quality learning outside the classroom. For those organisations that provide activities that are deemed to have a lower requirement in terms of risk management there is a new 'Code of Practice'. This route includes an online self assessment and guidance, with a 10 per cent. sampling of Quality Assurance visits. Nine manifesto sectors for example, heritage, natural environment and arts and creativity, have champion trainers whose role is to lead training events for organisations interested in achieving the Quality Badge.

This is not a compulsory scheme. However, we hope that providers will see the benefit of the Quality Badge in reviewing and improving their own offer. It provides a framework for organisations to work in partnership with schools, youth groups and local authorities, and be confident they are providing inspirational experiences that meet young people's needs.

Sixth Form Education: Finance

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families what funding allocations have been made to schools in each London borough in respect of post-16 education in *(a)* 2008-09 and *(b)* 2009-10; and if he will make a statement. [271054]

Jim Knight *[holding answer 24 April 2009]:* This is a matter for the LSC. Geoff Russell, the LSC's Acting Chief Executive will respond with the information the hon. Gentleman has requested. A copy of his reply will be placed in the House Libraries.

We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next.

This will mean that we have funding for at least 1,550,000 for 2009/10 and 2010/11.

Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families what procedures govern the establishment of non-maintained special schools. [269874]

Sarah McCarthy-Fry: A school seeking approval as a non-maintained special school under section 342 of the Education Act 1986 has to meet the requirements of the Education (Non-Maintained Special Schools) (England) Regulations 1999. In broad terms a school has to be run by a charity or charitable trust on a not-for-profit basis, it has to meet the standards for schools in the maintained sector and has to have similar governance arrangements to a maintained school.

Checks are also made to ensure the financial viability of a school before approval is granted.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families by what *(a)* criteria and *(b)* mechanisms funding is allocated to non-maintained special schools. [269875]

Sarah McCarthy-Fry: Non-maintained special schools have access to certain departmental capital and revenue funding streams. However, most funding for NMSSs is raised through fees for pupil placements paid by either local authorities or individual parents. The criteria used to allocate funding are dependent upon the funding stream. Where the funding stream is available to all NMSSs the most usual criteria used are: the number of pupils in a school, the number of pupils for which a school is approved or, in the case of funding relating specifically to teachers, the number of teachers with particular experience and qualifications. Where an application or bid is required for a funding stream then the application or bid has to meet the specific criteria applicable to that stream. Departmental funding is paid directly to NMSSs by the Department.

Written Answers to Questions

Tuesday 28 April 2009

DEFENCE

Afghanistan: Bombs

Nick Harvey: To ask the Secretary of State for Defence what analyses he has undertaken on the nature and origin of the component parts of improvised explosive devices found in Afghanistan. [271392]

Mr. Hutton: In order to protect UK forces, analysis and assessment of the threat posed by improvised explosive devices (IEDs) in Afghanistan continues to receive the highest priority. We routinely analyse IED incidents that occur in Afghanistan, in close consultation with our ISAF partners. I cannot comment further on this type of work as its disclosure would or would be likely to prejudice the capability, effectiveness or security of the armed forces.

Afghanistan: Peacekeeping Operations

Mrs. Curtis-Thomas: To ask the Secretary of State for Defence what the role of UK forces is in assisting the Afghanistan government to deliver its anti-corruption strategy; and what assessment he has made of their effectiveness in carrying out that role. [270097]

Mr. Hutton: UK forces do not play a role in anti-corruption activity in Afghanistan. However, on 15 December 2008, *Official Report*, column 819, the Prime Minister announced to Parliament a multi agency anti-corruption taskforce to assist the Afghan Government in tackling corruption.

The taskforce is currently agreeing a strategy focused on prevention and political will; enforcement; and accountability. The task force liaises regularly with the Afghan High Office of Oversight, which is the Afghan lead anti-corruption institution, and other relevant Afghan institutions.

Dr. Kumar: To ask the Secretary of State for Defence what plans he has for troop deployments to Afghanistan in the next 12 months. [271355]

Mr. Hutton: In December 2008, my right hon. Friend the Prime Minister announced a temporary uplift in UK force levels in Afghanistan to bring our deployment to around 8,300 troops.

At the NATO summit the Prime Minister announced an increase in troop numbers on a temporary basis to provide additional security during the forthcoming Afghan presidential elections. Further details will be announced in Parliament shortly.

Armed Forces: Housing

Nick Harvey: To ask the Secretary of State for Defence pursuant to the answer of 18 January 2009, *Official Report*, columns 1015-6W, on modern housing solutions: complaints, how many of the complaints made to Modern Housing Solutions originated in each region. [271256]

Mr. Kevan Jones: The requested information will take a little time to collate and verify. I will write to the hon. Member.

Armed Forces: Pinch Point Traders

Nick Harvey: To ask the Secretary of State for Defence on what date the infantry rank of *(a)* private and *(b)* lance corporal became classed as an operational pinch point trade; and if he will make a statement. [271401]

Mr. Bob Ainsworth: The ranks of infantry private and lance corporal were added to the Pinch Point Register on 20 September 2007.

Nick Harvey: To ask the Secretary of State for Defence what criteria are applied in determining whether a position in the armed forces is classed as an operational pinch point trade. [271402]

Mr. Bob Ainsworth: An operational pinch point occurs in a branch specialisation, sub-specialisation or area of expertise where the shortfall in trained strength (officers or ratings/other ranks) is such that it has a detrimental impact on operational effectiveness. This might be as a result of adherence to single-service harmony guidelines, under-manning, and/or levels of commitment that exceed the resourced manpower ceiling for the trades or areas of expertise involved.

Dr. Fox: To ask the Secretary of State for Defence what the *(a)* trained requirement, *(b)* trained strength and *(c)* numbers fit for duty of each pinch point trade in the armed forces is. [257675]

Mr. Bob Ainsworth: As I stated in my reply on 20 October 2008, *Official Report*, columns 122-26W, 'Fit for Task' strengths are not routinely recorded and could be provided only at disproportionate cost. However, the following table shows the liability, strength and shortfalls, in real numbers and percentage figures.

			Shortfall	
	Liability	*Strength*	*Number*	*Percentage*
Royal Navy				
Operational Pinch Point Trades				
Lt Cdr X SM Command Qualified (SM(CQ))	47	45	2	5
Lt X SM IWC Qualified and SQEP	40	39	1	3

			Shortfall	
	Liability	*Strength*	*Number*	*Percentage*
Principal Warfare Officers	**359**	**289**	**70**	**20**
RN Harrier GR7 Instructors	**9**	**6**	**3**	**33**
RN Harrier GR7 Pilots (inc. Instructors)	**33**	**24**	**9**	**27**
MCD/MWO Lts	**81**	**47**	**34**	**43**
Strategic Weapons Systems Junior Ranks	**110**	**86**	**24**	**22**
Merlin Pilots	**122**	**78**	**44**	**36**
Merlin Observers	**116**	**71**	**45**	**39**

Armed forces: Parachuting

Nick Harvey: To ask the Secretary of State for Defence how many *(a)* basic and *(b)* specialist military parachuting courses have been suspended as a result of aircraft unavailability in the last 12 months. [269808]

Mr. Bob Ainsworth: Over the last 12 months (1 April 2008 to 1 April 2009) a total of 11 parachuting courses were cancelled due to lack of aircraft. Of these, eight were basic courses, including basic regular para; basic TA para; re-qualifying courses, and three were specialist courses including special forces.

Nick Harvey: To ask the Secretary of State for Defence how many untrained military parachutists there are in 16 Air Assault Brigade. [269809]

Mr. Bob Ainsworth: As at 19 April 2009, 16 Air Assault Brigade was authorised to hold 2,434 qualified parachutists. There are 293 personnel in 16 Air Assault Brigade awaiting the basic parachuting course (BPC). A further 445 personnel are no longer current (i.e. have not completed a parachute jump in the last two years). Therefore 30 per cent. (738) of the military parachutists in 16 Air Assault Brigade are not qualified.

Armed Forces: Rescue Services

Nick Harvey: To ask the Secretary of State for Defence (1) which military bases have provided search and rescue cover in the last 12 months; and how frequently each has provided such cover; [271460]

(2) what average distance from base to the location of search and rescue activities was in the last 12 months; and what the longest distance from base to such an activity was. [271459]

Mr. Bob Ainsworth: The following table shows the number of call-outs undertaken by each UK base, the average distance travelled and the longest distance travelled between 1 January and 31 December 2008, the most recent period for which figures are available.

Base	*Call-outs*	*Average distance (nautical miles)*	*Longest distance (nautical miles)*
RAF Boulmer	211	58.3	188.0
RAF Lossiemouth	275	65.8	423.0
RAF Leconfield	232	43.4	316.0
RAF Valley	222	38.9	130.0
RAF Wattisham	174	50.3	240.0

Base	*Call-outs*	*Average distance (nautical miles)*	*Longest distance (nautical miles)*
RMB Chivenor	262	36.8	327.0
RNAS Culdrose	204	41.4	529.0
HMS Gannet	382	49.9	253.0

Further data on military search and rescue activities are published by Defence Analysis and Statistical Advice (DASA) and are available to view on the DASA website at:

www.dasa.mod.uk/natstats/natstatsindex.html

Armed Forces: Resignations

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many soldiers bought themselves out of the Army in each year since 1998. [270868]

Mr. Bob Ainsworth: As soldiers are no longer able to buy themselves out, this question has been interpreted to mean all those individuals who voluntarily left the Army.

Due to the ongoing validation of data on the Joint Personnel Administration (JPA) system, a break down of exit by reason, including voluntary outflow (VO), cannot currently be produced for the Army from 28 February 2007 onwards.

However, the following table shows the number of soldiers leaving under 'VO' from 1998 to 28 February 2007:

Soldier voluntary outflow from trained strength to civil life

Financial year	*Number of voluntary outflows*
1998-99	5,950
1999-2000	5,310
2000-01	5,310
2001-02	4,980
2002-03	4,610
2003-04	4,500
2004-05	4,880
2005-06	4,620
April 2006 to March 2007[1]	4,410
2007-08	[2]—

[1] Only 11 months of data currently available. [2] — denotes unavailable. *Notes:*

1. The figures are for trained regular army other ranks (soldiers) only and therefore exclude officers, Gurkhas, Home Service battalions of the Royal Irish Regiment, full-time reserve service, mobilised reserves, TA and all other reserves.

2. For the purpose of this PQ, VO is defined as all exits from trained personnel which are voluntarily generated by the individual before the end of their agreed engagement or commission period (i.e. time expiry). Females who leave on marriage grounds are included in VO exits.

3. Due to the rounding methods used, totals may not always equal the sum of the parts. When rounding to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

Soldier voluntary outflow figures can be found in Table five of Tri-Service Publication five 'UK Regular Forces Outflow from Trained Strength to Civil Life' which can be viewed on the DASA web at the following link:

http://bravo.dasa.r.mil.uk.applications/newWeb/www/index.php?page=48&thiscontent=60&date=2009-04-20&pubType=1&PublishTime=09:30:00&from=home&tabOption=3

Army: Health

Nick Harvey: To ask the Secretary of State for Defence how many and what percentage of infantry personnel were *(a)* unable to deploy and *(b)* only able to undertake limited deployment for medical reasons in each year since 2001. [271395]

Mr. Bob Ainsworth: Figures for the period since March 2007 are provided in the following table:

	Personnel unable to deploy for medical reasons		*Personnel able to undertake limited deployment only for medical reasons*	
	Number	*Percentage of held strength*	*Number*	*Percentage of held strength*
March 2007	1,809	8.7	1,015	4.9
March 2008	1,716	8.0	1,174	5.4
April 2009	1,149	5.3	2,099	9.7

The figures are taken from statistics relating to deployable strength of Infantry battalions and include officers and soldiers augmented from other cap badges for deployment purposes.

Following individual risk assessments, including an assessment of medical facilities in Theatre, the majority of soldiers officially listed as being of limited deployability are able to deploy to Theatre.

Figures for earlier years are not held centrally and could be provided only at disproportionate cost.

Atomic Weapons Establishment: Recruitment

Nick Harvey: To ask the Secretary of State for Defence how many *(a)* scientists, *(b)* engineers and *(c)* technicians the Atomic Weapons Establishment plans to recruit in the next five years; and what their areas of expertise will be. [271265]

Mr. Quentin Davies: Based on current contract assumptions and subject to any change in priorities, AWE plc is planning to recruit in the order of 110 scientists, 160 engineers and 180 technicians over the next five years. The areas of expertise are diverse, and will include computer, measurement and material science; decommissioning and waste management; facility design and operations; manufacturing; systems engineering; project management; assurance, and IT/telecommunications.

Defence Equipment: Lost Property

Nick Harvey: To ask the Secretary of State for Defence how many instances there were of spare parts lost in transit during each financial year since 2006-07; and what the monetary value was of the loss in each year. [271397]

Mr. Quentin Davies: Data on losses are not held in such a way that enables the separate identification of 'spare parts'.

Defence: Expenditure

Dr. Murrison: To ask the Secretary of State for Defence what his Department's budget for urgent operational requirements (UORs) was in each year since their inception; how much was spent on UORs in each such year; what the *(a)* budget for and *(b)* projected expenditure on UORs is for each year to 2011-12; and how much (i) has been repaid and (ii) is projected to be repaid to HM Treasury in respect of UORs in each such year. [270950]

Mr. Hutton *[holding answer 24 April 2009]:* Urgent operational requirements (UORs) are, in most cases, funded from outside of the Defence budget through access to the Treasury Reserve. As such the "budget" for UORs is not a limit, but an agreed estimate which has been established in the last two years in order to assist with planning. For the last financial year (2008-09), that estimate was set at £900 million (with facility to roll over committed spend which had not accrued in the previous year), and for this financial year (2009-10) the estimate currently stands at £635 million (with an expected spend from the Reserve of £424 million on the protected mobility package agreed separately).

Given the urgent and operationally-driven nature of UORs it is not possible to generate long-term estimates with any accuracy and thus no estimates have been made for spend beyond this financial year. For historic expenditure I refer the hon. Member to the answer given in another place by my noble Friend Baroness Taylor of Bolton on 24 March 2009, *Official Report, House of Lords*, columns WA107-08, to the noble Lord Dr. Moonie. To date no repayments have been made to the Treasury in respect of UORs. Beyond the specific arrangements described in the answer of 12 January 2009, *Official Report*, column 99W, by the Under-Secretary of State for Defence my hon. Friend the Member for Grantham and Stamford (Mr. Davies), to the hon. Member for Woodspring (Dr. Fox), no repayments are currently planned.

Departmental Training

Mr. Hurd: To ask the Secretary of State for Defence what his Department's policy is on holding departmental away days at locations other than departmental premises. [268465]

Mr. Kevan Jones: There is no specific central guidance on this point which is left to the discretion of local business units to decide based on local requirements. Departmental instructions do make it clear that all expenditure on away days and other similar events should be demonstrably necessary, appropriate, cost-effective and an admissible charge against the Defence budget.

Grant Shapps: To ask the Secretary of State for Defence pursuant to the answer of 20 April 2009, *Official Report*, column 63W, on departmental training, what training sessions were provided to Ministers in order for them to carry out their duties effectively under the Ministerial Code; and if he will make a statement. [270961]

Mr. Hutton: I refer the hon. Member to the answers I gave on 5 November 2008, *Official Report*, column 483W, and 11 February 2009, *Official Report*, column 1994W, to the hon. Member for Hammersmith and Fulham (Mr. Hands). Recent MOD Ministers' training has been mandatory pre-deployment training in preparation for visits to Iraq and Afghanistan.

Iraq and Afghanistan: Peacekeeping Operations

Dr. Fox: To ask the Secretary of State for Defence if he will place in the Library a copy of the standard unclassified visitors command brief given to visitors to *(a)* Operation Telic and *(b)* Operation Herrick. [270941]

Mr. Hutton: Given the rapid pace of operations in Iraq and Afghanistan, command briefs are prepared for individual visitors or groups at an appropriate level of classification for the audience. These briefings do not exist in the format required to be placed in the Library of the House because they are usually verbal.

Military Aircraft: Helicopters

Nick Harvey: To ask the Secretary of State for Defence what the current percentage shortfall is of required spares for each helicopter type in the *(a)* Army Air Corps, *(b)* Royal Navy and *(c)* Royal Air Force. [271396]

Mr. Quentin Davies: I refer the hon. Member to the answer I gave on 20 April 2009, *Official Report*, column 68W, to the hon. Member for Woodspring (Dr. Fox).

NATO

Mr. Hague: To ask the Secretary of State for Defence pursuant to the written ministerial statement of 20 April 2009, *Official Report*, columns 3-4WS, on the NATO Summit, what proposed steps are included in the UK proposal to establish an Alliance Solidarity Force; and if he will make a statement. [271038]

Mr. Hutton: The UK put forward the idea of an Alliance Solidarity Force as a tangible demonstration of NATO's determination to deter aggression at short notice against any of its allies. The proposal is that, within the wider NATO Response Force, there should be a small, about 1,500 strong, rapidly deployable multinational task force with a dedicated collective defence role. This proposal is currently being written by NATO for further consideration by allies.

Nuclear Weapons: Finance

Nick Harvey: To ask the Secretary of State for Defence from which budget the additional expenditure on the nuclear deterrent announced in the Comprehensive Spending Review is being drawn. [271400]

Mr. Hutton: Additional resources were made available to the Ministry of Defence to fund the activity necessary over the Comprehensive Spending Review 2007 period to implement the decisions set out in the December 2006 White Paper: "The Future of the UK's Nuclear Deterrent" (Cm 6994). Those resources are allocated by central staff to Defence Equipment and Support, which is responsible for the acquisition and logistic support of all military equipment.

The Government have made it clear that the investment required to maintain our deterrent will not come at the expense of the conventional capabilities our armed forces need.

RAF Leuchars

Angus Robertson: To ask the Secretary of State for Defence how many service personnel will be redeployed and re-assigned as a result of the reduction in the number of Tornado F3 fighter jets at RAF Leuchars. [270477]

Mr. Bob Ainsworth: Detailed planning is under way and it is too soon to provide details of the outcome of this process. Manpower on the station will be carefully managed, taking account of the planned introduction of Typhoon Squadrons at RAF Leuchars.

Angus Robertson: To ask the Secretary of State for Defence what assessment the Department has made of the likely operational effect of the reduction in the number of Tornado F3 fighter jets based at RAF Leuchars on the commitments of squadrons 43 (Fighter) and III (Fighter). [270478]

Mr. Bob Ainsworth: The Tornado F3 force will be reduced to a size commensurate with its UK-based air defence duties and those of the Falkland Islands, until it is replaced in the latter role by Typhoon later this year. The Tornado F3 force will continue to maintain the Quick Reaction Alert (QRA) North commitment until its out of service date and the transition of UK and Falkland Islands air defence capability between F3 and Typhoon will remain seamless.

Angus Robertson: To ask the Secretary of State for Defence when the decision was taken to reduce the number of Tornado F3 fighter jets in operation at RAF Leuchars; and when personnel at the station were informed of the reduction. [270479]

Mr. Bob Ainsworth: The decision to reduce the number of Tornado F3 was considered in the course of the routine defence planning cycle and taken this April. The station commander at RAF Leuchars was informed of the decision on 8 April 2009. Briefings to station personnel commenced at that time.

Angus Robertson: To ask the Secretary of State for Defence what the timetable is for the reduction in the number of Tornado F3 fighter jets in operation at RAF Leuchars. [270480]

Mr. Bob Ainsworth: We plan to reduce the Tornado F3 force by September this year. Work continues to develop the detailed timetable for this reduction.

Somalia: Piracy

Mr. Hague: To ask the Secretary of State for Defence how many individuals have been apprehended by Royal Navy vessels operating in the Gulf of Aden in relation to pirate activity in the last 12 months; how many of these have been *(a)* released, *(b)* transferred to Kenyan custody and *(c)* otherwise dealt with; and if he will make a statement. [271013]

Mr. Bob Ainsworth: The Royal Navy has been conducting specific counter-piracy operations in the Gulf of Aden since October 2008 in order to deter and disrupt pirate activity in accordance with the provisions of the United Nations Conventions on the Law of the Sea (UNCLOS).

UK vessels have been involved in a small number of incidents involving a total of 47 suspected pirates. Of these, eight suspected pirates were considered to have sufficient evidence on which to charge and were subsequently detained and transferred to Kenya for prosecution under the provisions of a Memorandum of Understanding. 37 were permitted to sail back to their coastal waters once all suspected piratical equipment was confiscated. Two suspected pirates were killed during the course of a counter-piracy operation.

Trident: Finance

John Mann: To ask the Secretary of State for Defence how much he estimates his Department will spend on the renewal of the Trident nuclear weapons system in each of the next six financial years. [271614]

Mr. Hutton: The estimated costs of the programme to maintain the United Kingdom's deterrent capability beyond the life of the current system, as set out in the December 2006 White Paper, 'The Future of the United Kingdom's Nuclear Deterrent' (Cm 6994), and endorsed by Parliament on 14 March 2007, over the next two years are:

	£ million at outturn prices
2009-10	400
2010-11	400

Costs are greater in 2009-10 than previously announced due to the agreement with the US to design and manufacture a Common Missile Compartment. However, this is the result of re-profiling of funding rather than cost growth in that year and the overall budgetary provision for the successor deterrent has not changed.

Spending plans for 2011-12 and beyond will be set as part of the Government's spending review process.

War Pensions

Mr. Crausby: To ask the Secretary of State for Defence how many people are in receipt of a war pension. [271245]

Mr. Kevan Jones: As at 31 December 2008, there were 159,300 disablement pensioners in receipt of a war pension.

Warships: Deployment

Nick Harvey: To ask the Secretary of State for Defence what the total nautical mileage undertaken by the Royal Navy surface fleet was in each year since 1997. [271391]

Mr. Bob Ainsworth: Data on nautical mileage undertaken by the Royal Navy surface fleet is not held centrally and could only be provided at disproportionate cost.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the sums to be allocated to farming subsidies by his Department in each of the next six financial years. [271798]

Jane Kennedy: The table shows ceilings (maximum amounts) that the UK can draw from the EU budget (which the UK contributes to) to make direct payments to farmers under EU support schemes included in pillar 1 of the EU common agricultural policy. The totals reflect amounts subtracted where modulation arrangements have been applied (the subtracted funds being redirected to pillar 2).

The vast majority of these payments fall under the Single Payment Scheme (SPS), and are decoupled from production. Actual payments will depend on future changes to EU legislation, future decisions on modulation, and factors such as the application of financial discipline; but will in any case be less than the permitted ceilings.

UK direct payments

Calendar year	*UK direct payments (modulation subtracted) (€ million)*
2009	3,370
2010	3,340
2011	3,330
2012	3,340

Current forecasts are only available up to 2012.

Climate Change: Finance

Susan Kramer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of his Department's expenditure on climate change adaptation measures in 2008-09. [269069]

Jane Kennedy: DEFRA delivers the 'Adapting to Climate Change Programme', which is a cross-Government programme which aims to help society adapt to climate change. The role of the programme is to develop and provide a comprehensive evidence base including adaptation tools, to raise awareness of the need to adapt, to measure success and to work across Government at all levels to embed adaptation.

Measuring adapting to climate change in expenditure does not give a full picture, it is also about encouraging behaviour change and increasing resilience to risk which does not always involve additional expenditure.

DEFRA and DECC jointly fund the Hadley Centre, and we also fund the production the new UK Climate Projections, due to be launched in summer 2009.

Adapting to climate change forms parts of many areas of DEFRA's work, and it is not always possible to distinguish the costs associated with adaptation. In many cases it will be the way we do something that will help us adapt, rather than a specific project. So it is not possible accurately to estimate the total amount of expenditure on adaptation measures, for example in areas such as animal health, farming and protection of the environment.

A range of other activities which DEFRA leads on will also help adapt to climate change, for example, the introduction of measures to assist communities in adapting to future risks from flooding and work arising from recommendations in the Pitt review. This comes from the central DEFRA budget so it is incorporated into a wider range of expenditure which delivers many benefits, not only on adaptation.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Environment, Food and Rural Affairs what the average server capacity utilisation by each division of his Department was in each of the last five years; and if he will make a statement. [269581]

Huw Irranca-Davies: The following figures show an average 24/7 central processing unit utilisation for those servers covered by IBM's server monitoring tool during March and April 2009.

CPU utilisation

15 per cent. on Unix servers

6 per cent. on Wintel servers

We have not been able to produce historical information without incurring disproportionate cost.

Providing figures broken down to divisional level is not possible. Many servers are shared across the Department by a number of divisions. Figures for individual usage could therefore not be obtained.

Departmental Redundancy

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs how many of his Department's staff have been made redundant in each of the last three years; how much compensation was paid to those made redundant in each of the last three years; how many people he expects to be made redundant from his Department in *(a)* 2009 and *(b)* 2010; how much he expects to pay in compensation in respect of such redundancies in each year; and if he will make a statement. [266391]

Huw Irranca-Davies: The following table (table 1) indicates how many staff from DEFRA have been made redundant in each of the last three years and how much compensation was paid to those made redundant. Please note that information is provided in financial years, not calendar years.

For staff leaving on compulsory or flexible severance terms 'compensation' refers to the lump sum compensation payment made. For staff leaving on compulsory, flexible or approved early retirement schemes 'compensation' includes lump sum compensation payment, capitalised cost of paying pension or annual compensation payment, pension enhancement and the cost of bringing forward payment of pension lump sum.

The level of compensation paid to each individual is in accordance with the rules set out in the relevant Civil Service Compensation Scheme.

Table 1: Number of staff made redundant and compensation paid over the previous three financial years

Financial year	*Number of staff*	*Compensation (£ to the nearest 25,000)*
2008-09	8	200,000
2007-08	11	675,000
2006-07	22	400,000

The following table (table 2) indicates how many staff are expected to be made redundant in 2009-10 and 2010-11 and estimated amount of compensation. Again, information is provided in financial rather than calendar years and the definitions of 'compensation' used above stand.

Table 2: Estimated number of staff likely to be made redundant and estimated compensation for financial years 2009-10 and 2010-11

Financial year[1]	*Number of staff*	*Compensation (£ to the nearest 25,000)*
2009-10	5	[2]200,000
2010-11	0	n/a

[1] Please see below for narrative regarding work force planning for 2009-10 and 2010-11.

[2] Approximately.

The five people noted above for financial year 2009-10 are currently undertaking redundancy and redeployment processes which will conclude during 2009. We will continue to work with staff, trade unions and the Cabinet Office throughout the redundancy and redeployment period to try and secure suitable alternative employment wherever possible. However, should any of these individuals not secure suitable alternative employment within a reasonable time, they will be issued notice of redundancy.

Farmers

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the number of *(a)* hill and *(b)* dairy farmers who will leave the industry in 2009. [270442]

Jane Kennedy: The Department has made no estimate of the number of hill farmers or dairy farmers who will leave the industry in 2009.

Farmers: Income

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated income of the *(a)* farming and (b) dairy farming sector was in (i) 2006, (ii) 2007 and (iii) 2008. [270443]

Jane Kennedy: The estimated Farm Business Income[1] of *(a)* all farm types and *(b)* dairy farms for 2006-07, 2007-08 and 2008-09 is shown in the following table.

Average farm business income[1] per farm

			£/farm
Farm type	*2006-07*	*2007-08*	*2008-09*[2]
All farm types	34,400	48,100	44,300
Dairy	30,800	55,100	72,800

[1] Farm Business Income represents the financial return to all unpaid labour (farmers and spouses, non-principal partners and directors and their spouses and family workers) and on all their capital invested in the farm business, including land and buildings.

Farm Business Survey

Fisheries: Western Sahara

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs if he will seek an agreement with Polisario to allow UK vessels to fish the waters off Western Sahara following the declaration of an exclusive economic zone covering those waters. [270937]

Huw Irranca-Davies: The current EU/Morocco Fisheries Partnership agreement was signed in 2006 and sets out the terms for which UK and other European fishing vessels may fish in the waters off the coast of Western Sahara. The agreement does not prejudice the issue of the status of Western Sahara, which the UK regards as undetermined pending UN efforts to find a resolution, nor does it represent recognition of Morocco's sovereignty over the Maritime waters off Western Sahara.

In the event that an exclusive economic zone was declared, and internationally recognised, the EU would need to consider whether or not it wished to have an agreement with Western Sahara. If it was decided that no such agreement should be entered into, UK vessel owners would still be free to enter into private agreements with Western Sahara.

Waste Management

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the *(a)* minutes, *(b)* presentations and *(c)* handouts from his Department's sixth Waste Strategy stakeholder group meeting. [269886]

Jane Kennedy: A copy of the minutes, presentations and handouts from the sixth Waste stakeholder group meeting has been placed in the Library.

Waste Management: Essex

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the time taken to publish the conclusions of the Essex Waste Plan; when he expects to publish them; and if he will make a statement. [271797]

Jane Kennedy: It is for Essex county council to decide if and when to publish the conclusions of the Essex Waste Plan. There is no obligation for DEFRA to do this.

Waste Regional Advisory Group

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* membership and *(b)* remit of the Waste Regional Advisory Group in each Government office region is. [269976]

Jane Kennedy: Waste Regional Advisory Groups (WRAGs) were established by some Government offices to assist in the dissemination of funding from the Waste Implementation Programme's Regional Support Fund (RSF). However, the South West, Yorkshire and Humber, North East and North West regions maintained their WRAGs when RSF funding ceased. Details of membership and the specific remit of individual WRAGs can be sought from the relevant Government office.

Water: Pollution

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs with reference to the answer of 15 September 2008, *Official Report*, column 2033W, on bromine, when he expects to make a decision on the appeal relating to the Sandridge bromate contamination in Hertfordshire. [271752]

Huw Irranca-Davies: Further to the answer to the previous question on this issue, the Secretary of State made a provisional decision on the two appeals in November 2008. The proposed decision would result in changes to the remediation notice which is the subject of the appeals. A further round of consultation with the relevant parties was, therefore, initiated under the

Contaminated Land Regulations 2006 which set out the legal framework in this area. This period of consultation has recently ended, and the Secretary of State is currently considering the responses received to determine whether these affect the proposed decision. If there is no change to the proposed decision, the Secretary of State would expect to issue the decision before the summer recess.

Whales: Conservation

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has held discussions with his counterparts in anti-whaling nations on policy to prevent resumption of commercial whaling; and if he will make a statement. [270862]

Huw Irranca-Davies: UK officials met with those of other likeminded anti-whaling countries at the intersessional meeting of the International Whaling Commission (IWC), and also with EU countries, in March. At both meetings, the UK stressed its continued support for the moratorium on commercial whaling and the risks attendant upon allowing any exceptions to it.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to ensure that the work of the International Whaling Commission's Small Working Group does not lead to a resumption of commercial whaling; and if he will make a statement. [270863]

Huw Irranca-Davies: The UK has consistently voiced its opposition to commercial whaling to the Small Working Group of the International Whaling Commission (IWC) which is looking at the future of the IWC. The UK would not agree to any proposal which it considered was likely to be detrimental to either the welfare or the conservation of whales.

Mr. Benyon: To ask the Secretary of State for Environment, Food and Rural Affairs whether he has had discussions with his counterparts in anti-whaling nations on the announcement by Iceland of a whaling quota of 100 minke whales and 150 endangered fin whales for 2009; and if he will make a statement. [270864]

Huw Irranca-Davies: UK officials discussed Iceland's decision to issue new whaling quotas, including what representation might be appropriate following the forthcoming election in Iceland, when they met with those of other like-minded countries at the recent intersessional meeting of the International Whaling Commission in Rome, in March.

Wolf-dogs

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the practice of breeding and keeping F3-generation wolf-dogs with a high percentage of wolf DNA; what requirements there are to apply for a licence for such activity under the Dangerous Wild Animals Act 1976; and if he will make a statement. [270978]

Huw Irranca-Davies: The keeping of wolves, and certain hybrids, is controlled under the Dangerous Wild Animals Act 1976 and licences to do so are required from local authorities who administer and enforce the 1976 Act.

The 1976 Act contains no provisions relating to the breeding of wolf hybrids and there has been no assessment of such practice in this respect.

The schedule, or list, of species requiring a licence under the 1976 Act was revised in 2007. The general entry for "mammal hybrids" was amended so as to ensure that keeping both first and second generation hybrids, including wolf hybrids, requires a licence. Third generation hybrids, or generations further removed, in this instance, from the original wolf content, do not require a licence.

DEFRA and the RSPCA jointly funded research into the keeping of wolf-dog hybrids which was published in 2001. The contractors found that very few wolf hybrids were kept and that advertisements for wolf-dogs were generally misleading and had been embellished to attract public interest and justify high prices.

COMMUNITIES AND LOCAL GOVERNMENT

Community Relations

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the outcomes of her Department's consultation on a framework for inter-faith dialogue and social action within local communities. [271643]

Mr. Khan: Following an extensive consultation process, my Department published "Face to Face and Side by Side—a Framework for Partnership in our Multi Faith Society" in July 2008. The aims of the document were to create more local opportunities both for 'face to face' dialogue between people from different religious backgrounds, and for 'side by side' collaborative social action.

We are making very good progress in implementing the framework. For instance, we will shortly be announcing the innovative local inter-faith projects around England which will be receiving funding under round 1 of the £4 million Faiths in Action scheme. We have invested £3.5 million to support the capacity of regional faith forums. We are working with the Inter Faith Network for the UK to deliver inter-faith week, a week of activities in November which will celebrate and promote inter-faith activity at local, regional and national level. A number of other commitments on the framework are also being taken forward.

Violent Extremism (Prevention)

Mr. Paul Goodman: To ask the Secretary of State for Communities and Local Government pursuant to the oral answer of 21 April 2009, *Official Report*, columns 140-41W, on violent extremism (prevention), when the Minister for Community Cohesion wrote to local authorities about the monitoring of preventing violent extremism funding. [271670]

Mr. Khan: I wrote to local authorities who will receive Prevent funding as part of their area-based grant between 2008-09 and 2010-11 on 12 February 2009.

Community Relations: Immigration

John Mann: To ask the Secretary of State for Communities and Local Government what provision she has made in her Department's budget for the integration of migrants for the next six financial years. [271777]

Mr. Khan: The Department for Communities and Local Government has budgeted £50 million in the period 2008-09 to 2010-11 to support integration and community cohesion and to assist local authorities in preventing and managing community tensions. This includes £7.5 million to develop inter-faith activity and £4.5 million to help schools and others offer positive activities for young people. CLG has also contributed £50,000 in start-up funding to help the East of England Development Agency develop an information portal to help migrants find out more about living and working in the UK.

Communities and Local Government is also co-ordinating the allocation of the new cross-Government Migration Impacts Fund. This will provide £35 million in 2009-10 to local services managing the transitional pressures of migration. It will be paid for through increases to migrant fees. Subject to a review in the autumn of the economic position and the migrant fees being received, a similar amount will be made available in 2010-11.

Provision for 2011-12 and beyond will be determined by future Spending Reviews.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government what mechanisms are in place to ensure that prospective *(a)* buyers and *(b)* tenants in the (i) social and (ii) private rented sector are provided with an energy performance certificate for the property; and if she will make a statement. [270555]

Margaret Beckett: The Energy Performance of Buildings Regulations (2007/991) for England and Wales came into force for all property on 1 October 2008. From this date a valid Energy Performance Certificate was required to be made available free of charge to any prospective buyer or tenant. Enforcement of the regulations is a matter for trading standards officers.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many new homes for *(a)* social and *(b)* private rent have been issued with an energy performance certificate in each of the last three years. [270557]

Margaret Beckett: The Department does not record information about whether new homes for which Energy Performance Certificates have been issued are in either the private or social rented sectors.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate has been made of the number of residential properties in the *(a)* private and *(b)* social rented sector which have received an energy performance certificate. [270606]

Margaret Beckett: The requirement for Energy Performance Certificates (EPCs) for homes in the social and private rental sectors came into force on 1 October 2008. The facility to lodge rental EPCs in the central register became available on 22 September 2008. In the period since 22 September 2008, 537,413 EPCs have been lodged in the private rented and 204,294 EPCs have been lodged in the social rented sector.

Equal Opportunities

John Bercow: To ask the Secretary of State for Communities and Local Government what progress her Department has made in improving the visibility of black male role models since December 2007. [271646]

Mr. Khan: The REACH report recommended that the Government should take action to improve the visibility of positive black male role models. The panel who wrote the REACH report envisioned a network of 20 national champions who would be used to challenge negative stereotyping, and support a network of black male role models in local communities. We have been working very closely with members of the REACH panel to ensure that their vision is realised.

On 3 December 2008 the Department launched the National Black Role Model Programme, and announced the names of the 20 National Role Models. These individuals are now working as champions of the programme, engaging at a national level and spearheading the work. The Role Models are being supported by the Windsor Fellowship, an organisation with very strong links to the black community at a grass roots level whom we are now funding to deliver the Role Models Programme.

Fire Services

Mr. Drew: To ask the Secretary of State for Communities and Local Government when the lease upon each regional fire control centre commenced; on what date rent started to be paid on each lease; and on what date each centre began operations. [271669]

Mr. Khan: The information requested is set out in the following table, broken down by region.

Region	*Lease commencement date*	*Rent commencement date*
North East	6 June 2007	13 April 2008
East Midlands	6 June 2007	20 January 2008
South West	22 August 2007	15 February 2008
West Midlands	31 December 2007	4 October 2008
North West	9 July 2008	1 January 2009
Yorkshire and Humberside	9 July 2008	04 April 2009
East of England	8 October 2008	21 April 2009
South East	12 June 2008	14 November 2008
London (projected)	26 February 2010	26 November 2010

The buildings are undergoing a fit out programme at present to bring them into a fully operational state. No regional control centre has yet begun operation. The current schedule for cut over was set out in the answer given to my hon. Friend the Member for Hendon (Mr. Dismore) on 11 December 2008, *Official Report*, columns 248-50W, setting out the revised cut over schedule.

Fire Services: Emergency Calls

Andrew Stunell: To ask the Secretary of State for Communities and Local Government how many (*a*) genuine and (*b*) malicious false fire emergency calls were received in (i) Greater Manchester and (ii) the North West in each of the last five years. [271175]

Mr. Khan: The information requested is available in the following tables.

False fire alarms by FRS and type, England, 2003-07[1]

	2003				2004			
FRS area	*Total*	*Malicious*	*Good intent*	*Due to apparatus*	*Total*	*Malicious*	*Good intent*	*Due to apparatus*

Homes and Communities Agency

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many times the Homes and Communities Agency and its predecessor bodies have provided her Department with confidential advice, as referred to in the management statement, in each of the last three years. [270579]

Margaret Beckett: The predecessor bodies for the Homes and Communities Agency were English Partnerships, the investment arm of the Housing Corporation, and the Academy for Sustainable Communities. A range of departmental programmes also transferred to the Agency from Communities and Local Government.

The only reference to the provision of confidential advice in a Framework Document or management statement of the Homes and Communities Agency or one of its predecessor bodies is found in the management statement of the Housing Corporation.

However, given the volume of correspondence between the Housing Corporation and Communities and Local Government, specific pieces of advice that were given in confidence in accordance with the management statement over the last three years cannot be identified without disproportionate cost and effort.

Homes and Communities Agency: Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the Homes and Communities Agency's total expenditure was in 2008-09; and what its estimated outturn had been for that year. [270601]

Margaret Beckett: I refer the hon. Member to my answer of 19 January 2009, *Official Report*, column 1076, which gave information on the Homes and Communities Agency's estimated outturn for 2008-09.

2008-09 total outturn figures for the HCA will be published in its first annual report and accounts.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what end year flexibility entitlements were taken up by her Department in relation to *(a)* the Homes and Communities Agency and its predecessor bodies, *(b)* the Tenant Services authority and *(c)* other housing programmes in each of the last five years. [270617]

Margaret Beckett: The information requested is set out in the following table. It is not possible to distinguish between the end year flexibility (EYF) entitlements taken up by the Department in relation to the Homes and Communities Agency and the Tenant Services Authority predecessor bodies. Information about EYF in 2004-05 could only be provided at disproportionate cost.

	2005-06	2006-07	2007-08	£000 2008-09
Homes and Communities Agency, Tenant Services Authority and predecessors	176,132	10,657	0	0
Other Housing programmes	18,521	42,989	138,041	0

Housing: Low Incomes

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many Open Market HomeBuy equity loan redemptions there were in each of the last three years. [270640]

Margaret Beckett: The following table sets out the number of Open Market HomeBuy equity loan redemptions (both full and partial), and the number of shared owners increasing their equity shares in their homes, for each of the last three years for which figures are available. No breakdown is available between equity loan redemptions and redemptions by shared owners.

Financial year	*Number*
2005-06	1,265
2006-07	1,704
2007-08	1,678

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) how much was allocated to each region from the national Affordable Housing programme in each of the last three years; [270645]

(2) how much she expects to be allocated to each region from the national Affordable Housing programme in each of the next three years. [270566]

Margaret Beckett: The following table shows the expenditure in each region through the Homes and Communities Agency's Affordable Housing programme for 2006-07, 2007-08 and provisional figures for 2008-09.

	2006-07	2007-08	£ million 2008-09[1]
North East	43	37	58
Yorkshire and Humberside	65	72	102
North West	111	108	195
East of England	153	191	272
East Midlands	74	85	134
West Midlands	97	97	198
London	887	855	1003
South East	374	383	427
South West	114	175	236
Total	1,918	2,003	2,625

[1] Provisional

The following table shows indicative allocations for 2009-10 and 2010-11 for each region. Some of the programme is held centrally such as the Growth Support (Affordable Housing) Fund, mortgage rescue and HomeBuy Direct.

Allocations have not yet been adjusted to reflect Budget changes announced on 22 April.

Homes and Communities Agency Affordable Housing programme indicative regional allocations

	2009-10	£ million 2010-11
North East	65	47
Yorkshire and Humber	125	94
East Midlands	124	90
East of England	285	205
London	1,258	928
South East	490	374
South West	287	204
West Midlands	181	144
North West	206	156
Not allocated to regions	550	150
Total	3,571	2,392

Allocations for 2011-12 will be subject of the next spending review.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 3 March 2009, *Official Report*, column 1542W, on the HomeBuy scheme, how many properties initially marketed as a HomeBuy Direct property have since been withdrawn from the scheme. [270646]

Margaret Beckett: No properties that have been marketed by developers as HomeBuy Direct properties have subsequently been withdrawn from the scheme.

Mr. Evans: To ask the Secretary of State for Communities and Local Government how many affordable homes have been built in *(a)* Ribble Valley constituency, *(b)* Lancashire and *(c)* England in the last five years. [271330]

Mr. Iain Wright: Information on new affordable homes built by constituency is not available. The following table shows the number of new affordable homes built in Ribble Valley local authority, Lancashire, and England between 2003-04 and 2007-08.

	Area		
	Ribble Valley local authority	*Lancashire*	*England*
2003-04	0	320	23,890
2004-05	0	320	26,930
2005-06	[illegible]	350	33,260
2006-07	20	290	36,260
2007-08	20	560	43,560

Affordable housing figures are collated from the Homes and Communities Agency Investment Management System (IMS); and Housing Strategy Statistical Appendix (HSSA) returns and P2 house building returns submitted to CLG by local authorities and the National House-Building Council (NHBC).

Not all affordable housing is provided by new build completions, as some supply can come from acquisitions. An additional 10,170 affordable homes were acquired in England in 2007-08; these are not included in the table above.

Mortgages: Government Assistance

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government how many households are expected to receive assistance from the mortgage rescue scheme's *(a)* shared equity programme and *(b)* Government mortgage to rent programme (i) in total and (ii) as a proportion of the total number of housing repossessions in the next year. [270242]

Margaret Beckett: The £200 million Government mortgage rescue scheme has been operational across the country since 1 January 2009. The scheme aims to support up to 6,000 vulnerable households in England at risk of repossession over the next two years. The scheme consists of two options, Government Mortgage to Rent and Shared Equity. The Government have not made any estimates of the number of households they expect to benefit from each of the two options of the scheme, neither do they make projections of the total number of housing repossessions. The mortgage rescue scheme is demand-led, with the number of vulnerable households benefiting from each of the scheme's options dependent on the circumstances of eligible households approaching their local authority for assistance.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government when the mortgage rescue scheme's *(a)* shared equity programme and *(b)* Government mortgage to rent programme will become operational. [270262]

Margaret Beckett: The Government's mortgage rescue scheme was officially launched on 16 January, following successful 'fast tracking' by around 80 local authorities in December 2008. The scheme comprises both a shared equity and a Government Mortgage to Rent option, which are dependent on an eligible household's financial circumstances and an assessment of the long-term sustainability of the rescue.

Andrew George: To ask the Secretary of State for Communities and Local Government how many applications for assistance under the mortgage rescue scheme have been *(a)* received and *(b)* approved in each local authority area; and how much has been spent under the scheme in each local authority area. [270685]

Margaret Beckett: As part of the monitoring arrangements for the Government mortgage rescue scheme, headline data will be published on a monthly basis on the Department's website starting this month. We will be publishing headline data for January, February and March 2009 on 30 April 2009, as pre-announced on the UK National Statistics publication hub, after which local authority breakdowns can be made available. The date of this publication has been delayed from 21 April 2009 owing to unforeseen issues with data quality and validation.

Regional Planning and Development: South East

Chris Huhne: To ask the Secretary of State for Communities and Local Government when she expects the Government Office for the South East to make a final decision on the South East Plan; and if she will make a statement. [271280]

Mr. Khan: The Secretary of State for Communities and Local Government will make a final decision on the South East Plan. It is anticipated that publication will be in the spring.

A statement will be laid on the day of publication.

Smoke Alarms

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of her Department's campaign to promote smoke alarm installation. [271632]

Mr. Khan: Provisional figures show that in 2007 there were 193 accidental dwelling fire deaths in England, down 17 per cent. from the 2006 figure of 233 accidental dwelling fire deaths. This is the lowest figure for accidental dwelling fire deaths in England since 1981.

It has been our policy for some time that smoke alarms have a vital role to play in saving lives as they provide the vital early warning of fire and therefore help people to escape. Since 1987, the Government have conducted high profile national and regional television campaigns promoting smoke alarms which have proved very successful. Ownership has increased from 9 per cent. in 1987 to the current level of 80 per cent. and we are seeking to raise it further as evidence suggests that those without alarms are often in those groups who are most at risk from fire. The Government are committed to running further smoke alarms ownership and maintenance campaigns as part of this years programme.

Furthermore, in 2004, Communities and Local Government invested £25 million pump priming capital over four years in the Home Fire Risk Check initiative. This funding resulted in just under 2 million Home Fire Safety Checks by fire and rescue services in England, installing over 2.4 million smoke alarms. Research into the impact of the Home Fire Risk Check initiative showed it was responsible for 57 per cent. of the fall in accidental dwelling fire deaths. The research also concluded that the Home Fire Risk Check grant was responsible for 13,670 fewer fires and 888 fewer non-fatal casualties. The value placed on these figures showed a total benefit of £926 million to £ 1,943 million to the economy.

Travelling People: South East

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what criteria the South East England Regional Assembly uses to determine the admissibility of submissions to the Gypsies, Travellers and Travelling Show People Review. [268837]

Mr. Iain Wright: The Government encourages members of the public to make their views known on planning issues. However, representations must be made on material planning matters relevant to the issue being considered. It is for the body considering the responses to make the judgment on whether responses are material. The Regional Assembly held the consultation into the partial review of the Regional Spatial Strategy and took decisions on how to treat responses. They have not yet submitted the outcome to the Secretary of State.

Hugh Robertson: To ask the Secretary of State for Communities and Local Government how many responses the South East England Regional Assembly received to its consultation on Gypsies, Travellers and Travelling Show People; how many it returned on the basis that they contained discriminatory views; on what advice that decision was taken; and who gave the Assembly that advice. [271738]

Mr. Iain Wright: The Government encourage members of the public to make views known in relation to any planning issues. However, representations must be made on material planning matters relevant to the issue being considered.

In exercising their planning responsibilities, all public bodies must ensure that they fulfil their duties under the Race Relations Act 1976 to actively seek to eliminate unlawful discrimination and promote good race relations.

In this case, the regional assembly, the then regional planning body, was responsible for the consultation into the partial review of the regional spatial strategy in relation to Gypsies, Travellers and Travelling Show People and it was the assembly that took decisions on how to treat responses.

HOME DEPARTMENT

Alcoholic Drinks: Crime

Ms Keeble: To ask the Secretary of State for the Home Department how many *(a)* off-licences and *(b)* on-licences have been convicted for offences related to the sale of alcohol in each of the last five years. [266813]

Mr. Alan Campbell: Information showing the number of defendants found guilty at all courts for offences relating to the sale of alcohol in England and Wales from 2003-07 (latest available) is in table 1. From data collected centrally by the Ministry of Justice, it is not possible to separately identify the number of off-licences from the number of on-licences. Data for 2008 will be available in the autumn of 2009.

The penalty notice for disorder (PND) scheme was rolled out to all police forces in England and Wales in 2004 under the provisions of the Criminal Justice and Police Act 2001. Information showing the number of penalty notices for disorder (PNDs) issued relating to the sale of alcohol is shown in table 2.

Table 1: Number of defendants, by persons and other defendants, found guilty at all courts for offences related to the sale of alcohol[1], England and Wales, 2003-07[2,3]

	Persons	Other defendants[4]	Total
2003	409	10	419
2004	605	4	609
2005	771	1	772
2006	839	16	855
2007	510	16	526

[1] Includes the following offences and statutes:
14203: Selling intoxicating liquor to persons under 18 for consumption on the premises (Licensing (Occasional Permissions) Act 1983 Schedule (Sec 3) para 4(1). Licensing Act 1964 Sec 169(1)).
14352: Wholesaler selling intoxicating liquor to a person under 18. (Licensing Act 1964 Sec 181 A(1) as added by Licensing Act 1988 Sec 17).
14353: Wholesaler allowing a person under 18 to sell intoxicating liquor without the specific approval of the wholesaler or an adult acting on his behalf. (Licensing Act 1964 Sec 181 A(2) as added by Licensing Act 1988 Sec 17).
14374: Sale of alcohol to a person who is drunk. (Licensing Act 2003 S.141)
14379: Sale of alcohol to person under 18. (Licensing Act 2003 S.146)
14380: Allowing sale of alcohol to person under 18. (Licensing Act 2003 S.147)
14398: Persistently selling alcohol to children (Licensing Act 2003 as added by the Violent Crime Reduction Act 2006).

[2] The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences, the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] Other offenders include companies and public bodies.

Source:
Evidence and Analysis Unit, Office for Criminal Justice Reform.

Table 2: Number of persons issued with a penalty notice for disorder relating to the sale of alcohol[1], in England and Wales, 2004-07[2,3]

	Number
2004	113
2005	2,090
2006	3,242
2007	3,664

[1] Includes the following offences:
Sale of alcohol to a person who is drunk. (Licensing Act 2003 S.141): introduced on 4 April 2005.
Sale of alcohol to person under 18. (Licensing Act 2003 S.146): introduced on 1 November 2004.

[2] Sale of alcohol to a person who is drunk was introduced to the PND scheme on 4 April 2005.

[3] Sale of alcohol to person under 18 was introduced to the PND scheme on 1 November 2004.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many *(a)* pubs, *(b)* night clubs, *(c)* off-licences and *(d)* individuals in each police force area have been prosecuted for selling alcohol to people aged under 18 in each of the last five years. [270663]

Mr. Alan Campbell: I refer the hon. Member to the answer given on 3 February 2009, *Official Report*, column 1025W.

Data for 2008 will be available in the autumn of 2009.

Pubs, nightclubs and off-licences are included within "other defendants" but cannot be separately identified.

Antisocial Behaviour: Greater London

Joan Ryan: To ask the Secretary of State for the Home Department how many dispersal orders have been issued in each London borough in each of the last five years. [271416]

Mr. Alan Campbell: Between January 2004 and 31 March 2006, the police have used the power in section 30 of the Anti-social Behaviour Act 2003 to disperse unruly groups in over 1,000 designated areas. Figures are not available broken down by year. Figures for 1 April 2006 to 31 March 2008 by police force area are due to be published shortly.

Asylum: North East

Jim Cousins: To ask the Secretary of State for the Home Department how many asylum seekers in each local authority area in the North East have been supported by the National Asylum Support Service in each quarter of each year since 2005. [270916]

Mr. Woolas: The National Asylum Support Service (NASS) no longer exists, although its functions continue to be exercised within the UK Border Agency.

Information on the number of asylum seekers that have applied for support in the North East by local authority area over a period is not collated centrally and could only be obtained at disproportionate cost.

Since the second quarter of 2008, statistics on the numbers of asylum seekers in receipt of support at the end of the quarter are published in tables 5 and 6 of the quarterly bulletin "Control of Immigration". Earlier published figures are available in the quarterly bulletin "Asylum Statistics", tables 9 and 10.

These statistics are broken down by Government Office Region and local authority.

Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Further breakdowns by parliamentary constituency are available from the Library of the House.

Crimes of Violence: Firearms

Mr. Evans: To ask the Secretary of State for the Home Department how many violent crimes involving a gun were committed in *(a)* Ribble Valley constituency and *(b)* England in each of the last 10 years. [270713]

Mr. Alan Campbell *[holding answer 27 April 2009]:* Available information relates to violence against the person crimes recorded by the police in England in which firearms (excluding air weapons) were reported to have been used from 1998-99 up to and including 2007-08.

Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument, or used as a threat.

Violence against the person crimes involving firearms[1] (excluding air weapons), England, 1998-99 to 2007-08

	Recorded crime
	Number of offences
1998-99	1,664
1999-2000	2,203
2000-01	2,492
2001-02[2]	3,405
2002-03[3]	4,130
2003-04	4,651
2004-05	5,707
2005-06	5,368
2006-07	4,239
2007-08	4,575

[1] Firearms are taken to be involved in a crime if they are fired, used as a blunt instrument against a person or used as a threat.

[2] Figures for some crime categories may have been inflated by some police forces implementing the principles of the National Crime Recording Standard before 1 April 2002.

[3] The National Crime Recording Standard was introduced on 1 April 2002, which may have resulted in inflated figures for some crime categories. Figures before and after this date are not directly comparable.

Criminal Records: Databases

Mr. Don Foster: To ask the Secretary of State for the Home Department what steps her Department has taken to ensure that notices served under section 27 of the Violent Crime Reduction Act 2006 are not collated or recorded on a database that allows for an automatic retrieval. [270083]

Mr. Alan Campbell: The Home Office does not require notices served under section 27 of the Violent Crime Reduction Act to be collated or recorded on a database. The guidance issued by the Home Office on section 27 'Giving Directions to Individuals to Leave a Locality' indicates that each police force should determine how information relating to these notices should be gathered and recorded. The guidance can be found by accessing the following web link:

http://police.homeoffice.gov.uk/publications/operational-policing/directions-to-leave-locality

Departmental Air Travel

Mr. Amess: To ask the Secretary of State for the Home Department how many officials from her Department of each *(a)* grade and *(b)* directorate have flown by British Airways on official business in each of the last five years; what the (i) destination and (ii) cost of the ticket was in each case; what her policy is on the use of British Airways by her Department's officials; and if she will make a statement. [270591]

Mr. Woolas: The Department's accounting system does not hold the information at the requested level of detail. An answer could not be provided without incurring disproportionate cost.

All travel is undertaken in accordance with the guidance set out in the ministerial code, the civil service management code and departmental staff handbooks.

Departmental Sick Leave

Mr. Ruffley: To ask the Secretary of State for the Home Department how many days sick leave were taken on average by staff *(a)* in her Department and *(b)* in the Criminal Records Bureau in 2008-09. [269702]

Mr. Woolas: The Home Office, which comprises headquarters, UK Border Agency, Identity and Passport

Service, and Criminal Records Bureau, lost, on average, 9.29 working days per staff year to sick absence in 2008-09 financial year.

11.31 average working days per staff year were lost to sick absence in the Criminal Records Bureau during the same period.

Driving Offences: Speed Limits

Mr. Evans: To ask the Secretary of State for the Home Department how many written warnings for speeding offences were issued in *(a)* Lancashire and *(b)* England in each of the last five years; and if she will make a statement. [270543]

Mr. Alan Campbell *[holding answer 27 April 2009]:* Available information on written warnings for speeding offences in Lancashire police force and England in from 2002 to 2006 (latest available) is provided in the table.

Information on written warnings given in 2007 is due to be published on 30 April 2008 as a part of the Home Office publication, "Statistics on Police Powers and Procedures 2007-08".

Written warnings for speed limit offences, Lancashire and England and Wales 2002 to 2006

	Number of warnings	
Police force area	Lancashire	England
2002	0	5,209
2003	1	4,850
2004	1	6,048
2005	0	5,498
2006	0	3,719

Driving Under Influence

Norman Baker: To ask the Secretary of State for the Home Department pursuant to the answer of 5 February 2009, *Official Report*, column 1519W, on driving under influence, what factors underlie the period of time elapsed between the collection of statistics on the number of breathalyser tests by month and region and the publication of those data; and by what date she expects the 2008 data to be published. [271052]

Mr. Alan Campbell: *[holding answer 24 April 2009]:* Until 2006, breath tests data had been collected and published by the Ministry of Justice as a part of the 'Motoring offences and Breath Tests Statistics' publication. The Home Office has taken over this work, and data for 2007 are due to be published on 30 April 2009 as a part of the Home Office National Statistics bulletin "Statistics on Police Powers and Procedures—England and Wales 2007". This bulletin contains a wide-range of statistics, all of which require data to be submitted from police forces. Data then has to be quality assured before publication.

From 2008 onwards, statistics on breath tests will be reported to the Home office annually (broken down by month) to ease the burden on police forces.

Previously, they had reported monthly for an annual publication.

The publication date for 2008 breath tests data has yet to be announced.

Drugs: Misuse

Paul Flynn: To ask the Secretary of State for the Home Department how many deaths and serious injuries following the use of gamma hydroxybutyrate have been recorded in each of the last five years; and if she will make a statement. [270936]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent question asking how many deaths and serious injuries following the use of gamma hydroxybutyrate have been recorded in each of the last five years. (270936)

The table attached provides the number of deaths where the underlying cause was drug poisoning and gamma hydroxybutyrate was mentioned anywhere on the death certificate, in England and Wales, for 2003 to 2007 (the latest year available). Figures for serious injuries following the use of gamma hydroxybutyrate are not available.

Table 1. Number of deaths attributed to drug poisoning[1] where gamma hydroxybutyrate was mentioned on the death certificate, England and Wales,[2] 2003-07

	Deaths
2003	6
2004	1
2005	4
2006	7
2007	9

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). Deaths were included where the underlying cause was due to drug poisoning (shown in the box below) and where gamma hydroxybutyrate was mentioned on the death certificate.

[2] Figures for England and Wales include deaths of non-residents.

[3] Figures are for deaths registered in each calendar year.

ICD-10	Description
F11-F16, F18-F19	Mental and behavioural disorders due to drug use (excluding alcohol and tobacco)
X40-X44	Accidental poisoning by drugs, m[illegible]aments and biological substances
X60-X64	Intentional self-poisoning by drugs, medicaments and biological substances
X85	Assault by drugs, medicaments and biological substances
Y10-Y14	Poisoning by drugs, medicaments and biological substances, undetermined intent

Entry Clearances

Mr. Vaizey: To ask the Secretary of State for the Home Department if she will take steps to ensure that artists visiting the country for cultural events under the new points-based system of immigration have easy and affordable access to biometric data collection points. [270410]

Mr. Woolas *[holding answer 23 April 2009]:* When we introduced the requirement for all visa applicants to submit their biometric data we extended the number of collection points through the arrangements provided by our commercial partners. In some cases mobile collection is also possible. We do keep the arrangements under review and recently, for example, opened new visa application centres in Russia.

G20: Greater London

Mrs. Lait: To ask the Secretary of State for the Home Department how many police officers assigned to police the protests associated with the G20 summit were injured in the course of their duties. [270920]

Mr. Coaker: The Metropolitan police are still collating accurate figures on injuries which will take time given the large numbers of officers and forces involved in the policing operation. I will write to the hon. Member when this information is available.

Hezbollah

Mr. Hague: To ask the Secretary of State for the Home Department pursuant to the answer of 2 April 2009, *Official Report*, column 1319W, on Hezbollah, if she will place in the Library a copy of the review of Hezbollah. [270466]

Mr. Coaker: Reviews for the purposes of proscription draw on sensitive intelligence material. It is therefore not possible to place a copy of the review of Hezbollah in the Library.

Hillsborough Stadium: Disclosure of Information

Derek Twigg: To ask the Secretary of State for the Home Department when full public disclosure of all documents relating to the Hillsborough disaster will take place; and if she will make a statement. [270458]

Mr. Coaker: The Government are committed to helping those who lost loved ones in the Hillsborough tragedy. A number of national and local agencies hold a great deal of documentation on the Hillsborough disaster. Copies of the documents examined by Lord Justice Stuart-Smith as part of his review of Hillsborough papers were placed in the House Library when the then Home Secretary reported on the review in February 1998. The Home Secretary has been working with colleagues across Government, in the Ministry of Justice, the Department for Culture, Media and Sport, and the Attorney-General's Office to put out any information that could shed light on the disaster and its aftermath in the public domain as soon as possible. In doing so, we are working closely with South Yorkshire police.

Immigration Controls

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate she has made of the *(a)* resources required by the UK Border Agency (UKBA) to implement the requirements of Tier 4 of the points-based immigration system and *(b)* cost to UKBA of administering the requirements of Tier 4 in each of the next three years. [271292]

Mr. Woolas *[holding answer 27 April 2009]:* While the UK Border Agency continues to work with its supplier, the information requested is, at present, commercially sensitive.

Mr. Oaten: To ask the Secretary of State for the Home Department which nominated stakeholders have been selected to participate in the trial of the Sponsorship Management System under Tier 4 of the points-based immigration system; and what criteria were used to select those stakeholders. [271293]

Mr. Woolas *[holding answer 27 April 2009]:* The sponsorship management system (SMS) will be available from autumn 2009 for all sponsors to trial the gradual roll-out of issuing confirmations of acceptance for studies (CAS) and the associated reporting duties across migrant application types.

Independent Police Complaints Commission

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what mechanisms exist to monitor the work of the Independent Police Complaints Commission. [270383]

Mr. Coaker: The IPCC is a non-departmental public body sponsored by the Home Office and its work is monitored by the Department as part of its sponsorship responsibilities. The IPCC is also required to lay its annual report before Parliament and its work is scrutinised by Parliament through the Public Accounts Committee (PAC) and the Home Affairs Select Committee (HASC).

National Policing Improvement Agency: Recruitment

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 29 January 2009, *Official Report*, column 822W, on the National Policing Improvement Agency: vacancies, how many of the vacancies were advertised on the public part of the Civil Service Recruitment Gateway. [269929]

Mr. Coaker: 164 vacancies were advertised on the Civil Service Gateway.

Mr. Maude: To ask the Secretary of State for the Home Department pursuant to the answer of 29 January 2009, *Official Report*, column 822W, on the National Policing Improvement Agency: vacancies, what the *(a)* job title and *(b)* salary range of each of the vacancies was. [269930]

Mr. Coaker: It is not possible to recapture the data as at 21 January 2009, which were provided in the answer of 29 January 2009, *Official Report*, column 822W. It is estimated that there were 344 vacancies around the end of January 2009. The job title and salary range for the 344 vacancies is provided in the table.

Job title	*Salary range*

Staff Officer to Independent Reducing Bureaucracy Advocate	Inspector
Police Expert—Intelligence	Inspector
PC/Sgt Public Order x two	Sergeant
Operations Adviser	Sergeant
Airwave User Assurance Co-ordinator	Superintendent
Firearms Gold Command Training	Superintendent
Impact Stakeholder Engagement and Events Manager	Superintendent

National Security

David Davis: To ask the Secretary of State for the Home Department on how many occasions she and her predecessors have authorised warrants under section 7 of the Intelligence and Security Act 1994 since 1997. [271299]

Mr. Coaker *[holding answer 27 April 2009]*: The issuing of authorisations under section 7 of the Intelligence Services Act 1994 is scrutinized by the Intelligence Services Commissioner. In the most recent report of the Intelligence Services Commissioner 2007 (HC 948) he gave an account of his scrutiny function and noted that:

> "Consistent with the practice since annual reporting by the respective statutory Commissioners began, I do not propose to disclose publicly the numbers of warrants or authorisations issued to the security and intelligence services. That is because it would assist those unfriendly to the UK were they able to know the extent of the work of the Security Service, SIS and GCHQ in fulfilling their functions. The figures are, however, of interest and have been included in the confidential annex to the report."

Police Stations: Wales

Mrs. Gillan: To ask the Secretary of State for the Home Department which police stations have *(a)* closed and *(b)* opened in each of the last five years in each police force area in Wales; which police stations in each such area have been sold in the last 10 years; to which purchasers each such station was sold; for what price each such station was sold; and which operational police stations in each such area are under consideration for closure. [271310]

Mr. Coaker *[holding answer 27 April 2009]*: The management of the police estate and allocation of resources are matters for each Welsh chief officer and police authority, who are responsible for assessing local needs.

Police: Bureaucracy

Mr. Bone: To ask the Secretary of State for the Home Department what recent estimates she has made of the average length of time per day a police officer spends on patrol in *(a)* England and Wales and *(b)* Northamptonshire constabulary. [254941]

Mr. Coaker: I refer the hon. Gentleman to the answer my right hon. Friend the Home Secretary gave to the hon. Member for Epsom and Ewell (Chris Grayling) on 21 April 2009, *Official Report*, columns 604-05W.

Police officer time spent on the beat for Northamptonshire is a matter for the chief constable of that force. The latest figure available was provided by my predecessor, my right hon. Friend the Member for Harrow, East (Mr. McNulty) on 29 September 2008, *Official Report*, columns 2352-53W.

Police: Complaints

Mr. Amess: To ask the Secretary of State for the Home Department what the maximum disciplinary sanction is which the Independent Police Complaints Commission (IPCC) may impose on a police officer; on how many occasions since its creation the IPCC has imposed the maximum sanction on a police officer; and if she will make a statement. [270589]

Mr. Coaker: The IPCC is not responsible for imposing disciplinary sanctions on police forces or individuals. The evidence, findings and recommendations of IPCC investigations are fed in to the police performance and conduct systems as and when appropriate.

Police: Finance

Mrs. Spelman: To ask the Secretary of State for the Home Department what the percentage yearly increases in the Band D police precept on council tax after capping were in each police authority area in England and Wales in each year from 1997-98 to date. [271267]

Mr. Coaker: The information requested is set out in the following table.

Precept (Band D) annual percentage increases by police authority 1997-98 to 2009-10

Percentage

[1] In 2008-09, seven police authorities were proposed with capping action:
Lincolnshire—in year designated (capped). Required to reduce budget from £116.6 million to £100.6 million.
Bedfordshire—Nominated. Will be measured against a notional budget of £95.8 million in 2009-10 and 2010-11.
Norfolk—Nominated. Will be measured against a notional budget of £137.9 million in 2009-10 and 2010-11.
Surrey—Nominated. Will be measured against a notional budget of £189.6 million in 2009-10 and 2010-11.
Cheshire, Leicestershire and Warwickshire—Nominated with future designation. Budget increases restricted at a level equivalent to a maximum council tax increase of 5 per cent. in 2009-10 and 2010-11
[2] In 2009-10, two police authorities are currently being considered for capping action, Derbyshire and Surrey.

[1] In 2008-09 seven police authorities were proposed with capping action:
Lincolnshire—in year designated (capped). Required to reduce budget from £116.6 million to £100.6 million.
Bedfordshire—Nominated. Will be measured against a notional budget of £95.8 million in 2009-10 and 2010-11.
Norfolk—Nominated. Will be measured against a notional budget of £137.9 million in 2009-10 and 2010-11.
Surrey—Nominated. Will be measured against a notional budget of £189.6 million in 2009-10 and 2010-11.
Cheshire, Leicestershire and Warwickshire—Nominated with future designation. Budget increases restricted at a level equivalent to a maximum council tax increase of 3 per cent. in 2009-10 and 2010-11.
[2] In 2009-10, two police authorities are currently being considered for capping action, Derbyshire and Surrey.

English Police Authorities—DCLG
Welsh Police Authorities—WAG

Police: Staffordshire

Mr. Jenkins: To ask the Secretary of State for the Home Department how many police civilian support staff there were in *(a)* Tamworth constituency and *(b)* Staffordshire (i) in 1997 and (ii) at the latest date for which figures are available; how many police community support officers there are in each area; and what the policing budget was in each such area in (1) 1997 and (2) 2007 in real terms. [270183]

Mr. Coaker: There were 763 police staff in Staffordshire in 1997 and 1,309 such staff in 2008. Police staff figures exclude traffic wardens, designated officers and PCSOs. PCSOs were first introduced in statute in 2002. In 2008, there were 209 PCSOs in Staffordshire. All figures are based on full-time equivalent strength and are correct as at 31 March in the given years. Police personnel statistics are not collected by parliamentary constituency.

The Government allocate funding to police authorities. The allocation of resources to Tamworth is a matter for the chief constable and Staffordshire police authority. We do not hold centrally information on resources allocated to the Tamworth parliamentary constituency.

Staffordshire police authority has increased its budget from £113 million in 1997-98, a real terms increase of 0.6 per cent. over 1996-97, to £170.9 million in 2007-08, a real terms increase of 1.4 per cent. over 2006-07.

Police: Standards

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what recent assessment she has made of standards of policing in the West Midlands. [270382]

Mr. Coaker: Following the publication of the Policing Green Paper (From the Neighbourhood to the National: Policing our Communities Together) in July 2008, the Home Office will no longer make graded assessments of policing performance. Instead, HM Inspectorate of Constabulary (HMIC) will take the lead in making any qualitative assessment of forces' performance.

The Home Office last published graded performance assessments of all police forces in 2006-07. For 2007-08, we only published performance data without any graded assessment. The performance data for the West Midlands in 2007-08 can be found at:

http://police.homeoffice.gov.uk/performanceand measurement/performanceassessment/assessments-2007-2008/west-midlands

In addition, West Midlands police provide local crime information and crime maps for the public, available at:

www.myneighbourhood.info

Salvia Divinorum

Mr. David Jones: To ask the Secretary of State for the Home Department if she will review the legal status of salvia divinorum. [271514]

Mr. Alan Campbell: At the Home Secretary's request, the Advisory Council on the Misuse of Drugs is reviewing the availability and harms of psychoactive legal alternatives to illegal drugs, so called 'legal highs', with a particular focus on protecting young people. I fully anticipate that this work will include salvia divinorum.

The Government's position on their control will be informed by Advisory Council's advice.

Surveillance: Local Government

Mrs. Spelman: To ask the Secretary of State for the Home Department whether local authorities will be included in the list of public authorities which will have access to retained communications data under the provisions of EU Directive 2006/24/EC. [271229]

Mr. Coaker: The Government launched a three month public consultation inviting views on this and other matters on 17 April. Copies of the consultation paper "Regulation of Investigatory Powers Act 2000: Consolidating Orders and Codes of Practice" have been placed in the House Library.

Terrorism: Crime Prevention

Mr. Dai Davies: To ask the Secretary of State for the Home Department what contribution *(a)* the Department for Energy and Climate Change and *(b)* the Office for Civil Nuclear Security made to her Department's report, The United Kingdom's Strategy for Countering International Terrorism; and to which overseas offices and institutions representing British interests the report has been distributed. [267594]

Mr. Coaker: While there was no specific input made by the Department for Energy and Climate Change or the Office for Civil Nuclear Security into the United Kingdom's Strategy for Countering International Terrorism (Contest), they have both been fully engaged in discussions in support of civil nuclear security in the UK.

Overseas, all our representative posts and institutions have access to Contest, as it is a published document and is freely available on the internet. Over 130 posts and institutions were specifically informed of the launch of the Contest strategy and were invited to brief their hosts and report back on their reactions.

FOREIGN AND COMMONWEALTH OFFICE

British Council: Contracts

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 13 March 2009, *Official Report*, column 778W, on British Council: finance, whether any of the projects funded under the Reconnect programme are being delivered by subcontractors. [270676]

Caroline Flint: None of the projects under the British Council Reconnect programme (funded under the additional £6 million total over the triennium 2008-09 to 2010-11) has been delivered by subcontractors in 2008-09. The British Council did use some external facilitation and research support for its Active Citizens programme in 2008-09 but does not have any present plans to engage subcontractors this year (2009-10).

China: Human Rights

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what matters were raised at the recent meeting which took place in the UK-China Human Rights Dialogue process; and what the position was of the Chinese delegation on each of those matters. [252126]

Bill Rammell: The seventeenth round of the UK-China Human Rights Dialogue was held in London on 12-13 January 2009. This comprised one day of talks and visits to a psychiatric detention facility and disability centre run by the Leonard Cheshire Foundation. The delegation also met a group of MPs from the China All-Party Parliamentary Group.

The formal talks were held with representatives of the Ministry for Foreign Affairs, the Supreme People's Procuratorate, United Front Works Department, Supreme People's Court, Ministry of Public Security, State Council Information Office, and the China Disabled Persons' Federation. We discussed recent human rights developments in China, the drafting of the first Chinese human rights action plan, the ratification of the International Convention on Civil and Political Rights, Tibet, co-operation with international human rights mechanisms, including the Universal Periodic Review, UN Special Rapporteurs, the Universal Convention Against Torture Committee and the UN Human Rights Council, the use of the death penalty, Rule of Law issues including administrative detention, Xinjiang, Democratic People's Republic of Korea border-crossers, and the freedoms of religion, expression and association. Detailed discussions were held on the role of the prosecutor, and a separate workshop, which included representatives of British non-governmental organisations, covered disability rights and mental health issues. We also raised more than 50 individual cases of concern. The following day the Chinese delegation visited a secure mental health unit and disability centre in London.

Given the nature of the discussions, it would not be appropriate to comment in detail on the Chinese position on each issue. We maintain close official-level contact with parliamentarians and key non-governmental associations involved in human rights in China and discuss our dialogue with them.

Departmental Ministerial Policy Advisers

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how many special advisers were employed in his Department at each pay band on 30 November 2008; and what his Department's total expenditure on special advisers was in 2007-08. [243573]

Gillian Merron: The Government are committed to publishing an annual list detailing the number and costs of special advisers. Information for 2007-08 was published by my right hon. Friend the Prime Minister on 22 July 2008, *Official Report*, columns 99-102WS.

European Union: Civil Servants

Mrs. Gillan: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK-based staff of the EU offices of the devolved Administrations are registered with a Belgian mutual health insurance provider. [242448]

Gillian Merron: All 18 UK-based officers, accredited to the devolved Administrations as diplomats, are registered to the Belgian Partena Mutuelle.

Mrs. Gillan: To ask the Secretary of State for Foreign and Commonwealth Affairs which UK-based staff of the EU offices of the devolved Administrations are responsible to the UK Permanent Representative to the EU for their personal conduct, listed by *(a)* grade and *(b)* Administration represented. [242449]

Gillian Merron: The number of UK-based staff, of the EU offices of the devolved Administrations, responsible to the UK Permanent Representative to the EU for their personal conduct, by grade and Administration, are:

Scottish Executive Office

	Staff
SCS	1
Grade 6	2
Grade 7	1
HEO	2
Total	6

Northern Ireland Executive Office

	Staff
SCS	1
Grade 7	2
HEO	1
Total	4

Welsh Assembly Government Office

	Staff
SCS	1
Grade 7	4
HEO	2
EO	1
Total	8

Note: Grades are listed against their Cabinet Office equivalent.

Flags

Grant Shapps: To ask the Secretary of State for Foreign and Commonwealth Affairs how much his Department spent on *(a)* Union flags and *(b)* flags of other nations in each of the last five years. [269209]

Gillian Merron: The total identifiable expenditure by the Foreign and Commonwealth Office (FCO) in each of the last five years is as follows:

Flags purchased for internal use at conferences, official events, etc.

	£
2004	2,876
2005	7,140
2006	2,339
2007	2,088
2008	9,099

A breakdown of this expenditure between Union flags and flags of other nations is not held centrally and providing this information would incur disproportionate cost.

In addition to this, in 2008 £1,694.54 was spent on Union flags and £995 was spent on other nations' flags for external use at FCO buildings. Before 2008 a contractor was used to provide a flag raising service. This included supplying flags as required.

Gaza: Smuggling

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent reports he has received on steps taken by the Government of Egypt to reduce trafficking of weapons and people into Gaza; and if he will make a statement. [244832]

Bill Rammell: We are extremely concerned with the smuggling of arms and people into Gaza. We are currently working with the Government of Egypt and our international partners on ways to help prevent smuggling.

Government Departments: Wines

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what the estimated value of alcoholic beverages in the Government wine cellar is; and how many bottles of *(a)* wine, *(b)* beer, *(c)* spirits and *(d)* other alcoholic beverages are held in the Government Wine Cellar. [270343]

Gillian Merron: The most recent available valuation of the Government hospitality wine cellar places the current value of the stock at approximately £792,000.

The cellar contains approximately 39,500 bottles, of which fewer than 500 are spirits or liqueurs. Small quantities of beer are bought on an ad hoc basis; it does not form part of the cellar stock.

Immigration Officers

Mr. Francois: To ask the Secretary of State for Foreign and Commonwealth Affairs how many migration officers his Department has in place; in which countries they are posted; and what the estimated *(a)* numbers and *(b)* locations of such officers for 2009-10 have. [243030]

Bill Rammell: The Foreign and Commonwealth Office does not employ any migration officers. Such officers are employed by the UK Borders Agency, which is the responsibility of the Home Office.

India: Foreign Relations

Dr. Kumar: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to foster Indo-British relations. [244668]

Bill Rammell: The UK already enjoys a close and constructive relationship with India. We have extensive contacts with the Indian Government and civil society on a wide range of diplomatic, political, security, economic, trade, development, scientific and cultural issues. We have an extensive network of posts in India staffed from several departments across Whitehall who work to promote UK interests in India. Government Ministers also have regular discussions with their Indian counterparts about current bilateral, regional and global issues. The UK is committed to improving relations with India even further in 2009 and beyond.

Iran: Drugs

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what counter-narcotics assistance the UK has provided to Iran in each financial year since 2000; what assistance is planned in 2009-10; and if he will provide a breakdown of the expenditure by category of *(a)* projects supported and *(b)* costs. [270656]

David Miliband: Between the financial years 2000-01 and 2008-09 the Foreign and Commonwealth Office has spent approximately £3,025,000 on counter-narcotics assistance in and with Iran.

Our funding has contributed to a mix of supply and demand reduction projects such as:

- Training drug enforcement agencies on border management and intelligence sharing.
- Supply of mobile drugs detection units for anti-narcotics police.
- Donation of IT equipment and training for intelligence analysis.
- Training and funds to Iranian NGOs involved in the treatment and rehabilitation of drug addicts.

Most of the funding has been channelled through the UN's Office on Drugs and Crime (UNODC) for capacity building on Iran's eastern border and improving investigative capability. Some equipment has been provided through UNODC and bilaterally.

No specific assistance is currently agreed for 2009-10 but we are looking for ways to continue our work with Iran on counter narcotics.

Middle East: Armed Conflict

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions there were between the Government and *(a)* the Israeli Government, *(b)* President Mahmoud Abbas of the Palestinian Authority and *(c)* representatives of Hamas on the situation in Gaza between 28 December 2008 and 5 January 2009. [249173]

Bill Rammell: We have been in regular contact with both the Government of Israel and Palestinian Authority, including during this period the Prime Minister speaking to the Israeli Prime Minister and Palestinian President.

There was no contact with Hamas. We do not believe it is productive to talk to Hamas until it makes significant movement towards the Quartet principles of rejecting violence, accepting Israel's right to exist and recognising previous agreements.

The Arab League has mandated Egypt to communicate with Hamas. We are in regular contact with both the Arab League and Egypt. Turkey, Syria, Qatar and others are also speaking to Hamas.

Palestinians: Human Rights

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what consideration he has given to the report of the United Nations Human Rights Council's Special Rapporteur on the human rights situation in the occupied Palestinian territories concerning the Israeli attack on Gaza from 27 December 2008 to 18 January 2009; if the Government will review their obligations under the Geneva Conventions and other relevant aspects of international law as a consequence; and if he will make a statement. [271124]

Bill Rammell: We are extremely concerned with the current situation in Occupied Palestinian Territories and throughout the conflict in Gaza called for an immediate ceasefire.

We have called for allegations of abuse to be thoroughly investigated. The report of the UN Human Rights Council's Special Rapporteur is unbalanced and contributes little. We are awaiting the results of several ongoing investigations into alleged human rights violations during the Gaza conflict and will consider very carefully the results of these investigations once they are available.

We continue to press the Israeli Government to abide by all their international commitments, including their obligations under the fourth Geneva convention which makes clear that an occupying power must co-operate in allowing allow free movement of people, humanitarian supplies and commercial goods.

Rashid Rauf

Patrick Mercer: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Office was informed of the suspected death of Mr Rashid Rauf from a US air strike in the village of Ali Khel on 21 November 2008. [243424]

Bill Rammell: The Foreign and Commonwealth Office, including the Foreign Secretary's office, first learned of the suspected death of Mr. Rauf from initial media reports coming out of Pakistan.

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has received confirmation of the death of Mr Rashid Rauf in the US air strike on the village of Ali Khel on 22 November 2008. [245657]

Bill Rammell: We do not have confirmation of the death of Rashid Rauf. Following a request from his family, we have requested official confirmation from the Government of Pakistan.

Russia: BBC External Services

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate the BBC World Service has made of the number of people in the Russian Federation with internet access who *(a)* use the BBC Russian.com website and *(b)* are likely to use the website in each of the next five years. [271099]

Caroline Flint: The latest available figures are from January 2009, and estimate that the number of unique users of BBC Russian.com in the Russian Federation was on average 247,000 per week. However, we would therefore expect this number to increase.

Research shows that the number of internet users in Russia continues to grow, and that by the end of 2008 Russia had overtaken the UK as the second largest internet market in Europe. The BBC World Service regularly reviews the performance of all its websites, but predictive performance estimates of websites in individual countries are not available in this fast-changing environment.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs when the next review of the activities of the BBC Russia Service will take place. [271100]

Caroline Flint: The BBC World Service carried out a strategic review of the BBC Russian Service in 2008 in order to increase its impact and deliver a better service to audiences in Russia. It will continue to seek new opportunities to expand Russian audiences' access to the BBC Russian Service.

The BBC World Service has no plans for another strategic review of the service. However as with all services, it regularly reviews the Russian service output and assesses its impact through regular audience measurement.

The BBC World Service is editorially and operationally independent of Government. Though the Foreign and Commonwealth Office was consulted on the recent changes to the Russia Service, strategic decisions on individual language service reviews are taken by the BBC World Service.

Somalia: Piracy

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 1 April 2009, *Official Report*, column 1281W, on Somalia: piracy, whether the UK has put forward proposals on building capacity and capability in the region to prosecute pirates; and if he will make a statement. [271039]

David Miliband: The international Contact Group for Piracy off the Coast of Somalia (CGPCS) met in Cairo on 17 March 2009. The UK, as the chair of the Contact Group working group on international co-ordination and co-operation, asked for its mandate to be expanded to include regional capability development, given the importance of this work to a sustainable solution. This was agreed. As a result, and in co-ordination with key international organisations and partners, a UK-led needs assessment mission will be visiting the region in April/May to assess requirements in the judicial, penal and maritime security (Coastguard/naval) sectors. The mission will report back to the Contact Group via its working group as soon as possible, seeking funding support for the areas it assesses as priorities.

Sudan: Peacekeeping Operations

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what the current strength is of the UNAMID force operating in Darfur; which nations are contributing to it; how many *(a)* troops and *(b)* police have been provided in each case; and how much funding each contributing nation is making available. [248153]

Gillian Merron: The joint UN-African Union peacekeeping mission in Darfur (UNAMID) is now 15,136 troops, police and military observers, and approximately 2,000 civilians. The UK has staff officers deployed in UNAMID and is helping to train UNAMID police.

A full breakdown of UNAMID troop and police contributors can be found here:

http://www.un.org/Depts/dpko/dpko/contributors/2008/dec08_5.pdf.

There are currently 35 Troop Contributing Countries. The largest are: Nigeria with 3244 troops, Rwanda with 3241 and Ethiopia with 1470. There are currently 41 police contributing countries. The largest are: Ghana with 577 police officers, Nigeria with 268 police officers and two formed police units and Bangladesh with 88 police officers and one formed police unit.

Funding for UNAMID is managed by the United Nations. As well as our assessed contribution, the UK is making available approximately £2.5 million of funding this financial year to train and equip African contributing nations.

Tamils: Cluster Bombs

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the alleged use of cluster bombs by the Sri Lankan authorities against Tamils. [252129]

Bill Rammell: I refer my hon. Friend to the answer I gave my right hon. Friend the Member for Enfield North, (Joan Ryan), on 19 January 2009, *Official Report*, column 1176W.

Ukraine: Human Rights

Mr. Stewart Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the human rights situation in Ukraine; and if he will make a statement. [245145]

Caroline Flint *[holding answer 18 December 2008]*: An assessment of the human rights situation in Ukraine can be found in the 2007 FCO Human Rights Report

http://www.fco.gov.uk/resources/en/pdf/human-rights-report-2007

and the European Commission's review of Ukraine's progress against its European Neighbourhood Policy Action Plan

http://ec.europa.eu/world/enp/pdf/progress2008/sec08_402_en.pdf.

Ukraine has made good progress in recent years on democratisation and freedom of expression and the media, with three consecutive elections recognised as largely free and fair, and a diverse and lively media environment. We welcome the increasing involvement of human rights organisations in Government work to protect human rights. There are, however, a number of areas where urgent action is required, for example on tackling corruption, strengthening the rule of law, reversing the rise in suspected serious racist and anti-Semitic attacks, preventing people trafficking, improving the way in which detainees are treated by the law enforcement agencies. We are working closely with Ukraine on all of these issues, in particular through the European Union, the Organisation for Security and Co-operation in Europe and the Council of Europe.

WORK AND PENSIONS

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Work and Pensions (1) how long on average his Department took to process claims for assistance under the Support for Mortgage Interest scheme with 100 per cent. of eligible mortgage interest in 2008; what the average was in the period immediately prior to 5 January 2009; and what it has been since that date; [266308]

(2) how many applications for support under the Support for Mortgage Interest scheme have been received in each of the last 24 months. [266310]

Kitty Ussher: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of State has asked me to reply to your questions asking how long on average his Department took to process claims for assistance with 100% of eligible mortgage interest; what the average was in the period immediately prior to 5 January 2009; what it has been since that date; and how many applications for support under the Support for Mortgage Interest scheme have been received in each of the last 24 months. This is something which falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Jobcentre Plus does not capture the average processing time for claims for assistance with 100% of eligible mortgage interest. What is recorded is the average clearance time for the processing of our benefits, for example Jobseeker's Allowance (JSA) and Income Support (IS). Support for Mortgage Interest (SMI) is not a separate benefit but rather forms an integral part of the benefits such as JSA and IS. The customer may not be eligible to claim SMI from day one of their claim and as a result that element will be processed later in the life of that claim. This is why we do not capture the clearance time.

Jobcentre Plus does record the actual number of claims received for SMI, by benefit type. Please find attached this information for each of the last 24 months.

No data on Employment and Support Allowance will be released until the first set of official statistics have been published in the Summer.

Claims received for mortgage interest, report ending February 2008 and 2009, Jobcentre Plus

State Retirement Pensions

David Howarth: To ask the Secretary of State for Work and Pensions what recent representations he has received on transitional measures for people who will reach the state pension age before 6 April 2010 and are not affected by the reduction in the number of years' employment required to qualify for a state pension. [270779]

Ms Rosie Winterton: We are regularly engaged in discussion with stakeholders about the pensions system and pensions reform.

Following representations, the Government introduced legislation in the Pensions Act 2008 which will help people, particularly women and carers, who have recently reached or are approaching state pension age and who have gaps in their national insurance records to improve their basic state pension.

The measure will allow those who reach state pension age between 6 April 2008 and 5 April 2015 to purchase voluntary class 3 national insurance contributions for up to an additional six years from 1975, provided they already have 20 qualifying years (taking into account home responsibilities protection).

The measure, which came into force on 6 April 2009, will help to mitigate the potential differences in outcomes for people reaching state pension age either side of 6 April 2010.

CULTURE, MEDIA AND SPORT

Exercise

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what expenditure his Department has incurred on the *(a)* Active People and *(b)* Taking Part survey in each year since they began. [270342]

Mr. Sutcliffe: The information requested is as follows:

Active People survey

The Active People survey was commissioned by Sport England in 2005 to measure adult participation in sport and active recreation at a local authority (LA) level. Core costs of the survey are therefore incurred by Sport England.

In April 2008, the scope of the survey was extended to collect data for participation in cultural activities for the purposes of measuring LA national indicators owned by the Department for Culture, Media and Sport (DCMS). This cultural element of the survey is funded jointly (approximately 50:50) by DCMS and two partner bodies (Arts Council England and the Museums, Libraries and Archives Council). The cost to DCMS in 2008-09 was £590,000, which included the cost of boosting the sample size to ensure robust data.

Taking Part survey

The Taking Part survey was commissioned in 2005 and is jointly funded (again, approximately 50:50) by DCMS and four partner bodies (Arts Council England, English Heritage, Sport England and the Museums, Libraries and Archives Council). The survey collects data about engagement and non-engagement in culture, leisure and sport at a national level, and is a National Statistic.

Between 2005-06 and 2008-09, DCMS contributed the following levels to the cost of Taking Part.

	£ million
2005-06	0.7
2006-07	1.3
2007-08	1.4
2008-09	1.2

In addition to supporting core running costs of the survey, these figures include other expenses such as additional analysis, piloting and questionnaire reviews.

Licensed Premises: Closed Circuit Television

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what guidance has been issued by his Department to local licensing authorities on whether the installation of CCTV inside licensed premises may be a compulsory prerequisite of holding a premises licence. [271419]

Mr. Sutcliffe: Installation of CCTV inside licensed premises is not a compulsory prerequisite of holding a premises licence. However, the Department for Culture, Media and Sport has issued guidance on the installation of CCTV inside licensed premises which can be found at the following web address:

http://www.culture.gov.uk/reference_library/publications/3667.aspx

Public Libraries: Wirral

Ben Chapman: To ask the Secretary of State for Culture, Media and Sport (1) when Wirral Metropolitan Borough Council informed him of its plans to close 11 libraries; what discussions he had with *(a)* the council, *(b)* library users, *(c)* library staff and *(d)* the Museums, Libraries and Archives Council on (i) the closures and (ii) consultation on the closures; what assessment he has made of whether the Council's library service is meeting the requirements of the Public Libraries and Museums Act 1964; and if he will make a statement; [266089]

(2) what discussions he had with representatives of library users before he took the decision not to intervene in the library closure programme proposed by Wirral Metropolitan Borough Council; [266137]

(3) if he will review his decision in relation to public libraries in Wirral and intervene to prevent Library closures. [266303]

Barbara Follett: Local authorities are not required to advise DCMS of plans to review their library service or reform their estate but, in December last year, following the receipt of letters from concerned residents, the Head of Library Services at Wirral metropolitan borough council confirmed to DCMS officials that the council planned to close 11 of its 24 libraries.

The Museums, Libraries and Archives Council (MLA), as the national strategic body for the library sector and a source of best practice advice, has been in discussion with Wirral council about the restructuring of the library service since before Christmas and has shared information with DCMS officials since that time. In February, the Secretary of State requested that Wirral council work with the MLA on the proposed restructure of library services. Following their work, the MLA wrote to the Secretary of State to express their concerns about the closures. As a result he intervened on 3 April 2009, by calling a local inquiry to test whether the council's plans are consistent with their statutory duties under the Public Libraries and Museums Act, 1964. The person appointed to carry out the DCMS inquiry will be announced shortly, and will invite the views of all interested parties. Its conclusions will form part of the DCMS Library Service Modernisation Review, to be published in June.

The Secretary of State has discussed the decision to intervene with Councillor Steve Foulkes, Leader of Wirral metropolitan borough council. He has not however discussed the council's plans with library staff, library users or their representatives.

As a separate issue, significant concern has been expressed by various stakeholders about the consultation process conducted by the council. If substantiated, this would constitute a procedural rather than a specific statutory duty failure by the council, the remedy for which would be outside the Secretary of State's powers under the Act.

Tickets: Touting

Dr. Kumar: To ask the Secretary of State for Culture, Media and Sport what recent steps the Government have taken to combat ticket touting. [271080]

Mr. Sutcliffe: The Department for Culture, Media and Sport issued a consultation on ticketing and ticket touting running from 19 February 2009 to 15 May 2009. The consultation appears on its website:

www.dcms.gov.uk

Government will consider any steps needed after the end of the consultation period.

OLYMPICS

Departmental Rail Travel

Mr. Hurd: To ask the Minister for the Olympics what guidance her Office issues on whether members of staff may claim for travel in first class carriages on trains if there are no seats in standard class. [268567]

Tessa Jowell: The Cabinet Office is committed to minimising travel costs and reducing our carbon footprint.

The Cabinet Office's guidance to staff travelling by rail on official business is that standard class should be used. However, first class travel may be used when travelling over 2.5 hours.

Olympic Games 2012: Contracts

Pete Wishart: To ask the Minister for the Olympics how many complaints the Olympic Delivery Authority has received in respect of its procurement and contract award procedures, broken down by geographic area. [270482]

Tessa Jowell: The Olympic Delivery Authority (ODA) has received no formal complaints in respect of its procurement and contract award procedures. It does, on request, provide feedback to businesses that have been unsuccessful in an ODA procurement. Details of the ODA's complaints procedure are available on the London 2012 website:

http://www.london2012.com/index.php

Olympic Games 2012: Finance

Pete Wishart: To ask the Minister for the Olympics (1) what interest rate is attached to the £225 million European Investment Bank loan being considered by the Government in respect of funding for the 2012 Olympic athletes' village; [270488]

(2) whether a loan from the European Investment Bank for the funding of the 2012 Olympics would need to be underwritten by the Government. [270491]

Tessa Jowell: The European Investment Bank (EIB) has given in-principle agreement to a loan in two parts. Part of that loan would assist with the financing of the social housing arising from the Olympic village; the other part would assist with the financing of the whole Olympic village.

European Investment Bank loans are among a number of options being considered to fund the delivery of the Olympic village.

The terms and conditions for any loan are yet to be agreed in full.

Once a final decision has been taken about the funding of the Olympic village I will make a statement to the House.

Pete Wishart: To ask the Minister for the Olympics what proportion of the 2012 Olympic athletes' village is planned to be funded by *(a)* public investment and *(b)* private investment. [270489]

Tessa Jowell: As a number of options for funding the delivery of the Olympic village, remain under consideration, it is not possible to give a breakdown of public/private investment levels in the village project at this time. Once a decision is taken on the funding options, I will make a statement to the House.

Pete Wishart: To ask the Minister for the Olympics to what main budget headings the Olympic Contingency Fund is allocated. [270490]

Tessa Jowell: Detail on the Olympic Contingency Fund is included in the London 2012 Olympic and Paralympic games annual report 2009. The financial report section of that report includes a description of contingency fund budget headings.

John Mann: To ask the Minister for the Olympics what provision she has made in the Olympic budget for the next six financial years for enterprises related to the London 2012 Olympics. [271799]

Tessa Jowell: The £9.325 billion public sector funding package exists primarily to deliver the venues and infrastructure which will enable the London 2012 Olympic and Paralympic games (LOCOG) to take place and will leave a valuable legacy of physical regeneration, particularly in East London. The bulk of this funding will have been spent by the time the games take place in 2012, just over three years from now.

This expenditure creates considerable opportunities for UK business. The Olympic Delivery Authority and LOCOG will directly procure £6 billion worth of contracts, and this is expected to generate 75,000 supply chain opportunities. Where existing supply chains are not in place,—approximately 20 per cent. of contracts—these will be placed on CompeteFor, the brokerage service for buyers and suppliers which opens up supply chains to businesses, large and small across the UK. There will also be wider opportunities for businesses in sectors such as tourism, sport and hospitality.

NORTHERN IRELAND

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for Northern Ireland how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270507]

Paul Goggins: There is currently one member of staff in the Northern Ireland Office suspended. As there are fewer than five cases, details about the cases cannot be released for reasons of confidentiality.

Departmental Official Hospitality

Mr. Paterson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 12 January 2009, *Official Report,* column 198W, on departmental official hospitality, how much his Department spent on hosting events in each of the last five years. [257270]

Mr. Woodward: The following table shows the expenditure recorded by the Northern Ireland Office, excluding its Agencies and Executive NDPBs, in relation to events it has hosted in the last five years:

Financial year	*Expenditure on hosting events (£)*
2007-08	161,924
2006-07	190,580
2005-06	114,388
2004-05	n/a
2003-04	n/a

n/a = Not available.

The Department records expenditure on hosting events within a general hospitality expenses heading. Since 2005-06, a separate database has been introduced to capture the details and costs of events hosted by the Northern Ireland Office. However, the provision of costs prior to 2005-06 would require a manual investigation of the hospitality expenses heading which could be carried out only at disproportionate cost.

The events include Royal Garden Parties and receptions hosted at Hillsborough Castle, which acknowledge the contribution made by a wide range of people to life in Northern Ireland. These include representatives from the voluntary and business sectors and also the police and armed forces.

LEADER OF THE HOUSE

Select Committees: Internet

Mr. Evans: To ask the Leader of the House what recent representations she has received on the submission of evidence to Select Committee inquiries via internet video websites. [271008]

Chris Bryant: None.

SOLICITOR-GENERAL

Racial Hatred

Mr. Burns: To ask the Solicitor-General how many *(a)* prosecutions and *(b)* convictions there have been for offences relating to acts of racial hatred in (i) West Chelmsford constituency, (ii) Essex and (iii) England in each year since 2000. [271794]

The Solicitor-General: The CPS holds a record of the number of defendants prosecuted for racist hate crimes. The following table shows the number of such proceedings completed during each year for which figures are available, together with the outcome of proceedings. Outcomes are divided into conviction, including guilty pleas as well as convictions after trial, and unsuccessful outcomes, representing all outcomes other than a conviction.

CPS records are not held by parliamentary constituency, but according to the organisation unit of the service responsible for conducting the prosecution.

Separate figures are shown for north-east Essex, for CPS Essex, and for England. In addition, the table also shows figures for England and Wales in total.

	Convictions		*Unsuccessful*		
	Number	*Percentage*	*Number*	*Percentage*	*Total*
2005-06					
North East Essex	25	83.3	5	16.7	30
Essex total	121	65.1	65	34.9	186
England	6,420	74.3	2,225	25.7	8,645
England and Wales	6,785	74.2	2,365	25.8	9,150
2006-07					
North East Essex	41	89.1	5	10.9	46
Essex total	156	79.2	41	20.8	197
England	8,636	77.0	2,577	23.0	11,213

2008-09					
North East Essex	45	84.9	8	15.1	53
Essex total	200	84.0	38	16.0	238
England	8,900	82.5	1,887	17.5	10,787
England and Wales	9,306	82.4	1,982	17.6	11,288

INTERNATIONAL DEVELOPMENT

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Secretary of State for International Development how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270522]

Mr. Michael Foster: There are no officials suspended.

The Department for International Development's (DFID) detailed Disciplinary Procedure and Guidance notes are held on the internal website. All staff have access to the website.

Departmental Lost Property

Mr. Hancock: To ask the Secretary of State for International Development whether officials in his Department who have lost laptops that were the property of his Department in the last 12 months have been charged the full value of replacement. [266230]

Mr. Michael Foster: The Department for International Development's policy is that staff are only charged for the cost of replacing laptops if it is established that the member of staff was negligent. No staff have been charged for the cost of a replacement laptop in the last 12 months.

Non-Governmental Organisations

Pete Wishart: To ask the Secretary of State for International Development which non-governmental organisations have received funds from the public purse to conduct aid work in Afghanistan in the last five years; and how much each received. [270472]

Mr. Michael Foster: For security reasons it is not possible to name the individual non-governmental organisations (NGOs) receiving direct funding from the Department for International Development (DFID).

DFID has allocated the following amounts directly to NGOs over the last five years:

Funding provided	£
2004-05	[1]—
2005-06	4,083,540
2006-07	2,592,558
2007-08	3,625,886
2008-09	7,123,535

[1] No direct support to NGOs

Pete Wishart: To ask the Secretary of State for International Development which non-governmental organisations have received funds from the public purse to conduct aid work in Sudan in the last five years; and how much each received. [270475]

Mr. Michael Foster: The Department for International Development (DFID) has indirectly funded non-governmental organisations (NGOs) to carry out development and humanitarian work in Sudan through a number of channels: UN agencies that use NGOs as implementing partners for UN programmes; NGOs with which DFID has agreed Partnership Programme Arrangements; and pooled multilateral funds managed by the UN or World Bank that have disbursed to NGOs. Our total contributions to pooled multilateral funds for 2004-05 and 2008-09 are as follows:

Pooled funding—multilateral	£ million
Common Humanitarian Fund (CHF)	165
Sudan Recovery Fund (SRF)	15
Darfur Community Peace and Stability Fund (DCPSF)	3
Multi Donor Trust Fund (MDTF)	49.6
UN Development Programme Strategic Partnership (SP)	19.7

DFID provides funds directly to NGOs under the Basic Services Fund for South Sudan; for programme delivery such as elections or disarmament, demobilisation and reintegration (DDR) support; and through bilateral partnerships. DFID has funded the following organisations in this way between 2004-05 and 2008-09:

NGO	Total funding received (£ million)
Oxfam GB	14.97
GOAL	11.60
Action Contre le Faim	8.10
International Rescue Committee	7.26
Medecins Sans Frontieres - Holland	6.20
Medecins Sans Frontieres - Belgium	6.16
Tearfund	4.63
Medair	3.98
Solidarites	3.70
Save the Children UK	3.28
Skills for Southern Sudan	3.14
Christian Aid	2.53
Medecins Sans Frontieres - France	2.52

Hope and Homes for Children	0.38
World Relief	0.37
Windle Trust International	0.34
Tufts University	0.28
Together for Sudan	0.27
Saferworld	0.24
AMA	0.19
Islamic Relief	0.19
Centre for Police Research and Dialogue	0.17
EISA	0.16
Redress Trust	0.13
Action Africa	0.13
Total	[1]113.3

[1] Including following grants
Mothers for Peace, Ahfad University, the Small Arms Survey, Justice Africa, Sudan Production Aid, Padak Fisheries Training Centre, Loka Women's Association, the Africa Partnership Aid for Rehabilitation and Development, Al Asala Women's Association, Veterinaires Sans Frontieres, Rift Valley Institute, Friends for Africa International, Diocese of Rumbek, CMS Ireland, Valid International, Information Technology Development Group (now Practical Action), Carter Centre, Echo Bravo - Education Base, Save the Children Sweden, Overseas Development Institute and Catholic Relief Services have each received grants of £100,000 or less.

Overseas Aid

Mr. Moore: To ask the Secretary of State for International Development what assessment his Department has made of the effect on the *(a)* volume and *(b)* value of remittance flows to (i) Nigeria, (ii) Bangladesh and (iii) Ghana of the remittance country partnerships established with those countries; and if he will make a statement. [270900]

Mr. Michael Foster: The Bangladesh Partnership, led by the Bangladesh Central Bank, has improved payment systems throughout the banking system, promoted innovations in remittances and promoted better understanding of migrants' needs on remittance transmission channels. The Partnership has created incentives to use formal channels for transferring remittances rather than the informal 'hundi' system.

The Ghanaian Partnership is now in its final design stage after an extensive consultation process with the Government. Discussions are still underway on a Nigerian partnership. In the meantime, the Department for International Development (DFID) supports 'Enhancing Financial Innovation and Access' (EFInA): an organisation that works with the Nigerian Government to address the regulatory challenges facing payment systems. This should improve the flow of formal remittances.

DUCHY OF LANCASTER

Business

Mike Penning: To ask the Chancellor of the Duchy of Lancaster how many people have been employed in the small business sector in *(a)* Hemel Hempstead, *(b)* Hertfordshire and *(c)* England in each year since 1997. [270378]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 28 April 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many people have been employed in the small business sector in (a) Hemel Hempstead, (b) Hertfordshire and (c) England in each year since 1997. (270378)

Table 1 shows the number of employees within the size-band 0-49 employees from 1998 to 2007. Figures for 1997 are not available.

Table 1: Number of employees in the employee size-band 0-49

Period	*Hemel Hempstead*	*Hertfordshire*	*England*
1998	20,500	225,500	9,711,400
1999	20,400	216,400	9,844,200
2000	21,600	231,600	10,059,300
2001	21,300	226,800	10,089,800
2002	20,600	224,700	10,154,300
2003	19,900	229,500	10,102,200
2004	19,900	229,200	10,131,900
2005	20,100	233,500	10,379,000
2006	19,300	224,100	10,251,800
2007	20,100	230,200	10,325,800

[1] Estimates for 2005 and earlier periods are on a different basis to those from 2006 onwards. A preliminary assessment of changes in survey methodology suggests that the estimated total number of employees (for GB at the whole economy level) was reduced by around 1 per cent. Direct comparisons of employee estimates over these different periods should therefore be treated with caution.

Source:

Annual Business Inquiry

Business: Cleveland

Dr. Kumar: To ask the Chancellor of the Duchy of Lancaster how many businesses have entered into administration in Middlesbrough South and East Cleveland constituency in each of the last 12 months. [271345]

Mr. McFadden: I have been asked to reply.

There were 4,820 administrations (Enterprise Act 2002) in England and Wales in 2008. Statistics covering business administration are not currently available on a regional basis within England and Wales.

Charities: Sports

Hugh Robertson: To ask the Chancellor of the Duchy of Lancaster when the Charity Commission plans to update its Guidance for charitable status and sport booklet R11. [271739]

Kevin Brennan: The information requested falls within the responsibility of the Charity Commission. I have asked the Commission to reply.

Letter from Andrew Hind, dated April 2009:

As the Chief Executive of the Charity Commission, I have been asked to respond to your Parliamentary Question asking when the Charity Commission plans to update its Guidance on charitable status and sport, booklet RR11.

The Commission's current work programme has RR11 scheduled for revision and publication by summer 2010.

I hope this is helpful.

Elderly

David Howarth: To ask the Chancellor of the Duchy of Lancaster what recent estimate he has made of the number of people likely to reach the state pension age before 6 April 2010. [270778]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell:

As National Statistician I have been asked to reply to your question asking what recent estimate has been made of the number of people likely to reach the state pension age between now and 6 April 2010. [270778]

The number people projected to reach state pension age in the United Kingdom between 22 April 2009 and 6 April 2010 is 660 thousand.

This estimate is derived from the 2006-based national population projections for the United Kingdom, published in October 2007.

Members: Correspondence

Mr. Steen: To ask the Chancellor of the Duchy of Lancaster when he plans to reply to the letter from the hon. Member for Totnes of 25 February 2009 asking for a meeting of voluntary organisations involved in human trafficking to discuss headquarter grants from the Voluntary Service Unit. [264789]

Kevin Brennan *[holding answer 19 March 2009]:* A response has been sent to the hon. Member.

Personal Income: Milton Keynes

Mr. Lancaster: To ask the Chancellor of the Duchy of Lancaster how many people resident in North East Milton Keynes constituency earn over *(a)* £100,000 and *(b)* £150,000 per annum. [271190]

Mr. Timms: I have been asked to reply.

Detailed information on the distribution of incomes for each parliamentary constituency is not available due to small sample sizes at this level of geography.

Available information on incomes by parliamentary constituency based on the latest available Survey of Personal Incomes (2006-07) can be found in table 3.15 "Income and tax by Parliamentary Constituency" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu.htm

Statistics: Tourism

Mr. Hunt: To ask the Chancellor of the Duchy of Lancaster (1) when the decision was taken to delay the publication of statistics on foreign visitor numbers to the UK for the first quarter of 2009; [271611]

(2) whether any changes have been made to the methodology of the International Passenger Survey for 2009; [271795]

(3) when his Department plans to publish international passenger survey statistics on foreign visitor numbers to the UK for the first quarter of 2009. [271612]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply to the hon. Member. A copy of their response will be placed in the Library.

TRANSPORT

Airports: Repairs and Maintenance

Mr. Jim Cunningham: To ask the Secretary of State for Transport what major improvements have been made to the UK's airport infrastructure in the last 12 months. [271477]

Jim Fitzpatrick: The Government support the sustainable development of airport infrastructure needed to serve the interests of air transport users and the wider UK economy. Within this policy framework, airport operators deliver infrastructure improvements. Over the last 12 months, there have been numerous infrastructure improvements at airports across the UK ranging from enhanced surface access links and terminal facilities to runway resurfacing. Details of all of these are generally available on the websites of individual airports.

Biofuels

Simon Hughes: To ask the Secretary of State for Transport what steps his Department plans to take to incentivise the use of recycled biofuel waste from road transport. [270823]

Jim Fitzpatrick *[holding answer 24 April 2009]:* Under the Renewable Transport Fuel Obligation suppliers of fossil fuel for transport are required to ensure that a proportion of the fuel they supply is renewable. In the first nine months of the scheme which began in April 2008 approximately 3 per cent. of the biofuel supplied was from recycled waste cooking oil.

In January 2009 £27 million of public-private investment was made into the BBSRC Sustainable Bioenergy Centre which will include in its research programme biofuels made from waste. Under the renewable energy directive the use of biofuels produced from waste will be further incentivised as these will count as double towards meeting the target of 10 per cent. renewable energy in transport by 2020.

Bus Services: Concessions

Mrs. Spelman: To ask the Secretary of State for Transport how many local authorities have informed his Department that the cost of providing concessionary bus fares under the national scheme was greater than the funding provided to them for that purpose by central Government in 2008-09. [270124]

Paul Clark: I am aware of the concerns of some local authorities regarding the allocation of concessionary travel special grant funding. Around 30 authorities, out of a total of nearly 300, have written to the Department for Transport to express their concerns. However, the bulk of funding for concessionary travel is not delivered by special grant, but through the formula grant process.

The Government are confident that sufficient funding is available, in total, to fund statutory concessionary travel. Some authorities' analysis of their own funding arrangements can also misrepresent the true picture. Funding for concessionary travel is not separately identified within formula grant, so it is not possible to identify how much authorities receive specifically for providing concessionary travel. It is also the responsibility of authorities to ensure that operators are truly left no better and no worse off as a result of concessionary travel. Authorities should consider whether the new England-wide concession means that their existing reimbursement arrangements need to be reviewed.

David Howarth: To ask the Secretary of State for Transport which local authorities in England have withdrawn *(a)* companion bus passes for those accompanying (i) deafblind and (ii) other disabled people and *(b)* peak travel entitlement since 1 April 2009. [270780]

Paul Clark: It is not known which local authorities in England have withdrawn companion passes or concessionary travel at peak times since 1 April 2009. The Government are responsible for the statutory minimum concession that all travel concession authorities (TCAs) are required to provide. TCAs have discretion to enhance their concessionary travel schemes at their own expense. These can give residents concessionary travel beyond the statutory times or extend eligibility to other groups of people such as companions. Any decision to change these discretionary elements is entirely a matter for individual TCAs.

The Department for Transport undertakes a biennial survey of TCAs, asking for details of their concessionary bus fares schemes for older and disabled people. The most recent results, to 30 June 2008, are published in Chapter 4 of the Public Transport Statistics Bulletin GB: 2008 edition. A copy is in the Library of the House.

Car Sharing

Norman Baker: To ask the Secretary of State for Transport (1) what steps he is taking to encourage car sharing; [270969]

(2) what estimate he has made of *(a)* the savings in carbon dioxide emissions attributable to car sharing in the last year for which figures are available and *(b)* the potential future annual savings attributable to car sharing. [270970]

Paul Clark: The Department for Transport promotes car sharing as one of a range of measures known collectively as 'smarter choices' or as part of a workplace or other travel plans. They are aimed at helping people travel in a more environmentally friendly way. In addition, the travel information service Transport Direct provides links to car sharing organisations and car clubs. The

Department has also recently provided funding to Carplus so that it can continue to promote, develop and support car clubs and developed its car sharing website elements to support the promotion of car sharing. High occupancy vehicle (HOV) lanes are being trialled on the M606/62.

Because smarter choices relies on a package of measures, it is hard to disaggregate which measure produce which results, and the department does not currently produce either of the carbon dioxide estimates requested.

Departmental Pay

Norman Baker: To ask the Secretary of State for Transport how many civil servants in his Department received bonus payment in financial year *(a)* 2008-09, *(b)* 1997-98 and *(c)* 2002-03; how much was paid in bonuses in each of these years; and what percentage of his Department's civil servants received bonuses in each of these years. [270997]

Mr. Hoon *[holding answer 24 April 2009]:* The Department for Transport comprises a central Department plus seven executive agencies each with its own pay and reward system. Information regarding bonus payments has been collected from the central department and its agencies and collated into one set of figures.

The number of Civil Servants in DFT to receive a non-consolidated performance payment in 2008-09 was 13,471 which is 68 per cent. of staff. The total amount paid was £11,267,771, an average payment of £836.

DFT was created in 2003 therefore there are no figures for 1997-98 and 2002-03.

Parking: Nottingham

Norman Baker: To ask the Secretary of State for Transport when he expects to announce a decision on the proposal for a workplace parking levy in Nottingham; and what criteria will apply in reaching that decision. [271521]

Paul Clark: An announcement of the decision on Nottingham city council's workplace parking order, and the reasons for it will be made as soon as possible.

Ports: Repairs and Maintenance

Mr. Jim Cunningham: To ask the Secretary of State for Transport what major improvements have been made to the UK's ports in the last 12 months. [271478]

Jim Fitzpatrick: The Government support the sustainable development of ports to meet the needs of port users and the wider economy. The diverse and competitive ports sector in the UK undertakes infrastructure improvements according to market conditions. The ports sector has successfully maintained a consistent share of handling 95 per cent. of UK goods in international trade by volume in competition with other modes of transport. Details of improvements undertaken at ports in the UK are generally available on the websites of individual ports.

Public Transport: Greater Manchester

Norman Baker: To ask the Secretary of State for Transport what his policy is on the provision of funding by the Transport Innovation Fund previously available for proposals to develop public transport strategy in Manchester in light of the recent decision by Greater Manchester authorities not to proceed with the proposed congestion zone. [271520]

Paul Clark: The Department for Transport will continue to engage with local authorities who seek to bring forward packages of transport measures to tackle local congestion problems in line with the Transport Innovation Fund criteria.

Railway Stations

Mr. Dai Davies: To ask the Secretary of State for Transport what plans his Department has to upgrade facilities at railway stations in the next 12 months. [270772]

Paul Clark: 2009-10 is the first year of implementation of the National Stations Improvement programme. Under this programme, the Government are providing £150 million over five years for the modernisation of around 150 stations. The programme is being led by Network Rail.

The Access for All programme is continuing to install obstacle free, accessible routes into priority stations. 145 stations have been identified for enhancement through to 2015. 24 sites are now finished and Network Rail expect to complete a further 20 during 2009-10. In addition, the Access for All Small Schemes programme has awarded funding of £6.2 million towards a variety of access improvements with a total value of around £37 million at over 500 stations during this financial year.

In addition, Reading station is being re-developed. This is a five year project with a total value of around £800 million and will increase capacity and improve performance on a key railway junction on the Great Western main line. Planning consent is underway and when achieved, enabling works will commence, scheduled for the beginning of 2010.

At Birmingham New Street station the Department for Transport is providing a significant contribution to the £600 million gateway scheme to redevelop this station. Work is scheduled to begin later in 2009 and will deliver significant improvement in passenger handling capacity, access, facilities and environment.

Railways: Electrification

Norman Baker: To ask the Secretary of State for Transport how many miles of railway track have been electrified since 1997; and what percentage of the network this constitutes. [271036]

Paul Clark: Between 1996-97 and 2007-08 approximately 46 route miles were electrified, accounting for about 0.5 per cent. of the GB network that is open to passenger traffic. Electrification schemes completed during this period include Heathrow Express and Crewe to Kidsgrove. Rail electrification in Scotland is a devolved matter for the Scottish Executive.

Source:

Table 6.1, Transport Statistics Great Britain 2008

Railways: Safety

Mr. Gray: To ask the Secretary of State for Transport what recent reports he has received on the safety of doors on high-speed trains operated by First Great Western. [270368]

Paul Clark: The Office of Rail Regulation (the independent rail safety regulator), has received the information in the following table on the safety of doors on high speed trains operated by First Great Western.

First Great Western (FGW) door incidents

Date	*Unit*	*Location*	*Details*
7 February 2008	HST	Taunton	Train brought to emergency stop two miles from Taunton after customer host discovered open door in coach H. Failure by dispatcher.
12 February 2008	HST	Bodmin Parkway	Train brought to emergency stop approximately three miles from Bodmin after passenger discovered open door in coach B. Train dispatched by guard only, without dispatcher present.
14 February 2008	HST	Camborne	Train brought to emergency stop by train manager as door in coach C opened on departure.
19 May 2008	HST	Exeter St. Thomas	Train brought to emergency stop by train manager as door opened on departure and struck infrastructure.
30 October 2008	HST	Hamstead	Train brought to emergency stop as train door open. Human error—dispatched from Newbury while dispatcher distracted by threat of violence from youths on platform. Dispatcher advised.
15 March 2009	HST	Evesham	Train dispatched with door not closed on departure from Honeybourne.

Selective Door Operation (SDO), which is operated by the train manager and which prevents doors not at platforms from opening, has now been fitted to the whole First Great Western (FGW) HST fleet as part of the refurbishment undertaken since the beginning of the new FGW franchise.

Following the change in FGW's selective door opening policy in relation to short platforms, there was a spate of door incidents in early 2008. The Rail Accident Investigation Branch (RAIB) reviewed the industry's investigations into these incidents—including the changes that FGW made to its selective door opening policy to deal with these incidents (including the one of May 2008).

The RAIB review concluded that no further investigation by RAIB was necessary at this time, but it would keep the situation under review. Following the changes made by FGW, there have been two subsequent incidents. The RAIB considered both of these and their particular circumstances. One clearly was due to specific distraction, and for the other RAIB is still ascertaining the circumstances and the action proposed by FGW as part of our ongoing monitoring. The RAIB is not aware of any door opening incidents on HSTs operated by other train operators over the last year, but continues to monitor Network Rail's daily log for reports of door incidents.

Speed Limits: Castle Point

Bob Spink: To ask the Secretary of State for Transport if he will make it his policy to improve signs alerting motorists to speed limits and average speed cameras on the A130 Canvey Way in Castle Point. [269871]

Jim Fitzpatrick: Signing is the responsibility of local traffic authorities. The Department for Transport's guidance on the use of speed cameras stipulates that drivers should be warned of the presence of cameras and reminded of the speed limit through signing. The guidance states that camera housings should be yellow and recommends that camera signs should be co-located with speed limit signs where permitted and practicable. In addition, all speed limit signing must be lawful and correct and in accordance with the traffic signs regulations and general directions (TSRGD) in order for speed limits to be enforced. The guidance has been placed in the Library of the House and is also available on the Department's website.

Transport: Bournemouth

Mr. Ellwood: To ask the Secretary of State for Transport what major transport infrastructure projects have been undertaken in the Bournemouth area in the last five years. [270890]

Paul Clark: Following the decision in 2005 to give regions a greater role in determining priorities for major transport schemes with indicative allocations, the Government announced in July 2006 plans to fund a programme of major transport schemes in the period to 2015-16. The programme includes the Poole Bridge Regeneration Initiative which is subject to major scheme approval by the Department for Transport. No other major transport scheme proposals in the Bournemouth area have been received by the Department in the last five years.

It is for the South East Dorset authorities (Bournemouth, Poole and Christchurch) to determine how capital allocations for integrated transport and highways maintenance are utilised and whether to put forward major transport scheme proposals.

We have made the following capital allocations to the South East Dorset authorities in the five years to 2008-09:

South East Dorset (Bournemouth, Poole, Christchurch)

£000

	2004-5	*2005-6*	*2006-7*	*2007-8*	*2008-9*	*Total*
Integrated Transport	3,052	3,066	3,032	4,050	3,299	16,499
Maintenance	3,247	2,699	5,757	2,321	2,366	16,390
Total	6,299	5,765	8,789	6,371	5,665	32,889

TREASURY

Financial Recovery

9. **Mr. Holloway:** To ask the Chancellor of the Exchequer what his latest estimate is of the likely duration of the recession. [271134]

Yvette Cooper: The Government set out their forecast in paragraph B.59 in the Budget.

Fiscal Rules

10. **Mr. Goodwill:** To ask the Chancellor of the Exchequer what his plans are for the future of the Government's fiscal rules. [271135]

Yvette Cooper: I refer the hon. Gentleman to the answer I gave the hon. Member for Henley (John Howell) on the Floor of the House today.

Government Borrowing

11. **Mr. Newmark:** To ask the Chancellor of the Exchequer what assessment he has made of the level of UK Government borrowing compared with those in other OECD economies. [271136]

Angela Eagle: Global economic developments will have a profound effect on the fiscal positions of most countries. The OECD published its Interim Economic Outlook on 31 March 2009, which forecast the UK deficit to be 9.3 per cent. of GDP in 2009.

Bank Lending

12. **Rob Marris:** To ask the Chancellor of the Exchequer what representations he has received on the likely effects on levels of bank lending of the measures proposed in his Budget statement. [271137]

Mr. Timms: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

The Bank of England will publish a monthly report on 'Trends in Lending'. The first report in this series was published on 21 April.

16. **Mr. Bone:** To ask the Chancellor of the Exchequer what assessment he has made of the lending practices of banks in receipt of support from public funds. [271141]

Ian Pearson: RBS and Lloyds Banking Group have entered into legally binding agreements to increase the amount of lending they provide to home owners and businesses. The Government will monitor these arrangements and report to Parliament annually.

20. **Mr. Flello:** To ask the Chancellor of the Exchequer what representations he has received on the likely effects on levels of bank lending of the measures proposed in his Budget statement. [271145]

Mr. Timms: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

The first monthly report on "Trends in lending" was published by the Bank of England on 21 April.

Savings

13. **Mr. Swire:** To ask the Chancellor of the Exchequer what steps he is taking to protect savers from the effects of low interest rates. [271138]

Ian Pearson: The Government recognise the importance of saving in providing people with independence throughout their lives, security if things go wrong and comfort in retirement. Budget 2009 announced that the annual ISA investment limits will rise to £10,200, up to £5,100 of which can be held in cash, from April 2010. These new limits will apply from October 2009 for people aged 50 and over.

18. **Sir Nicholas Winterton:** To ask the Chancellor of the Exchequer what steps his Department is taking to assist savers. [271143]

Ian Pearson: The Government recognise the importance of saving in providing people with independence throughout their lives, security if things go wrong and comfort in retirement. Budget 2009 announced that the annual ISA investment limits will rise to £10,200, up to £5,100 of which can be held in cash, from April 2010. And these new limits will apply from October 2009 for people aged 50 and over.

The Government also announced an extra £100 per year to the Child Trust Funds of disabled children, with £200 per year to severely disabled children.

In addition, the Saving Gateway will be introduced nationally in 2010 to encourage saving among working age people on lower incomes.

Money Flow

14. **Ms Keeble:** To ask the Chancellor of the Exchequer what recent assessment he has made of the effectiveness of steps taken to increase the flow of money in the economy. [271139]

Yvette Cooper: The Budget assessment is that it will take time to fully restore the effective functioning of financial markets. The Government have taken a number of steps to increase lending and confidence. Under the Asset Protection Scheme, RBS and Lloyds will lend an additional £39 billion in the year from March.

Business Confidence

15. **Jim Dobbin:** To ask the Chancellor of the Exchequer what representations he has received on the likely effects on levels of business confidence of the measures proposed in his Budget statement. [271140]

Angela Eagle: The Chancellor received a number of representations from a variety of organisations before the Budget statement on 22 April. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

25. **Anne Snelgrove:** To ask the Chancellor of the Exchequer what representations he has received on the likely effects on levels of business confidence of the measures proposed in his Budget statement. [271150]

Angela Eagle: The Chancellor received a number of representations from a variety of organisations before the Budget statement on Wednesday 22 April. As was the case with previous administrations, it is not the Government's practice to provide details of all such representations.

Budget

17. **Mr. Bellingham:** To ask the Chancellor of the Exchequer what representations he has received on the effects on the economy of the measures proposed in his Budget statement. [271142]

Angela Eagle: The Chancellor received a number of representations from a variety of organisations before the Budget statement on 22 April. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Tax and Public Spending

19. **Anne Main:** To ask the Chancellor of the Exchequer what assessment he has made of the effect on the economy of his proposed tax and public spending changes for 2010-11 and 2011-12; and if he will make a statement. [271144]

Yvette Cooper: The Government set out their latest assessment of economic prospects in the Budget, taking account of all relevant factors.

21. **Mr. Stewart Jackson:** To ask the Chancellor of the Exchequer what assessment he has made of the effect on the economy of his proposed tax and public spending changes for 2010-11 and 2011-12; and if he will make a statement. [271146]

Yvette Cooper: The Government set out its latest assessment of economic prospects in the Budget, taking account of all relevant factors.

World Bank Fund

22. **Dr. Pugh:** To ask the Chancellor of the Exchequer what commitments the Government made to the World Bank fund for the world's poorest countries at the G20 summit. [271147]

Ian Pearson: The UK's contribution to the 15th replenishment of the International Development Association will be £2.134 billion for the three years 2008-09-2010-11.

The London summit of G20 leaders set out a clear plan for assisting the poorest countries through the global crisis. Leaders reaffirmed their commitment to meeting the Millennium Development Goals and achieving Official Development Assistance pledges; made $50 billion available to low income countries—this includes the World Bank Rapid Social Response Fund to which the UK is contributing £200 million; agreed the IMF should double concessional lending access limits and capacity to increase support to low income countries; agreed to review the flexibility of the Debt Sustainability Framework; and called on the UN to establish a mechanism to monitor the impact of the crisis on the poor.

Employment

23. **Mr. Jenkins:** To ask the Chancellor of the Exchequer what representations he has received on the likely effects on levels of employment of the measures proposed in his Budget statement. [271148]

Mr. Timms: Treasury Ministers and officials receive representations from a wide variety of organisations in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations. Taken together, the total policy support for the UK economy since last October is expected to support up to half a million jobs.

Public Sector Debt

24. **Mr. Harper:** To ask the Chancellor of the Exchequer what estimate he has made of the level of public sector net debt per household in each of the next three years. [271149]

Yvette Cooper: The Government set out their fiscal projections in the Budget report 2009.

Members: Correspondence

Sir Gerald Kaufman: To ask the Chancellor of the Exchequer when he plans to reply to the letter of 5 March 2009 from the right hon. Member for Manchester, Gorton, on Sarah Louise Harold. [271021]

Mr. Timms: I replied to my right hon. Friend on 27 April.

National Income

Grant Shapps: To ask the Chancellor of the Exchequer (1) what proportion of gross domestic product composed housing sector receipts in each year since 1997; [271584]

(2) what estimate his Department has made of revenue in each category of housing sector receipt in each of the next three years; [271585]

(3) how much housing sector receipts were as a percentage of all taxation receipts in each year since 1997. [271586]

Ian Pearson: Box C3 in Budget 2009 provides details of housing and financial sector receipts as a percentage of GDP. Taxes such as capital gains tax and inheritance tax will reflect both housing and financial assets. Stamp duty will reflect shares, housing and commercial property.

Outturn data for stamp duty, capital gains tax and inheritance tax are available at:

http://www.hmrc.gov.uk/stats/tax_receipts/table1-2.pdf

and

http://www.hmrc.gov.uk/stats/tax_receipts/1_2_v2_dec05.pdf

Table 2.9 in Budget 2009: the economy and public finances—supplementary material provides projections for stamp duty, inheritance tax and capital gains tax up to 2013-14. This is available at:

http://www.hm-treasury.gov.uk/d/Budget2009/bud09_econfinances_968.pdf

Total taxation receipts are available in Table C1 of the Public Finances Databank:

http://www.hm-treasury.gov.uk/d/public_finances_databank.xls

Public Expenditure

Mr. Clifton-Brown: To ask the Chancellor of the Exchequer when he expects disbursement of funds from the £3 billion fiscal package for infrastructure to commence; and what types of infrastructure he expects to be supported by such funds. [270790]

Ian Pearson: I refer the hon. Member to the answer provided to the hon. Member for Blaenau Gwent (Mr. Davies) on 26 March 2009, *Official Report*, columns 633-34W.

Taxation

Hugh Robertson: To ask the Chancellor of the Exchequer what estimate he has made of the amount which accrued to the Exchequer from tax on *(a)* income from sponsorship, *(b)* income from endorsements and *(c)* other income earned by overseas sports people competing in the UK. [271741]

Mr. Timms: No estimates have been made and HMRC cannot extract the information requested from the data it holds.

HEALTH

Cancer: Mental Health Services

Mr. Todd: To ask the Secretary of State for Health whether the guidance provided by the National Institute for Health and Clinical Excellence on the provision of psychosexual support to cancer patients has been implemented. [271654]

Ann Keen: Recommendations on the provision of psychosexual support for cancer patients are set out in the National Institute for Health and Clinical Excellence guidance on supportive and palliative care, published in 2004.

Plans for the implementation of this guidance are now in place in every cancer network. The guidance is expected to be fully implemented by December 2009.

Carbon Monoxide: Departmental Coordination

Mike Penning: To ask the Secretary of State for Health when the last interdepartmental meeting at which issues relating to carbon monoxide were discussed and attended by members of his Department was held; and if he will make a statement. [270352]

Dawn Primarolo: The most recent meeting of the Health and Safety Executive-led Officials Group on Gas Safety and Carbon Monoxide Awareness was held on 5 September 2007 and was attended by departmental officials.

Chernobyl

Mr. Dai Davies: To ask the Secretary of State for Health how many farms now have restrictions on land use as a result of the radioactive fallout from the Chernobyl accident in April 1986; what area of land is affected; and what evaluation he has made of the effect on the rural economy of these restrictions. [271796]

Dawn Primarolo: We have been advised by the Food Standards Agency that restrictions on land use as a result of the Chernobyl accident relate to sheep farming only. There are 369 farms, or part farms, and approximately 190,000 sheep within the restricted areas of England, Scotland and Wales. This represents a reduction of over 95 per cent. since 1986, when approximately 9,700 farms and 4,225,000 sheep were under restriction across the United Kingdom. All restrictions in Northern Ireland were lifted in 2000.

The Food Standards Agency has not evaluated the effect of these restrictions on the rural economy.

	Number of farms under restriction	*Approximate number of sheep*	*Approximate land area (hectare)*
Wales	355	180,000	53,000
England	9	7,000	12,000
Scotland	5	3,000	7,000
Northern Ireland	0	0	0
Total	369	190,000	72,000

Departmental Aviation

Mr. Amess: To ask the Secretary of State for Health how many officials from his Department of each *(a)* grade and *(b)* directorate have flown by British Airways on official business in each of the last five years; what the (i) destination and (ii) cost of the ticket was in each case; what his policy is on the use of British Airways by his Department's officials; and if he will make a statement. [270464]

Mr. Bradshaw: Travel by civil servants is undertaken in accordance with the "Civil Service Management Code". The Department does not have a policy on the use of British Airways.

The details of air travel on British Airways by officials are not easily available and could be obtained only at disproportionate cost.

Departmental Freedom of Information

Mr. Amess: To ask the Secretary of State for Health with reference to the answers of 1 July 2008, *Official Report*, column 862W and 1 September 2008, *Official Report*, column 1675W, on departmental freedom of information, if he will place in the Library a copy of the information provided on each topic in respect of which the request was *(a)* agreed to and answered in full and *(b)* agreed to and answered in part since July 2008; and if he will make a statement. [270463]

Dawn Primarolo: The information requested has been placed in the Library.

Eczema

Dr. Kumar: To ask the Secretary of State for Health (1) how many people were diagnosed with eczema in *(a)* England, *(b)* the North East, *(c)* Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency in each of the last 10 years; [271343]

(2) how much his Department spent on *(a)* the treatment of and *(b)* research into eczema in each of the last 10 years. [271344]

Ann Keen: Information on the number of people diagnosed with eczema and the cost of their treatment is not collected.

Investment in eczema research in the 10 years from 1998-99 has been undertaken by the National Institute for Health Research health technology assessment programme, and has been as follows:

	£
1998-99	169,221
1999-2000	169,997
2000-01	192,495
2002-03	55,776
2006-07	129,736
2007-08	273,912

The Medical Research Council (MRC) is one of the main agencies though which the Government support medical and clinical research. The MRC is an independent body funded by the Department for Innovation, Universities and Skills. In the last 10 years, the MRC has funded three research projects specifically relating to eczema at a total cost of £2.2 million. The MRC also funds a broad portfolio of research relevant to dermatology and skin disorders (amounting to around £2.8 million in 2007-08) some of which may benefit sufferers of eczema in the future.

Electricity: Health Hazards

Lembit Öpik: To ask the Secretary of State for Health what research his Department has *(a)* commissioned, *(b)* undertaken and *(c)* evaluated on the effects of electro-magnetic fields on (i) public health, (ii) the health of those under the age of 18 and (iii) the health of the elderly population in the last 10 years; and if he will make a statement. [270784]

Dawn Primarolo: The Department has commissioned, either directly or through the Health Protection Agency (HPA), research on the effects of electromagnetic fields (EMF) in the following areas:

exposure to radiofrequency fields including from mobile phones, base stations, terrestrial trunked radio (TETRA) and WiFi;

studies to examine the potential cellular and behavioural effects of radiofrequency fields;

measurement of exposures to power frequency fields for population studies;

laboratory studies of the effects of power frequency fields on cells; and

development of realistic three dimensional (voxel) models for male, female, and pregnant female, to allow assessment of exposures from electromagnetic field sources at various frequencies.

The Department's Radiation Protection Research (RPR) programme mainly covers ionising radiation research topics, but it also includes research on EMF. Information on the current RPR programme research strategy and research projects can be found on the Department's website at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_082096

A copy has been placed in the Library.

The independently managed Mobile Telecommunications and Health Research (MTHR) programme, jointly funded by Government and industry has supported a number of studies into the possible health effects of radiofrequency technology relating both to base stations and hand-held mobile phones. The MTHR programme published its first report in September 2007. None of the 23 individual studies reported under this programme to date demonstrates that biological or adverse health effects are produced by radiofrequency exposure from mobile phones or base stations. Ongoing studies include a case control study of cancer incidence in early childhood and proximity to mobile phone base stations.

The MTHR programme management committee recognised that some concerns still remain and proposed a further programme of work. Three studies in this second phase are under way. Details of all MTHR projects can be found on the MTHR website at:

www.mthr.org.uk

The Department additionally has provided an annual contribution to the World Health Organisation International Electromagnetic Fields Project since its inception in 1996. Information on this project can be found at:

http://www.who.int/peh-emf/project/en/

The Department has not commissioned any research specifically on the effects of EMF on the health of elderly people.

The HPA's Radiation Protection Division keeps the relevant research publications under continual review largely through its Advisory Group on Non-ionising Radiation and provides advice on electromagnetic fields and health to Government and the general public at:

www.hpa.org.uk/

Fertility: Medical Treatments

Lynda Waltho: To ask the Secretary of State for Health how many primary care trusts restrict access to fertility services if a person or their partner has a child from a current relationship or any previous relationship. [270649]

Dawn Primarolo: Most primary care trusts (PCTs) do not commission fertility services for couples who already have a child together. Approximately 40 per cent. of PCTs will not fund fertility services if either partner has a child from a previous relationship, whereas about 30 per cent. of PCTs require at least one of the partners to be childless in order to be eligible. The remaining PCTs have differing eligibility criteria, for example whether there are any children under a certain age living with the couple. We have funded the leading fertility patient support group, Infertility Network UK, to draw up standardised access criteria as a guideline to help PCTs in working towards more equitable provision, and this is in progress.

Lynda Waltho: To ask the Secretary of State for Health how many primary care trusts funded only one fresh cycle of IVF in 2008. [270658]

Dawn Primarolo: Approximately 33 primary care trusts (PCTs) commissioned one fresh cycle of in vitro fertilisation in 2008. From April 2009 12 of these PCTs have increased the amount commissioned and 18 are considering increases.

David Taylor: To ask the Secretary of State for Health in which NHS Trusts in vitro fertilisation treatment is provided. [271232]

Dawn Primarolo: Good progress is being made in the commissioning of in vitro fertilisation treatment by primary care trusts (PCTs). All provide this treatment, though North Staffordshire PCT considers exceptional cases rather than routinely commissioning services and North Yorkshire and York provides treatment for women within a very limited age range. This compares favourably with non-provision by 14 PCTs in 2006.

Genito-urinary Medicine

Anne Milton: To ask the Secretary of State for Health if he will list the genito-urinary medicine clinics in England. [271723]

Dawn Primarolo: The organisations submitting data on the Department's genito-urinary medicine access monthly monitoring return are shown as follows.

Organisations submitting data on the Department of Health Genito-Urinary Medicine Access Monthly Monitoring (GUMAMM) return, February 2009

Gonorrhoea

Norman Lamb: To ask the Secretary of State for Health how many marsupialisation operations have been performed to treat bartholinitis caused by neisseria gonorrhoeae infection in NHS trusts in England in each of the last five years. [271233]

Dawn Primarolo: Data for finished consultant episodes where the main procedure was marsupialisation operations performed for Bartholinitis and the primary diagnosis was Neisseria gonorrhoeae in England for the years 2003-04 to 2007-08 are given in the following table.

	Number
2007-08	1
2006-07	2
2005-06	4
2004-05	2
2003-04	0

Notes:

Ungrossed data Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed). Finished consultant episode A finished consultant episode (FCE) is defined as a continuous period of admitted patient care under one consultant within one health care provider. FCEs are counted against the year in which they end. The figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year. *Primary diagnosis* The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was admitted to hospital. ICD 10 code used: A54.1—Gonococcal infection of lower genitourinary tract without periurethral and accessory gland abscess. *Main procedure* The main procedure is the first recorded procedure or intervention in the HES data set and is usually the most resource intensive procedure or intervention performed during the episode. It is appropriate to use main procedure when looking at admission details, (e.g. time waited), but a more complete count of episodes with a particular procedure is obtained by looking at the main and the secondary procedure. OPCS 4.4/4.5 code used: P03.2 Marsupialisation of Bartholin gland. *Changes to coding classifications: OPCS-4* Operative procedure codes were revised for 2006-07 and 2007-08. The 2007-08 data use OPCS 4.4 codes, 2006-07 data use OPCS 4.3 codes, data prior to 2006-07 use OPCS 4.2 codes. All codes that were in OPCS 4.2 remain in later OPCS 4 versions, however the introduction of OPCS 4.3 codes enable the recording of interventions and procedures which were not possible in OPCS 4.2. In particular, OPCS 4.3 and OPCS 4.4 codes include high cost drugs and diagnostic imaging, testing and rehabilitation. Some activity may have been coded under different codes in OPCS 4.2. These changes need to be borne in mind when analysing time series and may explain some apparent variations over time. Care needs to be taken in using the newer codes as some providers of data were unable to start using the new codes at the beginning of each data year. More information about OPCS 4 changes is on the Connecting for Health website (www.connectingforhealth.nhs.uk). *Data quality* HES are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain. *Assessing growth through time* HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in out-patient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time. *Source:* Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

Human Fertilisation and Embryology Act 2008

Mr. Amess: To ask the Secretary of State for Health (1) what *(a)* statutory instruments, *(b)* departmental circulars and *(c)* other documents he has issued since December 2008 consequent on the provisions of the Human Fertilisation and Embryology Act 2008; and if he will make a statement; [271438]

(2) when he expects to bring into force those provisions of the Human Fertilisation and Embryology Act 2008 which are not yet in force; and if he will make a statement. [271439]

Dawn Primarolo: The Human Fertilisation and Embryology Bill received Royal Assent in November 2008 becoming the Human Fertilisation and Embryology Act 2008 (the 2008 Act). The first provisions of the 2008 Act came into force on 6 April 2009. These provisions related to parenthood. The majority of provisions will come into force on 1 October 2009 and it is intended that the remaining provisions (relating to parental orders) will come into force in April 2010.

Since December 2008, there has been one Statutory Instrument issued (the Human Fertilisation and Embryology Act 2008 (Commencement No. 1 and Transitional Provisions) Order 2009. No departmental circulars have been issued but the Department of Health has published a consultation on four sets of regulations, which are required to implement the provisions in the 2008 Act. The consultation closed on 30 March 2009.

Mental Health Services

Anne Milton: To ask the Secretary of State for Health how many people received cognitive behavioural therapy in each of the last five years. [271737]

Phil Hope: This information is not held centrally.

Mental Health: Unemployment

John Battle: To ask the Secretary of State for Health (1) what steps his Department is taking to tackle mental health disorders associated with unemployment; and if he will make a statement; [271189]

(2) what assessment has been made of the link between mental health disorders and rising rates of unemployment; and if he will make a statement. [271191]

Phil Hope: There are clear links between unemployment and poor mental health and well being. That is why in November 2007, my right hon. Friends the Secretary of State for Health and the Secretary of State for the Department of Work and Pensions (DWP) asked Dame Carol Black, National Director for Health and Work, to lead the development of a national strategy for mental health and employment. The strategy will help to ensure a co-ordinated approach across Government to the challenges faced by people of working age with mental conditions and improve their employment prospects. The strategy development is being overseen by representatives from the business, medical and academic worlds and will be published later this year.

Further, on 8 March 2009, my right hon. Friends the Secretary of State for Health and the Secretary of State for Work and Pensions announced an additional £13 million to support a package of measures to help people who are distressed, depressed or anxious as a result of the economic downturn. These measures include a greater provision of talking therapies and a new network of employment support workers.

This extra money will build on the £4 million DWP initiative in which employment advisors are already working in 12 of the 35 new talking therapy services to help people keep their jobs if their mental health has put them at risk.

Missing Persons

Helen Southworth: To ask the Secretary of State for Health what recent progress has been made in the development of information-sharing protocols between NHS hospitals and the police to enable appropriate communications to take place in missing persons investigations. [271338]

Mr. Bradshaw: The Department has for a number of years required national health service trusts to establish protocols for the sharing of confidential patient-identifiable information with other organisations where that need arises. These must be governed by clear and transparent procedures that satisfy the requirements of law and associated guidance, and regulate working practices in both disclosing and receiving organisations.

It is the responsibility of individual NHS organisations to determine which organisations should be included within local protocols and to ensure that information is shared appropriately.

NHS: Statistics

Mr. Lansley: To ask the Secretary of State for Health what items of information are collected centrally from NHS organisations in respect of the critical care minimum dataset. [271183]

Mr. Bradshaw: The items collected centrally through the critical care minimum dataset are as follows:

Critical Care Local Identifier;
Critical Care Start Date;
Critical Care Unit Function;
Advanced Respiratory Support Days (Number);
Basic Respiratory Support Days (Number);
Advanced Cardiovascular Support Days (Number);
Basic Cardiovascular Support Days (Number);
Renal Support Days (Number);
Neurological Support Days (Number);
Dermatological Support Days (Number);
Liver Support Days (Number);
Critical Care Level 2 Days (Number);
Critical Care Level 3 Days (Number); and
Critical Care Discharge Date.

Nurses: Manpower

Mr. Lansley: To ask the Secretary of State for Health how many full-time equivalent nurses in each specialty there were working in the NHS in England in each of the last five years. [271187]

Ann Keen: A table showing the number of full-time equivalent nurse by speciality in the years requested has been placed in the Library.

Dr. Kumar: To ask the Secretary of State for Health what the average ratio of nurses to patients was at each hospital in *(a)* England, *(b)* the North East and *(c)* the Tees Valley in each of the last 10 years. [271347]

Ann Keen: This information is not collected centrally.

Obesity: Children

Hugh Robertson: To ask the Secretary of State for Health how many children were *(a)* overweight and *(b)* obese in the last period for which figures are available. [271740]

Dawn Primarolo: The information requested is not available in the form requested.

Information on the proportion of children aged two to 15 in England that are overweight or obese, broken down by age is collected by the Health Survey for England.

This information can be found in tables 8.2 on page 236 of" Health Survey for England 2007: Volume 1 lifestyles: knowledge, attitudes and behaviour", which was published on 16 December 2008. This publication has been placed in the Library.

Further information on the proportion of children that are overweight or obese in England is also collected through the National Child Measurement Programme (NCMP). The NCMP report provides high-level analyses of the prevalence of overweight and obesity among children, in Reception year (aged four-five years) and Year 6 (aged 10-11 years), measured in England in the school year 2007-08.

This information is available in the "National Child Measurement Programme: 2007/08 school year, headline results" which was published on 11 December 2008. The prevalence of overweight and obesity among children in England is shown in table 1 of the NCMP 2007-08 data tables. This publication has already been placed in the Library.

Obstetrics: Consultants

Anne Milton: To ask the Secretary of State for Health how many obstetric consultants were employed in England in each of the last five years; and how many were employed in each hospital trust in the most recent year for which figures are available. [271403]

Ann Keen: The number of consultant obstetricians employed by the national health service in England in each of the last five years and the numbers by hospital trust in the most recent year for which figures are available are given in a table which has been placed in the Library.

Pharmacy

Mr. Sanders: To ask the Secretary of State for Health how many community pharmacies have *(a)* opened and *(b)* closed in each of the last five years. [270406]

Phil Hope: Information for England and Wales is available in tables 5 and 5a of the bulletin "General Pharmaceutical Services in England and Wales 1998-99 to 2007-08", published by the Information Centre for health and social care.

Copies of the latest bulletin have been placed in the Library and at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/pharmacies/general-pharmaceutical-services-in-england-and-wales-1998-99-to-2007-08

Prescriptions

Helen Southworth: To ask the Secretary of State for Health pursuant to the answer of 26 January 2009, *Official Report*, column 252W, on prescriptions, which primary care trusts have a procedure to report errors relating to the prescribing and supply of drugs to the National Patient Safety Agency. [271447]

Phil Hope: The information is not held centrally. The National Patient Safety Agency encourages the reporting of patient safety incidents which are submitted on a voluntary basis from national health service organisations including primary care trusts.

ENERGY AND CLIMATE CHANGE

Carbon Emissions

Sir Nicholas Winterton: To ask the Secretary of State for Energy and Climate Change if he will review his Department's programme designed to promote energy efficiency to ensure effectiveness. [269514]

Joan Ruddock: We review and evaluate our energy efficiency policies on a continual basis, with the most recent summaries published in the 2006 Climate Change programme, the 2007 Energy White Paper, and the 2007 Energy Efficiency Action Plan. The Heat and Energy Saving Strategy consultation, currently underway, has provided a fresh opportunity to review our strategy. In doing so, our aim is to ensure that our policies are capable of meeting the increased challenges over the next decade, particularly in light of our recently proposed carbon budgets over the period to 2022, and our legally-binding target to cut UK greenhouse gas emissions by 80 per cent. by 2050.

Departmental Assets

Bob Spink: To ask the Secretary of State for Energy and Climate Change when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269859]

Mr. Mike O'Brien: DECC has no land and property holdings and no other surplus assets have been transferred to the Department since formation.

Economic Situation

Grant Shapps: To ask the Secretary of State for Energy and Climate Change pursuant to the answer of 10 March 2009, *Official Report*, column 404W, on the economic situation, which energy and oil ministers attended the meeting hosted by his Department on 18 and 19 December 2008. [271000]

Mr. Mike O'Brien *[holding answer 24 April 2009]*: The following Ministers attended the London Energy Meeting on 18 and 19 December 2008:

Algeria: Dr. Chakib Khelil, Minister for Energy and Mining

Angola: HE Eng Jose Maria Botelho de Vasconcelos, Minister for Petroleum

Australia: The hon. Martin Ferguson AM MP, Minister for Resources and Energy

Azerbaijan: HE Natig Aliev, Minister of Industry aid Energy

Bahrain: HE Abdul Hussain Ali Mirza, Minister for Oil and Gas

Brazil: HE Edison Lobao, Minister for Mines and Energy

Canada: Ms Lisa Raitt MP, Minister of Natural Resources

Germany: Jochen Homann, State Secretary, Federal Ministry of Economics and Technology

India: Shri Marli Deora, Minister for Petroleum and Natural Gas

Iran: HE Gholamhossein Nozari, Minister for Petroleum

Iraq: HE Hussain al-Sharistani, Minister for Petroleum

Italy: Mr. Claudio Scajola, Minister of Economy, Trade and Industry

Japan: Mr. Toshihiro Nikai, Minister of Economy, Trade and Industry

Kuwait: HE Muhammad Abdullah al-Aleem, Minister of Oil

Libya: Dr. Shokri Ghanem, Chairman, National Oil Company of Libya

Nigeria: Dr. Odein Ajumogobia, Minister for Petroleum

Oman: Dr. Mohammad bin Hamad al-Ruhmy, Minister for Petroleum and Gas

Poland: Mr. Waldemar Pawlak, Vice-Premier and Minister for Economy

Qatar: HE Abdullah Bin Hamad al-Attiyah, M:nister of Energy and Industry

Saudi Arabia: HE Ali I al-Naimi, Minister of Petroleum and Mineral Resources

South Africa: Ms Buyelwa Sonjica, Minister of Minerals and Energy

Spain: Mr. PeDr.o Marin, Minister of Energy

The Netherlands: Ms Maria van der Hoeven, Minister of Economic Affairs

UAE: HE Obeid bin Saif al Nasseri, Minister o f Petroleum and Mineral Resources

United Kingdom: The Prime Minister, the Secretary of State for Energy and Climate Change, and the Minister of State, DECC (Mr. Mike O'Brien).

USA: Mr. Jeffrey Kupfer, Deputy Secretary for Energy

Energy: Rural Areas

Mr. Gray: To ask the Secretary of State for Energy and Climate Change how much has been spent by the UK Government on energy-saving measures in rural communities in *(a)* England, *(b)* Scotland and *(c)* Wales in each of the last five years. [258311]

Joan Ruddock: Both Warm Front and Decent Homes provide energy-saving measures to homes in the private and public sectors respectively. The Department for Communities and Local Government, which is responsible for Decent Homes, does not split data by rural and urban areas and therefore this data is not available for this programme.

The figures for Warm Front spend in the past five years are as follows. The data is split in accordance with the Office of National Statistics' definition of rural and urban areas.

£

	Rural	*Urban*
2004-05	12,629,835.18	105,924,222.76
2005-06	17,438,767.99	127,452,054.17

£

	Rural	Urban
2006-07	36,592,126.42	243,362,656.92
2007-08¹	90,821,943.25	313,608,368.82
2008-09 to 28 February¹	57,291,838.28	316,466,440.93

¹ Please note that figures provided for 2007-08 and 2008-09 include spend generated through interaction with energy companies under the Energy Efficiency Commitment and Carbon Emissions Reduction Target respectively. Whilst this is not public expenditure, as it is not recorded on an urban/rural basis it cannot be removed from these data and maintain the distinction between urban and rural assistance. The total value of this spend in each year is as follows:
2007-08 : £44,575,836
2008-09 : £20,217,000

Fuel Poverty is a devolved matter and we are unable to provide data for the Scottish and Welsh administrations.

Fuel Oil: Canada

Mr. Evans: To ask the Secretary of State for Energy and Climate Change what estimate he has made of the percentage of the UK's energy consumption accounted for by fuels sourced from the exploitation of oil sands in Alberta, Canada. [271062]

Mr. Mike O'Brien: It is not possible to identify the region within Canada of oil and oil product imports. In 2007, the latest year for which full data are available, imports of oil and oil products from Canada were equivalent to less than 0.1 per cent. of the UK's primary energy demand.

Members: Correspondence

Sir Gerald Kaufman: To ask the Secretary of State for Energy and Climate Change when he plans to reply to the letter of 10 February 2009 from the right hon. Member for Manchester, Gorton, with regard to Mr T Bannister. [266364]

Mr. Mike O'Brien: I understand the office of my right hon. Friend has now had a response.

Nuclear Power Stations

Mr. Weir: To ask the Secretary of State for Energy and Climate Change what representations the Government have received from *(a)* EDF, *(b)* E.ON, *(c)* RWE and *(d)* the Nuclear Decommissioning Authority on the nomination of sites for new nuclear power stations. [270464]

Mr. Mike O'Brien: The Government have conducted two consultations on the SSA process. We consulted on the principle of conducting the SSA process in 2007 and then on the detail of the process in 2008. We received consultation responses from energy companies in relation to both consultations and we have published those responses on the Department's website at

http://www.berr.gov.uk/consultations/closedwithresponse/index.html.

As part of the consultation on the SSA process and criteria, the Government also held a roundtable meeting with potential nominators, including RWE, EoN, EDF and the Nuclear Decommissioning Authority. Minutes of the meeting and the responses to the consultation received from potential nominators can be viewed at the above website.

Officials also met with non-governmental organisations and other interested parties to discuss the siting process. After the close of the consultation on the SSA process, the Government published guidance on the SSA process as part of the Government Response to the SSA Consultation in January this year. The Government have had discussions with potential nominators and others in the run up to the deadline for receipt of nominations (31 March 2009), in particular to answer enquiries about the process for assessment and what is required of nominators.

As we made clear in the Government response, the Government will maintain a dialogue with nominators during the assessment. This may include discussing any areas of concern on the nomination and requesting further information or clarification on the nominations.

Nuclear Power Stations: Construction

Mr. Dai Davies: To ask the Secretary of State for Energy and Climate Change in what locations paper copies of his Department's published documents relating to the 11 possible sites for new nuclear plants have been placed. [271464]

Mr. Mike O'Brien: Site nominations are available for viewing online at:

www.nuclearpowersiting.decc.gov.uk

Paper versions of nomination forms, accompanying guidance and response forms have been sent to the following locations, as agreed with the appropriate local authority and detailed on our website and in local media:

Nomination	*Locations*
Bradwell	West Mersea town council, Melrose Road, or Colchester town hall; the following libraries: Burnham-on-Crouch, Maldon, Southminster, Wickham Bishops, West Mersea, Tiptree, Chelmsford, South Woodham Ferrers, Danbury or Colchester.
Dungeness	Kent County Hall in Maidstone, Shepway district council in Folkestone, the One Stop Services in Hythe, New Romney or Lydd.
Hartlepool	Hartlepool Civic Centre, Victoria Road, or Bryan Hanson House, Hanson Square, or any library in Hartlepool.
Heysham	County Hall in Preston, Lancaster town hall, Morecambe town hall, Lancaster Planning Services at Palatine Hall, Morecambe town centre library, Bolton-le-Sands library, Heysham library, or other principal libraries in Lancashire.
Hinkley Point	Somerset county council, County Hall, Taunton; West Somerset council, West Somerset House, Williton; the Customer Centre, Summerland Road, Minehead; Sedgemoor district council, Bridgwater House; Burnham-on-Sea and Highbridge town council, Jaycroft Road; people can also contact their parish or town council.
Oldbury	Any of the three South Gloucestershire council 'One Stop Shops' located at the council offices in Thornbury, Yate and Kingswood, and Thornbury library.
Sellafield, Kirksanton, Braystones	Copeland borough council, Whitehaven, Millom council centre, St. George's Road or Cleator Moor council centre; libraries in Allerdale and Copeland and at the four main libraries in Barrow, Kendal, Penrith and Carlisle.

Nomination	*Locations*
Sizewell	Ipswich borough council, Suffolk county council or Suffolk coastal district council; the following libraries: Leiston, Saxmundham, Aldeburgh, Woodbridge, Southwold, Lowestoft, Framlingham, Wickham Market or Ipswich Central.
Wylfa	The Planning Department reception at Anglesey county council, Llangefni; the following libraries: Menai Bridge, Beaumaris, Llangefni, Holyhead and Amlwch.

Nuclear Power Stations: Public Consultation

Mr. Weir: To ask the Secretary of State for Energy and Climate Change whether Ministers plan to attend public meetings in the 11 communities identified as potential sites for new nuclear power stations. [270469]

Mr. Mike O'Brien: Detailed meeting plans as part of this consultation are not yet finalised.

Nuclear Power Stations: Security

Simon Hughes: To ask the Secretary of State for Energy and Climate Change when he last met the Chairman of the Civil Nuclear Police Authority to discuss the security of nuclear sites. [270819]

Mr. Mike O'Brien *[holding answer 24 April 2009]*: On 20 April 2009.

Renewable Energy: Finance

Sir Nicholas Winterton: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to my hon. Friend the Member for Wealden (Charles Hendry) of 26 February 2009, *Official Report*, column 931W, on renewable energy, when he plans to begin the consultation on feed-in tariffs. [270459]

Mr. Mike O'Brien: In July 2009.

Warm Front Scheme

Greg Clark: To ask the Secretary of State for Energy and Climate Change what the monetary value of Warm Front installations was in each of the last five years; and what the monetary value was of Warm Front installations undertaken by Eaga and its subsidiaries. [266679]

Joan Ruddock: The following table summarises the total grant spend on installations delivered under the Warm Front programme from 1 June 2005 to 28 February 2009, together with the amount that has been paid to Eaga and its subsidiaries for measures installed by those subsidiaries.

		£
	Total spend on installations under Warm Front programme	*Total spend on installations completed by Eaga and subsidiaries*
2005-06	154,600,000	12,384,000
2006-07	253,251,000	43,136,000
2007-08	303,462,000	58,462,000
2008-09	302,208,000	72,263,000

Greg Clark: To ask the Secretary of State for Energy and Climate Change how many Warm Front installations there have been in each of the last five years; and how many were undertaken by Eaga and its subsidiaries. [266680]

Joan Ruddock: The following table details the number of households assisted by Warm Front in each of the last five years.

Scheme year	*Assisted households*
2004-05	139,724
2005-06	153,785
2006-07	253,079
2007-08	268,900
2008-09[1]	211,920

[1] To 20 March.

Eaga subsidiaries have delivered 29 per cent. of installed measures since 2005, prior to which no Eaga subsidiaries worked on the Warm Front scheme.

JUSTICE

Bail Accommodation and Support Service

Mr. Vara: To ask the Secretary of State for Justice how many complaints have been received by his Department and its agencies from residents close to ClearSprings properties since their introduction, broken down by the smallest administrative geographical unit for which records are kept. [270814]

Mr. Hanson: The information requested cannot be provided except at disproportionate cost.

Care Proceedings

Tim Loughton: To ask the Secretary of State for Justice how many care orders have been *(a)* sought and *(b)* granted in each month in 2009 to date. [269873]

Bridget Prentice: The following table shows the number of care orders applied for, and the number of care orders made, in January and February 2009 in England and Wales. Figures for March 2009 are not yet available, as the centrally-held data are not yet complete.

The figures relate to the number of applications and orders counted by child. This means that if an application or order relates to two children then it will be counted twice. The figures cover the family proceedings courts and county courts, but exclude the small proportion of cases dealt with in the High Court (in 2007 the High Court received 3.1 per cent. of all care order applications in England and Wales, and made 3.4 per cent. of all care orders).

Research undertaken on behalf of the Ministry of Justice has identified that some cases transferred from a family proceedings court (FPC) to a county court have been incorrectly identified as new applications made to the county court. This may therefore inflate the number of reported applications.

Number of care orders applied for, and number of care orders made, in county courts and family proceedings courts in England and Wales during January and February 2009

	Applications made	*Orders made*
January	1,226	366
February	1,369	467

Note:
These figures are provisional, subject to updates made on the FamilyMan database.
Source:
This information is taken from the HMCS FamilyMan database and manual returns sent in by FPCs. High court activity is not counted

Corruption

Mr. Djanogly: To ask the Secretary of State for Justice how many people were convicted of offences relating to bribery in each of the last 10 calendar years. [270957]

Maria Eagle: Information showing the number of persons found guilty at all courts for offences relating to bribery in England and Wales from 1998 to 2007 (latest available) is shown in the following table. Data for 2008 will be available in the autumn of 2009.

The statistics relate to persons for whom these offences were the principal offences for which they were dealt with. When a defendant has been found guilty of two or more offences the principal offence is the offence for which the heaviest penalty is imposed. Where the same disposal is imposed for two or more offences, the offence selected is the offence for which the statutory maximum penalty is the most severe.

The number of persons found guilty at all courts for offences relating to bribery in England and Wales, 1998 to 2007[1, 2]

Offence	*Statute*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*	*2005*	*2006*	*2007*
5338	Prevention of Corruption Act 1906 S.1[3]	11	8	20	11	19	6	4	1	10	12
9999	Public Bodies Corrupt Practices Act 1889 S.1(1) and 1.(2)[4]	6	3	5	2	—	1	—	—	3	—
9905	Representation of the People Act 1983 ss.113-115[5]	—	1	1	—	—	1	2	4	—	4
	Total	17	12	26	13	19	8	6	5	13	16

[1] These data are on the principal offence basis

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Includes the corresponding offence description(s):
Agent corruptly accept/obtain/agree to accept/attempt obtain a gift/consideration for self/another as inducement/reward. Corruptly give/agree to give/offer gift/consideration to an agent as inducement/reward. Agent knowingly use receipt/account/document containing false/defective statement with intent to deceive principal. Agent knowingly give receipt/account/document containing false/defective statement with intent to deceive principal.

[4] Includes the corresponding offence description(s):
Corruptly solicit/receive/agree to receive for self/other gift/loan/fee/reward/advantage as reward to do/not do an act. Incite another to corruptly solicit/receive/agree to receive for self/other gift/loan/fee/reward/advantage as reward to do/not do an act. Corruptly give/promise/offer a gift/loan/fee/reward/advantage as reward to do/not do an act. Conspire to corruptly give/promise/offer a gift/loan/fee/reward/advantage as reward to do/not do an act. Incite another to corruptly give/promise/offer a gift/loan/fee/reward/advantage as reward to do/not do an act.

[5] Includes the corresponding offence description(s):
Bribery at election. Treating at election. Use undue influence at election.

Source:
Office for Criminal Justice Reform, Evidence and Analysis Unit—Ministry of Justice

Damages

Mr. Bellingham: To ask the Secretary of State for Justice for what reason the publication of the Government's response to the consultation on the law on damages is not taking place in accordance with the originally planned timetable; when he plans to publish the response; and if he will make a statement. [271063]

Bridget Prentice: The consultation on the law on damages closed on 27 July 2007. The consultation paper considered proposals put forward in a series of Law Commission reports and consequently covered a number of distinct and complex issues. There were 103 responses, many very detailed, that required careful consideration. This work has taken longer than planned, partly because of the scale or the response and the inherent complexity. The Government do, however, intend to publish a response paper outlining the way forward as soon as possible.

Debt Collection

Mr. Bellingham: To ask the Secretary of State for Justice how many people were given custodial sentences in magistrates courts as a consequence of defaulting on council tax payments in England and Wales in each year between 1998 and 2008. [271065]

Maria Eagle: Available information on those received into prison establishments by way of enforcement proceedings for community charge/council tax, from 1998 to 2007 (latest available) is shown in the table. Data for 2008 will be available later this year.

Receptions into prison for non-payment of the community charge/council tax England and Wales, 1998 to 2007

	Number of persons
1998	194
1999	101
2000	41
2001	29
2002	21
2003	30
2004	28
2005	21
2006	45
2007	29

This information can be found in the following Ministry of Justice website:

http://www.justice.gov.uk/publications/prisonandprobation.htm

These figures have been drawn from administrative IT systems which, as with any large scale recording system, are subject to possible errors with data entry and processing.

Mr. Bellingham: To ask the Secretary of State for Justice how many people who defaulted on their debts in 2008-09 *(a)* would and *(b)* would not otherwise have been affected by the provisions of enforcement restriction orders. [271066]

Bridget Prentice: The enforcement restriction order (ERO) is intended only for those with short-term problems, the court must be satisfied that there are realistic prospects of recovery, which will allow normal commitments to be met within six months, before an order can be made. This decision can only be made on a case by case basis taking into account the circumstances of each individual case.

It is not possible to say what effect the ERO provisions would have had on those who defaulted on their debts in 2008-09 without knowing their individual circumstances. The Ministry of Justice does not hold this information.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Justice what the average server capacity utilisation by each division of his Department and its predecessor was in each of the last five years; and if he will make a statement. [269595]

Maria Eagle: There are more than 1,900 servers distributed across the Ministry of Justice (MOJ) and National Offender Management Service (NOMS) IT estates. There are many different elements to server capacity utilisation and the information we have provided below is for server capacity utilisation as it relates to disc space. Figures are provided from November 2007 (the earliest data point after award of the new MOJ HQ and HMCS IT contracts) and for regular intervals thereafter.

Average server capacity utilisation

Percentage

	1 November 2007	*26 September 2008*	*6 April 2009*
HQ and associated offices	30	36	31.8
HMCS and Tribunals	31.2	30.9	30.4
HMCS Magistrates Courts	36	36.5	35.5

On the NOMS estate (including HMPS), there are over 600 servers hosting a variety of services. Depending on the server and service provided, a number of capacities are measured, with alerts raised if these exceed per-defined thresholds. Detailed information for NOMS (including HMPS) is not held centrally, so cannot be provided without incurring disproportionate cost.

Driving Offences: Insurance

Mrs. Villiers: To ask the Secretary of State for Justice what the average fine imposed for driving without insurance was *(a)* in each of the last 11 years and *(b)* in the most recent period for which figures are available. [270358]

Maria Eagle: The average fine imposed at magistrates courts and at the Crown court for the offence of using a motor vehicle uninsured against third party risks in England and Wales for the years 1997 to 2007 (latest available) are shown in the following table.

Data for 2008 will be available in the autumn of 2009.

Average fine imposed at the magistrates court and the Crown court for the offence of using a motor vehicle uninsured against third party risks[1], England and Wales, 1997 to 2007[2, 3]

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003[4]*	*2004*	*2005*	*2006*	*2007*
Magistrates courts	224	214	212	203	150	155	160	169	177	185	194
Crown Court	149	156	193	183	214	150	142	167	185	339	201

[1] An offence under the Road Traffic Act 1988 s.143(2).
[2] It is known that for some police force areas, the reporting of court proceedings in particular those relating to summary motoring offences may be less than complete.
[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their limitations are taken into account when those data are used.
[4] As from 1 June 2003, 'driving a motor vehicle while uninsured against third party risks' became a fixed penalty offence.

Prison Service: Dismissal

Dr. Murrison: To ask the Secretary of State for Justice how many staff in each *(a)* age and *(b)* ethnic group have been dismissed from each London prison in each of the last five years; and if he will make a statement. [268759]

Mr. Hanson: The figures provided on dismissals include staff dismissed for reasons of conduct, performance or attendance. 60 per cent. of dismissals in 2008 were related to attendance.

Dismissal of staff for poor attendance has helped to reduce the sickness absence rate across the Prison Service by 17 per cent. over the last five years.

Where dismissal is the result of disciplinary cases, these are for very serious matters such as racial/sexual harassment, assault, following criminal conviction.

Information on the number of staff employed and dismissed, including for reasons of attendance, performance and conduct in each London establishment from 2004 to 2008 is shown in the following tables. The tables show the dismissals, split by age and ethnicity.

Staff in post 28 February 2009

Location	*Function*	*Operational capacity*	*Staff employed*
Belmarsh	Male local	910	963

Prisons: Construction

David Howarth: To ask the Secretary of State for Justice (1) whether any brownfield sites have been identified on which to build Titan prisons; [270891]

(2) what the timetable is for the construction of Titan prisons; [270892]

(3) when he plans to publish his response to the consultation with relevant parties on the building of Titan prisons; [270893]

(4) what the current estimated cost is of *(a)* purchasing land for *(b)* obtaining planning permission for and *(c)* building Titan prisons; [270894]

(5) when the tendering exercise for the building of Titan prisons will commence. [270895]

Mr. Straw: I refer the hon. Member to the oral statement I made on 27 April 2009, *Official Report*, columns 569-81.

Prisons: Telephone Services

Mr. Garnier: To ask the Secretary of State for Justice if he will take account of the steps taken by Ofcom in response to the super-complaint from the National Consumer Council on charges for payphone services from prisons in the tendering process for the next contract for the provision of payphone services to prisoners. [270907]

Mr. Hanson: The current contract for the prisoner telephone system runs to 2011. In the re-tendering process to provide the telephone system after the current contract ends, the aim will be to provide a safe and secure system balanced with the need for reasonably priced calls for prisoners.

We acknowledge the importance of prisoners keeping in touch with their family and positive influences, and seeking a reduction in the cost of calls will be a key feature in the re-tendering exercise. This must, however, be balanced with the need to provide a safe and secure system to prevent misuse of telephones by prisoners.

Mr. Garnier: To ask the Secretary of State for Justice if he will commission research on the effect on trends in re-offending following release of the access by prisoners to telephone services in prisons; and if he will make a statement. [270917]

Mr. Hanson: There are no plans to commission research as suggested. There has been no loss of access by prisoners to telephones within the prison system. Using pin technology the current contract to provide prisoners with telephone access was awarded to the supplier in 1998 and this service has been widely available since 2001. Before using the system prisoners are required to sign a compact agreeing to the terms and conditions of use. Providing a prisoner signs this compact s/he will have access to the prisoner telephone or pinphone system and there are no plans to change this.

Mr. Garnier: To ask the Secretary of State for Justice if he will commission research on the effects on the illegal use of mobile telephones within prisons of charges to prisoners for the use of prison payphones; and if he will make a statement. [270918]

Mr. Hanson: There are currently no plans to commission research on the effect of telephone charges on the use of mobile phones in prisons.

The cost of telephone calls is determined under the terms of a national contract which is in place until 2011; however, we have recently reached an agreement with the supplier for some reduction to the cost of national and mobile calls which came into effect on 1 April 2009. To impose a reduction to the costs of calls without the supplier's agreement would require a large subsidy from the taxpayer.

We are implementing a strategy to minimise the number of phones entering prisons, and to find or disrupt those that do enter. As part of the strategy, prisons are being provided with technologies to strengthen local security and searching strategies, in line with the recommendations in David Blakey's report Disrupting the Supply of Illicit Drugs into Prisons, published in July 2008. This includes the roll out of "BOSS" chairs to all prisons, and the deployment of other detection and disruption technologies.

We have also strengthened the law, through the Offender Management Act 2007 (implemented in April 2008), which makes it a criminal offence with a punishment of up to two years' imprisonment to bring an unauthorised mobile phone or component part into a prison.

Reoffenders: Hertfordshire

Mike Penning: To ask the Secretary of State for Justice (1) how many people were charged with offences whilst under the supervision of the probation services in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the last (i) six months, (ii) year and (iii) five years; [262883]

(2) how many offenders re-offended while on probation in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the last five years. [263060]

Mr. Hanson: The number of offenders that were charged with offences while being supervised by the probation service is not available. This is because the extract of the police national computer held by the Ministry of Justice does not provide comprehensive coverage of charges. Data relating to the offending of offenders under probation supervision are based on proven reoffending—offences which have led to a conviction or a caution.

The measure of reoffending used to provide National Statistics for England and Wales is not broken down by area. However, newly published data on local adult reoffending (a different measure of reoffending to the national statistics) are broken down by probation area and local authority (upper tier only).

Because the data are not broken down below the upper tier of the local authority area level there are no figures available for Hemel Hempstead.

The number of offenders used to calculate the local reoffending rate for the Hertfordshire probation area between 1 October 2007 and 30 September 2008 is 10,229 and the reoffending rate is 7.93 per cent.

The local measure measures the reoffending of all offenders on the probation caseload, aged 18 or over, at a certain point in time (a "snapshot"), while the national measure covers all offenders commencing a court order under probation supervision or released from custody during the first quarter of the year. Additionally, the local measure allows a three month period for reoffences to be committed, while the national measure allows a year.

The local reoffending figures are produced by aggregating the data of four snapshots of the probation caseload. Therefore the number of offenders quoted above is approximately four times the number of offenders on the case load at any one time.

A reoffending rate of 7.93 per cent. with a case load size of 10,229 does not mean that 811 different offenders committed a reoffence, as some offenders may have appeared in more than one cohort and reoffended more than once.

It should be noted the probation supervision of some offenders may end during the period while their reoffending is being monitored. Therefore some reoffences may be committed after probation supervision has finished.

For further details please see "Local reoffending results 1 October 2007-30 September 2008 England and Wales" available at:

http://www.justice.gov.uk/docs/local-adult-reoffending-oct07-sept08.pdf

This is the first time that reoffending data at the local level have been made available.

Theft: Lorries

Chris Grayling: To ask the Secretary of State for Justice how many convictions there were for the theft of a heavy goods vehicle in each of the last five years. [270932]

Maria Eagle: Information held on the Ministry of Justice Court Proceedings Database cannot separately identify the number of convictions for the offence "theft of a motor vehicle" which relate to a heavy goods vehicle.

Youth Justice

David Howarth: To ask the Secretary of State for Justice how many *(a)* remands in custody for under 18 year olds and *(b)* court-ordered secure remands were for a period of seven days or less in the last year for which figures are available. [270777]

Mr. Hanson: During the period 1 April 2008 to 31 March 2009, 671 young people under 18 were remanded in custody for a period of seven days or less; and 173 were remanded for a period of seven days or less to the care of a local authority with a requirement that they be accommodated in secure conditions. This information has been supplied by the Youth Justice Board and is drawn from administrative computer systems.

We believe that young people should only be sent to custody as a last resort. The decision on whether to grant bail or remand a defendant in custody is one for the courts to make, in each case, in line with the statutory framework primarily set out in the Bail Act 1976.

INNOVATION, UNIVERSITIES AND SKILLS

Building Colleges for the Future Programme

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills pursuant to the answer of 12 March 2009, *Official Report*, column 656W, on further education: finance, from which further education colleges he has received representations on the Learning and Skills Council's list of colleges affected by changes to its capital spending programme. [269823]

Mr. Simon: I have met and had correspondence with a large number of MPs and college principals and I will be continuing this dialogue. The nature of the contact to date has been to discuss individual concerns rather than specifically regarding the Learning and Skills Council's list of colleges affected by changes to its capital spending programme.

We are aware that there are other colleges that will be at various stages of preparing their capital proposals. The response from the LSC in connection with the earlier question makes clear that some smaller projects were not included as they did not require national approval. Some colleges are also still submitting applications for approval in principle so the list will be subject to change.

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills what discussions he has had with the Learning and Skills Council (LSC) on representations made by further education colleges to the LSC on *(a)* the completeness and *(b)* the accuracy of the LSC's list of colleges affected by changes to the LSC's capital spending programme. [269824]

Mr. Simon: I continue to have regular dialogue with the Learning and Skills Council (LSC), as we consider how best to move forward with the further education capital investment programme.

I have not had any specific discussions with the LSC on representations made by further education colleges on either the completeness nor on the accuracy of the LSC's list of colleges affected by changes to the LSC's capital spending programme.

We are aware that there are other colleges that will be at various stages of preparing their capital proposals. The response from the LSC in connection with the earlier question makes clear that some smaller projects were not included as they did not require national approval. Some colleges are also still submitting applications for approval in principle so the list will be subject to change.

Mr. Graham Stuart: To ask the Secretary of State for Innovation, Universities and Skills which Minister in his Department had responsibility for the further education capital programme in 2008; and if he will make a statement. [269954]

Mr. Simon: Ministers are responsible for determining and monitoring the implementation of broad policy and to hold the Learning and Skills Council (LSC) to account for delegated responsibilities. Effective implementation is the role of the LSC.

My hon. Friend the Member for Harlow (Bill Rammell) was Minister of State for Lifelong Learning, Further and Higher Education up until October 2008, during which time the further education capital programme was within his remit. When my hon. Friend left the Department in October, in my role as Under-Secretary, I took over in leading on the further education capital programme.

John Mann: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the sum to be allocated by his Department to new college buildings in each of the next six financial years. [271800]

Mr. Simon: Budget 2009 announced additional capital funding of £300 million for this spending review period (2009-10 and 10-11), which will allow the Learning and Skills Council to give approval to a limited number of projects starting in 2009-10.

Recognising the long-term nature of capital projects, the Government are planning a continuing FE capital investment programme in future years, with a planning assumption of £300 million a year from 2011-12 to 2013-14 to be confirmed at the next spending review.

This provides a provisional £1.2 billion in total to 2013-14 which should allow us to develop around £750 million of new schemes.

Further Education: Mergers

Mr. Evennett: To ask the Secretary of State for Innovation, Universities and Skills how many further education colleges have merged in each year since 1997. [268679]

Mr. Simon: The table sets out all further education colleges merged since May 1997.

Further education college mergers since 1997

Further education colleges	*Name of merged college*	*Date of merger*
Reading College of Arts and Technology and Berkshire College of Art and Design	Reading College of Arts and Technology	6 January 1997
De La Salle College and Pendleton College	Pendleton College	7 February 1997
Prior Pursglove College and South Park Sixth Form College	Prior Pursglove College	1 August 1997
Worcestershire College of Agriculture and Horticulture and Pershore College of Horticulture	Pershore and Hindlip College	10 May 1997
Hyde Clarendon College and Tameside College	Tameside College	18 February 1998
Airedale and Wharfedale College and Park Lane College	Park Lane College	1 August 1998
Cambridgeshire College of Agriculture and Horticulture and Norfolk College of Arts and Technology	College of West Anglia	1 August 1998
Clarenden College and Basford Hall College	New College, Nottingham	1 August 1998
East Birmingham College and Handsworth College	City College, Birmingham	1 August 1998
North Bolton College and South College, Bolton	Bolton Sixth Form College	1 August 1998
York College of Further and Higher Education and York Sixth Form College	York College	1 April 1999
Durham College of Agriculture and Horticulture and East Durham Community College	East Durham and Houghall Community College	1 June 1999
Charles Keene College of Further Education and Leicester South Fields College	Leicester College	1 August 1999
New College, Nottingham and High Pavement Sixth Form College	New College, Nottingham	1 April 1999
Greenhill College and Harrow and Weald College	Harrow College	1 June 1999
Holme Lacy College and Pershore and Hindlip College	The Pershore Group of Colleges	1 August 1999
New College, Nottingham and Arnold and Carlton College	New College, Nottingham	1 September 1999
Bilston Community College and Wulfrun College	Wolverhampton College	1 October 1999
Kirkley Hall College and Northumberland College	Northumberland College	1 January 2000
Phoenix College and Merton College	Merton College	1 April 2000
The Rutland College and Tresham Institute	Tresham Institute	1 August 2000
Barnet College and Hendon College	Barnet College	1 August 2000
College of Care and Early Education and City of Bristol College	City of Bristol College	1 August 2000
Brooksby College and Melton Mowbray College	Brooksby Melton College	1 September 2000
Kingsway College and Westminster College	Westminster Kingsway College	1 September 2000
Trowbridge College, Chippenham College and Lackham College	Wiltshire College	1 November 2000
Walford College and North Shropshire College, Walford	Walford and North Shropshire College	1 January 2001
Abingdon College and West Oxfordshire College	Abingdon and Whitney College	31 March 2001
St. Austell College and Cornwall College	Cornwall College	1 August 2001
Basildon College and Thurrock College	Thurrock and Basildon College	1 August 2001
Dudley College of Technology and Rowley Regis College	Dudley College of Technology	1 August 2001
Shena Simon College and City College, Manchester	City College, Manchester	1 September 2001
Lewes Tertiary College and Eastbourne College	Sussex Downs College	1 September 2001
Broomfield College, Derby Tertiary College, Wilmorton and Mackworth College	Derby College	1 January 2002
Soundwell College and City of Bristol College	City of Bristol College	1 January 2002
Ealing Tertiary College and Hammersmith and West London College	Ealing, Hammersmith and West London College	1 January 2002
Coventry Technical College and Tile Hill College	City College, Coventry	1 February 2002
East Yorkshire College and Beverley College	East Riding College	1 March 2002

Further education college mergers since 1997

Further education colleges	*Name of merged college*	*Date of merger*
Brinsbury College and Chichester College of Arts, Science and Technology	Chichester College	1 August 2002
Teesside Tertiary College and Middlesbrough College	Middlesbrough College	1 August 2002
North Birmingham College and Sutton Coldfield College	Sutton Coldfield College	1 April 2003
Warwickshire College, Royal Leamington Spa and Moreton Morrell and Rugby College of Further Education	Warwickshire College, Royal Leamington Spa, Rugby and Moreton Morrell	1 August 2003
Oxford College, North Oxfordshire College and Rycotewood College	Oxford and Cherwell College	1 August 2003
Guildford College of Further and Higher Education and Merrist Wood College	Guildford College of Further and Higher Education	1 August 2003
Park College and Sussex Downs College	Sussex Downs College	1 November 2003
Daventry Tertiary College and Northampton College	Northampton College	1 August 2004
Rother Valley College and Rotherham College of Arts and Technology	Rotherham College of Arts and Technology	1 August 2004
Cannington College and Bridgwater College	Bridgwater College	1 September 2004
Tynemouth College and North Tyneside College	Tyne Metropolitan College	1 March 2005
Haywards Heath College and Crawley College	Central Sussex College	1 August 2005
Stockport College of Further and Higher Education and North Area College	Stockport College	1 January 2006
Isle College and College of West Anglia	College of West Anglia	1 April 2006
The People's College, Nottingham and Broxtowe College	Castle College	1 June 2006
Josiah Mason Sixth Form College and Sutton Coldfield College	Sutton Coldfield College	1 August 2006
Widnes and Runcorn Sixth Form College and Halton College	Riverside College, Halton	1 August 2006
The Newark and Sherwood College and Lincoln College	Lincoln College	1 January 2007
Brooklands College and Spelthorne College	Brooklands College	1 August 2007
Guildford College and Farnham College	Guildford College	1 August 2007
Sparsholt College (Agriculture and Horticulture) and Cricklade College	Sparsholt College	1 August 2007
Newcastle College and Skelmersdale College	Newcastle College	1 August 2007
Keighley College and Park Lane College	Park Lane College	1 August 2007
North Trafford College and South Trafford College	South Trafford College	1 August 2007
Salisbury College and Wiltshire College	Wiltshire College	1 January 2008
Manchester College of Arts and Technology and City College, Manchester	The Manchester College	1 April 2008
Penwith College and Truro College	Truro College	1 April 2008
Stockton Riverside College and Bede Sixth Form College	Stockton Riverside College	30 April 2008
North Devon College and East Devon College	North Devon College	1 August 2008
Dewsbury College and Huddersfield Technical College	Kirklees College	1 August 2008
Tamworth and Lichfield College, Rodbaston College and Cannock Chase Technical College	South Staffordshire College	1 January 2009
Salford College, Eccles College and Pendleton Sixth Form College	Salford City College	1 January 2009
Leeds College of Technology, Leeds Thomas Danby and Park Lane College	Leeds City College	31 March 2009

Graduates: Unemployment

Mr. Evans: To ask the Secretary of State for Innovation, Universities and Skills what recent estimate he has made of the percentage of qualified *(a)* law and *(b)* medical graduates who are unemployed. [271009]

Mr. Lammy: The following table gives the proportion of all Medical and Dentistry and Law first degree graduates who are employed, ILO unemployed (International Labour Organisation definition) and economically inactive respectively.

Percentage

	Medical and dentistry first degree graduates	*Law first degree graduates*
Proportion of working aged population who are employed	93	81
Proportion of working aged population who are ILO unemployed	[1]—	5
Proportion of working age population who are economically inactive	6	14

[1] Indicates that the sample size is based on such a small number of respondents that it is below the publication threshold.

Source:

Labour Force Survey, Q4 2008 for working aged people (16 to 59-64-year-olds) in England

Focusing just on recent graduates we find that, six months after graduating 99.7 per cent. of Medical, Dentistry and Veterinary Science graduates are either in employment or further study; for Law graduates it is 96.3 per cent. These are taken from the HESA Employment Performance Indicators for the UK, available at:

http://www.hesa.ac.uk/index.php/content/view/1185/141/

Higher Education: Admissions

Mr. Willetts: To ask the Secretary of State for Innovation, Universities and Skills (1) if he will recalculate the higher education initial participation rate for each year between 1999-2000 and 2005-06 using the same methodology as that used to produce the figures for 2007-08 issued on 31 March 2009; [270338]

(2) what discussions his Department had with *(a)* higher education institutions, *(b)* bodies representing higher education institutions and *(c)* the UK Statistics Authority prior to the methodological change made to the calculation of the higher education initial participation rate for 2007-08. [270339]

Mr. Lammy: The Statistical First Release published on 31 March estimated the Higher Education Initial Participation rate using a new methodology. The new method checks that an entrant aged 18 to 30 has not had more than six months' previous experience of higher education using data matched back over 12 years (10 years for FE colleges). As the SFR explained, 2007/08 is the first year that this has been possible using 12 years of matched data. However, in order to provide some time series comparison, and to demonstrate the impact of this change, the 2006/07 figure was also re-calculated using one fewer year of matching, as it was estimated that the missing twelfth year would make little difference to the rounded figure.

The figures published in the SFR provide a robust basis for monitoring progress in future years. Earlier years' figures based on the old methodology were also given. Estimates for earlier years using the new methodology would be progressively less accurate, since fewer years' data are available to check for previous experience of higher education, and so they were not included in the SFR. However, it is possible to calculate such estimates with an assessment of the possible scale of the bias. Additional estimates for earlier years, alongside information on how to interpret them and compare them to the existing published trend, will be added as an appendix to the published SFR on 15 May.

Following National Statistics procedures, the SFR release is timed to allow a minimum of time between production and release of the HEIPR, and prior access to the unpublished statistics is restricted. The change to the methodology was developed at a late stage in the publication process to resolve emerging concerns about the quality of the data. DIUS analysts consulted with HEFCE statisticians prior to release to confirm the robustness of the old and new methodologies. Given the fact that a robust alternative methodology was implementable in the time available, a decision was made by analysts to publish within the pre-announced timescale. In the interest of transparency, clear descriptions for the new methodology were shown within the SFR and figures for 2006/07 based on both the old and new methodologies were also provided.

Student Wastage: Higher Education

Mr. Evans: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the proportion of students first educated at secondary level in *(a)* the state sector and *(b)* independent schools who did not complete the first year of a university undergraduate degree course in the latest period for which information is available. [271010]

Mr. Lammy: The latest figures derived from the Higher Education Statistics Agency (HESA) Performance Indicators are shown in the following table.

Non-continuation[1] rates for young entrants[2] to full-time first degree courses by type of school attended for the academic year 2005-06

Previous school type	*Number of young entrants*	*Non-continuation rate (percentage)*
State school	206,600	6.9
Independent school	29,700	4.2

[1] Non-continuation rates provide the percentage of students who enter an HEI in the academic year who are no longer in an HEI in the following academic year and have not qualified.

[2] There are 24,900 students who do not continue their education and for whom it was not possible to identify a previous school type. The rate of discontinuation for these students was 12 per cent.

Students: Fees and Charges

Dr. Kumar: To ask the Secretary of State for Innovation, Universities and Skills what the Government's plans are for the future of the cap on tuition fees. [271082]

Mr. Lammy: Our position remains that the first three years of the system of variable fees introduced in 2006 will be reviewed by an independent commission. We expect that commission to begin its work later this year, following the publication of our Framework for the future development of higher education.

Training: Speech Therapy

Mr. Boswell: To ask the Secretary of State for Innovation, Universities and Skills what steps his Department is taking to finance and maintain levels of enrolment on higher education courses for speech and language therapists. [271078]

Ann Keen: I have been asked to reply.

Within the overall resources allocated, it is a matter for each strategic health authority (SHA) to determine their own priorities including how much is spent on pre-registration training commissions for speech and language therapists. Under the current service level agreement with SHAs each SHA is expected to provide for investment in training commissions based on long-term workforce need and local financial plans.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Broadband: Rural Areas

Anne Milton: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what plans he has to improve the telecommunications infrastructure in rural areas to extend the provision of high speed broadband. [1] [270209]

Mr. McFadden: The Budget confirmed the Government's plans to deliver a Universal Service for broadband up to 2 Mbps by 2012. This will allow virtually everyone to benefit from broadband services. The Budget also underlines the Government's commitment to helping business take full advantage of the opportunities offered in this area by announcing a review of Ofcom's powers and duties to ensure it can strike the right balance between supporting competition and encouraging investment. The Universal Service and Next Generation Access are also key aspects of the Digital Britain report, which will be published shortly.

The Government will also be carrying out research on broadband 'Not spots' under the cross-Government paper "Delivering Digital Inclusion—An Action Plan for Consultation" with the objective of putting information into the hands of local communities to enable them to manage the risks, and realise the opportunities of Next Generation Access locally and regionally, where they identify a need and want to activate their own solutions. This will also cover the devolved Administrations of Scotland, Northern Ireland and Wales.

1.*[Official Report, 14 May 2009, Vol. 492, c. 15MC.]*

Business: Carbon Emissions

Dr. Stoate: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what *(a)* practical support and *(b)* funding opportunities are available to small and medium-sized businesses seeking to reduce the amount of carbon dioxide they emit. [270277]

Joan Ruddock: I have been asked to reply.

The Government provide a range of support to help small and medium businesses reduce their carbon emissions. These include:

(a) Practical support, in particular through the Government-funded Carbon Trust (CT), which provides advice via its website, specific web tools, publications, an advice line and face-to-face surveys for smaller business; and advice through Business Link (www.businesslink.gov.uk), and the regional development agencies. We are working to improve ease of access to this support via Business Link as part of the Solutions for Business programme.

(b) The Carbon Trust administers two schemes which provide financial support for small and medium-sized businesses to make energy efficient investments: an interest free loan scheme for investments in energy efficient equipment, and the Enhanced Capital Allowance scheme which provides businesses that invest in designated energy efficient equipment with enhanced tax relief. The Chancellor announced an additional £100 million of investment for the loan scheme in the April 2009 Budget.

Business: Government Assistance

Anne Main: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform (1) how much has been spent from the Capital for Enterprise Fund; [260551]

(2) how many businesses have received assistance from the Capital for Enterprise Fund. [260552]

Ian Pearson: The Capital for Enterprise Fund (CfEF) is targeted at small businesses who have exhausted their traditional borrowing capacity. The CfEF will provide £75 million of equity to these businesses.

As at 25 March 2009, there have been 1,013 inquires to the Capital for Enterprise Fund registration helpline with 311 businesses seriously exploring whether the fund may be of benefit to them. 253 businesses have registered their interest in the fund and out of these 51 businesses have met the eligibility criteria and have supplied all the required information (business plans and accounts) with the amount of potential funding required being £44.5 million.

Fund mangers have been appointed (Aberdeen Assets and Octopus Investments) and have shortlisted five advanced investment propositions with strong potential for deal flow using CfEF, totalling over £5 million. These are currently going through due diligence and we would expect initial investments shortly.

Capital for Enterprise Fund

Mr. Hoban: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many businesses he estimates will have debt transferred to equity under the Capital for Enterprise Fund in *(a)* 2009, *(b)* 2010 and *(c)* 2011. [252241]

Ian Pearson: The Capital for Enterprise Fund (CfEF) is targeted at small businesses who have exhausted their traditional borrowing capacity. The CfEF will provide £75 million of equity to these businesses.

As at 25 March 2009, there have been 1,013 inquires to the Capital for Enterprise Fund registration helpline with 311 businesses seriously exploring whether the fund may be of benefit to them. 253 businesses have registered their interest in the fund and out of these 51 businesses have met the eligibility criteria and have supplied all the required information (business plans and accounts) with the amount of potential funding required being £44.5 million.

Fund mangers have been appointed (Aberdeen Assets and Octopus Investments) and have shortlisted five advanced investment propositions with strong potential for deal flow using CfEF, totalling over £5 million. These are currently going through due diligence and we would expect initial investments shortly.

Civil Servants

Norman Baker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the *(a)* job title, *(b)* main responsibilities, *(c)* Civil Service pay band and *(d)* annual salary of (i) Gez Sagar, (ii) Will Parkes, (iii) Peter Power, (iv) Stephen Adams and (v) Fiona Cookson are; whether each receives any payments from other sources; and whether the post filled by each was advertised externally. [270996]

Mr. McFadden *[holding answer 24 April 2009]*: Gez Sagar is a communications consultant working on a project to coordinate economic communications across Government Departments. Stephen Adams is employed on a one year fixed term contract as Strategy and Policy Adviser to the Secretary of State. Fiona Cookson has been appointed deputy head of news. Peter Power is Press Secretary to the Secretary of State seconded to the civil service on a one year fixed term from the European Commission. We do not release details of individual salaries. The EC makes good Peter Power's salary to EC level. No one else named receives payment from any other source. All have been appointed in accordance with the Civil Service (Amendment) (No 2) Order in Council 2008 which regulates recruitment into the Civil Service.

Will Parkes is not a BERR employee but is seconded into Government on a two month fixed term placement to share knowledge end expertise of the private sector.

These are all civil servant not special adviser posts.

Construction: Government Assistance

Jeff Ennis: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform (1) what estimate he has made of the proportion of businesses in the construction and building industries that could be eligible for assistance under the Government's loan guarantee scheme; [262157]

(2) whether there are any restrictions on businesses in the construction and building industries applying for assistance under the Government's loan guarantee scheme. [262158]

Ian Pearson: The enterprise finance guarantee is intended to be available to the widest range of viable small and medium sized businesses with a turnover of under £25 million as possible. No estimates were made in relation to potential effects on specific sectors.

The EFG sector restrictions were recently reviewed and an overview of the main restrictions has been published on the BERR website. There remain sector restrictions on the owning and dealing in real estate.

Departmental ICT

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many *(a)* printers and *(b)* multi-function devices with printing functions were in use in each division of his Department and its predecessor in each of the last five years; how many such devices had a function enabling two-sided printing; and if he will make a statement. [269604]

Mr. McFadden: Over the last five years the Department has significantly rationalised its printer estate in parallel with reducing the number of buildings it occupies. The majority of printers are located in shared ICT bays rather than by division to ensure optimum use. All have duplex printing facilities. The number of printers in current use is 688, of which 95 have multi function facilities. Greater use of multi function printers will be considered at the next contractual refresh point under the Department's PFI agreement with Fujitsu who supply the printers.

Jenny Willott: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269627]

Mr. McFadden: As IT services in BERR are provided under a PFI agreement put in place before the introduction of the Buy Sustainable-Quick Win standard it is not possible to provide the information as requested. However, IT equipment provided under the contract is Energy Star, Blue Angel and WEEE compliant.

Furniture: Government Assistance

Mike Wood: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he expects the credit insurance scheme to be available to small and medium-sized businesses in the furniture industry. [270203]

Ian Pearson: Budget 2009 announced a scheme providing up to £5 billion of additional trade credit insurance to businesses who have suffered reductions in their level of cover.

The scheme will be open to businesses of all sizes and in all sectors, including the furniture industry.

Subject to parliamentary approval, from 1 May until 31 December this year, UK businesses will be able to purchase six months' 'top-up' insurance from the Government if credit limits on their UK customers are reduced. The qualifying window will be backdated to include any reductions since 1 April.

Further details of the scheme can be found at:

http://www.businesslink.co.uk/creditinsurance

Holiday Leave

Mr. Djanogly: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what estimate he has made of the annual cost to businesses of the increase in the annual statutory holiday entitlement from 24 to 28 days. [271005]

Mr. McFadden *[holding answer 24 April 2009]:* In its election manifesto, the Government proposed an extension to the statutory entitlement to four weeks' paid holiday required under the EU Working Time Directive, making it additional to the number of bank holidays in England and Wales. This ensures all workers are entitlement to a minimum of 28 days holiday a year.

The extension was implemented in two phases to help small and medium businesses. The second phase extended the right from 24 to 28 days holiday a year. The cost to business of this second phase was estimated at between £1.8 and 2.4 billion. The estimated cost to business and benefit to workers comes from the Department's full impact assessment. As part of this assessment, the Department conducted a paid annual leave survey that showed the lowest paid, including part-time employees, women and those from ethnic minorities would benefit most from the increase in holiday entitlement.

LDV

Richard Burden: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what progress has been made in discussions with the LDV Group on assisting the company in dealing with the effects of the economic downturn. [266378]

Ian Pearson: We have and will continue to offer advice and support to LDV where we can. However, the primary responsibility for LDV is with its parent company, Gaz.

Mr. Gordon Prentice: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on car dealerships should LDV go into receivership. [267252]

Ian Pearson *[holding answer 27 March 2009]:* No detailed assessment has been made of the effect on dealerships should LDV go into receivership. However, dealerships are eligible for support from a range of Government programmes and details are available at:

http://www.realhelpnow.gov.uk/.

Members: Correspondence

Andrew Selous: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when he plans to respond to the letters from the hon. Member for South West Bedfordshire of 13 February 2009 and 3 March 2009 on his constituent Mr Simon Cavendish. [271001]

Mr. McFadden *[holding answer 24 April 2009]*: I responded to the hon. Member on 21 April 2009. I apologise for the delay.

Mobile Phones: Minerals

Steve Webb: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform if he will have discussions with representatives of the mobile phone industry to discourage the use in the manufacture of mobile phone batteries of minerals which may have come from conflict zones; and if he will make a statement. [267297]

Mr. McFadden *[holding answer 27 March 2009]*: I have no current plans to meet representatives of the mobile phone industry to discuss this issue.

Motor Vehicles: Government Assistance

Lembit Öpik: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform (1) for what reasons the motorcycle industry is not eligible for assistance under the Automotive Assistance Programme; and if he will make a statement; [266576]

(2) if he will extend eligibility for assistance under the Automotive Assistance Programme to the motorcycle industry; and if he will make a statement. [266577]

Ian Pearson: Government receive numerous requests for assistance from a wide range of sectors and have to consider a wide range of factors when deciding to act. The decision to support the automotive industry during the current difficulties through the Automotive Assistance programme (AAP) was based around a number of factors. The industry is a major employer in the UK and a major investor in research and development. Additionally, the car industry is required to achieve significant reductions in carbon dioxide (CO_2) emissions from 2012. Motorcycles are not covered by the CO_2 from New Cars Regulation and we do not intend to extend eligibility under the AAP to the motorcycle industry.

Postal Workers

John Cummings: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assessment has been made of the level of risk of anthrax infection to workers in Royal Mail postal sorting offices arising from terrorist action; and if he will make a statement. [271428]

Mr. McFadden: Central Government departments and the emergency services work closely with Royal Mail to ensure that effective procedures and measures are in place for managing the risk to the company's staff and operations and to members of the wider public from chemical or biological agents in the postal system. Royal Mail ensures that the Communication Workers Union (CWU) and Unite are actively involved in the development and introduction of procedures and measures in support of its response capability.

Regional Planning and Development

Mrs. Spelman: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what regional industrial development boards there are; what the correspondence address of each such board is; and whether each such board is co-located with a regional development agency. [illegible]

Mr. McFadden: There are currently seven regional industrial development boards which together cover all nine English regions. They are listed, with their correspondence address, as follows. With the exception of the London and South East Industrial Development Board and the Yorkshire and the Humber and the East Midlands Industrial Development Board, each of which is co-located with two regional development agencies, the boards are co-located with a single regional development agency.

East of England Industrial Development Board,

East of England Development Agency,
The Business Centre,
Station Road,
Histon,
Cambridge CB24 9LQ.

London and South East Industrial Development Board,

London Development Agency,
Palestra,
197 Blackfriars Road,
London SE1 8AA.

and

South East England Development Agency,
Cross Lanes,
Guildford,
Surrey GU1 1YA.

North East Industrial Development Board,

One North East,
Stella House,
Goldcrest Way,
Newburn Riverside,
Newcastle Upon Tyne,
NE15 8NY.

North West Industrial Development Board,

Northwest Regional Development Agency,
PO Box 37,
Renaissance House,
Centre Park,
Warrington,
Cheshire WA1 1XB.

Yorkshire and the Humber and the East Midlands Industrial Development Board,

Yorkshire Forward,
Victoria House,
2 Victoria Place,
Leeds LS11 5AE.

and

East Midlands Development Agency,
Apex Court,
City Link,

Nottingham NG2 4LA

South West Industrial Development Board,

South West of England Regional Development Agency,
North Quay House,
Sutton Harbour,
Plymouth PL4 0RA

West Midlands Industrial Development Board,

Advantage West Midlands,
3 Priestley Wharf,
Holt Street,
Aston Science Park,
Birmingham B7 4BN.

Union Modernisation Fund

Mr. Maude: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform pursuant to the answer of 20 March 2009, *Official Report*, column 1407W, on the Union Modernisation Fund, if he will place in the Library a copy of the action record of each of the decisions taken by the Supervisory Board to date. [270189]

Mr. McFadden: The records of decisions taken by the Union Modernisation Fund Supervisory Board will not be placed in the Libraries of the House because they contain commercially-sensitive information about unsuccessful bids. The results of successful bidders are published on the BERR website at:

http://www.berr.gov.uk/whatwedo/employment/trade-union-rights/modernisation/page16497.html

CHILDREN, SCHOOLS AND FAMILIES

Apprenticeships, Skills, Children and Learning Bill

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the costs his Department incurred as a result of the Public Bill Committee on the Apprenticeship, Skills, Children and Learning Bill sitting beyond 6.30 pm on 26 March 2009. [270392]

Mr. Simon: I have been asked to reply.

The total estimated cost to the Department was £2,279.97. This comprised £1,423.03 to cover additional travel and accommodation expenses, and £856.94 in discretionary payments to officials who attended the session.

Children in Care

John Bercow: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the long-term outcomes for children who have been cared for in *(a)* family and friends care, *(b)* family and friends foster care, *(c)* stranger foster care and *(d)* adoption. [270224]

Beverley Hughes: We do not collect data centrally on these discrete groups. However, research commissioned by the Department within the Quality Matters Research Initiative, suggests that on a range of measures—health, education, emotional and behavioural—children in family and friends foster care tend to achieve similar outcomes compared to those in stranger foster care. An overview report of the Initiative will be published on 30 April. The findings from this Initiative will be disseminated to those working in the field and used to inform guidance.

Many of the arrangements for children in family and friends care that is not foster care are private in nature, where no services have been requested from the local authority, so we do not have information about long term outcomes.

The Adoption Research Initiative is exploring outcomes for children who have been placed for adoption or who are in other permanent placements, and will complete during 2010. The findings from this initiative will also be disseminated to those working in the field and used to inform guidance.

Long-term outcomes for looked after children are improving. For example, between 2004 and 2008, the percentage of such children now aged 19 years who were in education other than higher education increased from 18 per cent. to 28 per cent. But we recognise that more needs to be done. Our "Care Matters" programme of reform is designed to ensure continued improvement in outcomes for looked after children.

John Bercow: To ask the Secretary of State for Children, Schools and Families how many family and friend *(a)* carers and *(b)* foster carers received no financial support in 2008-09. [270226]

Beverley Hughes: Family and friends caring for children who are not looked after by the state are a very broad group. Some will be caring for the child as a private family arrangement with the child's parents, where state intervention will not necessarily be appropriate, and the child and their carers may not be known to the local authority.

Where a child being cared for by their relative or friend is not a looked after child, but is assessed as being in need, the local authority has the discretion to provide support under section 17 of the Children Act 1989 to support their upbringing by their family. The Children and Young Persons Act 2008 made it easier for local authorities to provide financial support under section 17 where that is appropriate. The number of families being supported in this way is not collected centrally.

Where the local authority places a child with a relative or friend, so they are a looked after child, the family or friend must become approved as a foster carer and the fostering service provider must provide them with support on the same basis as for any other foster carer. Fostering service providers differ in the amount of support they provide. However, all providers should be paying their foster carers at least the national minimum allowance.

John Bercow: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the average monetary level of financial support family and friend *(a)* carers and *(b)* foster carers received from each local authority in 2008-09. [270227]

Beverley Hughes: Where a child, who is not a looked after child, is being cared for by a relative or friend, the local authority has the discretion to provide support under section 17 of the Children Act 1989 to support their upbringing by their family. The Children and Young Persons Act 2008 made it easier for local authorities to provide financial under section 17 where that is appropriate. The number of families being supported in this way is not collected centrally.

Where the local authority places a child with a relative or friend, so they are a looked after child, the family or friend must become approved as a foster carer and the fostering service provider must provide them with support on the same basis as for any other foster carer. The amount of financial support provided to family and friends foster carers is not collected centrally.

Fostering service providers differ in the amount of support they provide, however, all providers should be paying their foster carers at least the national minimum allowance.

Children in Care: Drugs

Mr. Godsiff: To ask the Secretary of State for Children, Schools and Families which care homes have administered behaviour controlling drugs to *(a)* girls and *(b)* boys (i) in the last 30 years and (ii) in the last 12 months. [270038]

Beverley Hughes: This information is not collected centrally by the Department.

However, the regulations governing children's homes require them to promote and protect the health of the children accommodated. Children's homes do not prescribe medicines—this is done by the GP or specialist mental health services. Children's homes must ensure that each child is registered with a GP and that any medicine prescribed to a child is administered as directed to the child for whom it is prescribed. A written record must be kept of the administration of any medication.

The regulations and standards which apply to the children's homes also require measures of control and discipline to be based on methods which establish positive relationships with children and which are designed to help the child.

Children: Internet

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families how many working groups have been established to develop a code of practice for the moderation of user generated internet content as referred to in the Byron Review Action Plan; and who the members are of each such group. [270710]

Beverley Hughes: The Executive Board of the UK Council for Child Internet Safety has established four working groups to take forward the recommendations of the Byron Review. The groups are:

1. Industry
2. Better Education
3. Public Awareness
4. Video Games

The Industry group will look to develop best practice and common standards across industry such as the recommendations for codes of practice for user generated content.

The current members of the Industry group are as follows:

Member	*Organisation*
Wincie Knight	Nickelodeon UK
Emma Ascroft	Yahoo! UK and Ireland
Hamish MacLeod	Mobile Broadband Group
Juliet Kramer	T-Mobile
Shereen Meharg	Fox Interactive Media
Anthony Langan*	Samaritans
Mark Gracey	THUS, a Cable and Wireless business
Robin Blake	Ofcom
Richard Murray	Jagex Ltd.
Will Gardner	Childnet International
David Fatscher	BSI British Standards
Julian Coles	BBC
Alan Dykes*	Ubisoft
Dave Simpson	Sky
Keren Mallinson	Internet Watch Foundation (IWF)
Adam Hildreth	Crisp Thinking
Trish Church	Orange UK
Alex Green	Virgin Media
Neil Scoresby	BT plc.
Donna Whitehead	Microsoft
Simon Sauntson*	ELSPA
Pamela Learmonth	Broadband Stakeholder Group
William Gore	Press Complaints Commission
Andrea Millwood Hargrave	Millwood Hargrave Ltd./University of Oxford
Elizabeth Kanter	Research in Motion
Richard Sargeant	Google
Peter Johnson	British Board of Film Classification
Zoe Hilton	NSPCC
Annie Mullins	Vodafone Group
Malcolm Hutty	LINX
Paul Kelly	PAPYRUS
Roy Edmonds	Nickelodeon UK
Mike Rawlinson	ELSPA
Alex Nagle	CEOP
Alan Penton	RM
Susan Daley	Symantec
Paul Massey	Independent Consultant
Sarah Dyer	Beatbullying
Ian Clarke	ISPA

Children: Protection

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families how many regional seminars have been held by BECTA to assist local safeguarding children's boards; and what mechanisms his Department will use to assess their effectiveness. [270711]

Beverley Hughes *[holding answer 23 April 2009]:* The British Educational Communications and Technology Agency (BECTA) held a total of 10 regional events during October and November 2008. 88 per cent. of all local safeguarding children boards' (LSCBs) were represented at these events. Feedback from the events was positive and each LSCB was invited to commit to an ongoing action plan on safeguarding children online to be monitored by BECTA.

A survey by the Association of Directors of Children's Services on LSCBs carried out in January 2009 showed that, for example, of the 61 per cent. of LSCBs who responded, 96 per cent. included safeguarding children online in their business plan (87 LSCBs) and 93 per cent. had a specific sub-group or working group with safeguarding online as a key remit (85 LSCBs).

Pre-school Education: Finance

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what factors are taken into account when allocating nursery education grant funding; and if he will make a statement. [265965]

Beverley Hughes: The nursery education grant (NEG) no longer exists. All funding for early years provision for both schools and (private voluntary independent) PVI providers is allocated through the dedicated schools grant (DSG). The DSG is distributed by giving every local authority a pre-determined amount per pupil each year, which is a combination of an uplift of their 2005-06 education spend, plus top-ups for ministerial priorities. Every local authority has had indicative budgets for 2008-11, in order to enable them to plan. We consulted on this methodology in 2007 and around two thirds of respondents were in favour of it for 2008-11.

This gives each local authority an entire amount for their schools budget, which they then allocate across the education system including for the free entitlement to early years provision according to local priorities. From 2010, all local authorities will use a single locally-determined funding formula to distribute funding to all early years settings, including nursery classes in schools.

Schools: Finance

John Mann: To ask the Secretary of State for Children, Schools and Families how much he has budgeted for the rebuilding of school buildings in each of the next six financial years. [271615]

Jim Knight: The Government's plans for capital investment in schools over the current spending period total £22.9 billion, including £1 billion carried forward from 2007-08. This is currently profiled as £6.2 billion in 2008-09, £8.9 billion in 2009-10 and £7.8 billion in 2010-11. These profiles include £1.3 billion of PFI credits in each year and reflect £0.9 billion brought forward from 2010-11 to 2009-10 as part of the fiscal stimulus plans. Available resources for 2011-12 onwards will be determined as part of the Government's next Spending Review.

Secondary Education: Admissions

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families what guidance his Department issues to local education authorities on the allocation of places at secondary schools to siblings of pupils at those schools. [271302]

Sarah McCarthy-Fry: The School Admissions Code makes clear that schools and local authorities should be pragmatic in trying to keep families together, especially those with younger children. Most recognise the value of this and give priority to siblings of children attending the school, which must be clearly explained in admission arrangements.

The Secretary of State recently asked the schools adjudicator to report on the admissions of twins to the same school, and to recommend any changes he thinks are needed. This report is due on 1 September 2009.

Sixth Form Education: Admissions

Mr. Wallace: To ask the Secretary of State for Children, Schools and Families how many sixth form places for schools in Lancashire in 2009-10 *(a)* were provisionally allocated and *(b)* have been confirmed. [271301]

Sarah McCarthy-Fry: The Department does not collect information on the number of sixth form places allocated.

Special Educational Needs: Disadvantaged

Tim Loughton: To ask the Secretary of State for Children, Schools and Families in which *(a)* special and *(b)* mainstream schools more than 50 per cent. of pupils were on free school meals, more than four per cent. of pupils were children in care, and more than 20 per cent. of pupils had statements of special educational needs in the last period for which figures are available. [260504]

Sarah McCarthy-Fry: In January 2008 there were no maintained primary or state-funded secondary schools with more than 50 per cent. of pupils eligible for free school meals and more than 4 per cent. of children in care and more than 20 per cent. of pupils with a statement of special educational need. The requested information on special schools is shown in the following table.

Information on pupils eligible for free school meals includes dually registered pupils. Information on pupils with a statement of special educational needs excludes dually registered pupils. Information on children in care is usually sourced from the looked after children database but this cannot be used to answer this question as it does not identify the school each child attends. However, data on pupils in care are also collected via the School Census.

This census shows that there were 34,390 pupils aged five to 19 attending primary, secondary and special schools classed as being in care as at January 2008. Data published by the Department as SFR 23/2008: Children looked after in England (including adoption and care leavers) year ending 31 March 2008, show 47,600 children aged between five and 19 as being looked after as at 31 March 2008. However the School Census does not cover all looked after children; information is not collected for pupils in alternative provision, including pupil referral units, FE colleges, voluntary provision and those not in education or training. These differences in coverage will explain the different counts to an extent, but it is possible that the School Census undercounts the number of looked after children in primary, secondary and special schools.

The Department is working on a project to match the looked after children database to the national pupil database. If successful this would enable us to produce analysis for looked after children on a range of attainment indicators and characteristics, including information on free school meals and special educational needs. We are hoping to report on the findings including on the robustness of the matching exercise by the end of 2009.

Special schools with more than 50 per cent. of pupils on free school meals[1], more than four per cent of pupils who were children in care[2] and more than 20 per cent. of pupils had statements of special educational needs[3]—Position in January 2008

[1] Includes dually registered pupils and boarding pupils.

[2] Includes solely and dually registered pupils aged five to 19 classed as being in care. Number of pupils recorded as being in care on the day of the School Census. We know from comparing data from the School Census with data from the DCSF's two main statistical collections on looked after children that there may be a degree of under-reporting in the School Census return of pupils who are looked after.

[3] Excludes dually registered pupils.

Written Answers to Questions

Wednesday 29 April 2009

HOUSE OF COMMONS COMMISSION

Parliament Square: Access

Mr. Amess: To ask the hon. Member for North Devon, representing the House of Commons Commission, what discussions the House authorities have had with the Metropolitan police on vehicular access to the parliamentary estate from Parliament Square since 20 April; and if he will make a statement. [272172]

Nick Harvey: I refer the hon. Member to the answer I gave on 27 April 2009, *Official Report*, column 1000W.

DEFENCE

Armed Forces: Cycling

Nick Harvey: To ask the Secretary of State for Defence what steps his Department is taking to ensure the provision of cycle-to-work schemes to members of each armed service. [271290]

Mr. Kevan Jones: The MOD has chosen not to adopt the specific Cycle-To-Work (C2W) scheme for Service Personnel (SP); instead it encourages greater cycle use under an equivalent scheme. Under the current arrangements eligible SP can claim a non-taxable benefit in the form of Home to Duty Travel allowance (Pedal Cycle) which reimburses them for commuting to work on bicycles. This is paid at a daily rate based upon the distance cycled. An internal review in June last year showed that this allowance is more advantageous than the likely benefits available under the C2W scheme.

The MOD is committed to promoting healthier lifestyles and reducing pollution wherever possible, and policies to encourage greater use of bicycles are kept under regular review.

Atomic Weapons Establishment

Nick Harvey: To ask the Secretary of State for Defence what the objectives are of the Threat Reduction Division at the Atomic Weapons Establishment; and how many staff are employed in this division. [271266]

Mr. Quentin Davies: The Threat Reduction Division at the Atomic Weapons Establishment (AWE) currently employs some 140 staff, drawing on expertise as necessary from other parts of the AWE workforce to support its tasking objectives. The Threat Reduction Division supports four work-streams:

Nuclear Treaty Verification (including arms control verification research and support to the Comprehensive Test Ban Treaty Organisation).

Nuclear Accident Response.

Counter Radiological and Nuclear Terrorism.

Nuclear Intelligence.

The detailed tasks and objectives within the four work-streams are being withheld as their release would, or would be likely to, prejudice national security.

Defence Medical Services: Contracts

Nick Harvey: To ask the Secretary of State for Defence how much his Department has spent in employing private contractors in defence medical services in each of the last five years. [271398]

Mr. Kevan Jones: I refer the hon. Member to the answer I gave him on 20 April 2009, *Official Report*, columns 61-62W.

Departmental Billing

John Mason: To ask the Secretary of State for Defence what percentage of invoices from suppliers his Department paid within 10 days of receipt in each of the last five months. [271855]

Mr. Quentin Davies: Performance figures, for the last five months, against the Government's agreed 10 day payment target are shown in the table:

	Percentage
November 2008	72.3
December 2008	85
January 2009	80
February 2009	85
March 2009	90.7

Departmental Official Hospitality

Mr. Rob Wilson: To ask the Secretary of State for Defence what his Department's entertainment budget was in each of the last five years. [261105]

Mr. Kevan Jones: Official entertainment is typically offered where we host foreign Defence Ministers, armed forces representatives and civilian officials in the UK to use our influence to prevent conflict, pursue UK security policy interests and enhance professional contacts. Commanding Officers may include entertainment in events for members of their unit to enhance and develop cohesiveness and team spirit. We may also include entertainment to further wider public understanding of defence, for example during an official parliamentary visit to a military unit or where we are launching a major defence initiative. Entertainment, which must be modest, usually takes the form of light refreshments, lunches, dinners or, more rarely, receptions.

We have reported the costs of entertainment in our annual report.

These figures include expenditure by the Defence Agencies, but not by the MOD's Trading Funds and Executive Non Departmental Public Bodies, which lie outside the MOD's accounting boundary.

Expenditure is incurred according to business need and subject to prior approval and compliance with departmental rules and the principles of propriety set out in Managing Public Money and the Treasury's handbook on Regularity, Propriety and Value for Money.

Copies of our Annual Report and Accounts are available in the Library of the House and online under the MOD Publication Scheme at:

http://www.mod.uk/DefenceInternet/AboutDefence/CorporatePublications/AnnualReports/

Departmental Rail Travel

Mr. Hurd: To ask the Secretary of State for Defence what guidance his Department has issued to its staff on claims for travel in first class carriages on trains if there are no seats in standard class. [268442]

Mr. Kevan Jones: Some military and civilian personnel are entitled to a certain standard of rail travel based on their rank or grade, and some of this involves rail travel at first class. Although some may utilise this, they are actively encouraged to consider whether it is needed, or whether the business can be conducted through alternative measures (e.g. video-conferencing).

There is no specific guidance on what staff with a standard class entitlement should do if no standard class seats are available; we would expect staff to weigh up the available options at the time and to minimise expenditure as far as possible.

WORK AND PENSIONS

Carer's Allowance

Norman Lamb: To ask the Secretary of State for Work and Pensions whether provision for uprating the carer's allowance has been made in the 2009 Budget. [271803]

Ms Rosie Winterton *[holding answer 28 April 2009]:* As announced in the 2009 Budget, the Government will at least maintain the cash value of all benefits, tax credits and personal tax allowances and thresholds in April 2010.

Child Maintenance and Enforcement Commission: Complaints

Chris Ruane: To ask the Secretary of State for Work and Pensions how many complaints he has received on the introduction of the Child Maintenance and Enforcement Commission's CS2 computer system. [265480]

Kitty Ussher: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty, dated 29 April 2009:

In reply to your recent Parliamentary Question about child maintenance, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions how many complaints he has received on the introduction of the CS2 Child Maintenance and Enforcement Commission. [265480]

In order to interpret the question correctly, clarification was sought from your office. They confirmed that you wanted to know (a) the overall number of complaints received since responsibility for the Child Support Agency transferred to the Commission and (b) the number of complaints received that have been specifically about the transfer.

The Child Maintenance and Enforcement Commission took responsibility for the Child Support Agency on the 1st November 2008. The latest data available shows that in the following two months a total of 4,469 complaints were received, slightly less than the figure for the same period the previous year.

The Commission has been able to identify 18 complaints which were categorised as relating to 'Phasing/Transfer to New System', the most relevant category available. This would include complaints relating to difficulties arising from the 2003 review of the child maintenance system. Discussions with caseworkers, management and the Client Relations Director however, suggest there have been few, if any, complaints relating specifically to the transfer to the Commission.

I hope you find this answer helpful.

Children: Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what progress has been made in respect of those cases which were not transferred from the old to the new child support scheme. [267689]

Kitty Ussher *[holding answer 30 March 2009]:* The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to my right hon. Friend with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about child support, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as child support is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, what has happened to the so-called lost cases that were not transferred from the old to the new child support scheme. [267689]

At the end of December 2008 there were 628,200 cases on the original or old child maintenance scheme, these cases are not lost but continue to be managed by the Child Support Agency. As you will be aware, the problems encountered by the Child Support Agency following the launch of the Reforms in 2003 resulted in a decision to defer the bulk transfer of cases from the old scheme to the current child support scheme. This decision was kept under review until February 2006 when the Government asked Sir David Henshaw to review the entire system of child maintenance. His subsequent report led to the Government's White paper and to the Child Maintenance and Other Payments Act 2008, which makes provision for a new system of child maintenance intended to be in place from 2011.

Consequently, there will not be an opportunity to transfer cases from the original, or old, child maintenance scheme to the current scheme introduced by the reforms in 2003. Instead, we expect a new gross income statutory maintenance scheme to be introduced in 2011, and that all clients on either existing scheme will then be invited either to apply to the new gross income scheme or make a private arrangement. It is currently planned that this process will take around three years, after which both of the existing schemes will close.

I hope you find this answer helpful.

Jobcentre Plus: Telephone Services

Steve Webb: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Inverness, Nairn, Badenoch and Strathspey, of 5 March 2009, *Official Report*, columns 1794-5W, on

Jobcentre Plus: telephone services, how many calls were received by benefit contact centres in each month in each of the last three years. [269290]

Jonathan Shaw: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked the acting chief executive to provide the hon. Member with the information requested.

Letter from Mel Groves, dated 29 April 2009:

The Secretary of State has asked me to reply to your question asking how many calls were received by benefit contact centres in each month in each of the last three years. This is something that falls within the responsibilities delegated to me as acting chief executive of Jobcentre Plus.

Jobcentre Plus uses contact centres for a number of services including new claims to benefit (but excluding benefit enquiries). The table below provides information on the total number of calls received by Jobcentre Plus contact centres in each month of the last three years, from March 2006 to February 2009 inclusive:

Calls received by Jobcentre Plus contact centres

	2005-06	*2006-07*	*2007-08*	*2008-09*
April	—	1,347,920	1,270,097	1,373,527
May	—	1,410,836	1,494,634	1,599,042
June	—	1,947,139	1,385,229	1,558,995
July	—	1,602,935	1,503,454	1,881,447

March	1,911,805	1,804,525	1,357,724	—

Notes:
1. Contact centres went on line in March 2006.
2. Data for March 2009 is not yet available.

Source:
Centrevu, Opmis and Brio

I hope this information is helpful.

Motability

Mary Creagh: To ask the Secretary of State for Work and Pensions whether he plans to extend the Motability scheme to people experiencing negative effects from the administration of thalidomide. [270943]

Jonathan Shaw: The Motability scheme is open to anyone who has qualified for the higher rate Mobility component of Disability Living Allowance or War Pensioners' Mobility Supplement and has an award length of sufficient duration.

There are no plans to change eligibility to the Motability scheme.

Social Security Benefits: Medical Examinations

Mr. Denis Murphy: To ask the Secretary of State for Work and Pensions (1) how many medical examinations were referred to Atos Healthcare by his Department in each region in the last 12 months; [264501]

(2) how many face-to-face examinations were carried out by Atos Healthcare on behalf of his Department in *(a)* the claimant's home and *(b)* each of the medical examination centres in the last 12 months. [264502]

Jonathan Shaw: The number of medical referrals made to Atos Healthcare from DWP between 1 March 2008 and 28 February 2009 is 1,767,720. There is no data available by government office region. The information provided is at a national level.

These figures relate to all referrals made to Atos Healthcare and not all of these relate to face to face examinations. The total number of face-to-face examinations carried out in the claimant's home between 1 March 2008 and 28 February 2009 is 47,550. The number of face to face examinations carried out for the same period in each of the Medical Examination Centres is in the following table.

Medical Services

Temporary Employment

Mr. Philip Hammond: To ask the Secretary of State for Work and Pensions what his estimate is of the number of temporary workers living in households with incomes below 60 per cent. of the national median. [271237]

Kitty Ussher: This information is not available, as it is not captured in the Family Resources Survey, the data source underlying the "Households Below Average Income 1994/95 to 2006/07" publication.

Unemployment: Young People

Mr. Streeter: To ask the Secretary of State for Work and Pensions how many people in Plymouth under the age of 21 years were not in education, employment or training in each of the last three years. [270962]

Beverley Hughes: I have been asked to reply.

Connexions Services provide the Department with an estimate of the number and proportion of 16-18 year olds not in education, employment or training, and this information is available on the 14-19 website:

http://www.dcsf.gov.uk/1419/index.cfm?go=site.home&sid=42&pid=343&lid=337&ctype=Text&ptype=Single

Figures for Plymouth for each of the last three years are shown in the following table.

Equivalent information is not available for young people aged between 19 and 21.

16-18 year olds NEET

	Number	*Proportion (Percentage)*
2006	710	7.4
2007	640	6.8
2008	690	7.4

Vacancies

Mr. Newmark: To ask the Secretary of State for Work and Pensions how many job vacancies in *(a)* Braintree constituency, *(b)* Essex and *(c)* England were notified to jobcentres in (i) 2006, (ii) 2007 and (iii) 2008. [264442]

Mr. McNulty: The information requested is shown in the following tables.

Total number of notified job vacancies in England, Essex local authority and Braintree parliamentary constituency

Notes:

1. Data are unrounded.
2. Changes to Jobcentre Plus vacancy handling procedures have led to a major discontinuity in the vacancy statistics pre- and post-May 2006. Consequently, care should be taken in interpreting time-series data.
3. These are not whole economy figures. Coverage relates just to vacancies notified to Jobcentre Plus and as such represent a market share of vacancies throughout the whole economy. This proportion varies over time, according to the occupation of the vacancy and industry of the employer, and by local area.
4. Comprehensive estimates of all job vacancies (not just those notified to Jobcentre Plus) are available from the monthly ONS Vacancy Survey since April 2001, based on a sample of some 6,000 enterprises. However, the ONS survey is currently designed to provide national estimates only.
5. Notified vacancies. Monthly data on the inflow of newly notified vacancies to Jobcentre Plus.

Jobcentre Plus Labour Market System.

Workstep

Derek Conway: To ask the Secretary of State for Work and Pensions how many people in each category of disability have been assisted through the Workstep programme since it was introduced. [261787]

Jonathan Shaw: The available information is in the table.

Number of individuals who received supported employment between 1 April 2001 and 1 December 2008

Main disabling condition	*Number of individuals*
All	32,450
Conditions Restricting Mobility Dexterity	5,480
Visual Impairment	1,580
Hearing and/or Speech Impairment	1,590
Long-term Medical Conditions	1,440
Learning Disability	10,210
Mental Health	3,050
Neurological Conditions	2,150
Other Health Conditions	1,360
Prefer not to say	1,590
Unknown	4,000

Notes:

1. Figures are rounded to the nearest 10
2. The table shows the number of individuals who have been in supported employment for at least one day between 1 April 2001 and 1 December 2008.
3. An individual can be counted only once. If a person has more than one supported employment spell in the period, then their first spell and associated main disabling condition at that time is counted.

LEADER OF THE HOUSE

House of Commons: Right of Access

Mr. Amess: To ask the Leader of the House if she will bring forward proposals to reintroduce a Sessional Order to require the Commissioner of the Police of the Metropolis to ensure that hon. Members are not obstructed in going to and from the parliamentary estate. [271253]

Chris Bryant: It is important that both hon. Members, staff and the general public are not prevented or hindered from attending the House by demonstrations or other assemblies around Parliament, and that people have the right to engage in legitimate protest.

The Sessional Order did not grant the police any additional powers to maintain access to the parliamentary estate. The draft Constitutional Renewal Bill contained provisions relating to the policing of protests around Parliament. The Government are considering how best to take this matter forward in the light of the Joint Committee's recommendations.

Private Members' Bills

Dr. Kumar: To ask the Leader of the House if she will bring forward proposals to provide more time for consideration of private Members' Bills. [271084]

Chris Bryant: We have no current plans to do so.

WALES

Newspaper Office Closures

8. **Julie Morgan:** To ask the Secretary of State for Wales what recent discussions he has had with Welsh Assembly Government Ministers on the effect of the closure of newspaper offices on levels of employment in the media industry in Wales. [270725]

Mr. David: I recognise the valuable role played by local newspapers within our communities and any office closures are of course regrettable. The Secretary of State and I are working closely with the Welsh Assembly Government and ministerial colleagues to ensure that a way forward is found for the media industry in Wales as a whole.

Energy Policy

9. **Mr. Harper:** To ask the Secretary of State for Wales what recent discussions he has had with Ministerial colleagues and the Welsh Assembly Government on energy policy affecting Wales. [270726]

Mr. Paul Murphy: I have regular meetings with the First Minister at which we discuss a number of issues including energy policy.

I have also recently met with a number of representatives of the energy sector to discuss projects and issues relating to Wales.

Private Security Industry

10. **Hywel Williams:** To ask the Secretary of State for Wales what recent discussions he has had with ministerial colleagues on the use of registered and unregistered workers in the private security industry working on contracts with public sector bodies in Wales. [270727]

Mr. David: I am not aware of any instance when any unregistered workers are illegally employed on contracts with public sector bodies in Wales. As the hon. Gentleman is no doubt aware, the Private Security Industry Act of 2001 states that security companies can only operate with employees who hold a Security Industry Authority Licence.

Bilingual Juries

11. **Mr. Llwyd:** To ask the Secretary of State for Wales what discussions he has had with the Secretary of State for Justice on the use of bilingual juries in courts in Wales. [270729]

Mr. Paul Murphy: I have discussed this issue with the Secretary of State for Justice and with the First Minister and an announcement will be made shortly.

Sheep Farming

12. **Mr. Robathan:** To ask the Secretary of State for Wales what recent discussions he has had with Welsh Assembly Government Ministers on the likely effect on the sheep farming industry in Wales of compulsory electronic ear tagging. [270730]

13. **Mr. Bellingham:** To ask the Secretary of State for Wales when he next expects to meet representatives of the National Farmers Union in Wales to discuss proposals for the electronic tagging of sheep. [270731]

Mr. David: My right hon. Friend and I have regular meetings with Welsh Assembly Government Ministers on a range of issues including farming in Wales. In addition my right hon. Friend attended the Royal Welsh Show in July last year and met farmers' unions.

Business: Government Assistance

John Robertson: To ask the Secretary of State for Wales what recent discussions he has had with Welsh Assembly Government Ministers on support for businesses in Wales in the economic downturn. [270719]

Mr. Paul Murphy: Working in close partnership, the UK Government and the Welsh Assembly Government are doing all we can to help Welsh businesses and households through these challenging times.

CULTURE, MEDIA AND SPORT

Archaeological Sites: Planning Permission

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport if he will make it his policy to devolve to local authorities the power to grant planning consents in respect of archaeologically important sites. [270794]

Barbara Follett: This can only be taken forward through primary legislation. We hope to introduce the Heritage Protection Bill at the earliest opportunity, subject to the availability of parliamentary time.

Battles

Bob Russell: To ask the Secretary of State for Culture, Media and Sport whether his Department has had recent discussions with representatives of the Battlefields Trust on the protection of sites of historic battles in England; and if he will make a statement. [271050]

Barbara Follett: I am having discussions with the Battlefields Trust on how these sites can contribute to tourism and become educational learning resources.

English Heritage, the Government's statutory adviser on the historic environment, is also working closely with the Battlefields Trust to protect the 43 registered battlefields in England. For example, English Heritage has just offered the trust a grant to support its conservation work, including expanding its network of volunteers to create local champions for every registered battlefield in England.

Conservation Areas

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport if he will bring forward proposals to merge the process of gaining conservation area consent with that for gaining planning permission. [270793]

Barbara Follett: This can only be taken forward through primary legislation. We hope to introduce the Heritage Protection Bill at the earliest opportunity, subject to the availability of parliamentary time.

Cultural Heritage: Seas and Oceans

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport if he will bring the registers for listing, scheduling, registration and designation of marine sites together into one register. [270791]

Barbara Follett: This can only be taken forward through primary legislation. We hope to introduce the Heritage Protection Bill at the earliest opportunity, subject to the availability of parliamentary time. In the interim, as part of the non-statutory heritage protection reform programme, English Heritage will bring together all of these separate registers on to a fully accessible, integrated, searchable online database.

Digital Technology

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport pursuant to the Digital Britain Interim Report, how much his Department has budgeted for the planned National Media Literacy Plan. [271208]

Andy Burnham *[holding answer 27 April 2009]:* In response to the Interim Digital Britain Report, Ofcom convened a working group which has made recommendations for a National Media Literacy Plan. This was published on 16 April and is available on Ofcom's website (www.ofcom.org.uk). No decisions have yet been taken on their recommendations and therefore no budget has yet been allocated.

We shall respond in the final Digital Britain report which will be published in the summer.

Listed Buildings

Richard Younger-Ross: To ask the Secretary of State for Culture, Media and Sport if he will make it his policy to grant owners of properties a right to appeal against a listing decision taken in respect of their property. [270795]

Barbara Follett: The Secretary of State for Culture, Media and Sport cannot introduce a formal right of appeal against a listing decision without primary legislation. A mechanism already exists that enables people to seek a review of a listing decision if they consider a decision about a building has been wrongly made. Anyone can write to the Listing Branch at the Department for Culture, Media and Sport, 2-4 Cockspur Street, London, SW1Y 5DH requesting that a decision be reconsidered. This should be done within 28 days of notification of the listing decision. An example of a wrongly made decision would be where there has been a factual error or some irregularity in the process, which has affected the outcome.

Overseas Visitors: Statistics

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport for what reason the publication of statistics on foreign visitor numbers to the UK for the first quarter of 2009 was delayed. [271209]

Barbara Follett *[holding answer 27 April 2009]:* The Office for National Statistics (ONS) is responsible for publication of the numbers of foreign visitors to the UK. They advise that their Overseas Travel and Tourism First Release document, which was due to be published on 16 April 2009, has been cancelled. This was to allow further quality assurance work to be carried out on the newly designed survey and processing system being used on the International Passenger Survey in 2009.

The ONS will next publish the Overseas Travel and Tourism figures on 14 May 2009 and this will include the figures for January, February and March 2009.

Public Libraries: Inspections

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what inspections the Museums, Libraries and Archives Council undertakes of local authority libraries. [271227]

Barbara Follett: The Museums, Libraries and Archives Council (MLA) does not have a statutory role to undertake inspections, but it does provide guidance and advice on best practice to local authority library services. These can include peer reviews of individual services. As the Government's strategic adviser on libraries, the MLA feeds back intelligence and advises on library policy.

Swimming

Mr. Wallace: To ask the Secretary of State for Culture, Media and Sport what guidelines his Department issues to county councils on the provision of swimming facilities. [271413]

Andy Burnham: Sport England have advised that guidelines regarding the strategic planning and development of swimming pools is available from their website at:

http://www.sportengland.org/se_facilities_swimming_pool_dgn_complete_v001-2.pdf

In addition, the Amateur Swimming Association also provides advice on swimming pool development in general, and specifically on technical and operational issues.

Tourism: Transport

Mr. Sanders: To ask the Secretary of State for Culture, Media and Sport what recent discussions his Department has had with the Department of Transport on support for the domestic tourism industry through *(a)* the rail network, *(b)* public bus services and *(c)* road construction. [271605]

Barbara Follett: The Department for Culture, Media and Sport worked with the Department for Transport on the development of our "Sustainable tourism in England: A framework for action—meeting the key challenges" document, which we published in March 2009. An electronic copy of this has been deposited in the House Library.

In addition, we will be convening a joint meeting of ministerial colleagues shortly, including one from the Department for Transport, to discuss cross-cutting issues relevant to the promotion of the visitor economy.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Subsidies

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many farmers transferred their entitlements under the Single Payment Scheme in each year since 2005; [270897]

(2) what the monetary value of transferred entitlements under the Single Payment Scheme has been in each year since 2005; [270898]

(3) how many transferred entitlements under the single payment scheme from each year since 2005 are awaiting payment; and what estimate he has made of the monetary value of such outstanding payments in each such year. [270899]

Jane Kennedy: The number of farmers who have transferred entitlements and the total monetary value of entitlements transferred under the Single Payment Scheme (SPS) for each scheme year is:

SPS scheme year	*Number of farmers*	*Total value (euros)*
2006	3,625	44,622,442.69
2007	5,143	61,112,045.31
2008	5,282	63,602,726.63

Farmers were only permitted to transfer entitlements for the 2006 SPS year onwards.

There are approximately 300 farmers involved in transfers for 2006, 2007 and 2008 whose entitlements are still undergoing correction which may affect these figures.

The total number of transfers for the 2009 SPS year will not be available until the processing of all transfer applications has been completed. To date, for 2009 around 2,000 farmers have transferred entitlements with an estimated valued of 22 million euros.

It is not possible to estimate the number or the monetary value of outstanding payments. Even though an entitlement has been transferred, the farmer receiving the entitlement may not necessarily have activated it on his SPS claim. An entitlement that has not been activated will not attract a payment for that scheme year. Therefore transfers of entitlements do not correlate directly into payments under the SPS.

Departmental Buildings

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs what properties his *(a)* Department and *(b)* Department's (i) executive agencies and (ii) the non-departmental public bodies have sold in each of the last five years; and how many of these have been sold for housing development. [266493]

Huw Irranca-Davies: Shown in the following table from the available departmental records are the numbers of disposals of surplus land and buildings noted as completed by the Department, including its executive agencies, during the period in question with the number of sites specifically sold for housing noted against each year:

	Sites sold for housing	*Number of property holdings*
2004-05	0	6
2005-06	1	13
2006-07	0	7
2007-08	0	8
2008-09	1	14

The Department does not currently hold details of disposals for its non-departmental public bodies.

Departmental Public Expenditure

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what efficiency savings his Department has made in each of the last three years; and what estimate he has made of the amount saved by such means in each year. [269528]

Huw Irranca-Davies: DEFRA has delivered significant efficiencies during the last three years. We report on the delivery against our efficiency targets twice yearly, in the departmental and autumn performance reports.

2006-07 and 2007-08 (years 2 and 3 of the 2004 Spending Review period)

Under the 2004 Spending Review (SR04), DEFRA was required to deliver by the end of 2007-08 efficiencies of £610 million compared with 2004-05. At the end of March 2008, DEFRA had delivered total net financial efficiency gains of £752 million per year, with £433 million arising from the Department together with its executive agencies and non-departmental public bodies (NDBPs) and £357 million from local authorities. Even after carrying forward £38 million cashable and sustainable gains to the 2007 comprehensive spending review (CSR07), DEFRA's efficiency programme (excluding local authorities) delivered a total of £84 million financial gains in excess of its target for the SR04 period. The table details the progress made in delivery by area in both 2006-07 and 2007-08 (2007-08 figures are cumulative across the SR04 period) against the SR04 savings baseline.

£ million

Initiative	*Original target*	*Efficiency gains*	
		2006-07	*2007-08*
Departmental Reform	14	9	11
E-nabling and IT	11	13	22
Corporate services reform	3	6	7
Environment Agency	73	91	129
England Rural Development Programme IT	30	15	15
Catalyst	8	0	0
Animal Health (was the State Veterinary Service)	4	4	7
Rural Payments Agency Change Programme	52	0	0
Emissions Trading	43	2	43
Procurement	30	56	101
Executive Agencies	17	27	55
Modernising Rural Delivery	13	10	14

Other	10	7	17
Sub-Total	311	245	433
Waste Management	299	248	357
Total	610	493	[1]790

[1] Total efficiencies delivered, of which £38 million was carried forward to CSR07 resulting in net saving of £752 million.

Note:

Totals may not sum due to rounding

2008-09 (year 1 of the 2007 comprehensive spending review period)

Full year efficiency savings delivered in 2008-09 are still being validated for inclusion in the 2009 departmental report. Our latest published progress report, for the first half of 2008-09, was included in DEFRA's autumn performance report published in December 2008 at:

www.defra.gov.uk/corporate/apr/apr2008.pdf

At the end of September 2008, the Department had, subject to further validation, confidence in delivering £218 million of full year savings against its target for 2008-09 of £228.4 million. Delivery of savings up to the end of September included the following:

Over delivery of SR04 efficiency savings: £19 million.

Allocative savings: £41 million, based on reduced input costs in lower value activities, allowing savings to be released and factored into budgets for higher value activities, leading to improved outputs.

Delivery of other value for money improvements including:

programme areas following zero based reviews: £14 million;

minor programmes and projects: £11 million; and

cross-departmental core functions: £12 million.

DEFRA's original CSR07 target of £379 million was reduced to £306 million following the creation of the Department for Energy and Climate Change (DECC) in October 2008 and the transfer of elements of the target—and delivery against these—to DECC. However, it has now been increased by an additional £75 million to £381 million to reflect DEFRA's contribution to additional cross-Government VfM savings confirmed in the 2009 Budget. A full report on delivery in 2008-09 will be published in the next departmental report.

Departmental Training

Grant Shapps: To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and who provided such training. [268608]

Huw Irranca-Davies *[holding answer 2 April 2009]:* Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Domestic Waste: Waste Disposal

Charles Hendry: To ask the Secretary of State for Environment, Food and Rural Affairs what volume of doorstep waste was collected by each local authority in the latest period for which figures are available, ranked in descending order; and what proportion of the total domestic waste generated in each local authority area that figure represents, ranked in descending order. [270955]

Jane Kennedy *[holding answer 24 April 2009]:* I am arranging for a table showing the information requested to be placed in the Library of the House.

Fishing Catches

Mr. Cox: To ask the Secretary of State for Environment, Food and Rural Affairs if he will estimate the level of over-fishing undertaken by foreign trawlers in the Bristol channel. [271121]

Huw Irranca-Davies: The inner parts of the Bristol channel are considered Internal Waters eastward of a base-line between approximately Worms Head and Morte Point. No foreign vessels are allowed to fish within six miles to the west of this line. Beyond that in the UK six to 12 mile belt, only French and Belgian vessels have any access to fish.

Levels of fishing effort and catches of quota species by all member state vessels outside the six mile limit may be subject to both EU and member state controls. Overfishing of days or quotas by vessels flying the flag of other member states is a matter for the respective member states' enforcement authorities. The Marine and Fisheries Agency direct fishery protection activity, conducting inspections at sea within UK fishing limits and in UK ports to ensure that vessels from all member states are completing logbook records of their catches correctly. Most, if not all, of the other member state vessels fishing in the Bristol channel and the Celtic sea are above 15 metres in overall length. They are therefore also monitored by satellite position reports sent to the UK Fishery Monitoring Centre in the Marine and Fisheries Agency headquarters in London.

Hydroelectric Power

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs what the evidential basis is for his Department's policy proposal to require a mandatory screen installation programme for all waterway abstractions. [271851]

Huw Irranca-Davies: Extensive evidence and reference to fish entrapment by abstractions was given in the Salmon and Freshwater Fisheries Review 2000. The proposed regulations would extend the current arrangements for salmon to other freshwater fish species, to be applied on a risk-based approach and to fulfil the water framework directive requirements. It is not intended to require mandatory screening of all abstractions.

Tim Farron: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications for abstractions and empowerment of hydro energy schemes have been *(a)* received and *(b)* approved by the Environment Agency in each month of the last five years. [271859]

Huw Irranca-Davies: The number of abstraction and impounding licence applications received and new licences granted for hydropower schemes is given in the following tables. The Environment Agency introduced a national water resources authorisations receipt tracking system in November 2008. As a result, data on the number of applications received are only available from November onwards.

Abstraction and impoundment applications received for hydropower

Month	*Number*
2008	
November	1
December	4
2009	
January	1
February	5
March	8
April	5
Total	24

Total	11	23	15	16	15	13
	—	—	—	—	—	93

Recycling: Schools

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance his Department gives local authorities on the provision of services to collect recyclates from schools. [271659]

Jane Kennedy: The DEFRA funded Waste and Resources Action Programme (WRAP) is providing a training programme which aims to equip local authority waste and recycling officers with the knowledge and skills to implement effective recycling schemes in schools.

WRAP also provides resources for schools, including web-based tools to help schools to put recycling into practice, and targeted teaching resources for primary and secondary schools.

Waste Disposal: Fees and Charges

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 27 January 2009, *Official Report*, column 334W, on waste disposal: fees and charges, whether his Department plans to invite further bids for pilots for charges for the collection of household waste; and whether post-deadline bids will be accepted. [270143]

Jane Kennedy: We are not actively inviting bids. However the provisions which were requested by local authorities and the Local Government Association remain on the statute book. A local authority is therefore at liberty to submit a proposal which would receive due consideration.

Water Charges

James Brokenshire: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the hon. Member for Stroud of 19 January 2009, *Official Report*, columns 1015-6W, on water charges, what conclusions he has drawn from his most recent assessment of the effect on youth and community groups of changes to surface water charges; and what steps he plans to take in respect of the affordability of surface water charges by such groups. [268613]

Huw Irranca-Davies: Ministers have repeatedly said that something is very wrong if customers such as community sports clubs and properties owned by scout associations are facing massive increases in bills as a result of the switch to site area charging for surface water drainage by some water companies.

Under the Water Industry Act 1991 it is for companies to propose schemes of charges and for Ofwat, as the independent economic regulator for the water industry, to approve them. Government guidance issued to Ofwat in 2000 states that surface water drainage charges for non-household customers should be set in a way that is sensitive to the actual use of the service by different types of premises and that the phasing in of any large, sudden changes in charges should be considered.

United Utilities, where the problems have mostly arisen, has now announced that it will set its surface water drainage charges for 2009-10 at 2007-08 levels for faith buildings, community amateur sports clubs (and similar sports clubs) and properties owned by scout and guide associations and will develop a long term solution for 2010-11 and beyond. The Government will continue to monitor this issue and engage further with Ofwat as necessary.

Welsh Language

Mrs. Gillan: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the cost to his Department of establishing the Welsh-language function for each *(a)* customer call centre and *(b)* helplines operated by his Department and its agencies that operate in Welsh. [261987]

Huw Irranca-Davies: The DEFRA helpline does not offer currently a dedicated Welsh speaking hel[illegible] but the service provider employs two Welsh spea[illegible] who could be transferred if needed by DEFRA particularly during a contingency or emergency. Additionally, the helpline provider has access to the Language Line service who provide simultaneous language translators, including for Welsh.

The Rural Payments Agency operate a Welsh speaking helpline for the British Cattle Movement Service, at an annual cost of £129,866 inclusive of overtime, ERNIC and superannuation.

Wildlife: Electromagnetic Fields

Lembit Öpik: To ask the Secretary of State for Environment, Food and Rural Affairs what research his Department has *(a)* commissioned, *(b)* evaluated and *(c)* undertaken on the effects on (i) the health of wildlife, (ii) wildlife habitats and (iii) wildlife diversity of electro-magnetic fields in the last 10 years; and if he will make a statement. [270783]

Huw Irranca-Davies: DEFRA has not commissioned any research on the effects of electromagnetic fields on the health of wildlife, wildlife habitats or wildlife diversity in the last 10 years. We commission biodiversity research based on priority need, which is currently focused on delivery of the UK Biodiversity Action Plan and increasing our understanding of the factors that can affect biodiversity, such as climate change.

TRANSPORT

A303: Stonehenge

Mr. Ellwood: To ask the Secretary of State for Transport what his policy is on dualling the A303 in the area of Stonehenge; and if he will make a statement. [illegible]

Paul Clark: In December 2007 the Government announced the cancellation of the A303 Stonehenge improvement scheme due to a significant escalation in scheme costs. Following our decision to give regions a greater role in determining priorities for major transport schemes with indicative allocations, it is for the south west region to advise on the relative priority of improvements to the A303 alongside other proposed schemes in the region.

The region's recent advice on its funding priorities recommends an allocation for localised improvements of the A303, to be identified through a study to be undertaken by the Highways Agency, but this does not include dualling the A303 in the area of Stonehenge or elsewhere on the route.

We expect to be in a position to respond to the advice from the region by the summer.

Driving Tests: Derby

Mr. Todd: To ask the Secretary of State for Transport whether motorcycle rider tests will be conducted at test centres in Derby following the implementation of the new test modules. [271655]

Jim Fitzpatrick: Motorcycle test candidates in Derby are served by the new multi-purpose test centre at Burton on Trent for both modules of the new practical motorcycle test.

Burton on Trent is 15 miles from Derby city centre. The journey (avoiding motorways) should take less than 30 minutes.

Electric Vehicles: Safety

Mr. Dai Davies: To ask the Secretary of State for Transport what research his Department has *(a)* commissioned, *(b)* undertaken and *(c)* evaluated on sound-emitting electronic vehicles and the safety of blind pedestrians. [270770]

Jim Fitzpatrick: The Department for Transport has not commissioned, undertaken, or evaluated any research on this subject. Officials did discuss whether quiet vehicles posed a safety risk to blind pedestrians with the Guide Dogs for the Blind Association and Imperial College in late 2007. It was agreed that there was a lack of data on whether there is such a safety risk in practice. These organisations are considering conducting research on this issue, but we have not as yet seen any results from such work.

Railway Stations: Waste Disposal

Mrs. Spelman: To ask the Secretary of State for Transport if he will place in the Library a copy of the guidance issued by his Department to the railway station operators on the provision of refuse bins at railway stations. [271285]

Paul Clark: The National Railways Security Programme (NRSP), issued by the Department for Transport to Network Rail and train operating companies, includes requirements and guidance in relation to litter bins at stations. This is because litter bins have been used by terrorists in the past to conceal explosive devices. Due to the sensitive nature of security measures, I am unable to make the guidance public.

Railways: Finance

Norman Baker: To ask the Secretary of State for Transport how much compensation was paid to each train operating company in each case of *(a)* variations made to franchises and *(b)* delays caused by problems with infrastructure or upgrades in each year since 1997. [270884]

Paul Clark: Compensation paid to franchise holders in respect of variations made to those franchises is commercially sensitive and cannot be published. Details of the total subsidy paid to train operating companies are published annually in National Rail Trends which is available in the Library of the House.

Compensation payable in respect of infrastructure upgrades is a matter between Network Rail and the relevant train operating company rather than the Department for Transport.

Railways: Repairs and Maintenance

Stephen Hammond: To ask the Secretary of State for Transport how many staff in his Department are working on the restoration of double tracks to railway lines; and how much funding has been allocated for such work in *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11. [271304]

Paul Clark: At least 10 officials in the Department for Transport are working with Network Rail on strategies and major projects that contain proposals for restoration of double tracks.

The detailed funding allocation by track doubling project by year is a matter for Network Rail. The hon. Member should contact Network Rail's chief executive at the following address for a response to his question:

Iain Coucher
Chief Executive
Network Rail
Kings Place
90 York Way
London N1 9AG

Stephen Hammond: To ask the Secretary of State for Transport what estimate he has made of the cost of adding a second track to the railway line between *(a)* Swindon and Kemble, *(b)* Yeovil and Exeter and *(c)* Oxford and Worcester. [271305]

Paul Clark: No estimate has been made by the Department for Transport. These railway lines are owned by Network Rail who are responsible for identifying work that may be required and estimating the cost of doing so.

Mr. Jim Cunningham: To ask the Secretary of State for Transport what major improvements have been made to the UK rail network in the last 12 months. [271475]

Paul Clark: A number of improvements have been made, including:

West Coast Main Line

The £8.9 billion West Coast Main Line upgrade was completed and the new timetable introduced on time in December 2008. This has delivered reduced journey times, an increase in capacity by allowing 45 per cent. more long distance trains out of London Euston, and a full seven-day week fast service to the West Midlands and the North West.

Thameslink

The £5.5 billion Thameslink Programme has already delivered platform extensions at Luton Airport Parkway and Mill Hill stations. Work is now underway at Blackfriars and Farringdon stations to allow 12 car trains to operate at these stations and to improve passenger circulation. Some new trains are now in passenger services on FCC routes, and the number of trains running through central London on the Thameslink route increased from eight to up to 15 per hour in peak hours. There are new journey opportunities for passengers travelling, for example between Bromley South and St. Pancras International with the introduction of additional trains on FCC routes and some Southeastern routes.

Waterloo Ticket Gates

In December 2008, on behalf of the Department, Network Rail (NR) completed the scheme to provide fully operational Automatic Ticket Gates (ATGs) on the main concourse and in the Peak Hour Subway (PHS) at Waterloo Mainline station—one of the busiest stations in London. The scheme was one of the largest of its type in Europe with 152 ATGs plus an additional 13 Wide Aisle gates being installed on the main concourse and in the PHS. The scheme is an essential element in the roll-out of Oyster and ITSO ticketing systems across the South Western network and across London.

Access For All

The Access for All Programme is continuing to install obstacle free, accessible routes into priority stations. 145 stations have been identified for enhancement through to 2015. 20 sites were completed in the last 12 months:

Station Name	*Completion date*
Boston	March 2008
Exeter Central	March 2008
Hazel Grove	May 2008
Orpington	May 2008
Sleaford	May 2008
Kingston	May 2008
Haslemere	May 2008
Purley	July 2008
Herne Hill	July 2008
Kidderminster	August 2008
Balham	August 2008
Mount Florida	September2008
Barrhead	November 2008
Kirkcaldy	January 2009
Bracknell	February 2009
Sandhills	January 2009
Fazakerley	March 2009

Station Name	*Completion date*
Oxted	March 2009
West Byfleet	March 2009
Rutherglen	March 2009

This makes 24 completed stations in total, and Network Rail expect to complete a further 20 during 2009-10. In addition, the Access for All Small Schemes Programme has awarded funding of £6.5 million towards a variety of access improvements with a total value of around £16.7 million at over 200 stations during the 2008-09 financial year.

Freight

The Government's Transport Improvement Fund is delivering improvements to freight routes to and from UK ports. In December 2008, the Olive Mount Chord in Liverpool was reinstated while works to Hampstead Heath tunnel have enabled container trains to divert during Olympic construction works on the North London Line.

Railways: South East

Stephen Hammond: To ask the Secretary of State for Transport what standards or requirements for catering provision on trains and at stations are included in the Southern Trains franchise; and if he will place in the Library a copy of the service level specification for that franchise. [271303]

Paul Clark: There is no specification for the provision of catering on trains or at stations within the current Southern franchise agreement. The Southern franchise agreement, including full details of the service specification, is published on the Department for Transport website at:

http://www.dft.gov.uk/pgr/rail/passenger/publicregister/current/shtn/

Rolling Stock

Norman Baker: To ask the Secretary of State for Transport what assessment he has made of the future role of the three principal rolling stock companies; and if he will make a statement. [270965]

Paul Clark: The three principal rolling stock companies are key players in the railway industry and we look forward to them continuing to play their part in the future.

South West Trains

Stephen Hammond: To ask the Secretary of State for Transport what requirements in relation to customer complaints are included in the South West Trains franchise; and if he will place in the Library a copy of the service level specification for that franchise. [271306]

Paul Clark: Details of South West Trains (SSWT) requirements for customer complaints are not contained within the Franchise Agreement.

The South West Trains Passenger Licence obliges them to have a Complaints Handling Procedure approved by the Secretary of State.

The South West Trains Complaints; Handling Procedure is available on the South West Trains website at:

https://www.southwesttrains.co.uk/SWTrains/Customerservice/Passengers+Charter.htm#Furtherinformation

The South West Trains Franchise Agreement, including full details of the service specification, is published on the Department for Transport website at:

http://www.dft.gov.uk/pgr/rail/passenger/publicregister/current/swt

Speed Limits: Castle Point

Bob Spink: To ask the Secretary of State for Transport what estimate he has made of the expenditure incurred in installing the average speed camera systems and signage on the A130 Canvey Way in Castle Point. [269870]

Jim Fitzpatrick: The Department for Transport has not made any estimate of the expenditure incurred in installing the average speed camera system and signage on the A130. Costs will have depended on the location and nature of the site and are entirely a matter for the Essex Road Safety Partnership.

Tintwistle Hollingworth and Mottram Bypass

Norman Baker: To ask the Secretary of State for Transport pursuant to the decision of the Highways Agency to withdraw from the public inquiry on the proposed A57/A628 bypass scheme, if he will review the potential use of the Woodhead tunnel by rail traffic. [270964]

Paul Clark: We are keeping the potential future use of the Woodhead tunnel by rail traffic under review as we will need to determine by 2011 whether the Victorian tunnels should be subject to an ongoing inspection and maintenance regime.

HEALTH

Alcoholic Drinks: Misuse

Andrew Stunell: To ask the Secretary of State for Health how many individuals aged over 65 years resident in each local authority area in the North West were treated for alcohol-related health problems in each year since 1997. [271176]

Dawn Primarolo: The information requested is not available in the format required. However, information from 2002-03 on patients aged 65 or over admitted to hospital, by local authority of residence, with an alcohol-related condition in the North West is shown in the following table:

	2002-03	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Bolton	1,157	1,266	1,417	1,558	1,739	1,918
Bury	890	903	1,089	1,176	1,255	1,471
Manchester	1,575	1,862	2,199	2,540	2,612	2,887
Oldham	1,137	1,088	1,133	1,188	1,286	1,418
Rochdale	1,087	1,099	1,316	1,448	1,575	1,844
Salford	1,203	1,237	1,367	1,589	1,826	2,025
Stockport	1,573	1,640	1,801	1,974	2,096	2,189
Tameside	715	751	1,109	1,254	1,476	1,661
Trafford	781	937	983	1,129	1,357	1,472
Wigan	1,743	1,907	2,140	2,337	2,581	2,752
Knowsley	863	869	972	1,016	1,079	1,188

Wyre	502	510	563	685	782	829

Notes:
Includes activity in English national health service hospitals and English NHS commissioned activity in the independent sector.
Alcohol-related admissions
The number of alcohol-related admissions is based on the methodology developed by the North West Public Health Observatory (NWPHO). Following international best practice, the NWPHO methodology includes a wide range of diseases and injuries in which alcohol plays a part and estimates the proportion of cases that are attributable to the consumption of alcohol. Figures for under 16s only include admissions where one or more alcohol-specific conditions were listed. This is because the research on which the attributable fractions are based does not cover under 16s. Alcohol specific conditions are those that are wholly attributed to alcohol—that is, those with an attributable fraction of one. They are:
Alcoholic cardiomyopathy
Alcoholic gastritis
Alcoholic liver disease
Alcoholic myopathy
Alcoholic polyneuropathy
Alcohol-induced pseudo-Cushing's syndrome
Chronic pancreatitis (alcohol induced)
Degeneration of nervous system due to alcohol
Mental and behavioural disorders due to use of alcohol
Accidental poisoning by and exposure to alcohol
Ethanol poisoning
Methanol poisoning
Toxic effect of alcohol, unspecified
Number of episodes in which the patient had an alcohol-related primary or secondary diagnosis These figures represent the number of episodes where an alcohol-related diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a HES record. Each episode is only counted once in each count, even if an alcohol-related diagnosis is recorded in more than one diagnosis field of the record.
Ungrossed data
Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
Finished admission episodes
A finished admission episode is the first period of inpatient care under one consultant within one healthcare provider. Finished admission episodes are counted against the year in which the admission episode finishes. However, admissions do not represent the number of in-patients as a person may have more than one admission within the year.
Primary diagnosis
The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in HES data set and provides the main reason why the patient was admitted to hospital.
Secondary diagnosis
As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2007-08 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.
Data quality
HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
Assessing growth through time
HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series.
Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.
Assignment of Episodes to Years
Years are assigned by the end of the first period of care in a patient's hospital stay
Source:
Hospital Episode Statistics (HES), The Information Centre for health and social care

Antibiotics

Mr. Crausby: To ask the Secretary of State for Health what steps his Department is taking to restrict the prescription of antibiotics. [271246]

Dawn Primarolo: The Department does not restrict antibiotics but has a policy of appropriate prescribing to support effective treatment of infections and slow down the development of antibiotic resistance. Initiatives contributing to this include a public education campaign explaining that antibiotics do not cure coughs and colds, guidance on prescribing and feedback of local prescribing data to general practice.

Blood Transfusions

Mr. Gerrard: To ask the Secretary of State for Health what steps his Department and its agencies are taking to reduce the potential epidemiological risks from imported blood components. [271519]

Dawn Primarolo: The only blood components currently imported from outside the United Kingdom are plasma for fractionation for blood products, and fresh frozen plasma (FFP) for the treatment of children up to the age of 16. This is part of a range of measures in place to reduce the risk of variant Creutzfeldt-Jakob disease transmission.

Plasma for therapeutic use and fractionation is imported from the United States (US), and is collected in facilities which are fully licensed by the US Food and Drug Administration (FDA). Plasma suppliers use donor selection criteria which meet European Union and US standards, which exclude donors at an increased risk of diseases which can be transmitted through plasma, and screen plasma to FDA standards.

All fractionated products made from imported plasma are subject to viral inactivation steps. Single units of FFP for children under the age of 16 are virally inactivated using methylene blue treatment.

Dental Services: South East

Anne Milton: To ask the Secretary of State for Health what recent assessment he has made of levels of access to NHS dentistry in *(a)* Surrey Primary Care Trust and *(b)* the South East Coast Strategic Health Authority area for (i) adults and (ii) children; and if he will make a statement. [271750]

Ann Keen: The number of patients seen by an NHS dentist in the previous 24-month period is available in Table D1 of Annex 3 of the NHS Dental Statistics for England, Quarter 2: 30 September 2008 report.

Table D2 of Annex 3 contains the same information as above expressed as a percentage of the population.

In both tables, information is provided by primary care trust and by strategic health authority for adults and children. Information is available for each quarter from 31 March 2006 to 30 September 2008.

This report, published on 26 February 2009, has already been placed in the Library and is also available on the NHS Information Centre website at:

www.ic.nhs.uk/pubs/dentalstats0809q2

Departmental Billing

John Mason: To ask the Secretary of State for Health what percentage of invoices from suppliers his Department paid within 10 days of receipt in each of the last five months. [271854]

Mr. Bradshaw: The percentage of invoices paid within 10 days to commercial suppliers is shown in the following table.

	Percentage of invoices paid within 10 days to commercial suppliers
November 2008	98.14
December 2009	95.69
January 2009	97.02
February 2009[1]	78.19
March 2009	95.56

[1] Payment performance was lower in February due to the short term impact on Welfare Foods and Healthy Start payments caused by the introduction of a new web based claims system. This system will bring significant benefits to some of the smaller suppliers who will receive their payments more promptly and more regularly. This new system also provides higher security and validation checks. Figures for March confirm that payment performance is back to their usual high standard of 99 per cent. paid within 10 working days.

Departmental Press

Mike Penning: To ask the Secretary of State for Health how many articles appearing in health care publications and journals in the last six months have been funded in whole or part by *(a)* his Department and *(b)* its executive agencies. [270380]

Mr. Bradshaw: There have been 19 advertorials (paid-for articles) in health care publications and journals funded in whole or in part by the Department's Communications Directorate in the last two years.

To identify this information against a wider definition would incur a disproportionate cost. We anticipate that there would be few additions, but to validate this would require a widespread trawl since the information is not collected routinely.

Dimethyl Fumarate

Bob Spink: To ask the Secretary of State for Health what his policy is on the provision of compensation for those people whose health has been adversely affected by the use of dimethyl fumarate in the treatment of medical conditions. [269868]

Dawn Primarolo: Dimethyl Fumarate is not licensed as a medicine in the United Kingdom.

The Medicines Act 1968 allows clinicians to use unlicensed medicinal products in the treatment of patients. Prescribing of unlicensed products does not require any authorisation from the Medicines and Healthcare products Regulatory Agency (MHRA).

MHRA Guidance Note 14, "The supply of unlicensed relevant medicinal products for individual patients" sets out the obligations and the legal framework that apply to prescribers and prescribing organisations.

This note is available on the MHRA website at:

www.mhra.gov.uk/Publications/Regulatoryguidance/Medicines/Guidancenotes

and a copy has been placed in the Library.

It is the Department's policy not to make ex-gratia payments to patients who believe their health has been adversely affected by the use of unlicensed pharmaceutical products.

Hospitals: Standards

Tim Loughton: To ask the Secretary of State for Health how many calls have been made to the Healthcare Commission's helpline for NHS staff to raise concerns about the standards of care at their hospital in each year for which figures are available. [269420]

Mr. Bradshaw: The Care Quality Commission has informed us that the number of calls made to this helpline by national health service staff to raise concerns about an NHS trust was recorded as follows.

	Number of calls
2006	4
2007	26
2008	24
2009	9

It has not been possible to ascertain what proportion of calls related to hospitals or to standards of care, or what proportion referred to the same NHS trust at which the staff were employed.

Maternity Services: Standards

Mr. Kidney: To ask the Secretary of State for Health if he will issue guidelines for the minimum standard of maternity care based on the UNICEF Ten steps to successful breastfeeding and the UNICEF Baby Friendly Initiative. [271732]

Dawn Primarolo: In its guidance on Maternal and Child Nutrition, the National Institute for Health and Clinical Excellence (NICE) states that all maternity care providers should implement an externally evaluated, structured programme that encourages breastfeeding, using the Baby Friendly Initiative as a minimum standard. The Department supports the NICE recommendations and encourages all national health service trusts to implement these recommendations.

Prevalence of breastfeeding at six to eight weeks is a key indicator in the Child Health and Well-being Public Service Agreement. The Department supports the implementation of the UNICEF UK Baby Friendly Initiative and have funded 40 primary care trusts with low breastfeeding rates to implement Baby Friendly Initiative, which includes UNICEF UK's 10 steps to successful breastfeeding.

Medical Treatments Abroad

John Battle: To ask the Secretary of State for Health what the cost to the NHS of reimbursing other countries for expenditure on provision of treatment for UK nationals living abroad was in each of the last five years. [271110]

Dawn Primarolo: Under EU Regulations (1408/71) European economic area (EEA) member states reimburse each other for the cost of providing health care to each other's tourists, workers, pensioners and dependants of the latter two groups. The following table shows the breakdown of claims by other EEA member states against the United Kingdom in 2007-08. The costs relate to UK state pensioners and their dependents and dependents of UK workers, living in other EEA member states. These claims are paid from a central departmental budget.

There are no similar arrangements with regard to non-EEA countries.

Member state lump sum claims against the UK

	£000
2002-03	233,200
2003-04	273,909
2004-05	331,900
2005-06	404,100
2006-07	426,600
2007-08	550,300

Notes:

1. Totals are based on estimates of the costs of EEA health care claims made annually for the purposes of provisions made in the Department of Health accounts in accordance with Treasury resource accounting rules.

2. Lump sum claims under Articles 94 and 95 of EU Regulation (EC) 574/72 include claims relating to the family members of workers in home state and claims for pensioners and their dependents

3. Totals are rounded to nearest £100,000.

4. Sub totals may not add up to totals due to rounding.

Resource Accounting and Budgeting exercise

Obesity: Surgery

Lembit Öpik: To ask the Secretary of State for Health how many gastric bands have been fitted by surgery in England in the last 12 months; what estimate he has made of the cost of such operations; what guidance his Department has issued on the criteria to be applied in determining candidates for such treatment; and if he will make a statement. [271235]

Dawn Primarolo: Data are not yet available for 2007-08. Data are provided for 2006-07 and show that there were 706 finished consultant episodes where there was a primary diagnosis of obesity and an insertion of a gastric band as a main operation carried out in England.

The reference costs information details the national average of a variety of procedures and treatment undertaken by the national health service in England. It also provides information on the cost to the NHS of buying in services from non-NHS providers in England. However, the cost of gastric band operations cannot be separately identified due to the way that data are collected.

The National Institute for Health and Clinical Excellence (NICE) has set "Guidance on the prevention, identification, assessment and management of overweight and obesity in adults and children", available at:

www.nice.org.uk/CG43

A copy has been placed in the Library. This guidance is for both health and non-health professionals, and contains guidance on when bariatric surgery may be considered as an option. Gastric bands are only one type of procedure recommended for the treatment of obesity by NICE.

It is up to primary care trusts as local commissioners and providers of services to determine the most appropriate methods to deliver health care to their populations, based on clinical need and effectiveness, and following medical advice.

Notes:

1. Finished Consultant Episode (FCE):

A finished consultant episode (FCE) is defined as a continuous period of admitted patient care under one consultant within one health care provider. FCEs are counted against the year in which they end. Please note that the figures do not represent the number of different patients, as a person may have more than one episode of care within the same stay in hospital or in different stays in the same year.

2. Number of episodes in which the patient had a (named) primary diagnosis:

These figures represent the number of episodes where the diagnosis was recorded in the primary diagnosis field in a Hospital Episode Statistics (HES) record.

3. The ICD-10 code used to identify Obesity is as follows:

E66—Obesity

4. Main procedure:

The main procedure is the first recorded procedure or intervention in the HES data set and is usually the most resource intensive procedure or intervention performed during the episode. It is appropriate to use main procedure when looking at admission details, (e.g. time waited), but a more complete count of episodes with a particular procedure is obtained by looking at the main and the secondary procedure.

5. The OPCS codes used to identify a gastric band insertion is as follows:

G30.3—Partitioning of stomach using band

Data Quality:

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data is also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

Orphan Drugs

Dr. Gibson: To ask the Secretary of State for Health what his Department's definition of *(a)* orphan and *(b)* ultra-orphan drugs is. [271194]

Dawn Primarolo: A medicinal product may be designated as an orphan medicinal product within the European Union if:

> it is intended for the diagnosis, prevention or treatment of a life-threatening or chronically debilitating condition affecting no more than five in 10,000 persons in the European Union at the time of submission of the designation application (prevalence criterion); or
>
> it is intended for the diagnosis, prevention or treatment of a life-threatening, seriously debilitating or serious and chronic condition and without incentives it is unlikely that expected sales of the medicinal product would cover the investment in its development; and
>
> no satisfactory method of diagnosis, prevention or treatment of the condition concerned is authorised, or, if such method exists, the medicinal product will be of significant benefit to those affected by the condition.

Guidance on the interpretation of these criteria is published on the European Medicines Agency website at:

www.emea.europa.eu/htms/human/orphans/intro.htm

There is no formal classification of 'ultra-orphan' drugs. The term has been used by the National Institute for Health and Clinical Excellence to refer to drugs for the treatment of conditions with a United Kingdom prevalence of less than one in 50,000.

Pregnancy: Health Education

Mr. Kidney: To ask the Secretary of State for Health (1) what steps his Department is taking to inform parents about the *(a)* benefits and *(b)* practice of breastfeeding; [271751]

(2) what guidance his Department makes available to parents on the provision of adequate nutrition to children during infancy. [271754]

Dawn Primarolo: The Department has undertaken a range of initiatives to educate parents about the benefits and practice of breastfeeding. These include: advice through the National Breastfeeding Helpline; the DVD "From bump to breastfeeding" made available to all new mothers and a range of leaflets including "Birth to Five, Weaning leaflets", providing advice on nutrition and the breastfeeding leaflet "Off to the best start", which is available through the national health service.

Educational materials are also available at national and local activities held during the annual National Breastfeeding Awareness Week. The Department is also planning to introduce a Change4Life under 2's marketing strategy later in 2009.

Mr. Kidney: To ask the Secretary of State for Health what recent research he has *(a)* commissioned and *(b)* evaluated on variations in complementary feeding in infancy, including within (i) different ethnic groups and (ii) socially disadvantaged groups. [271755]

Dawn Primarolo: The Department's Infant Feeding survey, conducted every five years, collects information on infant feeding practices adopted by mothers from the birth of their baby until the age of 10-months. It provides national estimates of breastfeeding incidence and prevalence as well as capturing data on other aspects of infant feeding, such as the use of breast milk substitutes and information about weaning practices and age of introduction of complementary foods. Analysis includes a breakdown by age, socio-economic group and ethnicity. The next survey will be undertaken in 2010.

The Department and the Food Standards Agency are also jointly planning to carry out a diet and nutrition survey of infants and young children aged four months to eighteen months in the United Kingdom. The new survey will aim to gather detailed information about the diets of a representative sample of infants and young children in the UK, and will serve to bridge the gap in data between the age groups covered by the Infant Feeding Survey and the National Diet and Nutrition Survey.

Mr. Kidney: To ask the Secretary of State for Health what steps his Department is taking to promote the Healthy Start scheme among eligible women; and what evaluation he has made of the effect of the scheme on the nutritional benefits for mothers and young children. [271756]

Dawn Primarolo: Every family with children newly eligible for Healthy Start is sent an invitation to apply. Information about the scheme is also included in every Government leaflet about the qualifying benefits or tax credits, the Pregnancy and Birth to five books given out by midwives, and at: www.healthystart.nhs.uk

The National Framework for Children, Young People and Maternity Services expects health professionals to signpost the scheme to all pregnant women and families with young children. We provide application leaflets and other materials for use by midwives and health visitors, and distribute the application leaflets to general practitioner surgeries via the Waiting Room Information Services scheme.

Longer term plans to evaluate the impact of Healthy Start have been scoped and appropriate research will be commissioned shortly.

Prescriptions: Fees and Charges

Norman Lamb: To ask the Secretary of State for Health for which long-term conditions entitle patients to free NHS prescriptions; and how many patients received free prescriptions for each condition in each of the last three years. [271587]

Dawn Primarolo: A person is entitled to apply for a medical exemption certificate if they have:

a permanent fistula (including caecostomy, colostomy, laryngostomy, or ileostomy) which requires continuous surgical dressing or requires an appliance;

forms of hypoadrenalism (including Addison's disease) for which specific substitution therapy is essential;

diabetes insipidus or other forms of hypopituitarism;

diabetes mellitus (except where treatment of the diabetes is by diet alone);

hypoparathyroidism;

myasthenia gravis;

myxoedema (that is, hypothyroidism requiring thyroid hormone replacement);

continuing physical disability which prevents the patient from leaving his residence without the help of another person; or

they are undergoing treatment for cancer, the effects of cancer or the effects of current or previous cancer treatment (from 1 April 2009).

To claim exemption from national health service prescription charges the person must hold a valid exemption certificate and complete the declaration on the reverse of the prescription form.

The information requested on how many patients received free prescriptions for each condition is not collected. However, in England 88 per cent. of prescription items are already dispensed free of charge.

Social Workers

Mr. Greg Knight: To ask the Secretary of State for Health how many social workers qualified in each year from 2000 to 2008; and how many vacancies for newly-qualified social workers there were in each of those years. [269769]

Phil Hope: The number of newly qualified social workers for adult and children's services in each year from 2000 to 2008 in England is set out as follows. Figures for 2008-09 are not shown as they do not cover the full year yet.

	Diploma in social work	*Social work degree*	*Total*
2000-01	3,333	—	3,333
2001-02	3,510	—	3,510
2002-03	3,540	—	3,540
2003-04	3,894	—	3,894
2004-05	3,389	4	3,393
2005-06	2,017	1,037	3,054
2006-07	415	2,976	3,391
2007-08	129	4,439	4,568
Total	20,227	28,683	37,139

Note:
The numbers are from 1 August 2000 onwards and broken down by academic years.
Source:
General Social Care Council

Information on the number of vacancies for newly-qualified social workers is not held centrally. Recruitment of social work staff is a matter for the employer concerned.

South Staffordshire and Shropshire Healthcare NHS Foundation Trust

Frank Dobson: To ask the Secretary of State for Health what criteria Monitor applied in 2006 when judging the capacity of South Staffordshire and Shropshire NHS Trust to provide high quality health care. [271743]

Mr. Bradshaw: We are informed by the Chairman of Monitor (the statutory name of which is the independent regulator of NHS foundation trusts) that Monitor's assessment of all applicant NHS trusts and mental health trusts is focused around three key criteria:

legally constituted;

well governed; and

financially viable.

Monitor's assessment of governance includes clinical governance issues that could affect the quality of care provided. Monitor's assessment approach covering clinical governance at the time of the South Staffordshire application in 2006 included:

review of trust processes;

review of performance data;

meetings with the trust's strategic health authority and primary care trust(s); and

benchmarking.

All NHS foundation trusts (NHS FTs) are required to comply with their terms of authorisation. The terms of authorisation are a set of detailed requirements covering how NHS FTs must operate. They include:

the general requirement to operate effectively, efficiently and economically;

requirements to meet healthcare targets and national standards; and

the requirement to cooperate with other NHS organisations.

Teenage Pregnancy

Mr. Lansley: To ask the Secretary of State for Health how many teenage pregnancies there were in England in each year since 1997; and how many there were in each parliamentary constituency in the most recent period for which figures are available. [271184]

Kevin Brennan: I have been asked to reply.

The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent question asking how many teenage pregnancies there were in England in each year since 1997; and how many there were in each parliamentary constituency in the most recent period for which figures are available. (271184)

Available figures are estimates of the number of conceptions that resulted in a live birth and/or stillbirth (a maternity) or a legal termination.

Numbers of conceptions to women aged under 18 in England, for the years 1997 to 2007 (the most recent year for which figures are available), are shown in the attached table. Figures for 2007 are provisional.

Information on conceptions is not routinely published for parliamentary constituencies. Figures cannot be provided by parliamentary constituency because of the risk of disclosing individual's information, due to small differences between the parliamentary constituency and local authority boundaries. Conception figures for local authorities can be found at:

http://www.statistics.gov.uk/statbase/product.asp?vlnfc=15055

Number of conceptions to women aged under 18 in England. 1997-2007[1]

	Under 18 (number)
1997	40,463
1998	41,089
1999	39,247
2000	38,700
2001	38,461
2002	39,350
2003	39,553
2004	39,593
2005	39,804
2006	39,170
2007[1]	40,298

[1] Figures for 2007 are provisional.

INTERNATIONAL DEVELOPMENT

Departmental Data Protection

Anne Main: To ask the Secretary of State for International Development if he will place in the Library a copy of his Department's IT security hierarchy. [259818]

Mr. Thomas: It is not in the interest of the security of the Department, or that of the public, to disclose detailed information pertaining to electronic breaches of security of the Department's IT systems. Disclosing such information would enable criminals and those who would attempt to cause disruptive threats to the Department to deduce how to conduct attacks and therefore potentially enhance their capability to carry out such attacks.

Forests: Conservation

Mr. Sanders: To ask the Secretary of State for International Development if he will take steps to *(a)* reduce rates of deforestation in developing countries and *(b)* provide assistance for people in areas of developing countries with high levels of deforestation. [270887]

Mr. Thomas: Incentives to developing countries to reduce deforestation will be negotiated at the 15th Conference of the Parties to the Climate Change Convention in Copenhagen in December 2009. In advance of international agreement on how to provide these incentives we need to help build the capacity of developing countries to reduce deforestation. Last December, the UK announced a contribution of up to £100 million to support such work. This is in addition to a £15 million contribution to the World Bank's Forest Carbon Partnership Facility which is helping developing countries prepare themselves to access larger future incentives for reducing deforestation.

Last year the UK committed £60 million to help reduce deforestation and poverty in the Congo Basin. This will help pay for the costs of conserving forests so that they can continue to provide local communities with their needs while maintaining the environmental benefits they provide to the global community.

G20: Internet

Mr. Hands: To ask the Secretary of State for International Development how much funding his Department provided to the G20 Voice programme; and for what purposes such funding was used. [269024]

Mr. Thomas: The total amount of funding provided by the Department for International Development for the G20 Voice programme was £49,700. This covered travel and subsistence costs for bloggers from the developing world; technical support and costs associated with the briefing day. Initial indications show that the programme reached a global audience of 14 million.

International Assistance

Mrs. Curtis-Thomas: To ask the Secretary of State for International Development whether his Department monitors the effects on *(a)* levels of employment, *(b)* life expectancy, *(c)* the incidence of human rights abuses and *(d)* quality of life of the steps it takes towards achieving the Millennium Development Goals. [269988]

Mr. Ivan Lewis: The Department for International Development (DFID) is committed to evidence-based policy making. DFID considers all relevant factors, including those listed, in developing strategies to ensure achievement of the millennium development goals.

Globally, levels of employment, life expectancy, human rights abuses and quality of life are assessed by the United Nations and other international organisations. DFID monitors progress towards the millennium development goals through the UN's database and uses these statistics to inform policy, resource allocations and strategic direction.

DFID also assesses the contribution of the UK's development assistance towards the millennium development goals through individual programme monitoring and also by commissioning a comprehensive series of independent evaluation studies which were reported on in 2008 in the Independent Evaluation in DFID annual report and scrutinised since December 2007 by the Independent Advisory Committee for Development Impact. All evaluation reports are published on the DFID website:

www.dfid.gov.uk/aboutdifd/evaluation.asp

Malawi: Health Services

Andrew George: To ask the Secretary of State for International Development what recent assessment he has made of the effect of the Malawi health worker support system funded by his Department on the take-home pay of *(a)* nurses and *(b)* doctors in Malawi. [271044]

Mr. Ivan Lewis: The Emergency Human Resource Programme (EHRP) provides for salary top ups of 52 per cent. for 11 cadres of health workers including nurses and doctors. This top up has been maintained since 2004 with nurses and doctors also benefiting from a separate 20 per cent. civil service-wide pay increase, as well as modest yearly increases.

According to data from the current financial year our assessment is that the gross pay of nurses now ranges from approximately £63 a month for newly recruited nurse technicians to £262 a month for Senior Nursing Officers. This compares favourably with, for example, teachers, who receive between £50 and £142 per month. Doctors salaries range from approximately £260 to £365 per month. Our assessment shows that there has been an increase of between 50 and 100 per cent. in the take home pay for doctors and nurses between 2004 and 2009. We believe that this has been a very important incentive for improved retention and morale, and has helped to reduce outward migration.

Andrew George: To ask the Secretary of State for International Development what assessment his Department has made of the progress against objectives of the health worker support system in Malawi funded with the assistance of his Department. [271045]

Mr. Ivan Lewis: The Department for International Development (DFID) has been supporting the Emergency Human Resource Programme (EHRP) since implementation began in 2005. Progress against the objectives of the EHRP is assessed on a bi-annual basis in national health sector reviews. Progress to date has been very encouraging, with objectives likely to be met. For example, the number of doctors graduating has increased from 17 per year in 2004 to 60 per year currently; the number of nurses leaving Malawi to work overseas has fallen from around 100 annually in 2002-04 to around 30 annually in 2007-08; and there are 40 per cent. more doctors and nurses practising in the public health system than four years ago.

A formal evaluation of the EHRP will be conducted in the second half of 2009, with results due in early 2010. DFID is commissioning this evaluation on behalf of the Ministry of Health and all other partners. It will provide valuable lessons for Malawi and also for other low-income countries with public sector human resource crises.

Andrew George: To ask the Secretary of State for International Development whether his Department has made an assessment of changes in the *(a)* accommodation, *(b)* training and *(c)* other support costs for workers in the Malawian health system since the health workers support system was implemented with the assistance of his Department. [271046]

Mr. Ivan Lewis: The Department for International Development (DFID) is assessing the impact of the Emergency Human Resource Programme (EHRP) on an on-going basis most recently at the national health sector review of April 2009.

(a) On accommodation, the EHRP is funding a major staff house-building programme. Model houses have been completed and approved, 250 additional staff houses are under construction and further 250 are being rehabilitated. On completion this will create a major incentive for staff to work in rural areas.

(b) The EHRP has made very positive progress on training targets, and is meeting its objective to

> 'expand training capacity by 50%, and more in key cadres, with a focus on all nurses having basic mid-wife skills'.

There has been an increase of 50 per cent. or more in enrolment in training institutions; more and better tutors; and better infrastructure. The College of Medicine has expanded, and improved quality, to become a model medical school for southern Africa.

(c) Other support costs for health workers have often come from district budgets under Malawi's decentralised structures. For example, in Mchinji District funds have been used for solar power for staff accommodation and health centres, staff transport costs and district-level training and supervision. Such support creates incentives for staff to continue working in isolated rural posts.

Andrew George: To ask the Secretary of State for International Development what his most recent assessment is of the effectiveness of his Department's funding for the health worker support system in Malawi on *(a)* the retention of Malawian health workers, *(b)* the return of Malawian health workers to that country and *(c)* the migration of health workers from other developing countries to Malawi. [271047]

Mr. Ivan Lewis: The Department for International Development (DFID) is assessing the impact of the Emergency Human Resource Programme (EHRP) on an on-going basis most recently at the national health sector review of April 2009.

(a) More Malawian health workers are being retained within the public health system. For example, the number of nurses leaving Malawi each year has reduced from around 100 per year in 2004 to around 30 per year now. Immediate retention of nurses following training has significantly improved following the introduction of a five-year bonding scheme for nurses, with nearly all graduates now moving to the public health system. This has resulted in an improved nurse-patient ratio from one nurse per 4,000 patients in 2004 to one per 3,000 patients today. The doctor/patient ratio has improved from one per 62,000 to one per 53,000 today, and the Malawi Government is now considering how best to introduce a bonding scheme for doctors.

(b) EHRP assessments reveal little data on the return of health workers to Malawi, although the Ministry of Health estimates that five to 10 medical doctors have returned to Malawi from abroad since 2004. In reality the return of health workers is not likely to be critical in addressing the human resource crisis with national efforts focused on training and retention. The College of Medicine estimate that of their 254 medical graduates from 1991 to 2005, 60 per cent. are practising full-time in the public health system.

(c) Assessments show that the migration of health workers from other developing countries to Malawi is minimal. This, however, may change if pay and conditions improve enough to attract health workers to Malawi from neighbouring countries.

Andrew George: To ask the Secretary of State for International Development how many trained full-time equivalent *(a)* doctors and *(b)* nurses were employed in public health system in Malawi (i) in the 12 months before his Department provided support for that country's health worker support system and (ii) in the most recent period for which figures are available. [271048]

Mr. Ivan Lewis: The information is as follows.

(i) In the 12 months prior to the Emergency Human Resource Programme (EHRP), in 2004, there were *(a)* approximately 140 doctors registered in Malawi, and *(b)* 3,250 nurses.

(ii) The most recent assessment was the December 2007 Human Resource for Health Census which recorded *(a)* 190 registered doctors and *(b)* 4,450 nurses, in Malawi.

This assessment demonstrates a near 40 per cent. increase in doctors and nurses, nearly all of whom are full-time and practising. These numbers will continue to grow. The Malawi College of Medicine is now graduating 60 doctors a year, as opposed to 17 in 2004, and will graduate 100 doctors per year in the near future. In addition, 300 nurses now graduate every six months in Malawi, nearly all of whom are recruited and retained within the public health system.

Overseas Aid: Fossil Fuels

Gregory Barker: To ask the Secretary of State for International Development how much his Department has spent on overseas projects for the extraction and transport of fossil fuels through the *(a)* World Bank Group, *(b)* European Bank for Reconstruction and Development, *(c)* European Investment Bank and *(d)* other Government-funded financial institutions in the last five years. [265216]

Mr. Thomas: The UK is a shareholder of the Wold Bank and Regional Development Banks; contributing to shared capital. It also makes core contributions to these institutions to support work in the poorest countries. These contributions are pooled. Shareholders cannot specify that their capital or contributions can or cannot be used for specific purposes.

A list of UK contributions to World Bank trust funds is set out in the answer to the right hon. Member for Sutton Coldfield (Mr. Mitchell), 26 February 2009, *Official Report*, column 1006W.

Information on funding channelled through World Bank Group, African Development Bank, Asian Development Bank, Caribbean Development Bank, European Investment Bank, and Inter-American Development Bank trust funds for the extraction and transport of fossil fuels or fossil fuel projects is not held centrally.

The UK has made contributions to trust funds operated by the European Bank for Reconstruction and Development that have contributed to fossil fuel projects. In most cases these trust funds receive financial support from multiple investors and it is not possible to determine what the UK contribution is to a specific project. The exceptions to this are the Energy Efficiency Fund and Sustainable Energy Imitative funds where the UK contribution to four fossil fuel projects financed by these funds in the last five years is €864,336. The UK has committed a further €2,671,290 through these funds to other projects, which include renewable energy and industrial energy efficiency.

JUSTICE

Appeals

Jenny Willott: To ask the Secretary of State for Justice in how many and what proportion of the criminal cases referred to appeal judges by the Criminal Cases Review Commission the original conviction was overturned in each of the last 10 years; and if he will make a statement. [271103]

Maria Eagle: The Information is set out in the following table.

	Convictions referred	*Convictions quashed*	*Percentage quashed*[1]
1999-2000	19	15	78.9
2000-01	23	17	73.9
2001-02	31	15	48.4
2002-03	38	22	57.9
2003-04	38	29	76.3
2004-05	38	28	73.7
2005-06	38	27	71.1
2006-07	39	25	64.1
2007-08	38	24	63.2
2008-09	23	20	87.0

[1] This figure represents the percentage of those convictions referred by the Criminal Cases Review Commission that were subsequently quashed by a Court of Appeal.

Debt Collection

Mr. Bellingham: To ask the Secretary of State for Justice what measures in lieu of enforcement restriction orders there are to provide relief for people in debt. [271064]

Bridget Prentice: There are a range of options already available to support people with debt problems. These include bankruptcy, individual voluntary arrangements (IVAs), time orders (for those with consumer credit debts) and, from 6 April, the new debt relief order.

In addition, where a claim has been issued, defendants can admit the debt and make a formal proposal for payment by instalments. If the claimant refuses, the court will make an assessment for payment based on the debtor's income and expenditure, which it can then impose on the creditor.

Addressing financial problems at an early stage is essential in achieving a sustainable solution and a new practice direction covering pre-action creditor behaviour has been introduced to the Civil Procedure rules from April 2009. This now requires creditors to provide consumers with both information about how to contact them to assist direct negotiation and also details of free advice providers. Failure to do so could result in the court imposing sanctions including disallowing costs.

Alongside these measures, the credit card and debt collection sectors have recently agreed that those facing payment problems will be offered a minimum 30-day breathing space to make progress in getting their affairs in order once they have engaged with a debt advice agency.

Departmental Billing

John Mason: To ask the Secretary of State for Justice what percentage of invoices from suppliers his Department paid within 10 days of receipt in each of the last five months. [271856]

Maria Eagle: The information requested is contained in the following table:

Month	*Percentage aid within 10 day target*
November 2008	64
December 2008	59
January 2009	55
February 2009	67
March 2009	66

The Ministry of Justice is fully committed to achieving compliance with the Prime Minister's target of paying suppliers within 10 days where possible, and is a signatory to the prompt payment code.

The Ministry recognises that its performance against the target must improve, and is implementing a prompt payment improvement programme to address the issue. The results for April indicate that this programme is beginning to have an effect, and further improvements will be evident as the programme progresses.

Departmental Expenditure

Mr. Grieve: To ask the Secretary of State for Justice what his Department's budget for travel, subsistence and hospitality was in each of the last three years. [263835]

Mr. Straw: The Ministry of Justice (MOJ) does not set a budget for travel, subsistence and hospitality for the Department as a whole. Departmental business groups are allocated money by the central Corporate Finance team and manage their own budgets, including in respect of travel, subsistence and hospitality.

I have asked for work to be put in hand so that better information is available centrally on this kind of expenditure.

Departmental Security

Mr. Grieve: To ask the Secretary of State for Justice how many breaches of security at his Department were recorded in the last 12 months. [268821]

Mr. Straw: MOJ records as incidents any breach of security rules or events that have resulted in or had the potential to result in the loss, damage or harm to assets. The total number of centrally recorded security breaches/incidents occurring within the Ministry of Justice for the 2008-09 reporting year was 5,847, broken down as follows:

	Number
Information	394
IT	922
Buildings	4,022
Personnel	2
Operational	238
Other	269
Total	5,847

Of the total, over 80 per cent. relate to incidents involving prisons and courts. This needs to be put into the context of the challenges faced with work in the high-risk prison environment. 2008-09 saw the lowest number of escapes from prisons to date; abscond performance is good and improving.

The Ministry of Justice is applying the Government's security policy framework to control risks across its organisation.

Enforcement Restriction Orders

Mr. Bellingham: To ask the Secretary of State for Justice whether he plans to introduce enforcement restriction orders in 2009. [271457]

Bridget Prentice: The Government are committed to supporting consumers in unexpected difficulties.

The ERO is intended to support those with short-term financial problems only. It restricts all enforcement, including the commencement of claims without leave of the court for up to 12 months where there has been a temporary, sudden and unforeseeable change in an individual's financial circumstances that leaves them unable to meet their commitments. However, as it is intended only for those with short-term problems, the court must be satisfied that there are realistic prospects of recovery, which will allow normal commitments to be met within six months, before an order can be made.

In view of the strict qualifying criteria, I am not convinced that the ERO itself would provide the level of support that may be necessary for many people. Addressing financial problems at an early stage is essential in achieving a sustainable solution. The ERO was developed as one element of a package of targeted and complementary measures contained in Part 5 of the Tribunals Courts and Enforcement Act 2007, which are designed to assist the over-indebted. These are intended to provide alternatives for those for whom the current statutory schemes, such as bankruptcy and Individual Voluntary Arrangements (IVAs), may not be the best option.

This package includes the new Debt Relief Order, which took effect from 6 April, and is intended to assist those who will never be able to pay their debts and who have minimal assets.

I consider that introducing the ERO in isolation would introduce a significant risk that consumers would apply for the order in inappropriate circumstances. This would lead to unnecessary pressure on the courts while also deflecting consumers from exploring more appropriate solutions and thereby, potentially, worsening their financial problems.

The Government are currently reviewing the implementation of the other measures in Part 5 of the Act. It is expected that an announcement will be made on this shortly.

Offensive Weapons: Sentencing

Chris Grayling: To ask the Secretary of State for Justice with reference to the Knife Crime Sentencing Quarterly Brief for October to December 2008, what proportion of the figures in Table Four on length of custodial sentences relate to possession of a knife only; and how many people convicted of knife possession received the maximum sentence of four years custody in the period October 2007 to September 2008. [269258]

Maria Eagle: The following table shows the numbers of custodial sentences given in England and Wales for offences involving the possession of an article with a blade or point between Quarter 4 2007 to Quarter 4 2008.

Sentence length	*Q4 2007*	*Q1 2008*	*Q2 2008*	*Q3 2008*	*Q4 2008*	*Percentage change Q4 2007 to Q4 2008*
Number of offences						
England and Wales[1]	617	642	706	925	825	34
Up to and including 3 months	360	366	355	439	396	10
Over 3 months and up to and including 6 months	195	208	266	322	237	22
Over 6 months	57	64	82	157	187	228
Percentage of total offences						
Up to and including 3 months	58	57	50	47	48	—
Over 3 months and up to and including 6 months	32	32	38	35	29	—
Over 6 months	9	10	12	17	23	—

[1] Total figures include offences where sentence length was not recorded by the police.

According to data recorded by the police on the Police National Computer, during the period October 2007 to September 2008, one offence of possession of an article with a blade or point received a four year custodial sentence, as did two offences of possession of an offensive weapon. Maximum penalties are set at a level to provide for the most serious conceivable case of a particular offence and therefore are rarely imposed.

These figures have been drawn from the police's administrative IT system which, as with any large scale recording system, is subject to possible errors with data entry and processing. The figures are provisional and subject to change as more information is recorded by the police.

James Brokenshire: To ask the Secretary of State for Justice (1) how many people have received a custodial sentence on conviction for selling a knife to a person under the legal age for buying a knife in each of the last 10 years; [270145]

(2) what the maximum punishment was for selling a knife to a person under the legal age for buying a knife in each of the last 10 years. [270146]

Mr. Straw: The requested information is shown in the table. Prior to 1 October 2007 it was illegal to sell a knife to a person under 16 it was amended on that date to 18. The statutory maximum sentence has been a six month custodial sentence or a fine up to £5,000 or both throughout the years shown.

Number of custodial sentences[1] and maximum punishment imposed for selling a knife to a young person[2] 1997-2007

	Total number sentenced	*Number of custodial sentences*	*Maximum sentence[3]*	*Community sentence[4]*
1997	2	1	6 months	0
1998	2	0	£2,000	0
1999	2	0	£100	0
2000	0	0	n/a	0
2001	8	0	£3,250	0
2002	10	0	£4,000	0
2003	17	0	£4,000	0
2004	9	0	£3,000	0
2005	26	0	£2,500	0
2006	51	0	£4,500	1
2007	33	0	£2,000	0

n/a = Not applicable

[1] Immediate and Suspended custodial sentences

[2] Criminal Justice Act 1988 added by Offensive Weapons Act 1996 made it an offence to sell a knife or other pointed or bladed object to a person under 16 this was amended by the Violent Crime Reduction Act 2006 from 1 October 2007 to a person under 18. The statutory maximum sentence is a fine up to £5,000 or six months imprisonment or both.

[3] The amount is the most severe sentence that was imposed in that year, months if a custodial sentence £s if a fine.

[4] Depending on the nature of the community sentence it could be considered a more severe punishment than a fine.

Notes:

1. These figures have been drawn from administrative data systems.
2. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

OMS Analytical Services, Ministry of Justice

Prison Accommodation

Dr. Vis: To ask the Secretary of State for Justice how many prisoners in England and Wales shared a cell in each year since 1990. [271670]

Mr. Hanson: Figures on cell sharing are only available from 2006 onwards and the data available do not allow for a breakdown of prisoners sharing by individual accommodation types.

The following table shows the number of prisoners sharing any accommodation such as cells, rooms, wards and dormitories in each of the last three years.

	June each year		
	2006	*2007*	*2008*
Population sharing accommodation (number)	30,948	32,112	33,377
Total prison population (number)	77,962	80,089	83,240
Proportion of population sharing accommodation (percentage)	39.7	40.1	40.1

Data on two prisons, Ashfield and Parc, are not held centrally and therefore information relating to them is not included in the sharing figures.

Prison Escapes: Reoffenders

Paul Holmes: To ask the Secretary of State for Justice pursuant to the answer of 23 March 2009, *Official Report*, column 180W, on open prisons: prison escapes, how many abscondees from open prisons were convicted of a further offence while unlawfully at large in each year since 1997; and for which offences. [271673]

Mr. Hanson: To provide the information requested could be done only at disproportionate cost.

All those located in open conditions have been risk assessed and categorised as being of low risk to the public.

Time spent in open prisons affords prisoners the opportunity to find work, re-establish family ties, reintegrate into the community and ensure housing needs are met. For long-term prisoners, these are essential components for successful resettlement and an important factor in protecting the public.

The police, CPS and Prison Service are working together to ensure that absconders are prosecuted both as a punishment for the offence and to deter other prisoners in the future.

Prisoners: Childbirth

Mr. Grieve: To ask the Secretary of State for Justice pursuant to the answer of 26 January 2009, (1) how many women who gave birth in prison were aged *(a)* 16, *(b)* 17 and *(c)* 18 years in each year since 2005; [268769]

(2) how many children were born to mothers in *(a)* young offenders' institutions, *(b)* secure training centres and *(c)* secure children's homes in each of the last three years. [268774]

Mr. Straw: As a result of configuration problems experienced with the database used to record information on the number of women who have given birth, and the number of children born to mothers, in young offender institutions, this information can not be provided at present.

A review of the systems used to record these data is being undertaken to ensure effective processes for data collection and retention are in place. Every effort will be made to consolidate historical data and I will write to the hon. Member when this work is complete to provide all the information that is available in response to his questions.

Some 17 year-olds and women under 17 years of age are held in secure training centres or secure children's homes. Information on the number of women aged 16 and 17 years-old who have given birth in secure training centres (STCs) or secure children's homes (SCHs) was not collected centrally before April 2006. Information for the period since that date is given in table A.

Table A

April to March each year	*16 year-olds*	*17 year-olds*
2006-07	1	1
2007-08	2	1
2008-09	0	3

Of the eight women listed in Table A, seven were held in secure training centres and one in a secure children's home.

The number of children born to mothers in STC and SCH in each of the last three years is given in table B.

Table B

April to March each year	*YOI*	*STC*	*SCH*
2006-07		1	1
2007-08		3	0
2008-09		3	0

Prisons: Costs

Dr. Vis: To ask the Secretary of State for Justice what the average cost of building a new prison in England and Wales was in the latest period for which information is available. [271592]

Mr. Hanson: The average construction cost of new build prisons opened since 1997 is approximately £49 million. Construction costs for individual prisons vary depending on the type and size of the prison.

Privacy

Dr. Kumar: To ask the Secretary of State for Justice if he will bring forward legislative proposals to prevent companies from video-mapping cities. [271081]

Mr. Wills: The Data Protection Act 1998 (DPA) regulates the obtaining, holding, use and disclosure of personal data i.e. data relating to a living individual who can be identified from those data. The Information Commissioner is the independent regulator of the DPA and has stated that the video-mapping of cities does not necessarily breach the DPA. The Commissioner has confirmed that he will keep video-mapping activities under review and will consider any complaints raised. In light of this, I see no need to bring forward legislative proposals.

Sentencing: Greater Manchester

Andrew Stunell: To ask the Secretary of State for Justice how many criminal offences committed in *(a)* Stockport and *(b)* Greater Manchester in each of the last five years resulted in (i) a prison sentence and (ii) a suspended prison sentence. [271170]

Maria Eagle: The available information is shown in the following table; it shows the number of (i) immediate custodial sentences and (ii) suspended sentences imposed in the Greater Manchester police force area. This data relate to the principal offence sentenced on a particular occasion and it is not known how many offences are represented by the number of sentences recorded.

The courts proceedings database does not record where the offence was committed and cannot be broken down into a smaller area than Greater Manchester police force area.

Number of immediate and suspended[1] custodial sentences imposed in Greater Manchester police force area, 2003-07

	2003	2004	2005	2006	2007
Immediate custodial sentences	7,018	6,623	6,227	6,087	6,300
Suspended sentences	136	155	771	2,680	3,064

[1] Fully suspended sentences for offences committed prior to 4 April 2005, suspended sentence orders for offences committed on or after 4 April 2005.

This data is based on the principal offence. Where an offender has been sentenced for more than one offence, the principal offence is the one for which the heaviest sentence was imposed; where the same sentence has been imposed for two or more offences, the principal offence is the one for which the statutory maximum is most severe.

Note:

These figures have been drawn from administrative data systems. Although care is taken when processing and analysing the returns, the detail collected is subject to the inaccuracies inherent in any large scale recording system.

OMS Analytical Services, Ministry of Justice.

Theft: Reoffenders

Mr. Grieve: To ask the Secretary of State for Justice (1) how many offences of *(a)* shoplifting, *(b)* robbery of business property and *(c)* theft by an employee have been committed by offenders released from prison on an end-of-custody licence; [illegible]

(2) how many *(a)* burglaries, *(b)* robberies, *(c)* sexual offences, *(d)* thefts and *(e)* drug offences have been committed by offenders released on end-of-custody licence. [illegible]

Mr. Straw: Since the start of the scheme to 28 February 2009 52,117 offenders have been released on ECL, and fewer than 2 per cent. of those offenders have been notified to NOMS as having allegedly committed further offences during the ECL period.

The table provides a breakdown of the number of offences allegedly committed by offenders during their period on End of Custody Licence (ECL). The offences are broken down into the categories under which this information is stored.

The table covers the period from the start of the ECL scheme on 29 June 2007 to 28 February 2009 and includes those alleged offences as notified to the National Offender Management Service (NOMS) as at 20 March 2009.

Category of alleged further offence	*Number of alleged offences*
Burglary	81
Robbery	23
Sex offences[1]	7
Theft and Handling[2]	326
Drug Offences	29

[1] Of the seven alleged sexual offences listed in the table, one has resulted in a conviction; the remaining six cases have either been discontinued prior to trial or resulted in acquittal.

[2] Includes all offences of theft and handling and is not limited to thefts only.

WOMEN AND EQUALITY

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Minister for Women and Equality how many officials for which she is responsible are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270512]

Maria Eagle: The Government Equalities Office do not have any officials who are suspended.

FOREIGN AND COMMONWEALTH OFFICE

Departmental Air Travel

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs how many officials from his Department of each *(a)* grade and *(b)* directorate have flown by British Airways on official business in each of the last five years; what the (i) destination and (ii) cost of the ticket was in each case; what his policy is on the use of British Airways by his Department's officials; and if he will make a statement. [270496]

Gillian Merron: Foreign and Commonwealth Office (FCO) officials of all grades travel extensively on official business, including travelling between the UK and their overseas posting. The FCO establishes "Approved Routes" to all destinations. These routes are deemed to offer the most efficient, safe and economical journey to the destination. At present the FCO has approved routes to 276 destinations. 92 of these approved routes (33 per cent.) use British Airways.

Staff make their own travel arrangements within defined cost ceilings and parameters. As travel bookings are made in London and in posts overseas in some 200 different locations, we do not hold information centrally on how many staff in each grade and directorate have flown by British Airways or other airlines in each of the last five years.

Departmental Assets

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269861]

Gillian Merron: The Foreign and Commonwealth Office's (FCO) land and property holdings are kept under constant review against specific criteria including value for money, fitness for purpose and security, with a view to identifying assets which can be disposed of or can be put to better use.

In line with this, a major overall review began in February 2009 and will continue throughout the current financial year. The purpose of the review is to ensure that the FCO's buildings and other assets are in the right place and are suitable to deliver Government priorities.

G20: Greater London

Mr. Maude: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to the public purse of the London Summit 2009 was. [270195]

Gillian Merron: As at 7 April 2009, the estimated expenditure for the London summit was £14.4 million, excluding policing costs.

Kenya

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the *(a)* December 2008 Memorandum of Understanding with Kenya and *(b)* the EU-Kenya exchange of letters regarding the transfer of persons suspected of committing acts of piracy of 6 March 2009. [270992]

David Miliband: The Kenyan Government do not wish to make public the December 2008 memorandum of understanding with the UK on the transfer of persons suspected of having committed acts of piracy. We must respect their position on this matter. The EU-Kenya exchange of letters is available on the European Union Council website at:

http://eur-lex.europa.eu/LexUriServ/
LexUriServ.do?uri=OJ:L:2009:079:0049:0059:EN:PDF

Somalia: Radioactive Waste

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on allegations of dumping of nuclear waste in Somalian territorial waters; and if he will make a statement. [270967]

Gillian Merron: We have heard no allegations that nuclear waste has been dumped in Somali territorial waters.

Sudan: Peacekeeping Operations

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the effect on the operational capacity of the joint UN-AU force for Darfur of its lack of key equipment pledged for the mission; and what discussions he has had with his UN Security Council counterparts on the supply of that equipment. [271564]

Gillian Merron: There remain significant shortfalls in the deployment of equipment for the joint UN-African Union Hybrid Mission for Darfur (UNAMID) which limits the effectiveness of the force. There is still no pledge for either light or utility helicopters. This remains the single greatest shortfall, with six helicopters required for each of the three sectors. We continue to work closely with the UN and potential contributors, including in the UN Security Council, and call on all parties to facilitate the full and rapid deployment of UNAMID.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs which of the joint UN-AU force for Darfur key deployment milestones discussed at the Tripartite Committee meeting on 31 March 2009 are planned to be reached *(a)* in the next quarter and *(b)* by the end of 2009. [271565]

Gillian Merron: UN-African Union hybrid mission to Darfur (UNAMID) staff briefed the Tripartite committee meeting that deployment of military forces currently stands at 67 per cent. of mandated strength. By the end of June military deployment is anticipated to be at 72 per cent. UNAMID expects all pledged units to have deployed by end of November which would bring military deployment to 92 per cent.

At 31 March 2009 the police component stood at 1778 police officers (47 per cent. of mandated strength). A further 200 personnel are expected to deploy each month until full mandated strength is reached.

The civil component was not discussed at the Tripartite meeting but currently stands at 62 per cent.

Torture

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what procedures his Department follows when notified of allegations that a British national has been tortured overseas; [270395]

(2) whether his Department's staff receive training on *(a)* the identification of instances of torture being used against British nationals overseas and *(b)* the procedures to be adopted in such circumstances; and if he will make a statement. [270396]

Gillian Merron: All consular staff are specifically trained on what action to take in response to any allegation of mistreatment. They can also draw on professional support, including from legal advisers in the Foreign and Commonwealth Office. All our consular staff work under clear internal guidelines which cover the identification of possible signs of torture and mistreatment, as well as the procedures to be adopted in such circumstances.

The first step when a British national is detained overseas is to seek and secure access by our consular staff. Our staff are instructed to ask our nationals whether they have suffered abuse or mistreatment, and to look out for signs of mistreatment even where an individual does not raise it. They are required to follow up all reports of mistreatment whether they come from the individual themselves, from their friends, family or representatives, or from other sources. What form this follow up action will take will depend on the individual circumstances of the case. Most obviously, we can raise our concerns with the relevant authorities. Whatever action we take however, the objective remains the same: to end the mistreatment, and have the incident investigated and the perpetrators of any abuse brought to justice.

In many countries, we also raise more general concerns around the mistreatment and abuse of detainees as part of our wider human rights dialogue.

United Arab Emirates: Foreign Relations

Mr. Grogan: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of relations with the United Arab Emirates; and if he will make a statement. [254488]

Bill Rammell: The UK has an excellent relationship with the United Arab Emirates and I had the opportunity to discuss this most recently with the Minister of Foreign Affairs His Highness Sheikh Abdullah bin Zayed Al Nahyan on 9 February 2009. I visited the United Arab Emirates on 24 November 2009 and my right hon. Friend the Prime Minister also visited from 3-4 November 2009 when he met His Highness the President, Sheikh Khalifa bin Zayed Al Nahyan, the Crown Prince of Abu Dhabi, His Highness Sheikh Mohammed bin Zayed Al Nahyan and the Ruler of Dubai, His Highness Sheikh Mohammed bin Rashid Al Maktoum.

Written Questions: Government Responses

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he plans to answer question 246292, tabled on 17 December 2008, on Florence Chitauro. [271073]

Gillian Merron: This question was answered on 23 April 2009, *Official Report*, column 808W.

The delay in replying was due to an administrative error.

DUCHY OF LANCASTER

Death: Hepatitis and Sexually Transmitted Diseases

Anne Milton: To ask the Chancellor of the Duchy of Lancaster (1) how many death certificates mentioning the terms *(a)* hepatitis A, *(b)* hepatitis B and *(c)* hepatitis C were issued in each of the last five years; [271725]

(2) how many death certificates mentioning the terms *(a)* gonorrhea and *(b)* syphilis were issued in each of the last five years. [271726]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the Authority to reply.

Letter from Karen Dunnell:

As National Statistician, I have been asked to reply to your recent questions asking:

(1) How many death certificates mentioning the terms *(a)* hepatitis A, *(b)* hepatitis B and *(c)* hepatitis C were issued in each of the last five years. (271725)

(2) How many death certificates mentioning the terms (a) gonorrhea and (b) syphilis were issued in each of the last five years. (271726)

Internationally accepted guidance from the World Health Organisation requires only those conditions that contributed directly to death to be recorded on the death certificate. Medical practitioners and coroners are not supposed to record all of the diseases or conditions present at or before death. Whether a condition contributed is a matter for their clinical judgement.

The table attached provides the number of deaths where the International Classification of Diseases, Tenth Revision codes recorded indicate that any of the following conditions were mentioned anywhere on the death certificate, either as the underlying cause or as a contributory factor, in England and Wales, for 2003 to 2007 (the latest year available):

1) *(a)* hepatitis A, *(b)* hepatitis B, *(c)* hepatitis C

2) *(b)* syphilis

No deaths mentioning gonococcal infection were recorded across this period.

Table 1. Deaths where certain named causes were mentioned anywhere on the death certificate.[1] England and Wales,[2] 2003-07[3]

	Deaths (persons)				
	2003	*2004*	*2005*	*2006*	*2007*
Hepatitis A	10	12	16	13	15
Hepatitis B	147	143	143	170	182
Hepatitis C	386	394	454	436	530
Syphilis	9	13	8	5	2

[1] Cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10). The specific causes of death categorised in Table 1, and their corresponding ICD-10 codes, are shown in the following box. Deaths were included where one of these causes was mentioned anywhere on the death certificate. Some death may be counted in more than one category as more than one of the requested conditions could be mentioned.

[2] Figures for England and Wales include deaths of non-residents.

[3] Figures are for deaths registered in each calendar year.

Box 1. Causes of death codes use—International Classification of Diseases, Tenth Revision (ICD-10)

Cause of death	*ICD-10 code(s)*
Hepatitis A	B15
Hepatitis B	B16, B18.0, B18.1, B17.0
Hepatitis C	B17.1, B18.2
Gonococcal infection	A54
Syphilis	A50-A53

Employment

Jim Cousins: To ask the Chancellor of the Duchy of Lancaster what the employment rate was for *(a)* 19 to 24 year-olds and *(b)* those aged between 25 years and retirement age in each quarter since 1 January 2004. [270927]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated 29 April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Question asking what the unemployment rate was for (a) 19 to 24 year olds and (b) those aged between 25 years old and retirement age in each quarter since January 2004. (270927)

The attached table provides estimated unemployment rates for the age categories requested, for each quarter since 2004.

The estimates are derived from the Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to a margin of uncertainty. The sampling variability of the overall unemployment rate at the end of 2008, measured by the '95 per cent. confidence interval' was ± 0.2 percentage points. The sampling variability for specific age groups will be larger, because the estimates are based on smaller samples.

The figures have been derived from the LFS microdata which are weighted using the official population estimates published in autumn 2007. Consequently, the figures from quarter 3 2006 are not entirely consistent with the figures published in the monthly Labour Market Statistics First Release which are weighted using more up-to-date population estimates.

Unemployment rate[1] by age—Three month periods ending March, June, September and December, 2004-08—United Kingdom, not seasonally adjusted

Percentage

		Age	
		19 to 24	*25 to 59/64[2]*
2004	Q1	10	4
	Q2	9	4
	Q3	11	3
	Q4	10	3

Unemployment rate[1] by age—Three month periods ending March, June, September and December, 2004-08—United Kingdom, not seasonally adjusted

Percentage

		Age	
		19 to 24	*25 to 59/64[2]*
2005	Q1	9	3
	Q2	10	3
	Q3	11	3
	Q4	11	4
2006	Q1	11	4
	Q2	12	4
	Q3	12	4
	Q4	11	4
2007	Q1	11	4
	Q2	12	4
	Q3	11	4
	Q4	10	4
2008	Q1	11	4
	Q2	12	4
	Q3	13	4
	Q4	13	5

[1] Unemployment rate is calculated as the number of people in unemployment as a percentage of the economically active population in an individual category.

[2] Men aged 25 to 64 and women aged 25 to 59.

Note:

It should be noted that the above estimates exclude people in most types of communal establishment (e.g. hotels, boarding houses, hostels, mobile home sites etc).

Source:

Labour Force Survey

Local Government: Manpower

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster how many people were employed in local government in each of the last four quarters. [271224]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question concerning how many people were employed in local government in each of the last four quarters. (271224)

Estimates of employment for local government are available from the Quarterly Public Sector Employment Survey (QPSES).

The requested data are attached at Annex A.

Annex A: Local government employment in each of the last four quarters; Headcount[1,2], United Kingdom, seasonally adjusted

		Headcount (thousand)
2008	Q1	2,910
2008	Q2	2,910
2008	Q3	2,910
2008	Q4	2,900

[1] Local government covers those types of public administration that only cover a locality and any bodies controlled and mainly financed by them. It includes police forces and their civilian staff.

[2] Police (England and Wales) based on projections.

Source:

Quarterly Public Sector Employment Survey

Small Businesses: Staffordshire

Mr. Jenkins: To ask the Chancellor of the Duchy of Lancaster how many small businesses there are in *(a)* Tamworth constituency and *(b)* Staffordshire. [270032]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning what estimate has been made of the number of small businesses in (a) Tamworth constituency and (b) Staffordshire. (270032)

Annual statistics on business size and location are available from the ONS release on UK Business: Activity, Size and Location. The table below contains the enterprise counts for 2008. Small businesses are defined as those with less than 50 employment.

Count of businesses 2008

	Employment size band			
	0-49	*50-249*	*250+*	*Total*
Tamworth Constituency	3,150	45	15	3,210
Staffordshire County	28,990	370	95	29,455

Statistics: Council Tax

Mrs. Spelman: To ask the Chancellor of the Duchy of Lancaster what the role of the UK Statistics Authority is in overseeing the publication of the Department of Communities and Local Government's annual council tax statistics. [271512]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Sir Michael Scholar KCB (Chair), dated April 2009:

I have been asked to reply to your recent question asking what the role of the UK Statistics Authority is in overseeing the publication of the Department of Communities and Local Government's annual council tax statistics. (271512)

Statistics on Council Tax Levels Set By Local Authorities are official statistics for the purposes of the Statistics and Registration Service Act 2007. Responsibility for their production and publication is a matter for the Department of Communities and Local Government. Under the provisions of the Statistics and Registration Service Act 2007, the UK Statistics Authority is responsible for monitoring the production and publication of all official statistics, for assessment as to whether the Code of Practice for Official Statistics has been complied with in relation to any official statistics, and for designation as National Statistics those official statistics which the Authority determines are compliant with the Code.

The UK Statistics Authority is required to assess official statistics not currently designated as National Statistics if it is requested to do so by the appropriate body responsible for the production and publication of those statistics. Under section 16 of the Act, where the relevant body has not asked the Authority to assess a set of official statistics against the Code, but the Authority is of the view that it would be appropriate for it to do so, the Authority is required by the Act to notify the body accordingly and to lay a copy of the notification before Parliament.

On 6 January 2009, the UK Statistics Authority notified the Department of Communities and Local Government that it wished to assess and determine whether the Code of Practice for Official Statistics has been complied with in respect of statistics on Council Tax Levels Set by Local Authorities. A copy of that notification was laid before Parliament. The Authority awaits a response from the Department of Communities and Local Government.

Unemployment: Hertfordshire

Mike Penning: To ask the Chancellor of the Duchy of Lancaster (1) how many people under the age of 19 years in *(a)* Hemel Hempstead and *(b)* Hertfordshire were unemployed in each of the last five years; [271260]

(2) how many people have been made redundant in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the last six months. [271261]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician, I have been asked to reply to your Parliamentary Questions asking how many people under the age of 19 years were identified as unemployed in (a) Hemel Hempstead and (b) Hertfordshire in each of the last five years; and how many people have been made redundant in (a) Hemel Hempstead and (b) Hertfordshire in the last six months. (271260 & 271261)

The Office for National Statistics (ONS) compiles labour market statistics for local areas from the Annual Population Survey (APS) and its predecessor the annual Labour Force Survey (LFS) following International Labour Organisation (ILO) definitions. However, this source does not support analysis of redundancies at these geographic levels and no alternate source is available.

It is also not possible to produce analysis of unemployed by small age groups, or for specific durations, for small geographic areas from this source. As an alternative to unemployment analysis of the count of claimants of Jobseeker's Allowance (JSA) for small geographic areas has been provided.

Table 1 shows the number of persons under the age of 19 claiming JSA, resident in the Hemel Hempstead constituency and Hertfordshire.

National and local area estimates for many labour market statistics, including employment, unemployment and claimant count are available of the NOMIS website at

http://www.nomisweb.co.uk.

Table 1. Number of persons aged under 19 claiming Jobseeker's Allowance resident in Hemel Hempstead Constituency and Hertfordshire

As at March each year	*Hemel Hempstead*	*Hertfordshire*
2005	136	986
2006	171	1,163
2007	136	1,091
2008	126	916
2009	229	1,707

Jobcentre Plus administrative system

United Kingdom Statistics Authority: Publications

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what the UK Statistics Authority's policy is on publishing statistics scheduled for publication during periods when Parliament has been dissolved. [269907]

Kevin Brennan: The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated April 2009:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking what the UK Statistics Authority's policy is on publishing statistics scheduled for publication during periods when Parliament has been dissolved. (269907)

During an election period, government statistical activities continue to be conducted in accordance with the Code of Practice for Official Statistics and the UK Government's Pre-release Access to Official Statistics Order 2008 (which should be read as though part of that Code). Regular statistical releases (e.g. press notices, bulletins, publications or electronic releases) and reports will continue to be issued and published on dates which have been pre-announced. Ad hoc statistical releases or reports will be released only where a release date has previously been published or release in the Election period has been clearly intended and publicly known when the Election is called.

In the event that statistics required by Act to be laid before Parliament before publication are scheduled for publication during a period in which Parliament is dissolved, arrangements will be made to lay these statistics, and to publish them, at the first available opportunity after the meeting of the new Parliament. A public announcement to this effect will be made.

The UK Statistics Authority will continue to monitor the production and publication of official statistics during a period in which Parliament is dissolved, in accordance with its statutory responsibilities, and will offer guidance to individual departments when it feels this is required.

INNOVATION, UNIVERSITIES AND SKILLS

Copyright: Music

Mr. Don Foster: To ask the Secretary of State for Innovation, Universities and Skills what estimate he has made of the number of businesses of each type which have been fined under the Copyright Designs and Patents Act 1998 for playing music in the workplace without a licence since the licensing requirement came into force. [271745]

Mr. Lammy: These figures are not held centrally and the Department has made no such estimates.

Higher Education: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what funding his Department is providing to *(a)* Warwick and *(b)* Coventry university in 2009-10. [272028]

Mr. Lammy: The Higher Education Funding Council for England announced its provisional grant allocations for 2009/10 on 5 March 2009. Coventry university will receive £54,064,049 and Warwick £77,405,193. Final allocations will be announced in October.

Measurement: Domestic Waste

Mrs. Spelman: To ask the Secretary of State for Innovation, Universities and Skills what assessment the National Weights and Measures Laboratory made of the accuracy and reliability of refuse bin weighing technology used by local authorities in monitoring levels of household rubbish. [271279]

Mr. Lammy: Measuring instruments designed to be used to weigh household rubbish are controlled by the Weights and Measures Act 1985 and the Non-automatic

Weighing Instruments Regulations 2000. The National Measurement Office (previously the National Weights and Measures Laboratory, NWML) is responsible, on behalf of the Secretary of State for Innovation, Universities and Skills, for this legislation.

The requirement exists for instruments to undergo a type approval process whereby the instrument is submitted to an independent certification body (Notified Body) for assessment against those statutory requirements which include tests designed to assess both accuracy and reliability.

Each instrument is then subject to further assessment before it is placed on the market and used.

These checks ensure that individual instruments are made in accordance with the type approval and that they are appropriately installed and are accurate in use.

A number of such measuring instruments have been submitted to the National Measurement Office and to other similar bodies in other member states by manufacturers and have been assessed and subsequently type approved against the statutory requirements.

TREASURY

Banks: Finance

Gordon Banks: To ask the Chancellor of the Exchequer pursuant to the answer of 23 March 2009, *Official Report*, column 90W, on banks: finance, by what date he expects the principles set out in the answer to be put into effect by state-supported banks. [271277]

Ian Pearson: UK Financial Investments (UKFI) manages the Government's shareholdings in the recapitalised banks. UKFI has a role in scrutinising banks' compliance with the recapitalisation conditions and also in scrutinising remuneration policies, to protect the interests of the taxpayer as major shareholder.

Royal Bank of Scotland made an announcement in respect of its pay and rewards settlement on 17 February 2009, and Lloyds Banking Group made an announcement on 9 March 2009. Both of these settlements were in line with the principles as set out in the answer of 23 March 2009, *Official Report*, column 90W.

Child Trust Fund: Foreigners

Mr. Philip Hammond: To ask the Chancellor of the Exchequer how many children of migrant workers hold a Child Trust Fund account; and what proportion of those children are normally resident in the UK. [271236]

Ian Pearson: Separate statistics are not held on children of migrant workers.

Council Tax: Valuation

Mrs. Spelman: To ask the Chancellor of the Exchequer pursuant to the answer of 27 February 2009, *Official Report*, column 1184W, on inheritance tax: housing, when the council tax banding support tool went live; and when the locality data was first used for council tax valuations. [270665]

Mr. Timms: The Valuation Office Agency's (VOA's) council tax banding support tool was first made available within the VOA on 27 March 2008. After this date, it was brought into use on a phased basis, following appropriate training; locality data was used from the outset.

Location has always been a consideration when allocating a council tax band, but this tool is the first to use digitised locality data to support current council tax work.

Credit Default Swaps Market

Mr. Liddell-Grainger: To ask the Chancellor of the Exchequer what steps he plans to take to ensure transparency and increase investor confidence in the credit default swaps market. [271415]

Ian Pearson: Section 19 of the Financial Services and Markets Act 2000 requires that anyone dealing in or arranging deals in investments be authorised by the Financial Services Authority. This includes firms or individuals trading in credit default swaps. The Government support industry initiatives to clear more credit default swaps through central counterparties (CCPs) and international initiatives to update the regulations governing the credit default swaps market.

Departmental Art Works

Mr. Philip Hammond: To ask the Chancellor of the Exchequer pursuant to the answer of 30 March 2009, *Official Report*, column 919W, on departmental art works, which Minister in his Department selected each item. [271199]

Angela Eagle: The information provided in my earlier answer of 30 March 2009, *Official Report*, column 919W, related to works of art displayed in all private offices and ministerial waiting rooms, regardless of whether they were selected by serving Treasury Ministers. Information relating to choices by particular Ministers is not available.

Departmental Official Hospitality

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what budget his Department allocated to hospitality offered by the Financial Services Secretary in 2008-09. [271173]

Angela Eagle: The Financial Services Secretary's office is allocated a budget to cover Treasury business, related conferences and meetings hosted by the Minister, including hospitality and catering. The budget allocated for the full year 2008-09 was £3,000.

Departmental Training

Mr. Philip Hammond: To ask the Chancellor of the Exchequer what awaydays have been attended by staff in *(a)* his Department, *(b)* its agencies and *(c)* HM Revenue and Customs in the last six months; and what the (i) purpose and (ii) cost of each was. [271201]

Angela Eagle: No central records are held on teams' away days in Departments or their agencies and the information could be obtained only at a disproportionate cost. In common with other organisations in the public and private sectors, the Treasury uses away-days for work-planning, training and staff development purposes.

Departmental Working Hours

Mr. Laws: To ask the Chancellor of the Exchequer (1) what the policy of his Department and its agencies is on granting staff time off in lieu for working *(a)* in lunch breaks, *(b)* in evenings and *(c)* at other times outside contracted working hours; and if he will make a statement; [252009]

(2) how many days off in lieu were granted to staff in *(a)* his Department, *(b)* its agencies and *(c)* its non-departmental public bodies for working (i) in lunch breaks and (ii) at other times outside contracted working hours, in the last year for which figures are available. [252010]

Angela Eagle: The matter of granting time off in lieu is delegated to Departments and their agencies to determine. There are no central rules governing the use of time off in lieu.

HMT, Office of Government Commerce and OGC buying.solutions operate schemes agreed at team level by individual managers. The same broad principles apply across the schemes:

Time off in lieu may not be claimed during a mandatory minimum lunch break period of 30-minutes each day

Time off in lieu is the preferred compensation for additional work done at other times outside contracted hours; such as in the evening or at weekends.

Where it is not possible to take time off in lieu, staff may claim overtime with the approval of a manager

The Debt Management Office has no formal policy for granting time off in lieu; however, in line with the Department and it's other agencies, overtime approved in advance may be claimed for work done outside contracted hours.

With the exception of OGC buying.solutions, HMT and its agencies do not record the total number of days of time off in lieu granted each year. These records are held within teams by individual managers and there would be a disproportionate cost in collating this information.

OGC buying.solutions confirms that 76 days of time off in lieu were granted during the last year. This information was retrieved from the time-recording management information system used by OGC b.s. This software is not used by HMT or its other agencies.

Fiscal Policy: Cayman Islands

Andrew Mackinlay: To ask the Chancellor of the Exchequer on what date he was most recently briefed by officials on the responsibilities of *(a)* the Governor of the Cayman Islands and *(b)* the Foreign and Commonwealth Office in relation to (i) financial regulation and oversight and (ii) compliance with (A) obligations imposed by the Organisation for Economic Co-operation and Development and (B) other treaty obligations in relation to financial regulation and oversight and disclosure in that territory; and if he will make a statement. [271789]

Ian Pearson *[holding answer 28 April 2009]:* Financial regulation and oversight are not matters reserved to the Governor of the Cayman Islands. Responsibility has been devolved to the Cayman Islands Government.

Compliance with treaty obligations extending to the Cayman Islands, including those relating to financial matters, is primarily the responsibility of the Territory Government and the UK Government expects them to comply fully with those obligations.

In April, at the London Summit, the G20 called on all jurisdictions to adhere to the international standards in the prudential, tax information exchange, and Anti-Money Laundering/Countering the Financing of Terrorism (AML/CFT) areas.

Fossil Fuels: Government Assistance

Gregory Barker: To ask the Chancellor of the Exchequer what financial contribution the UK has made to fossil fuel projects via the *(a)* World Bank Group, *(b)* European Bank for Reconstruction and Development, *(c)* European Investment Bank and *(d)* other Government-funded financial institutions in each of the last five years. [265222]

Mr. Thomas: I have been asked to reply.

The UK is a shareholder of the World Bank and Regional Development Banks; contributing to shared capital. It also makes core contributions to these institutions to support work in the poorest countries. These contributions are pooled. Shareholders cannot specify that their capital or contributions can or cannot be used for specific purposes.

A list of UK contributions to World Bank trust funds is set out in the answer to the hon. Member for Sutton Coldfield (Mr. Mitchell), on 26 February 2009, *Official Report*, column 1006W.

Information on funding channelled through World Bank Group, African Development Bank, Asian Development Bank, Caribbean Development Bank, European Investment Bank, and Inter-American Development Bank trust funds for the extraction and transport of fossil fuels or fossil fuel projects is not held centrally.

The UK has made contributions to trust funds operated by the European Bank for Reconstruction and Development that have contributed to fossil fuel projects. In most cases these trust funds receive financial support from multiple investors and it is not possible to determine what the UK contribution is to a specific project. The exceptions to this are the Energy Efficiency Fund and Sustainable Energy Imitative funds where the UK contribution to four fossil fuel projects financed by these funds in the last five years is €864,336. The UK has committed a further €2,671,290 through these funds to other projects, which include renewable energy and industrial energy efficiency.

Stamp Duty Land Tax: Crosby

Mrs. Curtis-Thomas: To ask the Chancellor of the Exchequer how many people resident in Crosby constituency have benefited from the stamp duty land tax holiday since it began. [271849]

Ian Pearson: Data on property transactions up to 2007—the most recent year for which figures are published—can be found at:

http://www.hmrc.gov.uk/stats/survey_of_prop/index.htm

The statistics will be updated to 2008, covering the initial period of the stamp duty land tax holiday, in June. This data includes property transactions by type of property and price as well as the number and value of property transactions broken down by parliamentary constituency, including Crosby.

Taxation: Housing

Grant Shapps: To ask the Chancellor of the Exchequer (1) what receipts the Exchequer received from housing-related consumption in each year since 1997 at 2009 prices; [271560]

(2) what receipts his Department received from housing-related consumption in each of the last 12 quarters, broken down by category of receipt. [271563]

Ian Pearson: Figures of housing-related consumption broken down by category of receipt are unavailable.

Taxation: Offshore Funds

John Battle: To ask the Chancellor of the Exchequer how many holders of offshore bank accounts have declared unpaid tax under the Government's partial amnesty. [271111]

Mr. Timms: The Offshore Disclosure Facility (ODF) was launched in April 2007 and ran until November 2007. Under the ODF 31,700 people came forward to disclose previously unreported tax liabilities. To date, the ODF has raised £404 million in additional revenue.

Taxation: Overpayments

Steve Webb: To ask the Chancellor of the Exchequer by what means non-taxpaying individuals who have had tax deducted at source from interest income can reclaim overpaid tax; and if he will make a statement. [271858]

Mr. Timms: Non-taxpaying individuals eligible for a repayment of tax deducted at source from interest income can reclaim the tax using form R40, available on the HM Revenue and Customs (HMRC) website:

http://www.hmrc.gov.uk/tdsi/claim-tax-back.htm

It can also be obtained from HMRC offices and from banks and building societies.

For non-taxpayers within self assessment, tax deducted at source from interest income can also be reclaimed through a self assessment tax return.

As announced at Budget 2009, HMRC will be running a tax back campaign, contacting all 2.7 million pension credit recipients, as likely non-taxpayers, to encourage them to claim back tax they may have overpaid on their interest income.

Welfare Tax Credits: Short-time Working

Margaret Moran: To ask the Chancellor of the Exchequer what steps he is taking to ensure that workers on short-time working are advised of their potential eligibility for tax credits. [271423]

Mr. Timms: The tax credit system is specifically designed to provide additional support when people need it most, such as when income falls because of a move to working shorter hours. In March, 355,000 households living on a lower income were receiving on average £35 per week more in tax credits.

Take-up of tax credits is already extremely high for people with children. People already claiming tax credits can notify HM Revenue and Customs (HMRC) of their changed income and circumstances over the phone, and can then benefit quickly from any additional support they are eligible for. As announced in the Budget, HMRC's tax credits marketing are now focusing on reminding people to provide up-to-date information when their circumstances change.

The Budget also announced an ambitious target to raise take-up of working tax credit (WTC) among people without children by 100,000 by April 2011. HMRC is expanding its work with employers to increase take-up, which currently reaches around 750,000 employees, and is working in partnership with trade unions to pass information about tax credits on to their members. In the coming year, HMRC will begin new research-driven marketing aimed at those people who stand to gain the most from taking up WTC, and will launch a pilot using data from pay-as-you-earn records to identify and contact potentially eligible people.

HOME DEPARTMENT

Asylum

Fiona Mactaggart: To ask the Secretary of State for the Home Department what the average length of time to decide on applications for asylum received has been since 2006. [258465]

Mr. Woolas: The latest available figures show the average time to initial decisions for asylum cases decided in 2006 was eight months and in 2007 was seven months. The average length of time (in months) is calculated from the date the application is lodged to the date of initial decision, and relates to the year in which the decisions were made. The average figure for 2008 will be available at the same time as the annual publication in August 2009.

Information on asylum is published annually and quarterly. The latest quarterly statistics were published on 24 February 2009 and are available from the Library of the House and from the Home Office Research, Development and Statistics Directorate website at:

http://www.homeoffice.gov.uk/rds/immigration-asylum-stats.html

Damian Green: To ask the Secretary of State for the Home Department which countries are on the Fast Track Processes Suitability List for asylum applications. [269166]

Mr. Woolas: Section 94(4) of the Nationality, Immigration and Asylum Act 2002 makes provision for a list of countries from which asylum or human rights claims must be certified as clearly unfounded unless the Secretary of State is satisfied that they are not.

The countries currently on the list are as follows: Albania, Bolivia, Bosnia-Herzegovina, Brazil, Ecuador, India, Jamaica, Macedonia, Mauritius, Moldova, Mongolia, Montenegro, Peru, South Africa, Serbia and Ukraine.

Gambia, Ghana, Kenya, Liberia, Malawi, Mali, Nigeria and Sierra Leone are on the list in respect of applications from men only.

Asylum: Employment

Philip Davies: To ask the Secretary of State for the Home Department what recent estimate she has made of the likely effect on the number of claims for asylum of permitting asylum seekers to work whilst their cases are being determined. [270818]

Mr. Woolas: It is not our policy to allow asylum seekers to work. The Government believe that managed migration is a valuable source of skills and labour to the British economy and there are recognised routes into the UK for those seeking to work. However, entering the country for economic reasons is not the same as seeking asylum and it is important to maintain the distinction between the two.

We believe giving asylum seekers or failed asylum seekers permission to work would be likely to act as a pull factor and encourage asylum applications from those without a well founded fear of persecution, hence slowing down the processing of applications made by genuine refugees and undermining the integrity of the managed migration system.

The only exception is asylum seekers who have been waiting 12 months for a decision where this delay cannot be attributed to them.

Borders: Personal Records

Jo Swinson: To ask the Secretary of State for the Home Department pursuant to the answer of 23 March 2009, *Official Report*, column 16, on e-borders, for how long data held under each category of information on travellers and passengers collected for the purposes of the e-borders programme will be retained when the programme is fully operational. [270373]

Mr. Woolas: The information will be held for 10 years in total—in the database for five years, and in our archive for a further five years.

This allows police to investigate the travel history of terror suspects and other criminals and enables the UK Border Agency to ensure that people leave when they are supposed to.

British National Party

Keith Vaz: To ask the Secretary of State for the Home Department what steps have been taken to restrict members of the British National Party from undertaking roles in *(a)* her Department and *(b)* the UK Border Agency. [250177]

Mr. Woolas: Every civil servant is expected to uphold the standards of conduct set out in the Civil Service Management Code and the Civil Service's anti-discrimination rules and a robust line will be taken with anyone who fails to do so.

Keith Vaz: To ask the Secretary of State for the Home Department how many post holders in the UK Border Agency are known to be members of the British National Party. [250178]

Mr. Woolas: Staff are not required to provide information about this and no data are available.

Keith Vaz: To ask the Secretary of State for the Home Department what steps the UK Border Agency takes in circumstances when employees are found to be members of the British National Party; and what the payband is of the official responsible for dealing with this matter. [250179]

Mr. Woolas: Membership of the British National Party is not banned in the UK Border Agency. Any behaviour related to the aims and values of that organisation, which contravenes either the Civil Service Management Code or Home Office policy, will be dealt with appropriately. Any manager in grades Executive Office or equivalent and above may instigate disciplinary action.

British Nationality

Chris Grayling: To ask the Secretary of State for the Home Department how many orders have been made under section 40(2) of the British Nationality Act 1981 in each year since 2006. [270933]

Jacqui Smith *[holding answer 24 April 2009]:* Two individuals have been deprived of citizenship under section 40(2) of the British Nationality Act 1981 since 2006—one in 2006 and one in 2007.

Keith Vaz: To ask the Secretary of State for the Home Department what steps her Department takes to prevent members of the British National Party (BNP) from holding posts in the UK Border Agency (UKBA); and what steps the UKBA takes in circumstances when an employee is found to be a member of the BNP. [252404]

Mr. Woolas: Recruitment applicants for permanent posts in UKBA are not required to provide any information about their political allegiance. However, every civil servant is expected to uphold the standards of conduct set out in the civil service management code and the civil service's anti-discrimination rules and a robust line will be taken with anyone who fails to do so.

Departmental Disciplinary Proceedings

Mr. Ruffley: To ask the Secretary of State for the Home Department how many staff in her Department were *(a)* dismissed, *(b)* subject to disciplinary procedures without being dismissed, *(c)* moved to less sensitive duties due to shortcomings in performance and *(d)* given early retirement in 2008-09. [269705]

Mr. Woolas: During the 2008-09 financial year, 23 members of staff within Home Office HQ, the Identity and Passport Service (IPS) and the Criminal Records Bureau (CRB) were dismissed under performance management procedures. This figure excludes IPS information for March 2009 as this is not yet available.

The UK Border Agency (UKBA) dismissed 46 members of staff under the broad category of inefficiency, which includes all dismissals made under performance management and attendance management procedures. A further breakdown of the dismissals could be obtained only at a disproportionate cost.

During the same period, a total of 39 members of staff within Home Office HQ, UKBA, IPS and CRB were disciplined short of dismissal under performance management procedures. This figure excludes IPS information for March 2009 as this is not yet available.

Information on the number of staff moved to less sensitive duties due to shortcomings in performance is not held centrally within Home Office HQ or UKBA and could be obtained only at disproportionate cost. No members of IPS or CRB staff were moved to less sensitive duties due to shortcomings in performance.

This excludes IPS information for March 2009 as this is not yet available. 177 members of staff within Home Office HQ, UKBA, IPS and CRB left on early retirement terms in 2008-09.

Departmental ICT

Jenny Willott: To ask the Secretary of State for the Home Department what estimate she has made of the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device in each division of her Department in each of the last five years; and if she will make a statement. [269555]

Mr. Woolas: Central Government Departments and their Executive Agencies are required to report performance data on their total energy consumption for their office estate annually as part of the Sustainable Development in Government (SDiG) reporting process, and to assess performance against the target to reduce carbon dioxide emissions from offices by 12.5 per cent. by 2010-11.against a 1999-2000 baseline.

Currently the Department does not collect or hold data that would allow it to estimate the *(a)* energy consumed by, *(b)* energy cost of and *(c)* carbon dioxide emissions from each category of IT device.

We have recently signed up to the Carbon Trust Carbon Management programme which will assist us in identifying opportunities to further improve efficiency, reduce carbon dioxide emissions and to carbon footprint the estate including our IT.

Departmental Travel

Mr. Ruffley: To ask the Secretary of State for the Home Department how much *(a)* her Department and *(b)* its agencies spent on (i) car hire and (ii) taxis in 2008-09. [269687]

Mr. Woolas: The Department has so far spent £1,045,671 on taxis during 2008-09; this is made up of £961,141 incurred by the core Home Office, including UK Borders Agency, and £84,530 spent by the Identity and Passport Service.

The cost of overseas car hire cannot be identified without incurring disproportionate cost. However, the Department has spent £917,908 on car hire in the United Kingdom; this is made up of £862,644 incurred by the core Home Office, including UK Borders Agency, and £55,264 spent by the Identity and Passport Service.

The cost of taxis and car hire incurred by the Criminal Records Bureau could not be identified without incurring disproportionate cost.

All figures are unaudited, and Identity and Passport Service expenditure is for the first 11 accounting periods of.the year.

All travel is undertaken in accordance with the Civil Service Management and Ministerial Codes.

Electronic Tagging

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* young offenders aged 10 to 15 years, *(b)* young offenders aged 12 to 16 years, *(c)* released prisoners and *(d)* prisoners on bail in (i) Castle Point and (ii) Essex were electronically tagged in each of the last five years. [271207]

Mr. Hanson: I have been asked to reply.

The following table sets out the data provided by Serco Home Affairs, the company providing the electronic monitoring service for Essex for the post codes covering Castle Point, and for the geographic area of Essex from the start of the current contracts in April 2005. Caseload data is not available prior to April 2005.

	Castle Point (SS7 and SS8 Postcode)	*Essex*
April - December 2005		
10 to 15 year old	1	37
12 to 16 year old	3	86
Prisoner releases on licence	8	319
All bail curfews	0	64
January - December 2006		
10 to 15 year old	2	57
12 to 16 year old	3	119
Prisoner releases on licence	14	395
All bail curfews	4	211
January - December 2007		
10 to 15 year old	0	69
12 to 16 year old	1	137
Prisoner releases on licence	8	316
All bail curfews	5	314
January - December 2008		
10 to 15 year old	2	62
12 to 16 year old	2	129
Prisoner releases on licence	10	296
All bail curfews	6	450
January - 24 April 2009		
10 to 15 year old	0	22
12 to 16 year old	0	55

	Castle Point (SS7 and SS8 Postcode)	Essex
Prisoner releases on licence	1	91
All bail curfews	5	222

Entry Clearances

Mr. Soames: To ask the Secretary of State for the Home Department how many visas were issued in each of the top 10 source countries in each of the last five years. [265688]

Mr. Woolas *[holding answer 23 March 2009]:* The number of visas issued in each of the top 10 source countries[1] in each of the last five calendar years is given in the following tables.

[1] Top 10 countries on the basis of visa issued, not applications received.

2004

	Visas issued
India	265,337
China	133,458
Nigeria	118,785
Russia	114,968
United States	106,138
Pakistan	105,490
UAE	56,816
Saudi Arabia	47,175
Turkey	44,441
Kuwait	41,545

2005

	Visas issued
India	307,550
Russian Federation	132,250
China	124,969
Nigeria	121,925
Pakistan	108,426
United States	99,040
Turkey	59,025
UAE	54,172
Saudi Arabia	50,178
Kuwait	47,109

2006

	Visas issued
India	363,804
China	156,969
Russia	148,399
Pakistan	133,964
Nigeria	103,503
United States	97,876
Turkey	67,985
UAE	64,871
Saudi Arabia	57,145
Kuwait	46,866

2007

	Visas issued
India	353,030
China	167,305
Russia	151,369
Pakistan	107,243
Nigeria	103,731
United States	88,433
Turkey	71,922
Saudi Arabia	60,943
UAE	56,548
Kuwait	42,194

2008

	Visas issued
India	349,193
China	151,260
Russia	132,310
Nigeria	100,883
United States	89,997
Pakistan	82,268
Turkey	78,284
Saudi Arabia	76,807
UAE	64,254
Kuwait	46,612

Source:
Central Reference System

Mr. Vaizey: To ask the Secretary of State for the Home Department how long on average it took for a tier 5 creative and sporting visa to be processed; and if she will make a statement. [270409]

Mr. Woolas *[holding answer 23 April 2009]:* For visa applications assessed under the points-based system, including tier 5, we aim to process 90 per cent. in not more than three weeks, 98 per cent. in not more than six weeks and 100 per cent. in not more than 12 weeks. Our customer service standards and actual turnaround times in individual locations are published on our website at:

www.ukvisas.gov.uk

These are more helpful than average times.

House of Commons: Right of Search

Mr. Cash: To ask the Secretary of State for the Home Department who authorised the covert recording of discussions between police officers and the hon. Member for Ashford at and around the time of his arrest on 27 November 2008; and what the basis in law for such authorisation was. [255837]

Mr. Coaker: Matters of this sort are operational policing issues and not for the Secretary of State.

Where the police wish to carry out covert recording as part of an operation and the covert recording is likely to result in the obtaining of private information it would require a directed surveillance authorisation under Regulation of Investigatory Powers Act 2000.

This must be authorised by a superintendent. Where the covert recording occurs in domestic premises or a private vehicle, it is intrusive surveillance and would require an authorisation by a chief constable and prior approval by an independent Surveillance Commissioner.

Illegal Immigrants: Amnesties

Dr. Kumar: To ask the Secretary of State for the Home Department what recent assessment she has made of the merits of an amnesty for illegal immigrants. [271083]

Mr. Woolas: The Government have ruled out an amnesty and this remains our position. An amnesty would be unfair to those who are here legally; it would act as a pull factor for even more attempts at illegal immigration; and it would counter the achievements of the UK Border Agency in toughening up our border and immigration system.

Immigration

Chris Grayling: To ask the Secretary of State for the Home Department how many orders have been made under section 2A of the Immigration Act 1971 in each year since 2006. [270934]

Jacqui Smith *[holding answer 24 April 2009]:* One individual was deprived of their right of abode in the United Kingdom in 2006 under section 2A of the Immigration Act 1971.

Immigration Controls: Eurostar

Mrs. Ellman: To ask the Secretary of State for the Home Department how many unaccompanied child passengers intending to travel on Eurostar services to the UK have been denied boarding at the terminals in *(a)* Paris and *(b)* Brussels by UK immigration officials since the introduction of juxtaposed controls. [268711]

Mr. Woolas *[holding answer 20 April 2009]:* The number of unaccompanied child passengers who have been refused entry at the juxtaposed controls since their introduction in 2004 are as follows:

(a) Paris—a total of 75 unaccompanied child passengers were formally refused entry.

(b) Brussels—a total of 29 unaccompanied child passengers were formally refused entry.

These figures have been sourced from locally collated management information and do not represent National Statistics.

Immigration Controls: Overseas Students

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to the answer of 12 March 2009, *Official Report*, columns 636-7, on immigration controls: educational institutions, what criteria were applied in respect of the decision to require overseas students applying for courses to demonstrate that they have maintenance of £800 for each month of the course if studying in London, or £600 for each month of the course if studying outside London; and what assessment she has made of the appropriateness of this figure as a reflection of student spending. [271295]

Mr. Woolas *[holding answer 27 April 2009]:* The maintenance requirement set for students studying in or outside London under Tier 4 uses the figures contained in the British Council's report "Welcome to the UK—Studying and Living in the United Kingdom 2007-08". These figures were based on 2004 prices, and include the cost of accommodation, heating, lighting, food, clothing, books and daily travel for one person for a nine month academic year.

Immigration: Biometrics

Damian Green: To ask the Secretary of State for the Home Department how much funding her Department has allocated in respect of the *(a)* capital and *(b)* running costs of the Iris Recognition Immigration System. [271367]

Mr. Woolas: To date, the Department has allocated a total of *(a)* £4.9 million in capital and *(b)* £2.9 million in running costs in respect of the Iris Recognition Immigration System (IRIS).

Immigration: Manpower

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 4 March 2009, *Official Report*, column 1638W, on immigration: manpower, how much her Department spent on *(a)* salaries and *(b)* operational costs for front-line immigration staff based in France in the latest period for which figures are available. [263263]

Mr. Woolas: The figures for *(a)* salaries and *(b)* operational costs for front-line immigration staff based in France for 2007-08 were as follows:

	£ million
(a) Salaries	29.3
(b) Operational costs	11.8

This is the latest period for which financial accounts are available.

Personal Records: Borders

Chris Grayling: To ask the Secretary of State for the Home Department what mechanism is in place to ensure that the e-Borders system recognises whether individuals who hold dual nationality have overstayed their visas in cases where only the foreign passport is stored on the e-Borders system and the holder does not travel out of the UK on that passport for more than six months. [270148]

Jacqui Smith: Travel histories stored in the system will be person-centric, rather than travel document-centric and the use of more than one passport by an individual will be identified at the primary arrivals control, and captured within the system.

It could happen that a person has two foreign passports, with a visa on the passport with which they entered the UK. If they subsequently leave the UK on a different passport, the e-Borders system will receive the passport data from the carrier and will associate the passports as belonging to the same individual. This will ensure that the conditions of entry are closely monitored for those who are subject to immigration control.

Mr. Leech: To ask the Secretary of State for the Home Department pursuant to the answer of 10 March 2009, *Official Report*, column 305W, on police: Greater Manchester, what estimate has been made of the cost of policing the new electronic borders operations centre in Wythenshawe, Greater Manchester; and whether additional resources will be made available for the policing of this facility. [270256]

Mr. Woolas: The National Border Targeting Centre (NBTC) is scheduled to open in late 2009 and is a multi agency centre staffed with UK Border Agency (UKBA) and police officers. It is operated by UKBA, and managed by Trusted Borders, the service provider, who is responsible for providing 24 hour security as part of the e-Borders service contract.

The impact upon local policing resources of the NBTC being in Manchester is considered to be negligible, and it is not expected that specific funding to the Greater Manchester Police Authority will be needed to pay for policing the new centre.

Police: Disclosure of Information

Chris Huhne: To ask the Secretary of State for the Home Department (1) for what reasons the internal Merseyside Police review of the treatment of Paula Gilfoyle's death scene, compiled by Detective Superintendent Edward Humphreys was not disclosed to the defence prior to Mr. Eddie Gilfoyle's trial; [270583]

(2) where the *(a)* report of the review, *(b)* draft report and *(c)* notes of interviews with police officers were between the end of Mr. Eddie Gilfoyle's trial and the time they were disclosed to the defence for Mr. Gilfoyle's appeal in 1995; [270584]

(3) for what reasons Detective Superintendent Gooch of Lancashire Police in his investigation of the case of Mr. Eddie Gilfoyle on behalf of the Police Complaints Commission was told that the notes of interviews with officers compiled for the Humphreys Review had been destroyed; and who had possession of those notes at the time when Detective Superintendent Gooch was told that. [270586]

Jacqui Smith: This information is not held by the Home Office. This is a matter for the chief constable of Merseyside police.

Prisoners: Foreigners

Damian Green: To ask the Secretary of State for the Home Department pursuant to the answer of 20 April 2009, *Official Report*, columns 170-1W, on detainees: offenders, how many of those held on the immigration detention estate are of each nationality. [271255]

Mr. Woolas: The information requested is not centrally collated nor is it readily possible to obtain due to the rapidly changing situation as a large number of foreign criminals are removed on a daily basis as evidenced by the record 5,395 deportations and removals of foreign criminals that took place in 2008. In order to obtain this information it would be necessary to obtain a snapshot of the number of individuals who are detained at any one point then examine individual case files in order to identify their nationality, which would incur a disproportionate cost.

The chief executive of the UK Border Agency has written to the Home Affairs Select Committee on a regular basis in order to provide all of the most robust and accurate information available on the detention and deportation of foreign national prisoners. She will continue to do so as required.

Theft: Heavy Goods Vehicles

Chris Grayling: To ask the Secretary of State for the Home Department how many heavy goods vehicles carrying *(a)* gas, *(b)* oil and *(c)* petroleum were reported stolen in each of the last five years. [270931]

Jacqui Smith: The information requested is not collected centrally. These offences are recorded under the classification of 'theft or unauthorised taking of a motor vehicle', however the recorded crime statistics are based on an aggregate count and it is therefore not possible to separately identify types of vehicle stolen or their contents.

BUSINESS, ENTERPRISE AND REGULATORY REFORM

Balance of Trade

Mr. Walker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the UK trade deficit in each category, not including invisible earnings, was in each year since 1997. [271196]

Mr. Thomas: The data requested are shown in the following table

£ billion

	Trade in goods balance	*Trade in services balance*
1997	-12	17
1998	-22	15
1999	-29	16
2000	-33	15
2001	-41	17
2002	-48	20
2003	-49	23
2004	-61	28
2005	-69	26
2006	-76	33
2007	-90	42
2008	-93	49

More detailed figures are published by the Office for National Statistics in its Monthly Review of External Trade Statistics, quarterly Balance of Payments first release and annual UK Balance of Payments Pink Book.

Business: Wales

Mrs. Gillan: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many health checks on businesses in Wales have been carried out under his Department's Flexible Support for Business service in each of the last six months. [261934]

Mr. Paul Murphy: I have been asked to reply.

Responsibility for business support is devolved to the Welsh Assembly Government and is delivered through its Flexible Support for Business service, which includes regular health checks for over 1,700 clients.

Competition: Newspapers

Kerry McCarthy: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform if he will use his powers under the memorandum of understanding with the Office of Fair Trading to request it to re-examine competition issues in the newspaper distribution industry. [271440]

Mr. Thomas: There have been a number of announcements recently about competition within the market for the distribution of newspapers in England and Wales after significant investigation. They include my noble Friend the Secretary of State's release of the statutory undertakings underpinning the Code of Practice given by wholesale distributors, and the Office of Fair Trading' opinion on the legality of distribution agreements between wholesalers and publishers. The Office of Fair Trading is currently consulting on its preliminary decision not to refer the market to the Competition Commission and it is expected to announce its final decision in the autumn.

My noble Friend the Secretary of State's decision on the Code of Practice can be found at the following URL link:

http://www.berr.gov.uk/whatwedo/businesslaw/competition/law/newsdist/index.html

And the Office of Fair Trading's opinion on the legality of wholesaler distributors' agreements with publishers can be found at:

http://www.oft.gov.uk/news/press/2008/122-08

Council of Business Advisers

John Mason: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many times the Business Council for Britain has met; when it last met; who the members of the Council are; how many civil servants have attended each meeting of the Council; and how much the Council has spent on *(a)* travel, *(b)* hospitality and *(c)* other expenses since June 2007. [268518]

Mr. Thomas: The Business Council for Britain has met formally five times, the most recent meeting being on 14 January 2009. The executive chair of the Better Regulation Executive is invited to attend Business Council meetings and the officials attending the meetings have been: the PM's Private Secretary; the Permanent Secretary, BERR; two officials from the Business Council's Secretariat and an official from the Cabinet Office. In addition, the joint head of the UK Government Economic Service also attended the meeting in January 2009.

There are currently 16 members of the Business Council, a full list is attached as follows. The Business Council has incurred a sum of £870 for hospitality, but no other costs for travel or other expenses.

Business Council for Britain, membership as at 3 April 2009:

Stephen Green, Chairman, HSBC (and Chairman of the Business Council)

Sir Richard Branson, Founder, Virgin

Damon Buffini, Chairman, Permira

Cynthia Carroll, Chief Executive, Anglo American

Sir William Castell, Chairman, Wellcome Trust

Sir Rod Eddington, Director, News Corporation

Dr Tony Hayward, CEO, BP

Sir Terry Leahy, CEO, Tesco

Ian Livingston, Chief Executive, BT

Sir John Parker, Chairman, National Grid

Sir John Rose, CEO, Rolls-Royce

Sir Stuart Rose Executive Chairman, Marks and Spencer

Dame Marjorie Scardino, CEO, Pearson

Sir Alan Sugar, Chair and CEO, Amstrad

Paul Walsh, CEO, Diageo

Andrew Witty, CEO, GlaxoSmithKline

Departmental Assets

Bob Spink: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [268836]

Mr. McFadden: This Department's published Asset Management Strategy can be found on the BERR website at the following address:

www.berr.gov.uk

The Department does not own any material or significant non-property related assets.

The Department does not own any land.

The Department owns the freehold to only one building, the Core Store, situated in Edinburgh, which is currently fully occupied and let to the British Geological Survey. All other buildings are leased.

Since 2003-04, the Department's estate has undergone substantial rationalisation and BERR staff now occupy only 1.5 buildings in central London. Where buildings have been vacated, they have either been let to other Government Departments or the leases have expired.

Departmental Training

Grant Shapps: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how much has been spent on media training for each Minister in his Department in each of the last three years; how many sessions have been provided; and which organisations provided such training. [268552]

Mr. McFadden: Training is provided to Ministers as necessary in order to carry out their duties effectively under the Ministerial Code.

Evening Standard

Norman Baker: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what communications *(a)* Ministers and *(b)* officials in his Department received from (i) Finsbury and (ii) Roland Rudd in connection with the sale of the London Evening Standard to Alexander Lebedev before the decision was taken on whether to issue an intervention notice under the Enterprise Act 2002. [268052]

Mr. Thomas *[holding answer 20 April 2009]*: No communications were received by Ministers or officials in connection with the sale of the Evening Standard from either Roland Rudd or Finsbury.

Free Trade: Burma

John Battle: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what progress has been made in securing an EU-ASEAN free-trade agreement; and whether Burma will be party to this agreement. [271109]

Mr. Thomas: EU-ASEAN free trade agreement negotiations were launched in May 2007 in Brunei. ASEAN, due to its competitiveness, is a very important market with which to further deepen trade relations. However, since 2007 progress on starting substantive negotiations has been very slow. This has been a result of ASEAN finding it difficult to agree a common negotiating position.

The UK position is that Burma should not benefit from a future EU-ASEAN FTA. This is an issue to which the UK attaches great importance.

Insolvency

Mr. Prisk: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform how many corporate insolvencies there were in each *(a)* local authority area, *(b)* region and *(c)* parliamentary constituency in each quarter of each of the last 12 years; and if he will make a statement. [271797]

Mr. McFadden: Statistics covering corporate insolvencies are not currently available at sub-national level within England and Wales.

Overseas Trade: Israel

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what assistance his Department provides to Israeli businesses wishing to *(a)* invest in the UK and *(b)* take part in joint ventures with UK companies; how much was made available for these purposes in each of the last two years; and if he will make a statement. [268514]

Mr. Thomas: UK Trade and Investment (UKTI) provides a range of information and business services to Israeli companies wishing to invest in the UK, through its teams based in both the UK and the British Embassy in Tel Aviv.

As part of UKTI's role to facilitate investment in the UK, the Global Partnerships programme offers a research service to foreign companies interested in joint ventures and long term collaborations.

It is not possible to quantify accurately the costs available for these purposes solely in Israel.

Mr. Amess: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform when *(a)* he, *(b)* Ministers in his Department and *(c)* his officials last met the Chairman of the Israel Britain Chamber of Commerce to discuss trade between the UK and Israel; on what dates the next such meetings are planned; and if he will make a statement. [268515]

Mr. Thomas: I have not yet had the opportunity to meet Len Judes, Chairman of the Israel-British Chamber of Commerce.

Contacts in Tel Aviv are regular and ongoing. UKTI officials based in London who are responsible for business with Israel meet representatives of the Israel-Britain Chamber of Commerce when they travel to Israel. UKTI officials met Mr Judes on one of his recent visits to the UK.

My noble Friend the Minister of State for Trade and Investment will be visiting Israel in a private capacity later in the year, although he will spend some time on official business. He hopes there will be an opportunity to meet Mr Judes during that visit.

Mrs. Moon: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what support *(a)* his Department and *(b)* UK Trade and Investment are providing (i) to support UK business activities in Israel and (ii) support the attendance of UK businesses at business fairs and conferences in that country. [271412]

Mr. Thomas: On behalf of the Department for Business, Enterprise and Regulatory Reform and HM Government more widely, UK Trade and Investment (UKTI) provides a range of support services to British companies wishing to trade with or invest in Israel, principally through its commercial team based in the British embassy in Tel Aviv.

UKTI support focuses, in particular, on business opportunities in high technology sectors, including Biotechnology, Healthcare, Aerospace, Information and Communication Technology, the Environmental Industries and Financial and Legal Services. Information on commercial events in Israel is posted on the UKTI website

www.uktradeinvest.gov.uk

along with details of specific business opportunities in the market.

UKTI offers a full range of support services to British companies attending trade fairs and exhibitions in Israel. These include pre-travel market research and in-country assistance with programme arranging and logistics.

Minimum Wage

Mr. Sanders: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what steps his Department is taking to reduce the number of workers receiving a wage below the national minimum wage. [271603]

Mr. McFadden: The Government are committed to simple, effective enforcement of the national minimum wage (NMW) which deters non-compliant employers from underpaying their workers and removes the unfair competitive advantage that underpayment can bring. New measures brought in under the Employment Act 2008, which took effect from 6 April this year, include automatic penalties of up to £5,000 for employers found not to be complying with the NMW, a new system for calculating repayment of arrears of NMW to a worker which takes account of the length of time the arrears have been outstanding and greater powers for officers enforcing the NMW in obtaining records. In 2006 the then Chancellor of the Exchequer, my right hon. Friend the Prime Minister, announced an increase of £2.9 million per year for enforcement of the national minimum wage, each year for four years.

The Government also run an extensive publicity campaign aimed at informing workers and businesses about the national minimum wage. In 2007-08 the Government helped to restore £3.9 million in arrears to over 19,000 workers.

Trade Promotion: Expenditure

Mr. Hands: To ask the Minister of State, Department for Business, Enterprise and Regulatory Reform what the cost to his Department was of the UK Trade and Investment "Take it to the World" programme on the latest date for which figures are available. [269026]

Mr. Thomas: UK Trade and Investment's "Take it to the World" programme, has the objective to raise awareness amongst businesses of its role and the benefits of exporting, in line with the recommendation in the National Audit Offices recent value-for-money report.

The programme has cost £780,982 (0.25 per cent. of total budget).

This has helped achieve an additional 46,000 visitors to UKTI's website when comparing March to the previous month.

COMMUNITIES AND LOCAL GOVERNMENT

Community Development

John Bercow: To ask the Secretary of State for Communities and Local Government what the final data are for the educational Key Stage 3 target for the performance of schools in Neighbourhood Renewal Fund areas, as referred to on page 44 of her Department's 2008 Annual Report. [271540]

Mr. Khan: There are no plans to release 2008 Key Stage 3 final data for Neighbourhood Renewal Fund areas.

On 16 October 2008, the Secretary of State for Children Schools and Families announced to the House significant changes to the school assessment and accountability system, including the end of compulsory Key Stage 3 tests. Following this widely welcomed announcement it was subsequently decided and announced to the House on 16 December 2008, not to proceed with collating and publishing Key Stage 3 performance tables at the school-level for 2008, as to do so would place a disproportionate burden on secondary schools.

Community Relations

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the Community Leadership Fund in contributing to the development of capacity among faith and civic leaders to confront extremism. [271641]

Mr. Khan: Each piece of work funded by the Community Leadership Fund is assessed individually according to the proposed measures for effectiveness of the specific activities and objectives of each project.

All projects funded through the Community Leadership Fund are monitored with interim and annual evaluation reports.

The 24 projects funded in 2007-08 directly engaged over 2,000 Muslim young people, women and faith leaders to support them to tackle violent extremism using a range of methods, including leadership training, dialogue and debate, drama and arts projects.

The end of year evaluation reports for projects funded in 2008-09 are due at the end of June 2009.

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the work of citizens' juries in determining how targeted provision of teaching English for speakers of other languages can build community cohesion. [271644]

Mr. Khan: The Department for Communities and Local Government co-hosted two citizens' juries with the Department for Innovation, Universities and Skills as part of DIUS' 2008 consultation on re-focusing English for Speakers of Other Languages. The Government's aim in re-focusing ESOL is to ensure the most socially excluded are not overlooked by existing ESOL provision. The Government believe that the new approach—on which an announcement will be made shortly—will make a major contribution to strengthened community cohesion

No separate evaluation was made of the contribution the citizen jury element made to the wider consultation. But the Government believe Citizens' Juries continue to have a useful role to play as one of a range of consultation tools available to local and national policy makers.

Community Relations: Finance

John Bercow: To ask the Secretary of State for Communities and Local Government what funding her Department provided to Connecting Communities Plus in 2008-09; and what allocation has been made to Connecting Communities Plus for 2009-10. [271571]

Mr. Khan: The Department provided funding under the Connecting Communities Plus Programme of £5,757,119 to organisations working to promote race equality and community cohesion during 2008-09.

Connecting Communities Plus funded national level strategic partners and local level projects for a three-year period from 2006-09. It also funded over 300 small community organisations with one-off grants of up to £12,000.

The Connecting Communities Plus fund ended on 31 March, however in April 2009, we invited bids for the Tackling Race Inequalities Fund, which will provide funding for Third Sector organisations whose works helps to address race inequalities. The fund will provide £3 million in 2009-10.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Communities and Local Government what steps her Department has taken to address the effect on levels of carbon dioxide emissions from her Department of its ICT purchases since the publication of the Greening Government ICT Strategy; and if she will make a statement. [269573]

Mr. Iain Wright: The Department for Communities and Local Government has taken the following steps to address the effect of carbon dioxide emissions of ICT purchases since the publication of the Greening Government ICT strategy:

> Prepared a Sustainable Procurement Strategy which will address achieving 100 per cent. compliance with the Buy Sustainable Quick Wins Minimum Procurement Specifications list for new procurements.
>
> Produced a Greening Government CIO Green ICT Roadmap to report compliance with operational and strategic Green ICT targets. This includes more re-use of existing equipment, using devices for longer before replacement and reducing the number of devices used by each individual.
>
> CLG will be implementing a Corporate Printer Strategy to reduce the overall number of printers used by the organisation, control their usage to reduce the amount of paper used, and replace individual printers with multi-functional devices with green printing defaults where possible (for example duplex printing).

Eco-Towns

Mr. Dai Davies: To ask the Secretary of State for Communities and Local Government what recent representations she has received on the implementation of soil sealing strategies for eco-town developments; and what research her Department has *(a)* commissioned and *(b)* evaluated on soil sealing. [270845]

Margaret Beckett: As part of the Sustainability Appraisal and Habitats Regulations Assessment of the draft Planning Policy Statement and Eco-towns Programme, consideration at a strategic level has been undertaken of any significant effects on the environment, including soil. This document is available on my Department's website and forms part of the current eco-towns consultation.

> http://www.communities.gov.uk/planningandbuilding/planning/planningpolicyguidance/planningpolicystatements/planningpolicystatements/ppsecotowns/ppssustainabilityappraisal/

Issues relating to soil sealing may well be raised as part of the eco-towns consultation, which runs until 30 April. Following our review of the consultation responses we will publish a Government response together with consultation summary report of responses received.

The issue of soil sealing is also addressed in a project jointly funded by the Department for Environment, Food and Rural Affairs (DEFRA) and the British National Space Centre to develop a methodology for using Earth Observation to identify and monitor changes in soil sealing, and assess methodologies for determining the effect of soil sealing on urban drainage and aesthetic value. The report is available on the DEFRA website.

> http://randd.defra.gov.uk/Document.aspx?Document=SP0541_5218_FRP.pdf

Empty Property

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 25 March 2009, *Official Report*, columns 472-3W, on empty property, when the seminar to address local authorities took place; and how many local authorities were represented at the meeting. [270600]

Mr. Iain Wright: The Empty Homes seminar took place at Admiralty House on 23 April and 12 individual local authorities were represented at the meeting, as well as the West London Housing Partnership, representing seven London boroughs, and the Herts, Beds, Bucks Empty Homes Forum, representing 24 local authorities. A further eight local authorities were invited but were unable to attend. The Homes and Communities Agency, LACORS and the Empty Homes Agency were also represented at the seminar, along with officials from my Department and the Government offices for the regions. I also attended.

Energy Performance Certificates

Grant Shapps: To ask the Secretary of State for Communities and Local Government on how many occasions energy performance certificates have been issued more than five days after the completion of the *(a)* construction and *(b)* modification of a building; and what penalties can be imposed in such circumstances. [270556]

Mr. Iain Wright: No information is collected centrally about the date on which either construction or modification of buildings is completed. However, a building control officer must have evidence that an energy performance certificate is available before they can certify that the construction of a building has been completed. This same requirement only applies to the modification of buildings where this leads to the creation of a separate dwelling or non-domestic unit that has heating, hot water or air conditioning. Enforcement of this requirement is a matter for local authority building control.

Equal Opportunities

John Bercow: To ask the Secretary of State for Communities and Local Government what steps she is taking to promote race equality and community cohesion in response to the slippage against her Department's target indicator on discrimination in the labour market, as referred to on page 122 of her Department's Annual Report 2008. [271539]

Mr. Khan: The Department works with central Government Departments and other stakeholders to mainstream race equality into public policy and delivery and to focus policies on the most significant inequalities, for instance employment and the Criminal Justice System. It was disappointing that the target on perceived discrimination by employers was not met, although in the same public service agreement period, the Government's target on minority ethnic employment rates was met comfortably.

We have also worked closely with the Department for Work and Pensions through the Ethnic Minority Employment Task Force to address these issues and will work with the Task Force to implement the findings of the National Employment Panel's Business Commission Report, which made a number of recommendations for Government to increase the levels of employment and progression of minority ethnic people in the private sector.

The Government's overall approach to race equality over the last few years was set out in our race equality and community cohesion strategy—Improving Opportunity, Strengthening Society.

On 24 February 2009 the Department for Communities and Local Government launched Tackling Race Inequalities: A discussion document which is seeking views from the public, private and third sectors, and the public, on the next steps the Government should take on tackling inequalities faced by many people from minority ethnic groups.

Equity

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many equity loan completions there were in each region in March 2009. [270628]

Mr. Iain Wright: There were 804 equity loan completions in March 2009. This is significantly higher than the average monthly equity loan completion rate of 579.

Sponsor LA region name	*Total*
East Midlands	32
Eastern	144
London	207
North East	5
North West	43
South East	218
South West	71
West Midlands	54
Yorkshire and Humberside	29
Grand total	804

Fire Services

John Bercow: To ask the Secretary of State for Communities and Local Government what plans she has for a Centre of Excellence for the Fire and Rescue Service. [271633]

Mr. Khan: The Department issued a consultation on proposals for a Centre of Excellence for the fire and rescue service in November 2007. While the majority of respondents supported, in principle, the establishment of a Centre of Excellence, there was a lack of consensus on some important issues, not least funding, and therefore it was decided not to proceed with the proposal for the time being. Therefore while we have no immediate plans to establish a Centre of Excellence, we have continued to explore with key stakeholders how the concepts might best be taken forward.

John Bercow: To ask the Secretary of State for Communities and Local Government what recent progress her Department has made towards the objective of installing Firelink radios in all fire appliances. [271634]

Mr. Khan: The installation of Firelink radio equipment into fire and rescue service vehicles is progressing well. To date, radios have been installed in 3,000 fire vehicles, which represents approximately one third of the fire and rescue service fleet.

Fire Services: Finance

John Bercow: To ask the Secretary of State for Communities and Local Government what funding her Department allocated to the Fire and Resilience programme for *(a)* 2008-09 and *(b)* 2009-10. [271635]

Mr. Khan: The Department's provisional outturn figure for expenditure on the Fire and Resilience Programme in 2008-09 is £196 million. The latest forecast for expenditure in 2009-10 is £199 million.

Fires: Death

John Bercow: To ask the Secretary of State for Communities and Local Government which fire and rescue authorities had a fatality rate from accidental fires in the home of more than 1.25 times the national average in the most recent year for which figures are available. [271631]

Mr. Khan: Because of inherent fluctuations in the number of fatalities in individual fire and rescue authority (FRA) areas from year to year, the public service agreement target on this measure is based on five-year averages.

Only finalised data is suitable for analysis of number of deaths in individual fire authorities. Finalised fire incident data for 2007-08 that takes account of cross checking against records from the General Register's Office will not be available until August. Thus the latest five years of suitable data is for 2002-03 to 2006-07, and these are shown in the table.

Fire authorities exceeding 1.25 times the national average rate of accidental dwelling fires, 2002-03 to 2006-07

Area	*Average fatality rate (per 100,000 population) based on 2002-03 to 2006-07 data*
England average	0.49
Rate 1.25* the National Average	0.61
Lancashire	0.87
Greater Manchester	0.74
West Yorkshire	0.66
Durham	0.64
South Yorkshire[1]	0.61

[1] The figure for South Yorkshire is higher than 1.25* the national average when taken to 3 decimal places.

Housing

John Bercow: To ask the Secretary of State for Communities and Local Government (1) what level of housing delivery was achieved in the area to which RPG9 relates in *(a)* 2007-08 and *(b)* 2008-09; [271566]

(2) what projection she has made of the level of housing delivery in the area to which RPG9 relates in 2009-10. [271567]

Mr. Iain Wright: The net increase in the numbers of dwellings in the South East region in 2007-08 was 35,407, 33,398 of which were newly built homes. A figure for 2008-09 is not yet available, although latest figures show 21,600 new homes were completed in the first nine months of 2008-09. The Government do not make projections of future housing delivery. The housing provision for the South East in RPG is 28,050 dwellings per annum, with an additional 1,500 from partial reviews of the Growth Areas of Milton Keynes and Aylesbury Vale and Ashford.

Housing Revenue Accounts

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 6 March 2009, *Official Report*, columns 71-2WS, on local authority rents, what estimate she has made of the likely change to the Housing Revenue Account of local authorities which bid for additional subsidy. [268754]

Mr. Iain Wright: The change in subsidy will depend on how many local authorities have accepted the offer set out in the written ministerial statement of 6 March. This is currently being reviewed in the light of local authorities' responses to the consultation on a draft amending subsidy determination, which ended on 24 April.

Local authorities' actual subsidy entitlements for 2009-10 will not be known until their first subsidy claim forms are received later in the year.

Housing: Construction

Mr. Kidney: To ask the Secretary of State for Communities and Local Government what public funding has been provided for the construction of housing in the last 12 months. [269723]

Mr. Iain Wright: Figures for public expenditure on housing and community amenities, including on housing development, are published annually in "Public Expenditure Statistical Analyses" available on the Treasury website at:

www.hm-treasury.gov.uk/pespub_pesa08.htm

The disaggregation of the element to support the construction of new homes could be provided only at disproportionate cost. However, the Communities and Local Government programme which primarily funds the construction of housing in England is the Affordable Housing programme, now delivered by the Homes and Communities Agency. The latest spend position, that for 2008-09, indicates that around £2 billion of the Affordable Housing programme supported the construction of housing.

Housing: Low Incomes

Mr. Waterson: To ask the Secretary of State for Communities and Local Government what plans her Department has for the *(a)* provision and *(b)* development of affordable housing in Eastbourne constituency. [267281]

Mr. Iain Wright: The Homes and Communities Agency allocated funding of £2.6 million to Eastbourne to enable delivery of 97 affordable housing units due to be completed in 2009-10. This is in addition to Housing Corporation funding of £1 million for 2007-08 and £3 million for 2006-07 for the delivery of affordable housing in Eastbourne.

While the Government set the national policy for the delivery of affordable housing it is for local authorities to determine the development plan for their own area by taking into account local needs identified through robust evidence. The housing allocation for Eastbourne set out in the Structure Plan, is for the provision of 360 units per annum. Eastbourne's Borough Plan 2001-11 sets a target for the provision of 75 affordable housing units per annum representing just over 20 per cent. of the total allocation. This rises to 30 per cent. in the proposed changes to the Regional Spatial Strategy for the South East where Eastbourne's housing allocation is set at 240 units per annum.

The new Homes and Communities Agency (HCA) was launched in December last year, replacing the Housing Corporation, and is the single national housing and regeneration agency for England with a budget of over £5 billion per year. Investment Managers from HCA are engaging with local authorities to look at how best to deliver local affordable housing ambitions in line with local plans.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which housing associations have signed up to participate in the mortgage rescue scheme's *(a)* shared equity programme and *(b)* Government mortgage to rent programme; and what (i) incentives and (ii) requirements there are for housing associations to participate. [270255]

Margaret Beckett: 24 registered social landlord (RSL) providers—shown in the following list—are currently committed to delivering the Government's Mortgage Rescue Scheme. As such, they all offer both elements of the scheme—shared equity and Government Mortgage to Rent.

The RSL provider network covers the whole of England, with each local authority working with one RSL provider in their region.

The Mortgage Rescue Scheme complements the aims and objectives of housing associations, which are independent, not-for-profit social businesses set up to provide affordable homes for people in housing need. Therefore, no specific incentives have been used to attract Mortgage Rescue Scheme providers. An agreed framework provides funding for rescues completed under the scheme.

Housing associations are independent organisations and no general obligation to deliver the Mortgage Rescue Scheme has been placed upon them. The providers we have in place have signed up willingly and are committed to preventing repossessions among vulnerable households.

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many new affordable homes have been built in *(a)* Tamworth constituency and *(b)* Staffordshire in each year since 1997. [270796]

Mr. Iain Wright: The Department for Communities and Local Government (CLG) data for provision of new affordable housing is based on local authority boundaries rather than constituency boundaries.

The number of affordable homes built within Tamworth borough council and Staffordshire are as follows:

		Number
	Tamworth borough council	*Staffordshire county council (including Tamworth)*
1996-97	30	600
1997-98	20	450
1998-99	80	500
1999-2000	40	450
2000-01	120	580
2001-02	40	380
2002-03	40	340
2003-04	10	440
2004-05	90	750
2005-06	10	460
2006-07	10	310
2007-08	20	420
Total	510	5,680

Source:
CLG

John Bercow: To ask the Secretary of State for Communities and Local Government how many people were newly housed in affordable homes in *(a)* 2004, *(b)* 2005, *(c)* 2006, *(d)* 2007 and *(e)* 2008. [271578]

Mr. Iain Wright: Information on the number of people in affordable housing is not available. The following table shows the number of new affordable homes provided in England from 2004-05 to 2007-08.

	Number of affordable homes provided
2004-05	37,470
2005-06	45,980
2006-07	44,570
2007-08	53,730

Affordable housing figures are collated from the Homes and Communities Agency Investment Management System (IMS); and Housing Strategy Statistical Appendix (HSSA) returns and P2 house building returns submitted to CLG by local authorities and the National House-Building Council (NHBC).

John Bercow: To ask the Secretary of State for Communities and Local Government what recent progress has been made towards the target of making all social housing decent; and if she will make a statement. [271582]

Mr. Iain Wright: Information provided by social landlords shows the number of non-decent social sector homes has reduced from 1,231,000 in 2005 to 714,000 in 2008—a reduction of 42 per cent. Over the same period the proportion of non-decent social sector homes has reduced from 31 per cent. to 18 per cent.

The Homes and Communities Agency has taken on management of the Decent Homes programme and is actively working with all landlords, as part of a single conversation, to ensure all social housing is made decent.

Housing: Sustainable Development

Mr. Walker: To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the cost to developers of achieving code levels *(a)* 4, *(b)* 5 and *(c)* 6 in the Code for Sustainable Homes; and if she will make a statement. [267931]

Mr. Iain Wright: The costs associated of achieving the Code for Sustainable Homes, especially at higher levels is very site dependent. The range of costs needs to be put into context of the site, the type of home that is being built, the solutions and technology that are being used and the knowledge of the developer.

We released cost information on building to all levels of the Code for Sustainable Homes in the document "Cost Analysis of the Code for Sustainable Homes" which was published in July 2008, written by Cyrill Sweett. The report is available to download at:

www.communities.gov.uk/thecode

and there is a copy in the House Library.

We are currently in the process of updating our cost analysis for the up and coming consultation on the Code, in light of changes in Building Regulations.

Local Government Finance

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 30 March 2009, *Official Report*, columns 976-7W, on local government finance, how many local authorities have submitted bids to the Homes and Communities Agency for a social housing grant. [270597]

Mr. Iain Wright: None. The Homes and Communities Agency will shortly be inviting local authorities to bid for a share of the £100 million of new funding we have just announced in the Budget for local authorities to deliver social housing.

As my previous answer stated, in January 2009 we consulted on changes to the revenue and capital financing rules that would enable local authorities to apply for new specified properties to be excluded from the Housing Revenue Account subsidy system and thereby keep the full rental income from such properties and the full capital receipt should the property be in future sold (especially under the Right to Buy over which the local authority would have no control). This would provide greater freedom and flexibility for local authorities to build new properties using their own resources. Consultation closed on 17 April.

Mortgages

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average rate of mortgage interest on domestic properties charged by lenders in each of the last three years. [271468]

Mr. Iain Wright: Data on average mortgage rates for mortgages issued by banks and building societies are available from the Bank of England. Data as at 31 December for the last three years is as follows:

	Average fixed mortgage interest rate (percentage)[1]	*Average tracker mortgage interest rate (percentage)*[2]
2006	5.15	5.63
2007	6.06	6.20
2008	4.77	4.92

[1] Average interest rate of UK resident banks (excl. Central Bank) and building societies' sterling two year (75 per cent. LTV) fixed rate mortgage to households (in percentage).

[2] Average interest rate of UK resident banks (excl. Central Bank) and building societies' sterling base rate tracker mortgage to households (in percentage).

Bank of England

Mortgages: Government Assistance

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many repossessions have been prevented as a result of assistance provided by the Homeowner Mortgage Support Scheme. [270797]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme, available from 21 April 2009, which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income. HMS offers significantly extended forbearance compared with normal lender arrangements by assisting more households who may have otherwise faced repossession proceedings immediately, and providing greater certainty and protection for a period up to two years. We estimate that up to 85,000 households could be helped by HMS, many of whom will be able to remain in their homes on a permanent basis.

Grant Shapps: To ask the Secretary of State for Communities and Local Government whether a mechanism exists for assessing whether a homeowner applying for assistance under the Homeowner Mortgage Support Scheme is instead eligible for assistance under the Support for Mortgage Interest Scheme. [270971]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income.

Households applying for the scheme will need to seek independent money advice before signing up, to ensure they are not eligible for other forms of support more appropriate for their circumstances, such as Support for Mortgage Interest (SMI).

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what assumed average outstanding mortgage value was used to calculate her Department's impact assessment in respect of the Homeowner Mortgage Support Scheme; [270976]

(2) what assumed average mortgage rate was used to calculate her Department's impact assessment in respect of the Homeowner Mortgage Support Scheme for each year to 2016-17. [270977]

Margaret Beckett: The Impact Assessment for Homeowners Mortgage Support (HMS) was published on 21 April and is available at:

http://www.communities.gov.uk/publications/housing/mortgagesupportimpactassessment

The Impact Assessment sets out the estimated costs and benefits of HMS, and the assumptions used to generate these estimates. An average mortgage rate of just over 5 per cent. is assumed over the four years that borrowers are entered onto HMS.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the latest date is by which a homeowner seeking support under the Homeowner Mortgage Support Scheme must have *(a)* taken out a mortgage and *(b)* remortgaged to be eligible for assistance under the scheme. [270982]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income. To be eligible, homeowners must have purchased their property with a mortgage before 1 December 2008. Homeowners who re-mortgaged after that date without increasing their debt are also eligible.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the maximum monetary value of *(a)* mortgages and *(b)* loans secured against mortgages is for a homeowner to be eligible for assistance under the Homeowner Mortgage Support Scheme in the case of each participating lender. [270983]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income. To meet the eligibility criteria, households must have total outstanding charges against their home no greater than £400,000 (excluding charging orders as they are ineligible for guarantee under the scheme).

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the maximum level of savings a homeowner may hold to be eligible for assistance under the Homeowner Mortgage Support Scheme in the case of each participating lender. [270984]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels for up to two years to help them get back on track with their finances if they suffer a temporary loss of income. To meet the eligibility criteria, households must have savings of less than £16,000.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the maximum time period is for which a homeowner may receive assistance under the Homeowner Mortgage Support Scheme. [270985]

Margaret Beckett: Homeowners Mortgage Support (HMS) is a new scheme which will enable eligible borrowers to reduce their monthly mortgage interest payments to affordable levels to help them get back on track with their finances if they suffer a temporary loss of income. Households can benefit from support through the scheme for up to two years.

Grant Shapps: To ask the Secretary of State for Communities and Local Government what mechanism is in place to ensure that lenders participating in the Homeowner Mortgage Support Scheme will apply the terms of the scheme in accordance with her Department's policy; and what redress is available to homeowners with grievances to this effect regarding the application of such terms. [270990]

Margaret Beckett: Robust monitoring and audit arrangements are in place for the delivery of the Homeowners Mortgage Support scheme.

Borrowers who experience problems should in the first instance make a formal complaint to their lender. Should they feel that their complaint is not satisfactorily dealt with they will be able to refer the matter to the Financial Ombudsman Service (FOS)—an independent body set up to provide arbitration in such cases.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) from what budgetary source the £20 million fund to enable local authorities to extend small loans to families at risk of homelessness through repossession or eviction as referred to on page 104 of the Budget 2009 Red Book will be provided; [271445]

(2) how the proposed £20 million fund for local authorities to extend small loans to households at risk of homelessness through repossession will be administered; and if she will make a statement. [271374]

Mr. Iain Wright: HM Treasury will make available to CLG an additional £20 million resource in 2009-10 from CLG's cumulated End Year Flexibility entitlement to enable local authorities to extend small loans to families at risk of homelessness through repossession or eviction.

It will be administered through the Homelessness Revenue Grant Programme which falls under Section 31 of the Local Government Act 2003.

CLG have already allocated over £150 million over three years (2008-11) of Homelessness Grant to all local authorities to support their homelessness strategies to tackle and prevent homelessness effectively. This is the biggest ever cash injection provided for homelessness services.

National Inspection Council for Electrical Installation Contracting

Mr. Meale: To ask the Secretary of State for Communities and Local Government (1) which local authorities have established a policy of not awarding contracts for local authority electrical installation work to members of the National Association of Professional Inspectors and Testers; and if she will make a statement; [270946]

(2) what assessment the Government have made of the merits of including the National Association of Professional Inspectors and Testers on lists of contractors authorised to carry out electrical installation work for local authorities. [270947]

Mr. Iain Wright: The Government do not hold detailed information on local authorities' policies on the award of contracts for electrical installation work as they might affect members of the National Association of Professional Inspectors and Testers. The Government do not maintain lists of contractors authorised to carry out electrical installation work for local authorities; it is a matter for each local authority to decide with whom it wishes to contract for such work.

National Tenant Voice

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the work of National Tenant Voice; and if she will make a statement. [271608]

Mr. Iain Wright: The National Tenant Voice has not yet been established. In December 2008 I accepted the recommendations of a project group set up to provide advice on the National Tenant Voice, and we are seeking powers to fund such an organisation in the Local Democracy, Economic Development and Construction Bill. In the meantime, the project group is continuing its work advising us, and is establishing a National Tenant Council to act as a policy forum and sounding board on issues affecting social housing tenants.

Subject to the approval of Parliament, I would expect the National Tenant Voice to be established within about nine months of Royal Assent of the Local Democracy, Economic Development and Construction Bill. Once established, it will sit alongside the Tenant Services Authority and will ensure that the experience of tenants is central both to regulation and to the future development of policy.

Planning Permission

Richard Younger-Ross: To ask the Secretary of State for Communities and Local Government if she will introduce regulations to require local authority planning committees to have regard to World Heritage Sites when making decisions on planning applications. [270792]

Mr. Iain Wright: Planning Policy Guidance (PPG) Note 15 (Planning and the Historic Environment) already advises that the outstanding international importance of a World Heritage Site is a key material consideration to be taken into account by planning authorities in determining planning applications.

An amendment to the General Permitted Development Order in October 2008 conferred special protection on World Heritage Sites by removing permitted development rights for certain types of minor development which could, on a cumulative basis, have an adverse effect on the outstanding universal value of a World Heritage Site.

Under the terms of the Town and Country Planning (Consultation) (England) Direction 2009, planning authorities are required to consult the Secretary of State for Communities and Local Government before approving any planning application made on or after 20 April 2009 to which English Heritage maintains an objection and which would have an adverse impact on the outstanding universal value, integrity, authenticity and significance of a World Heritage Site or its setting. The Secretary of State then has the discretion to call in the application for her own determination if she considers it appropriate to do so.

World Heritage Sites are 'sensitive areas' for the purposes of the environmental impact assessment (EIA) regulations. Local planning authorities must therefore require EIA to be carried out for any development proposal in or partly in a World Heritage Site if they think it is likely to have significant environmental effects.

The Government consulted last year on a draft planning circular, and accompanying guidance prepared by English Heritage, which will further recognise in national policy the need to protect World Heritage Sites as sites of Outstanding Universal Value. These are being revised in the light of consultation responses and final versions should be published by the summer.

In addition, the Government have announced their intention to consult on a revision to planning policy on heritage protection (PPGs 15 and 16) soon. This will provide a further opportunity to comment on this issue.

Planning Permission: South East

John Bercow: To ask the Secretary of State for Communities and Local Government which local planning authorities in the South East of England achieved their best value targets for handling planning applications in 2007-08. [271568]

Mr. Iain Wright: The best value targets for local planning authority decisions are different for major, minor and other planning applications. Local planning authority performance is available from the following source:

www.communities.gov.uk/publications/planningandbuilding/performancechecklistmarch2008

A South East specific list in respect of BV109 is as follows.

All authorities within the SE region which met the Government targets for BV109 during 2007-08

Planning: Horticulture

Bob Russell: To ask the Secretary of State for Communities and Local Government what consideration she has given to strengthening the role of horticulture in *(a)* local development frameworks and *(b)* regional spatial strategies; and if she will make a statement. [265903]

Mr. Iain Wright: We have no plans to strengthen the inclusion of horticulture in local development frameworks and regional spatial strategies. 'Planning Policy Guidance note 17: Planning for Open Space, Sport and Recreation, 2002' (PPG17) already states that local planning authorities should make robust assessments of the needs of their communities for all open spaces of public value, which, by definition, includes parks and gardens, allotments, and city (urban) farms.

Local authorities should use the information gained from their assessments of needs and opportunities to set locally derived standards for the provision of open space. These should form the basis for addressing the amount and quality of open space through the planning process. PPG17 also states that standards should be included in development plans, i.e. local development frameworks and regional spatial strategies.

In March this year, CLG contributed £1 million to the cost of training and employment for the first year of 60 additional horticultural apprenticeship places in some of the most deprived urban local authorities. This action complements CABE Space's work to raise skills across the green space sector.

Property Development

Mr. Gordon Prentice: To ask the Secretary of State for Communities and Local Government how many historic battlefield sites have been wholly or partly built upon since 1990; and if she will make a statement. [270865]

Mr. Iain Wright: In 1995 English H[illegible]ge established a Register of Historic Battlefie[illegible]h contains 43 important sites. Of these, eigh[illegible]ified as being at high risk in the 2008 Heritage at Risk Register, with pressure from development being the most common risk. The Government do not maintain detailed information about developments on individual battlefields, though we are aware that certain sites (such as Worcester and Stamford Bridge) have had substantial development. The effect of proposed development on a registered site is a material consideration to be taken into account in determining planning applications. It is also open to local planning authorities to designate as a conservation area any part of their area which has special historic interest and whose character or appearance it is desirable to preserve or enhance.

Repossession Orders

Grant Shapps: To ask the Secretary of State for Communities and Local Government what her most recent estimate is of the number of households which entered the social housing sector as a result of repossessions in each of the last three years. [270986]

Mr. Iain Wright: Full information as requested is not available. The Continuous Recordings of Lettings (CORE) gives numbers of new social tenants who reported eviction or repossession as the main reason for leaving their last settled home. This does not identify repossessions separately, and also will not include households who have lived in other settled accommodation (for instance in the private rented sector) since having their home repossessed.

The following table gives the number of lettings to registered social landlord (RSL) tenants in the last three years, where they have reported eviction or repossession as the main reason for leaving their last settled home. Figures for local authority lets are not yet available due to gaps in the local authority data.

RSL lettings[1] to tenants reporting repossessions and evictions as their main reason for leaving last settled home, England

	Count	Percentage of total RSL lettings[2]
2005-06	5,300	2.5
2006-07	5,680	2.6
2007-08	5,970	2.8

[1] All new and housing and existing lettings are covered, including general needs and supported housing.
[2] The percentage excludes cases where no reason was given.

Shelter: Eco-Towns

Peter Luff: To ask the Secretary of State for Communities and Local Government what financial assistance the Government has given Shelter to promote its eco-town proposal guides through online advertising on search engines. [271530]

Mr. Iain Wright: I refer the hon. Member to the answer I gave him on 25 November 2008, *Official Report*, column 1284W. This sets out the funding that my Department has provided to Shelter to support the production and dissemination of these publications, which provide information about the housing situation in and around the potential eco-town locations. This included raising awareness through online search engines.

Sleeping Rough

John Bercow: To ask the Secretary of State for Communities and Local Government what estimate she has made of the average number of people sleeping rough each night in 2008. [271638]

Mr. Iain Wright: The 2008 national estimate of the number of rough sleepers in England showed 483 people sleeping rough on any single night—a 74 per cent. reduction on the 1998 baseline. The estimate is based on the results of local authority street counts in those areas where a known, or suspected, rough sleeping problem has been identified.

Supporting People Programme

Helen Southworth: To ask the Secretary of State for Communities and Local Government if she will review the eligibility criteria to enable young people leaving care aged 16 or 17 years to receive services funded by the Supporting People programme. [271341]

Mr. Iain Wright: Each local authority is responsible for setting their own eligibility criteria based on local needs and priorities, which then determines who can access services that are funded from the Supporting People Programme .

While the Government set the national framework for the provision of Supporting People services, administering authorities have responsibility for developing, delivering and monitoring the programme locally, based on local needs and priorities in relation to the provision of housing support, which develops and sustains an individual's capacity to live independently in their accommodation, as set out in the local authority's Supporting People five-year strategy.

From 2009-10 the ring fence has been removed from the Supporting People Programme which provides local authorities with the opportunity to develop and provide more innovative and holistic services to meet local needs and priorities.

Sustainable Development

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many Level *(a)* 1, *(b)* 2, *(c)* 3, *(d)* 4, *(e)* 5 and *(f)* 6 sustainable homes have been built in each quarter since the Code for Sustainable Buildings was implemented; and how many homes at each level she expects to be built in each of the next three years.[1] [265270]

Mr. Iain Wright: The Code for Sustainable Homes (the code) became operational in April 2007. We estimate that it takes on average 18 months to two years to go through the design, planning and building of any home. To achieve code status in the most cost-effective manner, homes need to be specifically designed for the code.

The code process has three main stages, registration, design and post construction—there is a significant number of homes within the process—and these numbers are increasing monthly, even in the current difficult economic climate. The following data are February 2009, with an August 2008 comparison.

Number of code certificates issued by end March 2009 and August 2008

			Post construction (by code level)					
	Registration	Design	1	2	3	4	5	6
February 2009	>170,000	1,082	0	1	32	4	2	0
August 2008	45,000	247	0	0	0	2	0	0

Travelling People: Caravan Sites

Anne Milton: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to *(a)* local authorities and *(b)* regional assemblies on their handling of responses to consultations on the provision of Traveller sites in cases where those responses may be considered discriminatory. [271733]

Mr. Iain Wright: Communities and Local Government has not issued any guidance to local authorities or regional assemblies regarding the handling of responses to consultations on the provision of Traveller sites. ODPM Circular 1/06 "Planning for Gypsy and Traveller Caravan Sites" makes clear that local authorities have a general duty under the Race Relations Act 1976, as amended, to actively seek to eliminate unlawful discrimination and to promote good race relations in all they do.

CHILDREN, SCHOOLS AND FAMILIES

Children In Care

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many children have been placed in care at Kendall House in Kent in the last 10 years; and by which authorities. [271018]

Beverley Hughes: The Department does not collect information on numbers of children placed in particular children's homes. Kendall House closed in the late 1980s.

Children: Protection

Mr. Hunt: To ask the Secretary of State for Children, Schools and Families what assessment his Department has made of the effectiveness of the National Safeguarding Unit for the Third Sector. [270707]

Beverley Hughes *[holding answer 23 April 2009]*: On 22 January 2009 my noble Friend the Baroness Morgan of Drefelin announced that the National Society for the Prevention of Cruelty to Children (NSPCC) and Children England have been awarded a £2.2 million contract over three financial years for the delivery of a new Safeguarding Unit for the Third Sector. The new Unit will be formally launched and fully operational on 5 June 2009.

The Department is currently developing an evaluation methodology with the NSPCC and Children England which will measure the effectiveness of the Unit's interventions. Evaluation will be ongoing in order to shape and drive delivery of the Unit. A final independent evaluation will be completed prior to the contract end date of 31 March 2011 to inform future policy.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 20 April 2009, *Official Report*, columns 271-2W, on special educational needs, how much has been spent on local authority functions in relation to child protection in each local authority area in each year since 1997. [271034]

Beverley Hughes: The information requested is not collected centrally.

I refer the hon. Member to the reply given on 10 February 2009, *Official Report*, column 1950W.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how many serious case reviews were *(a)* conducted and *(b)* had their executive summaries published in each year since 2001. [271243]

---

[1] [Official Report, 12 May 2009, Vol. 492, c. 1MC.]

Beverley Hughes: I refer the hon. Member to the reply given on 23 February 2009, *Official Report*, column 442W about the number of serious case reviews. Local Safeguarding Children Boards are required to make public an executive summary of each serious case review. Paragraph 8.33 of "Working Together To Safeguard Children" states that 'in all cases, the LSCB overview report should contain an executive summary that will be made public and that includes, as a minimum, information about the review process, key issues arising from the case and the recommendations that have been made.' Lord Laming's recent report, 'The Protection of Children in England: A Progress Report' reinforced the importance of high quality, publicly available executive summaries of serious case reviews. The Government have accepted Lord Laming's recommendations and will be publishing a detailed response to his report shortly.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families in respect of how many serious case reviews the executive summary was published within a month of completion of the review; and if he will make a statement. [271244]

Beverley Hughes: Local Safeguarding Children Boards (LSCBs) are required to make public an executive summary of each Serious Case Review. There is no requirement to do so within one month of completion. LSCBs make the decision on the date of publication in line with the guidance in "Working Together to Safeguard Children". Data on the time taken to publish executive summaries is not collected centrally.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how much his Department plans to pay Sir Roger Singleton for his services as chief adviser on the safety of children in the financial year 2009-10. [271838]

Beverley Hughes: Provision has been made to pay an estimated £110,000 plus VAT, travel and reasonable expenses to Sir Roger Singleton for his services as Chief Adviser on the Safety of Children in the financial year 2009-10.

Departmental Billing

John Mason: To ask the Secretary of State for Children, Schools and Families what percentage of invoices from suppliers his Department paid within 10 days of receipt in March 2009. [271853]

Sarah McCarthy-Fry: The Department for Children, Schools and Families reports on its payment performance to the Department for Business, Enterprise and Regulatory Reform. The percentage of invoices paid within the Government's 10 day target in March 2009 was as follows:

March 2009—93.2 per cent.

Education: Assessments

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families which subjects are available to be studied at *(a)* GCSE and *(b)* A level; and what proportion of students studying each such subject at each level is from the (i) maintained and (ii) independent school sector. [248327]

Jim Knight: Tables showing each subject available to be studied at GCSE and A-level, along with the proportion of students studying each subject from the maintained and independent sector, have been placed in the Libraries of both Houses.

Faith Schools

Dr. Kumar: To ask the Secretary of State for Children, Schools and Families what progress has been made towards achieving the target that at least 25 per cent. of pupils in faith schools should not be affiliated to the same faith as the school. [271354]

Jim Knight: In October 2006, religious authorities made a commitment that all new Church of England schools open up 25 per cent. of places to children without reference to faith, and, once Catholic demand was met, up to 25 per cent. of places in new Catholic schools for children from other or no faiths.

General Certificate of Secondary Education

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families pursuant to the Answer of 27 January 2009, *Official Report*, column 485W, on general certificate of secondary education, what proportion of pupils achieved five or more GCSEs at grades A* to C including English, mathematics, science and a modern foreign language in each year since 1997. [254551]

Jim Knight: The information requested is given in the following table:

Pupils who achieved five or more grades A to C including English, mathematics, science and a modern foreign language from 1997 to 2008*

	Number	*Percentage*
2008	154,743	23.7
2007	156,152	23.8
2006	168,131	25.9
2005	179,760	28.1
2004	183,397	28.5
2003	177,440	28.5
2002	183,621	30.3
2001	183,295	30.4
2000	172,769	29.8
1999	169,172	29.1
1998	158,041	27.5
1997	150,752	25.7

Source:
Achievement and Attainment Tables

The 2008-2005 data is based on pupils at the end of KS4.

The 2004-1997 data is based on 15-year-old pupils at the start of the academic year.

Tim Loughton: To ask the Secretary of State for Children, Schools and Families how many pupils without a statement of special educational needs achieved at least one A* to G grade at GCSE in each year since 1997. [illegible]

Jim Knight: The available information can be found in the following table:

	Number of pupils with non-statemented special education needs who achieved at least one A-G at GCSE (including equivalents)*	*Number of pupils without special educational needs who achieved at least one A*-G at GCSE (including equivalents)*
2008	101,106	465,565
2007	86,940	477,543
2006	77,764	478,462
2005	69,429	473,967
2004	64,787	482,936

Source:
National Pupil Database

Figures prior to 2004 have not been provided as these are not available on a comparable basis.

General Certificate of Secondary Education: Young Offender Institutions

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 16 March 2009, *Official Report*, column 867W, on the General Certificate of Secondary Education: young offender institutions, which body holds information on the examination results of young people in the secure estate. [265786]

Beverley Hughes: Information on the examination results of all young people in custody is not collected centrally. However, since the roll-out of the Offender Learning and Skills Service, led by the Learning and Skills Council (LSC), in Prison Service Young Offender Institutions (YOIs) in England in August 2006, some data is now collected nationally by the LSC. However this data is for young people in Prison Service YOIs only, and does not include data about learning for young people in Secure Training Centres, Secure Children's Homes or privately managed YOIs.

Also some young people in custody are still registered at schools and colleges and therefore any GCSEs that they achieve whilst in custody will be reflected in achievement figures of schools and colleges, rather than the figures reported by the LSC for those achieved in Prison Service YOIs.

I refer the hon. Member to the reply given on 20 April 2009, *Official Report*, column 243W on the latest information from the LSC on the numbers of GCSEs achieved by young people in Prison Service YOIs.

Languages: GCE A-Level

Mr. Gibb: To ask the Secretary of State for Children, Schools and Families how many and what percentage of mainstream maintained schools did not enter any pupils for an A level in a modern foreign language in each year since 2005. [266154]

Jim Knight: In 2008, 263 (15.3 per cent.) maintained mainstream schools did not enter any pupils for a GCE A-level in a modern foreign language. In 2007 the number was 265 (15.6 per cent.) and in 2006 it was 287 (16.8 per cent.). Data for 2005 are held in a different format than those for earlier years. Consequently, figures for 2005 can be produced only at disproportionate cost.

Notes:

1. Only pupils aged 16 to 18 have been counted.

2. Schools published in the Achievement and Attainment Tables with more than 10 candidates at the end of advanced study and having any results in A-level subjects have been included.

Pupil Exclusions: Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 24 February 2009, *Official Report*, columns 754-55W, on special educational needs, how many of the exclusions referred to were exclusions from special schools. [271040]

Sarah McCarthy-Fry: The available information on the number of permanent and fixed period exclusions (not pupils) from special schools, for pupils with statemented or non-statemented special educational needs of behavioural, emotional or social difficulties, for 2005/06 and 2006/07, is shown in the following table.

Information is only available for the school years 2005/06 and 2006/07 and is shown in the table. For the 2005/06 school year, information on fixed period exclusions was collected via the school census for the first time but for secondary schools only. In 2005/06, reasons for exclusion were not collected from special schools.

Special schools[1]: Number of fixed period and permanent exclusions where pupils' primary special educational need is emotional, behavioural and social difficulties[2], by reason for exclusion (estimates)[3], England, 2005/06 and 2006/07

	2005/06		2006/07[3]	
	Fixed period[4]	Permanent[5]	Fixed period	Permanent
Physical assault against a pupil	—	—	1,690	10
Physical assault against an adult	—	—	2,470	30
Verbal abuse/threatening behaviour against a pupil	—	—	390	0
Verbal abuse/threatening behaviour against an adult	—	—	1,760	10
Bullying	—	—	410	[6]
Racist abuse	—	—	170	0
Sexual misconduct	—	—	90	[6]
Drug and alcohol related	—	—	200	0
Damage	—	—	610	[6]
Theft	—	—	80	[6]
Persistent disruptive behaviour	—	—	2,360	20
Other	—	—	1,450	20
Total	—	90	11,680	90

[1] Includes maintained and non-maintained special schools. Excludes general hospital schools.

[2] Data for primary SEN need is collected for pupils with a statement of special educational needs or who are classified as being school action plus only. Data here has been taken from the National Pupil Database.

[3] Figures relating to reasons for permanent exclusion are estimates based on incomplete pupil-level data.

[4] In 2005/06, data on fixed period exclusions was not collected from special schools.

[5] In 2005/06, reasons for exclusion were not collected from special schools.

[6] Less than 5.

Note:
Figures have been rounded to the nearest 10.

School Census

Schools

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which *(a)* mainstream and *(b)* special schools (i) he and (ii) Ministers in his Department have visited in an official capacity in 2009 to date; and on what date each such visit took place. [271839]

Sarah McCarthy-Fry: The following table shows mainstream and special schools visited by Ministers at the Department for Children, Schools and Families since 2009 to date.

Date	*Schools visited*
Ed Balls	
7 January	East Ward Community Primary School, Wilton Street, Bury, Lancashire
7 January	Broadoak Sports College, Hazel Avenue, Bury
8 January	Christ the King School, Christ the King Centre for Learning, Stockbridge Lane, Huyton
8 January	Morley High School, Fountain Street, Leeds
5 February	Perry Beeches School, Beeches Road, Birmingham
9 February	Beechwood School, Long Readings Lane, Slough, Berkshire
9 February	Drove Primary School, Drove Road, Swindon, Wiltshire
11 February	Sutherland Business and Enterprise College Gibbons Road, Trench, Telford, Shropshire
4 March	Manor School, Millfield Lane, York
6 March	Boston Spa School Clifford Moor Road, Boston Spa, Wetherby, West Yorkshire
6 March	Hardwick Primary School, Dover Street, Derby, Derbyshire
13 March	Bordesley Green Primary School, Marchmont Road, Birmingham
20 March	Victoria Dock Primary School, South Bridge Road, Victoria Dock, Hull
20 March	Vermuyden School, Centenary Road, Goole, East Riding of Yorkshire
15 April	Portchester School, Harewood Avenue, Bournemouth, Dorset
20 April	Collis Primary School, Fairfax Road, Teddington
20 April	East Barnet Upper School, Westbrook Crescent, Barnet
23 April	Brockholes Wood County Primary School, Brant Road, Preston
23 April	Southlands High School, Clover Road, Chorley
23 April	Harrop Fold School, Hilton Lane, Worsley
Beverley Hughes	
5 February	Coopers Lane Primary School, Pragnell Road Grove Park, Lewisham
23 February	Broadoak School, Warburton Lane, Partington, Urmston, Manchester
19 March	Higher Blackley Education Village, Alworth Road, Blackley, Manchester
23 March	George Green's School, 100 Manchester Road London
Jim Knight	
9 January	Isambard Community School, Swindon
20 January	Sedgehill School, Lewisham
22 January	Richard Rose Academy, Carlisle
10 February	Little Ilford School, Ilford
18 March	Eltham College, London
23 April	The Orchards School, Bolton
27 April	West Somerset Community College, Taunton
Baroness Delyth Morgan	
28 January	All Saints College, West Denton
28 January	Linhope PRU, West Denton
30 January	Tadcaster Grammar School, Toulston, Tadcaster, North Yorkshire
11 March	Laycock Primary School, Islington
15 April	Porchester Sports College, Harewood Avenue, Boscombe, Bournemouth
24 April	Millfields Community Primary School, Hackney
Sarah McCarthy-Fry	
20 January	Sacred Heart RC Secondary School, Camberwell New Road, London
20 January	Visit to Alfred Salter Primary School, Quebec Way, Rotherhithe
12 February	Visit to Coundon Court School and Community College, Northbrook Road, Coundon, Coventry
18 March	Visit to Linden Lodge School, 61 Princes Way, Wimbledon Park, London
2 April	Visit to Battersea Park School, Battersea Park Road, London
20 April	Visit to The Trinity School in Nottingham, Beechdale Road, Aspley, Nottingham

Schools: ICT

Mike Penning: To ask the Secretary of State for Children, Schools and Families how much was spent on ICT *(a)* in total and *(b)* per pupil in (i) primary and (ii) secondary schools in England in each year since 1997. [261267]

Jim Knight: The Department does not keep records of data on ICT spend in the form requested.

Social Services: Children

Tim Loughton: To ask the Secretary of State for Children, Schools and Families which local authorities are not pursuing an open tender for their social work practice pilot. [269880]

Beverley Hughes: Two of the six chosen pilot sites, Blackburn with Darwen and Staffordshire local authorities, are not pursuing an open tender for their social work practice pilot.

Teachers: Recruitment

Mr. Laws: To ask the Secretary of State for Children, Schools and Families (1) how much his Department has spent on golden hellos for graduates entering the teaching profession in shortage subjects in each year since 2001; and if he will make a statement; [249427]

(2) how many people entering the teaching profession have received golden hellos in each year since 2001; and if he will make a statement. [249432]

Jim Knight: The total cost and number of golden hello payments made to newly qualified teachers in each financial year from 2001-02 is shown in the following table:

Financial year[1]	*Amount (£ million)*	*Number*
2001-02	2.6	641
2002-03	28.5	7,126
2003-04	20	5,000

Financial year[1]	*Amount (£ million)*	*Number*
2004-05	25	6,262
2005-06	29.7	6,681
2006-07	28	6,368
2007-08	28	5,981
2008-09	28	6,825

[1] The Department reimbursed golden hello payments to local authorities through the Standards Fund during the period 2001-02 to 2004-05. Since 1 April 2005 the Training and Development Agency for Schools has managed the reimbursements to local authorities for those payments.

Teaching Methods

Mr. Boswell: To ask the Secretary of State for Children, Schools and Families what steps he plans to take to encourage teachers to *(a)* increase their awareness of the value of classroom resources and *(b)* undertake training on the matter available from educational suppliers. [271079]

Jim Knight: Since September 2007 the revised professional standards for teachers provide clear career pathways for teachers from Qualified Teacher Status to Advanced Skill Teachers. These clarify what is expected at each career stage, including expectations about teachers' ongoing engagement in their own continuing professional development (CPD) and make clear that teachers are expected to teach challenging, well organised lessons and sequences of lessons across the age range they teach in which they, for example, use an appropriate range of teaching strategies and resources, including e-learning, which meet learners' needs.

To support the professional standards we introduced revised and robust performance management arrangements in September 2007 which ensure that teachers' performance is regularly reviewed and that all teachers have clear and robust development plans which take account of their own individual needs and the school's improvement priorities. Teachers play a key role in this process through engaging with their line mangers to agree their professional development plans.

In this way teachers are fully involved in identifying potential training professional development needs and work within their schools to access the appropriate training.

It is, of course, for schools to determine how to spend the funding they allocate for staff professional development from the delegated budgets they receive.

Young People: Apprentices

Philip Davies: To ask the Secretary of State for Children, Schools and Families how many students are participating in the young apprenticeship schemes at the ages of 14 to 16 in school years 10 and 11. [270803]

Jim Knight: The Young Apprenticeship programme for 14 to 16-year-olds is a successful pilot available in selected areas since 2004. A total of 17,012 young people are currently on a Young Apprenticeship programme. 8,090 as part of cohort 4, the current year 11 group who will be achieving this year; and 8,922 in cohort 5, the year 10 group which started last September.

Young People: Unemployment

Philip Davies: To ask the Secretary of State for Children, Schools and Families how many young people aged 16 and 17 years are not in education, employment and training. [270849]

Beverley Hughes: Estimates of participation in education, training and employment for those aged 16-18 are published by the Department in a Statistical First Release (SFR) each June and can be found on the Department's website:

http://www.dcsf.gov.uk/rsgteway/DB/SFR/s000792/index.shtml.

This publication includes the Department's official estimate of the proportion of young people not in Education, Employment or Training (NEET).

The latest estimate shows that 35,900 16 year olds (5.4 per cent. of the 16-year-old population) and 61,100 17-year-olds (9.1 per cent. of the 17-year-old population) were not in education, employment or training at the end of 2007.

Andrew Selous: To ask the Secretary of State for Children, Schools and Families what percentage of the parents of 16 to 24 year olds who are not in employment, education or training are *(a)* separated and *(b)* living as a couple or married. [271323]

Beverley Hughes: The following table derives from data collected as part of the Longitudinal Study of Young People in England (LSYPE). The information on the main activity of the young person (and hence whether they are not in employment, education or training or "NEET") comes from the young person themself; the information on marital status comes from their main parent, that is the parent that has principal responsibility for the young person.

The survey took place in spring 2007 when the young people would have been aged 16-17 years old.

	Married, or living with a partner	*Separated (inc divorced)*
All parents of young people	68	19
Parents of a NEET young person	52	26

Written Answers to Questions

Thursday 30 April 2009

COMMUNITIES AND LOCAL GOVERNMENT

Aetherius Society

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the answer to Lord Lester of Herne Hill of 30 March 2009, *Official Report*, House of Lords, column 203WA, on places of religious worship, whether funding has been allocated to the Aetherius Society *(a)* from her Department and *(b)* under any programmes that her Department funds. [272241]

Mr. Khan: The Aetherius Society has not applied for or received funding from any programme supported by the Department.

Common Purpose: Finance

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government how much funding her Department has given to Common Purpose since the Department's establishment. [272481]

Mr. Khan: Communities and Local Government has not provided any funding to Common Purpose. It has however spent £20,950 on six Common Purpose training programmes since the year 2000.

Council Housing: Tamworth

Mr. Jenkins: To ask the Secretary of State for Communities and Local Government how many council dwellings have been *(a)* sold and *(b)* built in Tamworth constituency since 1997. [272069]

Mr. Iain Wright: The Communities and Local Government (CLG) data related to the sale and new build council homes is based on local authority boundaries rather than constituency boundaries.

The following table shows the number of "Right to Buy" sales only from 1998-99, as there is no disaggregated data prior to this date. Similarly the data for new build council housing is only available from the year 1999-2000.

	Tamworth borough council council house right to buy sales	*Tamworth borough council—new build council housing*
1996-97	[1]—	[1]—
1997-98	[1]—	[1]—
1998-99	98	[1]—
1999-2000	147	0
2000-01	116	0
2001-02	164	0
2002-03	226	0
2003-04	240	0
2004-05	139	0
2005-06	85	0
2006-07	28	0
2007-08	24	0
Total	1,267	0

[1] No data.

Communities and Local Government

Departmental Billing

John Mason: To ask the Secretary of State for Communities and Local Government what percentage of its suppliers her Department has paid within 10 days of receipt of invoice in each of the last five months. [272251]

Mr. Khan: The percentage of CLG suppliers paid within 10 days of receipt of invoice in each of the last five months is as follows:

	Percentage paid within 10 days
2008	
November	77.89
December	85.23
2009	
January	86.22
February	88.11
March	88.33

Departmental Travel

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government which organisation was the successful bidder for the contract for departmental travel with OGCbuying.solutions project code project_17667; and what the total value of the contract is. [272441]

Mr. Khan: The tenders for this contract are still being evaluated and no award has been made. The Department anticipates an award notice being made by the end of May. No fixed value was quoted in the award but approximate figures on the Department's current annual travel expenditure were quoted as follows:

	£
Rail	800,000
Air	200,000
Hotel	400,000
Car	20,000

When the contract is awarded it will be open to the Department's executive agencies and non-departmental bodies.

Empty Property

Dr. Kumar: To ask the Secretary of State for Communities and Local Government how many homes had been empty for more than six months in *(a)* England, *(b)* the North East, *(c)* Tees Valley and *(d)* Middlesbrough South and East Cleveland constituency on the latest date for which figures are available. [271348]

Mr. Iain Wright: I refer my hon. Friend to the answer I gave to the hon. Member for North West Cambridgeshire (Mr. Vara) on 16 December 2008, *Official Report*, column 586W. Data are not available at a constituency level.

Housing Benefit

Grant Shapps: To ask the Secretary of State for Communities and Local Government what percentage of tenants of *(a)* registered social landlords and *(b)* local authorities were in receipt of housing benefit in each of the last three years. [272110]

Mr. Iain Wright: Estimates of the percentages of registered social landlord tenants and local authority tenants in receipt of housing benefit in 2004-05, 2005-06 and 2006-07 are provided in the following table. These estimates are based on data from the Survey of English Housing.

Social sector households in receipt of housing benefit, England, 2004-05 to 2006-07

Percentage

	Tenure		
	Local authority	*Registered social landlord*[1]	*All social renters*
2004-05	62	61	61
2005-06	62	60	61
2006-07	63	63	63

[1] Sometimes referred to as housing associations.

Communities and Local Government, Survey of English Housing

Housing Market

Grant Shapps: To ask the Secretary of State for Communities and Local Government what estimate has been made of the net cost to the public purse of the changes to the measures to support the housing market announced in the Budget 2009 in each of the next three years. [271372]

Mr. Iain Wright: The measures to support the housing market include a £605 million funding package for house building (including a housing environmental package), £90 million to extend the stamp duty land tax holiday, £235 million to help those facing difficulties with their mortgage payments, and £120 million extra support for the devolved administrations. The costs and receipts (where applicable), over each of the next three years, are reported in tables 1 and 2. The differences between Table 1 and Table 2 represent the net cost to the public purse.

Table 1: Budget 2009 housing market measure, costs (£ million)[1]

	2009-10	*2010-11*	*2011-12*	*Total*
Stalled sites	320	80	0	400
LA house building	30	70	0	100
Housing environmental package	75	30	0	105
Stamp duty land Tax Holiday	90	0	0	90
Additional resources for preventing repossessions and evictions[2]	50	50	0	100
Support for Mortgage Interest (SMI)	135	0	0	135
Extra devolved administration funding (Barnett formula)	85	35	0	120
Total	785	265	0	1,050

[1] Figures are rounded to the nearest £5 million

[2] Includes MRS

Receipts back to the Government will accrue from elements of the stalled sites package, specifically from the Equity, Gap and Infrastructure and Homebuy Direct measures:

Table 2: Budget 2009 housing market measure receipts (£ million)

	Stalled sites
2009-10	0
2010-11	110
2011-12	10
Total	120

Housing: Low Incomes

Mike Penning: To ask the Secretary of State for Communities and Local Government how many affordable homes have been built in *(a)* Hemel Hempstead and *(b)* Hertfordshire in each year since 1997. [271258]

Mr. Iain Wright: Information on affordable housing completions is collected by the East of England Regional Assembly using returns from local authorities. It is available by borough/district council for the years since 2001 only.

The following table sets out the numbers of affordable housing completions and this amount as a percentage of total housing completions.

Hemel Hempstead (Dacorum Borough)

	Affordable housing completions (net)	*Total housing completions (net)*	*Affordable housing as a percentage of total completions*
2001-02	44	318	14
2002-03	101	642	16
2003-04	28	430	7
2004-05	55	301	18
2005-06	-29	167	0
2006-07	137	413	33
2007-08	118	391	30
Total	454	2,662	17

Note:

The figure for affordable housing completions in 2005/06 (-29) includes demolition of council affordable housing stock.

Hertfordshire

	Affordable housing completions (net)	*Total housing completions (net)*	*Affordable housing as a percentage of total completions*
2001-02	489	3,151	16
2002-03	577	3,214	18
2003-04	589	3,085	19
2004-05	862	4,043	21
2005-06	842	4,054	21

Hertfordshire

	Affordable housing completions (net)	*Total housing completions (net)*	*Affordable housing as a percentage of total completions*
2006-07	1,222	4,343	28
2007-08	1,168	4,277	27
Total	5,749	26,167	22

Note:
Figures are provided by the East of England Regional Assembly and may show minor differences to local authority's own annual monitoring data.

Grant Shapps: To ask the Secretary of State for Communities and Local Government (1) what additional funding will be provided to the Homebuy Direct scheme as a result of the Budget 2009; and how many additional homes it is expected to purchase; [271379]

(2) how many homes she expects to be purchased under the Homebuy Direct scheme in each of the next three years. [271380]

Margaret Beckett: I announced in December 2008 that sufficient funding had been made available to help up to 18,000 first-time buyers enter affordable home ownership through the HomeBuy Direct scheme by the end of 2009-10. The actual number of transactions will depend on take-up.

£400 million of additional funding will be made available as a result of the Budget to unlock currently stalled housing developments, leveraging in private development finance through a combination of reducing up-front costs with equity, gap and infrastructure funding, and additional funding for social and affordable housing. We estimate that this will provide up to 5,000 properties over the next two years to help first-time buyers, including through our HomeBuy Direct and Rent to HomeBuy schemes. The precise amount of additional funding provided to the HomeBuy Direct scheme will depend on the sites that come forward from developers, and ultimately on take-up by buyers.

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 23 April 2009, *Official Report*, columns 886-87W, on housing: low incomes, how much of the funding originally intended for allocation to local authorities in 2010-11 has been brought forward for use in *(a)* 2008-09 and *(b)* 2009-10. [272109]

Mr. Khan: Communities and Local Government brought forward £1,475 million from 2010-11 as a result of initiatives announced in the September Housing Package and pre-Budget report. £250 million of this had been allocated for the Decent Homes programme. £130 has been brought forward to 2008-09 and £120 million to 2009-10.

In addition, the Department has already allocated £162 million to local authorities from a total pot of up to £175 million brought forward from 2010-11 to 2009-10 to accelerate major repairs to council housing stock.

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many new build social homes were built in each *(a)* region and *(b)* local authority area in each year since 1997. [272208]

Mr. Iain Wright: A table showing the number of new homes built for social rent by region and local authority for each year from 1997-98 has been deposited in the Library.

The social rent new build figures are from the Homes and Communities Agency Investment Management System (IMS), and Housing Strategy Statistical Appendix (HSSA) returns and P2 house building returns submitted to CLG by local authorities.

Not all social rented housing is provided by new build completions, as some supply can come from acquisitions. For example, an additional 3,980 social rented homes were acquired in England in 2007-08; these are not included in the table.

Housing: Planning Permission

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many applications for planning permission to build new dwellings were *(a)* made and *(b)* granted in the last 20 quarters for which figures are available. [272100]

Mr. Iain Wright: Information on the number of applications for planning permission to build new dwellings in the last 20 quarters is not held centrally.

The number of planning permissions granted to build new dwellings for the last 20 quarters in England is shown in the following table:

Period	*Number granted (thousand)*
2004	
January to March	12.4
April to June	13.0
July to September	13.7
October to December	13.3

Housing: Prices

Grant Shapps: To ask the Secretary of State for Communities and Local Government what the average house price in 2008-09 prices was in each region in each of the last 10 years. [270683]

Mr. Iain Wright: Communities and Local Government currently have house price data up to February 2009. The following table shows regional mix-adjusted house prices at 2008 prices calculated using regional mix-adjusted average purchase prices of domestic dwellings based on data from the Regulated Mortgage Survey and the ONS Retail Prices Index.

Mix-adjusted house prices by region at 2008 prices

	North East	*North West*	*Yorkshire and the Humber*	*East Midlands*	*West Midlands*	*East*	*London*	*South East*	*South West*	*England*
1999	82,941	93,709	87,847	92,897	105,601	133,147	195,981	161,671	119,700	129,882
2000	84,002	98,285	90,077	101,231	116,109	149,740	220,384	185,690	133,954	144,212
2001	86,336	105,428	96,471	110,593	122,955	160,718	233,444	199,615	147,375	152,639
2002	100,440	120,837	114,733	135,939	147,042	192,915	252,299	228,651	178,940	175,645
2003	112,068	129,089	127,156	157,830	157,454	215,030	280,171	252,494	202,075	196,476
2004	139,511	153,762	151,038	174,117	178,050	226,865	295,987	262,001	220,237	212,829
2005	147,467	163,462	160,296	178,210	183,413	228,466	297,954	260,746	222,889	216,027
2006	151,239	165,471	165,459	176,246	184,173	229,153	305,163	260,942	224,470	217,616
2007	153,986	168,452	170,076	179,332	185,493	240,261	342,257	277,564	233,413	230,029
2008	144,528	157,685	159,253	166,079	172,059	228,737	331,454	265,829	218,281	218,327

In January of each year the mix adjustment weights are revised to reflect the pattern of property transactions during the previous three years. The mix-adjusted average prices for the rest of the year are then determined using the new weights. Consequently house prices between years cannot be compared because the years' weights are different.

Housing: Sales

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many homes have been purchased through the First Time Buyers Initiative in each month since the scheme's inception. [271466]

Mr. Iain Wright: The number of homes that have been purchased to date through the First Time Buyers Initiative in each month since the scheme's inception is as follows:

FTBI exchanges and completions

	Exchanges by month	*Exchanges cumulative*	*Completions by month*	*Completions cumulative*
November 2006	0	0	0	0
December 2006	1	1	1	1
January 2007	5	6	4	5
February 2007	6	12	2	7
March 2007	32	44	16	23

March 2009	77	1,955	72	1,867

Housing: Standards

John Bercow: To ask the Secretary of State for Communities and Local Government what recent progress her Department has made towards its aspiration to build all housing to Lifetime Homes Standards. [271637]

Mr. Iain Wright: It remains our aspiration, as stated in "Lifetime Homes, Lifetime Neighbourhoods: A National Strategy for Housing in an Ageing Society", published by my Department in February 2008, that by 2013 all new homes will be being built to Lifetime Homes Standards. We are committed to a review of the take-up of the standards in 2010, with a view to bringing forward regulation in 2013 should take-up not match expectations.

Local Government Finance

John Bercow: To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the operation of the comprehensive area assessments. [271575]

Mr. Khan: It is too early to have made any assessment of the effectiveness of the operation of the new Comprehensive Area Assessment (CAA), since it was only introduced from 1 April 2009.

The first CAA reports are expected to be published in late November 2009.

Local Government: Pensions

Mr. Philip Hammond: To ask the Secretary of State for Communities and Local Government what progress has been made in implementing reform of the Local Government Pension Scheme; and if she will make a statement. [271238]

John Healey: The statutory consultation regulations to begin the reform of the Local Government Pension Scheme was launched in a ministerial written statement to the House on 23 November 2006, *Official Report*, column 69WS. Subsequently, new arrangements came into operation on 1 April 2008.

Local Government: Publicity

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government what the timetable is for changes to the Guidance on Local Authority Publicity; and whether an impact assessment has been produced in relation to its potential effect on local newspapers. [272153]

Mr. Khan: The recent consultation on proposed changes to the Code of Recommended Practice on Local Authority Publicity closed on 12 March and the Department is currently considering the responses. The outcome of the consultation will help us decide what if any changes are to be made to the publicity code, and it will be at this point that we will undertake any impact or regulatory assessment before finalising the decision.

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to local authorities on publishing their own newspapers. [272360]

Mr. Khan: The Code of Recommended Practice on local authority publicity, which all local authorities must have regard to, applies to all publicity issued by a local authority, whatever the form of the publication.

Mortgages: Government Assistance

Grant Shapps: To ask the Secretary of State for Communities and Local Government what expenditure her Department has incurred on establishing the *(a)* Mortgage Rescue Scheme and *(b)* Homeowners Mortgage Support Scheme. [266407]

Margaret Beckett: The Mortgage Rescue Scheme was established as part of ongoing work on the Department's homelessness prevention programme. The impact assessment for the homeowners mortgage support scheme will be published shortly, alongside the scheme launch.

Planning Permission

Grant Shapps: To ask the Secretary of State for Communities and Local Government how many planning permissions were *(a)* applied for and *(b)* granted in the last quarter for which figures are available. [272228]

Mr. Iain Wright: The number of planning permissions applied for and granted in England, in the last quarter for which figures are available is shown in the following table:

Period	*Number received*	*Number granted*
October to December 2008	111,000	91,000

Source:
Communities and Local Government General Development Control Returns PSF

Planning Permission: Aviation

Mrs. Spelman: To ask the Secretary of State for Communities and Local Government what changes to planning guidance there have been relating to the development of airfields since 2005. [272425]

Mr. Iain Wright: There have been no changes to planning guidance relating to the development of airfields since 2005.

Planning Permission: Sustainable Development

John Bercow: To ask the Secretary of State for Communities and Local Government what recent steps she has taken to increase efficiency, effectiveness and transparency in the planning system; and what recent steps she has taken to ensure that the planning system facilitates sustainable development. [271573]

Mr. Iain Wright: Since 1997 we have made significant progress in improving the planning system.

Through the Planning and Compulsory Purchase Act 2004 and Planning Policy Statement 1 (PPS1) we have put the delivery of sustainable development at heart of the planning system. Alongside PPS1 we have introduced clear national policy on the role of planning in addressing climate change: tackling climate change is now firmly at the centre of what is expected from good planning.

More recently, the Planning Act 2008 provides for the creation of a more efficient, effective and transparent development consent regime for nationally significant infrastructure projects. It provides for ministers to set out the national need for infrastructure in National

Policy Statements, a new single consent regime to replace the eight existing development consent regimes for nationally significant infrastructure projects, and the establishment of an independent Infrastructure Planning Commission to examine and (where a relevant National Policy Statement is in force) determine applications made under this new regime, at the same time locking more meaningful public involvement into each stage of the process. The aim is to reduce the time taken from application to decision to under a year in the majority of cases, saving up to an estimated £300 million a year. Under the Act, Ministers must, when preparing National Policy Statements, do so with the objective of contributing to the achievement of sustainable development, and all NPSs will be subject to an appraisal of sustainability, ensuring that sustainable development is at the heart of the new regime.

In late 2008, we introduced changes to permitted development for certain householder extensions and loft conversions, which is expected to remove about 80,000 applications a year from the system.

The process of planning reform is continuing. In March this year, the Government set out their response to the Killian Pretty review, which sets out an ambitious programme of further improvements to the efficiency and effectiveness of the planning application process.

In addition, the Local Democracy, Economic Development and Construction Bill introduces a clear duty for responsible regional authorities, when preparing their new integrated regional strategies, to exercise their functions with the objective of contributing to the achievement of sustainable development. There is also a requirement for regional strategies to include policies designed to contribute to the mitigation of, and adaptation to, climate change.

Regeneration: Preston

Mr. Wallace: To ask the Secretary of State for Communities and Local Government what representations she has received from hon. Members on the redevelopment of Preston city centre. [271307]

Mr. Iain Wright: While other objectors have raised issues on the redevelopment of Preston city centre Tithebarn scheme, no representations have been received from hon. Members on this scheme.

Regional Planning and Development

John Bercow: To ask the Secretary of State for Communities and Local Government how much funding for infrastructure was allocated by her Department to the Milton Keynes/South Midlands Growth Area in *(a)* 2006-07, *(b)* 2007-08 and *(c)* 2008-09. [271630]

Mr. Iain Wright: The Department for Communities and Local Government provides funding to support local infrastructure in growth areas and growth points through the Growth Fund and the Community Infrastructure Fund, which is a joint fund with the Department for Transport. The Growth Fund and Community Infrastructure Fund are additional to mainstream departmental funding in areas such as health, education and national transport networks.

Funding is allocated to local authorities, and to transport authorities for the Community Infrastructure Fund, rather than on a growth area-wide basis. The funding allocated to growth locations through the Growth Fund and Community Infrastructure Fund in 2006-07, 2007-08, and 2008-09 is shown in table 1. The total funding allocated to locations across the Milton Keynes South Midlands (MKSM) growth area over this period was £298.2 million.

In addition, funding allocations for 2009-10 and 2010-11, and the second round of the Community Infrastructure Fund, have now been announced, and are shown in table 2. A further £128.08 million funding has been allocated to growth locations across the Milton Keynes South Midlands growth area over this period.

Table 1: funding across the MKSM growth area 2006-09

£ million

	Growth funds				*Community Infrastructure Fund, round 1*
Places	*2006-07*	*2007-08*	*2008-09*[1]	*Total*	*2006-07 to 2007-08*
Aylesbury Vale	5.28	7.45	4.78	17.51	22.63

Total growth funds and CIF			128.08	

Rented Housing: Public Consultation

Grant Shapps: To ask the Secretary of State for Communities and Local Government pursuant to the answer of 23 March 2009, *Official Report*, column 79W, on tenant services authority, how many people attended each National Conversation event for *(a)* landlords and *(b)* tenants. [272202]

Mr. Iain Wright: I refer the hon. Member to the reply given by my right hon. Friend the Minister for Housing and Planning to my hon. Friend the Member for Luton, South (Margaret Moran) on 26 March 2009, *Official Report*, column 732W.

Temporary Accommodation

John Bercow: To ask the Secretary of State for Communities and Local Government how many people were in temporary accommodation in England in *(a)* 2004, *(b)* 2005, *(c)* 2006, *(d)* 2007 and *(e)* 2008. [271577]

Mr. Iain Wright: Information about English local housing authorities' actions under the homelessness legislation (part 7 of the Housing Act 1996) is collected quarterly at local authority level, about households rather than individuals.

Data collected include the number of households accepted by local housing authorities as eligible for assistance, unintentionally homeless and in priority need, and therefore owed a main homelessness duty (to secure that suitable accommodation is available). If a settled home is not immediately available, the authority must secure temporary accommodation until a settled home becomes so.

Information on the numbers of households housed in temporary accommodation is reported quarterly by local authorities as at the last day of each quarter. The figure includes: those households which have been accepted as owed the main homelessness duty; those for which enquiries are pending; those being accommodated for a limited period because they have been found intentionally homeless and in priority need; those being accommodated pending possible referral to another authority, and those being accommodated pending the outcome of a local authority review or county court appeal.

The number of households in temporary accommodation at the end of each quarter is published in table 7 of the Statistical Release on Statutory Homelessness. Quarter four within this table is based on 31 December, which represents the end of calendar year figure. This is available on the web and in the Library:

http://www.communities.gov.uk/documents/statistics/xls/1173159.xls

Please see the following table:

Households in temporary accommodation on 31st December each year from 2004 to 2008

	Households in temporary accommodation
2004	101,030
2005	98,730
2006	89,510
2007	79,500
2008	67,480

Zero Carbon Hub

Mr. Stewart Jackson: To ask the Secretary of State for Communities and Local Government pursuant to the Answer to my hon. Friend the Member for Bromley and Chislehurst (Robert Neill) of 23 April 2009, *Official Report*, column 892W, on the zero carbon hub, if she will place in the Library a copy of each regular report made to date. [272243]

Mr. Iain Wright: The reports referred to are being made available on the Zero Carbon Hub's website:

www.zerocarbonhub.org

DEFENCE

Armed Forces: Rescue Services

Nick Harvey: To ask the Secretary of State for Defence (1) how many military helicopters have been available to provide search and rescue cover in each of the last 12 months; [271461]

(2) how many search and rescue helicopters were available on average to provide cover for such activities in each year since 2003. [271462]

Mr. Bob Ainsworth: The average number of UK based Search and Rescue Royal Navy and RAF helicopters available for tasking in each year since 2003 is shown in the following table:

	Average number of helicopters
2003	24
2004	24
2005	25
2006	26
2007	26
2008	26

Helicopter availability in each of the last 12 months is shown in the following table:

	Average number of helicopters
2008	
April	26
May	26
June	25
July	25
August	25

	Average number of helicopters
September	26
October	26
November	26
December	25
2009	
January	25
February	25
March	26

Nick Harvey: To ask the Secretary of State for Defence how many search and rescue training exercises have taken place *(a)* in each year since 2003 and *(b)* in each of the last 12 months. [271463]

Mr. Bob Ainsworth: The training undertaken by UK based military search and rescue (SAR) helicopter crews can range from daily training flights devised by the crews in order to refresh particular skills and maintain operational effectiveness, to pre-planned exercises involving the emergency services.

Data on daily training flights, which represent the majority of the training undertaken by RAF SAR crews, are not held centrally and could be provided only at disproportionate cost. However, data are available on the number of pre-planned training exercises the RAF has undertaken with the emergency services. This information is provided in the following table for the period 1 January 2003 to 31 December 2008 and the 12 months from April 2008.

	Number of exerc[illegible]
2003	29
2004	15
2005	23
2006	20
2007	19
2008	18

Month	*Number of exercises*
2008	
April	1
May	1
June	0
July	2
August	3
September	2
October	0
November	5
December	1
2009	
January	0
February	1
March	4

The available information on the number of Royal Navy SAR training flights is compiled on a different basis and does not differentiate between daily training flights and multi-agency training exercises. The following table shows the training flights undertaken by Royal Navy SAR crews in each of the last 12 months. Data for the period 1 January 2003 to 31 March 2008 are only held in archives and could be provided only at disproportionate cost.

	Number of rescue training exercises flown	
	771 NAS, RNAS Culdrose	*Gannett SAR Flt, Prestwick*
April 2008	38	49
May 2008	43	42
June 2008	43	55
July 2008	44	38
August 2008	34	34
September 2008	44	44
October 2008	44	39
November 2008	42	46
December 2008	43	44
January 2009	41	37
February 2009	40	38
March 2009	45	28

RAF Welford: Security

Nick Harvey: To ask the Secretary of State for Defence with reference to the answer to the hon. Member for Lewes of 17 November 2008, *Official Report*, column 153W, on RAF Welford, whether the security enhancements at RAF Welford have been completed; and whether a complement of Ministry of Defence police remains stationed at the base. [271264]

Mr. Bob Ainsworth: I refer the hon. Member to the answer I gave on 17 November 2008, *Official Report*, column 153W, to the hon. Member for Lewes (Norman Baker). Although significant progress has been made, the security enhancements at RAF Welford are not yet complete. The Ministry of Defence police will not be withdrawn from RAF Welford until the necessary security enhancements at the base have been completed.

ELECTORAL COMMISSION COMMITTEE

Liberal Democrats: Donations

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what progress the Electoral Commission has made in its investigation into the permissibility of donations by 5th Avenue Partners and Mr. Michael Brown to the Liberal Democrat Party. [271948]

Sir Peter Viggers: The Electoral Commission informs me that the investigation into the permissibility of donations made to the Liberal Democrat party by 5th Avenue Partners is continuing. The Commission further informs me that its aim remains to conclude the investigation as quickly as possible, but that its priority must be to ensure that the process is fair and thorough.

Political Parties: Accountancy

Mr. Maude: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what revised timetable the Electoral Commission has established to take forward its Standardisation of Statement of Accounts initiative. [271947]

Sir Peter Viggers: The Electoral Commission informs me that it intends to announce details of the revised timetable before the summer recess.

FOREIGN AND COMMONWEALTH OFFICE

Cayman Islands: Financial Services

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what consideration he has given to directing the Governor of the Cayman Islands to comply with the Organisation for Economic Co-operation and Development's requirements on tax disclosure, financial regulation and oversight; and if he will make a statement. [271787]

Gillian Merron *[holding answer 28 April 2009]:* In the Cayman Islands, finance is a constitutionally devolved competence, which gives primary responsibility for legislation and regulation to the Government of the Cayman Islands.

The Government continually underline to all territories the importance of meeting international standards on information exchange, in the context of both taxation and regulatory matters. At the overseas territories consultative council meeting in November last year territories were encouraged to make progress towards the Organisation for Economic Co-operation and Development (OECD) standards on tax transparency. The Governor repeated this message prior to the G20 Summit.

The Cayman Islands was one of the first jurisdictions to commit to the OECD international standard on exchange of information in 2000. The Leader of Government Business in the Cayman Islands re-committed to this standard in March 2009 and Cayman has signed eight tax information exchange agreements to date. Last year it introduced a unilateral legal mechanism for the provision of tax information assistance pursuant to which they have extended assistance to a further 12 other jurisdictions. This approach is currently being considered by the OECD with a view to confirming whether it meets their standard. The Cayman Islands, along with other relevant overseas territories, is also compliant with the requirements of the EU savings tax directive.

My right hon. Friend the Prime Minister in his letter to the Government of the Cayman Islands following the summit stressed the need for them to at least match the global pace on the exchange of tax information and urged them to meet the OECD standard in time for the UN General Assembly meetings in September. He has also encouraged them to meet any new international standards which may emerge. The Government will continue to work with all the overseas territories to support them in reaching these targets.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason responsibility for *(a)* financial regulation and oversight and *(b)* compliance with (i) obligations imposed by the Organisation for Economic Co-operation and Development and (ii) other treaty obligations relating to financial regulation and oversight and disclosure are matters reserved to the Governor of the Cayman Islands. [271788]

Gillian Merron *[holding answer 28 April 2009]:* Financial regulation and oversight are not matters reserved to the Governor of the Cayman Islands. Responsibility has been devolved to the Cayman Islands Government.

Compliance with treaty obligations extending to the Cayman Islands, including those relating to financial matters, is primarily the responsibility of the territory Government, and we expect them to comply fully with those obligations. However, the UK is ultimately responsible for the territories' compliance with treaty obligations under international law.

Under the 1972 (current) Cayman Islands Constitution the Governor is the Queen's representative in the territory and has responsibility for external relations and, therefore, the territory Ministers have no power or authority to enter into a binding international commitment unless authorised by entrustment from the Secretary of State for Foreign and Commonwealth Affairs.

Community Relations: Contracts

Mr. Paul Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 10 March 2009, *Official Report*, column 226W, on terrorism: finance, whether any of the projects to tackle radicalisation and promote understanding overseas are being delivered by subcontractors. [270675]

Bill Rammell: The Foreign and Commonwealth Office (FCO) provides funding to a range of organisations to deliver projects which tackle radicalisation and promote tolerance. These organisations are primarily responsible for delivery of projects but are able, under the grant agreement, to sub-contract parts of the project to other organisations or individuals, for example where specialist skills or knowledge are required.

Implementers are chosen according to a rigorous selection board, and their own implementation of the project held to account on a regular basis by review, monitoring and evaluation. This includes the implementer's financial management and choice of subcontractors. Choice of subcontractors must be undertaken in accordance with proper procurement principles. The FCO, as the contracting authority, retains the right to dismiss any subcontractor whose performance is demonstrated to be unsatisfactory through the regular monitoring and evaluation processes.

Council of Europe

Mr. Oaten: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the UK Permanent Representative to the Council of Europe on the choice of the next Secretary General of the Council of Europe. [272059]

Caroline Flint: The Foreign and Commonwealth Office in London and the UK Permanent Representative to the Council of Europe and her team have remained in close touch on this issue since the process for selection of the next Secretary General was launched in July last year. Good leadership is key to delivery of our strategic objective of international institutional reform. We have been in the forefront in working for a fair, open, competence-based selection process.

Democratic Republic of Congo: Human Rights

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the safety and whereabouts of Dolly Inefo Mbunga, Floribert Chebeya Bahizire and Donat Tshikaya following their arrests in Kinshasa; and what recent representations he has made to the government of the Democratic Republic of Congo on the disappearance of human rights workers. [271596]

Gillian Merron: Dolly Inefo Mbunga, Floribert Chibeya Bahizire and Donat Tshikaya were released on 17 March 2009, and are now at liberty.

The EU presidency, the European Commission and the EU's Special Representative to the Great Lakes region raised the issue in meetings with Democratic Republic of Congo (DRC) Ministers shortly after the men's arrest. UN officials also made representations to the DRC authorities about this incident.

Officials from EU member states, who co-operate closely on human rights questions in DRC, have discussed the arrest with Mr. Chibeya and agreed to follow this issue.

The UK, through its aid programme, is also funding projects to help civil society organisations play an effective role and to encourage accountability in the security services.

Iran: Nuclear Weapons

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the answer of 15 September 2008, *Official Report*, column 2185W, on Iran: nuclear weapons, if his Department will assess the effect of *(a)* EU and *(b)* UN sanctions on the Iranian (i) economy and (ii) nuclear and ballistic weapons programmes. [271014]

David Miliband: There are no plans at present to issue a formal study on the effect of EU and UN sanctions on the Iranian economy and nuclear and ballistic weapons programmes. However, we regularly monitor the impact of sanctions on Iran.

Our assessment is that UN sanctions have made it more difficult for Iran to procure items for its nuclear and ballistic weapons programmes. Sanctions continue to affect parts of the Iranian economy, particularly through the disruption of the international operations of a number of Iranian companies and those Iranian banks listed in the sanctions. Anecdotal evidence from sources inside Iran indicates that sanctions have increased the inconvenience and general cost of doing business.

EU sanctions, which implement and go beyond UN measures, have had a similar effect on a larger number of individuals and entities.

Israel: EU External Trade

Dr. Starkey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has obtained a legal opinion on the duty of recognition in international law to assist in formulation of policy on the labelling of goods from Israeli settlements. [271617]

Bill Rammell: The Government are currently considering the issue of the labelling of products imported from Israeli settlements in the Occupied Palestinian Territories, including relevant domestic and international law issues.

Middle East: Armed Conflict

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to investigate and report on the use of UK-supplied weapons during Israel's military operation in Gaza; and if he will make a statement. [250363]

Bill Rammell: I refer the right hon. Member to the written ministerial statement made by my right hon. Friend the Foreign Secretary on 21 April 2009, *Official Report*, column 8WS.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* Ministers and *(c)* officials in his Department plan to have with governments of Arab states in respect of the alleged murder of persons in the Gaza Strip by Hamas members since December 2008; and if he will make a statement. [272168]

Bill Rammell: We condemn all attacks targeting innocent civilians. The UK is clear in its calls for Hamas to renounce all violence, and to adhere to international law. Ministers remain in close touch with their counterparts in Israel and around the Arab world.

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he *(a)* has taken and *(b)* plans to take at the United Nations in respect of the alleged murder of persons in the Gaza Strip by Hamas members since December 2008; and if he will make a statement. [272178]

Bill Rammell: The Government condemn all attacks targeting innocent civilians. The UK led the way at the UN to achieve Security Council Resolution 1860 which clearly condemns all violence directed against civilians and all acts of terrorism. It also spelt out that a lasting solution to the Israeli-Palestinian conflict can only be achieved by peaceful means.

Pakistan

Mrs. Curtis-Thomas: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Pakistani Government on *(a)* power-sharing arrangements between the provincial and federal governments in and *(b)* the distribution of funding to different parts of that country; and if he will make a statement. [270100]

Bill Rammell: These issues are raised as part of our ongoing co-operation with the Government of Pakistan in its efforts to establish strong democratic frameworks at federal and provincial levels.

During a visit to Pakistan in July 2008, my right hon. Friend the Secretary of State for Communities and Local Government (DCLG) offered to share UK experience of public administration of central and local government. This was reiterated when the Parliamentary Under Secretary of State visited Pakistan in April 2009.

During discussions involving officials from our High Commission in Islamabad, in preparation for the 17 April 2009 Tokyo Donors' Conference, Pakistan's Secretary for Finance recognised that the Government of Pakistan's budgetary allocation gives insufficient weight to the North West Frontier Province, Baluchistan and the Federally administered tribal areas. Pakistan wants assistance from the World Bank to establish a Trust Fund for the border areas which will also provide for governance reform there. The UK supports this initiative.

The UK also supports the Government of Pakistan in distributing funding throughout Pakistan through the Department for International Development's (DFID) Development Partnership Arrangement. DFID gives budget support to the Government of Pakistan to help it increase spending on sectors such as health and education, and to reduce poverty. DFID works to improve the capacity of provincial governments to manage their human and financial resources. DFID is also planning substantial support for the education sector in the provinces of Punjab, Balochistan and North West Frontier province.

Pakistan: Politics and Government

Mr. Hague: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Pakistan on the implications of the recent agreement between the Government of Pakistan and militants in the Malakand region of the Swat Valley for *(a)* the security situation in Pakistan and Afghanistan and *(b)* human rights in the Malakand region; and if he will make a statement. [271011]

David Miliband: I last discussed the broader political and security situation in North West Frontier Province with Prime Minister Zardari on Friday 24 April 2009, and with Foreign Minister Qureshi on Saturday 25 April. My officials have repeatedly raised the situation in Malakand with the Government of Pakistan, and have expressed our concerns about the recent agreement with militants, which has not led to lasting security in Pakistan, and also has implications for regional security. We are also concerned about reports of human rights abuses by militants in Swat. We welcome the Government of Pakistan's commitment to fight back against violent extremism. My right hon. Friend the Prime Minister has presented to Parliament the UK policy in Afghanistan and Pakistan (29 April 2009, *Official Report*, column 869) and made clear that we will intensify our support to Pakistan's efforts to take stronger ownership of the problems of terrorism and violent extremism.

Russia: BBC External Services

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs on how many occasions he has met experts on Russia, international affairs and broadcasting to discuss the BBC Russia Service since 2008; and what the outcome of such discussions has been. [271192]

Caroline Flint: Since 2008, my right hon. Friend the Foreign Secretary has not met with any experts to discuss the BBC World Service Russian Language Service. He has met with experts on Russia to discuss and inform the development of overall policy to Russia, most recently in June 2008.

Sudan: Politics and Government

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect on the political situation in the Chad-Sudan border area of the recent activities of Chadian armed opposition groups in Western Darfur; and what recent discussions the UK Special Representative for Sudan has had with the governments of Chad and Sudan on security in that area. [271728]

Gillian Merron: There are frequent reports of large groups from both the Justice and Equality Movement—a Darfuri rebel group—and the Chadian armed opposition on both sides of the Chad-Sudan border. There have, however, been no recent reports of movement. The UN-African Union hybrid mission in Darfur (UNAMID) continues to monitor the situation. The UK Special Representative for Sudan has had no recent discussions with the governments of Sudan or Chad on this issue.

Mr. Keith Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects of the recent conflict between the Lou Nuer and Murle tribes on the security situation in Southern Sudan; and whether there are plans to increase the number of UN peacekeepers in that area. [271730]

Gillian Merron: The UK is very concerned by insecurity in Southern Sudan and most recently by the fighting between Lou Nuer and Murle tribes in Jonglei state. This fighting has had a negative effect on the security situation in the South and increases concern of such incidents sparking more widespread conflict.

The UN Mission in Sudan (UNMIS) are monitoring the situation in Jonglei and have dispatched a team to assess security and humanitarian needs. UNMIS have not yet increased the number of peacekeepers in the affected areas but we understand that plans to do so are currently being discussed.

Yemen: Politics and Government

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with the Yemeni government on the security situation in Yemen. [271387]

Bill Rammell: Our ambassador maintains a regular dialogue with the Government of Yemen about the security situation there. He discussed this issue most recently with the Minister of Interior on 19 April 2009.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the UK contribution towards tackling terrorist activity in Yemen. [271388]

Bill Rammell: We maintain a wide-ranging dialogue with the Government of Yemen including on issues relating to counter terrorism (CT). We have a programme of CT capacity-building with the Yemeni authorities which aims to develop a self-sustaining Yemeni capability to tackle the terrorist threat. This includes working with the Yemeni Government to develop an inclusive and effective approach to counter extremism.

PRIME MINISTER

Departmental Internet

Mr. Gauke: To ask the Prime Minister whether the recording of his statement on hon. Members' allowances uploaded to his YouTube channel on 21 April required more than one take. [272003]

The Prime Minister: The recording is available on the Downing street YouTube channel.

Honours

Mr. Gordon Prentice: To ask the Prime Minister (1) what the names are of those whose honours have been cancelled by the Forfeiture Committee since 1997; and for what reasons each honour was cancelled; [271526]

(2) how many inquiries the Forfeiture Committee has undertaken following a complaint from *(a)* a member of the public, *(b)* a professional body or organisation and *(c)* an hon. Member since 1990; and how many of these inquiries were instigated at the Committee's own volition. [272087]

The Prime Minister: Notice of forfeiture is published in the *London Gazette*, copies of which are available in the Libraries of the House. The details of why an individual forfeits an honour are confidential.

TREASURY

Adjudicator's Office

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many complaints have been made by members of the public about the work of the Adjudicator in each of the last five years; and if he will make a statement. [271784]

Mr. Timms: Complaints about the work of the Adjudicator are made to the parliamentary ombudsman. Information available on complaints made to the ombudsman are available in the ombudsman's annual report, available at:

http://www.ombudsman.org.uk/improving services/annual_reports/index.html

Mr. Graham Stuart: To ask the Chancellor of the Exchequer how many people were employed *(a)* full-time and *(b)* part-time at the Adjudicator's Office on the latest date for which figures are available; and if he will make a statement. [271785]

Mr. Timms: Information about the number of people who work in the Adjudicator's Office is provided in the annual reports, available at:

http://www.adjudicatorsoffice.gov.uk/publications.htm

Mr. Graham Stuart: To ask the Chancellor of the Exchequer what funding his Department has allocated to the Adjudicator's Office in each of the last five years; and if he will make a statement. [271786]

Mr. Timms: The information about funding of the Adjudicator's Office is provided in the annual report, available at:

http://www.adjudicatorsoffice.gov.uk/publications.htm

Banks: Iran

Mr. Hague: To ask the Chancellor of the Exchequer on how many occasions since November 2008 his Department has exercised its powers under Schedule 7 of the Counter Terrorism Act 2008 in respect of Iran; and if he will make a statement. [270652]

Ian Pearson: In its advisory notice of 11 March 2009 HM Treasury made clear that in the light of the call by the Financial Action Task Force for countermeasures against Iran, the UK is considering what further action is required.

No directions with respect to Iran have been issued under Schedule 7 of the Counter Terrorism Act 2008.

Departmental Correspondence

Mr. Andrew Turner: To ask the Chancellor of the Exchequer how many letters from hon. Members his Department received in *(a)* January and *(b)* February 2009; and how many letters received from hon. Members in 2008 were responded to (i) in less than two weeks, (ii) in between two weeks and one month, (iii) in between one and two months and (iv) in over two months. [265940]

Angela Eagle: The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members and Peers correspondence. The report for 2008 will be published shortly.

Dormant Bank and Building Society Accounts Act 2008

Mr. Jeremy Browne: To ask the Chancellor of the Exchequer (1) by what date he expects the Reclaim Fund established under the Dormant Bank and Building Society Accounts Act 2008 will have transferred funds to the Big Lottery Fund; [272052]

(2) when the Reclaim Fund will be established under the provisions of the Dormant Bank and Building Society Accounts Act 2008. [272053]

Ian Pearson: The Dormant Bank and Building Society Accounts Act 2008 received Royal Assent on 26 November 2008. HM Treasury is consulting on secondary legislation to enable the Financial Services Authority (FSA) to regulate a reclaim fund. The consultation will close on 4 May 2009:

http://www.hm-treasury.gov.uk/consult_dormant_accounts_scheme.htm

The FSA is separately consulting on a proportionate regulatory regime for a reclaim fund. The consultation will close on 30 April 2009:

http://www.fsa.gov.uk/pages/Library/Policy/CP/2009/09_08.shtml

The Government intend the scheme to be operational as soon as possible, subject to parliamentary approval.

Excise Duties: Alcoholic Drinks

Mr. Sanders: To ask the Chancellor of the Exchequer how many representations his Department has received from *(a)* hon. Members and *(b)* members of the public on charges: the rate of duty on beer in the last 12 months; and how many were (i) in favour and (ii) against increases in duty. [271600]

Angela Eagle: Treasury Ministers and officials receive representations from a wide range of organisations and individuals in the public and private sectors as part of the process of policy development and delivery. As was the case with previous Administrations, it is not the Government's practice to provide details of all such representations.

Mr. Sanders: To ask the Chancellor of the Exchequer if he will assess the effect of the increase in beer duty announced in the 2009 Budget on *(a)* trends in the rate of public house closures and *(b)* local economies. [271606]

Angela Eagle: As with all tax policy decisions, we will be monitoring the impact of alcohol duty increases on a range of factors.

I regularly meet representatives from the trade, including the British Beer and Pub Association, to listen to their views on the impact of alcohol duty policy on the pub industry.

Government Departments: Location

John Mann: To ask the Chancellor of the Exchequer what provision he has made in his Department's expenditure estimates for the relocation of government services out of London in each of the next six financial years. [271775]

Angela Eagle: The Treasury is a small central Department, working directly to Ministers and Parliament. There are no plans to relocate any Treasury functions out of London in either 2009-10 or 2010-11. Spending plans for the following three years will be settled in the next spending review.

Non-Domestic Rates

Peter Luff: To ask the Chancellor of the Exchequer what provisions he plans to bring forward to introduce automatic rate relief for small businesses in England; and if he will make a statement. [271531]

Angela Eagle: The Government are keen to continue to improve the administration of small business rate relief to make it easy to claim and increase its take up. The Chancellor has therefore asked his Department's officials to work with CLG officials to see what can be done to improve the take up of the scheme.

Tax Collection: Languages

Alun Michael: To ask the Chancellor of the Exchequer what steps he has taken to make tax forms in *(a)* Polish, *(b)* Romanian, *(c)* Moldovan and *(d)* other European languages available for people whose first language is not English. [271524]

Mr. Timms: Forms from HM Revenue and Customs, including tax returns, are not generally made available in languages other than English.

HMRC offers targeted support in languages other than English for customers:

Who are new to the UK, and new to the language, to enable them to meet their obligations and get access to services while they are settling in. Examples include a link on the 'Coming to work in the UK' HMRC website page, helpsheets on 'Working in the Construction Industry: new Construction Industry Scheme guidance' and on the Child Trust Fund, and miscellaneous airport and port notices.

From more established communities, where there is evidence to suggest that they need special help.

From within the travelling public who are entering or passing through the UK.

The help HMRC provides takes the form of:

simple information products, in plain English and key languages (including Polish), with key introductory information and signposting to further information and support; and

support and tools to better equip staff and intermediaries to help customers complete forms in English and to understand their rights and responsibilities.

HM Revenue and Customs also provide telephone interpretation services to help customers whose first language is not English when they visit a face to face inquiry centre or speak to staff in contact centres.

Tax Havens: British Overseas Territories

Dr. Kumar: To ask the Chancellor of the Exchequer what steps he plans to take to implement the commitments of the G20 Summit in respect of tax jurisdictions in overseas territories and Crown dependencies; what timetable has been set; and if he will make a statement. [271645]

Mr. Timms: The G20 called on all jurisdictions to apply the international standard of exchange of information in tax matters and resolved to take action against jurisdictions that failed to do so. All the UK's overseas territories and Crown dependencies have committed to meeting the standard. A report on progress is included in the interim report of the Foot review, published at the Budget:

http://www.hm-treasury.gov.uk/d/
indreview_foot_review_progess_apr09__pu772.pdf

Where territories have been assessed by the OECD as not yet having substantially met the international standard, the Government will be working with those territories to help them achieve the standard as swiftly as possible.

Welfare Tax Credits

Steve Webb: To ask the Chancellor of the Exchequer if he will estimate the cost to the Exchequer of increasing the first income threshold for tax credits to £10,000, removing the second income threshold and applying a constant taper rate of 44 per cent. [270853]

Mr. Timms *[holding answer 24 April 2009]:* The estimated cost of increasing the first income threshold for tax credits to £10,000, of removing the second income threshold and applying a constant taper rate of 44 per cent. would be £1.4 billion in 2010-11. No account has been taken of possible behavioural effects.

These changes would not affect the number of claimants eligible for tax credits but would increase the number of claimants with awards reduced to zero.

Welfare Tax Credits: Maladministration

John Mann: To ask the Chancellor of the Exchequer on what date HM Revenue and Customs (HMRC) wrongly entered the date of birth of the constituent of the hon. Member for Bassetlaw, reference 02005341/ND on its database for tax credit purposes; on what date the tax credit award was terminated in consequence; on what date HMRC plans to reinstate the terminated award; and what compensatory payment HMRC proposes to make. [271676]

Mr. Timms: It would not be appropriate for me to comment on the specifics of individuals' tax affairs. HM Revenue and Customs have advised me that they contacted my hon. Friend's constituent on 28 April 2009 about their case.

INTERNATIONAL DEVELOPMENT

Departmental Conferences

Grant Shapps: To ask the Secretary of State for International Development pursuant to the Answer of 16 March 2009, *Official Report*, column 840W, on the economic situation, what the cost of his Department's Annual Conference on 9 and 10 March 2009 was, broken down by category of expenditure. [267997]

Mr. Douglas Alexander: I refer the hon. Member to the written answer given today UIN 268013 to the hon. Member for Berwickshire, Roxburgh and Selkirk (Mr. Moore).

Departmental Training

Grant Shapps: To ask the Secretary of State for International Development pursuant to the answer of 2 April 2009, *Official Report*, column 1464W on Departmental Training, how much was spent by his Department on ministerial training on handling the media as part of their continuing development. [272185]

Mr. Michael Foster: The Department for International Development has spent £4,050 on ministerial media training.

Israel: Borders

John Battle: To ask the Secretary of State for International Development what recent assessment he has made of the implications of the Israeli wall for the well-being of Palestinian people in the West Bank, with particular reference to their access to water; and if he will make a statement. [271114]

Mr. Douglas Alexander: The Department for International Development (DFID) has made no recent assessment of the implications of the Israeli wall for Palestinian wellbeing in the West Bank. However, a UN report released in November 2007 found that some Palestinian communities located close to the Barrier or in the closed area between the Barrier and the Green Line had limited or no access to primary health care, that farmers had difficulties in gaining sufficient access to their land with a negative impact on their livelihoods, and that social relations were affected as relatives could not obtain 'visitor' permits to attend family occasions.

DFID also broadly agrees with a finding from the recent World Bank report, "Assessment of Restrictions on Palestinian Water Sector Development", which states that physical access restrictions and closures, including the Separation Barrier, limit effective water sector management and development in the Occupied Palestinian Territories. The report is available on the World Bank website:

http://www.worldbank.org/

Non-Governmental Organisations

Pete Wishart: To ask the Secretary of State for International Development which non-governmental organisations have received funds from the public purse to conduct aid work in Pakistan in the last five years; and how much each received. [270473]

Mr. Michael Foster: The following table shows which non-governmental organisations have received funds, and the amounts received, from DFID in Pakistan during the last five financial years (including ICRC and IFRC):

£ millions

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*

Pete Wishart: To ask the Secretary of State for International Development which non-governmental organisations have received funds from the public purse to conduct aid work in Iraq in the last five years; and how much each received. [270474]

Mr. Michael Foster: The Department for International Development (DFID) provided funding directly to non-governmental organisations (NGOs) in Iraq over the last five years through two principal mechanisms: the Political Participation Fund and the Civil Society Fund.

The £5 million Iraq Civil Society Fund (CSF) supported projects that strengthened the capacity of Iraqi civil society organisations through partnerships with international NGOs. Funding was given to Christian Aid, Save the Children (UK), Mines Advisory Group (MAG), Help Age International, Women for Women International, Salvation Army, International Centre for Trade Union Rights, UNISON and the Women's National Commission. These NGOs, in turn, partnered a range of Iraqi organisations.

The £7.5 million Political Participation Fund (PPF) provided grants to grass-roots Iraqi civil society organisations to enable potentially marginalised groups to participate in the political process. Under the PPF, the international NGOs we supported were AMAR, Arab Gulf Studies Centre, Institute of War and Peace Reporting (IWPR), and the Irish Human Rights Network.

We have also contributed £55 million to the International Committee of the Red Cross for their humanitarian appeals during 2003-2009. We also provided recent funding directly to the BBC World Service Trust, to strengthen independent television and radio broadcasting in southern Iraq; and to the International Legal Assistance Consortium (ILAC), to support development of the Iraqi justice sector.

Since 2003 DFID has also provided approximately £130 million of funding to UN agencies to support the most vulnerable people displaced inside Iraq and in the region. The UN agencies themselves pass the majority of these funds onto the international NGOs who act as the UN's implementing partners.

Finally, DFID has agreed Partnership Programme Arrangements to provide core funding to a number of major international NGOs. Of those, Oxfam, Islamic Relief and CAFOD all have programmes in Iraq.

The following table shows our direct disbursements to NGOs in Iraq during the last five financial years:

£ million

	2004-05	*2005-06*	*2006-07*	*2007-08*	*2008-09*
Civil Society Fund (CSF)	2.2	1.7	1.05	0.02	0

Overseas Aid: Family Planning

Chris McCafferty: To ask the Secretary of State for International Development what steps he is taking to ensure his Department's policies meet internationally agreed development goals in relation to provision of services relating to family planning, reproductive health and meeting the needs of young people; and if he will allocate 10 per cent. of overseas development assistance to population assistance. [270272]

Mr. Ivan Lewis: The Department for International Development (DFID) accepts that there is a large, well documented, unmet need for family planning and is working to address this. We provide significant resources to improve access to sexual and reproductive health information, services and supplies (e.g. contraceptives). DFID supports the core work of the International Planned Parenthood Federation (IPPF) with £8.5 million per annum and is providing £100 million to the United Nations Population Fund (UNFPA) over the five-year period to 2013 to increase access to reproductive health commodities. Our bilateral programme supports contraceptive supply directly in several developing countries.

The UK Government are also committed to spending £6 billion on strengthening health systems and services over the seven years to 2015. Strong health education programmes, including targeted youth services, sexual and reproductive health and maternal health programmes are key elements of a well functioning health system.

DFID does not plan to adopt the target of allocating 10 per cent. of overseas development assistance to population assistance. DFID's country-led development approach is to support recipient governments to spend development assistance on the priorities they set themselves for helping their people out of poverty. DFID is committed to working to the Paris Principles concerning donor harmonisation and as part of this strongly supported the outcome of the recent the Accra High Level Forum on Aid Effectiveness to drive partner country ownership and leadership and for donors to support this.

Poverty: Conferences

Mr. Moore: To ask the Secretary of State for International Development what expenditure his Department incurred on *(a)* catering, *(b)* speaker's fees, *(c)* venue fees, *(d)* staffing and *(e)* in total in relation to his Department's Conference on Eliminating World Poverty held in London; and if he will make a statement. [268013]

Mr. Douglas Alexander: I refer the hon. Member to the answers given on 18 March 2009, *Official Report*; column 1253W to the hon. Member for Ilford, North (Mr. Scott).

Yemen: Overseas Aid

Keith Vaz: To ask the Secretary of State for International Development how much his Department has spent on development projects in Yemen in each of the last five years. [271382]

Mr. Michael Foster: Details of the Department for International Development's (DFID) bilateral aid to Yemen over the last five financial years is outlined in the following table:

DFID bilateral expenditure in Yemen, 2003-04 to 2007-08

	DFID bilateral expenditure (£000)
2004-05	5,549
2005-06	11,616
2006-07	8,310
2007-08	12,069
2008-09	[1]19,228

[1] Awaiting final reconciliation of year end accounts

Keith Vaz: To ask the Secretary of State for International Development which organisations are involved in the delivery of his Department's project in Yemen. [271383]

Mr. Michael Foster: The following organisations are involved in the implementation of the Department for International Development's programme in Yemen for 2008-09:

Social Fund for Development (SFD)

SFD is a Yemeni organisation which provides support directly to communities to improve education, health, roads, and water supplies. This includes micro-finance services and training for local development partners (government, NGOs, communities, and contractors).

World Bank

DFID is working with the World Bank to increase access to quality basic education, particularly for girls.

KFW Development Bank

KFW Development Bank acts on behalf of the German Federal Ministry for Economic Cooperation and Development (BMZ). DFID is working with KFW through the girls access project (SEDGAP) to improve gender equity, quality and efficiency of general secondary education.

International Finance Corporation (IFC)

IFC are carrying out a range of activities to improve the enabling environment for businesses and investment.

World Food Programme(United Nations)

DFID is supporting the Emergency Food Aid relief programme in the Sa'ada Governorate.

Islamic Development Bank (IDB)

IDB aim to improve water and sanitation in Al-Howta City, Lahej Governorate.

GRM Consulting

GRM Consulting are improving the provision of justice systems and policing services.

Government of the Netherlands

The Dutch and DFID are working through a Delegated Cooperation Arrangement (DCA) on Maternal and Neonatal Health. The programme will reduce maternal and child mortality.

Keith Vaz: To ask the Secretary of State for International Development what discussions his Department has had with the Islamic Development Bank on reducing levels of poverty in Yemen. [271384]

Mr. Michael Foster: In late 2007 the Department for International Development (DFID) began discussions with the Islamic Development Bank (IDB) about opportunities for joint collaboration to reduce poverty in Yemen. This resulted in DFID signing an agreement with the Islamic Development Bank (IDB) in November 2008 to co-fund the Urban Water and Sanitation Project in Al Howta City, Lahej Governorate in Yemen. The Project will bring clean water and improved sanitation to 36,000 people in Al Howta City by 2011. Funding is being provided through an IDB Loan of $10 million and a DFID Grant of £1.2million (2008-09).

DFID signed a Memorandum of Understanding (MoU) with the IDB in January 2009 to develop further partnerships the first of which is the recently agreed Statistical Capacity Building programme (STATCAP) which will also include Yemen as a focus country.

I have regular meetings with the President of the IDB, Dr Ahmad Mohamed Ali Al Madani.

Keith Vaz: To ask the Secretary of State for International Development what criteria his Department uses to assess the effectiveness of UK assistance to Yemen. [271385]

Mr. Michael Foster: The Department for International Development (DFID) uses a range of different criteria to assess the effectiveness of UK assistance to Yemen.

All projects, whether implemented directly by DFID or through a partner organisation such as the World Bank or UN, have a monitoring and evaluation framework in place with an agreed set of indicators that are specifically designed for each project. Annual reviews are undertaken for each project. Where projects are jointly funded with other donors joint evaluations are undertaken.

DFID's evaluation department is also currently undertaking an evaluation of DFID's development assistance to Yemen. The evaluation will follow the OECD-DAC evaluation criteria and assess the relevance, effectiveness, efficiency, impact and sustainability of the DFID programme in Yemen. The 2008 OECD-DAC baseline survey shows that DFID has either met or is on track to meet all the 2010 targets contained in the Paris Declaration on Aid Effectiveness.

The effectiveness of UK assistance to Yemen is also assessed against the three shared commitments (poverty reduction, human rights and public finance management) between the UK and the Government of Yemen and set out in the 10 year Development Partnership Arrangement (DPA). In March 2009 there was an annual review of both GoY commitments and DFID commitments.

Keith Vaz: To ask the Secretary of State for International Development what assessment he has made of progress towards the achievement of the Millennium Development Goals in Yemen. [271386]

Mr. Michael Foster: Progress in Yemen against selected indicators for each of the Millennium Development Goals was published in the Department for International Development's (DFID) 2008 Autumn Performance Report in December. This is available in the Library of the House or on-line at

www.dfid.gov.uk.

A more detailed assessment will be published in DFID's 2009 Annual Report in July.

CULTURE, MEDIA AND SPORT

Arts: Finance

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport how much funding *(a)* his Department, *(b)* Sport England, *(c)* the Museums, Libraries and Archives Council and *(d)* the Arts Councils is providing to each of the regional cultural observatories in 2009-10. [271228]

Barbara Follett: Prior to April 2009, collaborative research activity across culture and sport was centred on Regional Cultural Observatories (RCOs) and research capacities led by the Regional Cultural Consortiums (RCCs). As a result of the recent DCMS Review of Regional Working, the RCCs closed on 31 March 2009. The Arts Council, in partnership with English Heritage, the Museums, Libraries and Archives Council and Sport England has commissioned BMG Research to conduct an options appraisal to consider how regional culture and sport research needs can best be met now that the RCO hosts have ceased to operate. This project is expected to report in June 2009. DCMS funding of RCOs ended with the closing of the RCCs on 31 March 2009. In the meantime, some of the functions and services that were previously provided by RCOs are continuing in some regions. In particular, in the North West a consortium of higher education institutions, led by the University of Liverpool, has become the new host for the North West Cultural Observatory and the Arts Council is contributing £10,000 to support the transition to the new arrangements in 2009-10.

Commonwealth Games 2014: Finance

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport whether *(a)* he and *(b)* officials in his Department have had any recent discussions with (i) the Secretary of State for Scotland and (ii) Scottish Executive Ministers on National Lottery funding for the Glasgow 2014 Commonwealth Games. [271826]

Barbara Follett: The Secretary of State for Culture, Media and Sport has had regular discussions with the Secretary of State for Scotland on matters relating to the Commonwealth Games, sport and the National Lottery. He also discussed the legacy for the Commonwealth Games with the Scottish Minister for Public Health and Sport (Shona Robison MSP) on 31 March 2009.

Departmental Assets

Bob Spink: To ask the Secretary of State for Culture, Media and Sport when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269858]

Mr. Sutcliffe: The Department last reviewed its assets and land and property holdings in March 2009.

Departmental Energy

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether the changes recommended by the producers of the display energy certificate for 2-4 Cockspur Street regarding *(a)* run around coils for the air handling units and *(b)* a heat recovery heat pump for the comms room have been implemented. [270851]

Mr. Sutcliffe: The Department is currently carrying out a feasibility study to determine whether it is cost effective to install run around coils for the air handling units and heat recovery heat pump for the comms room.

Departmental Public Expenditure

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport for what reason there was an underspend against his Department's estimated Capital Departmental Expenditure Limit in 2008-09 as referred to in the Budget 2009 Red Book, Table C11. [271820]

Andy Burnham: For 2008-09, the capital expenditure limit of the Department for Culture, Media and Sport includes both voted estimate provision and a departmental unallocated provision.

The main elements of the underspend are: (i) an unspent departmental unallocated provision of £168 million, which was provided for the Olympics in the Spending Review 2007, and (ii) an estimated underspend by the Olympic Delivery Authority (ODA) in the financial year 2008-09, compared to their estimate provision.

The ODA's funding is ring-fenced and the intention is that funds unspent in 2008-09 will be made available to meet the spending pressures primarily in 2009-10 and 2010-11.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what contribution he expects each of his Department's *(a)* agencies and *(b)* business areas to make towards value for money savings in 2010-11 as referred to in paragraph C71 of the Budget 2009 Red Book. [271821]

Andy Burnham: The current detail as to how these savings will be delivered is set out in table 6.1 of the Budget 2009.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport under which budgetary headings reductions to his Department's Resource Departmental Expenditure Limit for 2010-11, as referred to in Table C11 of the Budget 2009 Red Book, have been made. [271824]

Andy Burnham: The budgetary headings that have been reduced, and are reflected in Table C11 and Chapter 6 table 6.1 of Budget 2009 are Arts, Heritage, Museums, Galleries and Libraries, Sport, Broadcasting and Film.

Gambling Commission: Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much was spent on staffing costs at the Gambling Commission in 2008-09. [271609]

Mr. Sutcliffe *[holding answer 28 April 2009]:* The Gambling Commission have advised that £9,265,710 was spent on staffing costs in 2008-09. This figure includes all pension and national insurance costs.

Legacy Trust UK: Expenditure

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how much the Legacy Trust UK has spent since its inception. [272055]

Andy Burnham: The Legacy Trust UK (LTUK) was established with a £40 million endowment from the Big Lottery Fund, the Arts Council England and the Department for Culture, Media and Sport to support a wide range of innovative cultural and sporting activities for all, which celebrate the London 2012 Olympic and Paralympic Games and leave a lasting legacy in communities throughout the United Kingdom.

Since its inception LTUK has awarded a total of £30 million in grants. This is split between the 12 Nations and Regions projects (£24 million) and the funding ringfenced for the UK School Games (£6 million).

Licensed Premises

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport in what languages examinations for a personal licence to operate a pub, club or off licence can be taken. [270705]

Mr. Sutcliffe *[holding answer 23 April 2009]:* The Department's criteria for accredited personal licence course providers do not stipulate that examinations must be taken in languages other than English. Course providers are free to make a commercial decision to allow the examination to be taken in other languages if there is a demand for such a service.

Mr. Ellwood: To ask the Secretary of State for Culture, Media and Sport what requirements there are on designated premises supervisors to be present at the licensed establishment for which they are responsible; who takes responsibility when the supervisor is absent; and if he will make a statement. [270706]

Mr. Sutcliffe *[holding answer 23 April 2009]:* Under the Licensing Act 2003 ("the Act"), a premises licence must require that every supply of alcohol must be made or authorised by a person who holds a personal licence. Each premises licence authorising the supply of alcohol must specify one individual holding a personal licence as the designated premises supervisor ("DPS"). A DPS has no other unique statutory responsibilities other than those which apply to personal licence holders or more generally, to all persons retailing alcohol, such as the prohibitions on sales to people under 18 years or to people who are drunk. Any number of personal licence holders may be employed at the premises and the purpose of specifying one personal licence holder as the DPS is so that the police and other authorised persons under the Act have a single point of contact should some action need to be taken at the premises.

The Act itself does not require that the designated premises supervisor (DPS) should be present on licensed premises at all times when alcohol is sold. Indeed, given that the premises could be authorised to retail alcohol for up to 24 hours a day for 365 days each year, it would be unreasonable and probably unlawful to expect a single employee to be present at all times. Compliance with licensing law remains the responsibility of the premises licence holder (which may be a business, an organisation or an individual) at all times and cannot be delegated. Where necessary for the promotion of one or more of the four licensing objectives, a condition can be attached to a premises licence requiring the presence at all times of a personal licence holder.

Sports

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport (1) what baseline has been adopted against which to measure Sport England's progress towards the target of two million people regularly participating in sport by 2012; [269418]

(2) what baseline has been adopted against which to measure the Department's progress towards the target of two million people regularly participating in sport by 2012. [269419]

Mr. Sutcliffe: The Government's 2012 Legacy Action Plan (LAP), published in June 2008, sets a cross-Government target to get two million more adults active through sport and physical activity by 2012. DCMS and Sport England lead on getting one million more people doing more sport. A range of Government Departments will deliver programmes that will increase wider physical activity. Many of these programmes are outlined in the Department of Health's new Physical Activity Plan 'Be Active, Be Healthy' published on 11 February 2009.

Baselines for the two million and sports targets will be established using the 2007-08 Active People Survey. The baseline for Sport England's one million sports target is 6.8 million, whereas the baseline for the wider two million target will be calculated to take account of the additional data collected on dance and gardening from January 2009 onwards.

A newly established Physical Activity Programme Board, chaired jointly by the Department of Health and the Department for Culture, Media and Sport, will oversee the delivery of the programmes against the LAP target.

Sports: Training

Mr. Hunt: To ask the Secretary of State for Culture, Media and Sport how many voluntary community sports coaches have been appointed since the scheme's inception. [272081]

Mr. Sutcliffe: Sport England has advised that there are no volunteer community sports coaches in the Community Sports Coach (CSC) Scheme. The CSC sports coaches were paid employees, therefore any volunteer coaches would not have been part of the Scheme.

ENERGY AND CLIMATE CHANGE

Coal Fired Power Stations

Greg Clark: To ask the Secretary of State for Energy and Climate Change pursuant to the answer to the hon. Member for Wealdon of 11 March 2009, *Official Report*, column 525W, on Kingsnorth power station, when he plans to issue his consultation on a new framework for coal-fired power stations. [269203]

Mr. Mike O'Brien: The timetable for publication of a planned new consultation on a new framework for coal fired power stations is currently under consideration.

Greenhouse Gas Emissions

Jo Swinson: To ask the Secretary of State for Energy and Climate Change pursuant to the oral answer of 23 April 2009, *Official Report*, column 357, what percentage of GDP the Government are allocating to measures to reduce greenhouse gas emissions between 2009 and 2020. [271857]

Joan Ruddock: The recently published impact assessment used the HMRC's macroeconomic model to estimate that the cost of meeting our EU and UK greenhouse gas (GHG) targets would be 0.35 per cent. of GDP in 2020, in the absence of an international deal on climate change. This is in line with the Committee on Climate Change's estimate that the cost of meeting our carbon budgets is less than 1 per cent. of GDP in 2020.

However the cost will come from a combination of private and Government expenditure, depending on the specific policies put in place to deliver the greenhouse gas reductions in each sector of the economy.

Members: Correspondence

Mr. Burns: To ask the Secretary of State for Energy and Climate Change when a reply will be sent to the hon. Member for West Chelmsford's letters of 18 and 22 September 2008 transferred from the Department for Business, Enterprise and Regulatory Reform (BERR Reference: 96790/96957) concerning Mr A Hall and Mrs Patricia Yelf Gustar, both of Chelmsford; and what the reasons are for the time taken to reply. [248582]

Mr. Mike O'Brien: I refer the hon. Member to the answer I gave to his parliamentary question number 272000 today.

Parliamentary Questions: Government Responses

Mr. Burns: To ask the Secretary of State for Energy and Climate Change when he plans to reply to Question 248582, on replying to letters, tabled on 13 January 2009; and what the reasons are for the time taken to reply. [272000]

Mr. Mike O'Brien: I apologise that the hon. Member did not receive an answer to his question tabled on 13 January 2009 concerning replies to letters of 18 and 22 September 2008 on behalf of Mrs. P Y Gulstar and Mr. A Hall. I replied to these letters on 13 November and 31 October 2008 respectively and officials have resent copies of my replies.

Warm Front Scheme

Bob Spink: To ask the Secretary of State for Energy and Climate Change what steps were taken in response to the recommendations of the White Young Green Report of July 2007 on the Warm Front Scheme; and if he will make a statement. [263604]

Joan Ruddock: The report made six main recommendations which are listed in the following table, along with the section of the report in which they appear and action taken.

Recommendation	*Action*
3.2 - Technical Survey 'eaga required to initiate technical verification checks on installer's quotations for boiler replacement and repairs...'	5% of all boiler replacement quotes are now independently assessed to ensure no over specification occurs.
3.3 - Balanced Scorecard 'Some of the data used to compile the balanced scorecard is incoming information from other eaga departments and is taken at face value and is not always subject to validation prior to inputting on to the scorecard. It is recommended that this process is reviewed...'	DECC has asked White Young Green to further review the current balance scorecard reporting and to suggest any improvements that could add value.
3.4-Inspections 'eaga to provide data to inspectors on materials supplied and work on the Scheme undertaken at properties to be inspected'	Material checks are now carried out on all gas central heating jobs.
3.5 - Customer response team 'The escalation procedure requires further review to ensure all complaints are captured... a review of complaints closure is required'	Eaga's Customer Management Department log all complaints in line with set procedures and an agreed standard definition of complaint. Eaga's escalation process has been streamlined to ensure the highest standards of service recovery are extended to all customers. Stronger relationships with key stakeholders have been developed and continue to be promoted.
3.5 - Customer Response Team (a) 'The issue of third party complaints requires review'	From January 1 2009, eaga's Customer Management Department has captured management information on the number of complaints raised directly with their subcontractors each month. This allows eaga and the Department to have full visibility of the overall levels of satisfaction.
3.5 - Customer Response Team (b) 'a review of closure of complaints is required'	Eaga's Head of Customer Management reviews each closed case on a monthly basis to ensure consistency in closure and drive best practice across the department.

Warm Front Scheme: Contracts

John Mann: To ask the Secretary of State for Energy and Climate Change what the monetary value has been of Warm Front contracts with HES Ltd of Scunthorpe in the last eight years; and how many boilers have been installed under those contracts in each region of the UK. [266003]

Joan Ruddock *[holding answer 24 March 2009]*: Heating Efficiency Systems Ltd. started work under Warm Front in 2002 and therefore these data are for the years 2002 to 2009. The number of boilers installed by Heating Efficiency Systems Ltd. has been broken down regionally. The differentiation in volume of work by region is based on the fact that contractors bid to carry out work on a regional basis.

	Number of boilers installed
East	7,537
North	564
South	10,163
West	1,837
Total	20,101

The monetary value of the Warm Front contract with Heating Efficiency Systems was £34,406,395.88 for August 2002 to March 2009.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Dogs: Hire Services

Dr. Murrison: To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward legislative proposals to restrict the operation of dog rental companies in England; and if he will make a statement. [272372]

Jane Kennedy: The Government have no plans to bring forward legislative proposals to restrict the operation of dog rental companies.

Farms

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* starter, *(b)* progression and *(c)* large farms there are on each county council farm estate in England; and which farms are held as retirement or lifetime tenancies under the Agricultural Holdings Act 1986. [271748]

Jane Kennedy: The Annual Report to Parliament on Smallholdings in England provides an analysis of each local authority's smallholdings by size and the details of this are set out in the following table. DEFRA does not hold information on whether farms are held as retirement or lifetime tenancies under the Agricultural Holdings Act 1986.

The latest published Annual Report is the 57th Report for the period 1 April 2006 to 31 March 2007 and is available in the Library of the House and can also be seen on DEFRA's website.

Analysis of smallholdings by size at 31 March 2007

	Number of holdings

Natural Gas: Canvey Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Environment Agency is taking to investigate the circumstances of the spillage at Calor Gas's Canvey Island site on 25 October 2008. [266774]

Jane Kennedy: The Environment Agency is not aware of a separate incident that occurred at the Calor Gas site at Canvey Island on 25 October.

However, an incident on 27 October 2008 involved the spillage of liquid petroleum gas following the failure of pipework. The Environment Agency and the Health and Safety Executive (HSE) are the joint competent authorities for the site. The Environment Agency and the HSE agreed that the HSE would lead the investigation with assistance from the Environment Agency if required.

As a result of the HSE led investigation, the Environment Agency has not entered into discussions with the company concerning the specific circumstances surrounding the spillage. However, the Environment Agency continues to undertake its normal regulatory activities at the site.

Recycling: Schools

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what financial support his Department offers *(a)* local authorities and *(b)* schools to assist in the setting up of recycling schemes on school sites; [271657]

(2) what financial support his Department provides to schools to enable them to set up recycling facilities. [271658]

Jane Kennedy: There is no direct funding from DEFRA to local authorities to set up recycling schemes or facilities in schools, as these would be funded from the local authorities' overall waste budget.

Water: Meters

Frank Dobson: To ask the Secretary of State for Environment, Food and Rural Affairs how many domestic properties in England with a water supply *(a)* have and *(b)* do not have individual water meters. [271744]

Huw Irranca-Davies: Ofwat is the economic regulator of the water and sewerage industry in England and Wales.

The latest metered and unmetered figures (2007-08) for domestic properties are:

Metered—approx 6,779,369;

Unmetered—approx 13,764,754.

These figures are for meters that are billed and do not include figures for Welsh Water or Dee Valley Water as the majority of their customers are based in Wales. However, because there is some overlap of water companies' supply areas between England and Wales it has not been possible to separate out all the meters that may be fitted in Wales.

HOME DEPARTMENT

Queen Elizabeth II Conference Centre

Mr. Hurd: To ask the Secretary of State for the Home Department with reference to the answer of 4 March 2008, *Official Report*, column 2479W, on the Queen Elizabeth II Conference Centre: Government Departments, how much it cost her Department to hire the Queen Elizabeth II Conference Centre for its leadership away day; and for what reasons the event was not held in departmental buildings. [249149]

Mr. Woolas: The Government's London estate has limited conference facilities and so from time to time the Home Office and other Departments are required to hire external venues for events.

We are not able to reveal the cost of the booking as this is a commercially sensitive issue between the Home Office and the QEII Centre.

The QEII Centre is owned by the Crown (Department for Communities and Local Government).

HOUSE OF COMMONS COMMISSION

14 Tothill Street

Mrs. Spelman: To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 9 March 2009, *Official Report*, column 26W, on 14 Tothill Street, what the length of the lease on 14 Tothill Street is; and what the annual rent will be when it is fully operational. [271163]

Nick Harvey: The lease is for 16 years from October 2007 with a break after eight years. The House of Commons share of the annual rent is £2.1 million plus VAT.

JUSTICE

Court Funds Office

Mr. Bellingham: To ask the Secretary of State for Justice how much is held in cash deposits on behalf of Court of Protection clients by the Court Funds Office. [271507]

Bridget Prentice: The Court Funds Office holds approximately £3 billion of funds on behalf of clients of the Court of Protection (correct as of 1 April 2009).

Mr. Bellingham: To ask the Secretary of State for Justice how much interest the Court Funds Office paid at the *(a)* standard and *(b)* special interest rate in the last year for which information is available. [271508]

Bridget Prentice: The Court Funds Office (CFO) holds approximately £4.6 billion of funds on the basic and special accounts. Interest is paid to CFO accounts bi-annually to accounts earning the special rate of interest in May and November and to accounts earning the basic rate of interest in March and September.

Until 1 February 2009, interest was paid at a rate of 6 per cent. on the special account and 4 per cent. on the basic account. On 1 February 2009, interest rates changed to 3 per cent. and 2 per cent. respectively.

For the last full year in which accounts are available (2007-08) the amount of interest paid to CFO special and basic account clients was £260,033,000.

Mr. Bellingham: To ask the Secretary of State for Justice what the average size is of a Court of Protection client's deposit with the Court Funds Office. [271509]

Bridget Prentice: The Court Funds Office holds approximately £3 billion of funds on behalf of approximately 18,000 Court of Protection clients, which equates to an average of £169,000 per account.

Mr. Bellingham: To ask the Secretary of State for Justice what assessment he has made of the effect on clients of the reduction in the special interest rate paid by the Court Funds Office. [271510]

Bridget Prentice: As part of the administration of funds in court the Lord Chancellor regularly reviews the interest rates paid on client accounts. In reviewing and setting the rate paid, the Lord Chancellor takes into account a number of factors including the amount of interest received on funds against the amount of interest paid to clients, the changing level and mix of funds held by CFO and administration costs.

Income generated on the client funds is influenced by the Bank of England rate. In light of recent movements in the Bank of England rate it has been necessary to reduce the level of interest paid on the special and basic accounts. Interest rates were reduced on 1 February from 6 per cent. to 3 per cent. on the special account and from 4 per cent. to 2 per cent. on the basic account. It has become necessary to reduce CFO's rates further and from 1 June the special account rate will be 1.5 per cent. and the basic account 1 per cent.

There are currently around 119,000 deposits in the special account: 101,000 held on behalf of young people with damages awards and 18,000 belonging to Court of Protection clients. The financial impact of the recent reduction in the special account rate on children and Court of Protection clients varies, as the latter tend to hold larger sums of money in the special account.

CFO rates compare favourably to most rates offered on instant-access accounts by banks and building societies. For example, for a deposit of £25,000 placed in a bank or building society savings account, the average rate of interest offered by some 464 different types of account is 0.71 per cent. gross AER (information taken from the FSA's comparative tables (www.fsa.gov.uk/tables) as at 17 April 2009 Financial Services Authority.)

It is important to stress that the purpose of the CFO and its special account is not to compensate or make financial provision for a client's situation—that is the role of the court or the welfare system as appropriate. The role of the special account is to provide a safe place for client's funds and to provide a reasonable rate of return. All special account clients continue to benefit from safeguards offered by this account.

The majority of deputies representing Court of Protection clients should have the ability to withdraw funds from the CFO and place them elsewhere if they believe this is in the best interests of the person they represent. Litigation friends representing children have the ability to apply to court for permission to remove funds.

The Lord Chancellor will be keeping the rates under review and should he consider it appropriate, further changes to the special account rate may be necessary in light of the recent and future Bank of England rate changes.

The CFO will continue to monitor the impact this has on clients.

Debt Collection

Mr. Denis Murphy: To ask the Secretary of State for Justice how many licensed bailiffs there are in each parliamentary constituency. [271815]

Bridget Prentice: HM Courts Service does not collect numbers of bailiffs in each parliamentary constituency. The following table sets out the numbers of certificated bailiffs who hold currently valid certificates which have been granted by county courts in England and Wales. My officials regularly update these data on the basis of information provided by the county courts. These data are a snapshot of those returns received at any one point in time and those presented as follows are the latest available figures.

County court	*Bailiffs*
Aldershot and Farnham	1
Altrincham	13
Bedford	4
Birkenhead	23
Birmingham	27
Bournemouth	19

Departmental Operating Costs

Mrs. May: To ask the Secretary of State for Justice pursuant to the written ministerial statement by the Secretary of State for Work and Pensions of 12 February 2009, *Official Report*, columns 116-19WS, on departmental expenditure limits, what increased operating costs relating to the introduction of the Employment and Support Allowance were incurred by his Department. [271700]

Bridget Prentice: The Tribunals Service received £695,000 in the Spring Supplementary Estimate to process 3,665 cases forecast for 2008-09. A further £760,000 was also paid by DWP to the Legal Services Commission for people who might require legal aid in appealing against ESA decisions. Together, the Spring Supplementary payments total £1,455,000.

Electoral Register: Commonwealth

Mr. Soames: To ask the Secretary of State for Justice pursuant to the answer of 18 March 2009, *Official Report*, columns 1214-5W, on electoral register: Commonwealth, whether a person from a Commonwealth country resident in the UK on a student visa issued under tier 4 of the points-based system is eligible to vote in a general election. [270716]

Mr. Wills: A person is entitled to be registered as a parliamentary elector if he or she is resident in the relevant constituency, is of voting age, is not subject to a legal incapacity to vote (age apart), and is either a British citizens, a qualifying Commonwealth citizen or a citizen of the Republic of Ireland.

As explained in my answer on 18 March 2009, *Official Report*, columns 1214-5W, under the Representation of the People Act 1983, "qualifying Commonwealth citizen" is defined as a Commonwealth citizen who either does not require leave to enter or remain under the Immigration Act 1971 or who does require leave, but for the time being has any description of such leave. This means that if a person who requires leave to enter or remain has been granted leave to enter or remain then he or she will be deemed to be a qualifying Commonwealth citizen.

Commonwealth citizens who have leave to enter or remain will have been granted this leave under any of the current or previous categories of the immigration rules, including as the spouse of a British Citizen, as a highly skilled migrant, work permit holder, student, under any of the new points based system categories or as dependants of any "lead" migrants granted leave under these categories.

This will include a citizen from a Commonwealth country who has obtained leave to enter or remain under the previous immigration rules relating to students, or since 31 March 2009, leave to enter or remain under tier 4 of the points based-system. Accordingly, provided they meet the other criteria for registration set out above, such a person would be entitled to be included in the register of parliamentary electors.

Housing: Sales

Grant Shapps: To ask the Secretary of State for Justice how many domestic properties were sold for *(a)* under £175,000 and *(b)* £175,000 and over in each of the last three years. [271536]

Mr. Wills: Figures of residential properties sold for *(a)* under £175,000 and *(b)* £175,000 and over in each of the last three years are given in the following table:

	Total sales under £175,000	*Total sales over £175,000*
2006	704,929	578,484
2007	618,657	612,417
2008	327,198	294,530

National Probation Service for England and Wales: Redundancy

Greg Mulholland: To ask the Secretary of State for Justice how many job losses there have been in the Probation Service in *(a)* Leeds, *(b)* West Yorkshire and *(c)* England and Wales in the last 12 months. [262524]

Mr. Hanson: Information on the number of job losses in the probation service over the past 12 months is not available centrally as the 42 probation areas/trusts are responsible for their own staffing levels and this information has not previously been collected from them.

Making savings always involves difficult choices, but protecting the public remains the priority for the probation service and this will not be compromised. I have agreed a prudent programme of savings with the National Offender Management Service (NOMS) that will maximise central savings and protect the most valuable front-line work.

From 1 April 2009, regional Directors of Offender Management have been in place to provide the necessary strategic oversight of offender management services at a regional level. They are accountable for making sure all delivery agencies, probation, public and private sector prisons and the voluntary sector contribute effectively to offender management. An important part of this role is to ensure that efficiency targets are achieved without undermining service delivery, and they will be expected to monitor any plans for staffing reductions closely.

Probation has received significant increases in resources since this Government came to power in 1997. Total probation staffing (expressed as full-time equivalents) was up from 13,968 in 1997 to 20,894 by 2007, a 50 per cent. increase over the period.

Prison Service: Resignations

Paul Holmes: To ask the Secretary of State for Justice how many prison service staff resigned in each year since 2003. [271672]

Mr. Hanson: Information on the number of prison service staff resignations and staff in post, in each year since 2003 is provided in the table. The information relates to both public and private sector establishments and the Headquarters of the National Offender Management Service. The resignation rates are lower than the public sector average of 9.4 per cent. and private sector services average of 13.4 per cent[1].

Resignations from the Prison Service 2003-08

	Resignations	Staff in post	Percentage resigning
2003[1]	2,275	45,782	5.0
2004	2,857	50,194	5.7
2005	3,004	52,032	5.8
2006	2,989	52,988	5.6
2007	3,223	54,976	5.9
2008	2,870	57,452	5.0

[1] Information for 2003 relates to the public sector only.

Victim Support Schemes

Mrs. May: To ask the Secretary of State for Justice when he plans to announce arrangements for the Victims' Fund for 2009-10. [271719]

Maria Eagle: £1.25 million has been allocated to the Victims Fund for Sexual Violence for 2009-10. We have written to organisations that were successful in securing a grant in the 2007-08 and 2008-09 application process informing them that they are eligible to have their grants renewed at the same level as in the previous two years. The Home Office administered funds for victims of homicide and hate crime will be announced in the next few weeks.

LEADER OF THE HOUSE

Members: Allowances

John Mann: To ask the Leader of the House what sums have been budgeted for the payment of expenses of hon. Members from the Members' Vote in each of the next six financial years. [271778]

Chris Bryant: The House of Commons: Members Estimate is laid before Parliament each year. These financial figures are based on the level of pay and allowances agreed by the House adjusted to reflect the historical level of claims received. The estimate for 2009-10 includes £109.3 million in respect of Members' allowances. This includes £7.4 million on Members' travel. The annual nature of the estimate means that no budgeted figures beyond 2009-10 have been agreed.

NORTHERN IRELAND

Abortion

Mr. Amess: To ask the Secretary of State for Northern Ireland with reference to the Prime Minister's response of 22 April 2009 to the e-petition submitted by Miss A Birt and others on the extension to Northern Ireland of the Abortion Act 1967, when he expects the Northern Ireland Assembly to assume responsibility for criminal law in Northern Ireland, including the law on abortion; what recent representations he has received on this issue; what recent discussions he has had with the Prime Minister on the issue; and if he will make a statement. [271441]

Paul Goggins: The announcement by the Northern Ireland First and Deputy First Ministers on 18 November 2008 set out a process, the completion of which would see policing and justice matters devolved to the Northern Ireland Assembly. The process is continuing to move forward. The Northern Ireland Act 2009 provided the necessary legislative framework for the Assembly to move to the next stage of that process. It will be for the Assembly to decide when to request the transfer of powers but the Government remain committed to doing whatever it can to facilitate progress towards devolution.

I continue to receive correspondence from people in Northern Ireland and elsewhere in the UK both supporting and opposing any changes to the law on abortion in Northern Ireland. The Government's position remains that these are matters best dealt with by the Northern Ireland Assembly when it assumes responsibility for the criminal law.

OLYMPICS

Olympic Games 2012: Contracts

Pete Wishart: To ask the Minister for the Olympics how many *(a)* applications for contracts have been received and *(b)* contracts have been awarded to Scottish-based firms by the Olympic Delivery Authority. [270481]

Tessa Jowell: The Olympic Delivery Authority (ODA) does not keep a record of the number of applications it receives in relation to ODA procurement opportunities.

To date there are 13 businesses registered in Scotland that have won work directly supplying the ODA. These figures do not include those contracts awarded to sub-contractors based in Scotland. The ODA is currently undertaking research into businesses winning sub-contracts in its supply chains, with initial results due in the coming weeks.

Olympic Games 2012: Cycling

Dr. Evan Harris: To ask the Minister for the Olympics what her policy is on the balance between the number of cycling events open to *(a)* men and *(b)* women at the London 2012 Olympics. [269294]

Tessa Jowell: My hope is gender equality is established across the Olympic and Paralympic sports programme, including all cycling events. However, the decision rests with the International Olympic Committee and the International Paralympic Committee in conjunction with the respective international federation, but I have asked UK Sport to work with the British Olympic Association and national governing bodies to identify and support those sports where gender imbalance exists and where changes could be achieved by London 2012.

SCOTLAND

Departmental Assets

Bob Spink: To ask the Secretary of State for Scotland when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269852]

Ann McKechin: The Scotland Office regularly reviews its assets and are unlikely to be disposing of any assets in the next year.

Departmental Billing

John Mason: To ask the Secretary of State for Scotland what percentage of its suppliers his Department has paid within 10 days of receipt of invoice in each of the last five months. [272252]

Ann McKechin: The percentage of suppliers paid within the 10 day target by the Scotland Office is as follows:

Month	*Percentage of suppliers paid in 10 days*
November	89.4
December	96.8
January	100
February	99.5
March	99.7

Whisky

Angus Robertson: To ask the Secretary of State for Scotland what discussions he had with the Chancellor of the Exchequer on the Scottish whisky industry in advance of the recent Budget Statement. [271847]

Mr. Jim Murphy: I have regular discussions with my right hon. Friend, the Chancellor on a range of issues.

TRANSPORT

Driving: Licensing

Grant Shapps: To ask the Secretary of State for Transport what *(a)* EU, *(b)* UK, *(c)* departmental and *(d)* Driver and Vehicle Licensing Agency (DVLA) public procurement requirements applied to the recent extension of the DVLA photo-licence contract with the Post Office. [271535]

Jim Fitzpatrick: The Department for Transport and its agencies are required to adhere to EU procurement regulations and these are consolidated into its own and departmental procurement operating instruction and guidance.

The Driver and Vehicle Licensing Agency (DVLA) holds a major contract with Post Office Ltd. (POL) that covers a number of services, including that for its 'Check and Send' service for collection and checking of driving licence applications at Post Office counters. This service has been in place for nearly 10 years. Based on legal advice DVLA formed the view that an extension to include the collection of a photograph as part of the same transaction could be undertaken within the flexibility of the existing contract terms as a variation.

Members: Correspondence

Mr. Baron: To ask the Secretary of State for Transport when he will respond to the hon. Member for Billericay's letter of 9 February 2009, on his constituent Mr G. Bores. [272001]

Mr. Hoon: The Department for Transport has no record of receiving a letter dated 9 February 2009 from the hon. Member for Billericay.

Rescue Services: Scotland

Mr. Carmichael: To ask the Secretary of State for Transport on how many occasions the HM Coastguard Search and Rescue helicopter based at *(a)* Sumburgh and *(b)* Stornoway has been called on to undertake flights at the request of the Scottish Ambulance Service in each of the last 10 years. [270904]

Jim Fitzpatrick: Officials at the Maritime and Coastguard Agency have been asked to compile the requested data. The process involves reconciling a number of different data sources to provide the detailed information requested in a helpful form. This will take approximately one week with officials using the data held on hospital transfers involving the Scottish Ambulance Service. Officials will be in contact should the work to extract the data take longer than originally anticipated.

Transport Innovation Fund

Stephen Hammond: To ask the Secretary of State for Transport (1) what allocations were made from the Transport Innovation Fund budget in financial year 2008-09; and how much was allocated to each project; [272088]

(2) what allocations were made from the Transport Innovation Fund budget for financial year 2009-10; and how much was allocated to each project; [272089]

(3) whether any unallocated monies from the Transport Innovation Fund budget for financial year 2008-09 will be brought forward to the Fund's budget for financial year 2009-10. [272090]

Paul Clark: Two programmes related to local congestion and productivity are currently supported by the Transport Innovation Fund.

Under the congestion TIF programme, Ministers have announced that up to £200 million a year is available for local authority schemes to tackle congestion that include an element of demand management. Programme Entry was awarded to the Greater Manchester TIF proposals in June 2008 which included an allocation of £20 million for development costs in 2008-09. In addition pump priming funds were allocated to areas looking at the nature of their congestion problem, the role of demand management in addressing it and whether to make a bid for TIF funding.

Under the productivity TIF programme, resources have been allocated to measures to improve the capacity and resilience of the strategic national freight distribution networks, hence supporting international trade and competitiveness, and to measures to make the most of capacity at key pressure points on the strategic networks, thus improving mobility for business and freight users. In addition, the Department for Transport's contributions to the Crossrail project will be supported by the fund.

Unallocated support may be taken into account in deciding future years' allocations. Allocations made under the productivity TIF programme are as follows:

Productivity TIF schemes

				£ million
	2008-09	*2009-10*	*2010-11*	*Total*
Gospel Oak / Barking	18.5	—	—	18.5
Humber Ports	1.0	3.0	2.0	6.0
Peterborough/ Nuneaton	20.0	30.0	30.0	80.0
Southampton/ Birmingham	15.0	27.8	—	42.8
Olive Mount Chord	0.8	0.9	—	1.7
Rail freight schemes	55.3	61.7	32.0	149.0
Birmingham box—gross cost	40.7	76.3	31.6	148.6
A14—gross cost	10.0	66.8	11.9	88.7
HA contribution to schemes	—	-20.6	-4.9	-25.5
Highways Agency traffic management schemes	50.7	122.5	38.6	211.8
Total PTIF	106.0	184.2	70.6	360.8

WOMEN AND EQUALITY

Domestic Violence: Victim Support Schemes

Mrs. Spelman: To ask the Minister for Women and Equality from which local authorities the Equality and Human Rights Commission (EHRC) is requesting an explanation for the level of support provided for victims of domestic abuse; and what criteria were used by the EHRC in deciding on its selection of local authorities from which to make such a request. [270438]

Maria Eagle: The Commission sent letters in March 2009 requesting further information from 94 local authorities who, according to research conducted, do not appear to have any specialised domestic abuse support services in their local authority area.

The letters sought to clarify the current provision of support services in these areas, together with any future planned provision, and to inquire how authorities have taken into account the Gender Equality Duty when determining the extent of provision of services in their area.

The local authorities are:

Adur District Council
Arun District Council

CHILDREN, SCHOOLS AND FAMILIES

Academies

Mr. Hollobone: To ask the Secretary of State for Children, Schools and Families what recent assessment his Department has made of progress on the academy programme in *(a)* Kettering and *(b)* England. [271076]

Jim Knight: The plans for two new Academies in Kettering, one of which will replace Henry Gotch Primary School and Ise Community College and another which will replace Avondale Infants School, Avondale Junior School and Montagu Foundation School, are progressing well and we expect them to open in September 2009. The Academy programme in England continues to expand towards our commitment of a total of 400.

Academies are leading the way in reducing low attainment with the 2008 GCSE results showing that performance continues to improve faster than the national average. The latest 2008 independent evaluation of the Academies programme by PricewaterhouseCoopers said that

> 'Ofsted reinforces our conclusion that, overall, sponsorship contributes significantly to school improvement'

and that

> 'the quality of leadership is generally very good'.

Building Schools for the Future Programme

Mr. Olner: To ask the Secretary of State for Children, Schools and Families whether local authorities are required to submit proposals that include an academy as part of the bid process for capital funding under the Building Schools for the Future programme. [271529]

Jim Knight: Authorities do not have to have academies or submit further proposals for academies in order to access Building Schools for the Future (BSF) funding. They must demonstrate how they will use BSF to raise standards in schools. "Strategy for Change" guidance makes clear that local authorities should undertake a proper and objective evaluation of academy options when developing their plans. Where an authority does not propose an academy as replacement for a poorly performing maintained school, it must be demonstrated that an equally strong alternative, innovative strategy is in place for raising standards at the school.

Building Schools for the Future Programme: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families how much the Building Schools for the Future programme has spent in Coventry. [271652]

Jim Knight: £100,000 of capital grant has been paid to Coventry local authority in respect of project support funding for Building Schools for the Future (BSF). The total capital investment for the Coventry BSF programme will be agreed when the project reaches financial close.

Children: Employment

Annette Brooke: To ask the Secretary of State for Children, Schools and Families with reference to the answer of 22 July 2008, *Official Report*, column 1275W, on children: employment, what plans he has to amend regulations relating to the employment of children; and if he will make a statement. [261084]

Beverley Hughes: We do not currently have plans to amend the regulations relating to the employment of children. The Department for Children, Schools and Families has however issued guidance, in December 2008, on the existing law regulating child employment.

Children: Protection

Ms Keeble: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure that children who have been identified as being at risk are adequately housed. [249582]

Beverley Hughes: The Framework for the Assessment of Children in Need and their Families (2000) is used for the assessment of all children in need, including cases where there are concerns that a child may be suffering significant harm. The framework provides a systematic basis for collecting and analysing information to support professional judgments about how to help children and families in the best interests of the child. Practitioners should use the framework to gain an understanding of the impact of wider family and environmental factors including adequate housing on the parents and child.

Judgments taken by practitioners should take careful account of a number of issues on housing, such as: does the accommodation have basic amenities and facilities appropriate to the age and development of the child and other resident members and is the housing accessible and suitable to the needs of disabled family members? They should consider the interior and exterior of the accommodation and immediate surroundings and the provision of basic amenities including water, heating, sanitation, cooking facilities, sleeping arrangements and cleanliness, hygiene and safety and their impact on the child's upbringing.

If the family are social tenants, or on the housing register, the issues practitioners should take into account may contribute to the family being awarded preference in a local authority's allocation scheme. The circumstances in which households need to be given "reasonable preference" include where people:

are homeless;

occupy unsanitary, overcrowded, or unsatisfactory housing conditions;

need to move for medical or welfare reasons, including grounds relating to a disability; or

need to move to avoid hardship

Helen Southworth: To ask the Secretary of State for Children, Schools and Families when he plans to publish the results of the review on the availability of emergency accommodation for children and young people at risk. [271656]

Beverley Hughes: Since the publication of the Young Runaways Action Plan in June last year, the Department has been conducting a review of emergency accommodation provision for young runaways. A review of existing literature has been completed, and we have commissioned The Children's Society to conduct new research about the demand for emergency accommodation, and the most effective ways of providing it. As part of their research, the Children's Society have interviewed local authority officials, police officers, third sector partners and young people themselves. The evidence gathering phase is due to be completed in early May, and I anticipate that my officials will receive a draft of the report in early July. We will publish the findings of the report as soon as possible after that.

Departmental ICT

Jenny Willott: To ask the Secretary of State for Children, Schools and Families how many and what proportion of IT products in each category procured for each division of his Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year for which figures are available; and if he will make a statement. [269628]

Sarah McCarthy-Fry: The information as requested is not held centrally within the Department for Children, Schools and Families (DCSF). To respond accurately and to establish how many and what proportion of IT products in each category procured for each division of the Department were compliant with the Government's Buy Sustainable-Quick Win standard in the latest year would involve an extensive information collection exercise which would exceed the recommended disproportionate cost threshold. However, to be helpful, the following information has been provided.

For all core and commonly purchased IT products the Department informs potential suppliers that they must first provide details of their compliance or otherwise with the Government's Buy Sustainable-Quick Win standard detailed at

http://www.defra.gov.uk/sustainable/government/what/priority/consumption-production/quickWins/

This information is then used when evaluating the suitability of each supplier to meet the Departments requirements.

Departmental Meetings

Mr. Graham Stuart: To ask the Secretary of State for Children, Schools and Families which officials from his Department were present at the meeting of 17 June 2008 between the Minister for Schools and David Gee; who took the minutes of that meeting; and if he will make a statement. [271802]

Jim Knight: *[holding answer 28 April 2009]:* I met with David Gee on 17 June 2008 to discuss National Curriculum testing. Also present at the meeting were the Chief Adviser for School Standards, the assessment team leader, and my Private Secretary, who took a note of the meeting.

Economics: Secondary Education

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families if he will take steps to encourage more teaching of financial matters in secondary schools. [270922]

Sarah McCarthy-Fry: It is crucial that all young people leave school with the skills and confidence to manage their money well. The revised curriculum for secondary schools introduced in September 2008, includes a new dedicated programme of study for "Economic Well Being and Financial Capability" as part of a revised Personal, Social, Health and Economic (PSHE) education. We have also said that, subject to consultation, we will make PSHE, which is currently non-statutory, part of the statutory national curriculum. Elements of financial capability are also delivered through other curriculum subjects. For example, Citizenship education, which is statutory at Key Stage 3 and 4, requires that 14 to 16-year-olds be taught how the economy functions, including the role of business and financial services. We are also introducing functional mathematics to the maths GCSE, which means that from 2010, all pupils who achieve a grade C or above will have mastered the basics.

We are spending £11.5 million over three years to support delivery of financial education in schools. This money has been used to update and publish the curriculum guidance for financial capability in November 2008. It is funding the My Money programme, which delivers high quality training and support for local authorities and teachers so that they have the skills and confidence to teach effectively about personal finance. It also funds provision for Continuing Professional Development (CPD) in financial capability for teachers.

Education Maintenance Allowance

Jon Cruddas: To ask the Secretary of State for Children, Schools and Families (1) what mechanism exists for the reappraisal of eligibility for education maintenance allowance as a result of changes in household income; [271203]

(2) what effect the redundancy of a family member in a household has on a young person's eligibility for education maintenance allowance if the redundancy occurs *(a)* at the start of the academic year and *(b)* later in the academic year; [271213]

(3) what mechanism is in place for the assistance of young people in households where income changes significantly in the course of an academic year as a result of *(a)* bereavement and *(b)* redundancy within the household; [271214]

(4) what recent assessment he has made of the financial needs of young people in households where income is significantly reduced because of redundancy; [271215]

(5) how many representations his Department has received on the reassessment of the eligibility for education maintenance allowance following the redundancy of a family member in the last 12 months. [271223]

Jim Knight: For most young people, eligibility for education maintenance allowance (EMA) is subject to an assessment of their household income based on the financial year prior to the academic year in which they start their course. A successful assessment provides a young person with a guaranteed entitlement of up to three years of EMA on the same rate, plus a guaranteed minimum level of non-repayable student support should they progress into higher education within three years.

If there is a drop in income from one year to the next then a young person may apply to be reassessed for the subsequent academic year. They could be assessed as eligible for EMA where they were not previously, or an increased rate of it. They would receive the EMA guarantee based on the rate awarded following the most recent assessment.

There are a limited number of exceptional circumstances in which a young person may apply to be reassessed for EMA during the academic year. Those circumstances are:

(i) someone whose income was taken into account in determining financial eligibility has died;

(ii) a person whose income was taken into account in determining financial eligibility has experienced a reduction in income due to their own disability, or the disability of any other person for whom he or she has responsibility as primary carer (disability means as defined in the Disability Discrimination Act 1995);

(iii) Since the assessment of income was made, the young person has become estranged from their parents, guardians or someone else whose income was taken into account in determining financial eligibility;

(iv) The young person has become a parent with responsibility for their own child.

The financial needs of young people can be affected by a range of circumstances, including reductions in household income due to redundancy, or reduced working hours. EMA is not designed or intended to meet all of a learner's financial needs or to respond to in year fluctuations to household income. Other mechanisms exist to help with the costs of supporting young people aged 16 to 19 in learning. Recent increases to child benefit will provide additional support for parents regardless of income, and the increase to the child element of the child tax credit, a measure brought forward in the Budget, will provide substantial additional support to families. Tax credits are designed to tailor support to current circumstances and to be responsive to changing needs.

In addition to the support provided to families, discretionary learner support funds are made available via the Learning and Skills Council to colleges and Local Authorities. This funding is provided to enable schools and colleges, using their discretion, to help individual learners facing hardship and financial barriers to learning that are not addressed through other mechanisms. This funding can be used to respond to any hardship needs of learners that may arise through sudden changes in circumstance.

In the last 12 months the Department has responded to 21 pieces of correspondence and one telephone inquiry concerning reassessment for EMA following redundancy in the learner's household. The Learning and Skills Council (LSC) are responsible for the delivery of the scheme and estimate that, between 1 March 2008 and 1 March 2009, approximately 10 per cent. of the correspondence they have received about EMA (including that sent on via the Department) concerned income assessment policy—a proportion of these will have been in regard to in-year reassessment following a redundancy.

Education Maintenance Allowance: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families how many students in post-16 education in Coventry are in receipt of education maintenance allowance. [272077]

Jim Knight: This is a matter for the Learning and Skills Council (LSC) who operate the Education Maintenance Allowance (EMA) for the Department for Children, Schools and Families (DCSF). Geoffrey Russell, the LSC's Acting Chief Executive, will write to the hon. Member for Coventry South with the information requested and a copy of his reply will be placed in the House Libraries.

Education: Finance

Mr. Cox: To ask the Secretary of State for Children, Schools and Families what steps he is taking to ensure that schools and sixth form colleges in Torridge and West Devon constituency will be able to accept the number of pupils foreseen under the original budget allocation for 2009-10; and if he will make a statement. [271123]

Jim Knight: We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next. The funding is split, £251 million in 2009-10 and £404 million in 2010-11, and will fund an additional 54,500 learners each year. This will mean that we have funding for at least 1,550,000 for 2009/10 and 2010/11.

This will mean we can quickly reassure school and college leaders who had previously feared their financial allocations would not fund their growth in the number of young people wanting to continue learning. It will also mean that we can fund a further 20,000 young people who have yet to make their choice of learning place.

The LSC are currently working through the final 2009-10 school sixth form and FE college allocations and will be writing out to them as soon as possible.

Families: Advisory Services

Annette Brooke: To ask the Secretary of State for Children, Schools and Families if he will make an assessment of the *(a)* effectiveness and *(b)* availability of the provision by local authorities of family information services under the Childcare Act 2006. [267275]

Beverley Hughes: The Department for Children, Schools and Families recently published an evaluation of Family Information Services (FIS) in England. The evaluation included a user satisfaction survey, a survey of FIS managers and some case studies. It was commissioned to gauge the progress local authorities were making in implementing their statutory duty, set out in section 12 of the Childcare Act 2006, to provide information to parents about child care and other services to support their children up to age 19. This broader duty came into force in April 2008 and the field work for the evaluation was carried out between June and November 2008.

The results of the evaluation are encouraging with respect to effectiveness and availability.

In terms of effectiveness, the study found that satisfaction rates among users were extremely high:

97 per cent. of those who contacted the service said they were satisfied with the advice they received.

85 per cent. of those who had previously gone to another organisation with similar queries said the advice they received from the FIS was better or as good.

In terms of availability of the provision, the research found that FIS offered a range of contact methods for users:

All offered a telephone helpline (100 per cent.) and email helpline (100 per cent.).

The vast majority offered a website for information (99 per cent.) and access through Children's Centres (95 per cent.).

97 per cent. of managers said their FIS provided outreach services of some kind and 50 per cent. said they had increased outreach to assist in the delivery of the extended information duty. Outreach was mainly conducted through Children's Centres (82 per cent.), events in the community (56 per cent.), health centres (51 per cent.) and schools (48 per cent.).

The evaluation also shows that many local authorities need to do more to ensure they meet the needs of parents. This Department will continue to work with them to do so.

Outdoor Education

Mr. Laws: To ask the Secretary of State for Children, Schools and Families how much time he expects trainee teachers to spend with pupils outside the classroom as part of their training. [271239]

Sarah McCarthy-Fry: The statutory standards for Qualified Teacher Status (QTS) and requirements for Initial Teacher Training do not include such a requirement. QTS standard Q30 requires that trainees should be able to identify opportunities for children and young people to learn in the school grounds and in out-of-school contexts such as museums, theatres, field centres and work settings. The guidance that accompanies the standards and requirements explains that trainees should be able to plan out-of-classroom work that relates to current learning, that is appropriate to the age and ability of learners, and that helps learners to make progress. In order to meet the standard, trainees are not expected to undertake out-of-school visits, or to take sole responsibility for the organisation and leadership of any such visits.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what support is available to newly-qualified teachers to assist in the provision of teaching outside the classroom. [271240]

Sarah McCarthy-Fry: The Department has led the development of "Out and About" guidance to support the delivery of high-quality learning outside the classroom. Alongside this, six CPD modules provide training materials that can be used by, for example, schools, local authorities, and Initial Teacher Training providers. The intention is to help teachers make the most of opportunities for learning outside the classroom and to help them prepare, run, and follow up these activities. The Department also supports the Teaching Outside the Classroom initiative which supports the development of placements for training teachers in settings other than schools. These can be anything from museums and galleries to city farms or environmental centres.

Mr. Laws: To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effects on the academic performance of pupils of educational field trips. [271241]

Sarah McCarthy-Fry: The Department and our Learning Outside the Classroom Manifesto partners have gathered a bank of research evidence, including research conducted by the Department, which demonstrates that all forms of learning outside the classroom contribute to raising achievement, and to the personal development and well-being of children and young people. These, together with powerful arguments making the case for the importance of learning outside the classroom, are available on the website:

www.lotc.org.uk

Primary Education: Construction

Dr. Vis: To ask the Secretary of State for Children, Schools and Families what the average cost of building a new primary school was in the latest period for which figures are available. [271589]

Jim Knight: The Department does not hold data on average expenditure on primary school buildings. Levels of investment are decided locally and authorities may add funding from other sources to the schools capital allocations they receive from government. However, a typical average-size primary school could be expected to cost £3 million to £4 million depending on location and site factors.

Central Government capital support for investment in schools has increased from under £700 million to a planned £7.3 billion by 2010-11.

Schools: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Children, Schools and Families what financial assistance his Department has given to *(a)* primary and *(b)* secondary schools in Coventry in the last 12 months. [271653]

Jim Knight: Total revenue funding for pupils aged 3-19 for Coventry local authority for 2008-09 was £234.4 million. This figure is in cash terms.

A split of funding by primary and secondary schools is not available as the main source of funding by the Department through the Dedicated Schools Grant (DSG). The DSG is a funding distribution mechanism with a single guaranteed unit of funding for each pupil in an LA. The DSG is the per pupil funding from DCSF to an LA but, subject to satisfying the minimum funding guarantee for schools, it is left up to the LA to decide locally how much to fund their individual schools (via their local formula).

Schools: Finance

Michael Gove: To ask the Secretary of State for Children, Schools and Families how much of the dedicated schools grant was reimbursed to local authorities in each of the last three years; how much was reimbursed to local authorities in the case of each local authority in each year; how much was reimbursed for spending *(a)* within the schools budget and *(b)* on other local authority functions in each year; and what percentage of the schools grant this represents in each case. [271779]

Jim Knight: The Dedicated Schools Grant is the core funding for schools, allocated on an annual basis to local authorities using a guaranteed unit of funding per pupil. For 2009-10, the current indicative allocations for DSG amount to £29.8 billion, an average of £4,218 per pupil. The DSG must be used on the Schools Budget, which covers both funding delegated to maintained schools and other provision for pupils such as provision in pupil referral units; for high cost pupils; and early years provision in private, voluntary and independent sector providers.

Schools: Governing Bodies

Mr. Sanders: To ask the Secretary of State for Children, Schools and Families if he will take steps to increase the opportunities for school children to participate in school governance structures. [270921]

Sarah McCarthy-Fry: The Government are committed to ensuring that young people have the opportunity to participate in decisions that affect them in their schools. The vast majority of schools already have School Councils and find them an effective way of engaging with pupils' views. Schools use ways to engage their pupils and they have found a range of benefits in doing so including an improvement in relationships within the school and in the morale and confidence of their pupils. The engagement of young people is vital in shaping education and services to meet their needs. However, it is not for the Government to prescribe how schools should engage their pupils in the decision making process.

We will continue to work with schools to ensure that all pupils' views are heard and valued.

Schools: Recycling

Mr. Kidney: To ask the Secretary of State for Children, Schools and Families (1) what guidance his Department gives school governors on the setting up and running of on-site recycling facilities at schools; [271660]

(2) what proportion of schools provide on-site recycling facilities; [271661]

(3) what assessment he has made of the effectiveness of arrangements for recycling in schools. [271662]

Sarah McCarthy-Fry: The Department published "A Governor's Guide to Sustainable Schools" in June 2007 which is a practical guidance to help governors understand the benefits of a sustainable school. The strategies outlined are not only about auditing current patterns—from energy and water to food and drink—but also how to think creatively to build a sustainable future.

The Department has also published "Top Tips to reduce waste in schools" in May 2007. This document provides schools with ten tips on how to minimise waste and promotes recycling, including advice on working with local authorities and communicating with staff, school stakeholders and pupils.

The Department does not collect information relating to the number of schools which provide on-site recycling facilities or assessments on the arrangements for recycling in schools. The National Framework for Sustainable Schools allows schools to plot their own progress towards becoming a sustainable schools which could mean that schools will not follow the doorways route in the order which is published. We have also produced guidance to help self-evaluate and to plan their progress to becoming a fully sustainable school by 2020.

Schools: Transport

Mike Penning: To ask the Secretary of State for Children, Schools and Families how much was spent on school transport in *(a)* Hemel Hempstead and *(b)* Hertfordshire in the latest period for which figures are available. [271263]

Sarah McCarthy-Fry: Figures are not available for the parliamentary constituency of Hemel Hempstead as data are collected at a local authority level. The available information on how much was spent on school transport in the Hertfordshire local authority in the latest period for which figures are available (2007-08) is contained in the following table:

	Net current expenditure on home to school transport
England	890,257,904
Hertfordshire	21,560,399

Notes:
1. 2007-08 data remain provisional and subject to change by local authority.
2. Data are drawn from local authorities' 2007-08 Section 52 Outturn Statements (Table A) submitted to the DCSF.
3. Cash term figures as reported by local authorities as at 23 April 2009.

Secondary Education: Admissions

Mr. Bone: To ask the Secretary of State for Children, Schools and Families what percentage of children were accepted at their first choice of secondary school in *(a)* Northamptonshire and *(b)* England in the latest period for which figures are available. [270901]

Sarah McCarthy-Fry: This year's data on offers of secondary school places was published on 12 March. Figures for Northamptonshire local authority show that 83.7 per cent. of children resident in the authority who are eligible to transfer to secondary school in September 2009, and who applied for a place, were offered their first choice school. Last year this figure was 81.6 per cent.

The figures for England show that 83.2 per cent. of children who are eligible to transfer to secondary school in September 2009, and who applied for a place, were offered their first choice school. The figure for 2008 was 82 per cent.

The full statistical report 'DCSF: Secondary School Applications and Offers' is available at:

http://www.dcsf.gov.uk/rsgateway/

Sixth Form Education: Finance

Mr. Burstow: To ask the Secretary of State for Children, Schools and Families what sixth form funding allocation was made for each local education authority by the Learning and Skills Council on *(a)* 2 March and *(b)* at the end of March; and if he will make a statement. [269311]

Jim Knight: The LSC hold the information you have requested. Geoff Russell, the LSC's Acting Chief Executive will write to the hon. Member with the information requested and a copy of his reply will be placed in the Libraries.

We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next.

The funding is split £251 million in 2009-10 and £404 million in 2010-11 and will fund an additional 54,500 learners each year. This will mean that we have funding for at least 1,550,000 for 2009-10 and 2010-11.

This will mean we can quickly reassure school and college leaders who had previously feared their financial allocations would not fund their growth in the number of young people wanting to continue learning. It will also mean that we can fund a further 20,000 young people who have yet to make their choice of learning place.

The LSC are currently working through the final 2009-10 school sixth form and FE college allocations and will be writing out to them as soon as possible.

Mr. Evennett: To ask the Secretary of State for Children, Schools and Families what recent representations he has received on funding allocations issued to schools and colleges for 16 to 18 year learners in the London Borough of Bexley. [270811]

Jim Knight: We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next. The funding is split £251 million in 2009-10 and £404 million in 2010-11 and will fund an additional 54,500 learners each year. This will mean that we have funding for at least 1,550,000 for 2009/10 and 2010/11.

This will mean we can quickly reassure school and college leaders who had previously feared their financial allocations would not fund their growth in the number of young people wanting to continue learning. It will also mean that we can fund a further 20,000 young people who have yet to make their choice of learning place.

The LSC are currently working through the final 2009-10 school sixth form and FE college allocations and will be writing out to them as soon as possible. At close of business on 21 April 2009 the Department had received two written representations in respect of the 16-18 funding allocations (2009-10) from head teachers in the London borough of Bexley.

Annette Brooke: To ask the Secretary of State for Children, Schools and Families what estimate he has made of the number of schools expected to receive a reduction in their per pupil funding for 16 to 19-year-olds in 2009-10; and if he will make a statement. [271206]

Jim Knight: We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next. The funding is split £251 million in 2009-10 and £404 million in 2010-11 and will fund an additional 54,500 learners each year. This will mean that we have funding for at least 1,550,000 for 2009/10 and 2010/11.

This will mean we can quickly reassure school and college leaders who had previously feared their financial allocations would not fund their growth in the number of young people wanting to continue learning. It will also mean that we can fund a further 20,000 young people who have yet to make their choice of learning place.

The LSC are currently working through the final 2009-10 school sixth form and FE college allocations and will be writing out to them as soon as possible. The LSC hold the information you have requested. I am therefore copying this PQ to Geoff Russell, the LSC's Acting Chief Executive so that he can respond with the information the hon. Member has requested. A copy of his reply will be placed in the House Libraries.

Mr. Laurence Robertson: To ask the Secretary of State for Children, Schools and Families what formula is used to calculate the amount of funding a sixth form will receive; and if he will make a statement. [272189]

Jim Knight: The LSC hold the information you have requested. Geoff Russell, the LSC's Acting Chief Executive will write to the hon. Member with the information you have requested and a copy of his reply will be placed in the Libraries.

Mr. Laurence Robertson: To ask the Secretary of State for Children, Schools and Families what recent discussions he has had with the Learning and Skills Council on the funding of schools with sixth forms where the numbers of pupils exceed the stated anticipated numbers; and if he will make a statement. [272190]

Jim Knight: Following the announcement in the Budget of £655 million of additional funding, the LSC have written to schools and colleges to give them the immediate reassurance they will receive the funding for learners they have already planned for and outline the next steps.

Mr. Laurence Robertson: To ask the Secretary of State for Children, Schools and Families under what circumstances schools receive exceptional funding support for sixth forms; and if he will make a statement. [272191]

Jim Knight: I refer the hon. Member to the reply given on 25 February 2009, *Official Report*, column 815W.

Sixth Form Education: Hertfordshire

Mr. Gauke: To ask the Secretary of State for Children, Schools and Families what changes were made in the final allocation funding for sixth forms in Hertfordshire for 2009-10 compared with the previous funding estimates. [270270]

Jim Knight *[holding answer 22 April 2009]:* We have been working across Government to identify additional funding for the recent unanticipated surge in demand for education and training in part due to these exceptional economic times. Thanks to the £655 million funding announcement in the Budget, we will be able to deliver this and more, and fund learning for an additional 54,500 young people this year and next.

The funding is split £251 million in 2009-10 and £404 million in 2010-11 and will fund an additional 54,500 learners each year. This will mean that we have funding for at least 1,550,000 for 2009/10 and 2010/11.

This will mean we can quickly reassure school and college leaders who had previously feared their financial allocations would not fund their growth in the number of young people wanting to continue learning. It will also mean that we can fund a further 20,000 young people who have yet to make their choice of learning place.

The LSC are currently working through the final 2009-10 school sixth form and FE college allocations and will be writing out to them as soon as possible.

Special Educational Needs

Tim Loughton: To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 20 April 2009, *Official Report*, columns 271-72W, on special educational needs, what types of expenditure are accounted for within the category of inter-authority recoupment. [271469]

Sarah McCarthy-Fry: The category of inter-authority recoupment reports expenditure and income in relation to the additional costs of educating pupils who live in one local authority but are educated in another local authority. Inter-authority recoupment applies to pupils with statements of special educational needs, those in special schools (with or without statements) and children educated in hospitals or by bedside tuition. The local authority providing the education is entitled to charge the local authority in which the child lives for a contribution to the costs of the education.

Teachers: Training

Michael Gove: To ask the Secretary of State for Children, Schools and Families how many of the graduate teacher programme places made available by the Training and Development Agency in 2008-09 were eligible for a salary grant; and what percentage of the places made available this represents. [271766]

Jim Knight: There were 4,335 salary and training grant places allocated by the Training and Development Agency for Schools and these represent 93 per cent. of all graduate teacher programme places in academic year 2008/09.

DUCHY OF LANCASTER

Admiralty House

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster for how long each of the two vacant ministerial residences in Admiralty House have been vacant. [269906]

Mr. Watson: One flat has been vacant since 30 June 2006 and the other since 27 June 2007.

Civil Servants: Allowances

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster whether the Cabinet Office has issued guidance to Government Departments and agencies in respect of the award of excess fares allowances to civil servants. [270161]

Mr. Watson: The rules on the payment of travel expenses are set out in the Civil Service Management Code, a copy of which is available in the House Library.

The code can also be accessed at:

http://beta.civilservice.gov.uk/about/work/codes/csmc/index.aspx

Civil Servants: Political Impartiality

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster (1) whether the National Whitley Council Agreement on Facilities for Industrial Relations Duties and Trade Union Activities in the Non-Industrial Civil Service *(a)* permits or *(b)* prohibits the use of office facilities, including telephones and computers, by trades union representatives for activity of a political nature; [270158]

(2) whether the National Whitley Council Agreement on Facilities for Industrial Relations Duties and Trade Union Activities in the Non-Industrial Civil Service *(a)* permits or *(b)* prohibits paid leave in respect of attendance at conferences or union meetings of a political nature by trades union representatives. [270159]

Mr. Watson: The National Whitley Council Agreement on Facilities for Industrial Relations Duties and Trade Union Activities in the Non-Industrial Civil Service is no longer an extant document and the authority to grant facilities/time off to trade unions representatives is delegated to departments. The rules relating to civil servants' involvement in political activities, including elected trade union representatives are set out in the civil service management code.

Civil Service: Location

Mr. Byers: To ask the Chancellor of the Duchy of Lancaster how many Civil Service jobs have been re-located from London to *(a)* Wales, *(b)* Scotland, *(c)* Northern Ireland and *(d)* each English region in (i) 2006-07, (ii) 2007-08 and (iii) 2008-09. [272262]

Yvette Cooper: I have been asked to reply.

The late relocation figures are published on the Office of Government Commerce website:

http://www.ogc.gov.uk/efficiency_recources_government_relocation_portal.asp

Departmental Air Conditioning

Grant Shapps: To ask the Chancellor of the Duchy of Lancaster (1) how many of his Department's buildings are equipped with air conditioning systems with output greater than 250kW; how many of these systems have been inspected under the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 since the Regulations entered into force; and if he will place in the Library a copy of each inspection report; [272129]

(2) how much has been spent by his Department on carrying out inspections of air conditioning systems within departmental buildings in accordance with the Energy Performance of Buildings (Certificates and Inspections) (England and Wales) Regulations 2007 since the Regulations entered into force. [272130]

Kevin Brennan: The Cabinet Office currently has two buildings within its central London Estate equipped with an air conditioning system output greater than 250 kW. One location is a new installation and commissioned after January 2008 and therefore does not require testing until five years from the date of commissioning. The other building has recently undergone work to relocate the chiller plant and it is not possible to carry out an inspection of the plant until it has been completed and commissioned. Both of these locations have six monthly planned maintenance regimes in place.

Statutory testing is included into the Planned Preventative Maintenance (PPM) regime and forms an integral part of the Cabinet Office's Total Facilities Management Contract.

The Department has not yet been required to carry out air conditioning inspections under the regulations for the reason previously stated. Copies of the reports will be placed in the Library in due course.

Departmental Disciplinary Proceedings

Mr. Paul Goodman: To ask the Chancellor of the Duchy of Lancaster how many officials in his Department are suspended; how many are suspended on full pay; for how long each has been suspended; and what the reasons are for each such suspension. [270513]

Mr. Watson: There are no officials currently suspended within Cabinet Office.

Members: Correspondence

Norman Lamb: To ask the Chancellor of the Duchy of Lancaster when he plans to reply to the letter of 14 November 2008 from the hon. Member for North Norfolk on meetings of the Prime Minister held at Chequers. [256504]

Mr. Watson *[holding answer 12 February 2009]*: A response has been sent to the hon. Member.

Ministers: Official Residences

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many Ministerial, residences are unoccupied. [270285]

Mr. Watson: I refer the right hon. Member to the answer given by my right hon. Friend the Prime Minister to the hon. Member for Fareham (Mr. Hoban) on 18 June 2008, *Official Report*, column 920W.

Non-Departmental Public Bodies

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster if he will undertake an audit of the efficiency of non-departmental public bodies. [270286]

Mr. Watson: It is Government policy that all non-departmental public bodies (NDPBs) are reviewed on a regular basis. It is for individual sponsor Departments to determine the exact timing and format of the review.

Non-profit Making Associations: Essex

Mr. Burns: To ask the Chancellor of the Duchy of Lancaster (1) what recent assessment he has made of the effect of the recession on not-for-profit organisations in *(a)* West Chelmsford constituency and *(b)* Essex; [271998]

(2) how many not-for-profit organisations have closed in *(a)* West Chelmsford constituency and *(b)* Essex since the start of the recession. [271984]

Kevin Brennan: The Cabinet Office does not systematically collect data on the number of not-for-profit organisations that have closed since the start of the recession either by constituency or across England.

Non-profit Making Associations: Government Assistance

Margaret Moran: To ask the Chancellor of the Duchy of Lancaster what support the Government are providing to social enterprise during the economic downturn; what steps he has taken to inform social enterprises of the availability of that support; and if he will make a statement. [271424]

Kevin Brennan: Social enterprises are businesses and can benefit from all government support for business. This includes extra support during the recession through the "Real Help Now" packages for business and finance highlighted by BERR and OTS (details available through Business Link).

In addition, new programmes such as the Modernisation Fund announced in "Real Help for Communities", the Government's action plan to support the third sector during the economic downturn, are relevant to social enterprise. This action plan also includes new investment in the School for Social Entrepreneurs, and announced an independent review on the incentives for investment in social enterprises, a review on the limits on distributions by CICs and support to the sector to market themselves successfully as the economy recovers.

Budget 2009 announced further support for the third sector. This includes a £20 million hardship fund to support third sector organisations delivering front-line services to the most vulnerable and disadvantaged in society and an additional £18.75 million to the Growth Fund to boost the ability of lenders, such as credit unions and community development financial institutions, to make affordable loans to financially excluded customers. In addition it announced a consultation on the design and functions of a Social Investment Wholesale Bank to support the long-term growth of the third sector.

The Office of the Third Sector promotes all Government measures to support social enterprises through its website, its network of strategic partners, including the Social Enterprise Coalition, and through a series of regional road shows. Road shows include one in Cambridge at Abington Hall on Monday 8 June, and one in central London at the Abbey Community Centre in Westminster on Thursday 7 May.

Public Appointments

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what information the Commissioner for Public Appointments holds on the public appointments to be made in the next 24 months. [269902]

Mr. Watson: Individual Government Departments manage the processes for ministerial appointments to vacancies on the boards of the individual public bodies for which they are responsible. The Commissioner for Public Appointments regulates the appointments process. She publishes an annual report which includes statistical information on appointments and re-appointments within her remit that have been made during the reporting year. She does not collect information on future public appointments.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster how many public appointments were made in the last 12 months according to records held by the Commissioner for Public Appointments. [269903]

Mr. Watson: The Commissioner for Public Appointments reports annually on the number of ministerial appointments and re-appointments to the boards of public bodies within her remit that have been made in the reporting year. Information on appointments and re-appointments for 2007-08 was published on 27 October 2008. Information for 2008-09 will be published in the Commissioner's Annual Report in the autumn.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster for what reasons and on what date the Cabinet Office's Public Appointments Unit was disbanded. [269904]

Mr. Watson: The Cabinet Office Public Appointments Unit was disbanded in July 2007 and its responsibilities transferred elsewhere within the Department. This was in response to recommendations arising from the 2006 Capability Review of the Cabinet Office and is part of an ongoing programme of change within the Department designed to ensure that the Cabinet Office is operating efficiently and effectively and well placed to meet the challenges ahead.

Public Bodies

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what public sector bodies were classified as part of the Civil Service in 1997. [269898]

Mr. Watson: Those organisations that were classified as part of the Civil Service as at 1 April 1997 are shown in the publication "Civil Service Statistics 1997". The publication can be found on the Civil Service website at the following address:

http://www.civilservice.gov.uk/about/who/statistics/archived-reports.aspx

A copy of the report has been placed in the Library of the House.

The organisations listed in the above publication consist of main Government Departments, their executive agencies, together with three executive non-departmental public bodies (NDPBs): Advisory, Conciliation and Arbitration Service (ACAS), Health and Safety Commission, and the Health and Safety Executive.

Public Sector: Pay

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what his latest estimate is of the number of retired public sector workers to have been underpaid as a result of errors in the administration of their state pension. [270199]

Mr. Watson: I refer the right hon. Member to the reply given to the hon. Member for Northavon (Steve Webb) by my right hon. Friend the Chancellor of the Duchy of Lancaster on 25 March 2009, *Official Report*, column 562W.

Public Service Forum

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 February 2009, *Official Report*, column 1453W, on the Public Service Forum, (1) what the *(a)* remit and *(b)* function of the Forum is; [270163]

(2) on what dates the Public Service Forum has met; who attended each meeting; and what the dates are of meetings of the Forum scheduled in the next 12 months. [270164]

Mr. Watson: The Public Services Forum (PSF) was formed in 2003. Its aim is to improve dialogue between Government, public service employers and trade unions on workforce reform issues in public services.

It has met three times a year until 2008 when this was increased to four times a year. The last meeting of the PSF took place on 5 March 2009.

The ministerial chair invites public service employers and trade union representatives in roughly equal numbers to attend the PSF and to engage in dialogue with the Government on public service workforce issues. Since 2008, the CBI, Business Services Association, Association of Chief Executives of Voluntary Organisations and the National Council of Voluntary Organisations have also sent representatives to some meetings.

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 5 February 2009, *Official Report*, column 1453W, on the Public Service Forum, if he will place in the Library a copy of *(a)* each set of meeting notes and *(b)* the minutes of each meeting of the Forum to date. [270165]

Mr. Watson: A note of the 5 March 2009 Public Services Forum will be placed in the Library of the House and published on the internet. Each further Public Services Forum meeting will be published on the departmental website.

Stress

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster what estimate he has made of the number of working days lost in the Cabinet Office as a result of workplace stress in the most recent year for which figures are available. [269895]

Mr. Watson: The Cabinet Office is committed to the health and well-being of its staff and has policies and support in place to manage and reduce workplace stress.

A summary of the Department's absence data is published quarterly on the Cabinet Office website at:

http://www.cabinetoffice.gov.uk/reports/absence.aspx

Copies will be placed in the Library.

Trade Unions

Mr. Maude: To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 2 February 2009, *Official Report*, columns 943-44W, on trade unions, whether special leave may be granted for trade union representatives to undertake political activities relating to their trade union responsibilities. [270166]

Mr. Watson: Union representatives are all civil servants and as such are bound by the civil service code.

The rules relating to civil servants' involvement in political activities, including elected trade union representatives are set out in the civil service management code.

Voluntary Organisations: Finance

Keith Vaz: To ask the Chancellor of the Duchy of Lancaster how many third sector organisations with international operations receive funding from his Department. [271488]

Kevin Brennan: The Office of the Third Sector provides funding only for programmes undertaken in England.

Keith Vaz: To ask the Chancellor of the Duchy of Lancaster what financial criteria are used to assess the eligibility of a third sector organisation for allocation of funding. [271489]

Kevin Brennan: I refer the right hon. Member to the answer given to my hon. Friend the Member for West Lancashire (Rosie Cooper) on 20 April 2009, *Official Report*, column 354W.

HEALTH

Alcoholic Drinks: Misuse

Mr. Burstow: To ask the Secretary of State for Health how many alcohol-related hospital admissions of *(a)* men and *(b)* women aged (i) under 10 years, (ii) between 10 and 16 years, (iii) between 17 and 21 years, (iv) between 22 and 26 years and (v) over 26 years there were in each of the last 10 years; and if he will make a statement. [271049]

Dawn Primarolo: The information requested is given in the following table. Data are only available from 2002- 03 to 2007-08.

Number of finished admissions in England of patients with an alcohol-related condition, by age, sex and year

	Age	*2002-03*	*2003-04*	*2004-05*	*2005-06*	*2006-07*	*2007-08*
Male	Under 10	109	107	105	103	77	79
	10 to 16	3,580	3,792	4,008	4,214	4,340	3,986
	17 to 21	9,890	11,042	12,270	13,940	14,677	15,026
	22 to 26	9,990	11,127	12,646	14,375	15,047	15,332
	Over 26	289,419	325,053	369,709	423,744	464,939	502,942
Female	Under 10	55	61	68	56	58	49
	10 to 16	3,948	4,472	4,869	5,255	5,214	5,406
	17 to 21	7,979	8,695	9,772	11,729	11,856	13,007
	22 to 26	7,873	8,444	9,670	11,237	11,634	12,132
	Over 26	177,330	196,625	221,267	250,859	271,276	295,296

Notes:

1. Includes activity in English National Health Service Hospitals and English NHS commissioned activity in the independent sector.

2. Alcohol-related admissions: The number of alcohol-related admissions is based on the methodology developed by the North West Public Health Observatory. Following international best practice, the NWPHO methodology includes a wide range of diseases and injuries in which alcohol plays a part and estimates the proportion of cases that are attributable to the consumption of alcohol. Details of the conditions and associated proportions can be found in the report Jones et al. (2008) Alcohol-attributable fractions for England: Alcohol-attributable mortality and hospital admissions. Figures for under 16s only include admissions where one or more alcohol-specific conditions were listed. This is because the research on which the attributable fractions are based does not cover

under 16s. Alcohol-specific conditions are those that are wholly attributed to alcohol—that is, those with an attributable fraction of one. They are:

Alcoholic cardiomyopathy (142.6)
Alcoholic gastritis (K29.2)
Alcoholic liver disease (K70)
Alcoholic myopathy (G72.1)
Alcoholic polyneuropathy (G62.1)
Alcohol-induced pseudo-Cushing's syndrome (E24.4)
Chronic pancreatitis (alcohol induced) (K86.0)
Degeneration of nervous system due to alcohol (G31.2)
Mental and behavioural disorders due to use of alcohol (F10)
Accidental poisoning by and exposure to alcohol (X45)
Ethanol poisoning (T51.0)
Methanol poisoning (T51.1)
Toxic effect of alcohol, unspecified (T51.9)

3. Number of episodes in which the patient had an alcohol-related primary or secondary diagnosis: These figures represent the number of episodes where an alcohol-related diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a Hospital Episode Statistics (HES) record. Each episode is only counted once in each count, even if an alcohol-related diagnosis is recorded in more than one diagnosis field of the record.

4. Ungrossed data: Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

5. Finished admission episodes: A finished admission episode is the first period of inpatient care under one consultant within one health care provider. Finished admission episodes are counted against the year in which the admission episode finishes. Admissions do not represent the number of inpatients, as a person may have more than one admission within the year.

6. Primary diagnosis: The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was admitted to hospital.

7. Secondary diagnosis: As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2007-08 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

8. Data quality: HES are compiled from data sent by more than 300 NHS trusts and primary care trusts in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

9. Assessing growth through time: HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity. Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

10. Assignment of episodes to years: Years are assigned by the end of the first period of care in a patient's hospital stay.

Source:

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care

James Brokenshire: To ask the Secretary of State for Health pursuant to the answer to the hon. Member for Bolton North East of 10 February 2009, *Official Report*, column 1923W, on alcoholic drinks: misuse, when he expects figures for alcohol-related admissions to hospital for 2007-08 to be available. [271414]

Dawn Primarolo: Figures for 2007-08 for alcohol-related admissions to hospital are shown in the following table.

Number of alcohol-related finished hospital admissions in England from 2003-04 to 2007-08, the latest year for which figures are available.

	Number of alcohol-related finished hospital admissions in England
2003-04	509,418
2004-05	644,184
2005-06	735,512
2006-07	799,118
2007-08	863,257

Blood Transfusions

Mr. Gerrard: To ask the Secretary of State for Health what assessment he has made of the effect of testing for variant Creutzfeldt-Jakob disease in blood products on the supply of red cells, platelets and plasma in the UK; and whether his Department is assessing the merits of importing such products. [271518]

Dawn Primarolo: At present, there is no validated test for variant Creutzfeldt-Jakob disease (vCJD) suitable for the mass screening of blood donations on the market, although the technology is under development. The UK blood services have already conducted research to assess the impact of introducing such a test on blood supply. Further research is planned to explore the potential impact of a vCJD test on the behaviour of donors and potential donors. This will assist in decision making and planning to ensure the future safety and sufficiency of the blood supply for patients.

NHS Blood and Transplant has also conducted preliminary research into whether red cells could be imported from Europe, as under European Union law all donated blood must meet the same standards of safety and quality. The independent Advisory Committee on the Safety of Blood, Tissues and Organs, which advises the Government on matters of blood safety, will consider steps to reduce the risk of vCJD disease, including importation of red cells and fresh frozen plasma, at meetings in April and July 2009.

Coeliac Disease

Gordon Banks: To ask the Secretary of State for Health what evaluation his Department has undertaken of the uptake of National Institute for Health and Clinical Excellence recommendations on the treatment of coeliac disease. [272309]

Dawn Primarolo: The National Institute for Health and Clinical Excellence are expected to publish their guidelines, the recognition and diagnosis of coeliac disease, very shortly. The Department has therefore not made any evaluation of the uptake of these recommendations.

Depressive Illnesses

Mr. Laurence Robertson: To ask the Secretary of State for Health what discussions he has had with the National Institute for Health and Clinical Excellence (NICE) on guidelines for the treatment and management of depression in adults; when he expects NICE to issue new guidelines; what role he will play in the process; and if he will make a statement. [272188]

Phil Hope: We have had no discussions with the National Institute for Health and Clinical Excellence (NICE) about the clinical guidelines currently in development on depression in adults and depression in adults with chronic physical health problems. NICE currently expects to issue final guidance for both clinical guidelines in September 2009.

NICE is an independent organisation and its guidance is based on a thorough assessment of the available evidence and is developed through wide consultation with stakeholders. The Department is a stakeholder in the development of NICE guidance and has responded to the recent consultations on the draft guidance for these two clinical guidelines.

Drugs: Misuse

Paul Rowen: To ask the Secretary of State for Health what recent discussions he has had with the Secretary of State for Work and Pensions on implementation of provisions relating to drug users in the Welfare Reform Bill. [272085]

Phil Hope: The Secretary of State for Health regularly discusses matters of joint interest with the Secretary of State for Work and Pensions, including the provisions in the Welfare Reform Bill.

Hospitals: Construction

Dr. Vis: To ask the Secretary of State for Health what the average cost of building a new district hospital in England was in the latest period for which figures are available. [271591]

Mr. Bradshaw: An indicative cost of building a medium-sized general acute hospital is approximately £280 million (excluding VAT) which reflects the current business case approval information. The cost includes the capital construction cost for a new 418-bed hospital built on a greenfield site, together with supporting services such as operating theatres, outpatient department, accident and emergency services, catering, office accommodation, public areas, pharmacy, pathology and radiography. The cost also includes for equipment costs and professional fees incurred. It does not include the running costs to make the hospital operational, such as staffing and other facilities management services.

Hospitals: Infectious Diseases

Mr. Burns: To ask the Secretary of State for Health how many patients were treated for healthcare-acquired infections in West Chelmsford constituency in each of the last five years; and if he will make a statement. [271996]

Phil Hope: The information requested is not collected centrally. The best available data are from the mandatory surveillance system operated for the Department by the Health Protection Agency, which covers methicillin-resistant *Staphylococcus aureus* (MRSA) bloodstream infections, Clostridium difficile (C. difficile) infections, glycopeptide-resistant enterococci infections, and orthopaedic surgical site infections (SSIs).

Data are not available by parliamentary constituency but by acute national health service trust. The following tables provide data for the Mid-Essex hospital services NHS trust.

All acute NHS trusts in England are obliged to report all cases of bloodstream infections caused by MRSA.

Number of cases of bloodstream infections caused by MRSA

April to March each year	*Mid-Essex hospital services NHS trust*
2001-02	44
2002-03	33
2003-04	43
2004-05	41
2005-06	38
2006-07	12
2007-08	9

Notes:

1. These data comprise all specimens processed by acute NHS trust laboratories, not just those from in-patients, and include infections acquired in hospital and elsewhere.
2. These data are only available by financial year.

All acute NHS trusts in England are obliged to report all cases of C. difficile infection in people aged 65 years and over. In April 2007, mandatory surveillance was extended to include all patients aged two years and over.

Number of cases of C. difficile infection in people aged 65 years and over

	Mid-Essex hospital services NHS trust
2004	164
2005	268
2006	277
2007	133

Number of cases of C. difficile infection in people aged two years and over

April to March each year	*Mid-Essex hospital services NHS trust*
2007	171

Note:

These data comprise all specimens processed by acute NHS trust laboratories, not just those from in-patients, and include infections acquired in hospital and elsewhere.

All acute NHS trusts in England are obliged to report all cases of blood stream infections caused by glycopeptide-resistant enterococci.

Number of cases of blood stream infections caused by glycopeptide-resistant enterococci

October to September each year	*Mid-Essex hospital services NHS trust*
2003-04	0
2004-05	0
2005-06	4
2006-07	4

Notes:

1. These data comprise all specimens processed by acute NHS trust laboratories, not just those from in-patients, and include infections acquired in hospital and elsewhere.
2. These data are available from October to September; they are not available by calendar year.

Since 2004, data have been collected from the mandatory surveillance of SSIs in orthopaedic categories in NHS hospitals in England. Hospitals carrying out orthopaedic surgery have to participate in the surveillance of at least one category for at least one quarter of the year.

Number of SSIs in orthopaedic categories for Mid-Essex hospital services NHS trust

	2004-05		*2005-06*		*2006-07*		*2007-08*	
Surgical category	*Number of operations*	*SSIs*	*Number of operations*	*SSIs*	*Number of operations*	*SSIs*	*Number of operations*	*SSIs*
Hip prosthesis	205	4	325	3	416	1	367	0
Knee prosthesis	209	2	358	0	343	0	396	0
Open reduction of long bone fracture	109	2	200	1	211	3	223	0
Hip hemiarthroplasty	105	6	136	0	103	0	134	0

Note:

All of the SSIs reported are identified during the in-patient period.

Mr. Burns: To ask the Secretary of State for Health how many patients were screened for healthcare-acquired infections in West Chelmsford constituency in each of the last five years; and if he will make a statement. [271997]

Phil Hope: The information requested is not collected centrally. From 1 April this year, the national health service has been screening all relevant elective admissions for Methicillin-resistant *Staphylococcus aureus* (MRSA) and will be expanding this to include emergency admissions by 2011.

It is not appropriate to screen for all healthcare associated infections, and screening for healthcare associated infections other than MRSA is a matter for local determination according to clinical appropriateness and risk.

Liver Diseases

Ms Keeble: To ask the Secretary of State for Health how many *(a)* females and *(b)* males aged (i) under 16, (ii) from 17 to 21, (iii) from 22 to 26 and (iv) over 26 years old were admitted to hospital with alcohol-related liver conditions in each of the last five years. [270216]

Dawn Primarolo: The following table provides an estimate of the number of people admitted to hospital with alcoholic liver disease and uses the international classification of diseases (ICD)-10 codes K70, K73 and K74, which are the codes for liver disease that is wholly or partially attributable to alcohol. Estimates of the number of people are based on an admission/person ratio are not yet available for 2007-08.

Estimate of people admitted to hospital in England with a primary or secondary diagnosis for alcoholic liver disease, by sex (males (M) and females (F)) and age group, between 2002-03 to 2006-07

	2002-03		2003-04		2004-05		2005-06		2006-07	
	M	F	M	F	M	F	M	F	M	F
16 or under	0	0	1	0	0	2	2	1	0	0
17 to 21	34	34	32	42	40	38	38	34	39	32
22 to 26	87	52	75	59	69	68	92	73	102	66
Over 26	11,935	6,656	12,840	7,219	13,410	7,510	14,364	7,832	15,307	8,322
Total	12,055	6,742	12,949	7,321	13,519	7,619	14,496	7,939	15,448	8,420

Notes:

Data represent activity in English national health service hospitals and English NHS commissioned activity in the independent sector

Alcohol-related admissions

The number of alcohol-related admissions is based on the methodology developed by the North West Public Health Observatory (NWPHO). Following international best practice, the NWPHO methodology includes a wide range of diseases and injuries in which alcohol plays a part and estimates the proportion of cases that are attributable to the consumption of alcohol. Details of the conditions and associated proportions can be found in the report Jones et al. (2008) Alcohol-attributable fractions for England: Alcohol-attributable mortality and hospital admissions.

Figures for under-16s only include admissions where one or more alcohol specific conditions were listed. This is because the research on which the attributable fractions are based does not cover under 16s. Alcohol specific conditions are those that are wholly attributed to alcohol—that is, those with an attributable fraction of one.

The ICD-10 codes used to answer this PQ are K70, K73 and K74, which are the codes for liver disease that is wholly or partially attributable to alcohol. K70 has an attributable fraction of one, K73 and K74 have an overall attributable fraction of 0.73 for males and 0.50 for females.

Number of patients who had an alcohol-related primary or secondary diagnosis

These figures represent the number of patients where an alcohol-related diagnosis was recorded in any of the 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) primary and secondary diagnosis fields in a hospital episode statistics (HES) record. Each episode is only counted once in each count, even if an alcohol-related diagnosis is recorded in more than one diagnosis field of the record.

Ungrossed data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Primary diagnosis

The primary diagnosis is the first of up to 20 (14 from 2002-03 to 2006-07 and seven prior to 2002-03) diagnosis fields in the HES data set and provides the main reason why the patient was admitted to hospital.

Secondary diagnosis

As well as the primary diagnosis, there are up to 19 (13 from 2002-03 to 2007-08 and six prior to 2002-03) secondary diagnosis fields in HES that show other diagnoses relevant to the episode of care.

Data quality

HES are compiled from data sent by more than 300 NHS trusts and primary care trusts (PCTs) in England. Data are also received from a number of independent sector organisations for activity commissioned by the English NHS. The NHS Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Assessing growth through time

HES figures are available from 1989-90 onwards. The quality and coverage of the data have improved over time. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Some of the increase in figures for later years (particularly 2006-07 onwards) may be due to the improvement in the coverage of independent sector activity.

Changes in NHS practice also need to be borne in mind when analysing time series. For example, a number of procedures may now be undertaken in outpatient settings and may no longer be accounted for in the HES data. This may account for any reductions in activity over time.

Assignment of episodes to years

Years are assigned by the end of the first period of care in a patient's hospital stay.

Hospital Episode Statistics (HES), The NHS Information Centre for health and social care.

Prescriptions

Helen Southworth: To ask the Secretary of State for Health pursuant to the answer of 26 January 2009, *Official Report*, column 252W, if he will bring forward proposals for regulations to require that a patient must be examined by a prescriber before a prescription is issued for a controlled drug; and if he will make a statement. [271446]

Phil Hope: We have no plans to regulate the prescribing of controlled drugs in this way. The decision as to when a patient is seen by their prescriber, before the issue of any prescription, is a matter for their professional judgment. In exercising their judgment, they are supported by the issue of guidance by their professional regulator.

WHO Framework Convention on Tobacco Control

John Cummings: To ask the Secretary of State for Health which working groups of the World Health Organisation Framework Convention on Tobacco Control the UK *(a)* is and *(b)* is not a member of; and what mechanism exists for UK representation in those working groups of which it is not a member. [271216]

Dawn Primarolo: Working groups are established to develop guidelines for implementation of the Articles in the Framework Convention on Tobacco Control (FCTC). Draft guidelines developed by these working groups are considered for adoption during FCTC Conferences of the Parties.

The membership and progress of the current working groups is set out by the World Health Organisation on its website at:

www.who.int/fctc/cop/working_groups/en/index.html

The United Kingdom is currently a member of two working groups developing guidelines and recommendations on Articles 9 and 10, and on Article 14 of the FCTC. The UK was also a member of the working group that developed guidelines on Articles 8 and 11 of the FCTC.

The UK is not a member of two currently mandated working groups developing guidelines and recommendations on Article 12 and on Articles 17 and 18.

The UK is also participating in the inter-governmental negotiating body which is to draft and negotiate a protocol on illicit trade in tobacco products, to support the provisions of Article 15 of the FCTC.

John Cummings: To ask the Secretary of State for Health what mechanisms exist by which signatory countries to the World Health Organisation Framework Convention on Tobacco Control join its working groups. [271217]

Dawn Primarolo: Countries that are Framework Convention on Tobacco Control Parties volunteer to participate in working groups to elaborate guidelines under the Articles of the Convention, when parties agree that guidelines are to be developed.

John Cummings: To ask the Secretary of State for Health (1) what the membership is of each working group of the World Health Organisation Framework Convention on Tobacco Control of which the UK is a member; and what recent assessment he has made of the progress of each such working group; [271218]

(2) what his most recent assessment is of progress in the development of protocols and guidelines in respect of the World Health Organisation Framework Convention on Tobacco Control; [271221]

(3) what his most recent assessment is of progress made by the World Health Organisation Framework Convention on Tobacco Control *(a)* working groups and *(b)* Conference of the Parties; and if he will make a statement. [271284]

Dawn Primarolo: The membership and progress of the current working groups established to develop draft guidelines under the Framework Convention on Tobacco Control (FCTC), is set out by the World Health Organisation on its website at:

www.who.int/fctc/coop/working_groups/en/index.html

Progress made by the intergovernmental negotiating body on a protocol on illicit trade in tobacco products is set out by the World Health Organisation on its website at:

www.who.int/fctc/inb/en

Reports from FCTC Conferences of the Parties are published by the World Health Organisation on its website at:

www.who.int/fctc/cop/en

John Cummings: To ask the Secretary of State for Health what recent discussions he has had with European Union counterparts on the development of protocols and guidelines in respect of the World Health Organisation Framework Convention on Tobacco Control. [271219]

Dawn Primarolo: Protocols and guidelines made under the Framework Convention on Tobacco Control (FCTC) are discussed during relevant meetings convened by the European Commission.

Adopted FCTC guidelines were discussed at the fifth meeting of member state health experts under the Tobacco Advertising Directive (2003/33) held on 21 April 2009, and at the ninth meeting of the Regulatory Committee established under Article 10 of the Tobacco Products Directive (2001/37/EC) on 22 April 2009.

John Cummings: To ask the Secretary of State for Health (1) what recent assessment he has made of the UK's progress in meeting its obligations as a signatory to the World Health Organisation Framework Convention on Tobacco Control; and which of these obligations the UK has met to date; [271220]

(2) what effect he has given to the *(a)* obligations and *(b)* guidelines contained in the World Health Organisation Framework Convention on Tobacco Control; and if he will make a statement. [271222]

Dawn Primarolo: The Framework Convention on Tobacco Control (FCTC) encourages parties to take a comprehensive approach to tobacco control. A comprehensive approach to tobacco control is taken in the United Kingdom, and therefore, the Government believe that the UK meets the obligations set out in the Articles of the Convention.

FCTC guidelines adopted by parties are non-binding, and set out best practice guidance for parties in the development of their tobacco control policies. Guidelines are important in informing the development of tobacco control policies in the United Kingdom.

Personal Computers

Jenny Willmott: To ask the Secretary of State for Health, what estimate has been made of the proportion of personal computers in each of his Department's offices that are turned off (a) overnight, (b) at weekends and (c) during holiday periods; and if he will make a statement. [269618]

Mr. Bradshaw:A limited deployment of energy monitoring software in December 2008 indicated that the level of personal computers not turned off overnight to be in the region of 30 per cent.

A publicity campaign on *greening IT* and working sustainably was initiated in January 2009, highlighting the carbon and financial cost of leaving equipment on outside working hours. The campaign has included events in communal areas and stands at all staff events. Information on *greening IT* has been published on the Deparment's intranet and are included in presentations to staff. A green champions network is being launched on 8 May 2009 and the network will be used to raise awareness of sustainable working including switching off equipment when not in use

A manual survey was undertaken on 7th April outside core hours and, out of 301 PCs surveyed, 12 (around 4 per cent.) were identified as powered on. There is no data available to state whether this level varies significantly in other buildings or varies at weekends and during holiday periods. Further surveys are planned in other buildings in May and June 2009.

INNOVATION, UNIVERSITIES AND SKILLS

Building Colleges for the Future Programme

8. **Angela Watkinson:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the implications of funding difficulties in the Building Colleges for the Future programme for the programme in *(a)* Havering and *(b)* England. [271884]

Mr. Simon: The Learning and Skills Council held discussions with a large number of colleges early this year in establishing the position and Sir Andrew has provided a comprehensive assessment in his final report. This work has allowed us to establish the extent of demand against the available budget and the reasons this position arose. We recognise that there is more to be done to understand that individual position of colleges and the difficulties they face. This is why the acting Chief Executive of the LSC has appointed an external team of property specialists to ensure that we have the most accurate and up to date information, including on the expenditure made to date, on which to make future decisions.

Mr. Bone: To ask the Secretary of State for Innovation, Universities and Skills what capital funding has been allocated to further education colleges in *(a)* Wellingborough constituency and *(b)* England for 2009-10; and if he will make a statement. [272086]

Mr. Simon: Capital funding for Further Education colleges is administered by the Learning and Skills Council (LSC). As the information requested is with regard to an operational matter for the Council, Geoffrey Russell, the acting LSC chief executive will write to the hon. Member with the further information requested. A copy of his letter will be placed in the Libraries.

Mr. Lidington: To ask the Secretary of State for Innovation, Universities and Skills how much the Learning and Skills Council allocated to each further education college for *(a)* 2008-09 and *(b)* 2009-10; and if he will make a statement. [272099]

Mr. Simon: The Grant Letter to the Learning and Skills Council (LSC) (November, 2008) set out planned investment in adult further education (FE) and skills for 2008-09 and 2009-10. Total participation funding is planned to increase from £3.2 billion in 2008-09 to over £3.3 billion in 2009-10.

LSC funding allocations for 2008/09 academic year for each provider including FE colleges is published on the LSC website (www.lsc.gov.uk). These represent the funding allocated to the provider at the beginning of the year and may be subject to change in line with demand. Information on the 2009/10 funding allocations will be published following the start of the 2009/10 academic year.

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills pursuant to his Financial Statement of 22 April 2009, *Official Report*, column 241, what additional funding will be available for capital funding for further education colleges in *(a)* 2009-10, *(b)* 2010-11, *(c)* 2011-12 and *(d)* 2012-13; and if he will make a statement. [272254]

Mr. Simon: Budget 2009 announced additional capital funding of £300 million for this spending review period (2009-10 and 2010-11), which will allow the Learning and Skills Council to give approval to a limited number of projects starting in 2009-10.

Recognising the long-term nature of capital projects, the Government are planning a continuing FE capital investment programme in future years, with a planning assumption of £300 million a year from 2011-12 to 2013-14 to be confirmed at the next Spending Review.

This provides a provisional £1.2 billion in total to 2013-14 which should allow us to develop around £750 million of new schemes.

University Campus: Swindon

10. **Anne Snelgrove:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the merits of establishing a university campus in Swindon. [271886]

Mr. Lammy: Swindon is one of the 27 areas that believes it could benefit from our New University Challenge initiative and has submitted an initial expression of interest. The Funding Council have recently published guidance for applications and in due course will make the decisions on the funding of projects, subject to high quality bids.

Further Education Colleges

11. **Andrew Selous:** To ask the Secretary of State for Innovation, Universities and Skills what steps he is taking to assist further education colleges with their capital programmes. [271887]

Mr. Simon: Ministers commissioned Sir Andrew Foster to carry out a review in January and the report was published on 1 April. My Department and the LSC have accepted all of his recommendations in full.

In response to those recommendations the new acting Chief Executive of the LSC immediately appointed external teams to review the financial data and work with individual colleges to ensure the information held is a sound basis for making future decisions. The LSC is consulting with the sector on the approach to prioritising schemes to help meet Sir Andrew's recommendation to develop a "needs-based" approach. Following the Budget announcement of the additional £300 million of capital funding—this work is needed to allow the most urgent projects to be approved as soon as possible.

20. **Mr. Bellingham:** To ask the Secretary of State for Innovation, Universities and Skills when he next expects to meet the Learning and Skills Council to discuss the funding of further education colleges. [271896]

Mr. Simon: I have regular meetings with the Chief Executive of the Learning and Skills Council. The overall accountability framework includes formal quarterly review meetings on LSC performance, the most recent of which took place on 16 March 2009. We also meet on a regular and frequent basis to discuss a wide range of further education (FE) policy and implementation issues, including the funding of FE colleges.

Norman Baker: To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the adequacy of levels of funding for capital projects undertaken by further education colleges; and if he will make a statement. [271891]

Mr. Simon: We have invested more than £2 billion between 1997 and 2007 on FE capital. The Learning and Skills Council have supported more than 700 projects, in nearly 330 colleges—with only 42 colleges not benefiting from any of this investment. More than half the FE state has been modernised and even before the Budget announcements total LSC capital investment in this CSR was £2.3 billion.

Budget 2009 announced that an additional £300 million of capital funding will be made available in the current spending review period. Also, for planning purposes, we are working on the basis of a provisional programme budget of £300 million a year in the next spending review. The final level of investment will be confirmed at the next spending review.

Colleges: Applications

12. **Mark Pritchard:** To ask the Secretary of State for Innovation, Universities and Skills if he will hold discussions with the Association of Colleges on the number of new students applying for college places in 2010. [271888]

Mr. Lammy: My right hon. Friend, the Secretary of State, and my hon. Friend, the Minister for Further Education meet the Association of Colleges regularly to discuss issues of mutual concern. They will be meeting the Association on 6 May.

19. **Mr. Boswell:** To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with representatives of higher education institutions on their procedures for allocating places for applicants. [271895]

Mr. Lammy: I have regular discussions with the HE sector and its representative bodies. Concerning the allocation of places, it is a steadfast principle that individual universities decide who they admit to their courses and Government do not interfere in that process.

Self-Employed: Training

13. **Andrew Gwynne:** To ask the Secretary of State for Innovation, Universities and Skills what steps the Government are taking to encourage the training and development of the self-employed in Denton and Reddish constituency. [271889]

Mr. Denham: Small businesses will be the top priority for the growing support that is available through Train to Gain, including the planned £350 million growth in the programme over the next two years.

We have also made Train to Gain more flexible for small businesses in ways designed to meet their particular needs.

But I want to make sure we are doing enough. So I have asked Peter Jones to lead a review looking at what more FE colleges and universities could do to support people entering self-employment from education or unemployment.

London Metropolitan University

14. **Jeremy Corbyn:** To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with the Higher Education Funding Council for England on the funding of London Metropolitan University. [271890]

Mr. Lammy: The situation at London Met is clearly serious and I sympathise with the students and staff at this time of uncertainty. However, responsibility for resolving the financial difficulties properly falls to the funding council and the university. Ministers cannot be involved in those discussions. I am though kept informed of developments and remain confident that HEFCE is acting appropriately in the best interests of the university and the rest of the sector.

Apprenticeships

17. **Sir Nicholas Winterton:** To ask the Secretary of State for Innovation, Universities and Skills how many residents of Macclesfield constituency received funding for an apprenticeship in 2008-09. [271893]

Mr. Denham: 240 young people and adults in Macclesfield started an apprenticeship in the six months from August 2008 to January 2009. This is an increase from 190 in the same period in 2007/08, and shows the result of the extra investment we have made in apprenticeships in England.

Nationally the number of apprenticeship places has also increased dramatically. 225,000 people started apprenticeships last year, up from only 65,000 in 1996/97.

22. **David Taylor:** To ask the Secretary of State for Innovation, Universities and Skills what recent discussions he has had with representatives of sector skills councils on access to apprenticeships for people with learning difficulties. [271898]

Mr. Simon: I and ministerial colleagues have met with a number of individuals and organisations to discuss access to Apprenticeships for people with Learning Difficulties and/or Disabilities. There have been no recent discussions with Sector Skills Councils (SSCs) specifically on this topic. As public bodies, SSCs are expected to promote equality for disabled people in their work. The Apprenticeships, Skills, Children and Learning Bill allows the provision of assistance and support in relation to finding Apprenticeships places and we are presently consulting on the Specification of Apprenticeship Standards for England.

24. **Mr. Kidney:** To ask the Secretary of State for Innovation, Universities and Skills what recent assessment he has made of the adequacy of the level of provision of apprenticeships by employers in *(a)* local government and *(b)* the third sector. [271900]

Mr. Simon: We made clear in World-class Apprenticeships that the level of apprenticeship provision in the public sector was poor and that we should take action to improve the situation. This has happened and we have a broad programme of activity right across the public sector to increase the number of apprentices.

During Apprentices Week in February we announced that there will be 21,000 additional apprenticeship places in the public sector in 2009-10. My right hon. Friend the Communities Secretary committed to her Department working with the Local Government Association to deliver the ambition that 7,500 of these would be in local government, roughly doubling the number of places available in local authorities.

We have no detailed information about the number of apprentices in the third sector. We know this is an area where we need to develop more provision and the recently published prospectus for Group Training Associations will be an important opportunity to develop new ways to deliver apprenticeships in non-traditional areas.

Scientific Research

18. **Phil Wilson:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the contribution scientific research can make to an economic upturn. [271894]

Mr. Lammy: As the Prime Minister said on 27 February, science, engineering and technology will be "the foundation of Britain's economic success". That is why the Budget maintained the Science and Research ring fence, and announced a £750 million Strategic Investment Fund to support advanced industrial projects of strategic importance.

Further Education

21. **Richard Ottaway:** To ask the Secretary of State for Innovation, Universities and Skills how many people in *(a)* Croydon and *(b)* England enrolled on a further education course in the last three years. [271897]

Mr. Simon: In 2005/06, 31,600 learners resident in Croydon participated in further education and skills courses funded by the LSC; in 2006/07, this total was 29,300; and in 2007/08, 25,000. In 2005/06, 4.78 million adult learners resident in England participated in FE and Skills courses funded by the LSC; in 2006/07 this total was 4.12 million; and in 2007/08, 4.25 million.

This reflects our prioritisation on longer, more valuable courses which will help people get new jobs and progress in work. Also funding an extra 75,000 college places this year as part of our response to the downturn. This Government are now investing in adult skills at record levels—over £5 billion this year.

Green-Collar Jobs

23. **Jeff Ennis:** To ask the Secretary of State for Innovation, Universities and Skills what steps his Department is taking to encourage collaboration between universities and the private sector in the development of green-collar jobs. [271899]

Mr. Lammy: Sustained investment over the last decade has given us a world class science and research base from which to exploit potential growth markets, including the green economy. Measures in the 2009 Budget, such as £4 billion support for UK renewable energy projects and £405 million for developing a low carbon energy and green manufacturing sector, offer further scope to promote university collaboration with the private sector in this area. Publication of the new Higher Education Framework will set out how the HE sector will take a more active approach to building British competitive strengths through higher skill levels, research and knowledge transfer. This work will include ensuring our universities have clear funding incentives to respond quickly to support areas of potential growth.

South Devon College

Mr. Sanders: To ask the Secretary of State for Innovation, Universities and Skills what recent consideration the Learning and Skills Council has given to funding the proposed development at South Devon College. [271892]

Mr. Simon: The Learning and Skills Council will have been in regular contact with all colleges affected by the current position. Colleges can expect to meet shortly with the external team of property advisers that the LSC has appointed who will ensure information held by the LSC is a sound basis for making future decisions.

Budget 2009 announced an additional £300 million in the current spending review period, which allows a limited number of further projects to start. Selection of projects will need to be based on objective criteria the LSC are currently developing in consultation with the sector.

Departmental Assets

Bob Spink: To ask the Secretary of State for Innovation, Universities and Skills when his Department last reviewed its assets and land and property holdings with a view to identifying and disposing of surpluses. [269864]

Mr. Simon: A fixed asset validation exercise is conducted by DIUS each year to identify assets which may require disposal. This was last performed during April-June 2008.

Further Education: Finance

Adam Afriyie: To ask the Secretary of State for Innovation, Universities and Skills how many colleges applied for funding under the Further Education Specialisation and Innovation Fund in 2008; which institutions were awarded funds in response to such applications; and how much was awarded to each. [270367]

Mr. Simon: The Further Education Specialisation and Innovation Fund, published in July 2008, received over 130 bids from specialist networks of FE colleges and training providers. Over 140 FE colleges were included in the networks that submitted proposals.

The five successful pathfinder projects, announced on 1 December 2008, include 34 FE colleges in their networks. The number of FE colleges involved in each project and the amount of funding allocated to each network are as follows:

South West Composites Gateway: led by City of Bristol College, will provide innovative solutions in composites design and manufacture for the aerospace and defence industry. Two FE colleges—£434,000.

College-Business Innovation Accelerator: led by Cornwall College, will enhance the quality of business innovation services in the Land-based and Marine sectors. Four FE colleges—£720,000.

Innovation in Sustainable Construction: led by West Nottinghamshire College, will encourage sustainable development in construction sector. 10 FE colleges—£513,000.

Knowledge Transfer Leadership: led by Barnfield College, will develop a corporate college model and build capacity to offer business innovation services to a number of sectors, including engineering. Four FE colleges—£585,000.

Link to FSXchange: led by the National Skills Academy (NSA) for Financial Services, will develop new business services for the financial services industry. 14 FE colleges—£720,000.

Higher Education: Coventry

Mr. Jim Cunningham: To ask the Secretary of State for Innovation, Universities and Skills what opportunities there are for undergraduate study in Coventry for those in full-time work. [272078]

Mr. Lammy: Several Coventry institutions provide undergraduate courses, including the Universities of Coventry and of Warwick, and colleges such as City College and Henley College Coventry. No data are held centrally on the number of part-time undergraduate courses offered by all of these, but between them the two universities have some 14,035 part-time undergraduate students. Coventry University offer many of their undergraduate courses on a part-time basis, plus some part-time-only ones, and work-based learning programmes designed to enable students to fit study around work, with an additional 750 employer co-funded places for 2009-10 and (through the Economic Challenge Investment Fund) activities such as more short courses offered to help with the current economic climate.

Measurement

Mr. Hollobone: To ask the Secretary of State for Innovation, Universities and Skills what discussions he has had with the Chief Executive of the National Weights and Measures Laboratory on his proposed guidance on prosecutions of persons selling goods in non-metric measures; and if he will make a statement. [272060]

Mr. Lammy: The National Measurement Office (formerly the National Weights and Measures Laboratory) is an Executive agency of the Department for Innovation, Universities and Skills. Among a number of other functions the NMO has responsibility for advising the Secretary of State and his ministerial colleagues on policy affecting all aspects of the national measurement system.

The chief executive and other National Measurement Office officials report regularly to the Secretary of State on all aspects of weights and measures policy, including on the development of revised guidance for trading standards departments on enforcement of units of measurement legislation.

Skills Funding Agency: Manpower

Mr. Willis: To ask the Secretary of State for Innovation, Universities and Skills how many staff will transfer from the Learning and Skills Council in 2010 to work for the Skills Funding Agency in each region of England. [272255]

Mr. Simon: As we informed the hon. Member in December 2008 there will be some 3,300 full time equivalents in the new structures in 2010, which is in line with existing LSC staffing levels. The Skills Funding Agency (SFA) will be an agency of DIUS and will have approximately 1,800 posts, including the 400 posts in the National Apprenticeship Service.

Of these 1,800 posts a significant number are forecast to be based in the regions, around 1,300 in total. These staff will work across a range of functions, including national functions such as the National Apprenticeship Service. Current planning assumptions are that each region will have a minimum of 120 posts. The LSC is managing a transition programme that will establish shadow structures by September 2009, at this point we will be able to provide further detail on the staffing levels in each region.

WORK AND PENSIONS

Children: Maintenance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much is outstanding in child support payments under the *(a)* former and *(b)* new child support scheme; over how many years such outstanding monies have been accumulated; and how many individuals are due payments in each category. [268746]

Kitty Ussher *[holding answer 20 April 2009]*: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Question about the Child Support Agency, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner as the Child Support Agency is now the responsibility of the Child Maintenance and Enforcement Commission.

You asked the Secretary of State for Work and Pensions, how much is outstanding in child support payments under the (a) former and (b) new child support scheme; over how many years such outstanding monies have been accumulated; and how many individuals are due payments in each category. [268746]

The information that the Child Support Agency holds on outstanding child support payments relates to cases rather than individuals. It should be noted that an individual may have more than one case. The latest information available shows that at the end of December 2008, £3.8 billion was owed in child maintenance by non-resident parents in a total of 1.1 million cases. Of this, almost £800 million of arrears was recorded on 555,000 cases administered under the current scheme, accruing each year since the 2003 and over £3 billion of arrears was recorded on 543,000 cases administered under the old scheme, accruing each year since 1993.

The Child Support Agency routinely publishes information relating to the amount of child maintenance arrears outstanding at the end of each financial year in Table 22 of the December 2008 Child Support Agency Quarterly Summary of Statistics (QSS). The latest copy of which is available in the House of Commons library, or via the internet at:

http://www.childmaintenance.org/publications/statistics.html

I hope you find this answer helpful.

Derek Twigg: To ask the Secretary of State for Work and Pensions how many people have had refunds from the Child Maintenance and Enforcement Commission for overpayments made to it and its predecessor during the last 12 months. [269309]

Kitty Ussher: The Child Maintenance and Enforcement Commission is responsible for the child maintenance system. I have therefore asked the Child Maintenance Commissioner to write to the hon. Member with the information requested.

Letter from Stephen Geraghty:

In reply to your recent Parliamentary Questions about child maintenance, the Secretary of State promised a substantive reply from the Child Maintenance Commissioner.

You asked the Secretary of State for Work and Pensions how many people have had refunds from the Child Maintenance and Enforcement Commission (CMEC) for overpayments made to it and its predecessor during the last 12 months. [269309]

The Child Maintenance and Enforcement Commission does not collate information on the number of people who have received a refund of maintenance. However I am able to tell you that in the 12 months to the end on March 2009, around £6.5m was refunded, less than 1% of the total collected. A refund may be appropriate in cases where a change of circumstances or additional information has resulted in a reduction to the maintenance assessment/calculation and maintenance has already been received for the period in question. A refund is only made where there are no outstanding child maintenance arrears.

I am sorry that I could not be more helpful on this occasion.

Civil Servants: Pensions

Mr. Maude: To ask the Secretary of State for Work and Pensions pursuant to the answer of 3 March 2009, *Official Report*, columns 1446-7W, on civil servants: pensions, how many civil servants have pension funds invested in *(a)* Standard Life and *(b)* Scottish Widows with-profits funds according to records held by the Pensions Regulator. [270174]

Mr. Watson: I have been asked to reply.

The Pension Regulator does not hold this information. The most recent information provided to the managers of the Civil Service Additional Voluntary Contributions Scheme indicates that, as at 31 December 2008, 475 civil servants had with-profits investments with Standard Life and 4,445 with Scottish Widows.

Departmental Complaints

Mr. Vara: To ask the Secretary of State for Work and Pensions what steps his Department has taken to address the issues of maladministration raised in the Parliamentary Ombudsman's report, Putting Things Right: complaints and learning from DWP of 30 March 2009; and if he will make a statement. [270067]

Jonathan Shaw: DWP is the biggest delivery department in the UK, serving over 20 million customers at any one time and, as the Public Accounts Committee recently noted, the overall level of complaints which the Department receives is small compared with the number of customers it serves and the number of contacts which it has every working day with those customers. Every opportunity is taken to ensure that the Department's customers receive excellent service but, as the ombudsman has said, an organisation of the size and complexity of DWP will always receive complaints. Where mistakes happen, the Department seeks to ensure that these are handled and resolved as quickly and as satisfactorily as possible.

The ombudsman's reports, together with those from the independent case examiner, are used as an important source of information on where systems improvements are required. The content of these reports is shared both within the Agencies and, where appropriate, more widely within the Department to ensure that lessons are learned and that changes are made where necessary.

The 'learning for the future' section of the ombudsman's report outlines a number of the actions already taken to address the specific issues raised in her investigations, and how the Department has taken a number of steps that go beyond simply implementing the recommendations made. For example, the Department has reviewed its guidance to staff about making redress for the consequences of maladministration and discussed this with the ombudsman and her staff. As a result, a new guide is being developed which will reflect more closely the ombudsman's principles for remedy.

The Department will continue to work constructively with the ombudsman in seeking to improve the service it provides to customers and in ensuring that changes are made to policies, procedures, systems or staff training as necessary to ensure that where maladministration is identified it is not repeated and that lessons learnt are put into practice.

Departmental Telephone Services

John Battle: To ask the Secretary of State for Work and Pensions what estimate he has made of the average *(a)* length and *(b)* cost (i) in total and (ii) per minute to callers of calls to each helpline operated by his Department and its agencies in each of the last five years. [271115]

Jonathan Shaw: The information is as follows:

—	*DWP helpline*	*Average call length*	*Total cost (in pence)*	*Cost per minute (in pence)*
0800	Pension Credit Application Line	14.56	[1]—	[1]—
0800	State Pension Application Line	14.40	[1]—	[1]—
0800	Benefit Inquiry Line	3.29	[1]—	[1]—
0845	General Inquiries	6.01	31.22	5.19
0845	Future Pensions	6.52	33.19	5.09
0191	International Pensions	6.54	58.61	8.96
0845	Disability Living Allowance	7.05	35.24	5.0
—[2]	Carer's Allowance	6.20	55.98	9.03
0800	Crisis Loans	21.15	[1]—	[1]—
0845	Employment Support Allowance	6.25	32.15	5.14
0845	Incapacity Benefit	4.29	24.57	5.73
0845	Income Support	4.37	24.88	5.70
0845	Jobseeker's Allowance	5.44	29.02	5.33
0845	Maternity Allowance	5.33	28.59	5.36

	DWP helpline	Average call length	Total cost (in pence)	Cost per minute (in pence)
0845	Social Fund	2.34	17.04	7.28
0845	Jobseeker Direct	4.22	24.30	5.76
0800	First Contact	18.11	[1]—	[1]—
0845	Employer Direct	6.30	32.34	5.13

0800	Crisis Loan Decision	29.51	[1]—	[1]—
0800	National Benefit Fraud Hotline	8.36	[1]—	[1]—
0800	Tax Evasion Hotline	7.22	[1]—	[1]—
0845	Debt Management	3.21	20.40	6.36

[1] No cost.

[2] Various STD numbers.

Notes:

1. Figures are taken from 2008-09. Some figures are based on quarterly performance and others on yearly performance.

2. Figures for the past five years not available as they were not recorded in the format requested.

3. To provide an illustration of the cost of calls the table uses BT's standard landline tariff of 3.864p per minute, with an 8p set up charge. Both amounts are inclusive of VAT.

4. The telecommunications market is very complex, with many different providers, all with their own tariffs and call plans. Recent research by the Department shows that over 80 per cent. of our customers contact the Department using landlines. As BT account for two-thirds of landline provision the table uses BT's landline tariff to calculate average costs. Only 9 per cent. of BT landline customers do not have a package that may now include free calls to 0845 numbers.

5. Figures for average call length include speed of answer and time spent with an agent.

John Battle: To ask the Secretary of State for Work and Pensions what estimate he has made of the average cost to a caller of a mobile telephone call to a helpline operated by his Department; and if he will make representations to mobile telephone network providers to seek to lower these costs. [271116]

Jonathan Shaw: The average cost of a call from a mobile telephone to numbers used by the Department varies widely. It depends on the contract between mobile operators and a caller, the number used—0800 for initial claims and 0845 for changes in circumstances, and the length of the call.

Charges are generally in the 10p to 15p range, but can be up to about 40p for some 'pay as you go' contracts. If a mobile caller is concerned about charges, they can ask to be called back.

Following consultation with the Department for Business, Enterprise and Regulatory Reform (BERR) and the Office of Communications (OFCOM), the Department is making representations to mobile telephone operators to reduce and where possible eradicate these costs for its customers. As a first step, it is approaching operators to provide a free phone service for 0800 numbers. BT has already announced that calls to 0800 numbers will be free from 1 May. The Department hopes other operators will follow this lead.

John Battle: To ask the Secretary of State for Work and Pensions what steps his Department has taken to reduce the cost to callers of a telephone call to its helplines; and if he will provide freephones in Jobcentres for clients to call such helplines. [271117]

Jonathan Shaw: DWP's telephony numbering policy is that:

Calls to claim benefit should be free, so we should use 0800 numbers.

Calls for other reasons, which take less time to resolve, should be charged at a standard rate, so we should use 0845 numbers.

We currently offer to call back customers who request a call back, so that we can absorb the cost of the call.

We are constantly evaluating whether our numbering approach and technology best serves our customers. The telecommunications market is ever changing and increasingly complex and we are keen that our numbering policy is sustainable and continues to meet the needs of our customers. To ensure we maintain a consistently up-to-date view of the situation we are working with Ofcom, our telephony suppliers and with other telephony service providers.

While we encourage customers to access self-service and telephone channels from their own home, for Jobcentre Plus customers, free to use Customer Access Phones with direct dial to our Helplines are available for those who do not have access to a telephone at home. People assessed to be in a vulnerable position due to their personal circumstances, for example customers who are homeless, can also make use of the Customer Access Phones.

In addition, Jobcentre Plus offices have touch screen Jobpoint terminals installed for customers to use to access the same full range of vacancies available through the Jobseeker Direct helpline.

John Battle: To ask the Secretary of State for Work and Pensions how many complaints *(a)* his Department and *(b)* each of its agencies received on the cost of telephone calls to their helplines in the latest period for which figures are available. [271119]

Jonathan Shaw: The cost of calls to our helplines is not identified as a separate category in the Department's complaint data. Accordingly the information you request is not available.

Disadvantaged: Finance

Justine Greening: To ask the Secretary of State for Work and Pensions how much of the deprived areas funds *(a)* allocated by his Department in (i) 2006-07 and (ii) 2007-08 and *(b)* carried forward to 2008-09 have been spent, broken down by district; and if he will make a statement. [258770]

Mr. McNulty: In January 2007, £19.3 million Deprived Areas Fund was allocated to Jobcentre Plus Districts of which £0.1 million was spent.

In 2007-08, £27 million Deprived Areas Fund was allocated to Jobcentre Plus Districts, of which they spent £16.5 million. For 2008-09, £1 million was allocated to Jobcentre Plus to cover the estimated costs of residual outcomes.

The available information on expenditure by Jobcentre Plus Districts is in the table.

City Strategy Pathfinders were paid a grant of £42.5 million in 2007-08: an original allocation of £32.1 million plus authority to spend an additional £10.4 million. The Department does not hold a breakdown of expenditure by City Strategy Pathfinders at Jobcentre Plus District level.

Incapacity Benefit

Steve Webb: To ask the Secretary of State for Work and Pensions how many jobseeker's allowance claimants have terminated their claim and immediately claimed incapacity benefit on the grounds of poor mental health in each of the last 24 months. [269016]

Mr. McNulty: Causes of incapacity are based on the International Classification of Diseases, 10th Revision, published by the World Health Organisation. To qualify for incapacity benefit/severe disablement allowance, claimants have to undertake a medical assessment of incapacity for work which is called the personal capability assessment. Therefore, the medical condition recorded on the incapacity benefit/severe disablement allowance claim form does not itself confer entitlement to incapacity benefits. For example, the decision for a customer claiming incapacity benefit on the grounds of mental or behavioural disorders would be based on their ability to carry out the range of activities in the personal capability assessment.

The available information is in the following table.

Claimants who flow off jobseeker's allowance and on to incapacity benefit with mental and behavioural disorders

	Number
August 2006	22,700
November 2006	22,700
February 2007	27,000
May 2007	25,400
August 2007	23,700
November 2007	—
February 2008	22,300
May 2008	24,900
August 2008	13,400

Notes:

1. Data are rounded to the nearest 100.
2. November 2007 data are not available.
3. Figures for the latest quarter do not include any late notifications and are subject to major revision.
4. The table shows the number of people who started an incapacity benefit claim, with a mental and behavioural disorder, within 90 days of flowing off job seeker's allowance.
5. A monthly breakdown is not available.

Source:

Department for Work and Pensions Terminations dataset 5 per cent. and Department for Work and Pensions 5 per cent. sample datasets.

John Barrett: To ask the Secretary of State for Work and Pensions how many people previously in receipt of incapacity benefit have been transferred to contributions-based jobseeker's allowance in the most recent 12 month period for which figures are available. [270002]

Jonathan Shaw *[holding answer 22 April 2009]:* The available information is in the table.

Claimants previously in receipt of incapacity benefit/severe disablement allowance flowing to contribution based jobseeker's allowance in the most recent 12 month period

	Number
November 2007	2,200
February 2008	5,100
May 2008	5,100
August 2008	3,300

Notes:
1. Figures are subject to a high degree of sampling error and should only be used as a guide.
2. Figures are rounded to the nearest 100.
3. Figures updated to include late notified terminations.
4. Since the data is recorded in three month snapshots, a 90 day window was chosen to make sure that all flows between these benefits were picked up.

Source:
Department for Work and Pensions Information Directorate 5 per cent. terminations dataset.

Jobseeker's Allowance

Mrs. May: To ask the Secretary of State for Work and Pensions what mechanisms are in place to inform claimants of contribution-based jobseeker's allowance of *(a)* the maximum payment period, *(b)* the date on which entitlement will expire and *(c)* other benefits to which they may be entitled. [262511]

Mr. McNulty: The administration of Jobcentre Plus is a matter for the acting chief executive of Jobcentre Plus, Mel Groves. I have asked him to provide the hon. Member with the information requested.

Letter from Mel Groves:

The Secretary of Stat for Work and for Pensions has asked me to reply to your question regarding the processes that are in place to inform customers claiming contribution-based Jobseeker's Allowance of the maximum payment period, the date on which entitlement will expire, and other benefits to which they may be entitled. This is something that falls within the responsibilities delegated to me as Acting Chief Executive of Jobcentre Plus.

Information about entitlement to contribution based Jobseekers Allowance (JSA(C)) is available from a number of sources, including through a range of leaflets and the Jobcentre Plus and Direct Gov websites. In addition, the explanatory notes of all Jobseeker's Allowance (JSA) claim forms, and the leaflet "Jobseeker's Allowance and getting back to work" which is issued to every person claiming JSA, specifically detail that the maximum payment period for contribution-based Jobseeker's Allowance is 182 days.

Customers claiming JSA are kept informed of changes to their benefit by the issue of 'system-generated' notifications as changes occur. When customers have received 165 days of JSA(C), they are informed by a system generated letter that their entitlement is nearing the maximum payment period. In addition, they are informed when their entitlement has actually expired, and that they may still receive Class 1 National Insurance credits if they continue to attend the Jobcentre and remain available for and actively seeking employment. These notifications ask the customer to contact Jobcentre Plus if they need any further information or if they think the decision is incorrect.

If the customer did not apply for income based Jobseekers Allowance JSA(IB) at the outset of their claim, they will be invited to claim once their entitlement to JSA(C) has ended. If the customer decides to claim JSA(IB) they are required to complete a claim form to reassess their entitlement, which will include information about how they can claim Housing Benefit and Council Tax Benefit, if not already in payment.

Additionally, customers can ask for a 'Better off Calculation' to be carried out at any time during their claim. This calculation will look at a customer's current financial circumstances and their potential entitlement to any other benefits. Information about the 'Better off Calculation' is available via a number of sources, including leaflets and the Jobcentre Plus and Direct Gov websites.

Non-profit Making Associations

Margaret Moran: To ask the Secretary of State for Work and Pensions how many contracts his Department has with social enterprises; and if he will make a statement. [271421]

Jonathan Shaw: Social enterprises are not defined by a particular legal form and as a result are not required to register with any one body or specifically identify themselves as such. Information on how many contracts DWP has with social enterprises is therefore unavailable.

Pension Credit: Overpayments

Mrs. May: To ask the Secretary of State for Work and Pensions pursuant to the answer to the hon. Member for Cardiff Central of 12 January 2009, *Official Report*, column 41W, on pension credit: overpayments, how much of the money recovered had originally been overpaid due to *(a)* fraud, *(b)* official error and *(c)* customer error in each month. [252994]

Kitty Ussher: The information is in the following table:

Pension credit overpayment recovery by classification, 2007-08

£000

	Apr	May	Jun	Jul	Aug	Sept	Oct	Nov	Dec	Jan	Feb	Mar
Fraud	12	21	23	15	12	16	21	13	18	17	22	19
Official error	159	124	121	125	121	124	176	164	145	122	94	48
Customer error	1,368	1,297	1,374	1,520	1,641	1,790	2,396	1,927	1,756	1,870	1,943	1,666
Other	686	777	801	691	622	574	608	616	412	469	442	478

April to September 2008

£000

	Apr	May	Jun	Jul	Aug	Sept
Fraud	19	17	26	37	21	25
Official error	44	24	53	38	32	38
Customer error	1,756	1,922	2,026	2,211	1,808	2,212
Other	616	429	440	600	446	431

Note:
April to September 2008 data is indicative only.

Fraud classification relates to where the customer has been convicted or admitted fraud, or accepted an administrative penalty.

Other classification includes overpayments that have arisen where the Department has not been advised of a death in time to stop an automated payment into an account, or where an overpayment is identified following death.

Social Security Benefits: Control Orders

Patrick Mercer: To ask the Secretary of State for Work and Pensions pursuant to the answer of 23 February 2009, *Official Report*, columns 87-8W, on control orders, how much his Department spent on *(a)* incapacity benefit, *(b)* jobseeker's allowance, *(c)* disability living allowance and *(d)* income support for individuals subject to control orders in the fourth quarter of 2008. [264687]

Jonathan Shaw: For the period 1 October 2008 to 31 December 2008 the Department for Work and Pensions spent less than £8,000 on those individuals mentioned in *Official Report*, columns 87-8W.

Unemployment

Steve Webb: To ask the Secretary of State for Work and Pensions what his most recent estimate is of the number of *(a)* employment vacancies and *(b)* persons claiming jobseeker's allowance in each parliamentary constituency. [260120]

Mr. McNulty: The information has been placed in the Library, and provides separate data for unfilled and notified vacancies to give the fullest picture of the number of Jobcentre Plus vacancies in any particular constituency. The labour market is dynamic and many new vacancies are filled so quickly they do not appear in the statistics for live unfilled vacancies, which are based on a snapshot of the vacancies available on a particular day.

The coverage of these figures relates only to Jobcentre Plus notified and unfilled vacancies. Many vacancies come up through other recruitment channels and the proportion accounted for by Jobcentre Plus is likely to vary over time, according to the occupation of the vacancy and industry of the employer, and by local area. Estimates of the number of unfilled job vacancies across the economy as a whole are available from the monthly ONS Vacancy Survey, based on a sample of some 6,000 enterprises. However, the ONS survey is currently designed to provide national estimates only.

In addition, it should be noted that parliamentary constituencies are often a poor match to the area covered by the local labour market. The number and range of jobs available to people within normal travel to work distances often extends well beyond immediate constituency boundaries. For this reason Government statisticians believe that this data should not be used to make assumptions about the availability of vacancies to people living in these constituencies.

Ministerial Corrections

Monday 20 April 2009

NORTHERN IRELAND

Inquiries

Mr. Paterson: To ask the Secretary of State for Northern Ireland how much has been spent to date on lawyers and legal firms employed by the *(a)* Hamill, *(b)* Wright and *(c)* Nelson inquiries. [257142]

[Official Report, 26 February 2009, Vol. 488, c. 905W.]

Letter of correction from Shaun Woodward:

An inconsistency has been identified in relation to the answer given to the hon. Member for North Shropshire (Mr. Paterson) on 26 February 2009. The figure provided by the Billy Wright Inquiry was calculated on a different basis to the figures provided by the Robert Hamill Inquiry and the Rosemary Nelson Inquiry. To avoid any confusion, it would have been helpful to make clear in the answer the basis on which the figures were calculated.

The figures provided should have been explained as follows:

Mr. Woodward: The following amounts have been spent by the Inquiries to the end of January 2009 on lawyers and legal firms:

(a) The Robert Hamill Inquiry—£8.74 million (includes legal costs for participants whose legal representation is funded by the Inquiry);

(b) The Billy Wright Inquiry—£4.87 million (excludes legal costs for participants whose legal representation is funded by the Inquiry; also includes some payments to inquiry legal representatives during February);

(c) The Rosemary Nelson Inquiry—£13.05 million (includes legal costs for participants whose legal representation is funded by the Inquiry).

DEFENCE

Naval Bases

Mr. Swire: To ask the Secretary of State for Defence (1) what the monetary value of the surface ship refitting contracts was at HM Naval Base Portsmouth in each year since 1997; [261789]

(2) what the monetary value of surface ship refitting contracts was at HM Naval Base Plymouth Devonport in each year since 1997; [261811]

(3) what the monetary value of surface ship refitting contracts was at HM Naval Base Rosyth in each year since 1997. [261812]

[Official Report, 11 March 2009, Vol. 489, c. 427-28W.]

Letter of correction from Quentin Davies:

Errors have been identified in the table of the written answer given to the hon. Member for East Devon (Mr. Swire) on 11 March 2009. In compiling the table of surface ship upkeep costs for contracts carried out at HM Naval Base Portsmouth and the Royal Dockyards at Devonport and Rosyth an administrative error resulted in the misappropriation of some of the values and rounding of figures.

The correct answer should have been:

Mr. Quentin Davies: There is no requirement to keep contractual information for surface ship upkeep work (refits and docking periods) beyond seven years. The values of contracts completed prior to 2001 are, therefore, no longer held. The following table provides the costs for upkeep work carried out since 2001 on Aircraft Carriers, Type 42 Destroyers, Type 22 and 23 Frigates, Landing Platform Dock, Royal Fleet Auxiliary and Mine Countermeasure vessels:

£ million

	Location		
	Portsmouth	*Devonport*	*Rosyth*
2001	8.9	10.3	126.3
2002	6.0	37.2	45.9
2003	23.9	5.6	35.9
2004	23.2	40.0	158.6
2005	11.5	0.0	31.8
2006	8.7	17.5	25.2
2007	27.8	37.0	21.0
2008	24.0	26.0	41.0

The figures shown for years 2001 and 2004 include upkeep work packages for the aircraft carriers HM Ships Invincible and Illustrious.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture: Land

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate his Department has made of the area of farmland of each agricultural land classification at risk of flooding. [262117]

[Official Report, 16 March 2009, Vol. 489, c. 826W.]

Letter of correction from Huw Irranca-Davies:

An error has been identified in the written answer given to the hon. Member for South-East Cambridgeshire (Mr. Paice) on 16 March 2009.

The correct answer should have been:

Huw Irranca-Davies: DEFRA's June Survey of Agriculture and Horticulture estimated the total area of land on agricultural holdings in England at 9.34 million hectares at June 2008. According to an earlier DEFRA commissioned estimate of assets at potential risk of flooding, using a different primary data set, 1.35 million hectares of agricultural land is in areas of potential flood risk in England. Of this, approximately 40 per cent. is grade 1 or 2, and 60 per cent. is grade 3, 4 or 5. DEFRA is seeking to refine this estimate with the support of its delivery partners.

Ministerial Correction

Tuesday 21 April 2009

DUCHY OF LANCASTER

Electoral Register

Mr. Oaten: To ask the Chancellor of the Duchy of Lancaster what percentage of individuals on the electoral register are listed anonymously. [260601]

[Official Report, 9 March 2009, Vol. 489, c. 166W.]

Letter of correction from Kevin Brennan:

The UK Statistics Authority has identified an error in the written response it provided to the hon. Member for Winchester (Mr. Oaten) on 9 March 2009:

The original answer was as follows:

Kevin Brennan *[holding answer 4 March 2009]:* The information requested falls within the responsibility of the UK Statistics Authority. I have asked the authority to reply.

Letter from Karen Dunnell, dated March 2009:

> As National Statistician, I have been asked to reply to your question asking what percentage of individuals on the electoral register are listed anonymously. (260601).
>
> Just over one in one thousand individuals registered to vote in the local/European elections are listed anonymously in England and Wales, for 2008. Just under one in one thousand are listed in Scotland, for 2008. The legislation for anonymous registration is not yet enacted in Northern Ireland.

The National Statistician has informed me that the correct answer should have been:

> Just over one in one hundred thousand individuals registered to vote in the local/European elections are listed anonymously in England and Wales for 2008; under one in one hundred thousand are listed in Scotland for 2008. The legislation for anonymous registration is not yet enacted in Northern Ireland.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 491**

SESSION 2008–2009

20 April 2009—30 April 2009

Printed indexes to Hansard

This index is produced from the House of Commons Library's Parliamentary Information Management Services (PIMS). It contains references to all material in the bound volume of Hansard.

- At the end of the session a sessional index is produced containing references to material in the bound volumes for the whole session.

Indexes on the Parliamentary website

Volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Petitions', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various PIMS thesauruses allow. For example, Education, Higher education, or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, Identity and Passport Service, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Union and European institutions as bodies is entered under 'European Union' and the named individual institutions. Material about what the Union and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Cross references

- *See* references indicate that all the material has been entered under another heading.
- *See also* references indicate that additional information may be found under another heading.

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements, written questions and ministerial corrections:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
  - References ending in 'p' indicate written petitions.
  - References ending in 'mc' indicate ministerial corrections. (Where a volume number is given, the correction appears in a later volume).
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
